GENERAL ORDERS MANUAL

INTRODUCTION

The General Orders Manual of the San Francisco State University Police Department is published in accordance with authorities outlined in California Education Code Section 89605 and Penal Code Section 830.2 (c). The Manual provides governing principles for the operation and direction of the University Police Department and guidance for its employees.

This Manual exists as a compliment to all existing state and federal laws, state administrative regulations, and the administrative rules and regulations of the California State University. This manual is also intended to be an extension of the California State University Systemwide Policy Manual for University Police Departments, and is not in conflict with that manual or any applicable Collective Bargaining Agreements.

All additions and/or modifications to or deletions from this Manual shall occur only upon the approval of the Chief of Police. The Chief of Police reserves the right to either temporarily or permanently amend, revoke or make additional rules and regulations as circumstances dictate and/or when such actions are in the best interest of the University.

The General Orders Manual will be reviewed as needed and updated as necessary to insure it remains in compliance with the standards established by State and Federal laws as well as collective bargaining agreements.

It is expected that employees within the department will comply with these rules and regulations as promulgated. Violations of these rules and regulations will be vigorously reviewed and may result in disciplinary action up to and including termination.

It should be understood that rules and regulations cannot be established to address all situations that may be encountered by employees in the general discharge of their duties. Therefore, each individual employee is expected to, at all times, adhere to the letter and spirit of each rule and/or regulation where applicable, and in all other instances employ good judgment and sound discretion.

d. Records, documentation, or invoice requirements must be provided for any reimbursement requests. Written documentation describing the item, purpose, amount of the item, and an invoice with the vendor name is included. The Associate Director for Operations & Parking/Transportation or the Chief of Police is responsible for reviewing and approving all expenditures.

e. Persons or positions authorized to receive payments or collect coin collection boxes are provided instruction in carrying out such transactions. These positions include the Associate Director for Operations & Parking/Transportation, Fiscal Services Support Coordinator, Fiscal Services Administrative Specialist, Parking Coordinator and Transportation Coordinator. Parking & Transportation coin collection boxes are delivered daily to the Cashier’s Office by two designated individuals. The bills are counted, deposited, and a receipt is provided to the
department for record and posting purposes.

D. The department is subject to regular audits from the following:

1. The University Auditor is an independent internal auditor to ensure all departments and divisions of SFSU are in compliance with all University, State, and Federal regulations and policies. Routine audits are scheduled with notification of the Chief.

2. The Chancellors Office of the California State University System and the California State Auditor, Bureau of State Audits, also conduct periodic audits.

3. A midyear report is submitted at the conclusion of the first six months of every fiscal year by the University Administration and Finance Division. The department will submit expenditure projections (midyear report) for the remaining of the budget cycle. These projections and the review of expenditures by the campus Finance Department act as an independent audit of all accounts.

4. Annually, the Chief will request an audit for the maintenance of cash accounts to ensure compliance with procedures for collecting, safeguarding and dispensing of cash. Fiscal Procedures:

   a. Campus Internal Auditor will:

      1) Review signature authority and compliance with University standards
      2) Daily Parking Permit deposits
      3) Fingerprinting (Live Scan & Ink Card), Police report copies and Parking Citations deposits

The campus internal audit can be waived by the Chief if a FISMA Audit of the Police Department is conducted by the CSU.

E. Agency-Owned Property:

1. The property management function is established to ensure that all agency-owned or agency-controlled property is accounted for, and maintained in a state of readiness at all times and inventoried at least annually.

2. Property management responsibilities are divided between the Police Department and the University’s Property and Inventory Office in the Corporation Yard. This includes all certified SFSU and Police Department procedures to handle equipment distribution, property control, reissue, disposal, and actual physical inventories.

3. All property/equipment that has been purchased with department resources or assigned to the department by the University’s Property and Inventory Office, is considered department-owned. Once equipment is issued to an individual officer, non-sworn employee or department unit, the proper care and maintenance of the property (continued state of operational readiness) is the responsibility of the person or unit to which the property was assigned.

4. The Administrative Services Coordinator is responsible to control and maintain all spare non-issued equipment and property to ensure that it is stored appropriately and kept in a state of readiness.
5. Procedures and responsibilities for Police Department equipment and property inventories are as follows:

a. The Administrative Services Coordinator is responsible for maintaining an inventory of equipment assigned or issued to department employees and will be responsible for maintaining the equipment in a constant state of operational readiness. Semiannual inventory reports will be conducted within the department. For example:

1) The Emergency Preparedness Coordinator is responsible for all disaster response equipment and supplies.
2) Computer equipment is maintained and controlled by the Information Technology Consultant.
3) Parking equipment is monitored and controlled by the Parking Coordinators.
4) Investigation equipment shall be controlled by the Commanding Officer of Investigations.
5) All other equipment is the responsibility of the Administrative Services Coordinator.

b. The University's Property and Inventory Office will record and assign a unique property identification number to all tangible (such as equipment) or intangible (such as software) with a value of $1,000 and life expectancy of at least one year. Exceptions to this include:

1) Sensitive items (such as cell phones or lap tops) with a value over $500 will also be tagged.
2) This marking system does not apply to department firearms, but Property Control retains serial numbers of these items.

6. Procedures for the issuing/reissuing agency-owned property.

a. Each employee will be issued equipment as required by their unit contract, and noted on the department’s individual equipment receipt. (Attached)
b. Employees will sign noting receipt of equipment and the form will be kept in the employee’s personnel file. See attachment – Inventory of Equipment Form.
c. The department will replace equipment that is damaged or shows wear.
d. At the time of separation from the department, all issued equipment will be returned.
e. Property found to be no longer useful or needed, shall be designated as surplus and will be surveyed out using the appropriate form (see attachment).
f. Property may be reissued to other department personnel as deemed appropriate by a Field Operations Division Commander or supervisory personnel with control over equipment issuing, such as the Chief, Deputy Chief, Commander(s), Captain(s), Lieutenant(s), and some line supervisors. All equipment change-outs shall be analyzed to determine if replaced property can be utilized in another level of the organization (example: Technology upgrades).
g. The Police Department will conform with the University regulations regarding reissue and/or disposal of equipment deemed no longer of use to the Department. See University Policy under Distribution Services in the Property Management Manual. A sample reference on Property Disposition and Survey is attached. For the most recent policy, please refer to the Property Management Manual website.

1) One SFSU Detective shall sit as a member of the SFSU Property Survey Board and shall ensure that all state property loss reports are filled and investigated.

7. Administrative review of care and use of department property:

a. All reported abuse or damage of department equipment, including vehicles, will be reviewed by the appropriate division commander to determine whether:

1) Department rules, policy or procedures were violated.
2) Any relevant policy was clearly understandable and effective to cover the care or use.
3) Department training is currently adequate.

b. All findings of policy violations or training will be reported to the Chief of Police for resolution and/or discipline.

c. All such incident reports shall be retained for a period of 3 years unless there is a reoccurrence.

d. The Police Department complies with the University regulations regarding reissue and/or disposal of equipment deemed no longer of use to the department.

8. University Police building maintenance, repair, and alterations work request procedures:

a. The Associate Director for Operations & Parking/Transportation is responsible for approving and submitting all work requests to Facilities and Service Enterprises (Plant Operations). In the absence of the Associate Director for Operations & Parking/Transportation, the Chief of Police or his/her designee will be authorized to sign and approve work request orders.

b. Work requests for basic repair, maintenance, and alterations should be filled out as a draft only on the SFSU Work Request Form and this copy should be submitted to the Associate Director for Operations & Parking/Transportation for review, approval, and processing.

c. The SFSU Work Request Form can be obtained in the Fiscal Services Support Coordinator’s Office or directly from the SFSU Facilities and Service Enterprises campus web-site. If the draft SFSU Work Request Form is filled out using the campus web-site, please print out a copy of the draft to submit to the Associate Director for Operations & Parking/Transportation. DO NOT SUBMIT THE WORK REQUEST. Submitting work requests without the review and approval from the
Associate Director for Operations & Parking/Transportation will cause problems with record logs, delays in completion of the work, funding, and payment.
d. Once the draft Work Request is approved, the Fiscal Services Support Coordinator will input and officially submit this information on the SFSU Facilities and Services Enterprises campus web-site along with identifying an appropriate Log #, e-mail, and account number as needed. All approved Work Requests require an estimated cost for record and accounting purposes and, upon completion of the work, actual costs are charged to an account as provided by the University Police.
e. As determined by the Associate Director for Operations & Parking/Transportation, specific requests for maintenance, repair, and alterations to the University Police building that includes but not limited to painting, signage, carpeting, carpentry, electrical, plumbing, fixtures, etc., are forwarded to the Chief of Police for review and approval.

II. POLICY: The University Police, through established procedural guidelines, will keep all levels of the University informed about any incidents which could bring either positive or negative notoriety to the University. Consultation with the next higher authority is recommended in situations that are not clearly defined.

3. The Watch Commander is responsible for initiating chain of command notifications as soon as the incident permits. TRANSIT SHELTER MAINTENANCE AND JOINT USE AGREEMENT

THIS AGREEMENT is made and entered into this 23rd day of August, 2011, by and between the CITY AND COUNTY OF SAN FRANCISCO, a municipal corporation (the "City"), acting by and through its Municipal Transportation Agency ("SFMTA"), and THE BOARD OF TRUSTEES OF THE CALIFORNIA STATE UNIVERSITY, which is the State of California acting in and educational capacity, on behalf of San Francisco State University (SF State) (collectively, the "parties"): 

RECITALS

A. The City owns and operates, by and through the SFMTA, a municipal transportation system known as the “San Francisco Municipal Railway” (“Muni”).

B. The City owns and operates a high-level boarding platform for its light rail vehicles on 19th Avenue and Holloway to serve SF State and the surrounding community, which platform contains various platform amenities, including transit shelters.

C. On August 5, 1994, SF State and City executed an agreement under which SF State has maintained said platform amenities, including transit shelters, in exchange for use of the boarding platform for display of SF State-related information. The agreement expired on December 31, 2010.

D. The parties wish to enter into a new agreement to continue this arrangement for 10 years. The parties intend this relationship to continue even if the boarding platform is relocated as a result of development at the adjacent Park Merced residential apartment complex.

NOW, THEREFORE, the parties agree as follows:

I. GRANT OF PLATFORM RIGHTS AND PRIVILEGES; OWNERSHIP OF SHELTERS

A. Rights Granted.

The SFMTA grants to SF State the right to use and maintain the transit shelters and other amenities on the City’s 19th and Holloway boarding platform (the “platform”) during the term of this Agreement. SFMTA warrants and represents that SF State shall have the exclusive right to place SF State-related information and artwork on shelters as authorized herein, except for Muni information, schedules, maps and signage and public notices and information. It is understood by SF State in the exercise of the rights herein granted, that it or its employees, students or agents will not sell or permit space on transit shelters or on the boarding platform to be used for commercial advertising or purposes otherwise unrelated to the educational mission of SF State.

B. Rights Retained.

SF State acknowledges that the City intends to, and does, retain and reserve all rights which are not specifically granted by this Agreement, which rights generally flow from the ownership, operation and maintenance of a municipal public transit system.

II. DISPLAY AREAS

A. SF State Display Areas.

SF State shall have the exclusive right to use five (5) existing double-sided display cases and one (1) side of another double sided display case, four feet by six feet (4’ x 6’). Said display

-1-
cases may be used for SF State promotional material, student artwork and/or university-related notices and announcements.

B. City Display Areas.

The City shall have the exclusive right to use one (1) side of a double-sided display case, four feet by six feet (4’ x 6’) in dimension ("SFMTA single-side display area"), to display Muni schedules and information. SFMTA shall supply display materials to SF State for insertion into the cases; however, SFMTA shall also have access to the cases for insertion of time-sensitive materials. Notwithstanding the above, SF State may use the SFMTA single-side display area at any time that SFMTA does not require its use. SFMTA shall give SF State 48 hours notice of its intent to use the SFMTA single-side display area.

The City shall also have the exclusive right to use a two foot by three foot (2’ x 3’) sheet of Lexan for display of a standard Muni route map. SFMTA shall supply such maps to SF State as needed for insertion into the display cases.

III. INSTALLATION AND MAINTENANCE

A. Installation of: Shelters and Amenities.

The SFMTA has installed the ramp, platform, shelters and platform amenities on the boarding platform, and has provided electricity to the platform. Should the SFMTA decide to relocate the boarding platform during the term of this Agreement, the SFMTA shall install, or cause to be installed, the ramp, platform, shelters and platform amenities in the new location.

B. Maintenance and Repair

1. SF State Responsibilities. Throughout the term of the Agreement, SF State shall be responsible for maintaining the transit shelters and platform amenities at a maintenance service level comparable to that employed at the San Francisco State University campus. SF State’s duties shall include maintenance, and if necessary, repair or replacement of damaged or destroyed shelter or platform components, as described below. SF State’s repair and replacement obligations shall be limited to repairs and/or replacements necessitated by vandalism, damage or destruction; SF State shall have no obligation to repair or replace platform or shelter components solely as a result of normal wear and tear.

3. **Maintenance and Repair Schedule.** SF State shall make routine inspection calls on the platform at least twice a week. SF State shall make more calls if conditions warrant. At each inspection call, if needed, SF State shall perform general cleaning of the shelters and all ramp and platform components, except the areas around and underneath the platform, which would require access from the trackway for the purpose of performing any of the services of this Agreement. Additionally, SF State shall inspect the lighting fixtures and replace defective lights. SF State shall also remove, when necessary, all graffiti, stickers, posters, litter, dust, dirt and debris from the ramp and platform areas, place such debris and trash into an appropriate container, and remove it from the platform. Under no circumstances shall SF State sweep debris or trash onto the trackway.

SF State shall remove notices and information from any public display cases on a regular basis, but not more frequently than once a week. SF State shall post a sign on each public display case indicating how often such notices and information will be removed.

SF State shall repair or replace within forty-eight (48) hours of notification any damage, vandalism, or graffiti found on or around the ramp and platform areas for which SF State is responsible under subsection (1) above. If the shelter damage, vandalism, or graffiti is of a hazardous nature, or if light sources need replacing, SF State shall immediately restrict access to any hazardous area, and shall repair, replace or remove such conditions within twenty-four (24) hours of notification or as needed.

If SF State does not maintain its schedule or remedy outstanding deficiencies within forty-eight (48) hours of notification, the CITY shall be entitled to correct the deficiencies and bill SF State for its actual costs for the work performed. In that event, SF State shall reimburse the CITY for the entire amount of its costs within thirty (30) days.

4. **Reimbursement for SFMTA Performing SF State Work.** Should SF State request the SFMTA to perform any of SF State’s maintenance or repair obligations, or any other work that is not within the SFMTA’s responsibilities, SF State shall pay the SFMTA for the costs of such work in an amount and pursuant to a schedule as agreed to by the parties. Such agreement(s) shall not require further amendment of this Agreement, but shall be effected by a letter agreement signed by the Executive Director/CEO or his or her authorized designee and approved as to form by the City Attorney’s Office and by Marilyn Lanier, Senior Associate Vice President, Physical Planning and Development and Stephen Smith, Director of Procurement on behalf of SF State.

IV. **DISPLAY MATERIALS**

SF State is expected at all times to use good judgment in the materials it displays on the platforms. It is not the intent of SF State or the SFMTA to create a public forum on the platform. SF State shall bear all responsibility for the content of materials it chooses to display on the platform and indemnify, defend and hold the City harmless from any damages resulting from any claims or lawsuits brought with respect to materials displayed by SF State pursuant to this Agreement. SF State and the City shall share equally any liability, including the costs of investigating or defending any lawsuit or claim, arising from actions involving the content of materials displayed on any public display cases.

V. **TERM AND TERMINATION**

A. **Term and Extension of Term**

This Agreement shall commence on January 1, 2011 and terminate on December 31, 2021.
B. Default of SF State

1. Termination. The City may serve upon SF State thirty (30) days written Notice of Termination of this Agreement, and if SF State does not cure the default within thirty (30) days, the City may terminate this Agreement and may assume exclusive use and possession of all display cabinets on the platform. No such termination of this Agreement by the City shall in any way affect the obligations of SF State or the rights of the City which have accrued prior to such termination.

2. Actual Damages. In the event that the City elects not to serve a Notice of Termination of this Agreement, or if such a Notice is served but SF State's default is cured, then City shall be entitled to recover from SF State any actual loss or damage which City may have incurred by reason of SF State's default.

SF State agrees not to discriminate against disabled persons in the provision of services, benefits or activities provided under this Agreement and further agrees that any violation of this prohibition on the part of SF State, its employees, agents or assigns will constitute a material breach of this Agreement.

Q. Limitations on Contributions

Through execution of this Agreement, SF State acknowledges that it is familiar with section 1.126 of the City’s Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, or for a grant, loan or loan guarantee, from making any campaign contribution to (1) an individual holding a City elective office if the contract must be approved by the individual, a board on which that individual serves, or the board of a state agency on which an appointee of that individual serves, (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six months after the date the contract is approved. SF State acknowledges that the foregoing restriction applies only if the contract or a combination or series of contracts approved by the same individual or board in a fiscal year have a total anticipated or actual value of $50,000 or more. SF State further acknowledges that the prohibition on contributions applies to each prospective party to the contract; each member of SF State's board of directors; SF State's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than 20 percent in SF State; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by SF State. Such amount shall not be considered a penalty, but rather agreed monetary damages sustained by City because of SF State's failure to comply with this provision.

S. Preservative-treated Wood Containing Arsenic

Contractor may not purchase preservative-treated wood products containing arsenic in the performance of this Agreement unless an exemption from the requirements of Chapter 13 of the San Francisco Environment Code is obtained from the Department of the Environment under Section 1304 of the Code. The term “preservative-treated wood containing arsenic" shall mean wood treated with a preservative that contains arsenic, elemental arsenic, or an arsenic copper combination, including, but not limited to, chromated copper arsenate preservative, ammoniacal copper zinc arsenate preservative, or ammoniacal copper arsenate preservative. Contractor may purchase preservative-treated wood products on the list of environmentally preferable
alternatives prepared and adopted by the Department of the Environment. This provision does not preclude Contractor from purchasing preservative-treated wood containing arsenic for saltwater immersion. The term “saltwater immersion” shall mean a pressure-treated wood that is used for construction purposes or facilities that are partially or totally immersed in saltwater.

T. Protection of Private Information

Contractor has read and agrees to the terms set forth in San Francisco Administrative Code Sections 12M.2, “Nondisclosure of Private Information,” and 12M.3, “Enforcement” of Administrative Code Chapter 12M, “Protection of Private Information,” which are incorporated herein as if fully set forth. Contractor agrees that any failure of Contractor to comply with the requirements of Section 12M.2 of this Chapter shall be a material breach of the Contract. In such an event, in addition to any other remedies available to it under equity or law, the City may terminate the Contract, bring a false claim action against the Contractor pursuant to Chapter 6 or Chapter 21 of the Administrative Code, or debar the Contractor.
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed, in triplicate, by their duly authorized officers, on the day and year first hereinafter written.

Administrative Agreement Between the
San Francisco State University Police Department
and the
San Francisco Police Department

The intent of this agreement is to clarify and affix responsibility for providing efficient
crime service for the area contiguous to San Francisco State University, as defined by
Education Code, Section 89560. The agreement will define the appropriate agency
designated for the response and handling of Part I Violent Crimes on and within the
San Francisco State University campus.

The San Francisco State University Police Department will be the primary reporting
and investigating law enforcement agency for all crimes, except Homicide, Suicide,
and those death cases deemed suspicious by the Medical Examiner of San Francisco,
occuring on the San Francisco State University campus.

Death, Homicide, Suicide, Suspicious Death Case Protocol

Immediate Scene Control

San Francisco State University Police Officers who are first on the scene shall secure
the scene and summon SFPD. Scene control requirements will be established by
SFPD and followed by all personnel on scene. The Medical Examiners Office shall be
called on ALL death cases occurring on San Francisco State University property. The
Medical Examiners Office shall have primary investigative responsibilities, and the
Medical Examiners Office will direct the response of the San Francisco Police
Homicide Division Inspectors as deemed necessary.

SFSU P.D. Inspectors shall assist the Medical Examiners Office and the SFPD
Homicide Inspectors from start to finish, including on scene work-up through court
disposition.

SFSU P.D. Inspectors shall receive copies of all reports and relevant case materials to
allow for complete in house files.
SFSU P.D. Inspectors shall be periodically assigned to a SFPD Homicide Team for orientation and training (upon completion of appropriate homicide investigation course work).

**Death Notifications/Press Releases**

San Francisco State University will be permitted to assist in the rapid I.D. of victim(s) and be responsible for notifying the Medical Examiner of information regarding the victim's identification. The university has made special arrangements to accommodate and support victim family members. No information regarding the death shall be given out without the approval of the Medical Examiners Office and the Homicide Inspectors in the case of a homicide or suspicious death.

Deaths in the university environment cause extensive operational and administrative problems when attempting to deal with information surrounding incident circumstances. All news releases regarding suspicious deaths and deaths due to homicide will be jointly prepared by the SFPD Public Affairs Office, OIC of the Homicide Division, and the San Francisco State University Office of University Communications.

The Chief of the San Francisco State University Police Department or his/her designee, the O.I.C. of Homicide, and the Medical Examiner shall consult prior to the release of any information related to suspicious deaths or homicides.

The San Francisco Police Department will be the primary reporting and investigating law enforcement agency for all crimes occurring outside the boundaries of the San Francisco State University Campus.

Both agencies will continue to provide mutual aid assistance as appropriate when requested. Further, each agency assumes responsibility for preparing the appropriate reports for the Bureau of Criminal Identification and Investigation, State of California, and for the Federal Bureau of Investigations Uniform Crime Report. The SFSU P.D., S.F.P.D., and S.F. Medical Examiner all agree to work as a collaborative team in the investigation of "on campus" homicides and suspicious deaths. Additionally, the SFSU Police and the Medical Examiners Office agree to
work as a collective team in the investigation of all other deaths occurring "on campus".

Executive Order: 787
Title: Public Safety Policy Manual
Effective Date: August 23, 2001
Supersedes: Executive Order 427

1. The agreement between the Board of Trustees of the California State University and the Statewide University Police Association which was implemented July 1, 1982, required the development of a systemwide Public Safety Policy Manual. Article 8.2 of that agreement states:

Within twelve (12) months of the effective date of this Agreement, the CSU shall develop a systemwide Public Safety Policy Manual. The contents of such Manual may be revised by the CSU. Law Enforcement Media Relations
MODEL POLICY MANUAL
Overview

The goal of this publication is to assist law enforcement to recognize and understand the needs and requirements of the media and to help the media understand the methods, policies, and constraints governing law enforcement. Often, without this mutual understanding, conflict arises between the right of the press to obtain information for dissemination to the public and the agency’s responsibility to protect an investigation or the victim of a crime.

As much as possible, clear-cut policies and procedures must be established and reduced to writing by the law enforcement agencies. These policies should be established in cooperation with the media, and should cover unusual, as well as routine, occurrences. The policies should establish lines of communication between both professions, and include what will be released, when certain releases are to be made and who is to release it.

While law enforcement shares the responsibility for the initial notification of the media of newsworthy events, the media must be responsible for creating any pooling method through which law enforcement makes those notifications. This method must be convenient to law enforcement and expeditious to the media. Training is probably the most effective means of communicating the necessity for mutual cooperation, and is the responsibility of both the media and law enforcement. Because so much of the contact between the media and law enforcement is at the line level, the beat reporter and field officer must have a clear understanding of the others’ requirements and constraints. Without this understanding, no amount of liaison between managers will overcome the friction that can develop at the “working level.”

The information in this manual was developed by representatives of the news media and law enforcement. It is divided into several major topic areas. The most important of these is the establishment of a written law enforcement-media policy. By adopting this policy individual agencies create their direction, attitude, and philosophy in this area. This is important because it influences the relationship the agency enjoys with the public and the news media. These relationships often determine law enforcement effectiveness.

Law enforcement and the news media both share a desire to serve the public by providing a free flow of information to satisfy the public’s constitutional right to know. They also jointly share the responsibility of a second constitutional safeguard, the right to a fair trial. The American Bar Association in the second chapter defines these responsibilities by recommending standards relating to the issue of Free Press vs. Fair Trial.

Through established statute and case law, exactly what access does a reporter have to criminal justice information? In the chapter covering media access, the rights and restrictions are explored. They are brought to light through a series of statutes, legal opinions, and case law.

Other topics include the development of the position of departmental information officer, news media needs and requirements, and the development of professional news presentations. These areas complete the circle of information in which the law enforcement community must have knowledge to be able to interact responsibly with the news media. Application of this information will result in the successful and constitutional balance between the free press and a fair trial while enjoying increased public trust and support.

1 Policy Statements

Introduction

As no two law enforcement agencies are alike, no two media policies will be alike either. Each chief executive will have to evaluate the community, the media, the public, his agency, and the needs of all, before establishing a media policy. Any well-founded policy, however, should address certain specifics in dealing with the media. The model policy statements offered, which pinpoint critical areas of law enforcement/news media relations, are general in content but universal in application.

A policy establishes guidelines, sets direction, and expresses department attitude and philosophy. Policy insures uniformity and consistency in operations. The importance of a department media policy cannot be over-emphasized as its words will dictate the tone of the agency’s media relations. The chosen policy statement may well influence how the public views its law enforcement agency. And how citizens regard their law enforcement officials frequently determines law enforcement effectiveness.

Responsibility to Provide Public Information

Most citizens will have little, if any, direct contact with law enforcement. By and large, common perceptions will be formed on what is seen, read, and heard via the mass media. Progressive law enforcement executives recognize that a well-informed, supportive and cooperative public is absolutely essential to successful policing. Public trust and confidence for law enforcement are dependent upon open and honest communication with the citizenry. Such communication is most effectively and efficiently achieved through the news media.

Responsible law enforcement leaders also recognize the need and value of a free press in our society. Law enforcement in the United States does not, cannot, operate in a vacuum absent of public accountability and question. A sincere media policy will stress the agency’s obligation in fulfilling the public information need and endorsing the role of the media, while simultaneously preserving individual rights and justice.

Policy Statement 1. This agency exists to serve the people and is accountable to the people for the fair and impartial enforcement of law. Likewise, this agency has an obligation to provide accurate, timely information regarding law enforcement activities to the people. The constitutionally free press is essential to our democratic society and serves as the public informer and common advocate. Within established law and without compromise for justice or infringement upon individual rights, members of this department will cooperate fully in meeting the needs of the news media in providing the fullest possible disclosure of information, as provided by law.

Making the Information Available

To serve the public best, so as to create and maintain an atmosphere of trust and confidence, the chief executive must make his agency accessible to the public and the news media. The media policy must insure that all members of the department are responsible for providing public information of varying degrees. Management personnel especially must accept the role of public communications. A policy statement must stress fairness, impartiality and honesty when dealing with reporters. A policy must provide a procedure for notifying the media on matters of public or media interest.

Policy Statement 2. Within established guidelines and procedures the department shall notify, on a timely, fair and impartial basis, members of the media on matters of public interest. Such notification will not be made during such time that notice would compromise the integrity of any ongoing criminal investigation or department operation. In such cases media notification will be made as soon as practical.

Policy Statement 3. Public information and communication is a direct responsibility of management personnel. This responsibility may be delegated operationally within established procedures. The department member, rank notwithstanding, who is most familiar with an investigation, crime, or incident should be designated to respond to media inquiries. When this is not practical an immediate supervisor or superior should respond after being fully informed by knowledgeable subordinates. At no time will members of this department intentionally mislead or misinform members of the media.
Consistency

A critical aspect of the law enforcement/news media relationship is consistency in the type of information released. Members of the agency must know what information is releasable and what is not. Reporters should know what information is accessible and what information will not be released. The nature and extent of information released may vary, particularly when inquiries pertain to criminal investigations. Generally, information is withheld when release would jeopardize successful case investigation, endanger a victim, witness, or informant, or release is legally prohibited. Except that all information, properly and legally withheld, should be disclosed when the need for withholding no longer exists.

Crime and arrest information that is routinely released to the media should not be withheld simply because the victim or arrestee is a person of prominence, or publicized solely because of that prominence.

Policy Statement 4. Members of this agency will strive for consistency in releasing information to the media for public dissemination. Information that is normally released should not be withheld based solely on a decision relating to the personal prominence of those involved. Conversely, information generally not routinely distributed should not be put forth solely as a result of personal prominence.

Restricted Information

Although most operational information can be disseminated at the lowest level of the department, the release of certain types of information should be done only by the agency head or his designee. Department policy should outline the type of information reserved for release by the chief executive. Generally, restricted information includes that which is related to internal affairs, officer-involved shootings, pending civil matters, and statements that are operationally sensitive.

Policy Statement 5. Normally, statements of policy expressing official positions of the department, official responses to criticism of the department, or statements pertaining to pending or ongoing civil litigation involving the department shall be made only by the agency head or designated persons. Likewise statements about internal investigations, disciplinary matters, and officer-involved shootings shall be made only by the agency head or designated persons.

Withholding Information

Policy must, of course, balance the obligations of the agency and the needs of the media with the rights of defendants, victims, and reporting parties. Defendants' rights are preserved when agencies adhere to the American Bar Asso-

ication Standards relating to the issue of "Free Press vs. Fair Trial." Concerning the rights of victims and reporting parties, they are clearly outlined in the California Government Code, Section 6254(f).

A 1982 amendment to Section 6254(f) requires that information regarding victims and reporting parties be released unless such disclosure would endanger either the victim, reporting party, or the successful completion of the investigation. Section 6254(f) also provides for the withholding of the address of victims of certain sex crimes.

Policy Statement 6. Victims should be informed that the Government Code Section 6254(f) requires that information regarding complaints and criminal investigations be released to the public "unless such disclosure would endanger the safety of a witness or other person involved in the investigation, or unless disclosure would endanger the successful completion of an investigation." No department member should ever guarantee to any victim or reporting party that a reported case will not receive publicity.

The decision to not release information about a particular crime or incident, or the name of a victim or reporting party must be made by a command officer. This decision will be made only when release would endanger either the victim, witness or a successful investigation.

Crime and Disaster Scenes

Nowhere is there a greater chance for misunderstanding and conflict between law enforcement and the media than at scenes of tactical operations, accidents, and disasters. Such events heighten the interest of both the public and the media. Accurate media coverage of these events can be extremely beneficial but media technology and competitiveness can also be cause for concern. Emotions are peaked and journalists as well as law enforcement officers will likely be working under stress. It is absolutely essential that working guidelines be established in advance by policy in order to reduce potential problems during such occurrences.

Policy Statement 7. The ranking department member present at a disaster or crime scene is responsible for providing relevant, timely, and accurate information to the news media.

1. Disaster and accident scenes may be closed to the public pursuant to 409.5 PC; however, news media representatives are exempt from this restriction. As soon as a disaster or accident has been identified and secured, authorized media shall be permitted free access to the affected area, after being advised of any existing danger. Department members shall not decline the rescue of news media personnel who are in danger but they will not provide an escort into or out of dangerous areas. In general, authorized members of the news media are to be permitted free movement in the area as long as they do not hamper, deter, or interfere with the law
enforcement or public safety functions.

2. Crime scenes should be opened to news media to the fullest extent consistent with investigative needs. Crime scenes which are located in areas of public access should be opened, if only partially, once the scene is secured and is safe. Reporters and/or photographers shall be kept sufficiently distant from a crime scene being searched or preserved to protect it from being disturbed, or evidence from being destroyed or contaminated. News media in the company of, or duly authorized by public safety officials, or others in an official capacity shall be considered to be legally on the property and shall not be subject to arrest for criminal trespass unless they are impeding the efforts of law enforcement or other emergency personnel.

3. The scene of a department tactical operation is the same as a crime scene except that authorized news media shall be permitted within the outer perimeter of the scene subject to any restrictions as set forth by the field commander. The news media, including reporters and photographers, shall be allowed access to the best possible location as determined by the field commander. A designated officer or other person shall be assigned to keep the news media briefed. Department members shall not jeopardize a tactical mission in order to accommodate the news media, but every effort shall be made to keep them well-informed of the progress of the operation.

Multi-Agency Coordination

Frequently law enforcement operations will overlap jurisdictions and involve more than one agency. The media policy should address the importance of inter-agency cooperation and coordination. Coordination between involved agencies is just as important as intra-agency coordination when disseminating public information. Prior planning and communication between agencies will result in consistency in release and avoiding embarrassment.

Policy Statement 8. When the department is involved with other agencies in incidents or matters of mutual responsibility and concern, department personnel will cooperate and coordinate fully with those agencies in releasing public information. Generally, the agency of primary jurisdiction should make appropriate news releases citing assisting or secondary agencies. At any time other agencies assist this department in an operation or investigation, the assistance will be noted in any news release.

Summary

The essence of any policy is guidance. It is important that any policy pertaining to the news media be thoroughly understood at all levels of the department. Unlike most department policies, however, a media policy should be designed for circulation to the media as well. A well-founded policy known to both will serve to reduce the chance of misunderstanding and enhance the working relationship between law enforcement and the media. The efficient and effective operations of both law enforcement and the media are, to a large degree, dependent on a mutual relationship of understanding, honesty, and trust. When such a relationship exists, the public benefits most of all.
Procedure

Introduction: American Bar Association Standards

The greatest number of news media inquiries to law enforcement will be seeking information about arrests that have been made and/or criminal investigations that are being conducted. Law enforcement should cooperate in providing such information which is a legitimate concern to the citizens. However, it is vitally that law enforcement agencies are mindful of the conflicting constitutional issues pertaining to free press and fair trial. It is the agencies’ responsibility to ensure that information released to the media for public dissemination will not infringe on a defendant’s right to receive a fair trial.

During the last several decades pre-trial publicity has become a frequent issue, particularly in major criminal trials. In an effort to provide information to the public and protection for the defendant against prejudicial pre-trial publicity, the American Bar Association established standards relating to pre-trial publicity. Although not binding, the standards are adhered to by most law enforcement agencies in the United States.

The standards are in four parts. Part I relates to the conduct of attorneys; Part II relates to the conduct of law enforcement officers; Parts III and IV relate to the conduct of judicial hearings. These standards became association policy in 1978.

Only Part II of the standards are contained in this manual as relating to law enforcement agencies. They recommend that law enforcement voluntarily adopt internal rules similar to those established for lawyers as regards release of potentially prejudicial information. If these agencies fail to do so within a reasonable time, the recommendations propose that the courts in the respective jurisdictions should apply the standards by court rule or legislative action, with appropriate sanctions for violations.

Part II of ABA Standards on Fair Trial and Free Press

As pertains to the release of information by law enforcement agencies, the following regulations should be made effective in each jurisdiction:

A. A regulation governing the release of information relating to commission of crimes and to their investigation, prior to the making of an arrest, issuance of an arrest warrant, or the filing of formal charges. The regulation should establish appropriate procedures for the release of information. It should further provide that when a crime is believed to have been committed, pertinent facts relating to the crime itself and to investigative procedures may properly be made available, but the identity of a suspect prior to arrest and the results of investigative procedures shall not be disclosed except to the extent necessary to aid in the investigation, to assist in the apprehension of the suspect, or to warn the public of any dangers.

B. A regulation prohibiting:
   1. The deliberate posing of a person in custody for photographing or television by representatives of the news media, and
   2. The interviewing by representatives of the news media of a person in custody except upon request or consent by that person to an interview after being informed adequately of the rights to consult with counsel and of the rights to refuse to grant an interview.

C. A regulation worded essentially as follows:
   From the commencement of the investigation of a criminal matter until the completion of the trial or disposition without trial, a law enforcement officer within this agency shall not release or authorize the release of any extrajudicial statement for dissemination by and means of public communication, if such statement poses a clear and present danger to the fairness of the trial.
   In no event, however, shall a law enforcement officer make an extrajudicial statement concerning the following matters:
   1. The existence or contents of any confession, admission, or statement given by the accused, or the refusal or failure of the accused to make any statement, and
   2. The possibility of a plea of guilty to the offense charged or a lesser offense or other disposition.

Consistent with paragraph C, a law enforcement officer may be subject to disciplinary action with respect to
extrajudicial statements concerning the following matters:

a. The prior criminal record (including arrests, indictments, or other charges of crime), the character or reputation of the accused, or any opinion as to the accused’s guilt or innocence or as to merits of the case or the evidence in the case;

b. The performance of any examinations or tests, or the accused’s refusal or failure to submit to an examination or test;

c. The identity, testimony, or credibility of prospective witnesses; and

d. Information which the law enforcement officer knows or has reason to know would be inadmissible as evidence in a trial.

D. A regulation authorizing a law enforcement officer at any time:

1. To make a factual statement of the accused’s name, age, residence, occupation, and family status, and if the accused has not been apprehended, to release any further information necessary to aid in the accused’s apprehension or to warn the public of any dangers that may exist;

2. To announce the fact and circumstances of arrest, including the time and place of arrest, resistance, pursuit, and use of weapons;

3. To announce the identity of the investigating and arresting officer or agency and the length of the investigation;

4. To announce the identity of the victim or complainant if the release of that information is not otherwise prohibited by law;

5. To make an announcement, at the time of seizure of any physical evidence (other than a confession, admission, or statement), which is limited to a description of the evidence seized;

6. To disclose the nature, substance, or text of the charges, including a brief description of the offense charged;

7. To quote from or refer without comment to public records of the courts in the case;

8. To announce the scheduling or result of any stage in the judicial process; and

9. To request assistance in obtaining evidence.

Standards Summary

A. Paragraph A applies to the period prior to arrest or the filing of formal charges. It calls for a departmental or agency regulation governing the release of information relating to the commission of crimes and their investigation.

This section has two important objectives. One objective plainly is to prevent the release of information that may later prove to be highly prejudicial to the accused.

The other is to encourage the release of information vital to the public interest without undermining the effectiveness of the investigation or damaging the reputation of persons who are under suspicion but may never be arrested or formally charged.

B. Paragraph B deals with photographing, televising, and interviewing persons in custody. The possibility of prejudice to the suspect or the accused is substantial.

Under no circumstances can a person in custody be forced to pose for camerapersons or to submit to an interview by representatives of the news media. On the other hand, the person in custody should be able to consent to or to request either if he or she desires.

In view of the special danger posed by news media interviews, a clear and complete reminder of the right to refuse to grant an interview is necessary. The person in custody should be required to sign a waiver to the effect that he or she desires to grant an interview to a particular reporter.

C. Paragraph C notes that law enforcement officers are prohibited from making extrajudicial statements concerning:

1. The existence or contents of any confession, admission, or statement given by the accused, or the refusal or failure of the accused to make any statement;

2. The possibility of a plea of guilty to the offense charged or a lesser offense or other disposition.

Law enforcement officers rarely, if ever, have to make public, extrajudicial statements relating to these matters.

If for some reason a statement becomes necessary or appears so, the prosecutor is in the best position to assess the reasons for public disclosure and to resolve the difficult questions of content, manner, and timing. The prosecutor, after all, has formal legal training and trial experience to aid him in these judgments. The law enforcement officer generally has neither. The prime objective is to ensure release only after careful consideration of the potential impact on the defendant’s right to a fair trial.

D. Paragraph D describes categories of information that a law enforcement officer is permitted to release under all circumstances. These categories allow law enforcement agencies to inform the public about the arrest, including biographical information about the person in custody, a description of any physical evidence seized, the crimes charged, and other related information. Although there may be cases in which law enforcement agencies will choose to release more or less information. However, the primary obligation for openness lies with law enforcement agencies.
Guidelines for the Release of Information

A. Releasable Information:
1. Facts and circumstances of the arrest.
   a. Time and place
   b. Resistance put up by the suspect.
   c. Pursuit necessary to apprehend
   d. Use of weapons by officer or suspect.
2. Identification of investigating and arresting officers and length of investigation.
3. Limited description of evidence seized.
   a. Do not make any references to confessions, admissions, or statements.
4. Disclose the nature, substance, text of charge.
   a. Can include a brief description of the offense charged.
5. Quote from or refer to public records of the court in the case, without any personal comment.
6. Schedule or result of any stage of the judicial process.
7. Any request for assistance from the public to obtain evidence.
8. The identity of victim or complainant if the release of that information is not otherwise prohibited by law.

B. Do Not Release
1. Prior to arrest, do not release the identity.
2. Prior to arrest, do not release the results of investigative procedures.
3. Can release above items 1 and 2 if:
   a. Will aid in the investigation.
   b. Assist in the apprehension of the suspect.
   c. Will warn the public of danger.
4. Prior criminal record, reputation, or character.
   a. Can release name, age, residence, occupation, family status.

6. Existence or contents of any confession, or statement given by a suspect or the refusal to make a statement.
7. Give an opinion about the possibility of a plea of guilty to offense charged or a lesser offense or other disposition.
8. Performance of any examinations or tests or the suspect’s refusal to or failure to submit to an examination or test.
9. Any photographs or mug shots except:
   a. If release will aid in arrest of suspect.
   b. Aid in the investigation.
   c. Warn the public of danger.
10. The identity, testimony, or credibility of prospective witnesses.
11. Any personal opinion as to the suspect’s guilt, innocence, or merits of the case.
12. Any information which would be known to be inadmissible in court.
13. Do not move or pose suspects solely for the purpose of allowing photographs or news film to be taken.
   a. However, do not prevent photographers from taking unposed pictures in public places.
14. References to investigative procedures such as fingerprints, polygraph tests, ballistic tests, or laboratory tests.

Summary
These guidelines have been based on the standards for the release of information by law enforcement agencies as set forth by the American Bar Association. They do not, however, purport to cover every situation or subject on which a question may arise.
Therefore, while it is the intent of this manual to promote cooperation with the news media by releasing newsworthy information, additional care should be exercised so as not to release any information that would impair the ability of a suspect to obtain a fair trial.
Chapter 1

3 Statutes, Court Decisions and Attorney General Opinions

Introduction

The rules governing the relations between law enforcement agencies and the news media come from various sources, primarily the U.S. and California constitutions and the statutes of the California legislature, as interpreted by federal and state courts. Some rules are based on legal opinions issued by the California attorney general.

Rather than categorize these rules in some hierarchy or priority, they are presented here as they are likely to occur in the course of routine situations, then in special situations.

Routine News Coverage

Crime Scenes

There are no laws governing press or public access to the scene of a crime or the vicinity of a tactical operation such as a hostage response. The discretion as to how much access to provide rests with the agencies involved. This contrasts with the rules for the scene of an accident, natural disaster or riot (see pp. 10).

Crime or Incident Reports

The California Public Records Act exempts portions of certain law enforcement records from public disclosure, either temporarily or permanently. But it expressly sets forth information about complaints, requests for assistance and the ensuing investigative efforts of the responding agency that must be made public on request — unless release of the information would endanger the safety of a person involved in the investigation or jeopardize the successful completion of the investigation or a related investigation.

The data prescribed for routine release includes:

- The time, substance and location of all complaints or requests for assistance received by the agency.
- The time and nature of the response thereto.
- To the extent the information regarding crimes alleged or committed or any other incident is recorded:
  - The time, date and location of an occurrence,
  - The time and date of the report.
- Except in crimes of sexual assault or child abuse, the name, age and current address of the victim,
- The factual circumstances surrounding the crime or incident,
- A general description of any injuries, property or weapons involved.

Conveying the Information

Under the Public Records Act, the public has a basic right to inspect any nonexempt record during the office hours of a state or local agency. Guidelines for public access under this heading shall not operate to limit the hours that public records are open for inspection. If inspection rights are denied, the denial must demonstrate that the record in question is exempt under express provisions of the California Public Records Act or that, on the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

The attorney general has interpreted this Government Code Section to mean that so long as the information specified is provided, the form (oral or written, access to the original record or a copy, etc.) is not legally critical. Some departments summarize required information for the press in written releases or oral briefings. But the act states its provisions are not to be construed to permit an agency to delay access for purposes of inspecting public records.

(Since the attorney general’s opinion was issued, the code section has been amended in a way that suggests it is the intent of the Legislature that the records themselves be made available for inspections — with deletions as appropriate.) Language added to the statute in 1987 permits the victims of sexual assault or child abuse to request that their names be treated confidentially.

The inability of the press to inspect crime and arrest reports may create serious problems of legal exposure.

Sexual Assaults and Child Abuse.

When the crime is one or more of nine specific offenses involving sexual assault or child abuse, two exceptions to the rule of victim disclosure take effect: (1) the victim’s address may not be revealed; and (2) the victim (or his or her parent or guardian if the victim is a minor) may request that the victim’s name not be revealed.

The nine offenses are:

- Rape (Penal Code 261)
- Spousal or statutory rape (P.C. 264)
- Aiding and abetting rape or penetration with a foreign
object (P.C. 264.1)
- Child abuse or endangerment (P.C. 273a)
- Cruel or inhuman corporal punishment (P.C. 272d)
- Sodomy (P.C. 286)
- Lewd acts with a child under 14 (P.C. 288)
- Oral copulation (P.C. 288a)
- Penetration with a foreign object (P.C. 289)

If the crime report involves both a crime on the list and some other crime — for example, rape and robbery — the agency may honor the victim’s request by disclosing the name and address of the victim but withholding information disclosing that the person is a victim of one of the crimes on the list. In the example above, this would mean disclosing that the person identified was the victim of a robbery but not a rape victim.

**Arrest Reports**

A minimal amount of information from arrest reports must also be disclosed under the Public Records Act, unless release of a given item would endanger the safety of a person involved in an investigation or threaten to frustrate its completion. The information prescribed for routine disclosure includes:

- The full name, current address and occupation of every individual arrested.
- Each individual’s physical description, including date of birth, color of eyes and hair, sex, height and weight.
- The time and date of arrest.
- The time and date of booking.
- The location of the arrest.
- Factual circumstances surrounding the arrest.
- The amount of bail set.
- The time and manner of release or the location where the individual is currently being held.
- All charges against each individual, including any outstanding warrants from other jurisdictions and parole or probation holds.

**Criminal History Information**

Criminal history information is defined as “the master record of information compiled (by either the Department of Justice or a local law enforcement agency) pertaining to the identification and criminal history of any person.” The Penal Code prohibits dissemination of such information unless the material released is merely statistical or research data that does not identify the subject of the record or is done to help apprehend a person wanted in connection with the commission of a crime. Disseminating rap sheet information about a person just arrested would not fit either of these exceptions, and the unauthorized release of such information can be prosecuted as a misdemeanor.

**Mug Shots**

A state appellate court held in *People v. McCloud* that a mug shot is not a non-disclosable part of a summary criminal history. In this decision, the court said that a San Francisco law enforcement agency did not break the law when it released to the press a booking photo of an arrested person.

**Names of Juveniles**

When a juvenile (any person under 18) is detained for questioning or taken into custody as a suspect in a criminal matter, his or her identity may not be disclosed. The juvenile court has jurisdiction over disclosures in such matters, and neither press nor public may inspect these records except by order of the court. The fact that an arrest has been made and other circumstantial information may be disclosed, however, so long as it does not identify the juvenile.

Depending on the nature of the charges, the case may be handled in open juvenile court hearings or, if it is determined that the juvenile is not a fit and proper subject for juvenile court supervision, the defendant may be referred to the criminal court system for trial as an adult.

**Inactive or Closed Cases**

The general exemption of records of criminal investigations in the Public Records Act applies only so long as there is a concrete prospect of enforcement. When an investigation has been concluded and the district attorney has decided not to prosecute, for example, the investigative record is open to public inspection, though according to an appellate court decision (*South Coast Newspapers v. City of Oceanside*), information in one or more of the following categories may be deleted:

- The identity of a confidential informant.
- Confidential information supplied exclusively by a confidential informant.
- Information that would disclose certain investigative techniques or procedures.
- Information the disclosure of which would constitute an unwarranted invasion of personal privacy.
- Information the disclosure of which would threaten the safety of a law enforcement officer.

Note that when an enforcement proceeding is concluded, neither the integrity of an ongoing investigation nor the fair trial rights of the accused can justify withholding investigative records.

**Special Issues**

**Press Access to Records and Information**

All California public agencies outside the judicial and legislative branches are governed by the Public Records Act. The act’s essential thrust is that all kinds of recorded information are subject to public inspection and copying unless: (1) a specific exception or exemption within the act or a confidentiality rule elsewhere in state or federal law permits or mandates non-disclosure; or (2) the agency can show that on the facts of the particular case the public interest served by not making the record public clearly outweighs the public interest served by disclosure.
The rules governing access to information compiled by law enforcement agencies in the course of typical criminal investigations were reviewed earlier. The following rules govern access to records and information in less routine circumstances.

**Non-Criminal Investigations**

The Public Records Act only exempts law enforcement investigations conducted for correctional, licensing or law enforcement purposes. If the investigation was conducted for some other purpose — such as to determine a county’s civil liability in a lawsuit alleging negligence in exposing a jail inmate to attack by a cell mate — the courts have ruled that the investigative record is not confidential.

**Surveillance and Intelligence Operations**

The California Supreme Court has ruled that the Public Records Act permits the state Department of Justice to delete three categories of information from its organized crime intelligence files:

- Information identifying the subjects of a surveillance
- The identities of confidential informants
- Information provided in confidence by confidential informants

In *ACLU v. Deukmejian*, the court applied these exemptions to two kinds of intelligence systems: (1) a computer-based compilation of data from the public records of various state jurisdictions, and (2) an index-card system, not necessarily based on public records, that listed persons suspected of involvement in organized crime. The court noted that the computer system would contain neither the identities of confidential informants nor information from them and so ordered the department to delete personal identifiers and release the 100 printouts requested.

However, the court excluded the 100 index cards, on grounds that all three categories of “deletable” information might be found in each record. The department might well have to check with the originating agency to determine the confidential status, if any, of informants and their information, the court said, and once all such data plus personal identifiers had been deleted, the remainder would only be certain “generalities,” the disclosure of which would be of marginal and speculative benefit to the public in contrast to the considerable time, cost and effort involved in determining deletions.

**Personnel-Related Data**

The Penal Code makes peace officer personnel records and citizen complaint reports confidential. (A personnel record is defined as a file kept under the officer’s name that lists his or her marital status; family members; educational, employment and medical history; election of employee benefits; occasions of advancement, appraisal or discipline; complaints as to performance; and any other information the release of which would constitute an unwarranted invasion of personal privacy.) This confidentiality does not apply to records of investigations by a grand jury or district attorney into allegations of officer misconduct.

It is unclear whether this confidentiality applies to peace officer employment applications when the applicant has not been hired. The Penal Code appears to refer only to employed officers, since it includes a number of categories (evaluations, discipline, complaints) that would not pertain to applicants. Moreover, in *Johnson v. Winter*, a state appellate court held that the public interest in learning how a government agency exercises its discretion outweighs the public interest in confidentiality given by a sheriff’s office to a file compiled concerning the unsuccessful application of a person for special duty status.

Finally, it should be noted that the Public Records Act does not exempt or except from disclosure employment contracts between a state or local agency and any public official or public employee. This has been interpreted to mean that the exact compensation a public employee receives is a matter of public record.

**Concealed Weapon Permits**

In *CBS v. Block* (1986), the California Supreme Court ruled that the public interest in knowing how permits have been issued by police and sheriff’s departments, to whom and for what purpose, outweighs the public interest in protecting holders of concealed weapons permits against attack and in encouraging applications for permits by those needing such protection. Thus, the identities of applicants and holders of permits are not exempt from disclosure under the Public Records Act’s balancing test.

The court did say, however, that specific details that would reveal when and where the applicant or permit holder is vulnerable to attack, as well as information concerning the applicant’s own or his or her family’s medical or psychological history, could be deleted from the record prior to providing public access.

**Death in Custody**

The attorney general has concluded that reports by local law enforcement agencies concerning the death of a person in custody only need to be released to those with a “legally cognizable interest” in the person’s death — an official interest, for example, or the interest of a surviving family member.

**Mental Health Custody**

Peace officers are authorized, upon probable cause, to take into custody a person whose mental disorder makes him or her gravely disabled or a danger to others or to him or herself and to place the person with a mental health facility for a 72-hour treatment and evaluation.

All information and records obtained in the course of providing services under this involuntary treatment law, as well as all information obtained by a law enforcement agency from a mental health institution pursuant to a court order for investigative purposes, are confidential. However
nothing in the involuntary treatment law prevents a law enforcement agency from stating in the course of releasing routine information about an otherwise recorded incident that a person had been detained for temporary observation and treatment — so long as the person's identity is not revealed.

Press Access to Sites and Premises

The U.S. Constitution and California statutes both provide rules — or the basis for rules — concerning media access to public, private, commercial and residential places.

Accident, Disaster and Riot Scenes

California peace officers have statutory authority to exclude the public from areas damaged or threatened by flood, storm, fire, earthquake, explosion, avalanche, accident or other disaster, or from the immediate area surrounding any emergency field command post or any other command post created to abate such disasters, riots or other civil disturbances. The Penal Code makes unauthorized entry into and refusal to leave such areas punishable as misdemeanors.

The code also specifies, however, that no duly authorized representative of any news service, newspaper or radio or television station or network shall be prevented from entering closed areas. The attorney general has ruled that this exemption prevents law enforcement agencies from excluding reporters and photographers from such areas, providing they can present a press badge or some other evidence to indicate that they are "authorized representatives" of a newspaper or other news organization. The attorney general's opinion specifically rejected the argument that "duly authorized" means authorized by a law enforcement agency.

The application of this statute and opinion was clarified in a 1986 appellate court decision (Leiserson v. San Diego). A San Diego policeman had arrested a television cameraman at the scene of a PSA jettliner crash when the cameraman ignored an order to stay outside an emergency perimeter around the crash scene. The journalist sued the city for false arrest, arguing that the police warning to stay outside the official cordon could not have been a "lawful order," since the press access statute gave him the right to be where he was.

The appellate essentially agreed with him, and established two points favoring close-hand coverage of disasters: (1) journalists cannot be ordered away from any part of a dangerous site simply for their own safety, and (2) they must be given maximum leeway to go where they wish within zones cordoned off from the public, "unless police personnel at the scene reasonably determine that such unrestricted access will interfere with emergency operations" (emphasis in the original).

The court did uphold the validity of the arrest, however — on grounds of police department testimony that some officers at the time suspected the crash was the result of an assassination plot against a state official rumored to have been on the plane. The court reluctantly accepted this testimony as a valid basis for the arresting officer's conclusion that the accident scene was a crime scene and therefore one to which the media have no statutory right of access. But it cautioned other courts to be alert for crime scene rationalizations as "post hoc justifications" for otherwise unauthorized police conduct.

Jails and Prisons

In 1974, the U.S. Supreme Court ruled that a California Department of Corrections regulation denying the press the right to interview specific prison inmates did not violate the First Amendment rights of either inmates or the press. The court premised its conclusion on the basis that inmates and reporters both had alternative means of communicating with each other, including the mail (which could not be censored to remove marks critical of the prison system) and interviews with attorneys, relatives with access to the inmates or former inmates.

In 1978, the court arrived at the same conclusion concerning the right of a public television station to enter and film portions of the Alameda County Jail at Santa Rita. In both cases the court declared that the press has no greater right of access to places under the First Amendment than the general public. Thus, while the press may not be denied a mode of access that is open to the public, a rule restricting the public may be enforced against the press as well.

School Grounds

Most schools require outsiders to report to the principal's office and register their presence immediately upon entering the grounds. Law enforcement officers may be called upon to enforce the Penal Code that gives the principal of a public school or his or her designee the right to exclude certain defined "outsiders" from the campus.

Reporters and photographers, however, are categorically exempted from this registration requirement by the Penal Code. They can be lawfully prevented from disrupting school activities, but they cannot be restricted from non-disruptive photography or interviewing simply because it takes place on school property.

Public Meetings

The Ralph Brown Act requires local governing bodies such as city councils and school boards to conduct all agency business in meetings that are open to both the press and public. (The act provides that certain kinds of agency business, such as discussions concerning personnel and of certain actions that could result in litigation, may be conducted in executive — private — session.) The Bagley-Keene Act establishes essentially the same requirements for state boards and commissions.

Both laws also establish the same basic rule for dealing with demonstrators or others causing breaches of the peace at public meetings: "[M]embers of the body conducting the meeting may order the meeting room cleared and continue in
Private Property

The press has no special exemption from civil or criminal trespass laws or from civil liability for invasion of privacy stemming from entry onto premises without the lawful possessor’s consent. There are, however, two special circumstances that can affect media access to private property: crime scenes or raids involving private property and areas on private land that function as public areas.

Crime Scenes and Raids

When a law enforcement agency has secured an area as a crime scene, the lawful possessor temporarily loses some of his or her right of immediate control over that area, whether he or she is a suspect or not. In Miller v. NBC (1986), a state court ruled that journalists may be civilly liable for trespass and other torts if they simply accompany rescue officials into a private home without the resident’s consent.

It is commonly inferred from court decisions outside California that the press may incur civil liability from entering private homes or lands that are crime scenes unless the premises have been placed under the control of a government agency and that agency has invited or permitted the press to enter to view evidence or an official action. The interests of all parties are best served through the establishment of clear ground rules specifying that the press is in fact on the premises by invitation and that the scope of that invitation is narrower than necessary — that they are there, for example, to view film or the seizure of contraband or other evidence and the arrest of one or more suspects.

The press may of course ensure its immunity from civil liability by restricting its presence to public property or adjacent land belonging to someone who has no objection to that presence.

Public Areas of Private Land

The Penal Code imposes misdemeanor liability for trespass under any of a number of circumstances, including a person’s refusal or failure to leave private property when asked to do so by the owner, agent, lawful possessor or a peace officer who has been requested by the owner, agent or possessor to ask the intruder to leave.

The rigor of this statute was tempered in 1987, however, when a appellate court ruled (In re Lundgren) that a demonstrator against nuclear weapons who ignored a private security guard’s request to leave a street side strip of property owned by the defense contractor was not guilty of criminal trespass because it was not proved that the strip was “not open to the general public.” The strip was not posted with trespass warnings, and transit patrons were permitted to wait on the strip for buses. “Lawful conduct could not be made unlawful,” the court said, “merely because a property owner became unhappy with the type of person or activity occurring on land open to the general public.”

Lundgren did not involve the press, but it does suggest that when a property owner permits general public access to or passage through his or her premises, peaceable and non-destructive conduct by the media cannot be prevented by recourse to the criminal trespass law.

Press Relations and Communications

Accreditation Policies and Press Passes

Special accreditation for media representatives is more a convention for public agencies than a legal right of the press. It permits an agency to identify and routinize contacts with a media representative.

Once a public agency has instituted a formal system of press accreditation, however, any effort to deny or cancel a press pass becomes an action limited by constitutional law.

The primary legal benchmark in this area in California is Los Angeles Free Press v. City of Los Angeles, a 1970 state court of appeal decision sustaining the police department’s denial of a press pass to a weekly newspaper devoted primarily to “countercultural” reporting and criticism.

The department’s rationale was that the Free Press did not meet the requirement of being a news organization providing routine spot coverage of police and public safety activities. The court ruled that criterion to be “reasonable” in view of the need to create a priority for those organizations that did not provide such regular coverage. The court noted that the trial court had found no content-sensitive regulation involved in the department’s review of the newspaper’s prior coverage as a basis for determining that it had not engaged in regular coverage of crime or fire stories. That departmental scrutiny, the court observed, had found that the Free Press occasionally covered law enforcement activity, but that such coverage “focused largely on sociological considerations . . . and ‘conflicts between the individual and the state.’”

Since that decision, several cases from other jurisdictions have established that denial or revocation of press accreditation by a public agency can only be justified under the First Amendment if it serves a “compelling” official interest and is not arbitrarily administered or based on the philosophy or content of the applicant’s writing or organization. As a minimum basis for establishing that the denial is not based on arbitrary or less than compelling reasons, the issuing agency must also “articulate and publish an explicit and meaningful standard governing denial.” Furnish a notice to the applicant of the factual bases for denial and provide the person or company with an opportunity to rebut those bases.

The 1970 appellate court Free Press decision would seem to be of dubious authority today in the light of these more recent decisions. Rejection of a newspaper’s application for a press pass because its coverage of law enforcement is occasional and political might be perceived as unacceptably content sensitive.
The Rights of Public Employees to Speak to the Media

Nothing in the law imbues the press or public with some kind of intrinsic right to obtain information from public employees or officials through conversations, interviews or public statements. Nor do public agencies or officials have the right either to exclude a reporter from a news conference arbitrarily or vindictively or to require him or her to make appointments for interviews when other reporters are not required to do so. The law is less categorical, however, on the question of whether a public agency can restrain or punish an agency official or employee who voluntarily attempts to speak to a reporter or to comment on agency matters of public interest.

A public agency that forbids its employees to speak to the press jeopardizes the constitutional rights of the employee rather than those of the press. In such cases, a court would likely try to arrive at a balance between the interests of the employee as a citizen commenting on matters of public concern and the interests of the government as an employer interested in promoting the efficiency of the public services it performs through its employees.

The prevailing assumption is that government has an interest in regulating any employee conduct or speech that differs significantly from the authority it possesses in connection with regulation of the citizenry in general. But this does not give public agencies the authority to establish regulations that are designed solely to gag the expression of a particular political viewpoint or to restrict expressions that do not in fact jeopardize the effectiveness of the employee or agency. Nor may an agency impose regulations so vague or sweeping that the employee is threatened with sanctions for statements that have nothing to do with the perceived danger cited to justify the regulation.

Federal courts have recently held personnel policies that either flatly forbid public employees to make public statements or require them to obtain “clearance” before making such statements to be a violation of First Amendment rights. On the other hand, in 1986 a federal court ruled that an Arizona city recreation department did not violate a supervisor’s right to comment on or even criticize her department’s policies when it disciplined her for making factually misleading statements about those policies when she was interviewed as the department’s spokesperson. “The Constitution does not prevent the government from disciplining an employee when he or she uses an official interview in a manner inconsistent with the employer’s directions and misstates the employer’s policy,” the court said. At the same time the court affirmed that “as a private citizen, the employee could comment whether or not her opinion would sit well with the employer.”

Information Policies and Media Liability

The media’s ability to obtain direct access to crime and arrest reports is a matter of convenience. The laws on libel and invasion of privacy have generated rules that provide early and conclusive protection to the media for accurately reporting the contents of public records and the statements of authorized investigating officers. These rules — the “reporter’s privilege” in libel law and the concepts of public record information and newsworthiness in privacy law — often permit lawsuits against the media to be resolved in their favor prior to a lengthy and costly trial. But legal complaints that are not abated through early recourse to these rules often require law enforcement witnesses to establish exactly what was and was not said, by whom, to whom and under what circumstances in order to establish the factual issues a jury might need to evaluate the responsibility of the press — or its sources — for a damaging falsehood or unwarranted disclosure.

In Mathis v. Philadelphia Newspapers, a bizarre Philadelphia libel case, a newspaper and a television station were both sued for misidentifying a person in stories of the arrest of a bank robbery suspect. Both had the name right but printed a picture of the wrong man with a similar name. The newspaper’s information — including the photo — came from the police department’s duty information officer. The TV station claimed it received the identical information and picture from the local FBI office. In a pretrial hearing the newspaper was held to be protected by the “reporter’s privilege,” since there was no doubt that its material came from a duly authorized source. The TV station had to go to trial, however, because the FBI maintained it never had the photo in its files, implying it was not the official source of the station’s report.

In a recent California case, a state court of appeal ruled that the Los Angeles Times would have to go to trial to defend itself against a suit brought by the roommate of a murder victim. The Times story not only identified the woman as the victim’s roommate, it also stated that she had discovered the body. At the end of the story an unnamed witness was reported to have seen — and described — a man fleeing from the scene. The roommate contended that printing her name as the victim’s roommate invaded her privacy and that her identity was not a matter of public record at the time of the Times story.

The Times reporter claimed she had obtained the roommate’s name by telephone from someone in the coroner’s office. Unfortunately for the reporter, the coroner’s office had no record of the conversation, no one in the office came forward to corroborate the reporter’s explanation, and the reporter had not written down her source’s name.

In upholding the lower court’s decision in favor of the roommate, the appellate court said that even if the reporter had been able to supply the name of her source, “obtaining information over the phone from an unknown individual does not mean the information is contained in a public record open to public inspection.”

Reporters interested in establishing maximum protection against litigation for libel or invasion of privacy will attempt to inspect the public record directly rather than having it
Chapter 1

quoting to them. They will also try to obtain all information from official spokespersons in a timely fashion rather than rely on second-hand information from sources that are not specifically authorized.

Crime stories are probably the most common source of libel and privacy suits for the media. This is the primary reason editors and news directors urge reporters to gain direct access to basic public records and authoritative sources. Media managers are willing to take the chance that a reporter will misread a public record, misquote an official source or publish truly confidential information. But when the issue of liability pivots on information that has been delivered to the reporter in a diluted or paraphrased condition, final responsibility may have to be decided by a jury.

Law enforcement agencies enjoy absolute immunity from liability for errors made in their own official reports. The media desire comparable protection for accurately reporting from those reports.

**Brief Analysis of Government Code Section 6254(f)**

Section 6254(f) generally exempts records of complaints to or investigations conducted by a law enforcement agency and intelligence information or security procedures from mandatory release as public records. There are significant exceptions to this exemption.

Section 6254(f) identifies certain information which must be made available to victims of specified crimes unless release of the information would endanger the safety of a person or the successful completion of an investigation.

**What Information Has to be Released to Victims?**

In the case of Arson, Explosion, Crimes of Violence, Burglary, Robbery, Vandalism, Fire, Vehicle Theft, and Larceny, the following must be released:

1. Names and address of persons involved in the incident (except confidential informants).
2. Description of any property involved.
3. Date, time, and location of the incident.
4. All diagrams.
5. Statements of parties involved in the incident.
6. Statements of all witnesses (except confidential informants).

**To Whom Shall This Information Be Provided?**

1. To the victim.
2. To an authorized representative of the victim.
3. To an insurance carrier against which a claim has been or might be made.

4. To any person suffering bodily injury or property damage as a result of the incident.

Note: The above information is not generally public information, but information that must be released to the specified parties.

Section 6254(f) also defines information which must be made public unless release of the information would endanger the safety of a person or the successful completion of an investigation.

**What Information Has to be Made Public?**

**Arrestee Information**

1. The full name, current address, and occupation of every person arrested by the agency.
2. The arrestee’s physical description including:
   - Date of birth, color of eyes and hair, sex, height, and weight.
3. Date and time of arrest.
4. Date and time of booking.
5. Location of arrest.
7. Amount of bail set.
8. Time and manner of release or location where the arrestee is being held.
9. All charges subject is being held on including outstanding warrants and probation/parole holds.

**Incident Information**

1. Time, substance, and location of all complaints or requests for assistance.
2. Time and nature of response thereto, including, to the extent that such information is recorded:
   a. Time, date, and location of occurrence.
   b. Time and date of the report.
   c. Name, age, and current address of victim (except that sex crime victim’s address does not have to be released).
   d. The factual circumstances surrounding the crime or incident.
   e. General description of:
      (1) Any injuries involved.
      (2) Weapons involved.
      (3) Property involved.

The before-mentioned information is considered to be public information and shall be released to the public, except to the extent that disclosure of a particular item of information would endanger the safety of a person involved in an investigation or would endanger the successful completion of the investigation or a related investigation.

Introduction

The news media face obstacles when reporting criminal justice information because the responsibilities of law enforcement agencies sometimes conflict with the reporting of the information. The news media recognizes this, and their wish to minimize these conflicts is demonstrated by the fact that the Times-Mirror Foundation financed the original development of this manual in 1982.

News media representatives maintain that a great deal of cooperation could be achieved when a full understanding of opposing viewpoints and objectives are attained. They also feel they must have confidence in law enforcement and there will be no manipulation to withhold information that they are within their constitutional right to gather and report.

The purpose of this chapter is to familiarize law enforcement agencies with the needs of the news media. Reporters, for example, work under very specific deadlines, have mandates to be accurate, and frequently compete with other reporters on the same story. They are in a pressure business where digging out the truth first is rewarded, and where old news is no news.

Specific media requirements and suggestions from news media representatives follow. Recognizing them can be an important factor in establishing and maintaining a beneficial relationship.

Media Requirements

Print

Newspapers have variable deadlines, although afternoon dailies are becoming less frequent, meaning that most daily newspapers will be soliciting news all day for tomorrow morning’s paper. Weekly papers more often appear on Thursdays, and have deadlines ranging from Monday through Wednesday. Knowing deadlines can help when planning when releases will be issued. The occasional evening daily will have 11 a.m. or noon deadlines, and therefore will be seeking news early in the morning.

Print media tend to gather detail. Written stories almost always are more comprehensive than television and radio stories. Be prepared to supply more facts to the print media.

All news media rely heavily on the telephone to collect information. The print media in addition will set up “beats” which are visited by an assigned reporter. Every departmental employee who provides information should identify and get to know their assigned reporters and attempt to facilitate the news gathering process.

Television

Television stations like to have as much advance notice as possible for the televising of news stories. Scheduling of news conferences and the like should be made well in advance but typically a one-day notice is usually always plenty of time to schedule other more critical news events. The optimum time for soliciting coverage is early Monday morning because the stations often start their week with light schedules.

Individual television crews are scheduled daily at 7 a.m. If you are trying to arrange an interview or filming sequence try to call early before the crews have already been scheduled for that day. If you are late, sometimes a backup crew remains behind to cover late-breaking news events. If there is no backup crew and the news story is important enough, an already scheduled crew will be reassigned to cover it.

Ordinarily, stories for the noon news are shot in the morning or the night before. Evening and nighttime program stories are shot that same day. Most television stations prefer to shoot stories before 2 p.m. to enable them to process the film and edit the story for the evening news. When videotape is used instead of film, this time can be reduced slightly because tape does not need to be developed.

Keep in mind that news editors like to be creative and dread boring uneventful news stories. If you are creating a story or release for television coverage, it helps the news editor if you can provide visual aids to add to the liveliness of the story. Graphs, charts, photographs, or evidence displays will always create a more interesting story.

While most stories will be filmed or taped, use of live camera technique is increasing. Live camera permits no retakes or edited statements. The departmental spokesperson necessarily must be prepared to deliver his or her remarks correctly the first time. Many stations are adding aircraft as coverage tools, meaning live camera will more frequently be on the scene of disasters, crimes, and other news stories.

Departments are wise to recognize the likelihood that TV interviews will become more frequent, and take steps to
prepare those personnel who will be handling such interviews. Particular care must be exercised in interviews because of the possibility that details will be revealed which can jeopardize the case. Live, on-scene interviews are even more delicate because details usually are confused and solid facts are not yet available.

Providing an interview for television is perhaps the most difficult assignment for the police spokesperson, whether it be department head or media relations officer. A print interview involves give and take; a TV interview very often involves but one opportunity to express a position. It is wise to practice TV interviews to familiarize spokespersons with the process.

Television crews are most always on standby to catch the news as it occurs. They are made available because news programs rely heavily on action film coverage. Therefore, the mechanism created to notify the news media of newsworthy incidents (Code 20) is of particular importance.

Radio
Many radio stations now offer news 24 hours per day, thus their deadlines tend to be “right now.” Most news-oriented stations concentrate news in the 6 to 9 a.m. period and the afternoon commute period, and will seek updates immediately before these major periods of news concentration. It is wise to learn the pattern of news acquisition preferred by your local stations. Radio has developed the technique of making recorded interviews by phone, and thus may seek information or an interview at any time of the day (and often after hours). The media relations officer should be fully aware of the need to be responsive, and should also consider the possibilities of feeding information into the radio news system when necessary. It provides, for example, an excellent means of distributing emergency information instantaneously, when necessary.

Radio rarely goes into long detail. A knowledge of the main facts of a story usually will suffice to provide a meaningful interview. Radio interviews are less intimidating than TV interviews, but some practice is advisable nonetheless.

News Media Guidelines

Be accurate and thorough when releasing information

The news media deal in facts and oftentimes repeat exactly what you have told them. Accurate details like the correct spelling of names and addresses are extremely important.

Learn specific deadlines

Knowing what the media’s deadline requirements are is extremely important in presenting current information. It is also helpful to the media relations officer when attempting to generate publicity for specific events.

Answer all questions

Some questions may seem trivial and unnecessary but the reporter has a good reason for asking them. Provide the reporter with a factual straightforward answer as soon as possible. To fail to provide the media with information may result not only in bad relations with the reporter but could create an unfavorable story. Follow this simple rule: Get the answer fast, get it right, and get it to the reporter who asked the question.

Unreleasable information

Some questions may be confidential or violate established agency policy. If a question cannot be answered at all the reporter should be told why. If it violates agency policy, this should be explained to the reporter and when possible, provide the reporter with a copy of the policy. Generally, a truthful straightforward explanation of why information cannot be released will be accepted.

Unknown information

If a quick explanation cannot be provided the reporter should be given an explanation for the delay and be told approximately when the information will be available. If the answer is not known, the reporter should be told simply that the exact information is unknown and it will be necessary to obtain an answer. This must be done at the earliest opportunity, and the answer provided to the reporter.

Exclusive stories

Frequently when a reporter asks a particular question or group of questions, he or she is “enterprising” a story on his or her own initiative for the exclusive use of the reporter’s employer. The department should never volunteer the same information to competing media or issue a release on the same material until the reporter has used the story.

In the event a second reporter initiates basically the same inquiry, while the questions must be answered, the second reporter must be told that the information has already been given to someone else (who should not be identified) and cannot be considered to be exclusive. Then the first reporter must be advised of the circumstances of the second inquiry.

News releases

Occasionally a reporter will learn of a story being developed by the department or agency for release at a later date. In this event, it is proper to advise the reporter that the information is being obtained and approximately when it will be ready for release to all media on an equal basis. When the release is ready, the releaser should be absolutely certain that the reporter who inquired gets it and that no other news agency receives it first.

Play fair

A media relations officer who plays one news agency against another or shows favoritism is asking for real trouble. On the other hand, if the officer deals fairly with all reporters
from all media, the results will be beneficial.

Cover ups
Once in a while things go wrong, and news tends to put the department in a bad light. Such situations should never be covered up, because this only makes matters worse. Hard as it may seem, it is best to volunteer information when things have gone wrong. The media cannot be expected to cooperate with the department if the department does not cooperate with them. Failure to release information on an unfavorable development will be interpreted as lack of integrity. Voluntarily providing the facts offers an opportunity to include any favorable or extenuating factors, and it ensures that no reporter covers the story as an exclusive. This is important because media tend to give more prominent play to an exclusive story than a general release. In addition, all the facts should be released at once so the unfavorable publicity is covered in just one day and not extended over several days by the disclosure of additional facts.

Do's and Don'ts of Good Media Relations

Do's
Be friendly, polite and even tempered.
Be helpful. Only by meeting the needs of news outlets can you get their help in meeting yours.
Be accurate. Every name, fact and figure should be right.
Be prompt. Nothing is “dead” than old news. Nothing is ruider than deliberate delay.
Be truthful.
Be frank. You may not be able to tell everything you know. If that’s the case, say so.
Be thorough. Make sure to include every significant fact.
Be fair.
Be patient. Good relationships take time and perseverance.

Don’ts
Don’t lie. Not ever, under any conditions.
Don’t bluster, threaten or demand.
Don’t lose your temper.
Don’t exaggerate the importance of your news.
Don’t deliver opinions that aren’t relevant to the facts, or only make you out to be self-important.
Don’t see a plot against the department if a story gets less than you think it’s worth, or doesn’t reproduce the facts you gave to the paper.
Don’t blame a reporter for his paper’s policies.
Don’t be self-important.
Don’t expect miracles.
Don’t give up!

Media credentials
The Supreme Court on numerous occasions has held that a reporter has no greater right to criminal justice information

that the public generally. However, in Los Angeles Free Press, Inc. v. City of Los Angeles (9 C.A. 24448 [1970]), the court held that law enforcement agencies, through the issuance of press identification cards, may determine which members of the media are to be allowed access to crime or disaster scenes. Granting priority to members of the media who regularly reported law enforcement and fire news was viewed as a reasonable classification under the equal protection clause of the Fourteenth Amendment.

The 1970 appellate court Free Press decision would seem, however, to be of dubious authority today light of more recent decisions. Rejecting a newspaper’s application for a press pass because its coverage of law enforcement is occasional and political might be perceived as unacceptably content sensitive.

Many departments throughout the country issue special credentials to members of the media as an identification mechanism. It is to be understood, however, that the card confers no special privileges or authority; it merely identifies the bearer as a bona fide representative of an established medium. If cards are to be issued, several guidelines are recommended:

1. Cards should be issued only to bona fide news gathering personnel (reporters, editors, photographers, camerapersons, soundpersons) employed by accredited media. Accreditation usually is based on such criteria as breadth and types of coverage. Publications which deal in single subjects (beauty care, gardening, etc.) ordinarily would not qualify for credentials, nor would any medium which did not include law enforcement news within its coverage.

2. Clearance of personnel varies from complete criminal background and fingerprint checks, to reliance on media stipulations of duties performed by persons for whom cards are requested. At minimum, the cardholder usually is requested to provide a photograph and/or personal description for inclusion on the card.

3. Media cards should be issued for specified periods, usually one, two, or three years. Relative frequency of renewals helps purge persons no longer employed as media representatives.

4. Because freelance reporters and photographers do not represent a specific medium, some other form of verification as to status usually should be required. Letters from media which use materials produced by a freelancer, or such other evidence of bona fide news coverage as the law enforcement agency feels acceptable, are common requirements.

5. Credentials remain the property of the department, and holders should be instructed that upon termination of their employment, the card must be surrendered. The department may revoke the card for cause: Criminal conduct, fraudulent representation, or such other abuses as the department defines.

6. Some agencies issue a student media card (so
identified by imprint) to authorized representatives of college media. Ordinarily, such cards expire with the end of the school term.

7. Issuance of media cards should not bar acceptance of another law enforcement agency’s card as acceptable identification of a legitimate newpaper.

8. Requests for cards should be formalized to the extent that media are required to submit names in a standardized manner, over the signature of a responsible official. The departmental media relations officer should be the recipient of requests, and arbiter of any disputes regarding issuance, revocation, etc.
5 Media Relations Officer

Introduction

A law enforcement agency should designate an officer or unit to maintain regular liaison with the media. In small agencies this task may be handled by the agency head. Medium- and large-sized agencies may designate a staff officer or employ a civilian public information director as news media relations officer. In any case, given the sensitive and vital nature of the task, the individual charged with the responsibility should be a member of the personal staff of the departmental director.

Access to the director is essential to assure that the media relations officer is privy to all policy decisions and can speak for the director, as occasion dictates. Although the department recognizes the need for a media relations officer by establishment of the position, this does not imply that other department members are prohibited from dealing with media. Rather, all members are authorized, whenever feasible or warranted, to disseminate information to the media on request.

Selection

There are many factors to consider prior to the selection of a media relations officer. This person should be highly motivated, articulate, outgoing, and self-assured. Whether the person chosen is a man or a woman the news media relations officer should be thoroughly knowledgeable concerning departmental policies and procedures, be professional in bearing and demeanor, and be capable of dealing with stressful pressure situations.

Additional qualities to look for are the ability to write for public consumption, have a knowledge of media requirements, and be able to speak comfortably before a group. Also, since public speaking is such a major part of the job, the media relations officer should be encouraged to participate in a Toastmasters Club or similar learning organization.

Duties and Establishment of Procedures

In general, the most important function of the media relations officer is to maintain open communications with the news media. Specifically, however, the media relations officer must provide clear-cut procedures for exactly how this information is made available. There are several major procedural areas which must be developed and maintained properly. These are:

1. Code 20. A procedure must be established to provide for notification of all news media agencies immediately whenever a major incident occurs. “Code 20” is the trigger for notifying the agencies of such newsworthy events as disasters, riots, accidents, and major crimes. Normally, the media relations officer will be directly involved in Code 20 situations and will frequently report to the scene to establish a media command post. It is important that methods of handling these types of incidents be established before they occur to prevent confusion and misinformation from circulating. Field officers through occasional briefings should also be trained in Code 20 procedures in advance.

The actual media notification process could be handled in several ways. The most reliable and efficient system to date is the establishment of a News Media Hot Line. This Hot Line is a one-way telephone system connecting a law enforcement agency with all the subscribing news agencies. The cost of this system is shared by the news agencies and provides for instant and simultaneous notification of the subscribing news agencies.

In actual practice, the media relations officer, dispatcher, or authorized officer picks up the Hot Line Phone and makes a verbal statement alerting the news agencies of a Code 20 situation and hangs up. On the other end are speakers broadcasting into the news room or being recorded by a telephone answering device. This system guarantees that every one gets the same information at the same time. Further information on this system can be obtained by contacting the telephone company.

The other method of notification is through a telephone answering service. News media agencies using this method hire a 24-hour answering service. The law enforcement agency calls this answering service with a code 20 message. The answering service responds by calling all of the subscribing agencies and relays the message. In any case, no matter which method is used there should be clear-cut rules and procedures established to identify who shall alert the media and under what circumstances they are alerted.
2. Major Incidents. Occasionally, a spectacular incident will attract the attention of all the local news media agencies plus the agencies outside the immediate vicinity. Procedures should be established and control this kind of situation. Such procedures may include reporting to the scene to create media liaison, establishing a media command post, arranging press conferences, etc.

Often numerous requests coming in by telephone will require the media relations officer to work in the office to handle the news media while at the same time setting up close liaison with personnel at the scene to maintain a flow of current information. If the media relations officer is required to work at the scene of the incident, arrangements should be made for supplemental media liaison at the office to answer telephone inquiries.

In the case of major ongoing stories, a media relations officer will also receive multiple inquiries from various media agencies. Occasionally, this produces a situation where the media relations officer's response to a question reveals a fact that had not been disclosed to any other medium before. Opinions vary to the law enforcement agency's responsibility to call the other media agencies and advise them of this information. It is, however, important that the agency be aware of the possible problems which can arise and to deal with this situation.

3. General Procedures and Duties. Procedures should be developed for fulfilling media requests for information from the field or at the office after normal business hours. These would be times when the media relations officer is either not required to respond to the field incident or is unavailable. Departmental employees should be trained so that at any time a particular officer in charge will be able to provide expeditious and factual information to the news media. It is also important during these media contacts that the responding officers know what information is releasable and what is not.

In general, a media relations officer must prepare to interact with the news media on any issue and be able to answer questions promptly and courteously. If immediate answers cannot be supplied, the media relations officer must know where to go to find the answers. It is also beneficial if the media relations officer can research and prepare news releases on any departmental programs which will reflect favorably on the department when publicized.

Finally, the media relations officer should work to better the rapport between departmental employees and new media representatives, particularly those who normally have occasion to respond to media inquiries. Good news media relations will make everyone's job easier. To achieve this, however, will require clear cut departmental procedures, training, and hard work.

6 News Interviews

Introduction

Meet the press? . . . who me? It could happen. On any given day you might be asked to meet with a media representative. This chapter includes several guidelines that will help you handle the assignment with the same professionalism you bring to your regular duties.

It is generally comended by the news media that public agencies do not tell their story well. Perhaps the most common complaint of journalism about law enforcement agencies is that the decision makers stand aloof from the media. Shielded by secretaries, staff officers, sergeants and lieutenants — so the impression goes — the decision makers insulate themselves from the media. When they do lower the drawbridges — so the criticism goes — they often do so for self-serving purposes and when they do, they generally don’t know how to talk with journalists and lack understanding of the role, process and problems of the media.

For law enforcement agencies, the answer to this criticism is a policy of accessibility and responsiveness — a willingness to deal with media and to provide answers to the maximum extent possible.

On a given day in a given situation, any member of a law enforcement agency may be asked to talk with a media representative. The request may come directly from the media, or from the media relations officer. How do you prepare for this meeting and what are some things you should consider? Whether the interview will amount to a few questions on the telephone or a long, face-to-face discussion, you should be aware of the fundamentals — including your department’s rules, the media’s rules and the do’s and don’ts of the interview itself.

The don’t’s usually are spelled out within the law (covered in “The Law” section of this manual) or departmental policy. The latter ordinarily will instruct personnel not to indulge in personalities, discuss matters of a political nature, divulge confidential information, or offer opinions on matters of policy. Most other information not affected by these guidelines is open for discussion.

The rules of the media in an open society cannot be concisely stated. In the U.S., they involve attitudes and processes of news selection, gathering, and publication, which push to the outer limits of free speech, as guaranteed by the First Amendment. Healthy debate is going on today within the profession concerning the roles and rules of journalism.

However, the rules by which ethical journalists live professionally are suggested in a statement of their goal: They want to be the first to tell you accurately, briefly, and responsibly (in print or on the air) everything they think you want or need to know. They want to tell you, for example, about new developments in the areas of your interests — professional, political, recreational, community, or personal.

That means they competitively seek the “truth,” which is comprised of a collection of hard facts, thoughtful speculation (both theirs and yours), clarifying background information, and informed opinion. They seek these ingredients in as free a marketplace as possible, from informed sources they like to be able to name but will protect if the marketplace is not so free.

Narrowing down to the field of law enforcement, journalists want to be the first tell the public (you) factually and reliably what law enforcement people are doing or thinking. Most officers do well in interviews — better than they usually think they will. After all, you probably are a good source or the reporter wouldn’t be interviewing you. However, you’ll feel more confident if you are aware of some guidelines.

Guidelines for a News Interview

Attitude

Decide what your attitude is in relation to the news media both generally and specifically. Be aware of and compensate for negative biases because they have a way of showing up in print and being reflected on television.

Never lecture newspeople about what you think their professional responsibilities and shortcomings are. Talk with journalists as equals, neither taking nor handing out any “guff.”

Be Mentally Accessible

Welcome media inquiries. Newspeople are of a special and sensitive sort. Avoiding (or appearing to avoid) them arouses their negative instincts, just as it would yours. Don’t pass negative judgment on the newsworthiness of the subject of the inquiry. Journalists have survived by deciding what’s news, when it’s news.
Chapter 1

Anticipate Sensitive Situations

Appropriate personnel should be aware of delicate or unfavorable circumstances or events as they develop. Avoid waiting until they attract media attention. Having to play catch-up or patch-up places your department at a disadvantage in telling its side of the story. If a sensitive story does break and you're taken by surprise, be a little wary. Do not disclose vital information to reporters before you realize you have done so. Haste is a problem in these situations. If time can be gained without having it appear as a cover-up, then your facts and position can be properly portrayed later.

Understand News Media Needs

Read the chapter in this manual on media requirements. Since interviews are most often conducted by the broadcast media they try to become expert at knowing what films well or sounds interesting over the radio. Remember, television reporters need visual aids to give extra life to a story. Also, before you are taped, take a moment to think of what to say and don't read off a prepared script.

Do Your Homework

Review disclosable facts and figures, and get briefed, if necessary, on matters likely to be discussed. Don't ask for written questions in advance. Some reporters may volunteer questions in advance, but most will only indicate, in general terms, what they want to ask; spontaneity is usually vital to a good interview.

Collect Your Thoughts

Allow a few minutes in your schedule just before every interview. Use this time to clear your mind. Resolve to avoid using clichés and repetition. Remind yourself what areas of the subject are sensitive. If you wouldn't like to see a statement in print or hear it on the air, resolve to avoid saying it.

Off the Record

Avoid going "off the record" unless absolutely necessary. Reporters need publishable material. If it's necessary, ask to go "off the record" before making your statement. If you can't answer on the record, mention why you can't. Never wait until after the interview to try to place parts of the interview off limits.

Understand Adversary Role

Understand the adversary role of representatives of the news media. They see themselves as guardians of the public interest as opposed to special interests. Expect some tough, provocative, and skeptical questions. How you respond to these is likely to determine the success of the interview. If part of a question seems to be an insinuation, deal first with the insinuation in a casual way and then go on with the answer to the question. Avoid being uptight or defensive. If a question is loaded, just say there's no way you could win by answering it and let it go (the reporter will know it's loaded). Remember that journalists aren't cheerleaders for your department, they usually feel the department is big enough to take care of itself.

Be Candid and Credible

Never knowingly make misleading or deceptive statements. Acknowledge mistakes and problems, and tell what's being done to correct or solve them. Avoid trying to hold an untenable position or put a false veneer on an embarrassing situation. Admit self-serving statements or puff assertions you can't substantiate objectively.

If an inquiry involves policy, or a sensitive issue, or you don't know the answer, tell the reporter you'll check and get right back or have someone else get back to him. Then you follow through and make sure it is completed.

Respect a Reporter's Duty

Never take a friendly reporter for granted. Also don't ask for special favors from reporters who are personal friends. Respect their professional integrity and impartiality and don't expect editorial favors. Keep in mind that some reporters who purr the loudest bite the hardest.

Always conduct yourself so as to keep your department's lines of communication open with reporters and with the news media. Remember that reporters and publications respond to different situations and may cast themselves as an obnoxious adversary in one news situation and as a helpful friend in the next.

Avoid Bothersome Requests

After the interview, don't ask to see or edit the reporter's copy. They and their editors are jealous of the prerogatives under the right of free speech and freedom of the press (even to be incorrect). Deadline pressures also usually preclude such procedures. Avoid asking reporters what they're going to write. Offer to be available for clarifications or confirmation of facts, but don't show apprehensiveness or distrust. Don't call them afterwards with undue second thoughts.

Also, avoid asking or bothering reporters to send copies of the paper when your story appears. Detail yourself to buy the paper and watch for it. Avoid asking why your interview hasn't yet appeared. When it does, don't be disappointed if it's been boiled down to a single reference or two in a roundup story.

Errors

Promptly correct published mistakes, misleading statements or serious misinterpretations. Do so well before the deadline for the publication's next edition. If material errors or misinterpretations aren't corrected or challenged without delay, they gain credence and may even have other ramifications for your department. However, avoid overreacting or being overly sensitive. "I was misquoted," is an overworked complaint to newspaper people. Be a little philosophical about slight distortions or questionable semantics. Remember that the reporter wasn't responsible for editing.
the story or writing the headline.

Summary

your department, freely published on the independent judgment of journalists, outweighs many nice things you may say about yourself.
Chapter 1

7 News Releases

Introduction
Spontaneous events, major disasters, accidents and criminal incidents generally do not lend themselves to written releases. Events move so quickly that the media relations officer or departmental spokesperson usually will be able to respond and nothing more. However, when the department seeks to publicize an event, process, internal achievement, etc., a news release provides the best avenue to advise the public through the media.

Through the preparation of written news releases, the department’s views and interpretation of a news event can sometimes be presented along with the facts. Often the news media will publish or broadcast the information from a professional news release exactly as it is written. Because of this it is important to write news releases in a manner that is standard in the news industry. To help identify what is standard, guidelines will be presented in this chapter to aid in the preparation of a professional news release.

Format
The release must be dated, contain the name of the department and provide the name, address, and phone number of the person responsible (media relations officer or commanding officer). At least two inches of space between the heading and the first line of the release should be blank. The news release should be typed, double-spaced, on one side of the paper only, with ample margins. Hyphenating words at the end of lines should be avoided. The release should be brief, but if more than one sheet is required, the word “more” or “continued” should be typed at the bottom of the first page. The second page should be identified with the first page in case they become separated. The end of the release must be clearly indicated by “—30—” or “#” or “(end)” centered below the last line.

Content
There are several elements that must be kept in mind while writing a news release. The first of these is the “lead.” The lead is found in the first paragraph and it contains the most important fact of the news release. The balance of the content following the lead provides the answers to the fundamental questions of: who, what, when, where, and as appropriate, why and how.

Also, while writing remember that the language should be basic. Sentences should be short and direct with no more than eight lines to a paragraph. The facts must be accurate, all spelling correct, and the release must be as brief as possible while still including all of the essential facts.

One of those essential facts which is often omitted is the source of the information. The source, usually the commander or department head should always be stated in each release. Also, if another organization assisted in some way mention their organizational unit’s name.

After each news release is written it should be double-checked before it is distributed. In particular, these questions should be answered: Are the dates correct? Are names spelled correctly? Are ages, addresses, and titles correct? Have any words been inadvertently omitted? Are there misspelled words to be corrected?

News Release Responsibility
The commander is responsible for every news release issued on his behalf. Therefore, he should review, edit, and approve each release before it is distributed to the media.

Distribution
Once a news release has been reviewed and approved, distribution to the news media is all important. Personal delivery is paramount. Reporters receive dozens of releases in the mail daily, with the majority thrown in the trash unopened.

Distribution should be made as soon as the release is ready. The story will lose its value and chance of use if delivery to the media is delayed. Delivery to all media should be made as close as possible to the same time.

After a release has been issued, some reporters will have additional questions. Personal delivery allows for an interchange of information with the reporter. Often, the personal delivery and discussion between the reporter and agency representative enhances the message of the press release and is apparent in the story.

The issuing agency should have a response strategy prepared. Sometimes the department head will handle inquiries;
often it will be the public affairs officer. If neither is available, an alternate response process should be established.

Public contact and telephone personnel should be aware of the importance of media inquiries, making sure that contact with an appropriate response person is provided the media representative. A copy of all releases should be provided these personnel prior to the news media receiving their copies.

Standards on Training (POST) and Control of POST Fund
Training Reimbursements

This policy outlines the minimum training requirements for sworn peace officers and
dispatchers as mandated by the California Code of Regulations, POST Administrative Manual,
California Penal Code and the California Code of Regulations.

This policy will also establish minimum guidelines for the control of POST training
reimbursement funds as mandated by the Statewide Administrative Manual.

Compliance with POST Training Requirements

All sworn police officers and dispatchers must be provided the minimum training as mandated
by POST Section 1005. Each department should establish a department training plan to insure
that all sworn officers and dispatchers receive the minimum POST mandated training.

Title 22, Article 2, Section 100016 of the California Code of Regulations states that first aid
and CPR training shall be provided to all lifeguards, firefighters and peace officers, unless their
duties are primarily clerical or administrative.

The California Penal Code Section 13518 requires that every police officer, except those
whose duties are primarily clerical or administrative, shall meet the training standards
prescribed by the Emergency Medical Services (EMS) Authority for the administration of first
aid and CPR. In addition, satisfactory completion of periodic refresher training or
appropriate testing in CPR and other first aid as prescribed by the EMS Authority shall also be
required.

(over)
Those campuses that have implemented the use of Automated External Defibrillators, shall comply with the California Code of Regulations, Title 22, Division 9, Chapter 1.8, and Sections 100031-10039. Every authorized individual using the defibrillators shall have met the training standards required by the code. Departments should establish policies and procedures for the use of the defibrillators to insure proper maintenance and use of the defibrillators.

Control of POST Training Fund Reimbursements

The California Department of Justice through the division of the California Peace Officers Standards on Training (POST) reimburses campus police departments for certain approved types of training pursuant to California Penal code sections 13507 and 13522. Monthly checks are mailed directly to the CSU police departments and campus procedures need to be established to comply with the Statewide Administrative Manual (SAM) to insure the reimbursements are received, prevent misappropriation or loss of the funds.

Campuses should develop a system of accounting that when a sworn or qualifying member of the police department is scheduled and sent to training, that the campus estimate pursuant to POST Administrative Manual (PAM) Section E, the amount of the reimbursement to be received from POST and that the records are reconciled upon receipt of the reimbursement check. Each employee must submit a POST Training Reimbursement Request (TRR) form at the training class. POST reimburses the departments based upon five designated plans as outlined in PAM section E-2. Each campus has the authority to decide how the reimbursement account is set up, and the usage of the training funds pursuant to the campus POST training plan. Each campus must insure compliance with the account agreement as approved by campus authorities.

Pursuant to SAM Section 8023, CSU Police Chiefs shall insure that all checks, money orders, and warrants received for deposit be restrictively endorsed for deposit as soon as practical after receipt, but no later than the end of the working day. There should be a method in place whereby a supervisor can verify that the accurate reimbursement is received; that the appropriate deposit was made and receipts maintained; that the records be maintained to verify a timely deposit and reconciliation.

Pursuant to SAM 20500, CSU Police Chiefs shall insure that a satisfactory system of internal accounting and administrative controls shall include the segregation of duties appropriate for proper safeguarding of assets, liabilities, revenues and expenditures.

Effective January 1, 2001, the current Uniform Reimbursement Allowance plan for Management Personnel Plan (MPP) Public Safety employees, established as an Accountable Plan per IRS Code, will be replaced by a Non-Accountable Plan.

Public Safety employees within the MPP (Police Chiefs and Lieutenants) shall be responsible for the purchase and maintenance of uniforms required for employment. Employees who wear a uniform shall earn a uniform allowance of $57.00 per qualifying month of service where the uniform is worn either full-time or part-time. Per Non-Accountable Plan Procedures, employees are not required to supply supporting documentation (i.e., receipts, statements, etc.) to be reimbursed for uniform purchase(s).

The total uniform allowance earned by an employee shall be paid in a lump sum in October of each calendar year. Employees who have been employed on the campus for less than one (1) year shall receive payment/reimbursement on a pro rata basis in October of each calendar year.

Uniform Allowance payments will be subjected to the following withholding allowances per federal and state withholding laws: 28% for Federal, 6% for State, 6.2% for Social Security and 1.45% for Medicare. Uniform allowance payments, however, shall not be reported as compensation towards retirement contributions to the California Public Employees Retirement System (CalPERS).

7.0 PROPERTY DISPOSITION AND SURVEY

When a campus unit determines equipment in its possession has become obsolete or surplus to its needs, the Unit shall submit a completed Property Survey Request to the Property Office. Property disposition may be through one of the following methods. The Unit is responsible for the physical transfer of property to its intended destination.

1. Property that is obsolete or no longer serviceable
   a. Unit may request the item be removed from the active database, but be retained it for parts and salvage. Unit is responsible to insure all non-useable remains are properly recycled or disposed of.
   b. Unit may survey the item as junk. Unit is responsible to insure the item is properly recycled or disposed of.

2. Property that is serviceable but no longer required for use by campus unit
   a. Property may be transferred to another campus unit. In this event a Property Relocation Form must be included with the Survey Request showing the new location and bearing a signature from the receiving party.
   b. Property may be transferred to another state agency. In this event an acceptance letter from the agency must be submitted with the Survey Request.
   c. Item may be used as trade in against the purchase of new equipment. The Survey Request shall include the purchase order number used to acquire the new equipment, which must show the value obtained for the trade in.
   d. Item may be delivered to the Swap Shop property re-utilization program. The Property Survey form must accompany the item when it is delivered to the Swap Shop.
   e. Items that retain sufficient value, but for which there are no interested units on campus may be placed at auction by the Property Office.

The Campus Unit originally assigned responsibility for property retains responsibility and is accountable for property until all required documentation is received and acknowledged in the Property Office.

[top]

8.0 SURVEYS

Replacement and Non-Replacement Equipment

The accountable UNIT shall forward a requisition to the Purchasing Department. The requisition will list the state numbers of equipment to be replaced. Purchasing will forward a copy of this requisition to the Property Office which will then prepare a Property Survey Report.
• The Survey Report will be submitted for approval to the University Controller and the University Property Board.

• If the survey is approved, one (1) copy of the report will be attached to the requisition with other documentation and forwarded to the appropriate Buyer.

• When the replacement item is received, accepted, and a State property tag affixed, the disposal of the surveyed item will occur.

• All signed disposal slips, original survey, and other pertinent documents shall be forwarded to the Property Office for removal from the Property Office records.

[top]

9.0 EQUIPMENT SECURITY, MAINTENANCE, AND UTILIZATION

Units shall take reasonable precautions to adequately safeguard University property. Security measures will vary depending upon the nature and use of the property. Space containing “pilferable” property shall be maintained under lock and key when unoccupied. Items such as typewriters and computer terminals shall be affixed to desks/tables by bolting or security cable to the degree practicable. Also to the degree practicable, small expensive items shall be kept in locked cabinets/desks. Property should not be removed from a UNIT unless it is covered appropriate documentation such as a Transfer Form, Survey Form, or a Property Check-out Form.

All equipment will be properly maintained and receive preventative maintenance as recommended by manufacturers. Maintenance records should be maintained as applicable.

Property that is not utilized should be reported to the University Property Board for redistribution.

10.0 UNIVERSITY PROPERTY BOARD

The Board is appointed by the President or his designee with the Director of Procurement serving as its Chair. The Manager of Procurement Services provides staff support.

The purpose of the Property Board is to safeguard University property. It has the responsibility of reviewing Property Department, Public Safety, College and Department procedures to approve all surveys of equipment, and has the authority to ascertain responsibility and prescribe follow-up action related to missing property items.

The Property Office maintains the files of the University’s Property Board, assists the Chair in the preparation of the agenda and prepares the minutes of each meeting.

When designated by the Chair of the University Property Board, a meeting will be held to consider the items on the agenda. After the meeting adjourns, minutes are prepared, and the Property Office carries out the directives of the Board. Items considered by the Board include:

SUBJECT: Executive Order No. 753 – Allocation of Costs to Auxiliary Enterprises

The attached Executive Order No. 753 assigns responsibility to the campus chief financial officer to ensure that auxiliary enterprises are charged for allowable direct costs plus an allocable portion of indirect costs associated with facilities, goods, and services provided by the University funded from the General Fund. Executive Order No.: 753
Title: Allocation of Costs to Auxiliary Enterprises
Effective Date: July 28, 2000

Policy
Auxiliary enterprises shall be charged the allowable direct costs plus an allocable portion of indirect costs associated with facilities, goods, and services provided by the University funded from the General Fund. Costs allocations shall be determined in accordance with a written cost allocation plan approved annually by the campus chief financial officer.

Definitions
Auxiliary Enterprises – a program, activity, or fund source used to furnish facilities, goods or services to faculty, staff, or incidentally to the public. An auxiliary enterprise typically charges a fee directly related to, although not necessarily equal to, the cost of the facilities, goods or services. The distinguishing characteristic of an auxiliary enterprise is that it is managed on an essentially self-supporting basis. Examples are faculty, staff, and student housing, food services, college stores, faculty clubs, parking, and student health services. Auxiliary organizations are also considered an auxiliary enterprise.

Direct costs – Costs that can be readily assigned to a particular cost objective with a high degree of accuracy.

Indirect costs – Costs that cannot be readily assigned to a particular cost objective without effort disproportionate to the benefits received sometimes described as operation and maintenance of plant costs and general administration and general expenses.

Operation and maintenance of plant – Administration, supervision, operation, maintenance of the institution’s physical plant such as janitorial and utility services.

Subject: Crime Statistics Reporting Requirements

California State University (CSU) police departments are required to report numerous crime statistics. Comprehensive consistent reporting to the State of California, Office of the Chancellor, campus administrators and other appropriate agencies is critical. Current key reporting requirements are highlighted below for reference.

State Department of Justice Reports
As recognized California law enforcement agencies, CSU police departments are required to report crimes to the State Department of Justice monthly. The Department of Justice forwards the statistics to the Federal Bureau of Investigation and the statistics are published annually in the U.S. Department of Justice Uniform Crime reports titled “Crime in the U.S.”

Chancellor’s Office Annual Reports
CSU police departments are required to report crime, arrest, and property loss/recovery statistics to the Chancellor’s Office annually. These reported statistics are used to compile an annual systemwide report for the CSU Presidents. The systemwide CSU Police Coordinator is responsible for collecting the campus annual crime statistics, tabulating the data and distributing the annual crime statistics report to campus presidents, vice presidents and public affairs managers for public distribution.

The attached CSU Statistical Report must be mailed to the Chancellor’s Office to the attention of the Police Coordinator by February of each year.

I. PURPOSE: A relationship of trust and confidence between members of the department and the community is essential to effective law enforcement. Law enforcement officers must be free to exercise their best judgment and to initiate enforcement action in a responsible, lawful and impartial manner without fear of reprisal. Penal Code Section 832.5 requires that any department that employs peace officers establish a procedure to investigate citizens’ complaints against its personnel and make a written description of the procedure available to the public. Every person has a right to file a complaint and all alleged or suspected violations of law, ordinances, department orders and University rules must be investigated.

The University Police Department acknowledges its responsibility to establish a complaint system and disciplinary procedures, which not only will subject the officer to corrective action when there is improper conduct, but also will protect the officer from unwarranted criticism when official duties are properly discharged.

Additionally, it is not the purpose of the citizen complaint process to be utilized for the investigation or adjudication of criminal complaints made against citizens by officers. The issue of guilt or innocence is appropriately addressed by the criminal courts.

II. POLICY:

A. It is the policy of this department to provide prompt, just, open and expeditious disposition of complaints/allegations of wrongdoing regarding the conduct of officers and employees of this department. All complaints including anonymous complaints against the department or its employees will be investigated.

B. The Citizen Complaint Form will be available at the University Police Department website and the department lobby.

III. DEFINITIONS:

A. Citizen Comments: Any positive or negative comment received from a citizen.

B. Complaint: A statement made alleging that a department member (sworn or non-sworn) has
engaged in an act constituting misconduct. Members of the public and departmental personnel can make complaints.

C. Complainant: The person who files a complaint with the department alleging the commission of a major violation or infraction by a member or members of the department, and includes any aggrieved party and any person or group who assists in filing the complaint.

D. Conclusions/Findings: Results of an investigation of any allegation including observations and conclusions of the investigating officer.

E. Disposition: The status assigned to a case by the Chief following the conclusion of the investigation.

F. Infraction: A violation of departmental rules and regulations defining transgressions that are not major violations.

G. Major Violations:

1. Any violation or statutes and ordinances defining criminal activity.
2. The use of unnecessary or excessive force.
3. Abuse of authority.
4. Conduct, which violates a person’s civil rights.
5. The use of abusive or insulting language or conduct, which is derogatory of a person’s race, religion, lifestyle, or national origin.

H. Member: Both sworn and civilian employees of the department (includes temporary and part-time positions).

I. Misconduct: Under these procedures, it is shown by a preponderance of the evidence that a member of the department has;

1. Violated any rule, procedure, or lawful order of the department.
2. Violated any of the provisions of the city/county charter or of any section of State or merit plan rules relating to employee conduct in office.
3. Violated any law, whether codified by city/county statute, state or federal statute, or constitutional provision.

I. Removal: The termination or a member’s employment with the department.

J. Rules and Regulations: The administrative acts promulgated by the Chief, which are designed to regulate departmental standards of conduct and appearance.

K. Suspension: The temporary removal of a member from active employment for a definite period of time.

L. Witness: A person who can produce evidence relevant to an alleged major violation or infraction.

IV. PROCEDURES:

A. Classification of Complaints – complaints will be classified in one of two ways:

1. Administrative Review

   a. The review of an incident or violation of department policy to determine what action, if any, is necessary or if a recommendation to the Chief of Police for an
internal investigation is warranted.
b. Administrative reviews (AR) are usually initiated internally by department personnel. (Examples include disciplinary measures and reviews that are the purview of Sergeants or a Lieutenant.)
c. Administrative reviews may also be completed on citizen’s complaints for complaints that do not involve allegations of any violation of statutes or ordinances defining criminal activity or any violations of department policy.
d. Administrative Reviews are documented on a memorandum form.
e. Administrative Review will be maintained within the Offices of the Chief of Police and given a numerical file number which has AR before the number. For example, AR-2004-01, which would reflect the first administrative review for the calendar year 2004.

2. Internal Affairs Investigation

a. An investigation into an allegation of misconduct initiated by a citizen’s complaint or any investigation into an allegation of serious misconduct by an employee of the department.
b. Internal affairs (IA) investigations will be assigned for investigation by the Chief of Police.
c. Internal affairs investigations are usually documented on a Citizen’s Complaint Form, but may be documented on a memorandum form.
d. Internal affairs investigations will be maintained within the Offices of the Chief of Police and will be given a numerical file number, which has IA before the number. For example, IA-2004-01, which would reflect the first internal affairs investigation for the calendar year 2004.

3. Cases of interest of the Department/University

a. There are instances wherein this Department/University is advised of situations that do not meet the criteria set forth in paragraphs IV, 1 and 2 above. Instances such as pending litigation for injuries received where no officer misconduct is alleged; other lawsuits against the Department/University; or, other situations of substantial interest to this Department/University are a few examples.
b. These files will be maintained within the Offices of the Chief of Police and given a numerical litigation file (LF) number, which has LF before the number. For example, LF-2004-01, which would reflect the first litigation case received for the calendar year 2004.

4. Citizen comment files

a. These files will contain comments from citizens regarding recognition of staff; suggestions; or, other items of interest that are not concerning a complaint or litigation matter.
b. These files will be maintained within the offices of the Chief of Police and given a numerical citizen comment (CC) file number, which has CC before the number. For example, CC-2004-01, which would reflect the first citizen comment
for the calendar year 2004. Citizen commendations will also be posted on the Commendation Board located in the Squad Room.

c. Supervisors receiving positive feedback about an employee shall forward information to the appropriate Division Commander via a memorandum.

B. Receiving Complaint Responsibilities:

1. Allegations of misconduct may be received at any time of the day or night and may originate from within or outside the department.

2. Complaints shall be accepted from any source, whether made in person, by mail, e-mail or by telephone. Employees receiving complaints shall use the San Francisco State University Police Department Citizen Complaint Form.

   a. Any employee receiving information alleging misconduct or inadequate service shall not attempt to dissuade the person from making the complaint, even if the employee feels the complaint is of minor importance.

   b. A request for clarification or explanation of a particular procedure is not a complaint.

3. Complaint Origin

   a. If a complainant will not make a written complaint, the department member with whom the complaint was lodged will complete a written summary and forwarded to the appropriate Division Commander via the chain of command.

   b. All anonymous complaints will be investigated.

   c. Third party complaints of serious allegations shall be investigated.

   d. A parent or legal guardian can lodge a complaint on behalf of their juvenile dependent.

   e. Complaints based on hearsay information of employee misconduct, shall be routed to the employee’s immediate supervisor for determination if there exists a preponderance of evidence to warrant an investigation.

4. Employees receiving complaints should refer the complainant directly to a supervisor who will accept the complaint.

   a. If a supervisor is not readily available, any officer will take the complaint.

   b. It is not advisable to request a citizen come back later or telephone when a supervisor will be available.

   c. Employees receiving complaints will:

       1) Screen the complaint to make sure that department personnel are involved;

       2) Ascertain if there is validity to the complaint, as opposed to the lack of understanding of agency procedures. Sometimes a complaint may be resolved by a simple explanation of agency procedures.

       3) If a complaint involves an alleged infraction on the part of a department employee(s), the Supervisor shall review the complaint and make every possible effort to resolve the allegation at intake, forwarding the complaint and
his/her findings to the on-duty Lieutenant or Captain.

4) If the complaint cannot be resolved at this level, the supervisor will forward the complaint to the on-duty Lieutenant who will review it and forward it to the Chief via the appropriate Operations Division Commander for assignment of investigation.

5) In the event of a major violation the Division Commander receiving the complaint shall record all pertinent information and undertake a preliminary investigation of the incident. He/she will take whatever action is appropriate and required given the severity of the situation (arrest, suspension, temporary relief of duty, etc.), and immediately notify the Deputy Chief and the Chief of Police of the nature of the complaint and the action taken.

C. Investigation Responsibility:

1. The responsibility for coordinating the internal affairs function is assigned to the Deputy Chief, who has the authority to report directly to the Chief. The Deputy Chief, at the discretion of the Chief shall assign the rank at which an internal affairs investigation shall be commenced. The Deputy Chief or the Chief of Police shall select the investigator. Only department internal affairs investigators that have taken the POST Internal Affairs Investigations Course shall be assigned to citizen complaint cases. Investigations may be conducted by the Deputy Chief, Division Commanders, Captains, Lieutenants or Sergeants.

2. At the discretion of the Chief, an external investigator may be hired for Internal Affairs Investigations if significant public interest to the campus such as allegations of racism, excessive force and racial profiling. The Chief shall select the investigator(s).

   a. Complaints may be investigated by the Deputy Chief, Division Commanders, Captains, Lieutenants, Sergeants or an assigned Detective.
   
   b. Any major violation shall be investigated by the appropriate Division Commander or Deputy Chief. Major violations include:

      1) Any violation or statutes and ordinances defining criminal activity.
      2) The use of unnecessary or excessive force.
      3) Abuse of authority.
      4) Conduct, which violates a person’s civil rights.
      5) The use of abusive or insulting language or conduct, which is derogatory of a person’s race, religion, lifestyle, or national origin.

   c. Types of complaints investigated by line supervisors (Sergeants) shall be infractions: A violation of departmental rules and regulations defining transgressions that are not major violations.

3. All complaints received by line personnel shall be forwarded through the duty supervisor to the appropriate Operations Division Commander for review as the Internal Affairs function coordinator.

4. The Division Commander receiving the complaint will notify the Chief of Police of
the receipt of the complaint and depending on the seriousness of the complaint, the investigation may be assigned either internally or externally for investigation. Major violations shall be reported to the Chief of Police immediately, followed with a written summary of the allegations within 48 hours.

5. Complaints received directly by the Chief may be assigned for investigation at the Chief’s discretion.

6. At no time will an investigation be assigned to an individual who is either a party in the complaint or a primary witness.

D. Notifying Parties of a Complaint:

1. The Complainant

   a. The complainant will be given a copy of the completed complaint form at the time the complaint is filed. The process/procedure for investigating complaints are attached to the form in the form of flow charts for clarity (Attachment A). A copy of this order will be provided to the complainant upon request.
   b. When appropriate, the assigned investigator will provide periodic status updates to the complainant by telephone and will document such in the investigation; i.e. extension of investigation.
   c. At the conclusion of the investigation, the Chief of Police (or designee) will provide the complainant with a written complaint disposition.

      1) The complainant shall be advised of the disposition within 30 days (Penal Code 832.7) and will include advice that the complaint was thoroughly investigated and the letter must advise of the disposition.
      2) The exact nature of discipline should not be included, however a reference may be made to “appropriate” action having been taken in the case of a sustained finding.

2. The Accused Department Member(s)

   a. Shall be notified of the complaint as soon as practical and shall either be given a copy of the complaint or a written statement of the allegations.
   b. Shall be advised of their employee rights and responsibilities relative to the investigation. The employee shall be instructed in writing to review General Order 2-1 and Government Code Section 3300 in preparation for the Internal Affairs interview.
   c. Article 9 of the Collective Bargaining Unit will be followed and the complaint will be investigated within 30 days unless an extension is needed due to the complexity.
   d. The Chief of Police may suspend an in-progress investigation if there’s pending arbitration between the accused employee and the University due to a worker’s compensation claim or similar circumstances.
   e. Confidentiality of all information shall be maintained during the investigative process.
   f. The Peace Officers Bill of Rights Government Code Section 3304(f) requires notification within 30 days of the decision to impose discipline.
3. The Division Commanders will notify the Chief of Police either verbally or in writing of the receipt of any complaints against the agency or its employees.

E. Employee Rights during an Investigation:

1. If the complaint against a department member is both an allegation that the department rules were violated, and an allegation of criminal conduct, the investigation will be bifurcated.
2. In a criminal investigation, the officer has a right not to answer questions that would incriminate him or her, and they are entitled to all the rights of any other suspect.
3. In an administrative investigation, the officer does not have a right to refuse to answer questions when the questions relate to good order and efficiency of the agency.
4. The Public Safety Officer Procedural Bill of Rights Act, Government Code Section 3300(AB301) applies to all administrative investigations into officer misconduct.
5. The interview of any department member shall be conducted at a reasonable hour, preferably when the member is on duty, unless the urgency of the investigation dictates otherwise. If such an interview occurs during off-duty hours of the employee being interviewed, the employee shall be compensated for his/her off-duty time.
6. The employee shall be permitted to take notes and to bring his/her own recording device and record any and all aspects of the interview.
7. Employees shall have the right to be represented by a representative of his/her choice, who may be present at all times during the interview. The representative shall not participate in the interview, except to counsel the employee. The employee may request a postponement of the initial interview to contact a representative of his/her own choice.
8. No officer of this department shall be compelled to submit to a polygraph examination. Polygraph examinations and voice stress analysis shall be administered to employees only with their consent and upon approval of the Chief, and then only after it’s application to the complainant.
9. There shall be no compelled financial disclosure except where pursuant to lawful process, conflict of interest is indicated or special assignment subject to bribes.
10. Any disciplined employees have the right to appeal.
11. Searches:

   a. State-owned desks, lockers, storage space, rooms, offices, equipment, work areas and vehicles are the sole property of the State of California, subject to inspection deemed necessary by the Chief of Police or other authority.
   b. No officer shall have his/her locker or other space for storage that may be assigned to him/her searched except:

      1) In his/her presence;
      2) With his/her consent;
      3) If a valid search warrant has been obtained; or
      4) He/she has been notified that a search will be conducted.

12. An employee shall not be required (unless subject to a random test procedure)
to submit to a medical, laboratory, or field sobriety examination unless specifically directed and narrowly related to a particular internal affairs investigation. This includes a blood, breath or urine test for the purposes of determining the presence of a narcotic, drug, or alcohol unless:

a. The employee exhibits objective symptoms of being under the influence of alcohol, and/or narcotic or drug; or
b. There is a reasonable and articulated suspicion that the employee ingested or absorbed by the body in any other manner an alcoholic beverage, narcotic, or drug.

13. Any telephone call made or received on a department telephone is the business of the Chief of Police and not confidential. Due to the very nature of the complex problems, which face law, enforcement and the need for accuracy in reporting, those using police telephones shall reasonably expect monitoring and/or recording of incoming and outgoing calls.

14. Photographs of all employees will be maintained in their department personnel file. With the exception of a criminal prosecution, employees of this department will never be compelled to participate in a line-up. If necessary a photograph of an employee may be taken during the course of an internal affairs investigation.

F. Investigation Procedures:

1. All interviews concerning the investigation should be recorded.
2. The complainant and all witnesses will be interviewed.
3. It is the responsibility of the assigned investigator to thoroughly investigate the case and submit a completed investigation report as provided under these procedures. All relevant information obtained by the investigator shall be entered in the investigation report.
4. The investigation shall not be delayed or suspended because of any concurrent civil or criminal proceeding to which the complainant is a part, unless:

a. The complainant requests such a delay, and there is no reason to believe that the alleged conduct of the accused member is of a serious or continuing nature.
b. Upon the explicit advice of the University attorney or under the direction of the Chief.

5. The investigator assigned to investigate a complaint against an employee(s) shall conduct a thorough, accurate and objective investigation within thirty days. If the investigation cannot, for good cause, be completed within this time period, the investigator may be granted an extension (upon showing of good cause) by the Chief. The extension shall not exceed 7 calendar days, although consecutive extensions may be permitted. Exceptions to the 7-day rule may be granted by the Chief of Police in cases where external investigators have been hired. All requests for extensions will be documented and maintained in the investigative file.
6. The investigative report shall be organized into the following four sections:
a. Complaint - This section of the report shall consist of a summary of the complaint as made by the complainant. Each alleged act of misconduct, as set forth in the complaint, shall be itemized. Reference shall be made to those rules, procedures, orders, statutes, or constitutional provisions that would be violated if the allegations are taken as true.
b. Investigation - This section shall consist of a chronological summary of the investigation. Included shall be pertinent facts obtained through interviews with the complainant, accused member(s), and all available witnesses. Summaries of written statements made by the above persons, description and analysis of physical evidence obtained, and all other information relevant to the investigation, shall be included.
c. Conclusions/Findings - The results (conclusion of fact) of the investigation of any allegation including the observations and conclusions of the investigator shall be placed in this section. This shall include one of the dispositions as noted below. Also the reason for the findings in connection with each allegation shall be set forth in this section.
d. Recommendations - This section shall include recommendations for discipline or additional training if any deficiencies were noted in the course of the investigation.
e. The investigation is deemed completed only when the Chief of Police has accepted the investigative report and has no additional input.

7. Each allegation in the complaint will be classified with one of the following dispositions

   a. Unfounded— When the investigation indicates the act complained of did not occur.
   b. Exonerated— When the investigation indicates the act occurred but that the act was justified and proper.
   c. Not Sustained— When the investigation discloses insufficient evidence to clearly prove or disprove the allegations made.
   d. Sustained— When the investigation discloses that the act complained of did occur and constitutes misconduct or improper job performance.

8. Upon receipt of a completed investigation, the Chief of Police shall

   a. Order further investigation, if necessary.
   b. Determine if any violation of law, department policy or rules and regulations has occurred, as well determine if additional allegations exist that require further investigation. The Chief is not bound by the findings in the investigation by a subordinate, but may make new and separate findings based on the investigation results.
   c. Make a decision for disciplinary action or other disposition, based on the findings and the employee’s record of service.
   d. Inform the accused in writing of the results of the investigation and disposition.
   e. Direct that results and disposition concerning the investigation be preserved in the employee’s personnel file.
9. Maintenance of IA Records

a. Investigative reports, writings, and files of every complaint shall be maintained in a separate and secure file in the Offices of the Chief of Police. The Assistant to the Chief of Police is responsible for maintenance of files. These records shall remain confidential.

b. Every sustained case which has resulted in a counseling form, letter of reprimand, suspension, loss of pay, demotion in rank, or termination shall require a written explanation of the disciplinary action taken along with a summary of the complaint to be placed in the employee’s personnel file. This shall become a permanent part of the affected employee’s personnel file.

c. If there are two or more employees involved in a citizen's complaint, individual summaries shall be prepared for each employee regarding his/her involvement and the disposition, then placed in each employee’s personnel file. Each employee involved in a citizen's complaint will receive a copy of the summary.

d. Once completed and filed, only the Chief, Deputy Chief, Division Commanders, Captain or Lieutenants of Operations or Investigations shall have access to an IA record, except where:

1) Access is required by law or court order; or
2) Information contained in the file is relevant to a subsequent investigation or litigation.

e. All citizen complaints and investigative reports concerning sworn personnel are maintained in a confidential file in the Office of the Chief of Police to protect the rights of complainants, witnesses, and departmental personnel as provided in section 832.7 of the California Penal Code. Citizen complaints and investigative reports concerning sworn personnel are retained for a period of at least five years as provided by section 832.5 of the California Penal Code, except as noted below which will be maintained indefinitely:

1) Records of dismissal for cause.
2) The commission of a chargeable public offense.
3) Pending litigation.

Administrative reviews and other government records must be maintained for a period of two years.

Records that are maintained for exceptional circumstances beyond the five-year retention period are retained in the complaint file for as long as it is in the public interest, or as necessary for public safety. An employee of the department, who was the subject of a citizen complaint and subsequent investigation, is notified when the file(s) are purged or destroyed.

f. The Assistant to the Chief shall complete an annual summary of citizen complaints, which shall include the number and types of complaints filed and dispositions.
10. Arrests of Department Members:

a. When a member of this department is arrested by this department or another jurisdiction, the Chief of Police shall be notified immediately. If the Chief is unavailable, the Deputy Chief of Police in his/her absence, the Watch Commander shall be notified.

b. The Watch Commander shall proceed to the place of confinement and if the seriousness of the charges warrants, advise the member that he/she is suspended immediately, (with pay) pending further investigation. If suspended, the employee shall be relieved of department property in his/her immediate possession, and such property shall be delivered to the Chief. Steps will be immediately taken to obtain the departmental weapon, badge and identification card of the involved employee, if it is not in his/her possession.

c. A preliminary investigation shall be conducted immediately and results communicated to the Chief.

Complaint Procedure

The University Police Department welcomes valid complaints about the department’s service or its personnel. Your constructive comments provide an open channel of communication between the department and the campus community which enables us to maintain the highest standards possible.

This policy exists in order to ensure thorough investigation of all complaints given to the department by members of the campus community.

If your complaint involves an officer, you’ll be asked his/her name, badge number and car number. If you don’t have this information, just explain what occurred and when it occurred (date, time, and location of the event).

Valid complaints help us to protect the community from possible misconduct. At the same time, a thorough and impartial investigation procedure protects those employees who perform their duties properly.

Reginald Parson,
Chief of Police

3. **Not Sustained**—When the investigation discloses insufficient evidence to clearly prove or disprove the allegations made.

training, or the imposition of negative sanctions.

b. Negative sanctions administered internally may range from a warning, where the immediate effect is on the individual, to termination, where the positive result is the reassurance to other employees of the unacceptable limits of misconduct.

c. Policies, procedures, rules, regulations and written and oral directives are promulgated as guidelines to acceptable and desired objectives. When violations of such directives occur, members of the department will be subject to disciplinary action.

2. Nature of Discipline

a. A well-disciplined public safety agency is a department whose members voluntarily conform to all department policies, procedures and rules. It follows that the best-disciplined department is the least in need of corrective action. Nevertheless, a violation of the department’s policies, procedures, rules or the law, may require disciplinary action.

b. Discipline may include instruction, training, or counseling which modifies the behavior of an individual or may be punishment. In addition to the automatic administrative review system, which also allows the employee to make specific remarks and offer individual perceptions, a system of appeal and/or grievance exists.

b. Employee appeals are not required to be related to any article found within the SUPA or CSUEU agreements. It is the intent of this section to attempt to work out employee disputes internally, without processing through Human Resources.

1) Appeals of proposed suspensions, demotions, or terminations shall be made first to the reviewing supervisor and through the chain-of-command to the Chief.

2) Appeals of performance evaluations shall be made to the reviewing supervisor. If the Chief initiated the action, the employee may file a rebuttal with Human Resources. Appropriate administrative action will be determined at that office.

   b. Although a union representative or legal counsel may represent the employee, the review is not designed to accommodate the presentation of testimony or witnesses.

The employee must file a request with the Board within 30 days of being served with the motion of discipline.

G. Misconduct of Probationary Employees:

1. In the event that a probationary employee is released from employment during the probationary period solely for unsatisfactory performance or the failure to meet department standards, the employee has no right to appeal under Education Code Section 89535 because the action is not a disciplinary action and has no right to the Article 7 Grievance Procedure under the MOU (MOU, Article 11.5). Release from employment (rejection during probation) is the right given the employer to evaluate the performance of a probationary employee to determine whether the employee should be given permanent status. Thus, an employee may be released from employment during this period at the sole discretion of the CSU (MOU, Article 11.5).
Unsatisfactory performance or failure to meet department standards are among may reasons to release an employee. Nevertheless, in those rare instances when probationary employees are suspended or demoted (are disciplined), the following shall be considered:

c. A probationary employee’s appeal of disciplinary action shall be limited to an opportunity for the employee to attempt to establish that the underlying allegations should not be sustained. Nothing in this policy or procedure, however, should be construed to establish any sort of property interest in or right to the employee’s continuation of employment.
d. The burden of proof for any probationary employee’s appeal of disciplinary action shall rest with the employer and will require proof by a preponderance of the evidence.
e. In the event that the employer fails to meet its burden of proof in such a disciplinary appeal, the Department shall remove all reference to the underlying allegations of misconduct from the employee’s personnel file.
f. In the event that the employer meets its burden of proof in such a disciplinary appeal, the employee shall have no further right to appeal beyond that provided by the reviewing Officer.

4. The Assistant to the Chief files all evaluations in the employee personnel file and forwards the original to Human Resources.

G. Appeal Process:

1. At the time the employee reviews the evaluation with the rater, the employee may discuss any items that the employee believes are not a true reflection of their performance.
2. The rater may revise the evaluation if he/she determines that the points raised by the employee have merit.
3. If the rater does not revise the evaluation after discussion with the employee and the employee continues to believe that the evaluation does not reflect their performance, the employee may review the evaluation with the rater’s supervisor.
4. The rater’s supervisor after speaking with the employee and the rater will make a determination if the evaluation will stand as written.
5. The employee will be given an opportunity to sign the completed evaluation and may attach written comments to supplement the information, if they wish.

B. Career Counseling: The relationship (process) between trained counselor/supervisor and employee that is designed to facilitate an employee’s career choices, comprehension of career goals, and achievement of career goals through meaningful and well informed choices.

C. Career Development Activities: An organized and supervised set of duties or functions designed to stimulate learning, e.g., counseling, training job rotations.

D. Counseling: The giving of advice; advising. As used: discussions between the rated employee and rater leading to advice to the former concerning performance.

E. Field Training: A structured and closely supervised program provided to recruit officers to facilitate the application of skills and knowledge obtained in the academy/classroom to actual performance in on-the-job situations.

F. Field Training Officer (FTO): An officer who has been carefully selected and trained to deliver the field-training program to recruit officers.

G. In-Service Training: Training in addition to recruit training, which may include periodic retraining or refresher training, career development, promotional training, advanced training, and shift briefing training.

H. Lesson Plan: A detailed guide from which an instructor teaches. The plan includes goals,
specific subject matter, performance objectives, references, resources, and method of evaluating or testing the students.

I. Proficiency: The additional skills, knowledge and abilities that are needed to remain competent in performing the duties and responsibilities of a job.

J. Recruit/Basic/Entry Level Training: The orientation of new officers to their jobs and the development of basic law enforcement skills.

K. Reimbursement: Costs reimbursed to employees for attending training programs inside or outside the agency.

L. Remedial Training: Personalized training to correct a specific deficiency, which is usually identified by either (1) testing or other evaluation during training, or (2) supervisory evaluation during routine job performance.

Specialized training may address supervisory, management, and/or executive development training, or it may include technical and job-specific subjects, e.g., robbery investigation, crime scene processing, sexual assault investigation, etc.

Q. Task: A unit of work performed by an individual to accomplish the goal of a job.

IV. PROCEDURES:

A. Attendance requirements for employees assigned to authorized agency training programs.

1. Attendance at an assigned training course is required.
2. When an employee cannot attend an assigned course or any scheduled department training due to illness, court subpoena, or some other emergency, that employee must notify the appropriate Field Operations Division Commander as soon as possible.
3. When an employee has missed an assigned training course it will be rescheduled, if possible, for a future session or a similar training course.
4. Certification of completed training shall be submitted to the Assistant to the Chief for update of the employee’s training records. This certification will include the subject of the training, an overview of the course (if possible), number of hours, performance tests administered, and special certifications received.

B. Reimbursement to employees attending training programs in or outside the agency.

1. The University Police Department will reimburse employees attending training programs for such expenses as mileage, meals, lodging, fees, tolls and other related expenses at the rates established in accordance with University policy and the Collective Bargaining agreements.
2. There shall be no compensation for travel expense incurred while attending local training classes (within 25 miles) of the campus. There will be no compensation for travel time when attending schools voluntarily.

3. Travel time to attend required training out of town which involves overnight travel is counted as hours worked for purposes of computing overtime pay, only up to the amount of time which is equal to the employees normal working hours. If travel takes 12 hours and the employee normally works 8 hours, the amount of comparable time is 8 hours. Mealtime may be deducted from travel time as well. As a general rule, travel to training will be reimbursed at straight time on an hour for hour basis exclusive of meal breaks.

4. If the employee is offered public transportation which would require 3 hours of travel time but elects to drive his/her own vehicle or to ride as a passenger in another’s car, requiring 8 hours of travel, the employee will only be compensated for the shorter of the two times. In this example 3 hours for computing compensation. The compensation paid for travel is limited to the amount that would be the most economical mode of transportation to the training location.

5. Employees shall receive per diem expenses for meals and lodging according to schedules set by the State or P.O.S.T. depending on the school, conference or seminar.

6. All reimbursement requests related to business travel claims, uniform allowance for Unit 7 employees, petty cash, hospitality and other business related purchases must be made within 90 days of incurring the expense. Reimbursement requests that are submitted after the 90 day deadline are likely to be denied by the Accounts Payable Department. Late reimbursement requests must then be requested via the Vice President with an acceptable justification. Any late reimbursement request received without the Vice President’s approval will be denied.

7. The Fiscal Services Administrative Specialist will be responsible for all travel advances and training reimbursements/claims.

C. Mileage claims for privately owned vehicles:

1. Effective July 1, 2003, all employees using a University owned vehicle, a privately owned vehicle, or a state rental vehicle must be authorized by the University to drive on state business by satisfying the requirements of the Driver Safety Program. To satisfy the requirements of the Driver Safety Program, an employee must:

   a. Possess a valid California or other state driver’s license.
   b. Satisfactorily complete a Defensive Driver Training class once every four years.
   c. Participate in the DMV Pull Notice Program to verify driving record.
   d. Use a vehicle that is adequate for the work to be performed and in safe mechanical condition.
   e. Must use safety seatbelts.

2. Employees authorized to use a privately owned vehicle to conduct state/university business must complete form STD 261 (Authorization to Use Privately Owned Vehicles on State Business) to certify the vehicle being used has liability insurance coverage with the minimum amount prescribed by law and that other safety factors
are in effect. The completed and approved STD 261 form will be retained in the employee's personnel file and will be re-signed and verified annually to certify that it is current. An employee must be listed as an authorized driver by the campus office of Environmental Health & Safety (EHS) in order to be reimbursed for any mileage used during a business travel.

3. An employee may obtain a one-time only exemption and temporary authorization from EHS if he/she must drive a university or privately owned vehicle on a state business and has not yet been properly authorized according to the procedures listed above. Once given a one-time exemption, an employee must immediately attend the next Defensive Driver Training class to receive mileage reimbursement for future travel.

D. Lesson Plans:

1. Lesson plans are required for all training conducted by the department and maintained by the Training Administrator
2. Lesson plans will include the following:

   a. A statement of performance and job related objectives;
   b. The content of training and specifications of the appropriate instructional techniques (i.e. powerpoint presentation, lecture, practical application/demonstration, simulations, etc)
   c. Identification of any tests used in the training process.

3. It is the responsibility of the instructor to submit a lesson plan to the appropriate Field Operations Division Commander and the Training Administrator. The Training Administrator is responsible for reviewing courses that require submission to the California Commission on Peace Officer Standards and Training (P.O.S.T) for course certification. The department will provide each instructor with guidelines and format for lesson plan development.

E. Policy concerning written remedial training.

1. Remedial training is directed at solving a particular problem and/or improving an area of performance.
2. Remedial training will be provided to any employee who has been identified by his/her supervisor to be deficient in any required area of performance.
3. Remedial training can be provided through additional training provided by department supervisors or FTOs or through required attendance at P.O.S.T. in-service training courses.
4. Remedial training must be completed in a designated time and with clearly defined and expected results. Officers who are assigned to any remedial training must attend and complete the training. Failure to complete the training may result in disciplinary action.
5. At the time an employee is identified as requiring remediation, a timetable will be established by the employee's supervisor for completion of training and improvement in performance. All remedial training recommendations must be approved by the
appropriate Field Operations Division Commander and must be documented.

I. PURPOSE: To establish procedures for employee injury and submitting Workers’ Compensation forms by Police Department employees and supervisors.

II. POLICY: It is the policy of the University to ensure there is an employer-paid benefit that provides medical, compensation, and vocational rehabilitation benefits to employees injured on the job or become ill because of work.

III. DEFINITIONS: None

IV. PROCEDURES:

A. Employees who observe hazardous work conditions should report the condition to their supervisor via the chain of command.

B. No employee shall suffer reprisals for reporting a workplace hazard. The University Police strives for a safe and healthy work environment.

C. Employees should also observe appropriate safe work practices pursuant to training. Failure to follow safe work practices may result in discipline.

D. When an employee is injured on the job, it is not only important to obtain immediate medical attention on the employee but to also fill out the required paperwork. Delays will jeopardize timely processing and payment of medical benefits. Supervisors are required to report employee injuries within 24 hours to the Worker’s Compensation Administrator in the Office of Risk Management. The following CSU Risk and Safety guidelines and completion of necessary forms are as follows:

1. When an employee has incurred an injury or illness resulting from his/her job, the employee must fill out the Employee’s Claim for Workers’ Compensation Benefits (Form DWC 1) within one working day of the supervisor’s knowledge of the claim.
2. The supervisor must complete the Work Related Report & Injury/Illness Form within 24 hours of their knowledge of the employee’s claim.
3. After completing the two (2) forms identified above, these forms must be filed with
the Lieutenant in charge to check for completion. The Lieutenant will be responsible
for ensuring that all forms are filled out accurately and completely.

a. A copy of the completed DWC 1 & first page of the second form only must be
given to the employee if they seek medical attention following an on-the-job injury.
b. A copy of each form is also filed in the employee work injury file and the original
sent to the Office of Risk Management.
c. An employee can go to their personal physician only if the physician’s name has
been pre-designated and on file in Human Resources. Otherwise, the physician
must be University approved.

4. Completed original forms must be forwarded to the Fiscal Services Division/
Chief’s Office for logging the injury onto the department’s Workers’ Compensation/
Employees’ Injury Check off List before submitting to the Office of Risk Management.
The Check off List will be maintained by the Department’s Fiscal Services Office/
Chief’s Office, and will be responsible for recording all activity related to the
employee’s injury as provided by the employee’s supervisor. This status report will
facilitate the department in following the procedures as required by the Office of Risk
Management and also utilized for the purpose of keeping track of the injury progress.

E. If an employee complains of an injury but does not want to file a claim, the supervisor will:

1. Need to provide the same forms and must be completed. Identify on the form that
   the report is for “Documentation Only.”
2. The dispatcher will make a Log Entry detailing the incident.
3. An employee has one year to file a claim following the occurrence of an injury.

CHIEF OF POLICE ___________________________ DATE ___________________________
I. PURPOSE: To establish what qualifies as an authorized special assignment and procedures for awarding special assignments and monthly stipend eligibility, under Unit 8 – CSU State University Police Association Article 21.23 – 21.27 (Special Assignment Stipend) collective bargaining agreement and collective bargaining agreements of other bargaining units within the department.

II. POLICY: It shall be the policy of this department to select individuals for special assignments based on their skills, knowledge, and abilities and to award special assignment stipends to all employees deemed eligible per the union contracts and the following procedures.

At a minimum, sworn officers should not be in a probationary status when designated to perform a special assignment. However, special consideration is given to officers with unique qualifications and experience in the assignment, especially those transitioning to the DCS as lateral officers with a minimum of (2) years of being a sworn officer. Officers shall submit the Stipend Request Form and Stipend Tracking Form via the Transmittal Form for that assignment. Only one stipend (greatest amount) will be awarded to officers, regardless of how many special assignments are authorized, or performed.

Employees performing a special assignment are responsible for submitting requests for special assignment stipends to their supervisor by the 25th of each month. Supervisors will review the request to ensure minimum requirements have been met for awards of stipends and submit those requests with their endorsement to their Division Commander by the 27th of each month. Not completing the required forms within the time requirements will result in delayed payment of the stipend.

III. DEFINITIONS:

A. Specialized Assignment: An assignment often characterized by increased levels of responsibility and specialized training but within a given position classification.
IV. PROCEDURES:

A. SUPA Contract Criteria for Awarding Special Assignment Stipends:

1. Employees in all classifications/ranks shall be eligible to receive a monthly stipend of an amount at or between one hundred ($100.00) and four hundred ($400.00) dollars per month as determined by the Chief of Police to perform one or more special assignments. Stipend payments are on a month-to-month basis for the duration of the special assignment. (21.23)

2. Special assignments shall be based on department or campus needs as determined by the Chief of Police. For the employee to be eligible to receive the stipend the employee assignment shall be in writing by the Chief of Police or designee. (21.24)

3. An employee shall not be eligible for the special assignment stipend for any assignment that is considered part of their primary, regular duties. Special assignments are in addition to those assignments or duties normally expected for the employee’s classification or rank. (21.25)

B. Categories of Special Assignments:

1. Unrestricted Assignments are those which involve the award of special assignment pay on an on-going basis for the duration of the assignment.

   a. Critical Response Unit (CRU) – If a CRU member voluntarily misses a CRU training, fails to respond to a CRU call-out, training or is out on an extended leave, they will not receive a special Assignment Stipend for the inactive month.

2. Restricted Assignments are those assignments that involve the award of special assignment for a special project assigned by the Chief during the duration of the project until completed. Payment of restricted assignments is at a minimum of $100.00 to a maximum of $400.00 for Unit 8 employees dependent upon the nature of the assignment. The Chief of Police will determine the rate of compensation for a restricted assignment. Determination of the maximum amount allowed is dependent by other stipends the Unit 8 employee is receiving at the time. No employee may receive more than $400.00 per month from any combination of special assignments. Compensation of Unit 7 and Unit 9 employees will apply per the provisions of their labor contract.

SUBJECT: USE OF POLICE DEPARTMENT IDENTIFICATION CARDS

I. PURPOSE: To inform Police Department employees of their responsibility for the proper use of the Department issued identification card.

II. POLICY: It is the policy of this department to establish proper procedures and ensure appropriate use of both sworn and non-sworn department identification cards.

III. DEFINITIONS: None

IV. PROCEDURES:

A. Proper use of department issued Identification Cards:

1. All permanent employees of the University Police Department shall be issued employee identification cards by the authority of the Police Chief. The cards will differ in the appearance of the font size of the text to ensure that the public can differentiate between the two classes of employees (sworn and non-sworn). All identification cards will include at a minimum the employee’s photograph, name, and whether they are sworn or non-sworn.

2. All members of the department making business related phone calls to persons whom they are dealing with shall verbally identify themselves as a member of the police department. If the person receiving the call questions the validity of the department employees’ identity, the department member shall instruct the individual to call the 24/7 police department business line and ask to be transferred back to the member initiating the call.

3. All employees will keep their identification cards on their person at all times. Identification cards are used to ensure that the public can identify law enforcement officers and be certain that the person they are dealing with is in fact an officer. This will enhance the officer’s ability to perform their duties, promote confidence with the public, and make officers more accountable for their actions. The only exception to this requirement will be when an employee is working in an undercover capacity. Due to the inherent risks of working undercover and the importance of ensuring that the undercover officer’s true profession is kept a secret, undercover officers will not
keep their identification cards on their person. When a member of the general public requests to view an employee’s identification card, the employee will provide them with the card in a polite and courteous manner.

a. No employee shall use the Police Department employee identification card for other than official business for the Police Department and/or the San Francisco State University. The card will not be used to cash checks, to purchase alcoholic beverages, or to enter a place serving alcoholic beverages.
b. No employee shall give or loan his/her identification card to any other person.
c. Any loss or theft of the employee’s identification card shall be reported to the employee’s supervisor within twenty-four (24) hours of the occurrence.
d. Non-sworn employee identification cards shall be identified by the wording “Support Personnel,” and sworn officers by the wording “Police.” At no time shall a non-sworn employee use his/her identification card to represent himself/herself as a peace officer.
e. It is recommended that non-sworn employees carry their identification cards at all times when off duty for access through police barricades in the event of an emergency on campus.

B. Improper use of the Police Department identification card shall be cause for disciplinary action by the Police Chief or his/her designee, and the card will be withdrawn from use.

I. PURPOSE: To create a department procedure to comply with CSU Police, State and local requests for assistance including mutual aid.

II. POLICY: It is the intent of the California State University (CSU) that resources and facilities of a CSU campus and its public safety departments will be made available to other CSU campuses through Mutual Assistance and the Critical Response Unit, as appropriate, to ensure public safety. Additionally, CSU public safety departments share police personnel and resources across the State as required in response to Mutual Aid requests, as needed. This policy provides an overview of general procedures and/or guidelines for obtaining and coordinating law enforcement assistance between CSU campuses as well as State and local public safety agencies.

III. DEFINITIONS:

A. Mutual Assistance: Mutual Assistance occurs when two or more CSU presidents or police chiefs agree to furnish personnel, equipment and/or resources to other CSU campuses, on a temporary basis, in the furtherance of public safety. Campuses will make every reasonable effort to provide requested Mutual Assistance commensurate with available resources and local circumstances.

B. Critical Response Unit: Executive Order 1046 communicates the policy of the CSU that resources and facilities of the CSU and its various public safety departments will be made available to mitigate the effects of natural disasters, to prevent or mitigate the effects of civil disorders and to protect life and property when local campus officials deem a necessity exists to insure and protect public welfare. The Critical Response Unit (CRU) refers to a selected group of police personnel from CSU campuses that have trained together as a team and are prepared to handle these public safety issues.

C. Mutual Aid: Mutual Aid refers to the State of California’s disaster planning program for sharing police personnel and resources across the State.

IV. PROCEDURES:

A. Requests for Mutual Assistance:
1. If a campus requires Mutual Assistance, the president or police chief makes a direct request to the president or chief at any CSU campus. Any assistance provided is based upon mutual agreement between the campuses. Mutual Assistance requests can be made verbally or in writing. A Mutual Assistance request may be short-term and limited to one or few individuals and in these instances a verbal request is adequate. For Mutual Assistance requests that are longer term and involve more than a few individuals, a verbal Mutual Assistance request should be followed up with a written request. A sample Mutual Assistance Request Form is provided in Attachment A.

   a. The Commander or the Chief shall call the campus or Chief to make the request.

2. Authorization

   a. Mutual Assistance authorization will be confirmed by the home campus (campus providing assistance) to the host campus (campus receiving assistance) with an email or a completed Authorization Form sent by facsimile. If confirmation is provided by email, information requested in the Authorization Form will need to be provided. A sample Authorization Form is provided in Attachment B.

3. Assistance, Costs and Reimbursement

   a. Once the host campus has made a request for assistance and/or additional equipment and the assistance is confirmed, police personnel are reassigned either temporarily or asked to volunteer for overtime compensation to meet Mutual Assistance needs. The host campus is responsible for providing lodging and meals for police personnel participating in the Mutual Assistance event. Additionally, the host campus will reimburse the home campus for costs associated with providing assistance including transportation, overtime and incidental expenses, as well as for costs associated with related court appearances.

   b. Once the Mutual Assistance event is completed, the home campus shall provide written cost documentation to the host campus. See Attachment C for a sample Cost Summary Report. As required, the home and host campuses will review cost documentation to ensure costs are appropriately identified. If cost documentation is provided by email, information requested in the Cost Summary Report needs to be provided.

1) All fiscal reporting will be the responsibility of the Fiscal Services Manager.

B. Activation Requests for the Critical Response Unit

1. If the campus needs to activate the CRU, the campus chief shall contact the CSU Police Coordinator so he/she can facilitate the process with the Vice Chancellor of Human Resources and the Chancellor. The CSU Police Coordinator will work with the campus chief and the CRU chiefs to ensure staffing availability and mission of the activation. Then, a written request needs to be made by the campus president to
the Chancellor requesting CRU activation. The request must include an explanation of the necessity or emergency, expected assignment of the CRU and the number of police personnel required. If CRU activation is approved, the Chancellor will advise the president and provide written authorization. The Vice Chancellor of Human Resources has delegated authority to approve activation of the CRU in the absence of the Chancellor, and to determine who will cover costs.

a. If the Chief of Police in consultation with the Commander deem it necessary to request CRU, authorization shall be obtained from the Vice President for Student Affairs.

b. The Chief will forward through the Vice President for Student Affairs a written request for the President to send to the Chancellor.

2. Operational Plan

a. Once the activation has been approved, the CRU Commander is responsible for preparing and submitting the Operational Plan to the host police chief for approval.

b. The home campus is responsible for arranging transportation of CRU police personnel to and from the host campus and will ensure that personnel assigned are equipped in accordance with systemwide uniform and equipment regulations.

3. Costs and Reimbursement

a. Generally, a campus is authorized one CRU call per academic year without incurring expenses for overtime, salary, replacement staffing costs, incidental expenses or travel. Generally, these related expenses will be paid out of the systemwide CRU fund.

b. However, the Chancellor retains the right to determine who will pay costs for any CRU activation. Unless determined otherwise by the Chancellor or designee, the home campus will fund salary and travel expenses.

c. Unless determined otherwise by the Chancellor or designee, the host campus is responsible for funding hotel and meal related costs.

d. The home campus is responsible for loss of home campus equipment.

C. General Operational Guidelines for Mutual Assistance and CRU:

1. Supervision and Command

a. Supervision of Mutual Assistance or the CRU is the responsibility of the host campus police chief, through the local chain of command or Commanders of the CRU, as appropriate. Upon arrival at the host campus, the senior ranking officer of the Mutual Assistance detail or the Commander of the CRU must report immediately to the host campus police chief or designee for assignment or instructions.

2. Media Relations
a. Press inquiries regarding Mutual Assistance or CRU related incidents or information are to be referred to the host campus.

3. Major Incident Reporting

a. The host campus is responsible for submitting a Major Incident report, if required, by the Major Incident Reporting Requirements policy.

4. Emergency Personnel Information Form

a. Police personnel participating in Mutual Assistance or a CRU operation are encouraged to complete an Emergency Contact Information Form (see Attachment D for a sample form) prior to arrival at the host campus and present it to the officer in charge at the host campus or the CRU Commander.

5. Injury or Illness

a. CSU police personnel injured while at the host campus must notify the host campus Commander and the home campus supervisor immediately, if possible. If the police officer is not able to notify his/her home campus supervisor immediately, the host campus Commander is to notify the home campus supervisor as soon as possible.
b. The host campus must supply the injured employee with an Employee Claim for Worker’s Compensation Form. Injured employees must complete required documents and reports of injury/illness consistent with host campus procedures, as applicable.
c. All CSU police personnel injuries or illnesses should be treated at a licensed medical facility consistent with the policies and procedures of the host campus. When possible, CSU police personnel requiring medical attention should be treated at a facility different than the facility treating persons who may have been injured as a result of police action.

6. Risk and Workers’ Compensation Liability

a. If a liability complaint and/or a lawsuit arises from a Mutual Assistance or a CRU operation, the CSU Risk Manager will apportion the cost to the appropriate campus risk pool.

7. Reports/Field Operations

a. Officer time and attendance records are to be maintained. See Attachment E for a sample Mutual Assistance or Critical Response Unit Time Sheet. The time sheet is to be provided to the home campus via facsimile for payroll purposes.

8. Disposition of Citizen’s Complaints

a. If a citizen complaint is made, the home campus of the involved officer is to
be notified of the complaint. Generally, the investigation of the complaint is the responsibility of the home campus. If a citizen associated with the host campus initiates the complaint, the host campus will conduct the internal affairs investigation and provide fact-finding only. If there are unusual circumstances that would necessitate the need for the host campus to conduct the investigation, the police chiefs involved should consult and reach a mutually acceptable agreement.

b. The home campus is responsible for discipline.

D. Campus Events Sponsored by Private Entities:

1. CSU campuses shall not incur Mutual Assistance or CRU expenses when responding to an event sponsored by a private entity on a CSU campus. The private entity is responsible for all related expenses. The host campus must submit all related costs to the private entity for reimbursement.

E. Agency Jurisdiction and Mutual Aid:

1. Under the Mutual Aid program, the CSU first relies on internal resources, and then follows established protocols for enlisting assistance from cities, counties and ultimately the regional office of the Office of Emergency Services, as required.
2. For Mutual Aid requests, police chiefs are required to follow the county and state protocols in their jurisdiction.
3. Mutual Aid requests are considered Major Incidents and reporting procedures must be followed, pursuant to the systemwide human resources policy on Major Incident Reporting Requirements. (Reference: The California Emergency Plan (Sections 8500 ff., Government Code) and California Law Enforcement Mutual Aid Plan, 1994.)

   e) other satisfactory reasons.

2) Application: A written application for a leave of absence without pay or an extension of a leave of absence without pay shall be submitted to the President. The President shall determine if such a leave shall be granted and the conditions of such a leave, and shall respond to the application within forty-five (45) days.
3) Employment Status:

   a) An employee who is on a leave of absence without pay shall not return to active pay status prior to the expiration of such a leave without written approval of the President.

   b) Service credit shall not be granted to an employee on a leave of absence without pay. A leave so granted assures to the employee a right to his/her former position or a position within his/her classification upon expiration of the leave and the time lost shall not constitute a break in service.

4) An employee on a leave of absence without pay for more than thirty (30) days may opt to continue his/her fringe benefits at his/her own expense. Upon written request of an eligible employee, the CSU shall provide a system for the continued payment of his/her insurance premiums including health, dental and vision benefits during the period of an unpaid leave of absence. During this period, such an employee shall pay both the employee’s and the CSU’s contributions. The CSU shall not advance such payments. An employee shall pay all contributions prior to the date each payment is due. Failure to pay such premiums will result in coverages lapsing unless the employee makes other arrangements.

2. Holiday Leave

   a. An employee in pay status on the day as the holiday is officially observed shall be entitled to the holiday.

   b. An employee on a leave of absence without pay or other non-pay status on a day a holiday is officially observed shall not be entitled to the holiday.

   c. Holiday Work Compensation:

      1) A full-time employee who works on the day a holiday is officially observed shall be compensated at his/her overtime rate on an hour-for-hour basis for all hours worked on the holiday. Such compensation shall be in cash or CTO, as determined by the President. This provision shall apply pro rata to less than full-time employees. Employees not eligible for overtime shall receive time off earned at the straight time rate.

      2) When a holiday is observed and an employee is not scheduled to work on the day the holiday is observed, but is required to work on the calendar date of such a holiday, he/she shall only receive holiday work compensation for time worked on the calendar date of the holiday.

   d. Personal Holiday

      1) Each employee is entitled to a Personal Holiday that must be taken during the calendar year. If the employee fails to take the Personal Holiday before the end of the calendar year, the holiday shall be forfeited.

      2) The use of the Personal Holiday shall be coordinated with the authorization of the Chief of Police.
e. An employee shall be permitted to use accrued vacation or his/her Personal Holiday if the President closes the campus and there is an insufficient number of holidays scheduled to be observed during the closure. Employees eligible for CTO may use accrued CTO during periods of campus closure.

1) Should an employee not have vacation accrued, sufficient CTO balance or Personal Holiday to cover the scheduled days of closure, he/she shall be provided sufficient work prior to the scheduled closure to prevent any loss of pay or benefits.
2) Time worked shall be in accordance with the overtime procedures.

3. Sick Leave

a. Following completion of one (1) month of continuous service, full-time employees shall accrue eight (8) hours of credit for sick leave with pay. Thereafter, for each additional month of service, eight (8) hours of credit for sick leave with pay shall be accrued.

b. Each full-time employee shall be considered to work not more than forty (40) hours each week. Employees who are appointed less than full-time shall accrue credit for sick leave with pay on a pro rata basis.

b. Sick leave may be accumulated without limits, and no additional sick leave with pay beyond that accumulated shall be granted except as donated under the Catastrophic Leave donation program.

d. An employee shall be responsible for reporting an absence to the appropriate administrator as soon as possible in compliance with department and campus policies.

1) An employee shall be responsible for completing and signing the campus absence form and returning the absence form to the appropriate administrator upon reporting to work.

2) An employee may be required to provide a physician’s statement or other appropriate verification for absences after three (3) consecutive days charged to sick leave. An employee shall not normally be required to provide such a statement or verification for an absence of three (3) consecutive days or less charged to sick leave.

e. Catastrophic Leave Donation Program

1) Any CSU employee who accrues vacation and sick leave credits may voluntarily donate either of those credits to any other CSU employee on the same campus, if the recipient employee has exhausted all accrued leave credits, i.e., sick leave, vacation and CTO, due to a catastrophic illness or injury.

2) Catastrophic illness or injury is an illness or injury that has totally incapacitated the employee from work.

4. Vacation Leave
a. Vacation credits are cumulative to a maximum of two hundred and seventy-two (272) working hours for ten (10) or less years of qualifying service or three hundred and eighty-four (384) working hours for more than ten (10) years of such service. Employees falling under the Management Personnel Plan can accrue up to a maximum of three hundred and eighty-four (384) working hours for less than ten (10) years of qualified service or four hundred and forty (440) working hours for ten (10) or more years of such service. The employee shall forfeit accumulations in excess of this amount as of December 31 of each year.

b. Upon separation from service without fault on his/her part, an employee is entitled to a lump sum payment as of the time of separation for any unused or accumulated vacation. Such sum shall be computed by projecting the accumulated time on a calendar basis so that the lump sum will equal the amount, which the employee would have been paid had he/she taken the time off, but not separated from service.

c. For purposes of computing vacation credit, an employee who works eleven (11) or more days in a monthly pay period is considered to have completed a month, a month of service, or continuous service. When an absence without pay of more than eleven (11) consecutive working days fall into two (2) consecutive qualifying monthly pay periods, one (1) of the pay periods is disqualified.

d. Vacation requests must be submitted with reasonable advance notice and in writing to the Chief of Police.

1) An employee may request to schedule a block of several consecutive days vacation equal to the number of vacation days the employee earns in that calendar year.

2) Based upon the operational needs of the campus, vacations shall be scheduled and taken as authorized by the Chief of Police.

3) If a conflict in vacation requests arises, the Chief of Police shall give consideration to the employee(s) with the most seniority, provided that operational needs are met.

C. Retirement Program:

1. All employees appointed full-time for more than six months contribute to the Public Employees' Retirement System (PERS).

2. Employees appointed less than full-time for more than one year can also contribute to PERS. These contributions are mandatory.

3. The formula used in calculating the employee’s contribution is 5% of earnings in excess of $513 per month for most CSU employees or as determined by the bargaining contracts. For unit 8 employees, CSU shall pay 100% of each bargaining unit employee’s contribution to the Public Employees Retirement System.

4. The State contributes a substantial percentage based on the gross monthly salary. The contribution goes into a fund that currently earns interest at the prevailing rate. The contributions cannot be withdrawn until the employee separates or retires.

5. Employees with five or more years of state service and who are under the age of 50 who leave the University may leave their contributions on deposit to gather interest and may retire at age 50 or older. The employee may also request a refund either
upon separation from the University or after leaving the University by making an application for a refund directly with PERS. Processing of funds currently takes 8 to 10 weeks. The State’s contribution is not refundable.

6. Employees who are PERS members are automatically covered for certain death benefits at no cost.

7. Credit for Prior PERS Service:

a. Employees who worked for another PERS employer and withdrew their contributions may request information about the amount required for re-depositing the withdrawn contributions.

8. Disability Retirement

a. If an employee is unable to perform their job because of an illness or injury which is expected to be permanent or to last indefinitely, and the employee has five or more years of service credit (no minimum for police officers), the employee may be entitled to receive a monthly disability allowance payable for the rest of their life, or until their recovery. The cause of the disability however needs to be related to the University.

9. Final Compensation

a. The average pay earned over the last three consecutive years of employment (or one year for all State Sworn members and those local members with the one-year final compensation as a contract provision) unless the member elects a different period with a higher average. The final compensation may be reduced if CalPERS service is coordinated with Social Security.

10. Employees who are at least 50 years of age and have five years of full-time service are considered “vested” and may retire at any time from the Public Employees’ Retirement System and receive a monthly retirement allowance. There is no compulsory retirement age.

11. Unused sick leave at retirement is added to years of service in calculating retirement allowance.

12. The system recommends that an Application for Retirement be completed at least 90 days in advance of the retirement effective date. As a service to its members, PERS will calculate a retirement allowance upon receipt of a PERS Retirement Allowance Estimate request form.

13. Police Officers are PERS members, but fall into a different category when calculating service retirement allowance.

D. Health Insurance Program:

1. To qualify for benefits, a staff employee must be appointed at least halftime and for more than six months. New employees have 60 days from the date of the eligible appointment to enroll without evidence of insurability, regardless of any pre-existing condition(s).

2. Health Insurance plans include:
a. Medical;
b. Dental; and
c. Vision.

3. Medical/Health: Employees may choose among health maintenance organizations and preferred provider plans. Each plan varies in coverage and the state contributes a substantial amount toward the employee’s monthly premium based on the number of family members enrolled in the plan. Premiums are paid by payroll deductions. Premiums, benefits and state contributions may change annually.

4. Dental: The state currently pays the monthly premium and provisions in the Collective Bargaining Agreement may modify dental plan benefits.

5. Vision: There is currently no premium cost to eligible employees and dependents. It stands separate and alone from the medical plan and is for routine eye (vision) care only. The basic benefit permits one examination every twelve months and lenses/frames every twenty-four months. (Lenses are provided every twelve months if there is a defined prescription change.)

E. Disability and Death Benefits Program:

1. After public service careers, approximately one-third of CalPERS members or their beneficiaries collect retirement benefits. Among them are Disability and Death Benefits.

2. Disability Retirement: Employees under the PERS program must have at least five years of credited service to qualify for disability retirement.

3. Industrial Disability: Upon written notification to the CSU by an eligible SUPA employee, he/she may elect to supplement IDL payments with charges to his/her accrued sick leave. Such an election shall be made no later than fifteen (15) days after the report of the injury for which IDL is being paid.

4. Enhanced Industrial Disability: Whenever any sworn bargaining unit employee is disabled by injury or illness arising out of and in the course of his/her duties, he/she shall be entitled to enhanced industrial disability leave (EIDL) benefits, regardless of his/her period of service with the University.

5. Non-Industrial Disability Insurance: The maximum weekly payment for eligible employees shall be two hundred fifty dollars ($250).

6. Life Insurance: For sworn and non-sworn personnel, the CSU shall provide eligible employees with life and accidental death and dismemberment insurance at no cost to the employee. This program shall provide insurance during the term of employment in the amount of ten thousand dollars ($10,000).

7. Pre-Retirement Death: If an employee dies before he/she retires, CalPERS will provide several benefits for the employee’s family or the beneficiary(ies) named by the employee. Pre-retirement death benefits are divided into two categories:

   a. Not Eligible To Retire - Under the age of 50, or age 50 or over with less than five years of CalPERS-credited service.

      1) Group Term Life Insurance
      2) Alternate Death Benefit
3) Special Death Benefit
4) Basic Death Benefit
5) 1959 Survivor Benefit

b. Eligible To Retire - Age 50 or over with a minimum of five years of CalPERS-credited service.

1) Group Term Life Insurance
2) Optional Settlement 2 – Death Benefit
3) 1957 Survivor Benefit
4) Special Death Benefit
5) Basic Death Benefit
6) 1959 Survivor Benefit

F. Provision of Support Services to Employees:

Personal Counseling Services – Faculty & Staff:

The Provision of Support Services to Employees section addresses the Personnel Early Warning System that identifies employees who may require agency intervention efforts. There are other written directives and procedures establishing a Personnel Early Warning System and they are discussed in more detail in General Order 2-21, IV, C, 1 and D, 3 and covers provisions to initiate a review based on current patterns of collected material, agency reporting requirement of conduct and behavior, annual evaluations of the system, the role of first and second level supervision, and remedial action.

An Employee Assistance Program (EAP), peer counseling, etc. is available to assist employees and serves as one of the intervention procedures as follows:

1. San Francisco State University offers an Employee Assistance Program (EAP) for all employees through the Department of Counseling and Psychological Services under Student Affairs. The Department of Counseling and Psychological Services makes available to employees who have developed problems, services such as consultation, treatment, and rehabilitation in order to prevent their condition from progressing to a degree that will prevent the employee from functioning effectively in the workplace by calling 415-338-6100. The Center is located in Room 208, Student Services Building, and the hours of operation is from 8 am to noon and 1 pm to 7 pm Monday through Thursday; and until 5 pm on Friday.

2. These services are provided by professionally trained licensed therapists, psychologists, and clinical social workers and are available to faculty, staff, administrator, full-time, and part-time employees.

3. The Department of Counseling and Psychological Services provides confidential, appropriate and timely services on issues such as personal, professional, marital, family related, chemical dependency, psychological, job related issues, and others.

4. There is no charge for Faculty and Staff Personal Counseling Services. If referrals are needed, the Department of Counseling and Psychological Services will connect employees with appropriate services in their community.
5. Information on Faculty & Staff Personal Counseling Services can be obtained from the Counseling and Psychological Services Center. Use of these services can be done by way of Confidential Registration with the Counseling and Psychological Services Center.

6. Upon approval, an employee undergoing treatment may use accrued sick leave, CTO, and vacation leave credits for such purposes. Leave of absence without pay may be granted by the Chief of Police upon the recommendation of the Counseling and Psychological Services, if all other leave has been exhausted and the employee is not eligible to use Industrial Disability Leave or Non-Industrial Disability Insurance Leave.

7. The Chief of Police may elect to defer further or pending disciplinary action until the completion of the rehabilitation program and a reasonable period of time after the employee returns to work.

8. Records pertaining to an employee’s participation in this program shall remain confidential.

G. Assistance Services Rendered to Agency Personnel and their Families Following Line-of-Duty Death or Serious Injuries.

1. The California Peace Officers’ Association, Line of Duty Death Management System Handbook- Part 1 Notifications will be utilized as a guide for assistance services to be rendered to agency personnel and their families following line-of-duty deaths and serious injuries. [http://www.cpoa.org]

H. Liability Protection Program:

1. Liability Protection: Protection for sworn personnel from civil liability arising from acts or omission leading to personal injury, death, or property destruction that, in turn, could lead to legal civil action against them.

2. Civil liability, due to injuries caused by employees within their scope of employment, and immunity of employees, is discussed in Government Code Section 815.2. as follows:

   a. A public entity is liable for injury proximately caused by an act or omission of an employee of the public entity within the scope of his/her employment if the act or omission would, apart from this section, have given rise to a cause of action against that employee or his/her personal representative.

   b. Except as otherwise provided by statute, a public entity is not liable for an injury resulting from an act or omission of an employee of the public entity where the employee is immune from liability.

3. In order to insure that officers are properly represented in legal matters related to their employment at California State University, it is imperative that officers notify command and the Director of Human Resources of any legal action in writing. Officers shall also provide copies of all legal papers and documents related to the incident.
I. Clothing and equipment used by employees in performing law enforcement activities.

1. Description of uniform and equipment can be found in the San Francisco State University State University Police Department listed in the Written Directive 2-9.
2. Safety equipment and protective safety clothing shall be provided and maintained, when it is deemed necessary by the President to maintain safe and healthful conditions.
3. Uniform replacement allowance.
   a. Per SUPA Contract, Section 17.20, eligible sworn employees who are required to wear a uniform shall earn a uniform allowance for each qualifying month of service [rate set by contract].
   b. Employees shall be responsible for the purchase and maintenance of uniforms required for employment.
   c. The uniform allowance earned by an employee shall be paid monthly per union contract. (See union contracts for units 7, 8, & 9). Employees who have been employed on the campus for less than one year shall receive payment on a pro rata basis.
   d. For information on MPP uniform allowances, see HR 2005-36 on Appendix B.

J. Employee educational benefits:

1. An employee wishing to pursue educational goals will have scheduling priority and support to formally develop a career development program. This program shall include attainment of a certificate, an associate degree, an undergraduate degree, a graduate degree or other achievement appropriate for the employee’s professional growth.
2. Upon successful completion of the formally developed and approved Career Development Program, the employee may request a temporary training assignment consistent with a logical evolution of the career development program and the goals, objectives and opportunities available at the campus. The granting of a temporary training assignment request will be dependent upon the campus’ ability to arrange a training opportunity and, if applicable, provide coverage in the employee’s work area while he/she is away.
3. Employees may request permission to participate in the CSU fee waiver program. Employees eligible according to the terms of the program, may be permitted to enroll in a maximum of two (2) CSU courses or six (6) units, whichever is greater per term. Time spent in such programs shall not be utilized for overtime or for fulfilling regular workweek duties and responsibilities.
4. Fee waiver courses shall be job-related or part of the approved Career Development Plan. The course of study for a Career Development Plan will be established by the employee and an appropriate advisor of choice and shall be subject to approval by the Chief of Police. The CSU admission requirements shall be met or waived for an approved Career Development Plan. The CSU admission requirements shall not apply for job-related courses. Employees may transfer their existing fee waivers benefit entitlement maximum (as defined above) to a spouse or dependent child, subject to the following conditions.
a. The courses are taken by a spouse or dependent child who is matriculated towards a degree and the courses are for credit towards the degree’s requirements,
b. This fee waiver benefit does not apply to out-of-state tuition, and
c. The administration determines that there is a space available in such course offerings for the spouse or dependent child.

5. Employees who are on probation will be encouraged to strongly consider whether or not they are capable of attending academic courses on this campus while still trying to prove themselves during the probation period. Employees must perform satisfactorily to receive permanent status on this campus. Employees shall assess whether or not attending courses during their first year probationary period will distract from their employment on this campus.

6. Fee waiver applications will not be approved for employees during their field training officer program. Employees are encouraged to study and pass field training officer tests during that period of time.

7. Fee waiver application requests, to attend classes during the hours of 11:00 AM – 2:00 PM, Monday through Friday, will not be approved. These are crucial hours for deployment, due to demonstrations and critical events on campus. All employees are needed to respond to campus, if the need arises.

8. Employment in the University Police should be the employee’s first priority. All employees are expected to respond twenty-four (24) hours a day, if the need arises. The fee waiver program, and attending courses at San Francisco State University, is a benefit to everyone. However, it should not interfere with the primary purpose and mission of the police department, and that is the safety of our community, and responding to emergencies and critical incidents at San Francisco State University.

9. Authorizations for fee waivers are only approved and signed by the Chief of Police. There are no exceptions to this policy.

10. Employees who are attending and taking San Francisco State University courses or another college shall not have their schedule changed in the middle of the semester that requires the employee to drop the class.

11. CalPERS also offer employees a variety of educational programs that include:

   a. Retirement and Estate Planning;
   b. Achieving Financial Security;
   c. Financial Planning Seminar for CalPERS Retirees; and
   d. Retirement Workshops.

K. Physical examinations for employees:

   1. Any physical examinations required of employees in permanent, full-time jobs shall be provided at no cost to the employee.
   2. The CSU offers all permanent full-time employees a variety of health plan options. There are plans available which include the provisions for routine physical examinations, as a preventive health measure, at little cost to the employee. Employees are encouraged to take advantage of this important health benefit.
   3. Members who are injured or have other medical situations may be ordered to report
for a physical examination. If the examination is required of the employee, it will be provided at no cost to the employee.

4. Environmental Health and Occupational Safety offers Employee Medical Monitoring to all employees to evaluate the health status of employees in certain positions. Police Officers may take part in the following programs:

   a. Hearing conservation
   b. Respiratory protection
   c. Tuberculosis exposure control
   d. Lead exposure management
   e. Hepatitis B protection

5. Any physical examination shall be conducted only to confirm the employee’s continued fitness to perform the tasks of their assignments and to inform them of their general physical condition.

L. General health and physical fitness for sworn employees:

1. The employees are encouraged to maintain a healthy and physically fit lifestyle. Use of the campus Physical Education facilities must occur during normal operating hours of the facility and must be coordinated through the Office of Campus Recreation.

Employees shall have access to campus Physical Education facilities during non-scheduled work hours unless the President has determined that such access interferes with the authorized use of facilities. The standard campus fee may be charges for the use of CSU-operated facilities. II. POLICY: It shall be the policy of this department that members of this department shall conduct themselves at all times in accordance with the laws of the State of California, the United States and any local jurisdiction as applicable. Members shall conform to all sections of the Systemwide Guidelines, Public Safety Policy Manual, and CSU policies, which are applicable while personnel are off duty.

III. DEFINITIONS: None

IV. PROCEDURES:

A. Reporting:

1. In any criminal incident in the presence of an off-duty officer of this agency amounting to less than a serious life or health-threatening incident, personnel are encouraged to report the same to the agency having jurisdiction. In such incidents, the officer may serve as a reporting party, witness, or informant in the same manner as a private citizen.

B. Felonies:

1. It is expected that sworn personnel, on or off duty, will take the appropriate police action, to the extent they are reasonably able, regarding any serious life or health threatening felony committed in their presence within the State of California.
2. In less serious felony incidents observed by an off-duty officer, reasonable efforts, given the circumstances of the particular situation, shall be undertaken to deal with the incident.

C. Notification to Department of Officer Involvement In Other Types of Off-Duty Incidents
1. In any incident in which an officer takes any official police action while identifying himself or herself as a peace officer, that fact shall be reported, in a timely fashion, to the Officer’s supervisor upon the Officer’s return to duty.

2. When an officer discharges a firearm, whether or not in the course of taking police action (other than at the range), that fact will be immediately communicated to the on-duty supervisor and the Chief of Police via the chain of command.

3. If an Officer engages in any off-duty incident of a police nature which results in the preparation of a written report by the agency having jurisdiction, the officer shall request that a copy of the report be forwarded to his/her Lieutenant, Captain, Commander or Chief of Police.

4. In addition to the above requirements, for any incident in which an off-duty Officer makes an arrest, uses force of any type, or detains a suspect pending response of the agency, a written report will be prepared immediately by the Officer.

V. APPENDIX:

   A. Systemwide Guidelines Chapter 20 Off Duty Police-Related Incidents

VI. ATTACHMENT: None
I. PURPOSE: To establish a Personnel Early Warning System to identify agency employees who may require department intervention efforts and to comply with the CSU policy and the current code in ensuring that all peace officers shall be found to be free from any physical, emotional, or mental condition that might adversely affect the exercise of the peace officer powers.

II. POLICY: It shall be the policy of this Department that all supervisory police employees are to be trained to recognize any indication(s) that a sworn officer under their command may not be physically, emotionally and/or mentally fit to carry out his or her duties as an armed peace officer and to take remedial actions that increase agency and employee accountability and effectiveness. Such actions may include, but are not limited to, performance evaluations, review of citizen complaints, and appropriate disciplinary actions.

III. DEFINITIONS:

A. Personnel Early Warning System. A system for the early identification of agency employees who may need some type of corrective action and a procedure for collecting and evaluating materials required for implementing such corrective action.

B. Remedial Training. Personalized training to correct a specified deficiency, which is usually identified by either: 1) testing or other evaluation during training; or 2) supervisory evaluation during routine job performance.

IV. PROCEDURES:

A. Provisions to initiate a review based on current patterns of collected materials.

1. Review of incidents, observations, and actions shall be an on-going process that involves the evaluation of critical performance data. Evaluation of critical performance data including but not limited to;

   a. Agency performance evaluations
   b. Citizen Complaints
c. Disciplinary Actions

d. Use of Force Incidents

e. Internal Affairs Actions

f. Supervisory and Employee reports such as Workers’ Compensation Claims

2. Any supervisor observing any circumstance(s) indicating a question exists as to the physical, mental and/or emotional fitness of an officer is to prepare a written report indicating all such circumstances to the campus Chief of Police via the chain of command.

3. The goal of the program is to identify escalating patterns of misconduct involving less-serious violations and concerns before a major misconduct issue occurs.

B. Agency reporting requirements of conduct and behavior.

1. All personnel, regardless of position or authority within the organization, shall report inappropriate conduct or behavior through the chain-of-command.

2. Supervisors have an obligation and responsibility to monitor the performance of personnel and to formally take corrective measures when necessary. Such measures, depending on severity of violations and/or repetitive nature of events, may require written documentation, remedial training, and/or disciplinary action.

C. Command Staff will meet to discuss, on an as needed basis, the list and other relevant information and determine if corrective actions are warranted. These actions may include, but are not limited, to the following:

1. Refer the officer to an agency authorized mental health professional or other mental health care provider authorized by the department, which could result in a fitness for duty evaluation;

2. Require that the officer participate in agency authorized training, targeting personal or professional problems that the officer may be facing (e.g., communications, cultural awareness, coping with stress, anger management);

3. Initiate reassignment or transfer;

4. Conclude that the officer’s actions do not warrant immediate corrective action;

5. Refer to the San Francisco State University Human Resources for assistance under the SFSU EAP Program (Employee Assistance Program).

6. A report of the action recommended and justification for those recommendations will be initiated by the employee’s supervisor via their division commander/manager and forwarded to the Chief of Police for approval.

7. Once approved, the employee will follow the plan to completion. The employee’s progress will be monitored and formally reported to the Chief of Police at intervals prescribed by the department. Indications of employee compliance or non-compliance, to include evidence on completion of the agreed upon plan, will be included in Early Warning System File for future reference.

D. First Line Supervisor Responsibility
1. All supervisors will receive training in program services, supervisory roles and responsibilities, and identification of employee behavior which would indicate the existence of employee concerns, problems and or issues that could impact employee job performance.

2. Monitor performance of all assigned personnel for changes in work habits or personality changes, such as reporting late to work, excessive absences or patterns to requests for time off, moodiness, aloofness, aggressiveness, and/or misconduct.

3. Address concerns with the affected employee and attempt to determine cause of change in behavior.

4. Initiate a review by the appropriate Division Commander by notifying him/her of any concerns and/or documenting any situations involving misconducts based on current patterns of collected materials. The Division Commander will advise the Chief of Police of any concern, pattern or situation involving misconduct.

E. Command Staff Responsibilities

1. Monitor performance of employees assigned through reviews of use of force reports, counseling forms and other discipline, citizen complaints, performance evaluations, worker’s compensation claims, and traffic accidents to determine if there are any patterns of concern involving individual employees.

2. Review all incidents of misconduct or concerns forwarded by first line Supervisors.

3. Forward recommendation for employee referral and or mandatory participation in the EAP (Employee Assistance Program).

F. Remedial Action

1. Determine the appropriate intervention such as remedial training, peer counseling or referral to the Employee Assistance Program, in an attempt to identify and abate patterns of misconduct before they reach a serious level.

Personal History Statement Form

***MISCONDUCT IN THE WORKPLACE***

Your employment history is regarded by many prospective employers as some of the most significant information in a pre-employment background. While your present or former employers may have entered into an agreement with you to conceal prior accusations of misconduct, you should be aware that the California Courts have held some of the agreements to be contrary to public policy of this State and therefore illegal and unenforceable. While such an agreement might legally entitle you to deny a specific disciplinary action taken against you by your employer, it will not entitle your factual involvement in misconduct and will unquestionably result in your disqualification. However, when your prospective employer has a legitimate opportunity in independently evaluate acts of misconduct, you will at least be given their thoughtful consideration to assessing the relevance, decency and impact of such acts. It is to your ultimate advantage to be as complete, candid and accurate as possible in all information you furnish.

****

Each area or distinct set of questions has a brief explanation or instructions concerning completing it. If for any reason there is insufficient room on the front of the form for you to furnish the required information, several pages have been furnished at the back of this information. Please note which Question Number you are answering when using the back pages of the form. You may attach supplemental pages if you run out of room.

You are encouraged to make a copy of your completed form for your own records (California Labor Code § 432): This document is treated as a highly confidential document and, with the exception of an authorized criminal investigation, will not be shared with anyone outside of your prospective employer, polygraph examiner (if one is used in connection with this process) and background investigator(s). It becomes a permanent part of you pre-employment background file with your prospective employer and will not be released to any other party without your signed authorization or the order of a competent court.

**** CERTIFICATION OF APPLICANT ****

I hereby certify that I have read and understand the instruction for completing this document. I understand that I am solely responsible for the accuracy, completeness and truthfulness of the information contained in this form, and I will personally complete each item contained on this form.

Date: ______________________ Signature of Applicant: _____________________________
Completion of this type of form is required by your prospective employer. In the case of Peace Officer Applicants, completion of this form is required by POST regulation (California Code of Regulations § 1002(a)(5)). Please note that your ability to complete this form in a neat, timely and accurate fashion is a very important part of the background investigation process. While your background investigator will review this form with you, box by box, and line by line, it is nonetheless your responsibility to make sure that you have read each question asked you, that you understand each question, and that you have answered truthfully and completely.

This form is used by your prospective employer to, among other things, determine your legal qualifications for the position for which you are applying. In addition to state or federal mandates in this area, your prospective employer has an obligation to itself and to the citizens of its service area to assure that persons who are not qualified for this position will be lawfully excluded from further consideration.

This form must be completed in your own handwriting, in ink. We ask that you print legibly. Because it differs substantially from some of the Personal History Statement forms with which you may already be familiar, you should exercise care in answering the questions. You may not attach portions of other Personal History Statement forms, resumes, or applications in substitution for information required on this form.

Please be as specific as possible in your answers. Vague answers only require explanations during your interview. Please remember that there is no such thing as a perfect person or candidate. Your prospective employer is not looking for perfection; rather, they want an open and honest opportunity to fairly evaluate your qualifications for this position.

You are responsible for the accuracy of information on this form. It is your responsibility to make certain that the information is complete and correct. Please note that deliberate misstatements or omissions on this form will result in your application being rejected, regardless of the nature or reason for the misstatements/omissions. Read questions thoroughly before answering. If you do not understand a question, please ask your background investigator to clarify the question for you. Because you are an applicant for public employment, California Law (Labor Code §432.2) specifically authorizes your prospective employer to require a polygraph or other lie detection examination as a condition of employment, if they so choose.

**** THE AMERICANS WITH DISABILITIES ACT ****

Completion of this form is invariably required prior the extension of any conditional offer of employment. It has been designed to avoid making inquiries about the existence, nature or severity of any disability an applicant may have. However, you should exercise care in responding to questions so as to avoid inadvertently furnishing such information.
For example, when asked about why you left a job, do not indicate if you were disabled or granted a disability retirement. You should respond with “Unable to meet job requirements” or with just “Retired” in such cases. Also, you may indicate that you have sued (or had a suit settled) as a result of an accident, but do not indicate (at this time) if you were injured in that incident.

When responding to questions about any prior use of illegal drugs, you should note the drug or controlled substance used and when you last used the drug, but do not indicate how many times you might have used that substance. You may be asked to furnish this information about controlled substances which are lawfully prescribed to you, unless you were arrested for driving under the influence of alcohol and/or drugs. In such cases do not identify the specific drug in question other than “lawfully prescribed”.

**** LEGAL QUESTIONS ****

All peace officer applicants and others (when indicated) are required to disclose their prior involvement in illegal acts within certain specified reported periods, regardless of any legal process which may or may not have occurred as a result of those acts. Please note that you are required to disclose acts which you have committed even if you were never caught, arrested, or prosecuted. In many cases your response will be subject to verification by polygraph examination, and inconsistent statements you make between this document and your polygraph will undoubtedly result in your disqualification.

For questions regarding the use/possession of illegal drugs, remember that the legal term “possession” also includes any use whatsoever. It includes using, experimenting with, trying, ingesting, smoking, injecting, or being under the influence of. It also includes drugs which were in your possession, in your clothing or in your car, even if you did not use them, even if they subsequently turned out to be harmless.

You are instructed to answer questions about infractions and misdemeanors you may have committed during the past 7 years - or at any time during or after you first worked (or volunteered) in a law enforcement agency, whether civilian or military. You are also instructed to answer questions about felonies you may have committed at any time during your lifetime.

With respect to questions about legal processes initiated against you (detentions, arrests, plea bargains, diversions and/or convictions), you may have legal right to answer “No” to certain of these questions as a result of the provisions of California Law (such as juvenile arrest records sealed or expunged under Penal Code § 851.7 or § 851.8). You should consult with your own attorney if you feel that you may be legally entitled to deny these processes under the law. However, the fact that a criminal conviction may have been legally expunged does not entitle you to deny having committed the act itself, and under certain circumstances (such as conviction set aside Penal Code § 1203.4 or Penal Code § 1000.4), you may be required to disclose the conviction because you are applying for public employment in a criminal justice agency (Labor Code § 432.7).

I. PURPOSE: To establish procedural guidelines related to overtime posting and distribution practices.

II. POLICY: It is the goal of the department to post all Unit 8 related overtime in a timely manner, without unnecessary delay, so as to allow Unit 8 members to plan and coordinate their schedules. It is the policy of this department to distribute overtime in the most fair and equitable manner to all Unit 8 members of the department. This policy does not supersede or override the Unit 8 Collective Bargaining Agreement.

III. DEFINITIONS:

A. Emergency: As defined by the Unit 8 Collective Bargaining Agreement, an emergency “means a circumstance requiring immediate action; a sudden, unexpected happening; an unforeseen occurrence or condition. ‘Emergency’ shall not include staffing shortages caused by common occurrences, such as an employee calling in sick or staff reductions due to preplanned leaves.”

B. Emergency Overtime (OT): Is defined as overtime generated by an emergency.

C. Outside Overtime (OT): Is defined as any overtime that is administered and compensated/reimbursed by any police agency other than this department (i.e. SFPD, another CSUPD or a UCPD).

D. Patrol Overtime (OT): Is defined as overtime related to patrol coverage (minimum shift coverage) at this department.

E. SFSU Special/Planned Event Overtime (OT): Is defined as overtime that is offered through our department related to any special events (such as Commencement or Welcome Days) or planned events (such as scheduled protests). Overtime of this nature should be coordinated, posted and assigned in a timely manner, as soon as practical, but preferably no later than one (1) day (24 hours) in advance of the scheduled overtime.

F. Specialized Overtime (OT): Is defined as overtime that is designated only for Unit 8 members who possess specific skills required for the particular overtime being offered (i.e. dispatch coverage overtime shall be offered only to dispatch qualified Unit 8 members or AVOID checkpoint overtime shall be offered only to DUI trained officers). Specialized Overtime will not be offered to officers who do not possess the necessary skills required for the overtime.

G. Sudden Need Overtime (OT): Is defined as overtime that arises with little to no notice.
(approximately 0-2 hour time window) where posting for overtime through the standard posting procedure is not practical due to minimum staffing requirements and/or officer safety reasons (i.e., an unexpected incident which cannot be planned for and requires additional personnel as soon as possible, such as a major arrest or a spontaneous protest).

H. Total Overtime (OT) Hours: Is defined as the total amount (hours or fraction thereof) of overtime a Unit 8 member works, regardless of where or how the overtime is earned. This shall include paid overtime (for our department and other departments) as well as overtime compensated as CTO.

IV. PROCEDURES:

A. In accordance with the Unit 8 Collective Bargaining Agreement, overtime shall be posted and distributed in a fair and equitable manner.

B. The intent of posting and distributing overtime in a fair and equitable manner is to provide all Unit 8 members with opportunities to work overtime, if they desire, while eliminating favoritism and the first come-first serve scenario that is often disadvantageous to Unit 8 members assigned to the night shift.

C. Additionally, by posting and distributing the overtime in a fair and equitable manner, it is also intended to prevent the abuse of Unit 8 members with less seniority and an excessive amount of accrued overtime hours, from being assigned/ordered to work overtime on a non-voluntary basis when there are no volunteers for the overtime and there are other Unit 8 members (regardless of seniority and/or rank) with less accrued overtime hours available to work it.

D. Overtime Guidelines

1. Per General Order 2-19.IV.A.8.c.4.d, a maximum of a 16 hour total work day is allowed. Members are not authorized to work in excess of sixteen (16) hours, without approval from the Chief of Police or his designee and only in emergency situations.

2. Per General Order 2-19.IV.A.8.c.4.d, the minimum rest period between the end of one workday and the start of the next is eight (8) hours. Members are not authorized to work with less than an eight (8) hour rest period, without approval from the Chief of Police or his designee and only in emergency situations.

3. Total Overtime Hours will be updated daily, when feasible, by the Admin/Scheduling Sergeant and/or the Field Operations/Patrol Lieutenant and posted on the UPD intranet link, which will be viewable to all members.

4. Total Overtime Hours will be calculated and maintained on the UPD intranet link, according to the department shift rotation schedule, which occurs on the first Sunday of January and the first Sunday of July. At the start of each shift rotation, the members’ accrued totals will be zeroed out. However, to maintain a fair and equitable approach to overtime assignments, the Scheduling Sergeant will publish an overtime priority list on the UPD intranet link, which will rank the member with the least Total Overtime Hours accrued for the previous rotation through the member with the most Total Overtime Hours accrued for the previous rotation. Members ranking higher on the list will receive priority in overtime assignments than those lower on the list. This list will be utilized to assign overtime to requesting members in the initial stage of the shift rotation only until members begin to accrue overtime hours. Then the Total Overtime Hours accrued posting for the current shift rotation will be utilized for determining overtime shift assignments.
5. Priority for overtime assignments, as set forth in the procedures below, should always go to the member(s) with the least Total Overtime Hours, when feasible.

E. Standard Procedures for Posting Overtime

1. The Scheduling Sergeant is responsible for posting and distributing overtime in a fair and equitable manner.

   a. In the absence of the Scheduling Sergeant (i.e. between shifts or on days off), the Field Operations Patrol Lieutenant and/or the on duty Shift Sergeant/Supervisor is responsible for posting any and all overtime opportunities that cannot wait for the return of the Scheduling Sergeant due to time constraints, which include (but are not limited to) Sudden Need Overtime and Outside Overtime.
   b. In the event that overtime is posted by anyone other than the Scheduling Sergeant, the posting officer is required to notify the Scheduling Sergeant, via email, of the posted overtime with all required information and the results of the overtime posting.

2. Information required for overtime notification:

   a. Title or Type of Overtime being offered (i.e. Commencement, Welcome Days, building fire watch)
   b. Day(s), Date(s) and Time(s) of the overtime
   c. Location of the overtime
   d. Number of Unit 8 members needed
   e. Preferred manner of communication to accept, decline or request further information regarding the overtime (i.e. response via text, phone call, email)

3. Overtime notifications will be posted via text messages using the department cell phone. All eligible Unit 8 members, unless previously opted out, will receive a text message via the department cell phone providing the above referenced information. Members who are ineligible will NOT receive a text message. Examples of ineligible members include, but are not limited to:

   a. Members who are already working their regularly assigned shift or a separate overtime event during the overtime in question,
   b. Members who are on leave status (i.e., paternity leave, EIDL, and
   c. Members whose combined working hours with the overtime event will exceed 16 hours (i.e., a patrol officer working 0600-1800 hours and an overtime event from 1800-0200 hours, which would exceed the 16 hour maximum if the officer worked it).

4. Where feasible, overtime notifications are to be posted for twenty-four (24) hours prior to assigning the overtime, in order to allow all eligible members the opportunity to respond to the overtime notification. In those situations where the posting of the overtime for twenty-four (24) hours is not possible due to the start time of the overtime assignment and the constraints of member response times, the posting
supervisor should allow as much time as possible for members to respond before assigning the overtime, even if only for fifteen (15) minutes. A first come-first serve basis should be avoided, where possible, to avoid unfair distribution.

5. Additionally, overtime postings should not be posted prior to 1400 hours, unless necessary due to the time constraints of the start of the overtime assignment only (i.e. an unexpected overtime beginning at 1600 hours on that day which the department did not learn about until 1200 hours on the same day). The intent is to minimize the disruptiveness of overtime notifications during the sleep cycle of Watch II officers.

6. Unit 8 members are to follow the directions in the text notification for responding to OT notifications. Acceptable response methods include (but are not limited to):

   a. Text or phone call to the posting employee (or his/her designee)
   b. Email to the posting employee (or his/her designee)
   c. Speaking to the posting employee in person (or his/her designee)

7. When responding to overtime notifications, members who are only interested in partial shift, should indicate such to the posting supervisor and include what portion of the overtime shift is desired. (Please see the Splitting Overtime Shifts for when shifts may be split and the procedures for doing so.)

8. In those situations where multiple Unit 8 members respond in the affirmative for a posted overtime, the Total Overtime Hours accumulated during the current overtime period for each of the requesting members will be compared. The overtime shall be awarded to the Unit 8 member with the least amount of Total Overtime Hours accrued during the period in question.

   a. Total Overtime Hours are determined by calculating the sum total of all overtime hours a member has worked during the current overtime period, regardless of where or how the overtime is earned. This total shall include both SFSUPD OT (home agency) and outside agency overtime, such as CSU SharePoint OT.
   b. SFSUPD OT includes any and all overtime worked or generated at this department, in any capacity, to include (but not limited to): Planned/Special Event OT, Outside OT, Specialized OT, Sudden Need OT, Minimum Shift Coverage OT, Court OT, Watch Carry-Over OT, and Training OT.
   c. All overtime totals will be updated daily (where feasible) by the Admin/Scheduling Sergeant and/or the Patrol Lieutenant and posted on the UPD intranet link, which will be viewable to all members.
   d. In the event that there is a tie between requesting members for a specific overtime, the member with the least accrued SFSUPD Overtime (home campus) will be awarded the posted overtime.

9. If an insufficient number of officers agree to work an overtime event, the guidelines specified in the Unit 8 Collective Bargaining Agreement (CBA) sections 13.13.a-c shall be adhered to. Depending on the classification of the overtime, the overtime may be:

   a. Posted on the CSU SharePoint OT website,
b. Posted for outside (non-CSU) agencies, or  
c. The eligible member(s) with the least amount of Total Overtime Hours accrued during the current overtime period may be assigned to work the overtime.

10. In all instances of overtime postings from this department, the posting supervisor shall notify each responding member whether or not the member was awarded the overtime, once it has been determined who will receive the overtime assignment.

F. Opting out of overtime text message notifications:

1. Members are permitted to opt out of overtime text message notifications.  
2. Classifications for opting out of overtime text message notifications are:
   a. SFSU Overtime (generated by this department)  
   b. Outside Overtime (generated by other agencies)  
   c. All Overtime

3. In order to do so, the requesting member shall submit a signed memo, via his or her chain of command, to the Chief of Police indicating which of the three categories of overtime assignments above that the member no longer wants to receive.  
4. If the member decides to change his or her opt out preferences, a new memo will need to be submitted, via his or her chain of command, to the Chief of Police.  
5. The Scheduling Sergeant shall maintain an updated list of member opt out requests on the UPD intranet link, so that all overtime posting members have access to the opt out requests. This should prevent the various overtime notifications from being sent to members who do not want to receive them.  
6. Opting out of overtime notifications does not relieve members from the potential of being assigned overtime on an involuntary basis, depending on the type of overtime and the assignment procedures for the overtime in question. (Please refer to each category of overtime for the specific assignment process.)

G. Patrol Overtime

1. Patrol Overtime is overtime related to patrol/minimum shift coverage at this department.  
2. In general, overtime of this nature will be posted via the standard procedures for posting overtime; unless it qualifies under the Sudden Need Overtime, in which those guidelines will be followed.  
3. If there is an insufficient number of eligible members desiring to work the Patrol Overtime, the posting supervisor with the permission from the Chief of Police or his designee may:
   a. Assign the overtime on an involuntary basis to the eligible member with the least Total Overtime Hours accrued during the current overtime period, or  
   b. Post the Patrol Overtime on the CSU SharePoint website.  
4. Patrol Overtime hours will be included in the Total Overtime Hours accrued
H. SFSU Special/Planned Event Overtime

1. SFSU Special/Planned Event Overtime is related to any Special Events (such as Commencement or Welcome Days) or Planned Events (such as scheduled protests).

2. Overtime of this nature shall be posted according to the Unit 8 Collective Bargaining Agreement Section 13.13.a and the Standard Procedures for Posting Overtime set forth in this policy, as follows: The posting supervisor, in coordination with the Chief of Police or his designee, shall determine the number of officers needed to staff the event. A percentage of these officers, as set forth below, shall be eligible members from this department. However, if five officers or less are required to staff the event, one eligible member from this department may be assigned to work the event pursuant to sections (1) and (2) below. Overtime assignments of this nature shall be posted in the following order:

a. To eligible members of this department at least seventy-two (72) hours in advance of the event. Where feasible, the overtime will be posted for a period of twenty-four (24) hours to allow all eligible members to respond to the posting. Said overtime shall be offered, assigned, and distributed in an equitable and impartial manner to the extent possible.

   1) If 20% or more of the available overtime has been filled by eligible members of this department, the remaining overtime opportunities shall be offered to bargaining unit members on other campuses as set forth in section (3) below.

   2) If less than 20% of the available overtime has been filled by eligible members of this department, the posting supervisor, in coordination with the Chief of Police, may assign the overtime to the eligible member from this department with the least Total Overtime Hours accrued.

b. The posting supervisor, in coordination with the Chief of Police or his designee, shall assign overtime to eligible members from this department so a maximum of 20% of the overtime positions needed to staff the event are filled by eligible department numbers from this department. Such overtime shall be assigned and distributed in an equitable and impartial manner at least seventy-two (72) hours in advance. Members may not decline such overtime assignments.

c. In the event that the minimum number of eligible members from this department has been met and there are still available overtime slots, the remaining overtime shall then be offered to members from other campuses for a period of seventy-two (72) hours. The posting supervisor, at the approval of the Chief of Police or his designee, shall be responsible for posting the overtime for members of other campuses.

   1) The Chief of Police, or his designee, reserves the right to deny a bargaining unit member from another police department access to overtime assignments at this department due to documented performance issues observed during
previous overtime assignments worked at this department.

d. If available overtime slots still remain after the seventy-two (72) hour posting period for bargaining members of other campuses, the Chief of Police or his designee may offer the remaining available overtime slots to non-CSU agencies (i.e. SFPD, SFSO and CHP). However, the department is not required to do so.
e. If available overtime slots still remain open after the above requirements are fulfilled, the posting supervisor, in coordination with the Chief of Police or his designee, may assign the overtime, on an involuntary basis, to eligible members from this department. The overtime shall be assigned and distributed in an “equitable and impartial manner”. When feasible, the overtime shall be assigned to those eligible members with the least Total Overtime Hours accrued. Members at this stage may not decline the overtime assignment. Note: Those members who have been approved for vacation on the day of the scheduled event prior to the involuntary assignment of the overtime shall not be assigned.

3. SFSU Special/Planned Event Overtime will be included in the Total Overtime Hours accrued calculation.

I. Sudden Need Overtime

1. Sudden Need Overtime includes all overtime that arises within two (2) hours of the start time of the overtime assignment, which could not have been planned in advance for. Examples of this category of overtime include (but are not limited to).

   a. Minimum shift coverage needs arising from a member calling off due to an unplanned event, requiring a quick or immediate filling of overtime by the department.
   b. A major arrest or case requiring additional members as soon as possible.
   c. An unplanned/unpublicized event, such as a spontaneous protest, requiring additional members immediately or as soon as possible.

2. Sudden Need Overtime may be offered to those eligible members who can fulfill the needs of the overtime within the required time parameters or as quickly as possible, prior to extending the overtime to all eligible members. For example, in the case of a major arrest at 1715 hours that requires additional officers to assist immediately, the overtime may be offered to those members in the vicinity of the station (i.e. members who recently ended their shift at 1700 hours or are waiting to start their shift at 1800 hours) prior to offering it to other eligible members whose response would cause unnecessary and unacceptable delays (i.e. members on scheduled days off).

3. The Shift Sergeant or Supervisor retains the discretion to determine the response time constraints, within reason, for the Sudden Need Overtime, based on the requirements/start time of the overtime assignment.

4. If multiple eligible members (within the determined time/response constraint) respond in the affirmative for the Sudden Need Overtime, the eligible member with the least Total Overtime Hours accrued will be awarded the Sudden Overtime assignment.
5. If insufficient eligible members request to work a Sudden Need Overtime, the posting supervisor, in coordination with the Chief of Police or his designee, may:

   a. Assign an on-duty member to cover the overtime, if feasible, depending on staffing levels,
   b. Leave the available slots unfilled, or
   c. Assign the overtime to an eligible member on an involuntary basis, taking into consideration response time constraints and Total Overtime Hours accrued rates. Involuntary assignments must comply with the guidelines set forth in the sections regarding Patrol Overtime, SFSU Special/Planned Event Overtime, and/or Emergency Overtime, depending on the nature of the overtime.

6. Sudden Need Overtime hours will be included in the Total Overtime Hours accrued calculation.

J. Emergency Overtime

1. As defined by the Unit 8 Collective Bargaining Agreement, an emergency “means a circumstance requiring immediate action; a sudden, unexpected happening; an unforeseen occurrence or condition. ‘Emergency’ shall not include staffing shortages caused by common occurrences, such as an employee calling in sick or staff reductions due to preplanned leaves.”

2. Per section 13.13.c of the Unit 8 Collective Bargaining Agreement, members may not decline overtime assignments in emergency situations.

3. Where feasible and depending on the personnel needs of the Emergency Overtime, the Shift Sergeant or Supervisor will adhere to the guidelines set forth under Sudden Need Overtime, prior to ordering members to work the overtime.

4. Emergency Overtime hours will be included in the Total Overtime Hours accrued calculation.

K. Specialized Overtime

1. Specialized Overtime shall only be offered to those members who possess the specific skills/training required for the particular overtime being offered and are eligible to work the overtime (i.e., do not have a scheduling conflict).

2. If multiple qualifying Unit 8 members respond in the affirmative for the Specialized Overtime assignment, the eligible member(s) with the least Total Overtime Hours accrued shall be awarded the overtime assignment.

3. Specialized Overtime hours will be included in the Total Overtime Hours accrued calculation.

L. Outside Overtime

1. All overtime offered by outside agencies (i.e. CSU SharePoint OT) will be subject to the policies and procedures of the hosting agency. This policy does not govern those agencies. Any issues arising from the posting or disbursement of said overtime will need to be addressed at the host agency or via SUPA.
2. Outside Overtime may be posted via text message to eligible department members at the request of an outside administrator.

3. It is the responsibility of interested Unit 8 members to seek out Outside Overtime opportunities. It is imperative that interested members refer to the CSU SharePoint website for available Outside Overtime opportunities, as they will not be posted via department text unless specifically requested by the hosting agency.

4. Members accepting Outside Overtime assignments, for officer safety reasons, are required to abide by the time restrictions of this policy when signing up for overtime at other agencies. The onus is on the member when signing up for the overtime to ensure that this policy is complied with.

   a. Per General Order 2-19.IV.A.8.c.4.d, a maximum of a 16 hour total work day is allowed. Members are not authorized to work in excess of sixteen (16) hours, without approval from the Chief of Police or his designee and only in emergency situations.

   b. Per General Order 2-19.IV.A.8.c.4.d, the minimum rest period between the end of one workday and the start of the next is eight (8) hours. Members are not authorized to work with less than an eight (8) hour rest period, without approval from the Chief of Police or his designee and only in emergency situations.

5. Upon accepting Outside Overtime assignments, it is the responsibility of the member accepting the overtime assignment to notify the Chief of Police via his or her chain of command, in writing, of the overtime assignment (per Unit 8 Collective Bargaining Agreement Section 13.13.a.3.i). Information required in the written notification shall include:

   a. Location of the Overtime
   b. Day(s), Date(s) and Time(s) of the overtime
   c. Title or Type of Overtime being offered (i.e. Commencement, Patrol Coverage)

6. Outside Overtime hours will be included in the Total Overtime Hours accrued calculation.

M. Splitting Overtime Shifts

1. In order to maintain the integrity of an overtime assignment, all SFSUPD related overtime assignments will be awarded to the requesting eligible member with the least Total Overtime Hours accrued who is willing and able to work the entire overtime shift, prior to allowing/offering the overtime shift to be split.

2. In those cases where there are open overtime shifts still remaining after posting, the overtime shifts may be parceled into smaller blocks and split amongst eligible members, where possible.

3. An additional overtime notification text message will need to be sent to all eligible members via the text notification process advising of the possibility to split shifts. Interested members are to respond via the response process indicated in the text message with their available hours.

4. When feasible, the overtime should be split into a minimum of four (4) hour
increments.

5. The overtime posting supervisor will determine how to split the shifts based on the affirmative responses received and the available hours of the requesting members, with the goal of providing maximum coverage while minimizing disruption to the overtime assignment (the less members splitting a shift the better). For example, if an overtime shift is posted from 1800-0600 hours and the affirmative responses include members willing to work 1800-2200 hours, 1800-0000 hours, 2200-0200 hours, 0000-0600 hours and 0200-0600 hours. Precedence will be provided to those members willing to work 1800-0000 hours and 0000-0600 hours because this scenario would provide full coverage for the shift and be least disruptive to the shift.

6. If multiple eligible members request to work the same hours, the eligible member with the least Total Overtime Hours accrued will be awarded the overtime. In the prior example, if two members requested to work 1800-0000 hours, the member with the least Total Overtime Hours accrued during the overtime period in question would be awarded the overtime.

N. Shift Adjustments to Accommodate Overtime Assignments

1. Members are not allowed to adjust their regular work shifts (alter their shift beginning or end times) in order to work overtime assignments, except in emergency situations and when approved by the Chief of Police or his designee. However, members may use time from one of their banks (i.e. vacation time and CTO) during their shift (start or end) to work overtime hours outside of their regular work shift, specifically to avoid the sixteen (16) hour maximum work day and/or to comply with the eight (8) hour rest period between shifts.

2. Members are not authorized, under any circumstance, to work overtime assignments during the hours that they are on scheduled paid or unpaid leave. For example, an officer on scheduled vacation leave from 0600-1800 hours may not work overtime (SFSUPD related overtime or Outside Overtime) during the hours of 0600-1800 hours. However, the officer may work overtime from 1800-2300 hours, on that day, as long as the procedures set forth in this policy are adhered to.

3. Members on a shift swap are permitted to work overtime on their assigned swap off day.

O. Overtime Shift Responsibilities Once Assigned

1. Once a member has been assigned an overtime shift, the member is responsible for working the shift, except in unexpected/emergency situations, for sick call outs or if approved by the Chief of Police or his designee. The member is not authorized to trade or give away the shift.

2. If a member no longer desires to work an overtime shift, the member must coordinate with the Scheduling Sergeant (or Shift Supervisor) to have the overtime assignment re-posted and the procedures outlined in this guideline followed, to identify a new eligible member to work the overtime assignment.

3. In those situations where a new eligible member cannot be identified, the original member who signed up for the overtime is responsible for working the overtime, unless excused (i.e. personal emergencies, sick call outs or approval from the Chief
of Police of his designee).

4. With this in mind, members should notify the Scheduling Sergeant or Shift Supervisor, as soon as possible, if an overtime shift is no longer desired, so as to increase the likelihood of identifying a replacement member to work the overtime assignment and relieving the original member from responsibility for the overtime assignment.

V. APPENDIX: None.

VI. ATTACHMENT: None.
UNIT 8 (FAIR and EQUITABLE) OVERTIME DISTRIBUTION

I. PURPOSE: To establish procedural guidelines related to overtime posting and distribution practices.

II. POLICY: It is the goal of the department to post all Unit 8 related overtime in a timely manner, without unnecessary delay, so as to allow Unit 8 members to plan and coordinate their schedules. It is the policy of this department to distribute overtime in the most fair and equitable manner to all Unit 8 members of the department. This policy does not supersede or override the Unit 8 Collective Bargaining Agreement.

III. DEFINITIONS:

A. Emergency: As defined by the Unit 8 Collective Bargaining Agreement, an emergency “means a circumstance requiring immediate action; a sudden, unexpected happening; an unforeseen occurrence or condition. ’Emergency’ shall not include staffing shortages caused by common occurrences, such as an employee calling in sick or staff reductions due to preplanned leaves.”

B. Emergency Overtime (OT): Is defined as overtime generated by an emergency.

C. Outside Overtime (OT): Is defined as any overtime that is administered and compensated/reimbursed by any police agency other than this department (i.e. SFPD, another CSUPD or a UCPD).

D. Patrol Overtime (OT): Is defined as overtime related to patrol coverage (minimum shift coverage) at this department.

E. SFSU Special/Planned Event Overtime (OT): Is defined as overtime that is offered through our department related to any special events (such as Commencement or Welcome Days) or planned events (such as scheduled protests). Overtime of this nature should be coordinated, posted and assigned in a timely manner, as soon as practical, but preferably no later than one (1) day (24 hours) in advance of the scheduled overtime.

F. Specialized Overtime (OT): Is defined as overtime that is designated only for Unit 8 members who possess specific skills required for the particular overtime being offered (i.e. dispatch coverage overtime shall be offered only to dispatch qualified Unit 8 members or AVOID checkpoint overtime shall be offered only to DUI trained officers). Specialized Overtime will not be offered to officers who do not possess the necessary skills required for the overtime.

G. Sudden Need Overtime (OT): Is defined as overtime that arises with little to no notice
(approximately 0-2 hour time window) where posting for overtime through the standard posting procedure is not practical due to minimum staffing requirements and/or officer safety reasons (i.e., an unexpected incident which cannot be planned for and requires additional personnel as soon as possible, such as a major arrest or a spontaneous protest).

H. Total Overtime (OT) Hours: Is defined as the total amount (hours or fraction thereof) of overtime a Unit 8 member works, regardless of where or how the overtime is earned. This shall include paid overtime (for our department and other departments) as well as overtime compensated as CTO.

IV. PROCEDURES:

A. In accordance with the Unit 8 Collective Bargaining Agreement, overtime shall be posted and distributed in a fair and equitable manner.

B. The intent of posting and distributing overtime in a fair and equitable manner is to provide all Unit 8 members with opportunities to work overtime, if they desire, while eliminating favoritism and the first come-first serve scenario that is often disadvantageous to Unit 8 members assigned to the night shift.

C. Additionally, by posting and distributing the overtime in a fair and equitable manner, it is also intended to prevent the abuse of Unit 8 members with less seniority and an excessive amount of accrued overtime hours, from being assigned/ordered to work overtime on a non-voluntary basis when there are no volunteers for the overtime and there are other Unit 8 members (regardless of seniority and/or rank) with less accrued overtime hours available to work it.

D. Overtime Guidelines

1. Per General Order 2-19.IV.A.8.c.4.d, a maximum of a 16 hour total work day is allowed. Members are not authorized to work in excess of sixteen (16) hours, without approval from the Chief of Police or his designee and only in emergency situations.

2. Per General Order 2-19.IV.A.8.c.4.d, the minimum rest period between the end of one workday and the start of the next is eight (8) hours. Members are not authorized to work with less than an eight (8) hour rest period, without approval from the Chief of Police or his designee and only in emergency situations.

3. Total Overtime Hours will be updated daily, when feasible, by the Admin/Scheduling Sergeant and/or the Field Operations/Patrol Lieutenant and posted on the UPD intranet link, which will be viewable to all members.

4. Total Overtime Hours will be calculated and maintained on the UPD intranet link, according to the department shift rotation schedule, which occurs on the first Sunday of January and the first Sunday of July. At the start of each shift rotation, the members’ accrued totals will be zeroed out. However, to maintain a fair and equitable approach to overtime assignments, the Scheduling Sergeant will publish an overtime priority list on the UPD intranet link, which will rank the member with the least Total Overtime Hours accrued for the previous rotation through the member with the most Total Overtime Hours accrued for the previous rotation. Members ranking higher on the list will receive priority in overtime assignments than those lower on the list. This list will be utilized to assign overtime to requesting members in the initial stage of the shift rotation only until members begin to accrue overtime hours. Then the Total Overtime Hours accrued posting for the current shift rotation will be utilized for determining overtime shift assignments.
5. Priority for overtime assignments, as set forth in the procedures below, should always go to the member(s) with the least Total Overtime Hours, when feasible.

E. Standard Procedures for Posting Overtime

1. The Scheduling Sergeant is responsible for posting and distributing overtime in a fair and equitable manner.

   a. In the absence of the Scheduling Sergeant (i.e. between shifts or on days off), the Field Operations Patrol Lieutenant and/or the on duty Shift Sergeant/Supervisor is responsible for posting any and all overtime opportunities that cannot wait for the return of the Scheduling Sergeant due to time constraints, which include (but are not limited to) Sudden Need Overtime and Outside Overtime.

   b. In the event that overtime is posted by anyone other than the Scheduling Sergeant, the posting officer is required to notify the Scheduling Sergeant, via email, of the posted overtime with all required information and the results of the overtime posting.

2. Information required for overtime notification:

   a. Title or Type of Overtime being offered (i.e. Commencement, Welcome Days, building fire watch)
   b. Day(s), Date(s) and Time(s) of the overtime
   c. Location of the overtime
   d. Number of Unit 8 members needed
   e. Preferred manner of communication to accept, decline or request further information regarding the overtime (i.e. response via text, phone call, email)

3. Overtime notifications will be posted via text messages using the department cell phone. All eligible Unit 8 members, unless previously opted out, will receive a text message via the department cell phone providing the above referenced information. Members who are ineligible will NOT receive a text message. Examples of ineligible members include, but are not limited to:

   a. Members who are already working their regularly assigned shift or a separate overtime event during the overtime in question,
   b. Members who are on leave status (i.e., paternity leave, EIDL, and
   c. Members whose combined working hours with the overtime event will exceed 16 hours (i.e., a patrol officer working 0600-1800 hours and an overtime event from 1800-0200 hours, which would exceed the 16 hour maximum if the officer worked it).

4. Where feasible, overtime notifications are to be posted for twenty-four (24) hours prior to assigning the overtime, in order to allow all eligible members the opportunity to respond to the overtime notification. In those situations where the posting of the overtime for twenty-four (24) hours is not possible due to the start time of the overtime assignment and the constraints of member response times, the posting
supervisor should allow as much time as possible for members to respond before assigning the overtime, even if only for fifteen (15) minutes. A first come-first serve basis should be avoided, where possible, to avoid unfair distribution.

5. Additionally, overtime postings should not be posted prior to 1400 hours, unless necessary due to the time constraints of the start of the overtime assignment only (i.e. an unexpected overtime beginning at 1600 hours on that day which the department did not learn about until 1200 hours on the same day). The intent is to minimize the disruptiveness of overtime notifications during the sleep cycle of Watch II officers.

6. Unit 8 members are to follow the directions in the text notification for responding to OT notifications. Acceptable response methods include (but are not limited to):

   a. Text or phone call to the posting employee (or his/her designee)
   b. Email to the posting employee (or his/her designee)
   c. Speaking to the posting employee in person (or his/her designee)

7. When responding to overtime notifications, members who are only interested in partial shift, should indicate such to the posting supervisor and include what portion of the overtime shift is desired. (Please see the Splitting Overtime Shifts for when shifts may be split and the procedures for doing so.)

8. In those situations where multiple Unit 8 members respond in the affirmative for a posted overtime, the Total Overtime Hours accumulated during the current overtime period for each of the requesting members will be compared. The overtime shall be awarded to the Unit 8 member with the least amount of Total Overtime Hours accrued during the period in question.

   a. Total Overtime Hours are determined by calculating the sum total of all overtime hours a member has worked during the current overtime period, regardless of where or how the overtime is earned. This total shall include both SFSUPD OT (home agency) and outside agency overtime, such as CSU SharePoint OT.
   b. SFSUPD OT includes any and all overtime worked or generated at this department, in any capacity, to include (but not limited to): Planned/Special Event OT, Outside OT, Specialized OT, Sudden Need OT, Minimum Shift Coverage OT, Court OT, Watch Carry-Over OT, and Training OT.
   c. All overtime totals will be updated daily (where feasible) by the Admin/Scheduling Sergeant and/or the Patrol Lieutenant and posted on the UPD intranet link, which will be viewable to all members.
   d. In the event that there is a tie between requesting members for a specific overtime, the member with the least accrued SFSUPD Overtime (home campus) will be awarded the posted overtime.

9. If an insufficient number of officers agree to work an overtime event, the guidelines specified in the Unit 8 Collective Bargaining Agreement (CBA) sections 13.13.a-c shall be adhered to. Depending on the classification of the overtime, the overtime may be:

   a. Posted on the CSU SharePoint OT website,
b. Posted for outside (non-CSU) agencies, or
c. The eligible member(s) with the least amount of Total Overtime Hours accrued during the current overtime period may be assigned to work the overtime.

10. In all instances of overtime postings from this department, the posting supervisor shall notify each responding member whether or not the member was awarded the overtime, once it has been determined who will receive the overtime assignment.

F. Opting out of overtime text message notifications:

1. Members are permitted to opt out of overtime text message notifications.
2. Classifications for opting out of overtime text message notifications are:
   a. SFSU Overtime (generated by this department)
   b. Outside Overtime (generated by other agencies)
   c. All Overtime
3. In order to do so, the requesting member shall submit a signed memo, via his or her chain of command, to the Chief of Police indicating which of the three categories of overtime assignments above that the member no longer wants to receive.
4. If the member decides to change his or her opt out preferences, a new memo will need to be submitted, via his or her chain of command, to the Chief of Police.
5. The Scheduling Sergeant shall maintain an updated list of member opt out requests on the UPD intranet link, so that all overtime posting members have access to the opt out requests. This should prevent the various overtime notifications from being sent to members who do not want to receive them.
6. Opting out of overtime notifications does not relieve members from the potential of being assigned overtime on an involuntary basis, depending on the type of overtime and the assignment procedures for the overtime in question. (Please refer to each category of overtime for the specific assignment process.)

G. Patrol Overtime

1. Patrol Overtime is overtime related to patrol/minimum shift coverage at this department.
2. In general, overtime of this nature will be posted via the standard procedures for posting overtime; unless it qualifies under the Sudden Need Overtime, in which those guidelines will be followed.
3. If there is an insufficient number of eligible members desiring to work the Patrol Overtime, the posting supervisor with the permission from the Chief of Police or his designee may:
   a. Assign the overtime on an involuntary basis to the eligible member with the least Total Overtime Hours accrued during the current overtime period, or
   b. Post the Patrol Overtime on the CSU SharePoint website.
4. Patrol Overtime hours will be included in the Total Overtime Hours accrued
H. SFSU Special/Planned Event Overtime

1. SFSU Special/Planned Event Overtime is related to any Special Events (such as Commencement or Welcome Days) or Planned Events (such as scheduled protests).

2. Overtime of this nature shall be posted according to the Unit 8 Collective Bargaining Agreement Section 13.13.a and the Standard Procedures for Posting Overtime set forth in this policy, as follows: The posting supervisor, in coordination with the Chief of Police or his designee, shall determine the number of officers needed to staff the event. A percentage of these officers, as set forth below, shall be eligible members from this department. However, if five officers or less are required to staff the event, one eligible member from this department may be assigned to work the event pursuant to sections (1) and (2) below. Overtime assignments of this nature shall be posted in the following order:

a. To eligible members of this department at least seventy-two (72) hours in advance of the event. Where feasible, the overtime will be posted for a period of twenty-four (24) hours to allow all eligible members to respond to the posting. Said overtime shall be offered, assigned, and distributed in an equitable and impartial manner to the extent possible.

1) If 20% or more of the available overtime has been filled by eligible members of this department, the remaining overtime opportunities shall be offered to bargaining unit members on other campuses as set forth in section (3) below.

2) If less than 20% of the available overtime has been filled by eligible members of this department, the posting supervisor, in coordination with the Chief of Police, may assign the overtime to the eligible member from this department with the least Total Overtime Hours accrued.

b. The posting supervisor, in coordination with the Chief of Police or his designee, shall assign overtime to eligible members from this department so a maximum of 20% of the overtime positions needed to staff the event are filled by eligible department numbers from this department. Such overtime shall be assigned and distributed in an equitable and impartial manner at least seventy-two (72) hours in advance. Members may not decline such overtime assignments.

c. In the event that the minimum number of eligible members from this department has been met and there are still available overtime slots, the remaining overtime shall then be offered to members from other campuses for a period of seventy-two (72) hours. The posting supervisor, at the approval of the Chief of Police or his designee, shall be responsible for posting the overtime for members of other campuses.

1) The Chief of Police, or his designee, reserves the right to deny a bargaining unit member from another police department access to overtime assignments at this department due to documented performance issues observed during
previous overtime assignments worked at this department.

d. If available overtime slots still remain after the seventy-two (72) hour posting period for bargaining members of other campuses, the Chief of Police or his designee may offer the remaining available overtime slots to non-CSU agencies (i.e. SFPD, SFSO and CHP). However, the department is not required to do so.
e. If available overtime slots still remain open after the above requirements are fulfilled, the posting supervisor, in coordination with the Chief of Police or his designee, may assign the overtime, on an involuntary basis, to eligible members from this department. The overtime shall be assigned and distributed in an “equitable and impartial manner”. When feasible, the overtime shall be assigned to those eligible members with the least Total Overtime Hours accrued. Members at this stage may not decline the overtime assignment. Note: Those members who have been approved for vacation on the day of the scheduled event prior to the involuntary assignment of the overtime shall not be assigned.

3. SFSU Special/Planned Event Overtime will be included in the Total Overtime Hours accrued calculation.

I. Sudden Need Overtime

1. Sudden Need Overtime includes all overtime that arises within two (2) hours of the start time of the overtime assignment, which could not have been planned in advance for. Examples of this category of overtime include (but are not limited to).

   a. Minimum shift coverage needs arising from a member calling off due to an unplanned event, requiring a quick or immediate filling of overtime by the department.
   b. A major arrest or case requiring additional members as soon as possible.
   c. An unplanned/unpublicized event, such as a spontaneous protest, requiring additional members immediately or as soon as possible.

2. Sudden Need Overtime may be offered to those eligible members who can fulfill the needs of the overtime within the required time parameters or as quickly as possible, prior to extending the overtime to all eligible members. For example, in the case of a major arrest at 1715 hours that requires additional officers to assist immediately, the overtime may be offered to those members in the vicinity of the station (i.e. members who recently ended their shift at 1700 hours or are waiting to start their shift at 1800 hours) prior to offering it to other eligible members whose response would cause unnecessary and unacceptable delays (i.e. members on scheduled days off).

3. The Shift Sergeant or Supervisor retains the discretion to determine the response time constraints, within reason, for the Sudden Need Overtime, based on the requirements/start time of the overtime assignment.

4. If multiple eligible members (within the determined time/response constraint) respond in the affirmative for the Sudden Need Overtime, the eligible member with the least Total Overtime Hours accrued will be awarded the Sudden Overtime assignment.
5. If insufficient eligible members request to work a Sudden Need Overtime, the posting supervisor, in coordination with the Chief of Police or his designee, may:

   a. Assign an on-duty member to cover the overtime, if feasible, depending on staffing levels,
   b. Leave the available slots unfilled, or
   c. Assign the overtime to an eligible member on an involuntary basis, taking into consideration response time constraints and Total Overtime Hours accrued rates. Involuntary assignments must comply with the guidelines set forth in the sections regarding Patrol Overtime, SFSU Special/Planned Event Overtime, and/or Emergency Overtime, depending on the nature of the overtime.

6. Sudden Need Overtime hours will be included in the Total Overtime Hours accrued calculation.

J. Emergency Overtime

1. As defined by the Unit 8 Collective Bargaining Agreement, an emergency “means a circumstance requiring immediate action; a sudden, unexpected happening; an unforeseen occurrence or condition. ‘Emergency’ shall not include staffing shortages caused by common occurrences, such as an employee calling in sick or staff reductions due to preplanned leaves.”

2. Per section 13.13.c of the Unit 8 Collective Bargaining Agreement, members may not decline overtime assignments in emergency situations.

3. Where feasible and depending on the personnel needs of the Emergency Overtime, the Shift Sergeant or Supervisor will adhere to the guidelines set forth under Sudden Need Overtime, prior to ordering members to work the overtime.

4. Emergency Overtime hours will be included in the Total Overtime Hours accrued calculation.

K. Specialized Overtime

1. Specialized Overtime shall only be offered to those members who possess the specific skills/training required for the particular overtime being offered and are eligible to work the overtime (i.e., do not have a scheduling conflict).

2. If multiple qualifying Unit 8 members respond in the affirmative for the Specialized Overtime assignment, the eligible member(s) with the least Total Overtime Hours accrued shall be awarded the overtime assignment.

3. Specialized Overtime hours will be included in the Total Overtime Hours accrued calculation.

L. Outside Overtime

1. All overtime offered by outside agencies (i.e. CSU SharePoint OT) will be subject to the policies and procedures of the hosting agency. This policy does not govern those agencies. Any issues arising from the posting or disbursement of said overtime will need to be addressed at the host agency or via SUPA.
2. Outside Overtime may be posted via text message to eligible department members at the request of an outside administrator.

3. It is the responsibility of interested Unit 8 members to seek out Outside Overtime opportunities. It is imperative that interested members refer to the CSU SharePoint website for available Outside Overtime opportunities, as they will not be posted via department text unless specifically requested by the hosting agency.

4. Members accepting Outside Overtime assignments, for officer safety reasons, are required to abide by the time restrictions of this policy when signing up for overtime at other agencies. The onus is on the member when signing up for the overtime to ensure that this policy is complied with.

a. Per General Order 2-19.IV.A.8.c.4.d, a maximum of a 16 hour total work day is allowed. Members are not authorized to work in excess of sixteen (16) hours, without approval from the Chief of Police or his designee and only in emergency situations.

b. Per General Order 2-19.IV.A.8.c.4.d, the minimum rest period between the end of one workday and the start of the next is eight (8) hours. Members are not authorized to work with less than an eight (8) hour rest period, without approval from the Chief of Police or his designee and only in emergency situations.

5. Upon accepting Outside Overtime assignments, it is the responsibility of the member accepting the overtime assignment to notify the Chief of Police via his or her chain of command, in writing, of the overtime assignment (per Unit 8 Collective Bargaining Agreement Section 13.13.a.3.i). Information required in the written notification shall include:

a. Location of the Overtime
b. Day(s), Date(s) and Time(s) of the overtime
c. Title or Type of Overtime being offered (i.e. Commencement, Patrol Coverage)

6. Outside Overtime hours will be included in the Total Overtime Hours accrued calculation.

M. Splitting Overtime Shifts

1. In order to maintain the integrity of an overtime assignment, all SFSUPD related overtime assignments will be awarded to the requesting eligible member with the least Total Overtime Hours accrued who is willing and able to work the entire overtime shift, prior to allowing/offering the overtime shift to be split.

2. In those cases where there are open overtime shifts still remaining after posting, the overtime shifts may be parceled into smaller blocks and split amongst eligible members, where possible.

3. An additional overtime notification text message will need to be sent to all eligible members via the text notification process advising of the possibility to split shifts. Interested members are to respond via the response process indicated in the text message with their available hours.

4. When feasible, the overtime should be split into a minimum of four (4) hour
increments.

5. The overtime posting supervisor will determine how to split the shifts based on the affirmative responses received and the available hours of the requesting members, with the goal of providing maximum coverage while minimizing disruption to the overtime assignment (the less members splitting a shift the better). For example, if an overtime shift is posted from 1800-0600 hours and the affirmative responses include members willing to work 1800-2200 hours, 1800-0000 hours, 2200-0200 hours, 0000-0600 hours and 0200-0600 hours. Precedence will be provided to those members willing to work 1800-0000 hours and 0000-0600 hours because this scenario would provide full coverage for the shift and be least disruptive to the shift.

6. If multiple eligible members request to work the same hours, the eligible member with the least Total Overtime Hours accrued will be awarded the overtime. In the prior example, if two members requested to work 1800-0000 hours, the member with the least Total Overtime Hours accrued during the overtime period in question would be awarded the overtime.

N. Shift Adjustments to Accommodate Overtime Assignments

1. Members are not allowed to adjust their regular work shifts (alter their shift beginning or end times) in order to work overtime assignments, except in emergency situations and when approved by the Chief of Police or his designee. However, members may use time from one of their banks (i.e. vacation time and CTO) during their shift (start or end) to work overtime hours outside of their regular work shift, specifically to avoid the sixteen (16) hour maximum work day and/or to comply with the eight (8) hour rest period between shifts.

2. Members are not authorized, under any circumstance, to work overtime assignments during the hours that they are on scheduled paid or unpaid leave. For example, an officer on scheduled vacation leave from 0600-1800 hours may not work overtime (SFSUPD related overtime or Outside Overtime) during the hours of 0600-1800 hours. However, the officer may work overtime from 1800-2300 hours, on that day, as long as the procedures set forth in this policy are adhered to.

3. Members on a shift swap are permitted to work overtime on their assigned swap off day.

O. Overtime Shift Responsibilities Once Assigned

1. Once a member has been assigned an overtime shift, the member is responsible for working the shift, except in unexpected/emergency situations, for sick call outs or if approved by the Chief of Police or his designee. The member is not authorized to trade or give away the shift.

2. If a member no longer desires to work an overtime shift, the member must coordinate with the Scheduling Sergeant (or Shift Supervisor) to have the overtime assignment re-posted and the procedures outlined in this guideline followed, to identify a new eligible member to work the overtime assignment.

3. In those situations where a new eligible member cannot be identified, the original member who signed up for the overtime is responsible for working the overtime, unless excused (i.e. personal emergencies, sick call outs or approval from the Chief
of Police of his designee).

4. With this in mind, members should notify the Scheduling Sergeant or Shift Supervisor, as soon as possible, if an overtime shift is no longer desired, so as to increase the likelihood of identifying a replacement member to work the overtime assignment and relieving the original member from responsibility for the overtime assignment.

V. APPENDIX: None.

VI. ATTACHMENT: None.
Penal Code §832.5 requires that agencies that employ peace officers must establish a procedure to investigate citizen complaints against the officers and make a written description of the procedure available to the public. This requirement provides an avenue for the public to advance complaints of misconduct. In addition, the agency can provide a number of means to detect violations. Working familiarity with the Public Safety Officers Procedural Bill of Rights Act (Government Code Section 3300 et seq.) is essential.

If an officer who is the subject of a complaint from a CSU campus is assigned to another CSU campus, the Chief of the original campus shall report it to the Chief of the officer’s new campus. The Internal Affairs investigation will be conducted by, and pursuant to, procedures/policies of the officer’s new campus. The Chief shall also notify, in writing, the officer against whom the complaint is filed.

I. Statement of Purpose

A. The goal for an internal affairs investigation is to ensure that the integrity of the department is maintained through a system of internal discipline where objectivity, fairness, and justice are assured by intensive, impartial investigations and review.

B. These guidelines, together with impartial investigations, will help determine real or potential causes of problems relating to human relations, and remedy identified deficiencies, to insure proper corrective action is taken when appropriate, and to protect personnel from unwarranted criticism when they perform their duties in an approved manner. These procedures are intended to do the following:

   a. Clear those innocent of misconduct.
   b. Establish fault of wrongdoers.
   c. Facilitate prompt and just action.
   d. Uncover defective procedures.
II. Investigative Bifurcation

A. If a complaint against an officer is both an allegation that the department rules were violated, and an allegation of criminal conduct, the investigation should be bifurcated. The facts surrounding each investigation must be evaluated to determine the procedure to follow, and for purposes of making a decision on the use of an administrative or criminal investigation, or both.

B. In a criminal investigation, the officer has a right not to answer questions that would incriminate him or her. The officer is entitled to all the rights of any other suspect. This investigation should be conducted and completed prior to the administrative investigation, and when completed, it should be filed as any other criminal investigation. The district attorney should review the completed criminal investigation to determine if formal criminal charges will be filed. If the district attorney declines to prosecute, the decision shall be in writing and be included in the criminal investigation file.

C. In the administrative investigation, the officer does not have a right to refuse to answer the questions of the agency. This investigation must be conducted in accordance with the requirements of Government Code Section 3303, Subdivision (e) of Section 3303 provided, in part, “an officer refusing to respond to questions or submit to interrogations shall be informed that failure to answer questions directly related to the investigation or interrogation may result in punitive action.” Thus, the agency has a duty to inform the officer and the officer has a duty to cooperate. When the officer does answer the questions, the answers cannot be used against the officer in a criminal proceeding. For a discussion of this issue, see Lybarger v. City of Los Angeles (1985), 40 Cal.3d 822, 221 Cal. Rptr, 529, which held that a peace officer may be questioned by his or her employer about suspected misconduct, even if that misconduct might amount to a crime, but that the officer may not be disciplined for refusing to answer questions, unless he or she has been warned that discipline for insubordination may result if the questions are not answered. The answers given under these circumstances may not be used against the officer in a criminal proceeding.

D. The criminal investigation goal is the prosecuting of appropriate cases on behalf of the People. The administrative investigation’s goal is to determine whether a department rule has been violated, and whether the officer committed the violation. The Peace Officers’ Procedural Bill of Rights Act (Government Code §3300 et seq.) applies to administrative investigations but not to criminal investigations. Clearly, each investigation travels on a different track, and the rules for these investigations are separate and distinct.
E. Penal Code §832.7 provides that the investigations of complaints against peace officers are confidential and cannot be released, except by filing a motion pursuant to Evidence Code §1043 (Pitches Motion). The provision of confidentiality does not apply to the district attorney, attorney general, or grand jury when inquiring into the conduct of the officer or agency, pursuant to the same statute.

F. After a thorough administrative investigation, the complainant is entitled to the following disposition:

1. **Unfounded**— When the investigation indicates the act complained of did not occur.

2. **Exonerated**— When the investigation indicates the act occurred but that the act was justified and proper.

3. **Not Sustained**— When the investigation discloses insufficient evidence to clearly prove or disprove the allegations made.

4. **Sustained**— When the investigation discloses that the act complained of did occur and constitutes misconduct or improper job performance.

G. The Peace Officers Bill of Rights and the Unit 8 contract shall be followed regarding the notification of the officer concerning the results of the investigation. Government Code Section 3304 (f) requires notification within 30 days of an agency’s decision to impose discipline.

H. The CPOA Internal Affairs Manual should be used for consistency in conducting internal affairs investigations. The forms in the model policy manual are included in the appendix for reference.

I. All CSU Police Departments shall make available to the public its process for investigating complaints pursuant to Penal Code Section 148.6 and Civil Code 47.5.

**California Penal Code 148.6 (False Report of Peace Officer Misconduct).**

Each person who files any allegation of misconduct against any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2, knowing the report to be false, is guilty of a misdemeanor.

Any law enforcement agency accepting an allegation of misconduct against a peace officer shall require the complainant to read and sign the following information advisory, all in boldface type:
YOU HAVE A RIGHT TO MAKE A COMPLAINT AGAINST A POLICE OFFICER FOR ANY IMPROPER POLICE MISCONDUCT. CALIFORNIA LAW REQUIRES THIS AGENCY TO HAVE A PROCEDURE TO INVESTIGATE CITIZENS’ COMPLAINTS. YOU HAVE A RIGHT TO A WRITTEN DESCRIPTION OF THIS PROCEDURE. THIS AGENCY MAY FIND AFTER INVESTIGATION THAT THERE IS NOT ENOUGH EVIDENCE TO WARRANT ACTION ON YOUR COMPLAINT; EVEN IF THAT IS THE CASE, YOU HAVE THE RIGHT TO MAKE THE COMPLAINT AND HAVE IT INVESTIGATED IF YOU BELIEVE AN OFFICER BEHAVED IMPROPERLY. CITIZEN COMPLAINTS AND ANY REPORTS OR FINDINGS RELATING TO COMPLAINTS MUST BE RETAINED BY THIS AGENCY FOR AT LEAST FIVE YEARS.

IT IS AGAINST THE LAW TO MAKE A COMPLAINT THAT YOU KNOW TO BE FALSE. IF YOU MAKE A COMPLAINT AGAINST AN OFFICER KNOWING THAT IT IS FALSE, YOU CAN BE PROSECUTED ON A MISDEMEANOR CHARGE.

California Civil Code Section 47.5 (Action for Defamation Against Individual Filing False Complaint Against a Police Officer).

Notwithstanding Section 47, a peace officer may bring on action for defamation against an individual who has filed a complaint with that officer’s employing agency alleging misconduct, criminal conduct, or incompetence, if that complaint is false, the complaint was made with knowledge that it was false, and that it was made with spite, hatred, or ill will. Knowledge that the complaint was false may be proved by showing that the complainant had no reasonable grounds to believe the statement was true and the complainant exhibited a reckless disregard for ascertaining the truth.

I have read and understood the above statements.

Chapter 2

Introduction and Purpose

This manual was prepared to assist first-line supervisors and others who may be charged with the investigation of citizens’ complaints and administrative internal investigations involving sworn and non-sworn law enforcement personnel. It is intended as a walk-through, but should not replace input from management and the agency’s counsel.

For example, in many of the areas covered by the topics within this manual, there is no right or wrong way to proceed. How an individual agency or an individual person proceeds depends upon the size of the agency, the nature of the problem, and other factors which differ around the state and among agencies.

Statement of Purpose

A goal for internal affairs investigation is to insure that the integrity of the department is maintained through a system of internal discipline where objectivity, fairness and justice are assured by intensive, impartial investigations and review.

It is hoped that this manual, together with impartial investigations, will help determine real or potential causes of problems relating to human relations and remedy identified deficiencies; to insure proper corrective action is taken when appropriate; and, to protect personnel from unwarranted criticism when they perform their respective duties in an approved manner. Such procedures are intended to do the following:

1. Clear those innocent of misconduct.
2. Establish fault of wrongdoers.
3. Facilitate prompt and just disciplinary action.
4. Reveal faulty practices or procedures.

Working familiarity with the Public Safety Officers’ Procedural Bill of Rights Act and applicable decisional law is essential, and a copy of the act as it existed as of January, 1996, is part of the appendix to this volume. Pertinent case citations are provided where applicable as well.
Chapter 2

Rules of Conduct

Why Establish Rules of Conduct?
Each agency, regardless of size, needs a basis upon which to establish proper conduct and provide for the investigation of potential misconduct. That is, what's "wrong" about an employee's conduct must fit within a specific rule, regulation, city Charter provision or policy mandate in order that the agency may successfully discipline employees for violations. It is generally advisable to ensure that the challenged conduct fits within an articulate written rule or policy provision when attempting to discipline an employee, in order to avoid a court's later reversing the discipline on the basis that the challenged conduct did not fit within the dictates of the rule or that the rule was unreasonably vague. In some instances, however, where the specific conduct does not fall under an narrowly articulated policy provision, the rules governing "conduct unbecoming" may be applicable. Agencies may discipline their employees under a "conduct unbecoming" theory. (See Cranston v. City of Richmond, (1985) 40 Cal.3d 755)

Contents
All organizations have missions and goals that serve as the reason why they function. In order to meet those goals and objectives, levels of performance are established so the members of the organization know what is expected and what level of discretion they may exercise in helping the organization achieve its goals.

Performance objectives may be temporary to achieve some short term goals, or they may be permanent to inform all members of the organization what the organization expects from them in daily performance. Permanent performance objectives may times take the form of rules, orders or procedures. Rules are permanent long-term statements from the organization that demand that its members perform in a certain way when confronted with certain facts and circumstances.

The organization does this so it can predict with some level of certainty how it will go about accomplishing its mission and achieving its goals. If a member does not follow these permanent rules, the organization must inform the member of the deviation and either correct the behavior by counseling or take disciplinary action which could be as mild as a reprimand or as severe as termination.

The rules of the organization must be published and distributed to all members so that everyone, whether supervisor or subordinate, operates from the same set of common rules. If the organization believes a member has deviated from those rules, it can point to the rules and say with certainty that there are rules which call for specified behavior and that the member did not conform. The organization can then clearly say the member knew or should have known about the rule and its violation. Once the member responds, it is a question of fact whether the conduct complained of violated department rules.

In addition, members of the organization know where they can look if they have any questions or doubts on how to perform in a given set of circumstances. The members can make judgments about what the organization stands for and what it expects.

Most agencies already have rules, policies and regulations governing the conduct of employees. If your agency lacks such rules, either within a standard operating procedures (SOP) manual, the civil service rules, code of ethics or otherwise, we recommend you review Government Code § 19572, which lists causes for discipline of state employees. Government Code § 19572, as it existed in January 1996, is set out below:

§ 19572. Causes for Discipline
Each of the following constitutes cause for discipline of an employee, or person whose name appears on any employment list:

(a) Fraud in securing appointment.
(b) Incompetency.
(c) Inefficiency.
(d) Inexcusable neglect of duty.
(e) Insubordination.
(f) Dishonesty.
(g) Drunkenness on duty.
(h) Intemperance.
(i) Addiction to the use of controlled substances.
(j) Inexcusable absence without leave.
(k) Conviction of a felony or conviction of a misde-meanor involving moral turpitude. A plea or verdict of guilty, or a conviction following a plea of
Chapter 2

However, conduct which by its nature is inconsistent with, inimical to, or in conflict with the duties of an employee may be prohibited, and are enforceable as long as there is a "nexus" between the conduct and the duties of the employee.

Again, in addition to having a valid rule, it is also crucial to insure that the employees who may be subject to discipline for violation of those rules are made aware of their content. This may be done by providing each employee with a copy or by making copies available with each employee stipulating in writing that the rules have been made available to him or her. Additionally, each employee should be required to familiarize themselves with those rules, so that a claim of ignorance to the rules is itself a violation of them.

You should also note that it is not necessary that such exhaustive and detailed causes for discipline be established in order to successfully match wrongful conduct to a rule prohibiting that conduct.

For example, the Los Angeles Police Department defines misconduct as follows:

- Commission of a criminal offense.
- Neglect of duty.
- Violation of department policies, rules or procedures.
- Conduct which may tend to reflect unfavorably upon the employee or the department.

### Particular Disciplinary Problems

Some of the most frequent types of disciplinary actions in public agencies involve the following types of conduct:

- Absenteeism and Improper Use of Sick Time
- Tardiness
- Incompetency
- Insubordination
- Violation of Agency Rules
- Falsification of Employment Applications
- Falsification of Time and Production Records
- Theft
- Conduct Outside Working Hours
- Criminal Conduct
- Assaults on Supervisors
- Fighting Between Employees
- Horseplay
- Substance Abuse

There are many similarities in the causes of these problems, but also many crucial differences. The similarities permit a certain pattern of disciplinary action to be established. However, the differences make it imperative that flexibility be linked with supervisory judgment and discretion in the imposition of discipline.
Connections Between Rule and Violation (Mechanisms for Detecting Violations)

The size of the organization will in large part determine what mechanism is appropriate to use. Penal Code § 832.5 mandates that agencies which employ peace officers must establish a procedure to investigate citizen complaints against personnel of such departments or agencies, and shall make a written description of the procedure available to the public. Penal Code § 832.5 provides an avenue for the public to advance complaints of misconduct. In addition, the organization should institute measures to detect violations.

It is crucial to have first-line supervisors be a part of the management team and as such be responsible for ensuring that quality service is provided by peace officers. First-line supervisors are in the best position to observe the activities of peace officers on a daily basis and therefore are able to detect deviations from accepted practices or policy.

A staff inspection can serve as a mechanism of the agency's chief executive to check all aspects of the agency's operation to ensure the organization is in fact following the rules and policies as published. The role of the first line supervisor is critical. If quality first-line supervision is not taking place, then good order and discipline are nearly impossible to achieve.
Responsibility for Investigation

The investigation of complaints of misconduct should be under the direct authority of the chief of police or sheriff. The reason for this is that the agency chief should be aware of allegations of misconduct, so when the situation calls for it, the agency head can reassign or, if necessary, put an officer on paid administrative leave pending completion of the investigation.

The chief should consider reassignment or paid administrative leave when the member is accused of a crime or the allegations are such that the confidence of the public in the agency’s integrity would be adversely impacted should the officer not be removed from public contact, particularly from enforcement duties.

Most agencies and/or civil service commissions have provisions for taking such action. In some small agencies the chief may be forced to be the investigator. If possible, however, the investigation should be carried out by a supervisory officer other than the one responsible for imposing any discipline that may arise. If necessary, the supervisory officer may be temporarily assigned to do complaint investigation in addition to other duties. If this is the case, the investigating officer should be responsible to the head of the agency for this administrative investigation. The investigator may remain responsible within the normal chain of command for other assignments. However, for reasons that will be explained later, should the matter under investigation involve a criminal allegation, the investigator must not perform both the criminal and administrative investigations.

Each agency must operate for the good of the community it serves. But whatever form the organization takes, it should provide an avenue in which the public has confidence that the complaint will be thoroughly and fairly investigated.

Investigative Bifurcation and Purpose

If a complaint against a department member is both an allegation that the department rules were violated and an allegation of criminal conduct, the investigation should be bifurcated. This means that two investigations, separate from one another, must be undertaken. The facts surrounding each investigation must be evaluated to determine the procedure to follow for purposes of making a decision on the use of an administrative or criminal investigation or both.

In a criminal investigation, the officer has a right not to answer questions which would incriminate him or her. The officer is entitled to all the rights of any other person being investigated for a crime. This investigation should be conducted by criminal investigators, not administrative investigators, and when completed, should be filed as any other criminal investigation.

The district attorney (or other prosecutor should there be a conflict) should review the completed criminal investigation to determine if formal criminal charges will be filed. If the prosecutor declines to prosecute, it is recommended that the decision be in writing and be included in both the criminal and administrative investigation files.

In the administrative investigation, the officer does not have a right to refuse to answer the questions of the agency when the questions relate to good order and efficiency of the agency. The “quid pro quo” is that when the member does answer these questions, the answers can not be used against the officer in a criminal and/or state court civil proceeding subject to certain exceptions. (Refer to Government Code § 3303 (f) & (h). For a discussion of this issue see Lybarger v. City of Los Angeles (1985), 40 Cal.3d 822, which held that a peace officer may be questioned by his or her employer about suspected misconduct even if that misconduct might amount to a crime, but that the officer may not be disciplined for refusing to answer questions unless he or she has been warned that discipline for insubordination may result if the questions are not answered and that answers given under these circumstances may not be used against the officer in a criminal proceeding.

The criminal investigation’s goal is the prosecution of appropriate cases on behalf of the People. The administrative investigation’s goal is to determine whether a department rule has been violated and whether the officer committed the violation. The Public Safety Officers’ Procedural Bill of Rights Act (Govt. Code § 3300 et seq.) applies to administrative investigations but not to criminal investigations. Clearly, each investigation travels on a different track and the rules for these investigations are
Confidentiality of Investigations

Penal Code § 832.7 provides that the investigations of complaints against peace officers are confidential and can not be released unless a motion has been filed pursuant to Evidence Code § 1043 (Pitchess Motion) and the court has ordered the release of the records. If information is ordered released, the protective order provided for in Evidence Code § 1045(e) should always be obtained. The provision of confidentiality does not apply to the district attorney, attorney general, or grand jury when inquiring into the conduct of the officer or the agency. (Penal Code § 832.7(a)) Proceedings in federal court differ in that there is no specific privilege protecting these documents.

We recommend that the coerced statements of officers not be released voluntarily to the district attorney, attorney general, or the grand jury. However, if you receive a request for a coerced statement, you should be aware that a difference of opinion exists as to whether the request should be acceded to. Please contact your legal advisor for advice on this issue. Specifically, some agencies demand the request in writing, put in writing their concerns over the use of the information disclosed, and, in the same memo, state that release is made only pursuant to Penal Code § 832.7. Thereafter, if the prosecuting agency runs into evidentiary problems as a result of having seen the coerced statements, the agency will be on record as having alerted them to that problem in advance. Other agencies resist the demand until and unless a court orders release of the coerced information to the prosecutor. In that event, we again recommend recording your written concerns be expressed as outlined above. Should the officer be prosecuted following the release of a coerced statement, a hearing must ensue to determine whether the information on which the prosecutor is proceeding is tainted or was otherwise legally obtained.
Complaints

Statutory Requirements

Pursuant to Penal Code § 832.5, California law requires every agency to have a procedure to investigate citizens complaints. Every person has the right to make a complaint against a peace officer for any improper police conduct. All alleged or suspected violations of law, ordinances, or department rules, regulations, or orders, should be investigated pursuant to each department’s policy. Each agency must make available to the public a written description of its procedure to investigate a citizen’s complaint.

How to Intake Personnel Complaints—Internal/Citizen’s

A personnel complaint is any allegation made against an employee for a suspected violation of law, ordinance or departmental policy, rule, regulation or order. The complaint may be generated internally or externally. An internal complaint is any complaint initiated by a member of the department. A citizen’s complaint is any complaint initiated by a member of the public.

Internal Complaints

Each agency should establish a procedure for the investigation of an internally generated complaint. It may provide that, for instance, an internal investigation may be initiated by any supervisor.

The initiating supervisor should inform the employee’s supervisor of all allegations under investigation. This notification should be in writing and through the chain of command. Depending on agency size and organization, the employee’s supervisor should, in turn, inform the agency chief of the allegations and the status of the investigation.

Depending on departmental procedure and the nature of the alleged misconduct, as well as the size of the department, the supervisor may assign the investigation to another supervisor in the chain of command, or the agency chief may assign the investigation to internal affairs or professional standards division.

Citizen’s Complaints

Citizen’s complaints may be made in person, by telephone, by mail, or by a third party, i.e., a witness, a representative of an organization, the city manager’s office, the district attorney’s office, press, etc. In other words, a citizen’s complaint may arrive in any of several forms, and should not be refused due to any perceived procedural defects. For instance, if a complainant is asked to make a complaint in writing but declines, the department should still regard the complaint as a complaint in accordance with the department’s established procedures.

Penal Code § 148.6 enacted January of 1996 makes it a misdemeanor to file an allegation of misconduct against any peace officer, knowing the report to be false. Any law enforcement agency accepting an allegation of misconduct is required to have the complainant read and sign a specified information advisory. (See Appendix A for specific language of Penal Code § 148.6). The practical application of this statute has yet to be determined. An employee may still seek civil remedies for false complaints pursuant to Civil Code § 47.5.

A person making a complaint in person or by telephone, during the normal business hours of the internal affairs bureau, would ordinarily be referred directly to the internal affairs officer who would accept the complaint. If the complaint is taken by telephone, the agency’s procedure should provide that the information advisory of Penal Code § 148.6 be read to the complainant over the telephone. It is suggested that if the agency follows this practice it may want to consider tape recording the reading of the information advisory and acknowledgment by the complainant. In accordance with state law, if a telephone conversation is recorded, the individual must be advised.

When the internal affairs officer is unavailable, or if the agency doesn’t have an I.A. officer, persons making a complaint in person or by telephone should be interviewed by the watch commander or other supervisor so designated if the agency has a designated person to receive complaints. It is not advisable to request a citizen come back later or telephone when the designated person is available, because delays make discovery of the truth more difficult. Taking the complaint when initially made communicates to the public that the agency is genuinely interested in correcting any deficiencies that may be present. At a minimum, the following categories of citizens’ complaints...
should be investigated:

**Infractions:**
- a. Violations of departmental rules and regulations involving transgressions that are not serious violations.
- b. Discourtesy, rudeness.

**Serious Violations:**
- a. A violation of statutes or ordinances defining criminal offenses.
- b. The use of unnecessary force.
- c. Use of profanities or other insulting or offensive language.
- d. Language or conduct derogatory to a person's race, sex, religion, national origin, lifestyle, or sexual preference.
- e. Abuse of authority.

Upon receipt of a citizen's complaint, the supervisor receiving such complaint should accomplish the following:

- a. Screen the complaint to make sure that department personnel are involved.
- b. Ascertain if there is validity to the complaint as opposed to the lack of understanding of agency procedures. Sometimes a complaint may be resolved by a simple explanation of agency procedures.

In the case of a minor procedural complaint, the supervisor may be able to satisfactorily resolve the problem with the complainant at that time. Care should be taken to ensure that the involved employee understands the nature of the complaint and that action is taken to ensure that the complained of conduct is not repeated.

If the complaint is of such a serious nature that immediate action is required, the person taking the complaint should take the action or refer the situation to someone who has the authority to do so.

In all cases, it is advisable to complete the complaint investigation form and have the complainant, if present, write a brief statement of the incident about which he or she is complaining on the form. The only exception to the preparation of a written complaint would arise if the complainant, after receiving an explanation of, for example, a challenged procedure, asks that the complaint be withdrawn, and it is apparent no misconduct has occurred.

We do not recommend use of this exception, however, because of the possibility of misuse or misapplication. Even if an oral complaint is taken and resolved, we recommend a written record be made as to the nature of the complaint and its resolution.

When investigating the complaint, it is appropriate to obtain written statements from all witnesses to the incident. A complainant's refusal to make a written complaint does not mean that no complaint was made.

When applicable, the receiving supervisor should also:
- a. Take instant print photos of injuries or damaged property.
- b. Get medical releases signed, in duplicate, for each doctor or hospital treating an injured complainant. Be sure your forms comply with the requirements of your local hospitals, and recognize that different forms will likely be required for some types of problems; as, for example, psychiatric records or child abuse or sexual assaults.

Explain internal affairs bureau procedures to the complainant and advise the complainant to contact the internal affairs officer regarding any subsequent information or questions. Penal Code § 832.7(b) requires an agency to release to the complaining party a copy of his or her own statements at the time the complaint is filed.

The complaint investigation form, with attachments, should be forwarded in accordance with department procedures to the internal affairs officer or the supervisor assigned to investigate the complaint. The internal affairs officer should directly inform the agency chief or designated individual of the nature of each complaint, personnel involved and the investigative steps being undertaken.

The agency has an obligation to show the complaint to the involved employee if it is to go into that employee's personnel file. Notice of the nature of the allegations of the complaint must be given to the employee prior to any interview pursuant to Government Code § 3303(c).

An internal affairs investigation should ordinarily be completed as quickly as possible to protect the rights of complainants and department personnel, and to facilitate the collection of evidence. Penal Code § 832.7(d) provides that the department or agency shall provide written notification to the complaining party of the disposition of the complaint within 30 days of the disposition. The disposition of the complaint is generally one of the following four findings: Unfounded, Sustained, Not Sustained or Exonerated.

The following definitions are offered for purposes of this manual to remove the ambiguity and uncertainty of certain personnel complaint classifications.

**Discourtesy:** "Discourtesy" may involve any improper remark or demeanor by an on-duty employee that constitutes a rude act or when the remark or demeanor is offensive in manner or action.

**Discrimination:** Complaints are classified as "discrimination" which involve conduct that demonstrates prejudice against any person or group on the basis of race, religion, color, creed, age, marital status, national origin, ancestry, sex, sexual preference, medical condition or disability.
Dishonesty: This classification applies to conduct including but not limited to: lies, intentional misrepresentations, theft, falsification of documents, misuse of departmental property, etc. If the conduct occurs off-duty, there must be a connection or “nexus.”

Improper Tactics: Complaints are classified as “improper tactics” when the conduct is inconsistent with approved policy, not amounting to summary punishment, nor committed as an act of vengeance.

Neglect of Duty: This classification is generally used to include on-duty conduct not normally covered by other classifications. It covers failures to perform the duties and obligations of the position held.

Examples:
1. Failure to qualify, appear in court, report for medical examination, or make appropriate reports.
2. Absent or late for duty without adequate reason.
3. Improper disposition or handling of evidence and other property.

Conduct Unbecoming: This classification may be used to cover most improper off-duty and on-duty conduct.

Examples:
1. Unnecessary involvement in neighbor, family, landlord/tenant disputes, verbal or physical altercations resulting in the involvement of another law enforcement agency.
2. Any off-duty conduct wherein the employee’s employment is revealed and therefore could subject the employing department to embarrassment, e.g., public intoxication, D.U.I., theft, disturbing the peace, etc.
3. Other conduct which by its nature tends to reflect unfavorably on the department or the employee. In order to establish an unfavorable reflection, there must normally be a connection established between the conduct and the agency.

Unnecessary Force: Complaints are classified as “unnecessary force” when physical abuse is alleged and the type or degree of force employed was neither necessary nor appropriate, or when it appears that force of any degree was used as punishment or for vengeance. Examples:
1. Striking an individual when no force was necessary, or after the reason for the initially justifiable use of force no longer existed.
2. The vindictive application of a control hold for the purpose of inflicting pain or injury.
3. Unprovoked battery.
4. Use of deadly force when the situation does not justify or current statutory and decisional law prohibits.

Sexual Harassment: Complaints alleging conduct that violates the department’s policy prohibiting sexual harassment to include state and federal law.

Closing Out Complaints
The internal affairs investigator may enter opinions or conclusions concerning the actions of the officer in the body of his or her report, but generally should not express an opinion as to appropriate penalty. With many agencies, the internal affairs investigator is strictly the gatherer of facts. Opinions, conclusions and often the recommended disposition, and if appropriate, the recommended penalty, is determined via the chain of command and the final determination is left to the chief administrator of the department. The final determination as to classification of the findings and any discipline to be imposed should be left to the chief administrator of the department.

This policy lends objectivity to the investigator and the internal investigation so the officers can feel they were treated fairly and impartially by the investigator. An agency should avoid having the investigator form conclusions and make recommendations. However, if this is done, such recommendations should be deemed confidential and not used by the department head to form part of the basis for his or her decision. If the investigator forms conclusions and makes recommendations that form a separate part of the file and are part of the investigation used by the agency head to make a disciplinary decision, the affected officer is entitled to review and sign that document and is entitled to a copy of it as part of his or her Skelly material.

Different departments determine the outcome of citizen complaints and internal investigations by various processes. The importance of the final decision in each investigation being made by the department head cannot be overemphasized.

One agency subjected to federal Grand Jury investigation and Civil Rights prosecution stressed that it is the chief of police or sheriff’s responsibility to make the final determination on each complaint against members of the department. Of course, a division commander or other member of the department can make recommendations regarding culpability and the severity of punishment, but it is the chief of the agency who is ultimately responsible.

Some medium or large departments work well with a board of review process. A board of review may consist of the department head of each division, and a member of the employee association. All will vote on the culpability, if any, of the officer under investigation. If it is determined that the officer is at fault, the board will make a recommendation on the punishment.

All members of the board of review are advisors to the agency head and the final disposition must be made by the
agency head. Usually under the board of review process the investigator who conducted the investigation will be present; not as a member of the board, but to answer any questions that may be asked by members of the board concerning the investigation.

Once a disposition of the investigation has been made by the department head, the case should be returned to the investigator who must notify the complaining party of the disposition of the complaint within 30 days of the disposition. (Penal Code § 832.7 (d)) The notification to the complaining party should include advice that the citizen’s complaint was thoroughly investigated and it MUST advise one of the following: Sustained, Not Sustained, Exonerated or Unfounded. The exact nature of discipline, if any, should not be included, however a reference may be made to “appropriate action” having been taken in case of a “sustained” finding.

The original investigation or complaint should be routed back to the internal affairs investigator through the chain of command so that the officer’s unit commander is advised of the results of the investigation. A sign-off sheet of some type is recommended as a permanent record to indicate that it has been read by each member of the chain of command and returned to the officer’s complaint file or personnel record. While these suggestions are not exhaustive, they may be helpful in assisting an agency in dealing with internal investigations. We recommend that agencies look to other agencies for models on how to establish viable review mechanisms so that the employees and the general public have confidence in the process.

How and Where to File Complaints

Each law enforcement agency in the State of California is required by law to maintain records of citizens’ complaints, pursuant to Penal Code § 832.5. That statute, as of 1996, reads as follows:

 § 832.5. Citizens’ complaints against personnel; investigation; description of procedure; retention of records
 (a) Each department or agency in this state which employs peace officers shall establish a procedure to investigate citizens’ complaints against the personnel of such departments or agencies, and shall make a written description of the procedure available to the public.
 (b) Complaints and any reports or findings relating thereto shall be retained for a period of at least five years.

A sample written description of the procedure, which the agency must make available to the public, is attached as an exhibit at the appendix to this manual. The Penal Code further specifies that citizens’ complaints are part of a peace officer’s personnel records. Penal Code § 832.8 provides specifically that a peace officer’s personnel records include, among other things:

 (e) Complaints, or investigations of complaints, concerning an event or transaction in which he or she participated, or which he or she perceived, and pertaining to the manner in which he or she performed his or her duties;

Thus, by statute, complaints and investigatory materials related to complaints are considered part of a peace officer’s personnel records. Agencies differ as to where and how such complaints and related materials are filed. Some agencies prefer to maintain a separate file within an individual’s personnel file containing only materials related to citizen complaints and investigations of those complaints. Other agencies keep the complaints and investigatory materials in a separate location. Regardless of the method of filing or the physical location of the complaint records, it is important to recognize that, by statute, such records are part of an officer or deputy’s personnel records, and must, therefore, be available to the court for Evidence Code § 1043 (Pitchess Motion) purposes, as they are discoverable in court proceedings under specified circumstances.

It is also important to recognize that complaints are part of a peace officer’s personnel records for purposes of the Public Safety Officer’s Procedural Bill of Rights Act (Government Code § 3305) regarding an officer or deputy’s right to review and sign negative comments in his or her personnel records prior to their being filed therein. Should a public safety officer refuse to sign, that fact shall be noted on that document, and signed or initialed by such officer or deputy.

Similarly, Civil Code § 47.5 provides for defamation actions against persons filing false complaints alleging misconduct, criminal conduct or incompetence, under specified circumstances, against a peace officer. Penal Code § 148.6 provides for criminal charges against persons knowingly filing a false complaint against a peace officer. Without accessibility to complaints filed by citizens, a peace officer would have no way of pursuing the rights afforded by Civil Code § 47.5.

Most agencies periodically purge files of dated material, including citizen complaints. It is highly recommended that this practice be followed. Evidence Code § 1045 (b) (1) requires a state court to rule that information concerning complaints occurring more than five years prior to the underlying incident in question (usually an arrest) as not relevant and there for not discoverable in a “Pitchess” Motion. Note that the section does not necessarily exempt the records more than five years old from the in camera inspection stage of a “Pitchess Motion,” but rather directs the court as to the relevance of specified
material. Therefore, we advise you to take all existing complaints to court, regardless of age, and to notify the court, if necessary, of the provisions of Evidence Code § 1045 (b) (1). If a judge indicates he is going to release information that is more than five years old or otherwise violative of the Evidence Code, the agency and its representing attorney can request the court to stay its release of the information in order to allow the agency to seek review by a higher court. In an extreme situation where the court indicates it will release information, the agency might refuse to allow the release of the information thereby subjecting the custodian of the records to a contempt order by the court. In the unlikely event this occurs, Code of Civil Procedure § 128(b) provides for a 3-day stay of the judge’s contempt order which allows time for the agency to file a writ to review the lawfulness of the judge’s order.

Agencies following the practice indicated above of purging records more than five years old will not encounter this problem.

In federal court you may make a request that the court take into consideration the provisions of Evidence Code § 1043, and the applicable Penal Code statutes. However, the federal courts are under no obligation to apply state law. There is no time limitation imposed by federal discovery law limiting the release of information if it is in the agency’s possession.

Records, including personnel records, must be maintained by public agencies for specified periods of time before they may be destroyed. Government Code § 34090 et seq. applies to cities and Government Code § 26200 et seq. applies to counties. Note that as to either city or county records, the destruction provisions do not apply to records otherwise required to be kept longer than the two year provisions of the Government Code § 26202 (county) and § 34090 (city). For instance, Evidence Code § 1045 (b) (1), makes records up to five years prior to an event in question subject to discovery, and therefore, mandates longer retention of those particular records. After expiration of the five-year period that these records must be retained, the documents may be purged in accordance with the government code provided that the governing body of the local agency has passed the required resolution allowing for such purging. (See Appendix J.)
Investigation

How To—General and Specialized Concerns

Selection of Investigators

The person selected must have a proven ability as a competent investigator and be recognized as such throughout the department. The investigator should have the ability, knowledge, and technical skills to fairly and satisfactorily conduct administrative investigations and complete thorough, well-written, and concise reports.

An investigator must have the appointing authority's absolute confidence and be delegated authority to command members of the department to cooperate in administrative investigations.

If selection is for a full-time assignment, a periodic review of the psychological and sociological impacts on the officer as a result of this assignment should be made. Regrettably, an officer in this assignment may suffer from feelings of being an outcast, mistrusted, and feared, and be disliked by colleagues and former colleagues.

Basis for Conducting Administrative Investigations

a. Citizen Complaints: Every law enforcement agency that employs peace officers shall establish a procedure to investigate citizen complaints against the officer or agency. This procedure must be in writing and available to the public (Penal Code § 832.5).

b. Statements/Allegations: Investigators receiving factual complaints from citizens must translate this information into a violation of the department's rules/regulations and city or county personnel rule violation. Prior to an interview, the officer under investigation shall be informed of the nature of the investigation. See Government Code § 3303(c). If a criminal violation is alleged, a decision should be made early on as to which investigation has priority. Generally, the criminal investigation should be conducted first.

Although parallel investigations may be conducted, each case must be considered on its own set of facts. Administrative and criminal investigations should be separately conducted by different individuals. Many agencies have designated personnel who conduct such separate investigations, however, consideration should be given to referring the criminal investigation to the district attorney when more practical for smaller agencies.

c. Administrative Investigations: When a supervisor or manager notes a violation of rules or regulations by a member of the department and punitive action may result if sustained, a formal investigation should be conducted. These investigations should proceed along predetermined guidelines set by the department head which are understood by all members of the department.

Notice to the Affected Officer

If a determination is made that the administrative investigation will not interfere with pending criminal investigations, the officer should be told who complained, the nature of the complaint, and the time and place of the interview regarding the complaint. In an administrative investigation, the facts may dictate notice for the interview. For example, an officer caught by his or her supervisor sleeping on duty will not doubt be asked questions at the time of discovery by the supervisor. Care should be used when conducting this type of interview to ensure that all rights are afforded to the officer and that emotions do not overcome legal process.

The timeliness of an investigation should always be given consideration, and should not take any longer than circumstances dictate, e.g., the investigator's workload, a criminal investigation pending against the complainant, witness availability, etc. An administrative investigation that has been unnecessarily prolonged is subject to attack on that basis (affirmative defense of administrative laches) through an allegation that witnesses memories have faded. (See Brown v. California State Personnel Board (1985) 166 Cal. App.3d 151; Gates v. Dept. of Motor Vehicles (1979) 94 Cal.App.3d 921; Lam v. Bureau of Security and Investigative Services (1995) 34 Cal.App.4th 29.

Investigation

Was the department's investigation conducted in a fair and objective way? Was it comprehensive and complete prior to the disciplinary action being taken? These questions are asked by the employee and his or her counsel at every Skelly hearing and must be answered by the hearing officer. So, with that in mind, the investigation must be conducted in a manner that ensures these questions are answered correctly.
a. Preparing for the Interview:

• Review the complaint: Is there a violation of the department’s rules or regulations? While specific policy violations need not be cited to the officer at the time of the interview, the nature of the investigation must be made known to the officer being interviewed.

• Other Evidence: Do the allegations of the complaint require photographs and/or diagrams of the location? Are there items of physical evidence to be maintained or displayed during the interview?

• Interview(s): Are they complete? Are there people still left to be interviewed? Remember the burden of proof in this type of case is a preponderance of the evidence. The more information you have, the better for all parties.

• Review the employee’s personnel file, including training. The employee’s representative/attorney may want to see it. You should know what is in it prior to the interview.

• Select a room where you will have privacy, but with room enough for at least five persons.

• All questions directed to a peace officer under investigation shall be asked by and through no more than two interrogators at one time (Government Code § 3303(b)).

• Make sure that your recording device is operating and placed on the desk or in an open space for all to see. Do not use hidden microphones to record the interview. We recommend use of two recording devices so the officer may take his or her choice of either recording at the conclusion of the interview. The officer or representative may bring their own recording device.

• Assess the issues prior to the interview, and format the questions you need answered in regard to those issues in writing prior to the start. Make sure you get the answers to those questions.

• If you are investigating what could amount to criminal conduct, be prepared to investigate those issues first, making it clear to the person being interviewed which particular investigation you are conducting: criminal, not administrative. While this practice is generally discouraged, it can be accomplished by the same person if it is well established that the answers to the questions in the criminal investigation are not being coerced by virtue of the supervisor/subordinate relationship between the parties. Complete the criminal investigation in its entirety before pursuing the administrative investigation in these instances.

b. The Interview: When the employer wishes to compel the employee to answer questions directly related to acts performed under color of authority or course and scope of employment, the following procedure may be used:

• Advise the employee of the nature of the complaint and the purpose of the interview; that information received will be used to determine whether an adverse action is warranted based on the facts obtained during the investigation; that all statements received will be used in a finding of facts, which may lead to an administrative action against the employee, and that discipline may include termination.

• Inform the officer that all questions must be answered completely and truthfully or a separate violation of insubordination may be charged which may lead to additional disciplinary action.

• Make sure the employee understands that compelled statements made by him or her during the administrative interview cannot be used in any criminal proceeding. (See Lybarger v. City of Los Angeles (1985) 40 Cal.3d 822). The use of a compelled statement in a civil proceeding is limited. (See Government Code § 3303(f) in Appendix)

c. Possible Criminal Violation: Where there is a possibility of criminal conduct and you are conducting an interview with a public safety officer for the sole purpose of effecting an administrative remedy, the following admonition or similar language is required:

\textit{Miranda Warning}

You must first inform the officer of his/her rights according to Miranda with the following statement:

• You have the right to remain silent.
• Anything you say may be used against you in a court of law.
• You have the right to an attorney before and during questioning.
• If you cannot afford an attorney, one will be appointed for you before questioning, if you wish.
• Do you understand each of these rights that I have explained to you?
• Do you waive them?” If the officer waives his rights at this point of an administrative investigation, certain facts should be made clear to the employee. Upon such a waiver, any statements made to the administrative investigator are not “impeached,” that is, they can be used in a subsequent criminal proceeding. The employee should be made aware of this fact. Generally speaking however, the officer under investigation at this point will invoke his Miranda rights, and should then be ordered to respond to questioning. The answers he provides then enjoy some
Chapter 2

measure of immunity from use in any subsequent criminal proceeding.

Order to Answer
If the officer invokes his/her Miranda rights, then inform the officer that the interview is for administrative purposes and order the officer to answer.

Lybarger Warning
Inform the employee of the following:
- While you have the right to remain silent with regard to any criminal investigation, you do not have the right to refuse to answer my administrative questions.
- This is strictly an administrative investigation.
- I am, therefore, now ordering you to discuss this matter with me.
- If you refuse to discuss this matter, your silence can be deemed insubordination and result in administrative discipline, up to and including termination.
- Any statement you make under compulsion or the threat of such discipline cannot be used against you in a later criminal proceeding.

At any time during the course of the investigation of a personnel complaint, should it appear that criminal conduct on the part of the employee is likely, the department head, at his or her discretion, should consult with the district attorney’s office, concerning potential criminal prosecution.

The administrative investigative reports shall include only evidence pertaining to the allegations and the statements of witnesses and involved parties. The report may identify those roles, regulations, policies, procedures, orders or laws that the employee may have violated if the allegations are found to be true. The report may include the expert opinion of the investigator, or any other member of the department, as it pertains to any factual information in the report. The investigator’s recommendation as to any punishment should not be included.

d. Non-Criminal: Where there is no known possibility of criminal conduct in the investigation, and generally, where the conduct if true would warrant a written reprimand or greater, the following format may be used:
- State the purpose of the interview and that it is solely for administrative reasons.
- Inform the employee that he or she is entitled to a representative of their choice.
- Inform the employee of the date and time, nature of the investigation, your current assignment, the names of other persons present and, whether they will also be asking questions. Remember, no more than two interrogators at one time [Government Code § 3303(b)].

- Inform the employee that he or she must answer questions truthfully and honestly.
- Inform the employee that the interview is being tape recorded and of his or her right to do so.
- You may inform the employee that his or her statement along with other information and evidence may be used to determine if the allegations of misconduct can be sustained.

During an investigation, the accused employee may be requested to submit to a chemical, physical or psychological test, to participate in a physical line-up, to submit to photographs or to submit financial records if they are deemed appropriate or to either prove or disprove the allegations under investigation. Employees may not be forced, coerced or intimidated into taking any such tests except as otherwise permitted by law when investigating criminal violations. In a personnel action for circumstances under which an officer may be compelled to produce financial records, see Government Code § 3308 in the Appendix.

e. Tape Recordings:
- Always advise the officer you are taping. Surreptitious tape recording of an administrative investigation is prohibited by law.
- The officer has the right to tape record the interview. If the officer tape records the interview, the investigating supervisor should tape record it also. We recommend taping every interview regardless of whether the employee does so.
- If the interview is recorded, the officer shall have access to the tape.
- If the interview is recorded, the tape must be filed in internal affairs with completed reports. NOTE: Refer to Government Code § 3303(g).
- Officers who are witnesses to an administrative investigation and not subject to punitive action are not entitled to tape record their interview.

Findings
Usually allegations against personnel will be classified as sustained, not sustained, exonerated or unfounded. For details see “Administrative Review System” on page 17 of this manual.

Dealing with Labor Representatives
Discipline and the Employee Labor Representative
One of the most delicate types of discipline cases is one involving an employee labor representative. The dual role of a local union officer or labor organization representative, as an employee and also as an official of a labor
organization, gives an added dimension to his or her conduct which is not shared by other employees. In the role of employee, the representative has the rights and privileges of other rank and file employees within the same bargaining unit and is governed by the rules and regulations which apply to co-workers. While performing the regular duties as an employee of the agency, the requirements of attendance, punctuality, quality, output, and the like are the same for the representative as they would be for any other employee.

But while operating in the capacity of union representative, he or she may enjoy a certain latitude and freedom in the day-to-day application, administration, and implementation of the union contract. As a union representative, the employee becomes co-equal with the agency’s supervisors to the extent that he or she represents and advocates the positions and interests of his or her constituents as authorized by the Memorandum of Understanding, personnel rules, ordinances, etc.

Therefore, when considering any disciplinary case that is focused upon a union representative, the supervisor has two basic decisions to make: 1) whether the employee was acting in his or her role as an employee or as an employee representative or as both, and 2) the relevance of the employee’s actual role at the time of the offense to the offense itself.

A Union Representative as an Employee Representative

In some cases the employee who is the subject of an investigation will select as his or her representative the person who serves as the union representative. In the role as employee representative, no different rights or privileges are given or afforded to the representative because of their union affiliated status.

The union representative and the employee under investigation do not enjoy the same legal privileges as those that exist between attorney and client. Therefore any conduct which is of a criminal nature that is divulged to the union representative is not protected.

Searches of Employees and Employee’s Property

The general inquiry for determining reasonableness is outlined by the Supreme Court in Delaware v. Prouse (1979), 440 U.S. 648,654.

[T]he permissibility of a particular law enforcement practice is judged by balancing its intrusion on the individual’s Fourth Amendment interests against its promotion of legitimate governmental interests. Implemented in this manner, the reasonableness standard usually requires, at a minimum, that the facts upon which an intrusion is based be capable for measurement against “an objective standard,” whether this be probable cause or a less stringent test. In those situations in which the balance of interests preclude insistence upon “some quantum of individualized suspicion,” other safeguards are generally relied upon . . .

However, in an administrative investigation the rights of the peace officer employee, with respect to such intrusions, may be somewhat more limited than that of the average citizen, primarily because of their position of trust in the community as a peace officer. With this in mind, examples of specific searches follow:

Strip Searches of Peace Officers

In Kirkpatrick v. City of Los Angeles (9th Cir. 1986), 803 F.2d 485, the United States Court of Appeals, Ninth Circuit, ruled that in spite of a police agency’s interest in police integrity, strip searches of police officers for investigative purposes must be supported by reasonable suspicion that evidence will be discovered even when searches are conducted in a courteous manner with the minimum invasion of privacy possible.

Reasonable suspicion to search exists when the person responsible for the search is aware of specific articulateable facts, and inferences from those facts, which reasonably warrant suspicion that evidence will be discovered.

In Kirkpatrick, the court ruled that no reasonable suspicion existed to warrant a strip search of the officers and therefore their Fourth Amendment rights were violated. In this case, an arrestee accused the officers of taking his money. The amount varied from six hundred dollars to sixty dollars, and then he refused to repeat the allegation when questioned by the officers’ sergeant.

The preliminary investigation, including a search of the officers’ police vehicle, pockets, wallets, and weapons belts, revealed that neither officer possessed over five dollars. Later at the police station, the officers were ordered to submit to a strip search after they refused to consent to such a search. No money was found during the strip search.

Obviously, the expectation of privacy and the limitation on the ability to conduct searches vary considerably with the type, time, place, method and manner of the search. The search of an employee’s locker or work area at a police facility is considerably less intrusive than a strip
search of any employee.

**Searches of a Police Officer’s Desk, Work Area, or Locker Within the Police Facility**

Desks, work areas, or lockers within the police facility are subject to search pursuant to Government Code § 3309 which provides:

“No public safety officer shall have his locker, or other space for storage that may be assigned to him searched, except in his presence, or with his consent, or unless a valid search warrant has been obtained, or where he has been notified that a search will be conducted. This section shall apply only to lockers or other space for storage that are owned or leased by the employing agency.”

Employees may have a “reasonable expectation” of privacy in some areas under the employer’s control. (See *O’Connor v. Ortega*, (1987) 480 U.S. 709, 714-19). In those cases where there is a doubt as to whether a particular search would be permissible without a search warrant or valid consent, contact your agency’s attorney for advice.

No judicial or statutory authority permits an administratively coerced search of locations other than those under department control. (See *Los Angeles Police Protective League v. Gates*, (9th Cir. 1990) 907 F. 2d 879, 884-886). If the department wishes to avoid the possible exclusion of evidence obtained in a search of locations such as an officer’s vehicle or home (and a possible lawsuit for violation of civil rights), it must obtain the officer’s consent or a valid search warrant. An officer who is faced with a departmental order to permit the search of his or her vehicle or home may comply with the order to avoid a charge of insubordination, but the officer may have grounds for exclusion of the evidence and a civil lawsuit.

Remember, the searches discussed above only apply to searches in conjunction with administrative investigations. Searches of employees who are arrested may be conducted in accordance with the procedures permitted by current statutory and decisional law in this area.

**Drug or Alcohol Testing On-Duty/Off Duty**

Obtaining a sample of an employee’s blood, breath, or urine for the purpose of determining if the employee has alcohol, narcotics, or drugs in his or her system constitutes a search under the fourth amendment. (See *Jackson v. Gates*, (9th Cir. 1992) 975 F.2d 648, 652 ). However, in many administrative investigations it may be necessary or beneficial to obtain such a sample.

In the absence of a prior standing contractual agreement (MOU) which permits random drug or alcohol testing of employees, the courts have ruled that an “articulable suspicion” must be established or demonstrated prior to obtaining a sample.

In a case where “reasonable and articulated suspicion” is present, and the employee refuses to comply, insubordination exists and the employee may be disciplined for his or her refusal to comply with the lawful order. Here again, this applies to administrative investigations.

If the employee is under arrest, a requirement or demand for a body fluid sample should be in accordance with the with the procedure permitted by current statutory and decisional law in this area.

Agencies should negotiate provisions for random drug and alcohol testing as part of a Memorandum of Understanding with safety employees. Litigation can be averted when clearly established guidelines for drug and alcohol testing are agreed to in advance. Random testing for drugs and alcohol may be implemented if employees fall into any of the following categories:

1) Required to carry arms
2) Involved in the direct interdiction of drugs and narcotics and/or
3) Have access to confidential material.

**Polygraphs**

Pursuant to the Public Safety Officer’s Procedural Bill of Rights Act, an officer may not be compelled to submit to a polygraph against his or her will, and the department is not allowed to mention refusal to submit to a polygraph in any reports.

In order to avoid any conflict as to whether a refusal was used against the employee, you may consider either not asking the employee or asking the representative if he or she wishes the employee to take the test. If an employee is threatened with a polygraph examination, any admissions made as a result of that threat will be excluded by a court in considering the merits of resulting disciplinary action. (See *Estes v. City of Grover City* (1978) 82 Cal.App.3d 509). Even if a peace officer were to submit to a voluntary polygraph examination, the results may not be admitted in a subsequent administrative hearing. See *Aengst v. Board of Medical Quality Assurance* (1980) 110 Cal.App.3d 275.

* NOTE: Refer to Governmental Code § 3307 for the precise restrictions on polygraphs. In addition, Government Code § 3307 prohibits entering any references to a peace officer’s refusal to submit a polygraph in any report. The California Supreme Court in *Long Beach City Employees’ Association v. City of Long Beach*, (1986), 41 Cal.3d 937, prohibits requiring any public employee (sworn or nonsworn) to submit to a polygraph exam. However, applicants can be required to undergo a polygraph examination.
A department may require a polygraph examination for officers who voluntarily seek to be promoted or transferred into a few specialized divisions where the work is unusually sensitive and requires the highest level of integrity. See Los Angeles Protective League v. City of Los Angeles (1995) 35 Cal.App.4th 1535.

Administrative Review System

If your agency has a board of review, its purpose is to consider personnel complaints alleging misconduct on the part of an employee. Such a board generally serves only as an advisory panel to the department head who must make the final decision.

A board of review, department head or his or her designee may recommend one of the following dispositions:

Sustained: The allegation is found to be true and in violation of the rules, regulations, policies, procedures or orders of the department.

Not Sustained: The allegation can neither be proved nor disproved and no further action is to be considered.

Exonerated: The alleged act or failure to act is found to be true; however, such act or failure to act is permitted, or at least not prohibited, by the department and/or was appropriate under the circumstances in the instant case.

Unfounded: The allegation has no basis of fact or has been disproved through the investigation.

If a board of review or designated staff officer recommends that the allegation be sustained, a disciplinary recommendation should also be made. Again, the board of review or designated staff officer serves only to advise the department head who makes the final decision.

In considering appropriate discipline, the department head and the board of review, if any, should consider the employee’s performance ratings, any or all prior personnel complaints, supplemental information submitted by the investigating officer or the employee’s supervisors, or any other information deemed appropriate by the department head, so long as that information is later provided to the employee as part of the Skelly process.

If the department head decides to impose discipline, local rules governing the imposition of discipline must be followed. Be aware that a transfer, for purposes of punishment, entitles an officer to request an administrative appeal pursuant to Government Code § 3304 (b).

If the discipline imposed is anything more severe than a reprimand, the department head must prepare a report recommending disciplinary action for the appropriate agency decision maker, if other than the department head (e.g.—city manager).

Routing and Retention of Records

If an agency is large, all personnel complaints and records of disciplinary action are usually rerouted through the chain of command to the employee. It is advisable that each individual on the routing slip initial same, indicating he or she has read the documents and is aware of their content. If an employee refuses to initial, that fact should be indicated on the routing slip or other form and witnessed by a third person.

After the records are reviewed by the employee, they shall be routed to the department head for his or her review and approval prior to being placed in the employee’s personnel file or the department’s personnel complaint file.

Citizen complainants must be notified, in writing, of the disposition of the complaint within 30 days of the disposition of the complaint. (Penal Code § 832.7) It is a recommended practice to also advise the complaining party that the complaint was thoroughly investigated. A sample letter is part of the appendix.

When disciplinary action is taken as the result of a citizen complaint this information need not be disclosed, however, the complainant may be told that “appropriate” action has resulted and it will be noted in the follow-up report that the complainant was so advised. The specific disciplinary action should not be released, because release may be improper disclosure of information from peace officer personnel records where there is an existing civil or criminal proceeding, see Evidence Code § 1043, et seq. and Penal Code § 832.7. Absent a civil or criminal proceeding, department heads have the discretion to disseminate the results of a presumptively open disciplinary hearing. Bradshaw v. City of Los Angeles (1990) 221 Cal.App.3d 908. However, it is cautioned that the agency head’s discretionary release of information is not on a case by case basis. Once this practice is established, the department may be bound in the future to adhere to a “policy” of releasing the information.

Upon notification of the complainant, the citizen’s complaint should be routed as above and placed in the appropriate department/personnel complaint file.
Appendix

A. Laws Related to Citizens’ Complaints

Penal Code § 148.6 Filing false allegation of misconduct against peace officer; Misdemeanor.
(a) Every person who files any allegation of misconduct against any peace officer, as defined in Chapter 4.5 (commencing with § 830) of Title 3 of Part 2, knowing the report to be false, is guilty of a misdemeanor.
(b) Any law enforcement agency accepting an allegation of misconduct against a peace officer shall require the complainant to read and sign the following information advisory, all in boldface type:

YOU HAVE THE RIGHT TO MAKE A COMPLAINT AGAINST A PEACE OFFICER FOR ANY IMPROPER POLICE CONDUCT. CALIFORNIA LAW REQUIRES THIS AGENCY TO HAVE A PROCEDURE TO INVESTIGATE CITIZEN’S COMPLAINTS. YOU HAVE A RIGHT TO A WRITTEN DESCRIPTION OF THIS PROCEDURE. THIS AGENCY MAY FIND AFTER INVESTIGATION THAT THERE IS NOT ENOUGH EVIDENCE TO WARRANT ACTION ON YOUR COMPLAINT; EVEN IF THAT IS THE CASE, YOU HAVE THE RIGHT TO MAKE THE COMPLAINT AND HAVE IT INVESTIGATED. IF YOU BELIEVE AN OFFICER BEHAVED IMPROPERLY, CITIZEN COMPLAINTS AND ANY REPORTS OR FINDINGS RELATING TO COMPLAINTS MUST BE RETAINED AT LEAST FIVE YEARS.

It is against the law to make a complaint that you know to be false. If you make a complaint against an officer knowing that it is false, you can be prosecuted on a misdemeanor charge.

I have read and understood the above statement.

(Added by Stats.1995)

Civil Code § 47.5 Peace officers; defamation action against person filing false complaint alleging misconduct, criminal conduct, or incompetence.

Notwithstanding § 47, a peace officer may bring an action for defamation against an individual who has filed a complaint with that officer’s employing agency alleging misconduct, criminal conduct, or incompetence, if that complaint is false, the complaint was made with knowledge that it was false and that it was made with spite, hatred, or ill will. Knowledge that the complaint was false may be proved by a showing that the complainant had no reasonable grounds to believe the statement was true and that the complainant exhibited a reckless disregard for ascertaining the truth.

(Added by Stats.1982)

Penal Code § 832.5 Procedure for Investigation of Citizens’ Complaints Against Personnel
(a) Each department or agency in this state which employs peace officers shall establish a procedure to investigate citizens’ complaints against the personnel of such departments or agencies, and shall make a written description of the procedure available to the public.
(b) Complaints and any reports or findings relating thereto shall be retained for a period of at least five years.

(Added by Stats.1974, amended by Stats.1978)

Penal Code § 832.7 Confidentiality of Peace Officer Records
(a) Peace officer personnel records and records maintained by any state or local agency pursuant to § 832.5, or information obtained from these records, are confidential and shall not be disclosed in any criminal or civil proceeding except by discovery pursuant to sections 1043 and 1046 of the Evidence Code. This section shall not apply to investigations or proceedings concerning the conduct of police officers or a police agency conducted by a grand jury, a district attorney’s office, or the Attorney General’s office.
(b) Notwithstanding subdivision (a), a department or agency shall release to the complaining party a
copy of his or her own statements at the time the complaint is filed.

(c) Notwithstanding subdivision (a), a department or agency which employs peace officers may disseminate data regarding the number, type or disposition of complaints (sustained, not sustained, exonerated, or unfounded) made against its officers if that information is in a form which does not identify the individuals involved.

(d) The department or agency shall provide written notification to the complaining party of the disposition of the complaint within 30 days of the disposition.

The notification described in this subdivision shall not be conclusive or binding or admissible as evidence in any separate or subsequent action or proceeding brought before an arbitrator, court, or judge of this state or the United States.

(e) Nothing in this section shall affect the discovery or disclosure of information contained in a peace officer’s personnel file pursuant to § 1043 of the Evidence Code.

Penal Code § 832.8 Personnel Records
As used in § 832.7, “personnel records” means any file maintained under that individual’s name by his or her employing agency and containing records relating to:
(a) Personal data, including marital status, family members, educational and employment history, or similar information;
(b) Medical history;
(c) Election of employee benefits;
(d) Employee advancement, appraisal, or discipline;
(e) Complaints, or investigations of complaints, concerning an event or transaction in which he or she participated, or which he or she perceived, and pertaining to the manner in which he or she performed his or her duties; or
(f) Any other information the disclosure of which would constitute an unwarranted invasion of personal privacy.

(Added by Stats.1978, amended by Stats.1990)

Evidence Code § 1043 Peace Officer Personnel Records: Discovery or Disclosure: Procedure (Pitchess motion)
(a) In any case in which discovery or disclosure is sought of peace officer personnel records or records maintained pursuant to § 832.5 of the Penal Code or information from such records, the party seeking such discovery or disclosure shall file a written motion with the appropriate court or administrative body upon 10 days’ written notice to the governmental agency which has custody and control of such records. Upon receipt of such notice the governmental agency served shall immediately notify the individual whose records are sought.

(b) Such motion shall include:
(1) Identification of the proceeding in which discovery or disclosure is sought, the party seeking discovery or disclosure, the peace officer whose records are sought, the governmental agency which has custody and control of such records, and the time and place at which the motion for discovery or disclosure shall be heard;
(2) A description of the type of records or information sought; and
(3) Affidavits showing good cause for the discovery or disclosure sought, setting forth the materiality thereof to the subject matter involved in the pending litigation and stating upon reasonable belief that such governmental agency identified has such records or information from such records.

(c) No hearing upon a motion for discovery or disclosure shall be held without full compliance with the notice provisions of this § except upon a showing by the moving party of good cause for noncompliance, or upon a waiver of such hearing by the governmental agency identified as having such records.

Evidence Code § 1044 Medical or Psychological History Records: Right of Access
Nothing in this article shall be construed to affect the right of access to records of medical or psychological history where such access would otherwise be available under § 996 or 1016. (Added by Stats. 1978)

(a) Nothing in this article shall be construed to affect the right of access to records of complaints, or investigations of complaints, or discipline imposed as a result of such investigations, concerning an event or transaction in which the peace officer participated, or which he perceived, and pertaining to the manner in which he performed his duties provided that such information is relevant to the
subject matter involved in the pending litigation.
(b) In determining relevance the court shall examine the information in chambers in conformity with § 915, and shall exclude from disclosure:

(1) Information consisting of complaints concerning conduct occurring more than five years before the event or transaction which is the subject of the litigation in aid of which discovery or disclosure is sought.

(2) In any criminal proceeding the conclusions of any officer investigating a complaint filed pursuant to § 832.5 of the Penal Code.

(3) Facts sought to be disclosed which are so remote as to make disclosure of little or no practical benefit.

(c) In determining relevance where the issue in litigation concerns the policies or pattern of conduct of the employing agency, the court shall consider whether the information sought may be obtained from other records maintained by the employing agency in the regular course of agency business which would not necessitate the disclosure of individual personnel records.

(d) Upon motion reasonably made by the governmental agency which has custody or control of the records to be examined or by the officer whose records are sought, and upon good cause showing the necessity thereof, the court may make any order which justice requires to protect the officer or agency from unnecessary annoyance, embarrassment or oppression.

(e) The court shall, in any case or proceeding permitting the disclosure or discovery of any peace officer records requested pursuant to § 1045, order that the records disclosed or discovered may not be used for any purpose other than a court proceeding pursuant to applicable law.

§ 3300. Short title
This chapter is known and may be cited as the Public Safety Officers Procedural Bill of Rights Act. (Added by Stats. 1976, c. 466, p. 1202, § 1)

§ 3301. Definition; legislative findings and declaration
For purposes of this chapter, the term public safety officer means all peace officers specified in §§ 830.1, 830.2, 830.3, 830.31, 830.32, 830.33, except subdivision (e), 830.34, 830.35, except subdivision (c), 830.36, 830.37, 830.38, 830.4, and 830.5 of the Penal Code.

The Legislature hereby finds and declares that the rights and protections provided to peace officers under this chapter constitute a matter of statewide concern. The Legislature further finds and declares that effective law enforcement depends upon the maintenance of stable employer-employee relations, between public safety employees and their employers. In order to assure that such stable relations are continued throughout the state and to further assure that effective services are provided to all people of the state, it is necessary that this chapter be applicable to all public safety officers, as defined in this section, wherever situated within the State of California.

§ 3302. Political activity; membership on school board
(a) Except as otherwise provided by law, or whenever on duty or in uniform, no public safety officer shall be prohibited from engaging, or be coerced or required to engage, in political activity.

(b) No public safety officer shall be prohibited from seeking election to, or serving as a member of, the governing board of a school district. (Added by Stats. 1976, amended by Stats. 1978)

§ 3303. Investigations and interrogations; conduct; conditions; representation; reassignment

When any public safety officer is under investigation and subjected to interrogation by his or her commanding officer, or any other member of the employing public safety department, that could lead to punitive action, the interrogation shall be conducted under the following conditions. For the purpose of this chapter, punitive action means any action that may lead to dismissal, demotion, suspension, reduction in salary, written reprimand, or transfer for purposes of punishment.

(a) The interrogation shall be conducted at a reasonable hour, preferably at a time when the public safety officer is on duty, or during the normal waking hours for the public safety officer, unless the seriousness of the investigation requires otherwise. If the interrogation does occur during off-duty time of the public safety officer being interrogated, the public safety officer shall be compensated for any off-duty time in accordance with regular department procedures, and the public safety officer shall not be
released from employment for any work missed.

(b) The public safety officer under investigation shall be informed prior to the interrogation of the rank, name and command of the officer in charge of the interrogation, the interrogating officers, and all other persons to be present during the interrogation. All questions directed to the public safety officer under interrogation shall be asked by and through no more than two interrogators at one time.

(c) The public safety officer under investigation shall be informed of the nature of the investigation prior to any interrogation.

(d) The interrogating session shall be for a reasonable period taking into consideration gravity and complexity of the issue being investigated. The person under interrogation shall be allowed to attend to his or her own personal physical necessities.

(e) The public safety officer under interrogation shall not be subjected to offensive language or threatened with punitive action, except that an officer refusing to respond to questions or submit to interrogations shall be informed that failure to answer questions directly related to the investigation or interrogation may result in punitive action. No promise of reward shall be made as an inducement to answering any question. The employer shall not cause the public safety officer under interrogation to be subjected to visits by the press or news media without his or her express consent nor shall his or her home address or photograph be given to the press or news media without his or her express consent.

(f) No statement made during an interrogation by a public safety officer under duress, coercion, or threat of punitive action shall be admissible in any subsequent civil proceeding. This subdivision is subject to the following qualifications:

1. This subdivision shall not limit the use of statements made by a public safety officer when the employing public safety department is seeking civil sanctions against any public safety officer, including disciplinary action brought under § 19572.

2. This subdivision shall not prevent the admissibility of statements made by the public safety officer under interrogation in any civil action, including administrative actions, brought by that public safety officer, or that officer’s exclusive representative, arising out of a disciplinary action.

3. This subdivision shall not prevent statements made by a public safety officer under interrogation from being used to impeach the testimony of that officer after an in-camera review to determine whether the statements serve to impeach the testimony of the officer.

4. This subdivision shall not otherwise prevent the admissibility of statements made by a public safety officer under interrogation if that officer subsequently is deceased.

(g) The complete interrogation of a public safety officer may be recorded. If a tape recording is made of the interrogation, the public safety officer shall have access to the tape if any further proceedings are contemplated or prior to any further interrogation at a subsequent time. The public safety officer shall be entitled to a transcribed copy of any notes made by a stenographer or to any reports or complaints made by investigators or other persons, except those which are deemed by the investigating agency to be confidential. No notes or reports which are deemed to be confidential may be entered in the officer’s personnel file. The public safety officer being interrogated shall have the right to bring his or her own recording device and record any and all aspects of the interrogation.

(h) If prior to or during the interrogation of a public safety officer it is deemed that he or she may be charged with a criminal offense, he or she shall be immediately informed of his or her constitutional rights.

(i) Upon the filing of a formal written statement of charges, or whenever an interrogation focuses on matters that are likely to result in punitive action against any public safety officer, that officer, at his or her request, shall have the right to be represented by a representative of his or her choice who may be present at all times during the interrogation. The representative shall not be a person subject to the same investigation. The representative shall not be required to disclose, nor be subject to any punitive action for refusing to disclose, any information received from the officer under investigation for noncriminal matters.

This section shall not apply to any interrogation of a public safety officer in the normal course of duty, counseling, instruction, or informal verbal admonishment by, or other routine or unplanned contact with, a supervisor or any other public safety officer, nor shall this section apply to an investigation concerned solely and directly with alleged criminal activities.

(j) No public safety officer shall be loaned or temporarily reassigned to a location or duty assignment if a sworn member of his or her department would not normally be sent to that location or would not normally be given that duty assignment under similar circumstances.

§ 3304. Lawful exercise of rights; insubordination; administrative appeal

(a) No public safety officer shall be subjected to punitive action, or denied promotion, or be threatened with any such treatment, because of the lawful exercise of the rights granted under this chapter, or the exercise of any rights under any existing administrative grievance procedure.
Nothing in this section shall preclude a head of an agency from ordering a public safety officer to cooperate with other agencies involved in criminal investigations. If an officer fails to comply with such an order, the agency may officially charge him with insubordination.

(b) No punitive action, nor denial of promotion on grounds other than merit, shall be undertaken by any public agency without providing the public safety officer with an opportunity for administrative appeal. (Added by Stats. 1976)

§ 3305. Comments adverse to interest; entry in personnel file or in other record; opportunity to read and sign instrument; refusal to sign

No public safety officer shall have any comment adverse to his or her interest entered in his or her personnel file, or any other file used for any personnel purposes by his or her employer, without the public safety officer having first read and signed the instrument containing the adverse comment indicating he or she is aware of such comment, except that such entry may be made if after reading such instrument the public safety officer refuses to sign it. Should a public safety officer refuse to sign, that fact shall be noted on that document, and signed or initialed by such officer. (Added by Stats. 1976)

§ 3306. Response to adverse comment entered in personnel file; time

A public safety officer shall have 30 days within which to file a written response to any adverse comment entered in his or her personnel file. Such written response shall be attached to, and shall accompany, the adverse comment. (Added by Stats. 1976)

§ 3307. Polygraph Examination; right to refuse; effect

No public safety officer shall be compelled to submit to a polygraph examination against his or her will. No disciplinary action or other reprimand shall be taken against a public safety officer refusing to submit to a polygraph examination, nor shall any comment be entered anywhere in the investigator's notes or anywhere else that the public safety officer refused to take a polygraph examination, nor shall any testimony or evidence be admissible at a subsequent hearing, trial, or proceeding, judicial or administrative, to the effect that the public safety officer refused to take a polygraph examination. (Added by Stats. 1976)

§ 3308. Financial disclosure; right to refuse; exceptions

No public safety officer shall be required or requested for purposes of job assignment or other personnel action to disclose any item of his property, income, assets, source of income, debts or personal or domestic expenditures (including those of any member of his family or household) unless such information is obtained or required under state law or proper legal procedure, tends to indicate a conflict of interest with respect to the performance of his official duties, or is necessary for the employing agency to ascertain the desirability of assigning the public safety officer to a specialized unit in which there is a strong possibility that bribes or other improper inducements may be offered. (Added by Stats. 1976)

§ 3309. Search of locker or storage space; consent; search warrant

No public safety officer shall have his locker, or other space for storage that may be assigned to him searched except in his presence, or with his consent, or unless a valid search warrant has been obtained or where he or she has been notified that a search will be conducted. This section shall apply only to lockers or other space for storage that are owned or leased by the employing agency. (Added by Stats. 1976)

§ 3309.5. Local public safety officers; applicability of chapter; violations; jurisdiction; remedies

(a) It shall be unlawful for any public safety department to deny or refuse to any public safety officer the rights and protections guaranteed to them by this chapter.

(b) The superior court shall have initial jurisdiction over any proceeding brought by any public safety officer against any public safety department for alleged violations of this section.

(c) In any case where the superior court finds that a public safety department has violated any of the provisions of this chapter, the court shall render appropriate injunctive or other extraordinary relief to remedy the violation and to prevent future violations of a like or similar nature, including, but not limited to, the granting of a temporary restraining order, preliminary, or permanent injunction prohibiting the public safety department from taking any punitive action against the public safety officer. (Amended by Stats. 1980)

§ 3310. Procedures of public agency providing same rights or protections; application of chapter

Any public agency which has adopted, through action of its governing body or its official designee, any procedure which at a minimum provides to peace officers the same rights or protections as provided pursuant to this chapter shall not be subject to this chapter with regard to such procedure. (Added by Stats. 1976)

§ 3311. Mutual aid agreements; effect of chapter upon
Nothing in this chapter shall in any way be construed to limit the use of any public safety agency or any public safety officer in the fulfilling of mutual aid agreements with other jurisdictions or agencies, nor shall this chapter be construed in any way to limit any jurisdictional or interagency cooperation under any circumstances where such activity is deemed necessary or desirable by the jurisdictions or the agencies involved. (Added by Stats.1976, Amended by Stats. 1977)
C. Sample Description of Complaint Investigation Procedure
Available to the Public

The department believes that a relationship of confidence and trust with the public is essential to effective law enforcement. Public safety officers must be free to exercise their best judgment and to initiate law enforcement action in a reasonable, lawful and impartial manner without fear of reprisal. So, too, enforcers of the law have a special obligation under the laws of this state and the Constitution of the United States to meticulously respect the rights of all persons.

The department acknowledges its responsibility to establish a system of complaint and disciplinary procedures which will subject public safety officers to corrective action when they conduct themselves improperly, but also to protect them from unwarranted criticism when they discharge their duties properly. To this end, the department welcomes constructive criticism of the department, its procedures, and valid complaints against its members.

Any member of the community who is aware of misconduct by a member of the department may file a “Citizen Complaint.” The complaint may be made at any time to any member of the department. Complaints of misconduct will be accepted and recorded on a “Citizen Complaint” form available at all stations. A copy of your statement will be given to you at the time you file a complaint. Persons under 18 years of age may make complaints, but we ask that a parent or guardian be present when a formal complaint is filed.

The person receiving the complaint will ask you to provide as much information as possible. The complaint will then be investigated in a timely, professional manner by a department supervisor. The investigation consists of taking formal statements from all persons concerned and the collection and preservation of any physical evidence or other information related to the incident. Each allegation is examined on its own merits in an objective manner.

The employee’s bureau chief or a disciplinary review board will examine the investigation and make a recommendation to the sheriff or chief of police, who will determine whether or not the involved public safety officer should be disciplined, or whether the involved policy or procedure should be modified.

Further Information
Generally, complaints will not be accepted from persons who are intoxicated. This is not designed to discourage complaints, but rather, to ensure that all facts and circumstances are accurately recorded. Persons who are intoxicated at the time they wish to file a complaint will be recontacted at a later time for the filing of the complaint.

You should also understand that if you knowingly make false accusations you may be liable to civil or criminal recourse under the law. You may also be asked to submit to a polygraph examination as part of the investigation, but you cannot be compelled to take a polygraph examination as part of this investigation.

If it is determined that the officer acted improperly, he or she will be subject to discipline by the department. If the officer’s actions were criminal, the matter will be referred to the office of the district attorney.

Each person who complains will be notified of the disposition of the complaint in writing within 30 days of the disposition of the complaint.

(NOTE: Departments should consider whether or not to include an advisory to complaining persons that their name, address, and phone number may be subject to later disclosure pursuant to a “Pitchess Motion.” This advisory, if made, should be given in a spirit of “full disclosure,” rather than to discourage the filing of a complaint).
## SUMMARY OF COMPLAINT PROCESS

After your complaint is filed, a police department member assigned by the chief of police will promptly gather all information pertinent to each allegation of misconduct in the complaint. The final disposition on the case will be made by the chief of police. You will be notified by letter at the conclusion of the investigation. When complaints are found to be sustained, the chief of police shall determine and administer appropriate corrective action.

You have the right to make a complaint against a peace officer for any improper police conduct. California law requires this agency to have a procedure to investigate citizens' complaints. You have a right to a written description of this procedure. This agency may find after investigation that there is not enough evidence to warrant action on your complaint. Even if that is the case, you have the right to make the complaint and have it investigated if you believe an officer behaved improperly. Citizen complaints and any reports or findings relating to complaints must be retained at least five years.

It is against the law to make a complaint that you know to be false. If you make a complaint against an officer knowing that it is false, you can be prosecuted on a misdemeanor charge.

PROGRESSIVE DISCIPLINE
GUIDELINES & Practice Directive P206
Effective Date:July 1985Revised: March 2004

PROGRAM

P206.1 It is the philosophy of San Francisco State University and the California State University system, in conformance with the California Education Code, Title 5, and Collective Bargaining Agreements, to follow a program of progressive discipline when an employee fails to meet the required standards of performance. Progressive discipline establishes a process of clear, timely, consistent, and documented communications with an employee designed to ensure an understanding of job expectations, provide an opportunity to correct behavior, improve performance, and assure "due process". The process begins with a job description, appropriate training, communication of work rules, and regular performance evaluations.

P206.2 The goal of progressive discipline is to modify specific behavior or to improve performance. The goal is not to punish the employee, but to alert the employee to the need to correct specific behavior.

P206.3 Progressive discipline actions taken by SFSU administrators, deans, or unit heads shall remain confidential.

P206.4 Effective performance is acknowledged through verbal reinforcement, written performance evaluations outlining specific examples of accomplishments and contributions, and recommendations for salary increases. (Refer to HR Practice Directive #P530 for Performance Evaluation and #P300 for Compensation).

P206.5 Poor performance should be addressed through a progressive pattern of pre-discipline and formal discipline. Pre-discipline includes special performance evaluations, counseling, verbal and written warnings, and letters of reprimand. Formal discipline includes suspensions without pay or demotion, and finally dismissal. This progressive pattern of discipline is designed to ensure proper communication between supervisor/administrator and employee, to provide an opportunity to reinforce appropriate behavior, and to correct unsatisfactory employee performance.

SCOPE

P206.6 These guidelines apply to all staff employees covered by collective bargaining agreements and to employees in designated confidential positions. These guidelines do not apply to individuals hired as faculty, employees hired as administrators in the Management Personnel
Plan (MPP) or those in excluded classifications, e.g., student assistants, work-study, special consultants, etc.

P206.7 Where the provisions of this policy and procedure are in conflict with the collective bargaining agreements reached pursuant to Chapter 12, (commencing with Section 3560) of Division 4 of Title 1 of the Government Code, the collective bargaining agreements shall take precedence. Additionally, the Public Safety Officers’ Procedural Bill of Rights shall pertain in cases where applicable.

AUTHORITY

P206.8 At SFSU, the president has delegated authority to impose formal disciplinary action in the form of suspensions, demotions and dismissal to the cabinet level officers (appropriate vice president). Recommendations for such disciplinary actions are submitted by the dean to a Human Resources or Employee Relations officer.

P206.9 The appropriate administrator (designated within the Management Personnel Plan) is responsible for initiating disciplinary action(s). Pre-disciplinary action, which includes counseling, oral and written warning(s), and letter(s) of reprimand, may be taken with or without consulting a Human Resources or Employee Relations officer. Formal disciplinary action, which includes suspension or demotion and dismissal, requires consultation with a Human Resources or Employee Relations officer and the concurrence of the cabinet level officer.

P206.10 Immediate formal disciplinary action may be implemented in instances of serious misconduct where there is a clear and present danger to the university or its members. Such misconduct may include, but not be limited to, dishonesty, including fraud in securing employment, theft, misappropriation of University property or funds, acts endangering the health and safety of others, immoral conduct, and conviction of a felony or misdemeanor involving moral turpitude. In such instances, an employee may be temporarily suspended with pay for reasons related to a) the safety of persons or property; or b) the prevention of the disruption of programs and/or operations, or c) investigation for formal disciplinary action.

P206.11 Typically, progressive discipline is implemented for ongoing failure or refusal to perform the normal and reasonable duties of the position, which includes, but is not limited to unsatisfactory performance, excessive absenteeism, tardiness, work rule violations, insubordination, or unprofessional conduct that may include verbal abuse toward another employee.

P206.12 Employees should be advised of their right to consult with a union or personal representative prior to any discussion that could adversely affect working conditions or employment status.

PROCEDURES

P206.13 For employees with temporary or probationary status, in cases where dismissal is requested prior to the end date established for a temporary position or where rejection during probation is requested, normally at least one performance evaluation shall be conducted prior to
the midpoint of the temporary appointment or probationary period, identifying areas and behavior needing improvement and time shall be provided to improve performance prior to dismissal. Where stipulated in collective bargaining agreements, performance evaluations should be administered according to the provisions contained therein.

P206.14 Issues to consider prior to initiating progressive discipline:

a. Have an accurate, comprehensive position description, clearly written performance expectations, and adequate training been provided to the employee?

b. Are the standards of employee performance and rules of employee conduct being applied fairly and equitably? Have all employees demonstrating similar deficient behavior or violating similar rules been treated alike?

c. Has information regarding performance expectations and deficient behavior been communicated regularly? Have written records been maintained of counseling meetings? Has the employee been provided the opportunity to respond? Has the progressive disciplinary action been initiated in a timely, consistent, and confidential manner?

d. Does the University have a written guideline concerning the behavior, and was the employee given a copy?

P206.15 Counseling is normally the initial step in the progressive discipline process. Problems should be identified and discussed with the employee in a confidential manner. The appropriate supervisor, administrator, or unit head should seek input from the employee about the cause of the problem, and solutions should be identified and agreed upon. Follow up should be provided, and the employee should be advised of progress made in solving the problem. The purpose of counseling is to bring the problem to the employee’s attention before it becomes so serious that it must become part of a written warning placed in the employee’s file. This process may be repeated prior to the initiation of a written warning or reprimand.

P206.16 Verbal and written warnings and reprimands are intended to constitute informal notice to the employee of a specific behavior that needs to be corrected. Oral and written warnings are not submitted to the Human Resources Department or placed in the official personnel file, but may go in a file as documentation for subsequent actions. A warning should describe the problem, indicate expected behavior, and outline the consequence for failure to correct the behavior. The administrator should maintain a record of the date and content of all conversations with an employee where a warning has been given and should retain copies of any written warnings. Administrators should prepare a memo to file documenting verbal warnings and conversations when improvements to performance have been addressed.

P206.17 Written warnings or reprimands are initiated only when counseling fails to produce the desired result. The problem should be clearly stated, the steps to correct the problem must be clearly identified, and a meeting should be held with the employee to discuss the steps necessary to correct the identified performance deficiency. This process may be repeated with stronger
consequence statements, including the statement that failure to correct this situation may lead to further disciplinary action.

**P206.18** For dismissal of an employee in a temporary or probationary appointment, the appropriate administrator shall prepare and submit a memo to a Human Resources or Employee Relations officer requesting dismissal and outlining the deficient performance, as well as the steps that have been taken to communicate with the employee regarding the improvements needed. The Human Resources or Employee Relations officer shall prepare a notice to the employee either ending the temporary appointment or rejecting him/her during probation. A copy of the request for dismissal from the appropriate administrator shall be attached to the notice. Normally, the employee shall be provided with two weeks’ notice or pay in lieu of notice. If the employee has permanent status in another classification, the employee has the right to return to the classification in which he/she has permanent status. In such cases, the employee shall normally be reassigned to a position within the same cabinet area.

For more information concerning employee rights regarding probationary appointments and rejection during probation, refer to Human Resources’ Supervisor’s Step-by-Step Probationary Guide.

**P206.19** For employees with permanent status, except as specified in paragraph 206.8, the progressive discipline process shall occur prior to dismissal. The process may include discussions with the employee, unsatisfactory performance evaluations, and verbal and written warning(s), letter(s) of reprimand, suspension, and/or demotion.

**P206.20** Written reprimands shall be given by the appropriate Management Personnel Plan administrator to the employee, and shall be forwarded to the Human Resources Department for inclusion in the employee’s personnel file. Since all personnel decisions regarding formal disciplinary action must be based on material contained in the employee’s official personnel file, all deficient behavior should be carefully documented and all written reprimands must be clearly articulated. The written reprimand must be clearly identified as a written reprimand (e.g., Letter of Reprimand - Performance or Letter of Reprimand - Attendance) and must state that a copy of the reprimand is to be placed in the employee’s personnel file (e.g., cc: Personnel File). The written reprimand should contain, but is not limited to, the following:

a. **What did the employee do?** Clearly identify the specific conduct deemed deficient and describe the conduct in complete and explicit terms using plain language. Include dates, names, places, events, witnesses, etc. Supplement general statements with specific examples to provide a proper factual foundation. The document should be a self-contained record; it should be fully understood by a third person unfamiliar with the employee’s unsatisfactory conduct. A third person should be able to understand what the employee did that created the problem based upon reading the document, without having to refer to any other information source.

b. **How did the behavior violate a performance expectation/rule?** Include the rule, authority, and/or expectation relating to the deficient behavior, such as CSU policies or campus procedures, collective bargaining provisions, job descriptions, written work rules or written administrative memos/instructions/directives. Often, it will be necessary to translate the problem into a
recognized performance expectation, especially when the unsatisfactory behavior is not directly tied to a clearly defined written standard or expectation. This type of behavior may involve attitude and cooperation, job efficiency and accuracy, and adequate job skill levels. Examples include discourteous conduct, poor professional judgment, job carelessness, and disruptive behavior. Where the inappropriate behavior has previously occurred, a notation should be made of the prior violation and resulting action, if any.

c. What is the impact of the employee’s conduct? Cite the adverse effect of the employee’s conduct on university operations and other persons especially where negative public notoriety occurs. Examples include: lack of dependability; unnecessary shift of duties to other employee; lack of continuity and consistency; unnecessary expenditure of supervisory time; interference in normal procedures causing delay in the completion of work; exposure to personal injury and university liability; destruction or damage to property and repair costs; and lack of compliance with required timelines.

d. What does the employee need to do to improve? Provide specific suggestions and/or directives for the employee to meet job requirements. Outline directions regarding the proper behavior or level of performance expected in the future. It is important to be clear and unequivocal and to include the effective timelines and the consequence(s) if the employee fails to comply (e.g., further disciplinary action will occur that may result in dismissal, etc.). In other words, the employee must know what must be done to correct deficient performance or behavior and when and what will happen if the performance is not corrected. The description of the behavior must be unambiguous, easy to understand, and as complete as possible. Identify any assistance that the employee may require to meet job requirements such as additional training, equipment, etc.

e. What rights does the employee have in connection with the disciplinary action? The employee has a right to receive a copy of any document(s) including a letter of reprimand that could lead to an adverse personnel action prior to their placement in the employee’s official personnel file (five days prior to placement for Unit 4). The employee may in turn submit a response to these documents that must be included in the employee’s official personnel file according to the provisions of the collective bargaining agreement in effect at the time. The employee also has the right to review his/her personnel file and obtain copies of all materials contained within it. When preparing a letter of reprimand, state at the bottom of the letter that a copy will be placed in the official personnel file and that the employee may submit a response. The employee may request a conference with the appropriate administrator to discuss the reprimand, may be represented at the conference by another employee or union representative and may request a review of the reprimand at the next level of supervision.

In summary, employees have the (1) right to union or personal representation; (2) right to be given the facts; i.e., to know the facts giving rise to the disciplinary action; (3) right to a hearing on the matter; (4) right to receive copies of all materials upon which the action is based; (5) right to appeal to a reviewing officer; and (6) right to file an appeal with the State Personnel Board.

P206.21 Consultation with a Human Resources or Employee Relations officer is required prior to the submission of recommendations for formal disciplinary action (demotion, suspension and
The recommendation shall document prior counseling, warnings, written reprimands and prior discipline, and shall include all supporting documentation, e.g., attendance records, copies of written reprimands. The documentation must describe the deficient behavior, identify the impact to the department, outline what actions have been taken prior to the recommendation to communicate with the employee about the deficient behavior and efforts made concerning the correction of behavior and include the names of witnesses if appropriate to the deficient behavior.

P206.22 Where the deficient behavior is believed to be illegal or serious misconduct as outlined in 206.08, the appropriate administrator shall immediately notify the Chief of University Police, a Human Resources or Employee Relations officer, the University counsel and auditor, if appropriate.

P206.23 A Human Relations or Employee Relations officer shall review the request for the formal disciplinary action, and shall forward a recommendation with all supporting documentation and employee notification to the appropriate Cabinet Level Officer for signature.

P206.24 Upon signature, the Human Resources or Employee Relations officer shall either forward the notice to the appropriate administrator to be served on the employee in person, arrange for personal service, or send the notice of formal disciplinary action to the employee by certified mail at the employee’s last known address. The notice shall contain information regarding employee rights, including the right to consult their union or personal representative.

P206.25 Within five (5) days of receiving the notice of formal disciplinary action, the employee may provide a written statement and/or, by appointment, an oral statement, requesting a review by a Reviewing Officer appointed by the President or designee. The Reviewing Officer shall review all pertinent documentation and is empowered to affirm, modify or withdraw the notice.

P206.26 Within thirty (30) days of receiving the notice of formal disciplinary action, the employee may appeal to the State Personnel Board.

P206.27 If an employee requests a State Personnel Board Hearing, the Human Resources or Employee Relations officer shall notify the appropriate administrator and the appropriate union regarding the hearing, and shall assist the University counsel with necessary case preparation and presentation.

P206.28 When not provided specifically by collective bargaining provisions, letters of reprimand may be removed from the official personnel file upon the employee’s request after three (3) years from its effective date. If formal disciplinary action has been initiated and the reprimand is related to the action, the letter will not be removed. Nothing in this provision shall prohibit earlier removal of the reprimand upon mutual agreement by the administrator and employee.

Selection and Testing Guidelines for
Sworn CSU Police Personnel and Police Officer Cadets

I. MINIMUM STANDARDS AND APPOINTMENT REQUIREMENTS

The enclosed guidelines are intended to meet the related provisions of the California State University (CSU), State University Police Association (SUPA), California Peace Officers Standards and Training (POST), as well as related statutory rules and regulations outlined in Section II.

A. Overview

CSU police officer testing guidelines are developed to ensure selected candidates who are appointed as CSU police officers are physically, mentally, and emotionally equipped to carry out all duties of the position. Police officer applicants shall be tested for the demonstrated ability to perform all duties of the position and to determine any physical, mental, or emotional condition that might adversely affect applicants' abilities to exercise police officer powers.

To be eligible for appointment as a sworn campus police officer or cadet, an individual must be able to perform the essential functions of the job with or without reasonable accommodation. The Americans with Disabilities Act (ADA) requires that employment offers be made conditionally, prior to a medical examination. If the police officer or cadet candidate fails the medical examination, the conditional offer must be withdrawn. Campuses are advised to seek assistance from campus counsel on specific ADA or Fair Employment and Housing Act (FEHA) questions, as appropriate.

B. Authorities

1. State University Administrative Manual, Section 4021
2. California Government Code, Section 1031
3. California Education Code, Section 89560
4. California Penal Code, Section 830.2
5. POST (Police Officer Standards and Training) Administrative Manual, Section 1002.
7. Americans with Disabilities Act (ADA)

C. Classifications Covered by Guidelines

Police officer classifications covered by the testing guidelines include the following: Police Cadet, Police Officer, Corporal, and Sergeant. Police management positions in the Management Personnel Plan (MPP) include Lieutenant, Captain, Commander, Deputy Chief, and Chief of Police, and CSU Systemwide Police Coordinator.

D. Notice of Recruitment

When a vacancy for a sworn police officer position occurs on any campus, notice of recruitment shall be posted on all campuses for at least 14 days. This notice will be posted in the campus Human Resources Office and at a pre-determined location at each campus police department. This 14-day notice applies to recruitments for sworn (lateral) or police cadet recruitments; therefore, campuses may wish to combine recruitment efforts for these positions to ensure continuity and flexibility with subsequent reclassifications of cadets to police officer positions.
Vacant positions to be filled by cadets will not be posted. This notice may run concurrent to recruitment efforts provided that the campus does not conduct application screening or hiring consideration prior to the 14 day notice expiration.

When a vacancy for corporal or sergeant occurs on a campus, it may be filled by promotion from within campus, at the sole discretion of the President, and does not require posting of a new position (SUPA, Article 12).

Announcements for vacant police officer positions shall include notice that a drug test will be administered as part of the required medical examination.

E. POST and Statutory Minimum Standards for Police Officer Candidates

California Government Code Section 1031 mandates that to be a police officer in California, one must meet certain basic requirements which are set forth in Statute. Additionally, each CSU Police Department must adhere to the regulations and standards of the California Commission on Police Officer Standards and Training (POST) in the employment and training of university police officers. All requirements of these regulations and standards shall apply to each peace officer, regardless of the rank to which the person is appointed.

Every police officer employed by the CSU shall be selected in conformance with the following requirements:

1. Felony Conviction — A convicted felon is disqualified from being employed as a police officer (Government Code Section 1029(a)(1)).

2. Domestic Violence Convictions — Under federal law, any person who has been convicted of a misdemeanor crime containing the elements of domestic violence is prohibited from possessing a firearm or ammunition. This provision applies to all convictions, either prior to, or after the passage of law.

3. Fingerprint and Record Check — Each police department is required to fingerprint potential police officers and search local, state, and national files to discover the existence of criminal records (Government Code Section 1030 and 1031(c)).

4. Citizenship — A police officer must satisfy citizenship requirements as detailed in Government Code Section 1031(a) and 1031.5.

5. Age — A police officer must be a minimum of 18 years of age (Government Code Section 1031(b)). However, CSU practices, in compliance with industry standards, require that all police officer candidates shall be at least 21 years of age by the time of appointment to a sworn position. As an example, one could theoretically begin a hiring process at age 20, have the same candidate begin the police academy at age 20.5 years, and have the same candidate re-classified to a sworn position at age 21 to successfully meet this provision.

6. Moral Character — A police officer must have good moral character as determined by a thorough background investigation (Government Code Section 1031(d)).

7. Education — A police officer must be a United States high school graduate, pass the General Education Development (GED) Test indicating high school graduation level, pass the California High School Proficiency Examination, or have attained a two-year or four-year degree from an accredited college or university (Government Code Section 1031(e)).
In addition to the above criteria, every peace officer candidate must successfully complete the following evaluations prior to the appointment date:

8. **Reading and Writing Ability** — Must be able to read and write at the levels necessary to perform the job of a peace officer as determined by the use of the POST Entry-Level Law Enforcement Test Battery or other job-related tests of reading and writing ability. Peace officer candidates who have completed the Regular Basic Course or the Specialized Investigator’s Basic Course are not required to complete reading and writing assessments. Refer to Testing Guidelines for more information.

9. **Interview** — Must be personally interviewed prior to employment by the department head or a representative(s) to determine the person’s suitability for law enforcement service, which includes, but is not limited to, the person’s experience, problem solving ability, communications skills, interest/motivation, interpersonal skills, and community involvement/awareness. Refer to Testing Guidelines for Oral Interviews for more information.

10. **Physical, Emotional and Mental Condition** (post job offer) — A police officer must be free from any physical, emotional and mental condition which might adversely affect the exercise of the powers of a police officer. (Government Code Section 1031(f)). The examinations shall be conducted as prescribed in the POST Administrative Manual, Section C-2, and by a licensed physician and surgeon and psychologist or psychiatrist, as outlined. Refer to Testing Guidelines for Medical and Psychological Examinations for more information.

11. **Successful Completion of all Phases of Testing Process** — A candidate must pass successfully all testing requirements to assess one’s ability to comply with the above minimum standards and those outlined in Section II – CSU Police Officer and Cadet Testing Guidelines.

**F. Training and Certification Requirements**

Entry level sworn officers must have successfully completed a POST-certified basic course or police academy and obtained a POST-certified training certificate for the basic course. These requirements must be met prior to appointment at the campus as a peace officer. The POST Basic Course Certificate is obtained upon completion of a certified police training program.

Entry level officers with more than one year of experience will possess the POST basic course certificate (or waiver) and likely possess the POST Basic Certificate (obtained only after successfully completing one year of active law enforcement experience).

Applicants who were sworn police officers in other states must receive the POST Basic Course Waiver prior to appointment at the campus. Refer to the POST Web site for information regarding the waiver process.

Applicants who were sworn police officers in other states must receive the POST Basic Course Waiver prior to appointment. Refer to the POST Web site for information regarding the waiver process. Applicants for police chief and/or for positions that will function at the second level of supervision or above (police management) who were sworn police officers in other states must complete the POST Basic Course Waiver process within one year of hire. An exception may be made by the campus president for extenuating circumstances such as inability to obtain required training, generally not to exceed six months. The applicant’s Personal History Investigation should ascertain whether the applicant has completed successfully the minimum requirement to qualify for the Basic Course Waiver process.

Applicants who were previously sworn officers and have a three-year or longer break in service must successfully pass the POST re-qualification course prior to appointment.
Retirees who separate from an agency (with POST) and who return to sworn status must participate in the testing process and are subject to the three-year re-qualification rule.

A police officer cadet, a non-sworn individual who has not completed the POST academy or received a Basic Course Certificate, must possess a high school diploma or equivalent and eligibility to attend a certified POST basic training academy.

B. Testing Guidelines

Minimum testing requirements shall apply to applicants for vacant police officer position(s), including cadets who are not currently employed in a police officer classification by the hiring campus and/or headquarters office, and the following:

- Applicants who are sworn police officers at another CSU campus;  
- Applicants who are former CSU employees, including retirees/rehired annuitants;  
- And, applicants who have separated or retired from other State agencies.

These testing guidelines do not apply to police officers hired from other campuses or agencies on a part-time intermittent basis to work athletic or other special events for a specific duration.

The written examination may be waived for cadet applicants if the applicant has completed and achieved a passing score on a POST or Cooperative Personnel Services (CPS) test during the preceding twelve (12)
month period. At the discretion of the police chief, the written test also may be waived if the applicant received a passing score on the Regular Basic Course or the Specialized Investigator’s Basic Course and/or holds a valid and active POST Basic Certificate. This would include a POST qualified peace officer who separated in good standing from active service within the past three years.

All other candidates, including those employed as police officers on other CSU campuses, are required to complete all minimum testing requirements prescribed for each classification as noted at the end of this section.

Offers of employment are conditioned on the successful completion of all testing requirements. Applicants who either refuse or fail any required tests, or portion thereof, will not be eligible for appointment.

When a Corporal or Sergeant position becomes vacant, the campus president may appoint (promote) an officer in a lower classification/rank at the campus without posting the position (SUPA, Article 12). If the president elects to post the position and an officer from the campus applies and is considered for the position, only the written assessment and oral examination are required. In both instances, campuses are responsible for establishing testing procedures to determine if applicants meet the abilities, qualifications and performance requirements of the position.

An assessment center process may be used to determine suitability for appointment / promotion to Corporal / Sergeant / sworn MPP positions in lieu of the written examination. An assessment center process must evaluate candidates on job-related criteria such as written communication skills, oral communication skills, decision making & problem solving ability, leadership ability, initiative, computer literacy, and job knowledge.

When undertaking the process to hire a sworn police officer or cadet, the university must follow the hiring process outlined below: (Note: definitions and explanations apply to all classifications)

C. Hiring Procedures

Three following steps must be followed when hiring police personnel. Please note that not all tests are required for all police personnel.

1. Conduct Testing Required Before Conditional Offer of Job Employment
2. Make Conditional Offer of Employment
3. Conduct Required Testing After Conditional Job Offer of Employment

STEP 1. Conduct Testing Required Prior to Conditional Job Offer of Employment

The following tests are required prior to making a conditional job offer of employment. Guidelines regarding each individual test are provided, as indicated:

1. Application Screening
2. Written Examination

Procedures for completing the required written exam shall be in accordance with current POST standards or the most current format from Cooperative Personnel Services. The CSU will follow the POST recommended minimum passing of T-42 on the POST basic examination. Candidates having previously and successfully completed the POST regular basic course are not required to take a written examination as noted above.
3. Physical Agility Examination

A Physical Agility Examination is required for Cadet candidates and optional for lateral candidates.

Specified applicants will be required to complete satisfactorily all portions of the prescribed Physical Agility Examination, which shall consist of a POST approved Physical Agility Test, prior to consideration for appointment. Procedures for completing the test are in the POST Physical Conditioning Manual. Each campus is responsible for setting timeframes for completing components of the physical agility test. The applicant must sign a waiver prior to taking the Physical Agility test. A sample hold harmless agreement is attached with noted testing areas. See Exhibit 1.

Physical agility tests are not considered medical examinations and are permitted prior to offering a job. It is unlawful to ask an applicant whether he or she is disabled, or about the nature or severity of a disability, or to require the applicant to take a medical examination before offering that applicant a position. Applicants may be asked questions about their ability to perform job-related functions, as long as the questions are not phrased in terms of a disability and are asked of all applicants. Applicants can be required to demonstrate how, with or without reasonable accommodations; they will perform job-related functions. It is not appropriate to inquire as to any medical problem or medication that might interfere with or endanger an applicant taking the physical agility test.

4. Oral Interview

The oral examination shall be conducted in accordance with established personnel practices including ADA compliance and, as appropriate, SUPA collective bargaining agreement requirements. The interview shall not include disability related questions. Additionally, no inquiries regarding lawful drug use or extent of past illegal drug use prior to conditional offer of employment should be made. This phase shall consist of an oral panel (SUPA, Article 12) and one conducted by the department’s head (POST regulation 1002 (a) (8).

5. Personal History/Background Investigation

All applicants shall be subject to a Personal History Investigation prior to being considered for appointment to a vacant police officer position. Procedures for completing the required personal history investigation shall be in accordance with current POST standards (includes a fingerprint, records check, and drug testing). Required forms, waivers and templates can be found on the POST website at www.post.ca.gov.

6. Polygraph (optional)

If a polygraph examination is conducted before a conditional offer of employment is made, it is not permissible to ask applicants if they have any physical impairment that might be affected adversely by the emotional stress of the polygraph examination, or to inquire as to whether or not the applicant is taking any prescription medications. Polygraph operators are not permitted to make any medical inquiries at this pre-offer stage. This includes questions about the extent of prior illegal drug or alcohol use, worker’s compensation history, history of mental health problems, etc. All questioning about these issues must be deferred until the post-offer stage.

While the polygraph examination involves measurement of physiological responses, it is not considered a medical examination. Pre-offer questions must be limited to those necessary to determine if the polygraph result is valid. It is permissible to ask questions at this pre-offer stage that would not require applicants to reveal disabilities such as: “Are you currently in pain?” “Did you get enough sleep last
night?"  "Have you eaten a meal today?"  "Have you taken any medication or other substance for the purpose of affecting these test results?"

STEP 2. Conditional Offer of Employment

The offer of employment must be a legitimate, bona fide offer, conditioned upon the applicant’s successful completion of medical and psychological examinations. It is important to determine whether the applicant has the appropriate abilities to do the job before any consideration is given to the person’s medical and psychological condition. A full background investigation, without medical information, must be conducted prior to making the conditional employment offer. The CSU employer should have evaluated all relevant non-medical information, which, from a practical and legal perspective, could have been analyzed reasonably prior to extending the offer.

An offer of the job should be conditioned upon the successful results of the medical and psychological examinations. Once the applicant successfully completes these exams, the job offer automatically becomes effective; therefore, send only the number of applicants for an exam as there are available job openings.

An example of a Conditional Offer of Employment is in Exhibit 2.

STEP 3. Testing Required After Conditional Job Offer of Employment

After a conditional offer of employment is made and prior to commencement of employment duties, the CSU employer shall require that an applicant take a medical examination that includes a psychological evaluation. The medical evaluation will assess mental and physical impairments and will include appropriate blood tests for alcohol and drugs.

1. Medical Examination (including drug testing)

All applicants shall have their physical and psychological condition evaluated by a licensed professional as outlined in Government Code Section 1031(f) after receiving a conditional offer of employment. The selection of appropriate professional and specific requirements of the physical examination shall be as outlined in the POST Medical Screening Manual for California Law Enforcement.

Required applicants shall submit to and pass a drug test. Applicants who either refuse or fail the required drug test will not be appointed. Procedures for completing the required drug test shall be in accordance with POST guidelines.

POST guidelines require that at minimum the completed background investigation packet include an official statement that the candidate has successfully completed the medical screening process.

2. Psychological Examination

The required psychological evaluation shall be in accordance with current POST standards and conducted by a licensed professional after conditional offer of employment is made.

The Police Chief will screen psychological evaluations to determine the candidate’s suitability to serve as a peace officer. POST guidelines require that only the recommendation form from the psychologist be included in the background packet.
3. **Background Investigation Follow Up**

Campuses will address discrepancies and conflicts with background investigations that are revealed during the post-conditional offer testing phase.

* Note: if optional areas are invoked, such practices shall be done consistently and objectively.
PHYSICAL AGILITY WAIVER

The Physical Agility Examination is comprised of five events. These events are strenuous and physically demanding. You will be asked to:

1. Run a 99-yard obstacle course consisting of several sharp turns, a number of curb height obstacles and a 34-inch high obstacle that must be vaulted.
2. Run 5 yards to a 6-foot chain link fence, climb over the fence, and continue running another 25 yards.
3. Lift and drag a 165 pound lifelike dummy 32 feet.
4. Run 500 yards (equivalent to 1 lap plus 60 yards of a standard running track).
5. Run 5 yards to a 6-foot solid fence, climb over the fence and continue running for another 25 yards.

I HAVE CAREFULLY READ THIS WAIVER AND FULLY UNDERSTAND THAT BY COMPLETING THE PHYSICAL AGILITY EXAMINATION THAT THERE IS A RISK OF INJURY OR DEATH. I UNDERSTAND THAT PASSING THE EXAMINATION IS A CONDITION OF MY PROSPECTIVE EMPLOYMENT WITH THE California State University.

I UNDERSTAND BY SIGNING THIS AGREEMENT THAT I AM RELEASING THE California State University, ITS EMPLOYEES, AGENTS, OFFICERS AND VOLUNTEERS FROM LIABILITY OF ANY KIND. I AM AWARE THAT THIS AGREEMENT IS A RELEASE OF LIABILITY AND A CONTRACT BETWEEN MYSELF AND THE California State University AND ITS RESPECTIVE EMPLOYEES, AGENTS, OFFICERS AND VOLUNTEERS. THIS AGREEMENT IS SIGNED ON MY OWN BEHALF OF MY OWN FREE WILL.

I CERTIFY THAT THIS AGREEMENT, IT'S SIGNIFICANCE AND THE ASSUMPTION OF RISK HAS BEEN EXPLAINED AND UNDERSTOOD BY ME.

RECRUITMENT GUIDELINES PRACTICE DIRECTIVE NO. 105 June 2009

PROGRAM
105.1 It is the philosophy of San Francisco State University (SF State) and the California University System, in conformance with the California Education Code, Title 5, State, and Federal guidelines, to recruit from within the University and from external labor markets as widely and for as much time as is practical to obtain a pool of qualified applicants. SF State will make special efforts to ensure that the recruitment process facilitates equal employment opportunities, upward mobility and reasonable accommodations for qualified individuals with disabilities as defined in the Americans with Disabilities Act (ADA).

SCOPE
105.2 These guidelines apply to all positions for staff covered by collective bargaining agreements, appointed into the Management Personnel Plan (MPP) or into designated Confidential positions.
105.3 These guidelines do not apply to Faculty, Unit 3 positions or classifications, SF State Head Start, Unit 12 positions, excluded from collective bargaining representation, e.g., Student Assistants/Work Study, Special Consultants, etc.
105.4 Where the provisions of these guidelines are in conflict with the Collective Bargaining Agreements reached pursuant to Chapter 12 (commencing with Section 3560) of Division 4 of Title I of the Government Code, the Collective Bargaining Agreements shall take precedence.

GENERAL PROVISIONS
105.5 Formal recruitment procedures are not implemented for an appointment that is less than 90 days. To initiate a less than 90-day appointment, consult with an Employment Specialist, submit a Position Description, Work Schedule, employee’s application/resume, create an employee hire E-TRAC and submit to Human Resources. pool maintained by Human Resources or by some other personal referral. Deans/Directors or HR Liaison shall contact Human Resources to arrange completion of the hiring documents (sign-in packet) at the time the appointment documents are submitted.  

105.6 The temporary appointment of an employee initially hired for less than 90 days, i.e., a non-posted position, may be extended for an additional 90 days based upon the Collective Bargaining Agreement. The Hiring Supervisor shall notify Human Resources at least 30 days prior to the end of the 90-day temporary appointment to initiate formal posting procedures.  

105.7 Formal recruitment procedures are not implemented for a lateral transfer within the same department under the same supervisor; a disciplinary action; i.e. temporary or permanent reassignment; demotion of an employee; a recall of a laid-off employee; or placement of an employee with reinstatement rights to a classification.  

105.8 All positions of more than 90 days, whether temporary with an ending date or probationary with no ending date, except for temporary reassignments, shall be posted a minimum of 14 calendar days. Full recruitment procedures are required for the conversion of a temporary appointment to a probationary appointment unless a statement is made about the possibility of conversion when the initial temporary appointment is posted.  

105.9 It shall be the policy of the CSU and SF State University in filling vacant positions in CSUEU bargaining units 2, 5, 7, 9 to fill such vacancies from among qualified SF State University employee applicants holding positions within CSUEU bargaining units 2, 5, 7, 9.  

105.10 Recruitment for Administrator level I and II MPP positions is normally conducted in a manner similar to staff positions with advertising (posting) through Human Resources. Recruitment for Administrator level III and IV MPP positions is often conducted by a search committee independent from Human Resources. The Associate Director of Human Resources is to be notified of any/all recruitment and hiring activities for positions in the Management Personnel Plan (MPP) (refer to Management Recruiting Guidelines for further information). All recruiting materials shall be forwarded to Human Resources for retention at the conclusion of the search process.  

**STEPS TO SUCCESSFUL RECRUITING POSTING & ADVERTISING**  

105.11 STEP 1 The recruitment process is initiated by identifying/defining the essential functions, knowledge,
skills, abilities and other qualifications required to perform the essential functions. The Position Description (HR #320A) including an organization chart, is reviewed and updated by the Hiring Supervisor. The Position Description must be clear, concise and provide the following: 1. position summary; primary purpose for the position 2. minimum qualification; required experience; preferred qualification 3. essential job functions; knowledge, skills, abilities 4. nature and scope of decisions 5. interpersonal skills, nature of work environment and work relationships.

105.12 STEP 2 To post a Staff (Unit 1, 2, 4, 5, 6, 7, 8, 9) or Administrator level I and II position for recruitment, a Recruitment Authorization (HR #105A), Position Description, Work Schedule, SF State Careers on-line posting is submitted. The Recruitment Authorization, Position Description including an organization chart, Work Schedule (HR #101), shall be submitted to Human Resources no later than Monday at noon for review and job announcement posting in SF State Careers on-line for the following week.

105.13 Each job announcement within SF State Careers on-line contains a closing date, which shall be at least 14 calendar days until a reasonable number of qualified candidates apply. The Hiring Supervisor may extend posting on a week-to-week basis by calling or e-mailing Human Resources - Employment Specialist by noon on Thursday, two working days prior to the closing date; otherwise, the posting will be automatically removed on-line after the minimum 14-day posting requirement has been met.

105.14 Human Resources may edit department posting submission to finalize on SF State Careers. The weekly SF State Careers on-line job announcement is published and mailed/e-mailed every week to on-campus departments and off-campus agencies. Recruitment may be restricted to a campus search upon consultation with an Employment Specialist in Human Resources. For special recruiting, identifying the compensation and benefits package may be included on each job announcement for hard-to-fill, unique, administrative, MPP or Confidential positions. When a wider recruitment is initiated, Human Resources may assist with advertising of positions in local or regional newspapers such as the San Francisco Chronicle and San Jose Mercury News. The text of the advertisement must correlate specifically with the job announcement on SF State Careers and be submitted with the original posting.
materials. The Hiring Supervisor may also place an announcement in an on-line recruiting service such as Craig’s List.com, Monster.com, Dice.com concurrent with posting in SF State Careers. The Hiring Supervisor may also advertise in national journals such as the Wall Street Journal or Chronicle of Higher Education.

105.15 All applications/resumes must be processed by Human Resources prior to being considered by the hiring department. Applicants are not considered candidates for a position without having their application/resume first processed by Human Resources.

INTERVIEWING CANDIDATES
105.16 STEP 3 Hiring Supervisors shall develop a list of job-related interview questions to be asked of all interviewed candidates to ensure equal consideration.

105.17 Interviews may be conducted with selected candidates after the 14-day posting period, although contact may be made with the candidates during the posting period to schedule interviews. Interviews may be conducted during an extended posting period only after the initial 14-day posting requirement has been met. All candidates interviewed must complete and submit a SF State Application form.

105.18 STEP 4 Whenever possible, a minimum of three (3) candidates shall be interviewed. Although the Hiring Supervisor may conduct the interviews alone, often recruiting is more effective when interviews are conducted by at least two people. The standard number of members of a search committee is between 3 and 7. The Hiring Supervisor and each member of the search committee shall prepare a written rating of each candidate based on the interview questions.

105.19 STEP 5 Reference checks shall be conducted on the recommended number one and number two candidates. There should be two areas of questions asked in the reference process:
1) the qualifications of the candidate, i.e., duties performed, skills demonstrated, level of performance, degree of initiative and judgment, etc., and
2) how the candidate acts in interpersonal relationships, i.e., problem-solver, team-player, etc. Questions about the effectiveness of the candidate’s dealings with peers, superiors and students are appropriate. Information gathered during the reference process should be recorded; however, notes should not be made directly on the application/resume.

MAKING A SELECTION
105.20 STEP 6 The Hiring Supervisor may recommend a candidate for selection by completing a Staff
Employment Recommendation Form (#171) indicating the candidates interviewed, comments, reasons for selection (9.3 justification, refer to 105.9 above) and non-selection, desired salary and start date, and forward to Human Resources. All recruiting materials including the original application/resume for all candidates, interview questions, reference checks must be forwarded to Human Resources at the conclusion of the search process.

105.21 Human Resources shall work with the Hiring Supervisor to make arrangements for a physical/placement examination if required as a condition of employment. Human Resources will make the formal job offer and schedule an appointment with the new employee for the 'New Employee' Orientation Program and completion of hiring documents including a letter of appointment, position description, work schedule.

105.22 Human Resources shall send each applicant a notification concerning the selection of a candidate at the conclusion of recruitment.

TIPS FOR SUCCESSFUL INTERVIEWING:

105.23 The style and approach utilized in the interview process will determine the outcome. Strategic planning is crucial. After the position description and position announcement is prepared, plans begin for interviewing and selection.

The following steps provide a guide:
1. Identify the interview format. Normally, one of two formats are utilized:
2. a) a set of questions is prepared (normally between 6 and 10 questions); each candidate is asked the same questions and the answers are compared; or
   b) an outline of the areas to be covered is developed and candidates are queried in the general areas.
3. Carefully review the resume/application to know the candidate's formal qualifications and accomplishments.
4. Establish a comfortable, accessible and private meeting space for the interview.
5. Open the interview with friendly courtesies; maintain eye contact at all times.
6. Outline the interview process so that the candidate will know what to expect.
7. Before the questions are asked, provide the applicant with a copy of the position description and outline the purpose, major responsibilities and essential functions of the position.
8. Begin interview with an easy open-ended question to engage the candidate and facilitate discussion, i.e. tell us more about your experience as it relates to this job.
9. Conclude the interview with the recruitment timeline, i.e. expected conclusion of interview process and recommendation.

10. When all queries have been made, ask the candidate if he/she has any questions.

Questions relating to knowledge, skills and experience:
What have you done in the past that is reflective of the requirements for this position? Describe activities in which you have been involved that demonstrate your ability in the areas just cited. Describe an achievement or accomplishment of which you are particularly proud.
What unique or special skills do you possess that will aid in performing the major functions of the position?
What unique or special methods would you use in performing the major functions of the position?

Questions relating to professional style, approach to work, work values, interpersonal skills:
Tell us about experiences you have had working with groups and individuals from various ages and ethnic backgrounds. What was the most trying time you ever had with a co-worker? How did you handle it? How was it resolved? How would you describe yourself and/or your work habits? How would the persons with whom you have worked describe you? (relate it to a specific behavior or skill e.g. how you respond in a crisis, your skill in designing a web site, etc.) Has anyone ever criticized your performance? How did you handle that criticism? How have you been effective in encouraging cooperation by co-workers, students or supervisors? What strategies did you employ?
Describe how you have handled disputes with co-workers, students or supervisors? What strategies did you employ?

LEGAL CONCERNS

105.24 Questions unrelated to the position may be perceived as discriminatory and lead to litigation. Thus, questions about a candidate’s education, scholarship, experience, skills, as well as work values, style and approach to work and work relationships are appropriate. On the other hand, queries about age, religion, disability, race, color, sex, sexual orientation, national origin, marital status, and financial status must be avoided. Indirect questions that might elicit information unrelated to the position should also be avoided. Examples include asking the dates of educational attendance, asking for a photo, asking any question about general physical condition, asking about an arrest or conviction unless it directly relates to the qualifications for the position.

105.25 Maintain confidentiality in the interview
process; do not discuss the candidates or anything about the interview process with anyone not directly associated with the search process. It is essential that all applicants know that all applications will be accorded equitable consideration and confidentiality and that their application will be judged against the position description and position qualifications. All application materials including interview notes/ratings and reference notes shall be forwarded to Human Resources at the conclusion of the search.

105.26 Understanding roles and responsibilities as a supervisor is essential in the appropriate application of authority in hiring. No SF State University employee shall make decisions affecting selection, appointment, tenure, compensation, promotion, termination, other employment status or interest of an "immediate family member" (spouse, parent, child, grandparent, grandchild, sibling, uncle, aunt, nephew, niece, first cousin, registered domestic partner, step-parent, step child, brother-in-law, sister-in-law, father-in-law, mother-in-law, daughter-in-law, son-in-law, and by guardianship and/or adoption or a person residing in the immediate household employees or roomers. Relative of domestic partners shall be treated as relatives of spouses).

Other important information: For additional information concerning recruitment, including Principles of Conduct, Nepotism, etc., refer to Human Resources Practice Directives and Guidelines.

PHILOSOPHY

530.1 The pace of change at the University is ever quickening. Demands and expectations for each of us are also ever changing, thus making communication at all levels of the University vital to our effectiveness. Efficient University organizations realize that ongoing assessment of objectives is essential to achieving them. Effective University organizations know that building work relationships is essential to achieving results. Successful University organizations put into practice what they realize and know. Performance appraisal models provide a way for assessing achievements, building relationships and putting into practice principles and strategies that lead to success.

There is no one perfect performance appraisal model. Rather certain principles and strategies, if present in a process, can have a lasting positive impact on the University and the individual. A performance management program provides the opportunity to identify shared goals, objectives, standards and expectations as well as measure results through shared responsibility. The success of a performance management program is dependent on an environment perceived to be fair, equitable, timely and consistent. Frequent clear and unambiguous communication is crucial to that perception. Such an environment fosters trust among those exchanging feedback. Also, adequate resources must be available to recognize individual and group contributions.

530.2 It is the philosophy of San Francisco State University and the California State University System, in conformance with the California Education Code, Title 5, and Collective Bargaining Agreements, to follow a program of performance management that incorporates planning, measurement, feedback and continuous development.

530.3 Principles and strategies that serve as a foundation of a successful performance management program include:

- Performance Management is an ongoing responsibility of the manager and an employee
- Focus is on the quality and timeliness of communication—not on forms and procedures
- Goals and objectives are set by individuals committed to achieving them
- The manager creates an environment that allows an employee to grow and develop
- The employee takes ownership for own growth and development
• Describing the kind of behavior, style and approach desired in work is as important as the productivity or results desired.

PROGRAM

530.4 Performance Management is a set of ongoing processes needed to define and plan performance, to develop the skills, knowledge and abilities to perform as planned, to facilitate self assessment, to review and record performance, and to reward performance.

530.5 Performance evaluation provides a periodic opportunity for communication between the person who assigns the work, and the person who performs it, to discuss what they expect from each other and how well those expectations are being met. Performance management may allow for self assessment as well as supervisory review. It also serves as a basis for recommending a Performance Based Salary Increase and a written performance evaluation is required prior to awarding a Performance Based Salary Increase.

SCOPE

530.6 These guidelines apply to all staff employees covered by collective bargaining agreements and to employees in designated confidential positions. These guidelines do not apply to individuals hired as faculty, employees hired as administrators in the Management Personnel Plan (MPP) or those in excluded classifications, e.g., student assistants, work-study, graduate assistants, special consultants, etc.

530.7 Where the provisions of this policy and procedure are in conflict with the Collective Bargaining Agreements reached pursuant to Chapter 12, (commencing with Section 3560) of Division 4 of Title I of the Government Code, the Collective Bargaining Agreements shall take precedence. Consult the applicable bargaining unit agreement for specific procedural requirements.

530.8 The unit administrator is responsible for communicating job expectations, developing performance plans and evaluating the employee’s performance. Assistance in the process may be provided by the employee’s immediate supervisor who assigns and reviews the employee’s work. The immediate, first-line supervisor may or may not be in a bargaining unit.

PERFORMANCE MANAGEMENT MODEL

530.9 Develop a performance plan

• Review and update the position description
• Define objectives, expectations and criteria to be used in evaluating performance
• Identify training and professional development needs. Professional development strategies may include: on-the-job coaching, job rotation, temporary reassignment, lateral
transfer, participation in fee waiver formal education program, specialized training courses

530.10 Coach consistently

- Provide interim progress reviews exchanging immediate and specific feedback concerning expectations and performance
- Modify plan in response to changes
- Support plan for professional development

530.11 Evaluate performance

- Notify employee of departmental evaluation process and timeline.
- Ask the employee to complete P530B Self Assessment in preparation for the discussion. Although the self assessment is not required, including it does provide the employee with a greater sense of participation in the process and it allows both the employee and evaluator to share feedback and clarify expectations
- Review the performance plan and notes from discussions held during the year
- Update, if appropriate, the position description
- Draft a performance review (summary of discussions over the year). Reference P530A Performance Review form, P530C SFSU User Friendly Principles and P530D SFSU Principles of Conduct for a Multicultural University
- Identify areas for professional development
- Give employee a draft of the evaluation and position description 5 days prior to meeting
- Schedule a meeting with the employee.
- During the meeting, facilitate an open exchange of information concerning expectations

TIMELINES

530.12 PERMANENT: All staff regardless of time base, except those in probationary appointments who are evaluated more frequently based on date of appointment, shall receive a written evaluation of their performance at least once a year, normally in May or June.

530.13 TEMPORARY: Staff in appointments with ending dates shall receive a written evaluation of their performance prior to their reappointment. If an evaluation has not been completed within 6 months of the annual performance evaluation cycle, an evaluation shall be completed at that time.

530.14 PROBATIONARY: Staff in probationary appointments shall receive a formal (written) evaluation of their performance during the probationary period in those months specified by the appropriate collective bargaining agreement.

530.15 SPECIAL: A supervisor may conduct an evaluation of an employee’s performance at any time to recognize and record unusually outstanding performance or borderline or unsatisfactory performance. An employee may request an evaluation of his/her performance
anytime he/she believes it would be beneficial. A performance evaluation must be completed in order to recommend permanent status for an employee.

530.16 MEETING WITH EVALUATOR: An employee is entitled to a meeting with the evaluator to discuss the performance evaluation. Subsequent to receiving a draft of the performance evaluation, an employee may request a meeting with the evaluator which shall take place within 7 days of the request.

530.17 MEETING WITH APPROPRIATE ADMINISTRATOR: Following the meeting with the Evaluator, the employee may request a meeting with the appropriate administrator to discuss the performance evaluation. Normally such a meeting shall take place within fourteen (14) days of the request.

530.18 FILE: The written performance evaluation shall be placed in the employee’s personnel file. The employee shall be provided with a copy of the written performance evaluation prior to its placement in the personnel file, and the employee may submit a rebuttal statement which shall be attached to the evaluation. A copy of the rebuttal statement will be provided to the Evaluator and Appropriate Administrator.

530.19 NOTE: See Evaluation/Employee Performance in the appropriate collective bargaining agreement for specific provisions and time lines.

PERFORMANCE EVALUATION DIMENSIONS

530.18 The performance evaluation dimensions provide the developmental areas for performance planning and a framework by which performance will be evaluated. The dimensions also form the basis for the ongoing conversation between the person who assigns the work and the person who performs the work. The Performance Review Form P530A identifies seven (7) general dimensions to be applied in assessing performance. Within the dimension of skills and abilities, there are several criteria which may be applied depending on the nature of work assignments. If desired, evaluators may identify other relevant criteria within the dimension of skills and abilities but such criteria should be discussed with the employee at the beginning of the review period. The dimensions are described below for reference.

1) KNOWLEDGE OF POLICIES, PROCEDURES AND PROGRAMS: Demonstrates organizational awareness; knows administrative policies and procedures; has knowledge of business practices; provides accurate information on policies and procedures; makes information easily accessible to all members of the campus community.

2) SKILLS AND ABILITIES: Select a minimum of four which are applicable to the work assignments. Evaluators may identify other relevant criteria if desired.

RESOLVING CONFLICTS AND SOLVING PROBLEMS
530.24 Poor performance is often exhibited through conflict and in problems encountered with communication and in working relationships. A performance evaluation is an assessment of performance and should not be punitive. An unsatisfactory performance evaluation is recognized, however, as necessary in reinforcing appropriate behavior and providing an opportunity to correct unsatisfactory employee performance prior to implementing progressive discipline. (Refer to P206 for Progressive Discipline Guidelines)

530.25 Principles that lead to successful conflict resolution, enhance receptivity to constructive criticism and facilitate corrective action include:

- Attack the problem, not the person
- Focus on correcting the behavior, not on punishing the employee
- Be clear about what you see, how you judge, and how you react to people and situations
- Understand and take charge of your own feelings and behaviors
- Move from a defensive, reactionary posture to resolution
- Look forward (opportunity), not backward (blaming).
- Analyze the situation and attempt to view from both sides
- Identify the points where you can compromise rather than demand
- Be open and make every effort to respond in a positive manner.
PROGRESSIVE DISCIPLINE
GUIDELINES & Practice Directive P206
Effective Date: July 1985 Revised: March 2004

PROGRAM

P206.1 It is the philosophy of San Francisco State University and the California State University system, in conformance with the California Education Code, Title 5, and Collective Bargaining Agreements, to follow a program of progressive discipline when an employee fails to meet the required standards of performance. Progressive discipline establishes a process of clear, timely, consistent, and documented communications with an employee designed to ensure an understanding of job expectations, provide an opportunity to correct behavior, improve performance, and assure "due process". The process begins with a job description, appropriate training, communication of work rules, and regular performance evaluations.

P206.2 The goal of progressive discipline is to modify specific behavior or to improve performance. The goal is not to punish the employee, but to alert the employee to the need to correct specific behavior.

P206.3 Progressive discipline actions taken by SFSU administrators, deans, or unit heads shall remain confidential.

P206.4 Effective performance is acknowledged through verbal reinforcement, written performance evaluations outlining specific examples of accomplishments and contributions, and recommendations for salary increases. (Refer to HR Practice Directive #P530 for Performance Evaluation and #P300 for Compensation).

P206.5 Poor performance should be addressed through a progressive pattern of pre-discipline and formal discipline. Pre-discipline includes special performance evaluations, counseling, verbal and written warnings, and letters of reprimand. Formal discipline includes suspensions without pay or demotion, and finally dismissal. This progressive pattern of discipline is designed to ensure proper communication between supervisor/administrator and employee, to provide an opportunity to reinforce appropriate behavior, and to correct unsatisfactory employee performance.

SCOPE

P206.6 These guidelines apply to all staff employees covered by collective bargaining agreements and to employees in designated confidential positions. These guidelines do not apply to individuals hired as faculty, employees hired as administrators in the Management Personnel
Plan (MPP) or those in excluded classifications, e.g., student assistants, work-study, special consultants, etc. ' 

**P206.7** Where the provisions of this policy and procedure are in conflict with the collective bargaining agreements reached pursuant to Chapter 12, (commencing with Section 3560) of Division 4 of Title 1 of the Government Code, the collective bargaining agreements shall take precedence. Additionally, the Public Safety Officers’ Procedural Bill of Rights shall pertain in cases where applicable.

**AUTHORITY**

**P206.8** At SFSU, the president has delegated authority to impose formal disciplinary action in the form of suspensions, demotions and dismissal to the cabinet level officers (appropriate vice president). Recommendations for such disciplinary actions are submitted by the dean to a Human Resources or Employee Relations officer.

**P206.9** The appropriate administrator (designated within the Management Personnel Plan) is responsible for initiating disciplinary action(s). Pre-disciplinary action, which includes counseling, oral and written warning(s), and letter(s) of reprimand, may be taken with or without consulting a Human Resources or Employee Relations officer. Formal disciplinary action, which includes suspension or demotion and dismissal, requires consultation with a Human Resources or Employee Relations officer and the concurrence of the cabinet level officer.

**P206.10** Immediate formal disciplinary action may be implemented in instances of serious misconduct where there is a clear and present danger to the university or its members. Such misconduct may include, but not be limited to, dishonesty, including fraud in securing employment, theft, misappropriation of University property or funds, acts endangering the health and safety of others, immoral conduct, and conviction of a felony or misdemeanor involving moral turpitude. In such instances, an employee may be temporarily suspended with pay for reasons related to a) the safety of persons or property; or b) the prevention of the disruption of programs and/or operations, or c) investigation for formal disciplinary action.

**P206.11** Typically, progressive discipline is implemented for ongoing failure or refusal to perform the normal and reasonable duties of the position, which includes, but is not limited to unsatisfactory performance, excessive absenteeism, tardiness, work rule violations, insubordination, or unprofessional conduct that may include verbal abuse toward another employee.

**P206.12** Employees should be advised of their right to consult with a union or personal representative prior to any discussion that could adversely affect working conditions or employment status.

**PROCEDURES**

**P206.13** For employees with temporary or probationary status, in cases where dismissal is requested prior to the end date established for a temporary position or where rejection during probation is requested, normally at least one performance evaluation shall be conducted prior to
the midpoint of the temporary appointment or probationary period, identifying areas and behavior needing improvement and time shall be provided to improve performance prior to dismissal. Where stipulated in collective bargaining agreements, performance evaluations should be administered according to the provisions contained therein.

P206.14 Issues to consider prior to initiating progressive discipline:

a. Have an accurate, comprehensive position description, clearly written performance expectations, and adequate training been provided to the employee?

b. Are the standards of employee performance and rules of employee conduct being applied fairly and equitably? Have all employees demonstrating similar deficient behavior or violating similar rules been treated alike?

c. Has information regarding performance expectations and deficient behavior been communicated regularly? Have written records been maintained of counseling meetings? Has the employee been provided the opportunity to respond? Has the progressive disciplinary action been initiated in a timely, consistent, and confidential manner?

d. Does the University have a written guideline concerning the behavior, and was the employee given a copy?

P206.15 Counseling is normally the initial step in the progressive discipline process. Problems should be identified and discussed with the employee in a confidential manner. The appropriate supervisor, administrator, or unit head should seek input from the employee about the cause of the problem, and solutions should be identified and agreed upon. Follow up should be provided, and the employee should be advised of progress made in solving the problem. The purpose of counseling is to bring the problem to the employee’s attention before it becomes so serious that it must become part of a written warning placed in the employee’s file. This process may be repeated prior the initiation of a written warning or reprimand.

P206.16 Verbal and written warnings and reprimands are intended to constitute informal notice to the employee of a specific behavior that needs to be corrected. Oral and written warnings are not submitted to the Human Resources Department or placed in the official personnel file, but may go in a file as documentation for subsequent actions. A warning should describe the problem, indicate expected behavior, and outline the consequence for failure to correct the behavior. The administrator should maintain a record of the date and content of all conversations with an employee where a warning has been given and should retain copies of any written warnings. Administrators should prepare a memo to file documenting verbal warnings and conversations when improvements to performance have been addressed.

P206.17 Written warnings or reprimands are initiated only when counseling fails to produce the desired result. The problem should be clearly stated, the steps to correct the problem must be clearly identified, and a meeting should be held with the employee to discuss the steps necessary to correct the identified performance deficiency. This process may be repeated with stronger
consequence statements, including the statement that failure to correct this situation may lead to further disciplinary action.

P206.18 For dismissal of an employee in a temporary or probationary appointment, the appropriate administrator shall prepare and submit a memo to a Human Resources or Employee Relations officer requesting dismissal and outlining the deficient performance, as well as the steps that have been taken to communicate with the employee regarding the improvements needed. The Human Resources or Employee Relations officer shall prepare a notice to the employee either ending the temporary appointment or rejecting him/her during probation. A copy of the request for dismissal from the appropriate administrator shall be attached to the notice. Normally, the employee shall be provided with two weeks’ notice or pay in lieu of notice. If the employee has permanent status in another classification, the employee has the right to return to the classification in which he/she has permanent status. In such cases, the employee shall normally be reassigned to a position within the same cabinet area.

For more information concerning employee rights regarding probationary appointments and rejection during probation, refer to Human Resources’ Supervisor’s Step-by-Step Probationary Guide.

P206.19 For employees with permanent status, except as specified in paragraph 206.8, the progressive discipline process shall occur prior to dismissal. The process may include discussions with the employee, unsatisfactory performance evaluations, and verbal and written warning(s), letter(s) of reprimand, suspension, and/or demotion.

P206.20 Written reprimands shall be given by the appropriate Management Personnel Plan administrator to the employee, and shall be forwarded to the Human Resources Department for inclusion in the employee’s personnel file. Since all personnel decisions regarding formal disciplinary action must be based on material contained in the employee’s official personnel file, all deficient behavior should be carefully documented and all written reprimands must be clearly articulated. The written reprimand must be clearly identified as a written reprimand (e.g., Letter of Reprimand - Performance or Letter of Reprimand - Attendance) and must state that a copy of the reprimand is to be placed in the employee’s personnel file (e.g., cc: Personnel File). The written reprimand should contain, but is not limited to, the following:

a. What did the employee do? Clearly identify the specific conduct deemed deficient and describe the conduct in complete and explicit terms using plain language. Include dates, names, places, events, witnesses, etc. Supplement general statements with specific examples to provide a proper factual foundation. The document should be a self-contained record; it should be fully understood by a third person unfamiliar with the employee’s unsatisfactory conduct. A third person should be able to understand what the employee did that created the problem based upon reading the document, without having to refer to any other information source.

b. How did the behavior violate a performance expectation/rule? Include the rule, authority, and/or expectation relating to the deficient behavior, such as CSU policies or campus procedures, collective bargaining provisions, job descriptions, written work rules or written administrative memos/instructions/directives. Often, it will be necessary to translate the problem into a
recognize performance expectation, especially when the unsatisfactory behavior is not directly tied to a clearly defined written standard or expectation. This type of behavior may involve attitude and cooperation, job efficiency and accuracy, and adequate job skill levels. Examples include discourteous conduct, poor professional judgment, job carelessness, and disruptive behavior. Where the inappropriate behavior has previously occurred, a notation should be made of the prior violation and resulting action, if any.

c. What is the impact of the employee’s conduct? Cite the adverse effect of the employee’s conduct on university operations and other persons especially where negative public notoriety occurs. Examples include: lack of dependability; unnecessary shift of duties to other employee; lack of continuity and consistency; unnecessary expenditure of supervisory time; interference in normal procedures causing delay in the completion of work; exposure to personal injury and university liability; destruction or damage to property and repair costs; and lack of compliance with required timelines.

d. What does the employee need to do to improve? Provide specific suggestions and/or directives for the employee to meet job requirements. Outline directions regarding the proper behavior or level of performance expected in the future. It is important to be clear and unequivocal and to include the effective timelines and the consequence(s) if the employee fails to comply (e.g., further disciplinary action will occur that may result in dismissal, etc.). In other words, the employee must know what must be done to correct deficient performance or behavior and when and what will happen if the performance is not corrected. The description of the behavior must be unambiguous, easy to understand, and as complete as possible. Identify any assistance that the employee may require to meet job requirements such as additional training, equipment, etc.

e. What rights does the employee have in connection with the disciplinary action? The employee has a right to receive a copy of any document(s) including a letter of reprimand that could lead to an adverse personnel action prior to their placement in the employee’s official personnel file (five days prior to placement for Unit 4). The employee may in turn submit a response to these documents that must be included in the employee’s official personnel file according to the provisions of the collective bargaining agreement in effect at the time. The employee also has the right to review his/her personnel file and obtain copies of all materials contained within it. When preparing a letter of reprimand, state at the bottom of the letter that a copy will be placed in the official personnel file and that the employee may submit a response. The employee may request a conference with the appropriate administrator to discuss the reprimand, may be represented at the conference by another employee or union representative and may request a review of the reprimand at the next level of supervision.

In summary, employees have the (1) right to union or personal representation; (2) right to be given the facts; i.e., to know the facts giving rise to the disciplinary action; (3) right to a hearing on the matter; (4) right to receive copies of all materials upon which the action is based; (5) right to appeal to a reviewing officer; and (6) right to file an appeal with the State Personnel Board.

P206.21 Consultation with a Human Resources or Employee Relations officer is required prior to the submission of recommendations for formal disciplinary action (demotion, suspension and
 dismissal). The recommendation shall document prior counseling, warnings, written reprimands and prior discipline, and shall include all supporting documentation, e.g., attendance records, copies of written reprimands. The documentation must describe the deficient behavior, identify the impact to the department, outline what actions have been taken prior to the recommendation to communicate with the employee about the deficient behavior and efforts made concerning the correction of behavior and include the names of witnesses if appropriate to the deficient behavior.

P206.22 Where the deficient behavior is believed to be illegal or serious misconduct as outlined in 206.08, the appropriate administrator shall immediately notify the Chief of University Police, a Human Resources or Employee Relations officer, the University counsel and auditor, if appropriate.

P206.23 A Human Relations or Employee Relations officer shall review the request for the formal disciplinary action, and shall forward a recommendation with all supporting documentation and employee notification to the appropriate Cabinet Level Officer for signature.

P206.24 Upon signature, the Human Resources or Employee Relations officer shall either forward the notice to the appropriate administrator to be served on the employee in person, arrange for personal service, or send the notice of formal disciplinary action to the employee by certified mail at the employee’s last known address. The notice shall contain information regarding employee rights, including the right to consult their union or personal representative.

P206.25 Within five (5) days of receiving the notice of formal disciplinary action, the employee may provide a written statement and/or, by appointment, an oral statement, requesting a review by a Reviewing Officer appointed by the President or designee. The Reviewing Officer shall review all pertinent documentation and is empowered to affirm, modify or withdraw the notice.

P206.26 Within thirty (30) days of receiving the notice of formal disciplinary action, the employee may appeal to the State Personnel Board.

P206.27 If an employee requests a State Personnel Board Hearing, the Human Resources or Employee Relations officer shall notify the appropriate administrator and the appropriate union regarding the hearing, and shall assist the University counsel with necessary case preparation and presentation.

P206.28 When not provided specifically by collective bargaining provisions, letters of reprimand may be removed from the official personnel file upon the employee’s request after three (3) years from its effective date. If formal disciplinary action has been initiated and the reprimand is related to the action, the letter will not be removed. Nothing in this provision shall prohibit earlier removal of the reprimand upon mutual agreement by the administrator and employee.

Subject: Compliance with California Commission on Peace Officer
Standards on Training (POST) and Control of POST Fund
Training Reimbursements

This policy outlines the minimum training requirements for sworn peace officers and
dispatchers as mandated by the California Code of Regulations, POST Administrative Manual,
California Penal Code and the California Code of Regulations.

This policy will also establish minimum guidelines for the control of POST training
reimbursement funds as mandated by the Statewide Administrative Manual.

Compliance with POST Training Requirements

All sworn police officers and dispatchers must be provided the minimum training as mandated
by POST Section 1005. Each department should establish a department training plan to insure
that all sworn officers and dispatchers receive the minimum POST mandated training.

Title 22, Article 2, Section 100016 of the California Code of Regulations states that first aid
and CPR training shall be provided to all lifeguards, firefighters and peace officers, unless their
duties are primarily clerical or administrative.

The California Penal Code Section 13518 requires that every police officer, except those
whose duties are primarily clerical or administrative, shall meet the training standards
prescribed by the Emergency Medical Services (EMS) Authority for the administration of first
aid and CPR. In addition, satisfactory completion of periodic refresher training or
appropriate testing in CPR and other first aid as prescribed by the EMS Authority shall also be
required.
Those campuses that have implemented the use of Automated External Defibrillators, shall comply with the California Code of Regulations, Title 22, Division 9, Chapter 1.8, and Sections 100331-100339. Every authorized individual using the defibrillators shall have met the training standards required by the code. Departments should establish policies and procedures for the use of the defibrillators to insure proper maintenance and use of the defibrillators.

**Control of POST Training Fund Reimbursements**

The California Department of Justice through the division of the California Peace Officers Standards on Training (POST) reimburses campus police departments for certain approved types of training pursuant to California Penal code sections 13507 and 13522. Monthly checks are mailed directly to the CSU police departments and campus procedures need to be established to comply with the Statewide Administrative Manual (SAM) to insure the reimbursements are received, prevent misappropriation or loss of the funds.

Campuses should develop a system of accounting that when a sworn or qualifying member of the police department is scheduled and sent to training, that the campus estimate pursuant to POST Administrative Manual (PAM) Section E, the amount of the reimbursement to be received from POST and that the records are reconciled upon receipt of the reimbursement check. Each employee must submit a POST Training Reimbursement Request (TRK) form at the training class. POST reimburses the departments based upon five designated plans as outlined in PAM section E-2. Each campus has the authority to decide how the reimbursement account is set up, and the usage of the training funds pursuant to the campus POST training plan. Each campus must insure compliance with the account agreement as approved by campus authorities.

Pursuant to SAM Section 8023, CSU Police Chiefs shall insure that all checks, money orders, and warrants received for deposit be restrictively endorsed for deposit as soon as practical after receipt, but no later than the end of the working day. There should be a method in place whereby a supervisor can verify that the accurate reimbursement is received; that the appropriate deposit was made and receipts maintained; that the records be maintained to verify a timely deposit and reconciliation.

Pursuant to SAM 20500, CSU Police Chiefs shall insure that a satisfactory system of internal accounting and administrative controls shall include the segregation of duties appropriate for proper safeguarding of assets, liabilities, revenues and expenditures.

320.1 The classification program is designed to ensure that the skill level required and the responsibilities assigned to employees are accurately reflected in position descriptions and that positions are appropriately classified in accordance with the Classification and Qualification Standards issued by the Trustees of The California State University (CSU) as implemented at San Francisco State University.

320.2 A classification and/or skill level review may be initiated by the employee, Dean/Director or by the Human Resources Department as part of a system wide or campus review.

320.3 Classification and/or skill level reviews are normally conducted in response to a change in skill level requirements or position responsibilities, a reorganization/structural change or the establishment of a new position. The supervisor is responsible for preparing position descriptions and ensuring that each employee has a position description which reflects the responsibilities assigned and skills required. Determination of the appropriate classification is based on the skills required to perform the job and nature of work assigned. Factors such as independence, autonomy, innovation, creativity, decision making, judgment, complexity, routinization, supervision given and received may also be considered.

320.4 The effective date of a reclassification and/or skill level shall normally be the first of the month following Cabinet Officer's approval of the classification and/or skill level recommendation made by the Human Resources Department.

320.5 The salary of an employee moving to a classification or skill level with a higher salary range shall normally be 5% or the minimum of the new salary range, whichever is greater.

320.6 Funding for reclassifications and/or higher skill levels shall be borne by the department in which the position resides.

SCOPE

320.7 The Classification Program shall apply to all employees in temporary, probationary and permanent non-faculty positions including confidential and administrator positions covered by the Management Personnel Plan.
320.8 Employees not covered by these guidelines include Instructional Faculty, Auxiliary employees, Teaching Associates, Graduate Assistants, Special Consultants, Casual Workers, Student Assistant/Work Study and Volunteer employees.

320.9 Where the provisions of this policy and procedure are in conflict with the Collective Bargaining Agreements reached pursuant to Chapter 12, (commencing with Section 3560) of Division 4 of Title I of the Government Code, the Collective Bargaining Agreement(s) shall take precedence.

PROCEDURE

320.10 MANAGEMENT INITIATED REVIEWS: The Supervisor and/or Dean/Director shall prepare and forward to the appropriate Cabinet Officer a memo (the Cabinet Officer must sign the memo to authorize Human Resources to conduct the review). The memo shall identify the reasons for change in assignments, e.g. legislation, reorganization, new functions. A current and revised position description (HR 320A), including organization charts shall be forwarded with the memo.

320.11 EMPLOYEE INITIATED REVIEWS: An employee may request a classification review provided the request is made at least eighteen (18) months after the completion of a previous classification review and/or skill level determination. An employee's request shall be submitted in writing to the employee's supervisor and must include copies of the current and revised position description (HR 320A) including organization charts. The employee shall also submit a memo outlining the changes in skills and responsibilities upon which the request is based.

320.12 The supervisor shall forward the employee request as soon as possible to the Dean/Director and Cabinet Officer for authorization and submission to Human Resources for review. The supervisor shall prepare and submit a memo with the employee's request that verifies or refutes the changes in responsibilities and skill level required (if confirming the changes, the supervisor shall include the date the changes occurred, and when changes are expected to take place).

CLASSIFICATION REVIEW

320.13 The review process may include one or more of the following:

- 1. Analysis of materials associated with the position including the position description statement of changes in responsibilities and skill levels.
- 2. Interviews with incumbent(s), supervisor(s), and/or managers individually or in groups.
- 3. Comparison with other positions on/offcampus for similarities and differences in skill level, difficulty, responsibility and qualification requirements.
320.14 The Human Resources Department shall formulate a classification recommendation, review the recommendation with the Cabinet Level Officer and obtain approval, communicate in writing the classification determination, including the reasons for the decision, within 180 calendar days after initiation of the request.

CLASSIFICATION APPEAL

The appeal shall include the specific reasons for disagreement with the classification determination. The process for an appeal review shall be similar to 320.13. OVERVIEW:
This Police Series encompasses those positions whose primary function is to ensure the protection and public safety of CSU students, faculty, staff, property, and members of the general public who visit a CSU campus. Incumbents assigned to this series must complete successfully a certified Peace Officer Standards and Training (P.O.S.T.) program and become sworn police officers, licensed to carry firearms.

Positions are classified within the series on the basis of the nature and variety of work, including difficulty and complexity of assignments; degree of supervisory control exercised over the position; availability and scope of guidelines and authority controlling actions; purpose, level and nature of interpersonal working relationships; and nature and extent of supervisory responsibility for the work of others.

Incumbents in this series have primary responsibility for patrolling the campus, maintaining order, controlling crowds, protecting individuals and property; conducting investigations, gathering evidence, making arrests and writing reports. All positions in the series require at least a working knowledge of current federal and state laws; ability to identify and evaluate sensitive and/or dangerous situations and take appropriate action; quickly and calmly; ability to make clear, concise written and oral reports of observations and actions taken; ability to establish and maintain effective working relationships with campus personnel, students, community agencies and the public; and ability to meet the physical and mental demands of the job.

In addition, incumbents may be delegated responsibility for additional assignments to meet the unique public safety needs of the campus. Police Dispatcher
Class Codes: 8800 - 8802
Date Established: 12/01/00

OVERVIEW:
The Police Dispatcher is a specialized classification within police departments which provides essential dispatch communications and records maintenance. Dispatchers are responsible for maintaining effective and efficient communications between campus law enforcement headquarters, campus police officers in the field, outside emergency and law enforcement agencies, and the public. Incumbents in this position receive, record and dispatch general and emergency information quickly, clearly and accurately. Two position skill levels are defined:

- **Position Skill Level I** - Incumbents at this level perform standard dispatch duties which include receiving and screening incoming emergency and public safety calls and communicating with campus law enforcement staff using the police radio systems to dispatch accordingly. Work involves the use of automated/computerized dispatch and police information systems and databases to input and retrieve data. Incumbents are required to work independently, react quickly, and demonstrate good judgment and discretion in stressful situations.

- **Position Skill Level II** - Incumbents at this level typically have a higher degree of accountability for the dispatch and records functions. Their assignments typically involve providing lead work direction to other dispatchers and/or other public safety support staff and/or performing more complex and diverse functions in support of public safety programs. They often participate in the development of operational procedures and protocols related to dispatch functions.

CORE AREAS:
Positions in this classification are distinguished by the critical nature of police dispatch work and the specialized knowledge and skills required to perform this work. While the predominant focus of positions in this classification is dispatch communications, the work assignments may fall into the following core areas:

- **Dispatch Communications** - Answering and screening incoming calls to the police department which involve conversing with crime victims, witnesses, and members of the public to elicit and record pertinent information; operating police department and other emergency communications equipment to dispatch officers to calls for service, critical incidents and emergencies; entering and retrieving data for police reports, activity logs and criminal information; utilizing automated dispatch and law enforcement systems and databases to enter, research and retrieve information, operating the 911 telephone system and serving as the primary answer point; coordinating emergency responses including performing emergency dispatch duties; and referring citizens to appropriate resources such as counseling services, domestic violence support services or victim/witness assistance units.

- **Record-keeping** - Utilizing dispatch and law enforcement systems and databases (both computerized and manual) to maintain department files and reports; entering, recording, researching and retrieving information; updating department warrant and due diligence information; filing police reports, preparing arrest folders, maintaining criminal history files and preparing packets for prosecutors; compiling and sending reports to appropriate agencies, ensuring records and files are maintained in accordance with applicable laws and regulations; and providing related clerical and/or administrative support to the department.
Chapter 2

- **Public Safety Support** – Providing support to other public safety and community service functions including parking and access services, maintaining records, monitoring security and fire alarm systems, and coordinating responses; monitoring building access; assisting campus visitors; and vehicle checkout.

**ENTRY QUALIFICATIONS:**
Entry to the first level within this classification typically requires one year of verifiable experience using a switchboard and two-way radio communication system in a law enforcement or comparable agency within the last ten years and a high school diploma or equivalent. Essential entry qualifications require the ability to effectively use a phonetic alphabet, speak clearly and concisely, follow oral and written instructions, transfer information accurately, handle a wide range of interpersonal interactions effectively, and learn the use of applicable automated dispatch and law enforcement systems and databases.

Incumbents must have completed or be able to attend and successfully complete the Police Officers Standards and Training (P.O.S.T) Dispatcher Course. Incumbents who, upon hire, do not possess a P.O.S.T. Dispatcher Certificate also will be required to pass a written test related to essential dispatching skills. Additionally, incumbents must successfully pass supplemental P.O.S.T. requirements for dispatchers such as a background check, physical and psychological examinations, drug testing, and related requirements.

**POSITION SKILL LEVELS:**
Two position skill levels are defined within this classification. Progression from the first to the second skill level is referred to as an in-classification progression. The factors used to determine position skill level include: complexity, scope and impact of the work performed; level, type and scope of knowledge required; autonomy exercised and level of supervision received; position accountability, judgment and discretion required by the position to address and solve problems; and level and diversity of contacts and interactive capabilities required by the position.

A position is placed at a skill level where the majority of and/or most critical position responsibilities and skill requirements fall. Management assigns work responsibilities and determines position skill requirements. It is important to note that the position skill level definitions do not delineate entry requirements for each skill level, but are composites of the typical position at each level. Entry qualifications are defined for the first position skill level of the classification. Further progression within the classification depends first, on the need for a position at a higher skill level; second, on the nature of the duties and requirements of the position; and third, on an employee’s demonstrated and applied skills and abilities.

Typical nature of work assignments:

- Regular use of judgment and discretion is necessary to set priorities, assess the importance of information, and to react quickly and effectively. Established protocols and procedures are followed in most instances. Incumbents are accountable for actions taken.
- Work involves regular, and often intense, contact with the campus community, general public, and campus and outside law enforcement and emergency agencies. Interaction requires tact and discretion.

Workers' Compensation Benefit Frequently Asked Questions (FAQ)

What is Workers' Compensation?
Workers' Compensation is an employer-paid benefit that provides you with medical, compensation, and vocational rehabilitation benefits if you are injured on the job or become ill because of your work. Workers' Compensation provides your dependents with a death benefit in the unlikely event that you die because of an injury or illness that results from your work for the University.

Who is covered by Workers' Compensation?
San Francisco State University employees (including faculty, staff, management, special consultants, student assistants, and work-study students), appointed volunteers, and some students enrolled in off-campus internships are covered by Workers' Compensation. You are covered when you perform your work for the University. Coverage begins the first minute that you are on the job and continues any time that you work. You do not have to work a certain amount of time or earn a certain amount of money before you are covered. Coverage is automatic and immediate.

What types of injuries and illnesses are covered by Workers' Compensation?
Any injury or illness, caused by your job, is covered by Workers' Compensation. This includes minor injuries and illnesses as well as serious injuries and illnesses. Under Workers' Compensation, you are covered no matter who was at fault for your injury or illness.

How do I claim benefits under Workers' Compensation?
Immediately report your injury or illness to your supervisor. This helps protect your right to Workers' Compensation benefits. Your supervisor should provide you with a Workers' Compensation claim form (DWC Form 1). If your supervisor does not provide you with a claim form, contact the Office of Risk Management (x82565, CORP YD 201) to receive a claim form. You may also receive a claim form from the Student Health Service, at the time of your treatment there. Complete and return the claim form to your supervisor or the Office of Risk Management. The Office of Risk Management will complete and sign the employer section and send your claim to Octagon Risk Services.

Where can I go to receive medical assistance?
If your injury or illness is an emergency, call for help immediately. Dial 911. If your injury or illness is not an emergency, you may begin your medical treatment by proceeding to the Student Health Service. No appointment is necessary. In all cases, you will be provided access to the University's network of skilled physicians and health care providers specializing in occupational injuries and illnesses. If you pre-designated your personal medical provider in writing to Human Resources prior to your work related injury, you may go to that provider for your medical care.

How do I Pre-designate?
You may pre-designate a personal medical provider to treat you in the event of a work related injury/illness. Your pre-designated personal medical provider must be designated by you prior to your injury/illness, must have previously treated you and must have your medical records. To pre-designate you can complete the "Human Resources, Safety and Risk Management Biographical Information- HR #002 form" located in Human Resources. Alternatively, you can provide Human Resources with a written statement of your request to pre-designate. Your statement must include your intent to pre-designate in the event you sustain a work related injury/illness, the name, address and phone number of the personal physician, in addition to your name, date and signature.

Who is Octagon Risk Services?
Octagon Risk Services (Octagon) administers San Francisco State University's Workers' Compensation program. Octagon is a nationwide claims administrator with headquarters in Oakland. Octagon determines whether you are
eligible to receive Workers’ Compensation benefits for your injury or illness. Octagon pays all your approved medical bills and pays you any compensation that is due to you (except for industrial disability leave (IDL) and enhanced industrial disability leave (EIDL), which are paid by the University). Octagon works with your medical care provider to ensure that you receive high-quality, timely medical care.

**How does this affect my health care insurance?**
Workers’ Compensation is separate from your health care insurance. Workers’ Compensation covers all work-related injuries and illnesses. There are no deductibles or co-pays. Octagon pays all approved medical bills.

**Workers Compensation Benefit Summary**

**Medical Care Benefits**
Workers’ Compensation provides all the medical care reasonably required to cure or relieve the effects of your work-related injury or illness. This includes payment of medical, hospital, and prescription bills. This also includes reimbursement of reasonable mileage and transportation expenses resulting from your medical care.

**Compensation Benefits**
Compensation benefits include Temporary Disability benefits and Permanent Disability benefits. Compensation benefits are non-taxable.

**Temporary Disability Benefits**
There are 3 temporary disability benefits available under Workers’ Compensation: Industrial Disability Leave (IDL), Enhanced Industrial Disability Leave (EIDL), and Temporary Disability Leave (TD). Each benefit is designed to provide you with wage loss assistance, in the event that your doctor releases you from work due to your work-related injury or illness. You may also receive a temporary disability benefit if your doctor places you on restricted duty, due to your work-related injury or illness, and the University does not have temporary transitional work available for you at that time.

 Normally, there is a 3-day waiting period (including weekends) prior to the start of temporary disability benefits. This waiting period is waived if you are hospitalized as an in-patient, injured in a criminal act of violence, or disabled more than 14 calendar days.

Unless otherwise noted below, temporary disability benefits normally continue until one of the following events occurs:

- Your doctor releases you to return to your usual job (whether or not you actually return to work)
- You return to temporary transitional work, permanent modified work; or permanent alternative work with your doctor’s approval
- Your doctor determines that your medical condition is permanent and stationary or that you are permanently unable to work.

Octagon will notify you if you are eligible to receive temporary disability benefits. Although you may be eligible to receive more than one type of temporary disability benefit, you may only receive one type of temporary disability benefit at a time. You must notify the Office of Risk Management of your benefit selection within 15 days of the date that Octagon notifies you of your eligibility to receive temporary disability benefits. If you are eligible for IDL benefits (or EIDL benefits for unit 8 employees) and you do not notify the Office of Risk Management of your temporary disability benefit selection within 15 days, you will be automatically placed on IDL (or EIDL for unit 8 employees).

You may request a change in temporary disability benefits at any time during the first 90 calendar days that you are off work. This change is a one-time opportunity and becomes effective on the 90th calendar day of absence.

**Industrial Disability Leave (IDL)**
You must be an active member of the California Public Employees’ Retirement System (CalPERS) or State Teachers’ Retirement System (STRS) to be eligible to receive IDL. If you are determined to be a “qualified
injured worker" and you are offered a reasonable vocational rehabilitation plan, you must agree to cooperate and participate in the plan when furnished by the CSU. IDL pays you your full net pay for your first 22 working dates of disability. Thereafter, you may receive 2/3 your gross pay for up to 11 months of disability, as long as your absences occur within 2 years of your date of injury or your first date of disability. While you are paid IDL, your normal CalPERS/STRS retirement contributions and voluntary deductions such as health, dental, and vision plans continue. You continue to accrue sick leave and vacation credits. IDL is paid to you monthly by the University.

**Enhanced Industrial Disability Leave (EIDL)**

You must be an active member of CalPERS and a member of CSU bargaining unit 8 to be eligible to receive EIDL. If you are determined to be a "qualified injured worker" and you are offered a reasonable vocational rehabilitation plan, you must agree to cooperate and participate in the plan when furnished by the CSU. The EIDL benefit does not apply to presumptive, stress-related disabilities, any psychiatric disability, or any physical disability arising from a psychiatric injury.

EIDL pays you your full net pay for up to 1 year of disability, as long as your absences occur within 1 year of your date of injury. While you are paid EIDL, your normal CalPERS retirement contributions and voluntary deductions such as health, dental, and vision plans continue. You continue to accrue sick leave and vacation credits. EIDL is paid to you monthly by the University.

**Temporary Disability Leave (TD)**

Anyone who is eligible to receive a temporary disability benefit may elect to receive TD. The amount that TD pays you is based upon California law and is determined by the date of your injury. The rate is normally 2/3 your average weekly wage with a minimum of $128.00 per week (or your actual weekly wage if that is less than $128.00) and a maximum of $602.00 per week, for injuries or illnesses that occur on or after January 1, 2003. Octagon pays TD to you, every 2 weeks. You continue to accrue sick leave and vacation credits. No retirement contributions or voluntary deductions occur. You may elect to continue your health, dental, and/or vision plans by directly paying for them yourself. For more information regarding direct pay, contact the Benefits Division of the Human Resources Department at (415) 338-2683.

**IDL and TD Supplementation Options**

**IDL Supplementation**

If you receive IDL at the 2/3 gross-pay rate, you may supplement your IDL payments with your sick leave credits, in order to receive your full net pay. To supplement IDL payments, you must have sufficient sick leave credits to increase your IDL payment to an amount equal to your regular daily salary or wage. IDL supplementation is generally limited to the use of sick leave credits that you accrued as of the date of your injury or illness or as of the first date of your IDL leave. IDL supplementation payments are taxable. You must notify the Office of Risk Management, of your desire to receive IDL supplementation, within 15 calendar days of the mailing of the notice of your temporary disability benefit eligibility by Octagon. The University pays IDL supplementation to you monthly.

**TD Supplementation**

If you receive TD, you may supplement your TD payments with your sick, vacation and/or CTO leave credits, to increase your TD payments. In addition, any applicable holiday(s) that fall within the pay period and personal holiday can also be used to supplement. You may increase your TD payments up to any amount equal or less than your full net pay. TD supplementation is generally limited to the use of leave credits that you accrued as of the date of your injury or illness or as of the first date of your TD leave.

If you supplement your TD payments, your retirement contributions will continue. If your TD supplementation amount is sufficient, your voluntary deductions including health, dental, and vision plans will continue. TD supplementation payments are taxable. The University pays TD supplementation to you monthly.
Permanent Disability Benefits
Most people fully recover from their work injuries and illnesses. However, if your doctor determines that you will not recover completely and that you have reached a point where your condition is permanent and stationary, you may be eligible to receive permanent disability benefits. Permanent disability benefits are designed to compensate you for limitations in your ability to work in the future.

Vocational Rehabilitation Benefits
If you are unable to return to your job due to your work injury or illness, you may qualify for vocational rehabilitation benefits. Your vocational rehabilitation plan may include: modification of your current job, alternative employment at the University, educational/job retraining programs, and/or job placement assistance.

Death Benefits
Your surviving dependents are eligible to receive a death benefit if your work injury or illness results in your death. The amount of the death benefit depends upon the number of dependents eligible to receive the benefit.

The role of a peace officer is a unique one in society and, as such, some limitations and restrictions regarding off-duty activities apply to those who hold that position. Because peace officers are required to be objective and impartial when carrying out their responsibilities, and rely exclusively upon facts and information provided to them, it is imperative that there not even appear to be a conflict of interest on the part of those officers. Therefore, recognizing that many peace officers wish to engage in outside employment in order to augment their income.

Since respect for law enforcement officers is paramount to their ability to perform their job, engaging in outside employment which would bring discredit, disrespect or embarrassment to that officer and/or his or her agency would be considered incompatible and in conflict with the officer’s primary role as peace officer. Government Code §1126 sets forth factors which, in and of themselves, create conflicts of interest. The Attorney General of California has opined that these are examples and not to be construed as a complete list. Additionally, the legislature recently (1996) required all agencies to articulate in its outside employment/conflict of interest policy those positions deemed incompatible and therefore, not permitted.

If the situation arises in the future, a determination of whether outside employment constitutes a conflict of interest will be based upon the criteria set forth in paragraph A. Whether the outside employment brings discredit or disrepute upon this organization will also be considered when reaching such a decision.

I. Outside employment is in conflict if it could bring discredit or disrepute upon the CSU Police Departments:

A. Involves the use for private gain or advantage of the agency’s time, facilities, equipment and supplies, (unlawful activity under Government Code Section 8314) or the badge, uniform prestige or influence of his or her status as a peace officer, or;

B. Involves receipt or acceptance by the officer or employee of any money or other consideration from anyone other than his or her agency for the performance of an act which the officer, if not performing such act, would be required or expected to render in the regular course of his or her agency’s employment or as a part of his or her duties as an agency officer, or;

C. Involves the performance of an act in other than his or her capacity as a agency officer which act may later be subject directly or indirectly to the control,
inspection, review, audit, or enforcement of any other officer of the agency by which he or she is employed, or;

D. Involves such time demands as would render performance of his or her duties as an officer less efficient.

II. **Examples of outside employment which are conflicts of interest include, but are not limited to:**

A. Security Guard
B. Private investigator
C. Bartender
D. Bouncer
E. Sales clerk position in a liquor store, or gun dealership
F. Process server
G. Repossessor.
H. Debt collector
I. Legal practice of criminal defense.
J. Card dealer, handicapper, change maker, caller, machine repair person, keno runner, pit boss, table waitress, or employment in any gaming establishment where the employment is directly related to the primary purpose of the employer.
K. Bodyguard
L. Employment as a “keeper” (attendant, guard or warden)
M. Funeral escort where traffic control or the wearing of a uniform, which resembles that of a peace Officer is required.

Employees who do not receive prior approval to engage in outside employment, or accept employment prior to receiving permission to do so, or who engage in any outside employment listed herein or determined to be a conflict of interest under this policy, may be subject to disciplinary action.

III. **Unit 8 Collective Bargaining Agreement**

A. Employees shall give prior written notification to the Chief of Police of any outside employment. Such notification shall contain the name of the employer, the nature of employment participated in, and the number and scheduling of hours involved. When the Chief of Police determines that the employment can reasonably be expected to adversely affect the employee’s work performance and/or would be
inconsistent with the accepted image of a University police officer, then he/she may direct the employee not to engage in such outside employment.

B. All employees engaged in outside employment upon the effective date of this Agreement shall, within two (2) weeks of such date, comply with the notice provisions of this Article.

IV. Appeal Process

A. Any employee who has been denied the right to engage in outside employment based on the determination that his or her secondary employment falls within the prohibitions outlined in this policy may, within five days from the date of notification of the denial to engage in outside employment, file a written appeal to the Chief of Police.

SUBJECT: Denial or Revocation of Retired Peace Officer's Privilege to Carry a Concealed Weapon - Delegation of Authority
Executive Order Number 873

Attached is a copy of Executive Order No. 873 relating to delegating authority to you to deny or revoke, for good cause, a retired CSU Peace Officer's privilege to carry a concealed weapon.

The authority for retired peace officers to carry concealed weapons is found in the California Penal Code, Section 12027. The amended statute gives honorably retired peace officers the privilege to carry a weapon.

The agency from which a peace officer is honorably retired may, upon initial retirement, or at any time subsequent thereto, deny or revoke, for good cause, the retired officer's privilege to carry a weapon as provided in California Penal Code, Section 12027.1.

The legislation in this area has been substantially amended and now requires that in the event of an appeal, an appeal hearing must be conducted before a three-member hearing board. One member of the board shall be selected by the agency, and one member selected by the retired peace officer or his/her employee organization and a third member selected jointly by the two parties.

You should note that only you, as the delegee of the employing agency, and not the chief, has the authority to deny or revoke the officer's statutory privilege under Section 12027.1. However, your chief of police is in the best position to know whether a particular retired officer should, for some reason, be denied the privilege.

Section 1 and 2 of Chapter III of the Standing Orders of the Board of Trustees delegates authority to the Chancellor sufficient to include this action. The attached Executive Order No. 873 further delegates this authority to the campus presidents.

In accordance with policy of the California State University, the campus president has the responsibility for implementing executive orders where applicable and for maintaining the campus repository and index for all executive orders.

Executive Order: 873

Title: Denial or Revocation of a Retired Peace Officer's Privilege to Carry A Concealed Weapon - Delegation of Authority

Effective Date: July 14, 2003

Supersedes: Executive Order No. 517

This executive order is issued pursuant to Sections 1 and 2 of Chapter III of the Standing Orders of the Board of Trustees of The California State University and by virtue of California Penal Code Sections 12027 and 12027.1.

1. Authority is hereby delegated to each president of a campus of The California State University to deny or revoke, for good cause, a retired California State University peace officer's privilege to carry a concealed weapon as provided in the California Penal Code, Sections 12027 and 12027.1.

2. Each campus must comply with California Penal Code Sections 12027 and 12027.1 in the issuance, denial, or revocation of a retired officer's privilege to carry a concealed weapon. Each campus shall issue its retired identification card to the retiree and keep appropriate documentation on each retiree. Each peace officer who retires after January 1, 1981 must petition for renewal of the card every five years.

3. Should a retiree initially be issued a restricted identification card or subsequently have the concealed weapons privilege revoked, the retiree may appeal the denial or revocation by submitting a request and reasons for such an appeal, in writing, directly to the campus. The hearing must be conducted in accordance with Penal Code Section 12027.1 (d). The decision of a three-member board is final and considered binding on the retiree and the agency.

4. A retired officer may have his or her privilege to carry a concealed and loaded firearm revoked or denied by violating any departmental rule, or state or federal law that, if violated by an officer on active duty, would result in that officer's arrest, suspension, or removal from the agency.

HR 2003-11, Emergency Police Vehicle Use
Systemwide Police Guidelines

This executive order is issued pursuant to authority of Sections 1 and 2 of Chapter III of the Standing Orders of the Board of Trustees of the California State University and is a statement of policy that police services and public safety are an integral function throughout the CSU system.

I. Campus Police Policies and Manuals

The President is delegated responsibility for the implementing and maintaining a campus public safety policy and procedure manual to ensure the safety of the campus employees, students and visitors. The manual must conform to industry standadgs (i.e., must be consistent with standards established by the Commission on Accreditation for Law Enforcement Agencies, Inc. and/or International Association of Campus Law Enforcement Administrators) and include minimum standards established by the Assistant Vice Chancellor for Risk Management and Public Safety. Campus police departments maintain and update the manual annually.

II. Systemwide Risk Management

The Assistant Vice Chancellor for Risk Management and Public Safety is delegated systemwide administrative oversight and programmatic responsibility for all police services.
A. Systemwide Public Safety Programmatic Responsibilities - The Assistant Vice Chancellor for Risk Management and Public Safety is responsible for development and implementation of systemwide public safety programs including policies and procedures. The Systemwide Office of Risk Management and Public Safety provides guidance to campuses on a variety of sensitive matters including, but not limited to investigations and law enforcement matters that pose potential liability exposures and public safety concerns to the CSU.

B. Critical Response Unit - The Assistant Vice Chancellor for Risk Management and Public Safety is responsible for forming a Critical Response Unit, composed of police personnel from CSU campus Police Departments. This Unit shall receive training conducive to their operational mission. Systemwide Risk Management and Public Safety will manage the CRU program and ensure that the CRU Operations Manual is current, appropriate to operational needs and reviewed at least annually.

C. Mutual Aide & Mutual Assistance
The Assistant Vice Chancellor for Risk Management and Public Safety shall ensure that each CSU Police Department has a policy that delineates the specific geographical boundaries of its jurisdiction as required by California Education Code section 89560.

The Assistant Vice Chancellor for Risk Management and Public Safety shall ensure that each CSU Police Department has agreements with neighboring agencies that specify the procedure for requesting mutual aid, and each respective agency’s responsibilities where there is concurrent jurisdiction, as required by the Kristin Smart Campus Safety Act of 1998, California Education Code section 67381.

D. Police Uniform and Equipment - The Assistant Vice Chancellor for Risk Management and Public Safety provides CSU police personnel with uniform and equipment requirements.

E. Monitoring and Compliance - The Assistant Vice Chancellor for Risk Management and Public Safety monitors and annually verifies updates of systemwide and campus operational policies and produce an annual “statement of accomplishment”.

III. Training
Police Chiefs must establish an annual training program for their department to ensure compliance with department operational policies and other CSU requirements. At a minimum these programs must cover following areas: use of force, weapon qualifications, active incidents/active shooter/rapid deployment response, and access to sensitive data. Additional training may be required to meet Peace Officer Standards and Training and/or accreditation standards. Nothing in this section is intended to prevent, as deemed necessary
by the Police Chief, additional training intervals or the inclusion of other policies to meet accreditation standards. Training records must list officers' names, date, signatures, pass or fail results and signature approval of the range master or other area specific certification/approval.

Subject: CSU Military Leave Policy Update

The Trustees adopted a resolution at the January 29-30, 2002, Board of Trustees’ meeting to amend Title 5 of the California Code of Regulations to place military leave in its own article and section. Section 43101 of Article 6 was repealed and Article 5.9 - Military Leave, Section 43095, of Subchapter 7, Chapter 1, Division 5 of Title 5 was added in its place. Additionally, the Trustee resolution granted the Chancellor authority to provide a “difference in pay” salary supplement to nonrepresented employees on active duty military leave. The CSU was notified that this Title 5 change was filed with the Secretary of State and is now effective.

Difference in Pay – Nonrepresented Employees
At this time, we are pleased to announce that the Chancellor is extending the “difference in pay” salary supplement for employees on active duty military leave to nonrepresented employees in the following employee categories: Executive (M98), Management Personnel Plan (M80), Confidential (C99), and Excluded (E99).

As a result, all nonrepresented employees who meet eligibility requirements for the current 30 calendar day entitlement provided under the Military and Veterans Code are eligible for the supplemental CSU “difference in pay” salary component and benefits as outlined in HR 2001-25, Supplement 2.

Indefinite and Temporary Military Leave – 30 Calendar Day Pay Entitlement
Please note that under Military and Veterans Code 395.03, CSU employees are eligible to receive up to 30 calendar days of CSU pay for any one military leave of absence during any one fiscal year. Since temporary and indefinite military leaves are separate entitlements, it is possible for a CSU employee to receive up to 30 calendar days in a fiscal year for taking a temporary leave and up to 30 calendar days in a fiscal year for taking an indefinite leave. But the law places a 30 calendar day maximum on each kind of military pay entitlement regardless of how many times a CSU employee may go out on leave during a fiscal year. Further, CSU employees on indefinite or temporary military leave do not receive an additional 30 calendar day pay entitlement with the start of a new fiscal year.

Emergency Military Leave – 30 Calendar Day Pay Entitlement
CSU employees currently on military leave pursuant to the proclamation signed by President Bush are entitled to receive 30 calendar days of CSU pay for each proclamation, regardless of the number. The current proclamation is in effect through September 13, 2003. Again, as a reminder, CSU employees on emergency military leave do not receive an additional 30 calendar day pay entitlement with the start of a new fiscal year.

Subject: CSU Military Leave Policy Update - Extension of “Difference in Pay” Program

At this time, we are pleased to announce that the Chancellor is extending the “difference in pay” CSU salary supplement program an additional 180 days for all eligible represented and nonrepresented employees on active duty military leave. Eligible employees called to active military duty during the current crisis are now eligible to receive up to 360 days of “difference in pay” CSU supplemental pay. Management Personnel Plan (MPP) Public Safety employees (e.g., Police Chiefs, Lieutenants) are responsible for the purchase and maintenance of uniforms required for employment. As such, they are provided with a uniform reimbursement allowance. This policy has been updated to clarify tax-withholding information.

MPP Public Safety employees who wear a uniform earn a uniform allowance of $57.00 per qualifying month of service, whether the uniform is worn full-time or part-time. This allowance falls under Non-Accountable Plan Procedures, as defined by the Internal Revenue Code. Per Non-Accountable Plan Procedures, employees are not required to supply supporting documentation (e.g., receipts, statements) to be reimbursed for uniform purchases.

The total annual uniform allowance earned by an employee is paid in a lump sum amount in October of each calendar year. Employees who have been employed on the campus for less than one (1) year (up to the October pay period) receive payment/reimbursement on a pro rata basis in October of that respective year.

Uniform allowance payments are taxable and reportable and subject to Medicare withholding (Public Safety employees do not participate in Social Security). These payments are not reported to CalPERS as compensation toward retirement. For campus convenience, current processing instructions for the MPP Uniform Allowance program are provided on Human Resources Salary Program Web site at: http://www.calstate.edu/HRAdm/SalaryProgram/MPP/index.shtml.

Questions regarding this memorandum may be directed to Human Resources Administration at (562) 951-4411. This document is available on Human Resources Administration’s Web site at: http://www.calstate.edu/HRAdm/memos.shtml.

FOREWORD

All law enforcement agencies must face and prepare for the possible line of duty death of an employee. During these difficult times, agencies have a responsibility to provide every possible means of assistance to their employees, their employees' families, and the law enforcement community. It is imperative that heads of agencies and their staff remain visible and available to assist; and, to that end, this handbook provides guidance and direction.

This handbook also offers a ready reference for management following a line of duty death. It aids the user in quickly gathering information, planning services, organizing events, and assisting the family and friends of the deceased employee. It is set up in chapter format, beginning with critical notification and continuing with less urgent topics.

The purpose of this handbook is not to replace existing manuals or policies. It was developed, with the assistance of the California Highway Patrol, as a general information base to assist departments in managing a line of duty death. The suggested procedures should not be considered as the "only way" or the "right way" nor should exclusions or edits from previous manuals be assumed the "wrong way." Some agencies may find portions of the information provided in this handbook inappropriate or unfeasible under the circumstances, in which case the material should be modified to meet the department's needs.

SUMMARY OF CONTENTS
PART I - NOTIFICATIONS

This chapter contains the following information on making notifications when managing a line of duty death:

- **Family members should be notified in a timely and sensitive manner** by a predesignated notification team. Team members may consist of agency individuals, a friend of the deceased, a chaplain, and/or a mental health professional (page 1-1).

  If the employee is not yet deceased, the following hospital duties should be considered:

  - **Agency transportation** to and from the hospital should be provided for the family (page 1-2).
  
  - **Assign a press officer** to manage the media, release appropriate information, and also shield the family (page 1-2).
  
  - **Arrange for the family to be met** by the ranking agency official (who should remain with the family and hospital staff and ensure that the family has the opportunity to see the officer if they wish) (page 1-3).
  
  - **Ensure that any medical bills are sent to the agency** (page 1-3).

The following checklists/worksheets (contained in this chapter) should be photocopied prior to being utilized:

- **Family Notification Guidance.** This list was created to ensure that critical, known facts about the incident are provided to the family, someone who knows the surviving spouse or significant other accompanies the notification team, and that clear, sensitive but factual words are used during the notification process (page 1-4).
- **Telephone Notification Checklist** will ensure that only designated information is released, that assigned personnel are given a specific list of employees to notify, as well as tracking those contacted in a log. Immediate notification should be made to a chaplain, mental health professional, and peer support personnel (page 1-7).

- **Pertinent Information** consisting of the employee’s personal information, employment history, military service, family (spouse, significant other, ex-spouse, children, siblings, parents) names and addresses, phone numbers, incident/funeral details, and releasable information (page 1-8).

- **Workers’ Compensation Notification Checklist** will ensure that the agency’s insurance carrier is notified during business hours, ideally within 24 hours (page 1-16).

- **Risk Management Notification Checklist** will ensure that agencies notify their risk management office, logging the date, time, and person notified (page 1-17).

- **Department of Industrial Relations, Division of Occupational Safety and Health On-Duty Death**. The nearest District Office shall be notified of any serious injury or illness, or death within eight hours (page 1-18).
NOTIFICATIONS

The death of a law enforcement member is both tragic and traumatic. The tragedy of the event can be mitigated through compassionate and efficient handling. The foundation for such actions must be built on having a plan of action that is known and accessible to all supervisory personnel. The following is meant to be a guideline for agencies from which to build their own specific plan.

a. Agency Notification. In the event of the death of an officer, the ranking on-duty officer (watch commander or field supervisor) should immediately notify the agency head (Chief, Sheriff, Director, etc.) The appropriate chain of command should be followed whenever possible unless circumstances are such that the agency head must be notified directly; if for example the media have obtained information or key personnel are not available.

(1) It is imperative that these notifications not be made via patrol vehicle radio unless absolutely unavoidable. In such cases, notification should be only that there has been a death without broadcasting names. This also applies to field units notifying on-duty command personnel.

(2) The field supervisor should gather as many facts as possible regarding the incident and location of the deceased to provide to the agency head for notification of family members.

b. Family Notification. This is the most critical area in helping to mitigate rather than escalate the trauma of the event. The agency may want to consider having a predesignated team to be utilized for notification purposes. Team members will vary by department and by the needs of each agency. The following individuals may be considered as appropriate personnel to be assigned as notification team members:

(1) Head of the agency (Chief, Sheriff, Director, etc.).
(2) Close friend of the deceased.
(3) Chaplain.
(4) Supportive peer.
(5) Predesignated department representative.
(6) Mental health professional.
c. While it is imperative that these individuals are assembled as soon as possible to notify the officer’s next of kin, it is far better to make timely notification with a partial team than to delay the notification by waiting for the entire team. Additionally, a large group may be intimidating and heighten the trauma of the situation for family members.

d. Some team members may need to be sent to other locations to notify relatives. Do not wait for the entire family to assemble. Start the notification process immediately.

e. If family members reside far from the agency, it may be necessary to request another agency assist in making the notification. When doing this, request that the assisting agency conform as much as possible to your own protocols and provide the agency with as much information about the incident as possible. Also, assure the agency and family that your department will be sending its own personnel as soon as feasible.

f. The notification team should also be prepared to assist with child care and, when appropriate, alternate housing. Additionally, the team should be prepared to furnish transportation if needed.

g. **Hospital Duties:**

1. Assign a press officer. This individual’s duties include not only managing the media and release of information, but shielding the family.

2. The ranking agency official at the hospital should meet with hospital staff to arrange for the appropriate reception of family members and a waiting facility for family and arriving officers.

3. If the officer is not yet deceased, the family should be allowed to visit him/her prior to death. It is not only their right, but it is psychologically beneficial for survivors to be able to do so. Whether the officer died at the scene or the hospital, immediate family members should be allowed to see him/her if they desire.

4. Agency transportation to the hospital should be provided to family members. While it is recommended that family members not drive themselves, some will wish to have their vehicle available. In that case, provide a driver to take them in their own vehicle. If transporting in a law enforcement vehicle,
avoid allowing family members to overhear radio transmissions. Transportation officer(s) should always notify the ranking agency official at the hospital prior to transporting family members.

(5) The ranking agency officer should update the family on the status of the officer and the incident as soon as they arrive at the hospital. The ranking officer should remain with the family the entire time at the hospital to provide whatever assistance is needed.

(6) A peer, mental health professional, and a chaplain should remain with the family the entire time at the hospital to provide whatever assistance is needed.

(7) The ranking officer should ensure that all medical bills are sent to the agency, not the family.

(8) Decisions should not be made for the family. Information and support should be provided to enable them to make the necessary decisions themselves.

h. The initial crisis and hospital scene can be very traumatic; however, remember that family care and needs do not end there. The family will continue to need support, guidance, and assistance.
FAMILY NOTIFICATION GUIDANCE

- Compile and verify all critical information and all known facts surrounding the incident.
- If the agency head does not personally know the surviving spouse or significant other, locate an individual who does to accompany the notification team when notification is made.
- Ensure the individual being notified is the appropriate person to receive the notification.
- Never go alone.
- Try to assess the stability of the person to whom the news must be broken. A mental health professional can assist.
- Use the employee’s first name during the notification.
- Release the message straight out using a direct approach.
- Console the best you can. Almost any response behavior is possible – anger, denial, even physical violence is possible. Some pass out, some become hysterical.
- Be empathetic, not sympathetic – feeling with the person is better than feeling sorry for them.
- Be specific and tactful. Do not use police jargon.
- Gradually increase the level of distressing information, according to your perception of the recipient’s tolerance.
- Be clear about the information, choosing sensitive but accurate words. If the employee has already died, relay that information. Do not give the family a false sense of hope.
- Whenever possible, honor the wishes of the family to view the body, go to the hospital, etc.

APPENDIX A

CALIFORNIA STATE UNIVERSITY
POLICE DEPARTMENTS
SYSTEMWIDE OPERATIONAL GUIDELINES
Chapter 20
OFF DUTY POLICE-RELATED INCIDENTS

Purpose: To define the department’s guidelines relating to the involvement of off-duty personnel in police-related incidents.

I. Compliance

A. The members of this department shall conduct themselves at all times in accordance with the laws of the State of California, the United States and any local jurisdictions as applicable.

B. Members shall conform to all other sections of the Systemwide Guidelines and Public Safety Policy Manual, which are applicable while personnel are off duty.

II. Reporting

In any criminal incident in the presence of an off-duty officer of this agency amounting to less than a serious life or health-threatening incident, personnel are encouraged to report the same to the agency having jurisdiction. In such incidents, the officer may serve as a reporting party, witness, or informant in the same manner as a private citizen.

III. Felonies

A. It is expected that sworn personnel, on or off duty, will take the appropriate police action, to the extent they are reasonably able, regarding any serious life or health threatening felony committed in their presence within the State of California.

B. In less serious felony incidents observed by an off-duty officer, reasonable efforts, given the circumstances of the particular situation, shall be undertaken to deal with the incident.
IV. Notification to Department of Officer Involvement in Other Types of Off-Duty Incidents

A. In any incident in which an officer takes any official police action while identifying himself or herself as a peace officer, that fact shall be reported, in a timely fashion, to the officer’s supervisor upon the officer’s return to duty.

B. When an officer discharges a firearm, whether or not in the course of taking police action (other than at the range), that fact will be immediately communicated to the on-duty supervisor and the Chief of Police.

C. If an officer engages in any off-duty incident of a police nature which results in the preparation of a written report by the agency having jurisdiction, the officer shall request that a copy of the report be forwarded to his/her Lieutenant, Captain or Chief of Police.

D. In addition to the above requirements, for any incident in which an off-duty officer makes an arrest, uses force of any type, or detains a suspect pending response of the agency, a written report will be prepared immediately by the officer.

From: Jackie R. McClain
Vice Chancellor
Human Resources

Subject: **CSU Police Personnel: Fitness for Duty**

The California State University (CSU) Police Personnel Fitness for Duty policy has been updated to clarify that both police chiefs and campus human resources directors coordinate fitness for duty tests, and that medical information maintained in the personnel file must be employment-related. For ease of reference, new text is underlined.

The CSU Police Personnel Fitness for Duty policy establishes procedures to ensure compliance with California Government Code §1031(f) which mandates that all peace officers in the State of California shall be found to be free from any physical, emotional, or mental condition that might adversely affect the exercise of the peace officer powers.

All supervisory police employees are to be trained to recognize any indication(s) that a sworn officer under their command may not be physically, emotionally and/or mentally fit to carry out his or her duties as an armed peace officer. Any supervisor observing any circumstance(s) indicating a question exists as to the physical, mental and/or emotional fitness of an officer is to prepare a written report indicating all such circumstances to the campus police chief. Such indications include, but are not limited to, the following:

- One or more civilian complaints, whether generated internally or externally, particularly complaints of the use of unnecessary or excessive force and/or inappropriate verbal conduct indicating a possible inability to exercise self-control and self-discipline;
- An abrupt change in customary behavior;
- Excessive lateness and/or absenteeism;
- Sleeping on duty;
- Overeating or failing to eat;

• Apparent inattention to personal hygiene;
• Inappropriate and/or excessive use of alcohol or other stimulants;
• Symptoms of use of drugs, including memory losses;
• Impatience or loss of temper;
• A pattern of conduct indicating a possible inability to defuse tense situations and/or a tendency to escalate such situations or to create and/or escalate confrontations;
• Irrational verbal or other conduct;
• Involvement in a shooting or involvement in an incident resulting in death or serious injury;
• Direct or indirect expressions by the officer of doubts concerning his or her own mental or emotional stability;
• Any other reason giving rise to a concern as to an officer’s fitness to occupy the position of peace officer.

If the police chief determines, in the exercise of his or her discretion, and after consultation with the human resource director or designee, that it is appropriate to refer an officer for examination and evaluation of the officer’s physical, mental, and/or emotional fitness-for-duty, the chief shall issue an order in writing to the police officer being referred. The order should indicate the date, time and place of such examination and, in brief form, the factual circumstances giving rise to the concern about the officer’s fitness for duty. Any physician or psychologist to whom an officer is ordered to report for fitness for duty examination and evaluation shall meet or exceed the minimum standards prescribed by California Government Code §1031(f). The campus police chief shall work with the campus human resources director to facilitate the appropriate process for examination and follow-up, as required.

The CSU police chief or human resources director, as appropriate, will provide the doctor the following in order to facilitate the physician’s or psychologist’s examination of the referred officer:

• Documents and information relating to circumstances giving rise to concern about the officer’s fitness for duty;
• Information or documents from the officer’s personnel records that may assist the doctor in conducting the examination and preparing an evaluation;
• Prior evaluations, if necessary;
• Employment-related medical information about the officer on file;
• Personal conversation with the physician or psychologist, if necessary;
• The officer’s position description.
The physician's or psychologist's evaluation report submitted to the police chief or human resources director concerning the officer's fitness for duty examination shall be part of the officer's personnel records and treated as confidential, under the provisions of California Penal Code §832.7 and 832.8. The report will be limited to notifying the department of the doctor's finding regarding the employee's fitness, fitness with restrictions, or lack of fitness without reference to any details unless the employee signs a waiver that additional information may be provided.

Any officer ordered to undergo a fitness for duty examination shall comply with the terms of the order and shall cooperate fully with the doctor and his or her staff with respect to any clinical interview conducted, any tests administered and any other procedures directed by the doctor. Any failure to comply with such an order and any failure to extend such cooperation may be deemed insubordination and be grounds for termination.

The campus president shall work with the Chancellor's Office Vice Chancellor of Human Resources on fitness for duty issues regarding a campus police chief.

Questions regarding this policy may be directed to the CSU Police Coordinator, General Counsel, or systemwide Human Resources, as appropriate. This document is available on Human Resources' Web site at http://www.calstate.edu/HRAdm/memos.shtml.

I. PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner.

II. DEFINITIONS

Definitions related to this policy include:

1. **Deadly force** - Force reasonably anticipated and intended to create a substantial likelihood of causing death or very serious injury.

2. **Force** - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed or restrained.

III. POLICY

A. Policy:

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.
Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.

B. Duty to Intercede:

Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force. An officer who observes another employee use force that exceeds the degree of force permitted by law should promptly report these observations to a supervisor.

IV. USE OF FORCE

A. Use of Force:

Officers shall use only that amount of reasonable force that appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter; officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

B. Use of Force to Effect an Arrest, Prevent Escape or Overcome Resistance:
Any peace officer who has reasonable cause to believe that the person to be arrested has committed a public offense may use reasonable force to effect the arrest, to prevent escape or to overcome resistance. A peace officer who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of the resistance or threatened resistance of the person being arrested; nor shall such officer be deemed the aggressor or lose his/her right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance (Penal Code § 835a).

C. Factors Used to Determine the Reasonableness of Force:

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include, but are not limited to:

1. Immediacy and severity of the threat to officers or others.
2. The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
3. Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
4. The effects of drugs or alcohol.
5. Subject’s mental state or capacity.
6. Proximity of weapons or dangerous improvised devices.
7. The degree to which the subject has been effectively restrained and his/her ability to resist despite being restrained.
8. The availability of other options and their possible effectiveness.
9. Seriousness of the suspected offense or reason for contact with the individual.
10. Training and experience of the officer.
11. Potential for injury to officers, suspects and others.
12. Whether the person appears to be resisting, attempting to evade arrest by flight or is attacking the officer.
13. The risk and reasonably foreseeable consequences of escape.
14. The apparent need for immediate control of the subject or a prompt resolution of the situation.
15. Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
16. Prior contacts with the subject or awareness of any propensity for violence.
17. Any other exigent circumstances.

D. Compliance Techniques:

Compliance techniques, including but not limited to pain compliance, may be effective in controlling a physically or actively resisting individual. Officers may only apply those compliance techniques for which they have successfully completed department-approved training. Officers utilizing any compliance technique should consider:

1. The degree to which the application of the technique may be controlled given the level of resistance.
2. Whether the person can comply with the direction or orders of the officer.
3. Whether the person has been given sufficient opportunity to comply.

The application of any compliance technique shall be discontinued once the officer determines that compliance has been achieved.

E. Carotid Control Hold:

Officers are prohibited from using the following control holds:

1. Carotid restraint;
2. Choke hold--choking by means of pressure to the subject’s trachea or other means that prevent breathing.

F. Authorized Weapons and Tools:

Only authorized weapons and tools may be carried.

All other weapons, including but not limited to, edged weapons, chemical or electronic weapons, impact weapons or any weapon prohibited or restricted by law or that is not covered elsewhere by department policy, may not be carried by personnel in the performance of their official duty without the express written authorization of the employee's Watch Commander. This exclusion does not apply to the carrying of a single folding pocketknife that is not otherwise prohibited by law.

V. DEADLY FORCE APPLICATIONS

A. Use of deadly force is justified in the following circumstances:

1. An officer may use deadly force to protect him/herself or others from what he/she reasonably believes would be an imminent threat of death or serious bodily injury.
2. An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the person has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the subject is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes any of the following:

a. The person has a weapon or is attempting to access one and it is reasonable to believe the person intends to use it against the officer or another.
b. The person is capable of causing serious bodily injury or death without a weapon and it is reasonable to believe the person intends to do so.
B. Shooting at or from a Moving Vehicles:

Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Generally, officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

VI. REPORTING THE USE OF FORCE

A. Reporting:

Any use of force by a member of this department shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure or law.

B. Notification to Supervisors:

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

1. The application caused a visible injury.
2. The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
3. The individual subjected to the force complained of injury or continuing pain.
4. The individual indicates intent to pursue litigation.
5. Any application of a TASER device or control device.
6. Any application of a restraint device other than handcuffs, shackles or belly chains.
7. The individual subjected to the force was rendered unconscious.
8. An individual was struck or kicked.
9. An individual alleges any of the above has occurred.

C. Reporting to California Department of Justice

The Records Specialist or the authorized designee shall ensure that data required by the Department of Justice (DOJ) regarding all officer-involved shootings and incidents involving use of force resulting in serious bodily injury is collected and forwarded to the DOJ as required by Government Code § 12525.2.

VII. MEDICAL CONSIDERATION
Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, who has sustained visible injury, expresses a complaint of injury or continuing pain, or who was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.

Based upon the officer’s initial assessment of the nature and extent of the subject’s injuries, medical assistance may consist of examination by fire personnel, paramedics, hospital staff or medical staff at the jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called “excited delirium”), or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away if appropriate.

VIII. RESPONSIBILITIES

A. Supervisor Responsibility:

When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

1. Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
2. Ensure that any injured parties are examined and treated.
3. When possible, separately obtain a recorded interview with the subject upon whom force was applied. If this interview is conducted without the person having voluntarily waived his/her Miranda rights, the following shall apply:

   a. The content of the interview should not be summarized or included in any related criminal charges.
   b. The fact that a recorded interview was conducted should be documented in a property or other report.
   c. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
4. Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas. These photographs should be retained until all potential for civil litigation has expired.

5. Identify any witnesses not already included in related reports.

6. Review and approve all related reports.

7. Determine if there is any indication that the subject may pursue civil litigation.

   a. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.

8. Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy non-compliance or if for any reason further investigation may be appropriate.

9. Notify the Watch Commander

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

B. Watch Commander Responsibility:

   The Watch Commander shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

IX. TRAINING

   Officers will receive periodic training on this policy and demonstrate their knowledge and understanding.

I. PURPOSE: The purpose of this order is to specify legal and constitutional requirements interview and interrogation, search and seizure, and use of discretion by sworn officers to insure that the rights of all individuals are protected.

II. POLICY: It shall be the policy of this department to require employees to comply with all federal, state and local requirements, which provide for the protection of individual rights. These requirements are contained in this Order and in the California Peace Officers Legal Source Book, which is located in the Squad Room on each computer.

III. DEFINITIONS: Specified in sections as pertinent to topic.

IV. PROCEDURES:

A. Search and Seizure:

1. Plain View

   a. Objects in plain view of an officer can provide probable cause to obtain a warrant or to seize items of evidentiary value. For plain view to not be a search:

      1) The officer must be in a place where he/she has a right to be;
      2) The item to be seized was inadvertently viewed and no type of prying quest was made; and
      3) The item was immediately recognized as evidence, contraband, or a weapon.

   b. Items in plain view may be seized without a warrant if they are in an area the officer may legally enter.

   c. Items in plain view, but not in an area an officer can legally enter, can serve as probable cause for a search warrant. The scene shall be protected until a search warrant can be obtained.
2. Searches Conducted Pursuant to a Warrant

a. To obtain a search warrant, an officer must submit an affidavit swearing that they have probable cause to believe that property connected to a crime is in the place they seek to search.

b. The affidavit should contain sufficient facts to establish probable cause that:

1) A crime was, is being or is about to be committed.
2) That the property named in the search warrant application is connected to the crime.
3) That the property named in the search warrant application is in the place to be searched at the present time.

c. The warrant must particularly describe the items sought, the location, vehicle, or person to be searched and must list the statutory grounds for issuing the warrant.

d. An officer serving the warrant must announce his presence, identify himself as an officer, state his purpose and demand entry before forcibly entering a private dwelling.

e. A copy of the warrant must be provided to the subject of the warrant upon service.

f. The warrant must be executed and returned to the court within 10 days from issuance, along with a written inventory of all property seized, unless specified otherwise by the issuing judge. (Penal Code Section 1534)

g. Valid search warrants for off campus establishments/residents shall only be searched upon permission from the President.

h. The local police department in the jurisdiction where the house/establishment is located must be contacted and prior arrangements must be made for their assistance.

3. Warrant Exceptions – There are five legal exceptions to the warrant requirement.

a. Search by voluntary consent;

b. Search incident to a lawful arrest;

c. Search in an emergency where probable cause exists and there is not time to obtain a warrant;

d. Investigative stop and frisk; and

e. Inventories of vehicles being impounded.

4. Search by Consent

a. A search that is based on proper consent, that is freely given, not coerced, or given under duress, either expressed or implied.

b. The person giving the consent must have the authority to do so. A valid consent to a search can only be given by a person who has a valid right to do so and can only transfer property rights that he/she actually has.

c. When two or more people have equal right of access to property/premises, a consent search may be given by any such person and the search and any evidence seized will usually be valid against all occupants.
d. Consent must be clear, explicit, and in writing, whenever possible.
e. When consent is revoked prior to completion of a search, evidence recovered
prior to the revocation may be used to establish probable cause for a search
warrant or for an arrest and subsequent search incident to arrest.
f. When attempting to obtain a consent to search homes, rooms or work spaces with
consent, officers must have the individual providing consent sign the department
approved consent to search form.

   1) If an individual refuses to sign the form, a search shall not be conducted
   without other legal means such as a warrant etc.

5. Stop and Frisk Searches (Pat Down Searches)

a. The United States Supreme Court decided in Terry v. Ohio U.S. 1, (1968) that a
police officer may briefly detain a person to determine proper identity and conduct
an investigation based on the officers reasonable suspicion the person(s) may be
involved in criminal activity. The person(s) may be searched using the “stop and
frisk” principle where the officer can articulate suspicion that the person(s) are
armed. The officer may conduct a pat down of the outer clothing for weapons.
b. Pat Down Searches are authorized in the following situations:

   1) When the officer has observed suspicious activity on the part of the suspect,
      which gives him/her cause to believe the suspect, is armed.
   2) Only as a search for weapons.
   3) When the officer has received a warning that a suspect might be armed from a
      reliable informant known to the officer.

6. Field Searches (Search of an Individual Subsequent to a Lawful Arrest).

a. A Field Search shall be utilized when:

   1) The search is based upon a properly issued warrant.
   2) The search is connected to a lawful arrest and the prisoner is to be
      transported.
   3) The officer has probable cause to search for weapons.
   4) It is necessary to confiscate items of evidence, [i.e., stolen property, narcotics,
      items related to a crime for which the arrest is being effected].
   5) It is believed the prisoner has in his/her possession object(s), which may be
      utilized as a means of escape [i.e. a handcuff key].

b. A Field Search shall be conducted as follows:

   1) Complete preliminary pat search or frisk search.
   2) Work from top to bottom, checking the prisoner’s hat, hair, and any objects
      worn in or on the head. Run fingers through the prisoner’s hair, if necessary, to
      insure safety. Remove sharp objects, which could become weapons.
   3) Check the rib cage and back area by patting.
4) Run thumbs along the prisoner's waistband. Unbuckle the prisoner's belt and check for small weapons and contraband.
5) The prisoner should next be instructed to raise his/her arms to expose armpits and pat the area.
6) Check wristwatches, jewelry, and gloves for concealed weapons or contraband.
7) Check shoes and handbags. Do not hesitate to have the prisoner remove boots, spike heels or similar apparel.
8) The prisoner shall not be allowed to leave the officer's presence under any circumstances until the search has been completed.

7. Search of a Vehicle

a. The courts have distinguished between warrant-less searches of motor vehicles and buildings.

1) The distinction comes from the ease in moving or hiding a motor vehicle or trailer before a police officer can obtain a search warrant.
2) Lesser privacy interests are vested in motor vehicles.

b. Warrant-less searches of motor vehicles, based on probable cause, that the vehicle contains contraband or evidence of a crime have been upheld by the courts.

1) Any or part of the motor vehicle capable of holding an item may be searched.
2) When the probable cause is based on what is inside a closed container and not to the motor vehicle in general, the container should be seized and a search warrant obtained for the container.

8. Searches at the Scene of a Crime

a. Incidental to an arrest the suspect and the areas in the suspect's immediate control may be searched. The purpose of these searches is to protect the officer (by locating weapons) and to prevent the destruction of evidence or contraband.

b. The United States Supreme Court decided in Mincey v. Arizona, 437 U.S. 385 (1978), that in the absence of exigent circumstances or consent, police officers are required by the fourth amendment to obtain a search warrant before a thorough search of any crime scene can be conducted, unless the scene is a public place or another exception to requiring a search warrant exists.

c. A police officer can without a search warrant secure a crime scene, search the area for victims or perpetrators and seize evidence, which if not seized, may be lost or destroyed, removed or is within plain view.

9. Exigent Circumstances (Emergency Searches)

a. An officer may enter an area where there is an expectation of privacy for the purpose of protecting life, health or property. The necessity to enter must involve
a substantial and immediate threat to life, health or property or in the fresh pursuit
of a criminal suspect.
b. Once the emergency abates, a warrant is required.
c. An officer cannot create the exigent circumstances.

10. Inventory Searches

a. Inventory searches have been allowed for a threefold purpose:
   1) To protect the defendant’s property.
   2) To safeguard the police from claims of lost property.
   3) To protect police from potentially dangerous items located inside vehicles such
      as: explosives, dangerous chemicals, and/or weapons.

b. All impounded vehicles will be inventoried

c. Property located in the vehicle that does not have an evidentiary value or an
obvious high dollar value needing additional security should be left in the vehicle.
Items of evidence will be processed in the Department’s Evidence System
and items of high dollar value will be taken for safekeeping and placed into the
Department Property System.

d. When sworn personnel are faced with a situation where discretion can be
exercised, they shall carefully evaluate the circumstances and consider the
following areas:
   1) Federal, State and local statues
   2) Case law
   3) Department policies and procedures
   4) Training
   5) Consultation with a supervisor if further clarification is needed.

11. Strip Searches and Body Cavity Searches (Penal Code Section 4030).

a. No strip search or visual body cavity search may be conducted without prior
written authorization of the supervising officer on duty. The authorization shall
include the specific and articulable facts and circumstances upon which the
reasonable suspicion determination was made by the supervisor.
b. When a person is arrested and taken into custody, that person may be subjected
to pat down searches, metal detector searches, and thorough clothing searches in
order to discover and retrieve concealed weapons and contraband prior to being
placed in a booking cell.
c. No person arrested and held in custody on a misdemeanor or infraction offense,
except those involving weapons, controlled substances or violence shall be
subjected to a strip search or a visual body cavity search, unless a police officer
has determined there is reasonable suspicion to based on specific articulable
facts to believe such person is concealing a weapon, or contraband, and a strip
search will result in the discovery of the weapon or contraband.
d. Physical body cavity searches are not permitted except under authority of a
search warrant issued by a magistrate specifically authorizing the physical body cavity search.
e. If authorized, strip searches and visual body cavity searches will be conducted by officers who are the same sex as the arrestee, and should normally be conducted by two officers. These searches will be conducted in an area of privacy so that the search cannot be observed by individuals not involved in the search.
f. All searches will be documented in the arrest report and will include the time, date and place of the search, the name and sex of the person conducting the search, and a statement of the results of the search, including a list of items removed from the person searched.

12. Resident Halls and Other Institutional Property Searches

a. The search and seizure policy and procedures for private residential hall locations/facilities (e.g., dorm rooms, apartments, and other private living spaces) and private office locations (i.e., locations deemed as having an expectation of privacy such as lockers, locked drawers, and password protected computers) are the same as those mentioned in Section IV.A of this policy. Searches of publicly-accessible areas of the residence halls and institutional property are not protected by federal or state search and seizure laws, nor university policies. They do however remain non-exempt from search warrant requirements. Searches of faculty/staff office space controlled by the institution wherein no expectation of privacy exists, requires approval from the Chief of Police or her/his designee, unless under exigent circumstances for the protection of life and/or property.

13. Receipts for Evidence Collected

a. Receipts must be prepared for all evidence seized during a search.
b. Penal Code Section 1535 states that when an officer takes property, he/she must give a receipt for the property taken (specifying in detail) to the person from whom it was taken, or in whose possession it was found; or in the absence of any person, he must leave it in the place where the property was found.

B. Interviews and Interrogation:

1. Definitions

a. Interview: A meeting for obtaining information by questioning a person. The goal of an interview is to develop information, build rapport and detect deception.
b. Interrogation: A focused formal examination of a person by questioning. The goal of an interrogation is a confession.
c. Custodial Interrogation: The questioning initiated by law enforcement officers after a person has been taken into custody or otherwise deprived of his freedom of action in any significant way.

2. Miranda
a. The “Miranda” decision requiring police to advise an individual of his rights only applies to a situation in which the person is in custody and is being interrogated.
b. Since both factors must be present to trigger “Miranda”, a person who is in custody but not being interrogated need not be advised of his rights.
c. A person who is being interrogated, but is not in custody need not be advised of the warnings prior to being questioned.
d. All juveniles must be advised of their rights whether or not they are going to be questioned (interrogated). The law, however, does not require that they be advised of their rights immediately upon arrest, as long as the advisement is provided sometime during their custody and/or before any questioning.
e. A field interview occurs when an Officer speaks to a citizen based on a reasonable belief that some investigative inquiry is warranted; yet not having reasonable suspicion to detain the subject. Neither reasonable suspicion nor probable cause is necessary for a field interview.

3. Access to Counsel

a. When a suspect invokes his right to remain silent, or his right to have counsel present during custodial interrogation, the police must immediately cease their questioning.
b. If the suspect in anyway indicates a desire to have an attorney present during questioning, the police must honor his request and may not at a later time reinitiate interrogation of the suspect without an attorney present, whether or not the suspect has consulted with his attorney during the interim.
c. Penal Code Section 825(b) states that after the arrest, any attorney at law entitled to practice in the courts of record of California may at the request of the prisoner, or any relative of the prisoner, visit the person so arrested.

C. Access to Telephone Calls:

1. Penal Code Section 851.5(a) states that immediately upon being booked, and no later than three hours after arrest, an arrested person has the right to make at least three completed telephone calls.
2. These calls are to be made at no expense to the suspect.
3. At least one of these calls may be made to an attorney of their choice, or if they have no funds, to the public defender.
4. These calls are not to be monitored, eavesdropped upon, or recorded.

D. Use of Discretion by Sworn Officers:

1. Discretion: Discretion is defined as the freedom or authority to make decisions and choices. Authority is defined as the power to enforce laws.
2. Discretion is not limited to what is authorized or what is legal, but includes all that is within the limits of the officer’s authority.
3. The quality of police services depends upon the manner in which discretion is exercised. It is the policy of this Department that sworn officers should always seek to exercise that degree of authority, which results in the least intrusive action into the
lives of members of the community.

4. When sworn personnel are faced with a situation where discretion can be exercised, they shall carefully evaluate the circumstances and consider the following areas:

   a. Federal, State, and Local statutes.
   b. Case law.
   c. Department policies and procedures.
   d. Training
   e. Consultation with a supervisor if further clarification is needed.

5. A sworn officer exercising discretion must carefully evaluate the circumstances. For example:

   a. In a misdemeanor crime situation the use of discretion is sharply limited. An arrest for a misdemeanor can only be made without a warrant:

      1) Whenever the officer has reasonable cause to believe that a person has committed a public offense in his/ her presence;
      2) When a person is under the age of 18 and the officer has reasonable cause to believe the minor is a person described in Section 600, 601, and 602 of the California Welfare and Institution Code. (See Penal Code Section 836 and Welfare and Institutions Code Section 625).

   b. In the investigation of a felony, greater degree of discretionary judgment is permitted. An arrest for a felony can be made without a warrant:

      1) When a person has committed a felony, although not in the officers presence;
      2) Whenever the officer has reasonable cause to believe the person to be arrested has committed a felony, whether or not the felony has in fact been committed.

A. Purpose and Scope:

This policy provides guidance to police department members that affirms the Department's commitment to policing that is fair and objective.

Nothing in this policy prohibits the use of specified characteristics in law enforcement activities designed to strengthen the police department's relationship with its diverse communities (e.g., cultural and ethnicity awareness training, youth programs, community group outreach, partnerships).

B. Definitions:

Definitions related to this policy include:

*Bias-based policing* - An inappropriate reliance on characteristics such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability or affiliation with any non-criminal group (protected characteristics) as the basis for providing differing law enforcement service or enforcement (Penal Code § 13519.4).

II. POLICY

The Department is committed to providing law enforcement services to the community with due regard for the racial, cultural or other differences of those served. It is the policy of this Department to provide law enforcement services and to enforce the law equally, fairly, objectively and without discrimination toward any individual or group.

III. BIAS-BASED POLICING PROHIBITED
A. Bias-Based Policing:

Bias-based policing is strictly prohibited.

However, nothing in this policy is intended to prohibit an officer from considering protected characteristics in combination with credible, timely and distinct information connecting a person or people of a specific characteristic to a specific unlawful incident, or to specific unlawful incidents, specific criminal patterns or specific schemes.

B. California Religious Freedom Act

Members shall not collect information from a person based on religious belief, practice, affiliation, national origin or ethnicity unless permitted under state or federal law (Government Code § 8310.3).

Members shall not assist federal government authorities (Government Code § 8310.3):

1. In compiling personal information about a person’s religious belief, practice, affiliation, national origin or ethnicity.

B. Officers contacting a person shall be prepared to articulate sufficient reason for the contact.

To the extent that written documentation would otherwise be completed (e.g., arrest report, field interview (FI) card), the involved officer should include those facts giving rise to the contact, as applicable.

Except for required data-collection forms or methods, nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

C. Unless an exception applies under 11 CCR 999.227, an officer conducting a stop of a person shall collect the data elements required by 11 CCR 999.226 for every person stopped and prepare a stop data report. When multiple officers conduct a stop, the officer with the highest level of engagement with the person shall collect the data elements and prepare the report (11 CCR 999.227).
If multiple agencies are involved in a stop and the Department is the primary agency, the Department's officer shall collect the data elements and prepare the stop data report (11 CCR 999.227).

The stop data report should be completed by the end of the officer’s shift or as soon as practicable (11 CCR 999.227).

V. ADMINISTRATION

Each year, the Division Head should review the efforts of the Department to provide fair and objective policing and submit an overview, including public concerns and complaints, to the Chief of Police.

This report should not contain any identifying information about any specific complaint, member of the public or officers. It should be reviewed by the Chief of Police to identify any changes in training or operations that should be made to improve service.

Supervisors should review the report and discuss the results with those they are assigned to supervise.

VI. TRAINING

Training on fair and objective policing and review of this policy should be conducted as directed by the Training Division.

1. All sworn members of this Department will be scheduled to attend Peace Officer Standards and Training (POST)-approved training on the subject of bias-based policing.

2. Pending participation in such POST-approved training and at all times, all members of this Department are encouraged to familiarize themselves with and consider racial and cultural differences among members of this community.

3. Each sworn member of this Department who received initial bias-based policing training will thereafter be required to complete an approved refresher course every five years, or sooner if deemed necessary, in order to keep current with changing racial, identity and cultural trends (Penal Code § 13519.4(i)).

VII. REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE

The Internal Affairs Unit and the Records Specialist or authorized designee shall ensure that all data required by the California Department of Justice (DOJ) regarding complaints of racial bias against officers is collected and reported annually to the DOJ (Penal Code § 13012; Penal Code § 13020).

Supervisors should ensure that data stop reports are provided to the Records Specialist or authorized designee for required annual reporting to the DOJ (Government Code § 12525.5).

c. The officer has probable cause to believe that the person to be arrested has committed a felony, whether or not a felony, in fact, has been committed.

2. P.C. 849(a) states that when an arrest is made without a warrant by a peace officer or private person, the person arrested, if not otherwise released shall, without unnecessary delay, be taken before the nearest or most accessible magistrate, and a complaint stating the charge against the arrested person shall be laid before such magistrate. Officers, who are physically present at the time an allegation is presented that a crime has been committed, who know the allegation to be false based on first-hand knowledge, may refuse to accept any arrest attempted under 837 P.C. (Citizen's arrest). These incidents will be documented in an incident report [Refer to 3-4, Private Person Citizen Arrest, written directive].

3. P.C. 849(b) states that any peace officer may release from custody, instead of taking such person before a magistrate, any person arrested without a warrant whenever:

a. He or she is satisfied that there are insufficient grounds for making a criminal complaint against the person arrested.
b. The person arrested was arrested for intoxication only, and no further proceedings are desirable.
c. The person was arrested only for being under the influence of a controlled substance or drug and such person is delivered to a facility or hospital for treatment and no further proceedings are desirable.

4. P.C. 853.6 states that in any case in which a person is arrested for an offense declared to be a misdemeanor, including a violation of any city or county ordinance, and does not demand to be taken before a magistrate, that person shall, instead of being taken before a magistrate, be released according to the procedures set forth in this chapter. If the person is released, the officer or superior shall prepare in duplicate a written notice to appear in court, containing the name and address of the person, the offense charged, and the time when, and place where, the person shall appear in court.

C. Arrest with a warrant:

1. When a Police Officer stops and detains a person, and as a result of a warrant check, determines the person has an outstanding warrant, the officer shall complete the following actions:

a. Determine that the person described in the warrant and the subject in custody are one and the same.
b. Determine if the warrant is available for service. Out of the immediate area agencies may not want to send an abstract for booking purposes due to the distance involved and the type of crime for which the warrant has been issued.

c. Upon receipt of the warrant abstract, the person should be taken into custody and taken before the nearest or most accessible magistrate. If a magistrate is not available, the officer must take the arrestee to the county jail for booking and posting of bail, or hold pending appearance before a magistrate.

2. The University Police Department is not authorized under Section 1269b of the Penal Code to accept bail for arrestees or to cite and release persons arrested under a warrant.

D. Arrest Procedures:

1. Precautions - Officers shall take all reasonable precautions in arresting and detaining persons to ensure against injury and/or escape. Officers must be alert to the possibility of weapons being in the possession of suspects or arrestees. Officers shall be responsible for the safety of prisoners and their property.

2. Security of Weapons - Officers shall exercise caution with firearms or other weapons at all times and particularly when in the presence of suspects or prisoners. All weapons shall be secured or removed from locations accessible to prisoners.

3. Treatment of Prisoners and Suspects - Prisoners and suspects shall be treated in a humane manner. They shall not be subjected to excessive physical force. No officer shall strike a prisoner or suspect, except in self-defense, to prevent an escape, or to prevent injury to another person. No officer shall verbally abuse prisoners or suspects.

4. Searching Prisoners and Suspects - All searches shall be conducted in accordance with department policy and training.

5. Transporting Prisoners and Suspects

   a. When it is necessary for an officer to transport a prisoner, the transporting officer shall log mileage and departure and arrival times with the police dispatcher. The dispatcher shall record all information in RIMS.

   b. The transporting officer is responsible for searching prisoners before they are transported.

   c. The transporting officer will search the transport vehicle for weapons, contraband, and other items prior to and after transporting a prisoner.

   d. All officers will examine their vehicles at the beginning of each shift to insure required equipment is present, no contraband or weapons are present, and the vehicle is in proper mechanical condition.

   e. Attempt should be made to have a female officer transport and arrest female arrestee and a male officer transport male arrestee if staffing allows.

6. Bail Posting Prohibited

   a. No Officer shall post bail for persons placed under arrest by a member of the department without the approval of the Chief of Police.
b. Officers shall not accept money as bail, or in payment of a fine, except in accordance with department policy.

c. No officer shall suggest or recommend any person or firm engaged in the business of furnishing bail to any prisoner or person requesting such information.

d. No officer shall recommend any attorney to any party in a criminal or civil case in which the officer’s department is involved.

7. Use of Handcuffs and Other Physical Restraints

a. The Departmental Policy regarding the handcuffing of a person is predicated on the responsibility of protecting the officer, the public and the person handcuffed. While policy guidelines are provided regarding the use and application of handcuffs during specific police/public contacts, the department recognizes that the final decision whether or not to handcuff an individual must rest with the ranking officer at the scene. Each public contact is different and requires officers to apply a broad range of criteria related to officer and public safety, the safety of the detainee, and to the laws of arrest, search and seizure. These criteria are fluid and situational, and suggest that the officer after considering all factors relevant to the situation must have full discretion in applying policy guidelines.

b. It shall be the policy of this Department to handcuff all felony persons when arrested for a violation of a State and/or Federal Law. If in the officer’s judgment, the orderly arrest and transportation of the person would be hindered by handcuffing; the officer may deviate from this policy and not apply handcuffs.

c. The handcuffing of juveniles and adults in misdemeanor situations shall be left to the officer’s discretion. Officers should evaluate the age and general demeanor of juveniles prior to applying handcuffs. In all instances officers shall make every attempt to protect the privacy and dignity of persons being handcuffed.

d. Juveniles - Some juveniles may be taken into custody without handcuffs while others must be handcuffed for their own protection, the protection of others or to avoid escape attempts.

e. Mentally Challenged - Handcuffs shall only be used as a temporary restraining device on mentally challenged persons.

f. Handcuffing Procedures

1) One Person - Handcuffs shall be placed around the subject's wrists, hands behind the back, palms out. No persons shall be handcuffed with the hands in front unless the subject is suffering from a deformity, disability, or some injury that makes this practice impossible or impractical.

2) Two Persons - with a single set of handcuffs. The following practice shall be utilized in the handcuffing of two individuals with one set of handcuffs. The person on the right shall be directed to place the right hand behind his/her back. The officer shall then handcuff the right wrist of the first person to the right wrist of the second person.

3) Double Locking Handcuffs. Handcuffs shall be double-locked whenever they are used. This not only prevents the person from picking the lock, but also keeps the handcuffs from tightening on the wrist of the person and causing injury.
g. Practices To Avoid When Using Handcuffs

1) Handcuffing a person with hands in front. Do not handcuff a person with hands in front unless required by a physical deformity or injury.

2) Handcuffing yourself to a person. Do not handcuff yourself to a person.

3) Use of the handcuff as a come along. Do not attach a single handcuff to a person and attempt to use it as a come along.

4) Juveniles and Adults - No juveniles shall, except in an emergency situation, be handcuffed to an adult.

h. Situations when not to handcuff - Absent any perceived threat to the safety of officers or the detainee, handcuffs should not be used in the following situations:

1) When not under arrest.

2) For transportation only, if safety not in jeopardy.

3) After person is pat searched, no weapons are found and person does not constitute a threat to the safety of officers and the general public.

4) If no physical cause to detain or arrest and safety not in jeopardy.

i. Police officers should avoid using force and/or physical restraints, such as handcuffs or guns, during a detention situation whenever possible. These indications of custody may cause the court to view the detention as an arrest. When the detention exceeds the boundaries of a permissible investigative stop, the detention becomes a de facto arrest requiring probable cause.

j. Police officers can use whatever precautionary safety measures are reasonable under the circumstances. During a lawful detention, officers are authorized to take such steps as are reasonably necessary to protect their personal safety and to maintain the status quo during the course of the stop.

k. In determining whether a police contact was a lawful detention or an unlawful arrest, the court will look to the totality of the circumstances and evaluate the intrusiveness of the detention and the justification for using the force or restraints that were employed.

l. Use of Spit Net - If at any time during the arrest/transport, the suspect begins to expectorate or vomit as a means of deterring the officer, the officer shall:

1) Place the Spit Net over the subject’s head. This should be accomplished from behind the suspect to prevent the suspect from successfully hitting the officer with vomit/spit. In certain circumstances, a Spit Net may be used in a preventative manner when encountering a known subject that has abused officers this way in past contacts.

2) The Spit Net should be kept on the prisoner until he/she is booked at the County Jail UNLESS:

   a) The prisoner begins to choke on his/her own vomit.

   b) The prisoner needs medical attention or loses consciousness.

3) The officer shall continually monitor the prisoner’s condition while the Spit Net
is on.

4) Officers SHALL NOT use the Spit Net for:

a) To humiliate a prisoner.

b) In any case where the person is not an arrested subject who is actively resisting arrest/assaulting officers.

c) Once at the County Jail, the Spit Net will be disposed of according to the directions of the Sheriff's Deputies.

d) The use of a Spit Net on a prisoner shall be documented in the arrest report giving facts in support of using the Spit Net.

E. Legal Process:

1. Records

a. SFSU Police Department does obtain original criminal warrants. Original copies are filed in the Central Warrant Bureau at SFPD.

b. Copies of warrants and processes may be obtained but do not act as original documents.

c. In the event any original warrants or civil process documents are received, a copy shall be attached to the original crime report and the service of process noted on the log. A written report will be written on RIMS by the investigating officer and will include:

   1) date and time received;
   2) type of legal process, civil or criminal;
   3) nature of document;
   4) source of document;
   5) name of plaintiff/complainant or name of defendant/respondent;
   6) officer assigned for service (all cases will be assigned to Investigations Unit);
   7) date of assignment (date assigned/forwarded to Investigations);
   8) court docket number; and
   9) date of service due or required by

2. Warrants from other jurisdictions

a. This Department occasionally works with outside agencies on the service of their warrants so long as it doesn't violate any CSU or SFSU policy.

b. If an outside agency has a warrant they wish to serve on this campus they will contact this Department for assistance in the service of the warrant. They will serve the warrant and take custody of the suspect.

c. Our responsibility is to facilitate the service of legal process in a manner that is least disruptive to the University.

d. There should be no disruption of class or educational activity unless the severity of the offense, potential threat to community exists or other emergency exists.
3. Service of warrants

   a. Arrest warrants will be executed by sworn peace officers only.
   b. Warrants obtained in California are maintained in CLETS, an automated warrants system.
   c. When an individual is contacted, the officer will have Dispatch confirm via the Central Warrant Bureau through the system that a valid warrant is outstanding.
   d. Officers will utilize a print out of a working paper that indicates that the warrant is valid and outstanding. This paper indicates the offense, bail amount, and warrant type (bench warrant, traffic, criminal).
   e. If a valid warrant is confirmed, the individual will be taken into custody and the service of the warrant will be documented in an Arrest Report. This report will indicate the date, time and location of the arrest, information on the suspect including name, date of birth and social security number.
   f. A record on the execution or attempted service of all warrants or any legal process shall be maintained through RIMS (once service is made).
   g. The use of the department's Warrant Control Form, which includes:

       1) date and time service was executed/attempted;
       2) name of officer(s) executing/attempting service;
       3) name of person on whom legal process was served/attempted;
       4) method of service and/or reason of non-service; and
       5) address (location) of service/attempt.

       Shall be used when an arrest/search warrant has been secured via the District Attorney’s Office. This form shall serve as a means to track attempted service.

4. Execution of Criminal Process

   a. Officers will execute only traffic and criminal warrants. The only exception to this is civil restraining orders.
   b. Execution of Department warrants outside of this jurisdiction will be determined on a case-by-case basis, depending on the distance, crime, and University needs.
   c. When serving a warrant outside of this jurisdiction, the agency will be notified that we are going to serve a warrant in their jurisdiction, and a request will be made to have a unit from their agency assist.
   d. Individuals arrested outside of this jurisdiction will be brought back to the San Francisco court system, unless otherwise directed by a magistrate. If a warrant is served outside of the immediate area, the arrestee will be transported to a local facility until transport can be made.
   e. The Chief of Police will contact the President and Vice President for Student Affairs & Enrollment Management for permission to serve warrants off campus.

5. Service of Civil Process Documents, Restraining, and Protective Orders

   a. The following are three types of restraining/protective orders:
1) Emergency Protective Order is obtained by a peace officer from superior court by phone;
2) Civil Court Restraining Orders, are obtained by a victim from the civil court; and
3) Criminal Stay-Away Orders, pursuant to Penal Code Section 136.2 are issued by the criminal court.

b. All three of these protective orders are enforceable in any county no matter where issued. These orders remain valid regardless of the actions of the protected person. For example, if the protected person allows the restrained party back into a residence, the order still remains valid.

c. Request Emergency Protective Orders when appropriate:

1) The Family Code Section 6241 requires that at least one judge or commissioner be reasonably available to orally issue, by phone or otherwise, an ex parte Emergency Protective Order when a law enforcement officer asserts reasonable grounds to believe that a person is in immediate and present danger.
2) Officers may request an Emergency Protective Order whether or not the suspect is present or has been arrested.

d. Requesting Emergency Protective Order.

1) Officer shall contact the Judicial Hearing Officer (SFPD Operations 415-553-1071), commissioner, or referee designated to be on-call to issue Emergency Protective Orders by telephone or otherwise and assert grounds for belief that the order is appropriate.
2) Upon oral issuance of the order by the on-call judge, the officer requesting the order shall reduce it to writing, using the Judicial Council Form Application 1295.90, and sign the order.
3) Issued Orders:

a) The officer shall serve a copy of the Emergency Order on the restrained party, if the party can be reasonably located.

b) The officer shall give a copy of the Emergency Order to the protected party.

c) The officer, who requested the Emergency Order while on duty, shall carry a copy of the order.

d) A copy of the Emergency Order shall be filed with the court as soon as practical after issuance.

e) An Emergency Protective Order is valid for five court days after the day of issuance, but never longer than seven calendar days following the day of issuance.

e. Verification of Protective Orders

1) Penal Code Section 13710 requires law enforcement agencies to maintain a
complete and systematic record of all Protection Orders.

2) Whenever a complainant advises an officer of the existence of a Protective Order, the officer should:

a) Prepare a written report.
b) Ascertaining whether a Protective Order is on file with the department and if the complainant has a copy of the order in their possession;
c) The Protective Order is still valid as to duration/time (if there is no expiration date on the order, the order is valid three years from the date of issuance, with the exception of permanent orders issued pursuant to a divorce);
d) If proof of service or prior notice exists or that the suspect was in court when the order was made; and;
e) The terms of the Protective Order.

1) A violation of a Protective Order is a misdemeanor under Penal Code Section 166 and 273.6(a) and may be a felony, under Penal Code Section 273.6(d), 646.9 or 136.

2) An arrest shall be made when there is reasonable cause to believe the subject of the Protective Order has violated the order and any of the following conditions are met:

a) The existence of the order and proof of the service on the suspect has been verified by the officer;
b) The complainant produces a valid copy of the order bearing the file stamp of a court and a proof of service on the subject;
c) The existence of the order has been verified by the officer (no proof of service is required if the order reflects that the suspect was personally present in court when the order was made); or
d) The existence of the order has been verified, and there is proof that the suspect has previously been admonished or served a copy of the order.

3) When the officer verifies that a Protective Order exists, but cannot verify proof of service or prior knowledge of order by suspect, the officer should:

a) Inform the subject of the terms of the order;
b) Admonish the subject of the order, that the suspect is now on notice and that the violation of the order will result in an arrest (if the suspect continues to violate the order after being advised of the terms, an arrest should be made);
c) If the suspect complies after admonishment of the terms, the officer shall make a retrievable report pursuant to Penal Code Section 13730(c) showing the suspect was admonished of the terms of the order, the name of the admonishing officer, time and date. The Department’s copy of the Protective Order will be updated to reflect the admonishment information.
g. In the event the suspect has left the scene of the incident, an investigation should be made to determine if a crime has been committed. Penal Code Sections 13730(c) and 13701(i) requires that a retrievable report shall be made and complainant shall be advised of the follow-up criminal procedures and case number of the report.

h. Protective Order Not Verifiable.

1) When the victim is not in possession of the Protective Order, and/or in case of computer error, officers may not be able to confirm the order's validity.
2) Penal Code Section 13730(c) requires that an officer shall write a report, give the victim the police report number and direct the victim to contact Investigations for follow-up information.
3) When an order is not verifiable through the verification procedures, officer shall advise the victim of the right to make a private person’s arrest for the violation of the Protective Order.

F. Alternatives to arrest, Prearraisonment confinement and/or Pretrial release:

1. SFSU Police Officers may exercise alternatives to arrest based on the individual circumstances of each situation. Alternatives to a custodial arrest are utilized by the officer with discretion, taking into consideration the severity of the crime or violation and also considering the conduct of the suspect and the suspect’s past criminal history.
2. When possible or appropriate, officers are encouraged to exercise alternatives to physical arrest.
3. Some alternatives are as follows:
   a. Verbal warning (provided the violation is minor);

5. If there is a victim in the case, the officer will consider and honor as much as possible the victim’s preference for alternative or an arrest, except for domestic violence cases, where an alternative may not be the appropriate course of action.
6. If a question arises concerning the use of an alternative, officers should contact the watch commander to resolve the matter.

G. Procedures for alternatives to arrest:

1. Oral/Written warning:
a. May be issued for misdemeanor or petty offenses;
b. Document using a Field Interview Card (FI card) and notation in RIMS; and

When such an agreement is in force, its contents shall be considered to override or supplement the contents of this order, where applicable, for the duration of the agreement.

   b. Criminal prosecution shall not be jeopardized or minimized in lieu of civil forfeiture.
   c. Criminal prosecution and civil forfeiture shall proceed independently. The threat of criminal prosecution shall not be used as a lever to achieve financial gain or settle forfeiture.
   d. Asset forfeiture proceedings shall be directed against those people directly involved with criminal activity. It is not in the interest of the community or University Police to cause undue hardships to innocent third parties or to cause personal hardship to people with a familial relationship to the suspect.
   e. Asset forfeitures should be proportionate to the criminal activity that can be established using the preponderance of evidence test.

7. Authority and Responsibility over Asset Forfeitures
a. The Chief of Police has the ultimate authority for all decisions regarding asset forfeiture.

I. PURPOSE: To provide guidelines for handling citizen arrests in accordance with legal requirements.

II. POLICY: It is the policy of the SFSU Police Department to carefully and objectively evaluate private person arrests and, where it is lawful to do so, accept and properly process the person arrested.

III. DEFINITIONS: NONE

IV. PROCEDURES:

A. Officers presented with a situation in which someone wishes to make a private person arrest should be aware of the following provisions of the law:

1. Penal Code § 837 provides in part that:
   
a. A private person may arrest another for a public offense committed or attempted in his presence."

2. However, notwithstanding this provision of state law, officers must also be aware that, under federal interpretations of the Fourth Amendment to the United States Constitution, any action by an officer in which a person is taken into custody - i.e., deprived of their liberty - must be supported a probable cause to believe that a public offense has occurred and that the person being taken into custody committed that offense.

B. With these provisions of the law in mind, officers presented with a situation in which a private person expresses the desire to place another person under arrest pursuant to the private person arrest authority of Penal Code § 837 shall:

1. Prior to accepting custody of the private person arrestee, make reasonable efforts to obtain all information relevant to the issue of whether a criminal offense has
occurred and whether the person to be arrested is the one who committed that offense.

2. Where it appears from the objective circumstances and evidence that there is probable cause to believe a criminal offense occurred and the person to be arrested is the one who committed that offense, the officer shall:

   a. accept custody of the arrestee; and,
   b. process the arrestee accordingly, i.e., citation release, booking and release, incarceration, etc.

3. Where it appears from the objective circumstances and evidence that there is not probable cause to believe a criminal offense has occurred and/or that the person to be arrested is the one who committed the offense, the officer shall:

   a. carefully explain to the person wishing to make the private person arrest the legal requirement that acceptance of custody by the officer requires the presence of probable cause to arrest, as well as the facts and circumstances which indicate to the officer an absence of probable cause;
   b. seek the consent and cooperation of the person wishing to make the arrest to have the matter handled by submission of a crime report for further investigation by detectives and/or evaluation of criminal charges by the District Attorney;
   c. however, if the person insists on making the arrest, the officer shall refuse to accept custody of the arrestee;
   d. complete a report detailing all of the allegations, facts, circumstances and evidence bearing on the officers' determination to refuse to accept custody.

4. Officers should seek advice from a supervisor or the watch commander when there is any question in the mind of the officer as to how to proceed regarding a private person arrest.

V. APPENDIX: None

VI. ATTACHMENT: None
I. PURPOSE: The purpose of the following guidelines is to provide direction to members of the San Francisco State University Police Department in order to prevent and intervene in incident of domestic violence.

II. POLICY:

A. It is the policy of the San Francisco State University Police Department to enforce the laws to protect victims of domestic violence and to communicate the attitude that violent behavior is criminal behavior and will not be tolerated.

B. All SFSU police employees shall treat all alleged incidents of domestic violence as criminal conduct and shall make arrests whenever appropriate pursuant to the Penal Code including but not limited to Sections 273.5, 242, 243 (e)(1) and 245.

C. Dispute mediation shall not be used as a substitute for arrest response in domestic violence cases where physical violence has occurred.

   The following factors should not influence the officer’s course of action in domestic violence incidents:

   1. Marital status or domestic relationship of suspect and victim;
   2. Sexual preference or orientation of the parties;
   3. Non-visible injuries;
   4. Complainant’s emotional state;
   5. Verbal assurances that violence will cease;
   6. Occupation, community status and/or potential financial consequences of the arrest;
   7. Complainant’s history of prior complaints;
   8. Location of the incident (public or private);
   9. Speculation that complainant may not follow through with the prosecution;
   10. Speculation that the case may not result in prosecution;
   11. Assumptions that violence is more acceptable in certain cultures;
12. Language abilities or barriers and/or immigration status.

III. DEFINITIONS:

A. Domestic Violence: is abuse committed against an adult or fully emancipated minor who is a spouse, former spouse, cohabitant, related by blood, or a person with whom the suspect has had a child or has had a dating or engagement relationship.

B. Abuse: means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension or imminent serious bodily injury to himself or herself or another.

C. Cohabitant: means two unrelated adult persons living together for a substantial period of time, resulting in some permanency of relationship. Factors that may include whether persons are cohabiting include, but are not limited to:

1. Sexual relations between the parties while sharing the same living quarters,
2. Sharing of income or expenses,
3. Joint use of ownership or property,
4. Whether the parties hold themselves out as husband and wife,
5. The continuity of the relationship, and
6. The length of the relationship.

IV. PROCEDURES:

A. Felony Arrests:

1. An arrest shall be made when there is reasonable cause to believe a felony has occurred.

B. Misdemeanor Arrests:

1. An arrest shall be made when there is reasonable cause to believe that a misdemeanor (including violations and court orders) has occurred in the officer’s presence or there is probable cause to believe that a misdemeanor violation of Penal Code Section 273.6 has occurred, even though not committed in the officer’s presence.

2. Arrests shall be made when there is probable cause to believe that a protective order has been violated. (Penal Code Section 13701)

3. In any case in which a person is arrested for a misdemeanor violation of a protective court order involving domestic violence, the person shall be taken before a magistrate instead of being released on a citation, unless the arresting officer determines there is not a reasonable likelihood that the offense will continue or resume or that the safety of the persons or property would be imminently endangered by the release of the person arrested (Penal Code Section 853.6).

4. Officers considering releasing the suspect on a citation shall evaluate the likelihood of a continuing offense, which is one of the statutory conditions under which a field release is not appropriate. Any one of the following may support the likelihood of a continuing offense:
a. The suspect has a prior history of arrests or citations involving domestic violence.
b. The suspect is violating a criminal court issued stay-away order.
c. The suspect has previously violated, or is currently violating, valid temporary
   restraining orders.
d. The suspect has a prior history of other assaultive behavior (e.g., arrest
   convictions for battery or aggravated assaults).
e. The victim expresses fear of retaliation or further violence should the suspect be
   released.
f. Information about the suspect’s alcohol or drug abuse, access to weapons, suicide
   threats or attempts, threats of kidnapping family members, or history of mental
   illness.

C. Dual Arrests:

1. Dual arrests are discouraged. Officers shall make reasonable efforts to identify
   and arrest only the dominant aggressor. The dominant aggressor is the person
determined to be the most significant, rather than the first aggressor (Penal Code
   Section 13701).
2. In identifying the dominant or primary aggressor, the officer shall consider (Penal
   Code Section 836(e)(3)):

   a. The intent of the law to protect victims of domestic violence from continuing
      abuse.
   b. The source and nature of the threats creating fear of physical injury.
   c. The history of domestic violence between the persons involved.
   d. Whether either person involved acted in self-defense.
3. The same considerations shall apply in situations where mutual protective orders
   have been issued. (Penal Code Section 836(c)(3))

D. Private Person’s Arrest:

1. Officers shall inform the victim of the right to make a private person’s arrest, as well
   as how to safely execute the making of the arrest.

   a. Officers shall discuss the right to make a private person’s arrest when a crime
      has been committed outside the officer’s presence, which does not meet the
      requirements for a felony arrest or a misdemeanor arrest for a violation of a
      protective order. Whenever possible, such discussion will be held out of the
      presence of the suspect.
   b. However, officers shall arrest where there is probable cause that a protective
      order has been violated even though out of their presence.

2. Officers shall accept a private person’s arrest when appropriate and not dissuade
   victims from making lawful citizen arrests.

E. Restraining/Protective Orders:
1. Emergency protective orders are obtained by the victim from various departments within the civil court.
2. Restraining orders are obtained by the victim from various departments within the civil court.
3. Criminal Protective/Stay Away Orders are issued by the criminal court.
4. Maintaining Restraining Orders;
   a. All restraining orders shall be maintained in a systematic fashion with documentation of proof of service that is readily available to officers in the field.
   b. The orders shall be maintained so that all law enforcement officers can readily ascertain the terms and effective dates.
   c. All three orders are enforceable in any county regardless of where issued. (Family Code Section 6381).
   d. These orders remain valid regardless of the actions of the protective person. For example, even if the protected person lets the restrained person back in the residence (Penal Code Section 13711(c)).

F. Request Emergency Protective Orders When Appropriate:

1. When a law enforcement officer believes that a person is in immediate danger of abuse from a household member, the officer shall attempt to obtain an emergency protective order. Family Code Section 6241 requires that at least one judge, commissioner, or referee be available to issue an ex parte emergency protective order.

   a. Ascertain Need for Emergency Protective Order;
      1) An officer may request an ex parte emergency protective order when the officer has reasonable grounds to believe:

         a) That a person is in immediate and present danger of domestic violence based on the person’s allegation of a recent incident of abuse or threat of abuse by the person against whom the order is sought.
         b) That a child is in immediate and present danger of abuse by a family or household member based on an allegation of a recent incident of abuse or threat of abuse by the family or household member.
         c) That a child is in immediate and present danger of being abducted by a parent or relative based on a reasonable belief that a person has an intent to abduct the child or flee with the child from the jurisdiction or based on an allegation of a recent threat to abduct the child or flee with the child from the jurisdiction.
         d) That an elder or dependent adult is in immediate and present danger of abuse as defined in Section 15610.07 of the Welfare and Institutions Code based on an allegation of a recent incident of abuse or threat of abuse by the person against whom the order is sought, except that no emergency protective order shall be issued based solely on an allegation of financial abuse (Family Code Section 6250).
b. The officer may request an emergency protective order whether or not the suspect is present or has been arrested.
c. The following are examples of situations in which requesting an emergency protective order may be appropriate:

1) The suspect is being arrested for a charge related to a domestic violence incident.
2) The suspect has a history of domestic violence.
3) The victim expresses fear of retaliation or further violence.
4) Threats of serious danger have been made to the victim or to the victim’s family.

2. Request Emergency Protective Order

a. The officer shall contact the judge, commissioner, or referee designated to be on call to issue emergency protective orders by telephone or otherwise and assert grounds for the belief that the order is appropriate.
b. Upon oral issuance of the order by the on-call judge, the officer requesting the order shall reduce it to writing using the Judicial Council form provided and sign the order (Family Code Section 6270).
c. Dispatch shall enter the appropriate information in the Domestic Violence Retraining Order System (DVROS).

1) The Dispatcher will use the Emergency Protective Order mask for entry. The fields of the mask match with the fields in the DVROS section of the CJIS manual.
2) The Dispatcher will return the Emergency Protective Order to the Officer who will turn it over to the Investigations Unit who will take it to the court.

3. Issued Orders

a. The officer shall serve a copy of the emergency protective order on the restrained party if the restrained person can reasonably be located (Family Code Section 6271(a)).
b. The officer shall give a copy of the emergency order to the protected party or if the protected person is a minor, to a parent or guardian of the endangered minor who is not a restrained person, if the parent or guardian can reasonably be located, or to a person having temporary custody of the endangered minor. (Family Code Section 6271(b))
c. The officer who requested the emergency order shall carry a copy of the order while on duty (Family Code Section 6273).
d. A copy of the emergency order shall be filed with the court as soon as practical, after issuance. (Family Code Section 6271(c))
e. An emergency protective order is valid for five court days after the day of issuance but never longer than seven calendar days after the day of issuance (Family Code Section 6256).
4. Officer Immunity - A law enforcement officer who acts in good faith to enforce an emergency protective order is not civilly or criminally liable. (Family Code Section 6272 (b))

G. Verify and Enforce Restraining Orders and Criminal Court Issued Stay-Away Orders:

1. Verification of Restraining Orders

   a. Whenever a complainant advises of the existence of a restraining order/protective order, the officer should ascertain:

      1) Whether a restraining order is on file with the department or whether complainant has a certified copy of restraining order in possession, or whether the order can be verified through the Department of Justice Domestic Violence Restraining Order System (DVROS). Family Code Sections 6380, 6381, 6383.

   b. Whether a restraining order is still valid as to duration/time.

      1) If there is no expiration date on a civil protective order, the order is valid three years from the date of issuance with the exception of permanent orders issued pursuant to a divorce, which never expire. (Family Code Section 6345(c))

      2) An emergency protective order is valid for five court days after the date of issuance, but never longer than seven calendar days following the day of issuance. (Family Code Section 6256)

      3) The duration of Criminal Protective/Stay Away varies with each order.

   c. Whether the proof of service or prior notice exists or whether the suspect was in court when the order was made.

   d. The terms of the restraining order.

2. Arrest Criteria and Enforcement Procedures

   a. A violation of a restraining order is a misdemeanor under Penal Code Section 273.6. An officer may make an arrest when there is reasonable cause to believe the subject of the restraining order has violated the order in the presence of the officer and any one of the following conditions is met:

      1) The existence of the order and proof of service on the suspect has been verified by the officer.

      2) The complainant produces a valid copy of the order bearing a file stamp of a court and a proof of service on the subject.

      3) The existence of the order has been verified by the officer; no proof of service is required if the order reflects that the suspect was personally present in court when the order was made.

      4) The existence of the order has been verified and there is proof that the suspect has previously been admonished by an officer.
b. When the officer verifies that a restraining order exists but cannot verify proof of service or prior knowledge of the order by the suspect, the officer should:

1) Inform the subject of the terms of the order.
2) Admonish the subject of the order and that the subject is now on notice and that violation of the order will result in arrest. If the subject continues to violate the order after being advised of the terms, an arrest should be made. Oral notification to the respondent of the terms of the order shall be sufficient notice for enforcement of Penal Code Sections 136.2, 273.6 and 12021.
3) If the suspect complies after admonishment of the terms, the officer shall make a retrievable report pursuant to Penal Code Section 13730(c) showing the suspect was admonished/advised of the order, the specific terms of the order suspect was advised about, the name of the admonishing officer, time and date. The department’s copy of the restraining order will be updated to reflect the admonishment information listed above. The notice of service shall immediately be transmitted to the California Department of Justice Domestic Violence Restraining Order System.

c. In the event the suspect has left the scene of the incident, an investigation should be made to determine if a crime has been committed. Penal Code Sections 13730(c) and 13701 require that a retrievable report shall be made and the victim shall be advised of the follow-up criminal procedure and case number of the report.

d. Orders Not Verifiable -When the victim is not in possession of the Temporary Restraining Order, Stay Away Order, and/or in cases of computer error, officers may not be able to confirm the order’s validity.

1) Penal Code Sections 13730(c) and 13701(c)(8) require that officers shall write a report, give the victim the police report number and direct the victim to contact the appropriate department unit for follow up information.
2) When an order is not verifiable officers should advise the victim of the right to make a private person’s arrest for the appropriate violation.

e. Verification of Stay-Away Orders

1) A stay-away order is issued in a criminal case where the probability of victim intimidation exists and violation of such is a misdemeanor under Penal Code Section 166(c)(1).
2) In domestic violence incidents where a person advises an officer that a criminal protective/stay-away order has been issued, the officer should attempt to ascertain the terms and validity of the order.

   a) Request that the victim show a copy of the order.
   b) Verify, through the department, that the suspect is under the court’s jurisdiction.
   c) Verify, through the department, that a criminal protective/stay-away order has been issued against the suspect.
d) Verify through the California Department of Justice Domestic Violence Restraining Order System.

**H. Reporting:**

1. In all cases of domestic violence, officers shall write a crime report and:

   a. Identify it as a domestic violence incident.
   b. Indicate whether weapons were involved.
   c. Provide the victim with a case number of the report. If not readily available, explain how the number may be obtained.

**I. Tenancy:**

1. When a victim requests an officer to remove a person from the premises when no arrest is to be made and it can be shown the victim is in lawful possession of the premises and the person to be removed is not in lawful possession of the premises, the officer shall:

   a. Request that the person leave the premises and stand by for a reasonable amount of time while the person removes minimal personal belongings.
   b. If the suspect refuses to leave upon request, arrest the suspect under Penal Code Section 602.5.
   c. When appropriate, the officer may refer the complainant for a temporary restraining order or other appropriate civil remedy if the complainant requesting removal cannot show proof of lawful possession. “Lawful possession” of the premises is shown by a rental agreement, cancelled rent check, lease, grant, deed, verification from landlord, court order, or other document showing person(s) to be removed.

2. When a victim in a domestic violence incident requests police assistance in removing a reasonable amount of personal property to another location, officers shall stand by a reasonable amount of time until the victim has removed the personal property.

**J. Victim Assistance:**

1. Assist in obtaining appropriate medical attention if a complainant sustains injury whether visible or not.
2. Assist in making arrangements to transport the victim to an alternate shelter if the victim expresses a concern for safety or the officer determines a need exists.
3. Assist victims in pursuing criminal options such as giving the victim the report number and directing the victim to the proper investigation unit. (Penal Code Section 13701(c)(8))
4. Furnishing written notice to victims at the scene including, but not limited to, all of the following information:
a. A statement informing the victim that despite official restraint of the person alleged to have committed domestic violence, the restrained person may be released at any time.
b. A statement that, “For further information about a shelter you may contact SAFE Place and Women’s Inc.”
c. A statement that, “For information about other services in the community, where available, you may contact (see attachment).”
d. A statement informing the victim of domestic violence that he or she may ask the district attorney to file a criminal complaint.
e. A statement on information about the California Victims Compensation Program, contact number 1(800) 777-9229.
f. A statement informing the victim of the right to go to the superior court and file a petition requesting any of the following orders for relief:

1) An order restraining the attacker from abusing the victim and other family members.
2) An order directing the attacker to leave the household.
3) An order preventing the attacker from entering the residence, school, business, or place of employment of the victim.
4) An order awarding the victim or the other parent custody of or visitation with minor children in the custody of the victim.
5) An order directing the party not granted custody to pay support of minor children, if that party has a legal obligation to do so.
6) An order directing the defendant to make specified debit payments coming due while the order is in effect.
7) An order directing that either or both parties participate in counseling.
8) An order restraining the attacker from molesting or interfering with minor children in the custody of the victim.

g. In the case of an alleged violation of Section 261, 261.5, 262, 286, 288a, or 289, a “Victims of Domestic Violence” card which shall include, but not be limited to the following information:

1) The names and locations of rape victim counseling centers within the county, including those specified in Penal Code Section 13837, and their 24-hour counseling service telephone number.
2) A simple statement on the proper procedures for a victim to follow in a sexual assault.
3) A statement that sexual assault by a person who is known to the victim, including sexual assault by a person who is the spouse of the victim, is a crime.

K. Seizure of Firearms:

1. A police officer who is at the scene of a domestic violence incident involving a threat to human life or a physical assault, shall take temporary custody of a firearm or other deadly weapon in plain sight or discovered pursuant to a consensual search as
necessary for the protection of the peace officer or other persons present.

2. Upon taking custody of a firearm or other deadly weapon, the officer shall give the owner or person who possessed the firearm a receipt. The receipt shall describe the firearm or other deadly weapon and list any identification or serial number on the firearm. The receipt shall indicate where the firearm or other deadly weapon can be recovered and the date after which the owner or possessor can recover the firearm or other deadly weapon.

3. No firearm or other deadly weapon shall be held less than 48 hours. Except as provided in Penal Code Section 12028.5(e), if a firearm or other deadly weapon is not retained for use as evidence as related to criminal charges brought as a result of the domestic violence incident or is not retained because it was illegally possessed, the firearm or other deadly weapon shall be made available to the owner or person who was in lawful possession 48 hours after the seizure or as soon thereafter as possible, but no later than 72 hours after the seizure.

4. In those cases where the department has reasonable cause to believe that the return of a firearm or other deadly weapon would be likely to result in endangering the victim or the person reporting the assault or threat, the department shall advise the owner of the firearm or other deadly weapon and, within 30 days of the seizure, initiate a petition in superior court to determine if the firearm or other deadly weapon should be returned. The department must comply with the provision of Penal Code Section 12028.5(f) in making this petition to the superior court.

5. Check on the existence of a court order requiring removal of weapon or of conviction of any crime prohibiting possession and/or ownership of a firearm prior to release (P.C. 12021(g)).

L. Officer Safety:

1. Officers should exercise reasonable care for the safety of officers and parties involved. No provision of this guideline shall supersede that responsibility.

I. PURPOSE: The purpose of this order is to set forth regulations governing juvenile procedures, which are consistent with federal and state mandates relating to juvenile matters.

II. POLICY: The University Police Department shall be committed to ensuring that the letter and spirit of the law is followed in dealing with juveniles and juvenile offenders. The University Police Department is also committed to the support and perpetuation of programs to prevent and control juvenile delinquency. Although the University does not have a sizable juvenile population, there is an expectation that all sworn personnel handle juveniles consistent with the limits imposed by state and federal laws.

III. DEFINITIONS:

A. Diversion: In the broadest sense, any procedure that:

1. Substitutes non-entry for official entry into the justice process;
2. Substitutes the suspension of criminal justice proceedings for the continuation of those proceedings;
3. Substitutes lesser supervision or referral to a non-justice agency or no supervision for conventional supervision; or
4. Substitutes any kind of non-confinement status for confinement.

B. Status Offense: An act or conduct declared by statute to be an offense only when committed by a juvenile, and adjudicated only by a juvenile court.

IV. PROCEDURES:

A. Jurisdiction- Jurisdiction of the Juvenile Court over minors is authorized by the following three sections of the Welfare and Institutions Code.

1. 300 W&I: Dependents – includes dependent, neglected, destitute, abused children
or those who are physically dangerous to the public because of mental or physical deficiency. All such protective service cases are to be adjudged “dependents of the court”.

2. 601 W&I: Status Offenders, any person under the age of 18 years – Includes habitual incorrigibles, habitual runaways, truants, immoral youths, and those with dependent tendencies. Those in this category are known as “status offenders.”

3. 602 W&I: Delinquents, 14 years of age or older – Includes violations of federal, state and local laws. Those in this category are adjudged “delinquent.” These offenders and 601’s may become “wards of the court.”

B. Department Programs:

1. There are numerous juvenile based programs and referrals within the city and county of San Francisco that all members of our department can take advantage of and promote by referring juveniles to them. (Our department by function does not have the resources to develop, sustain and fund recreational youth programs such as the San Francisco Police Athletics League).

The Community Assessment Referral Center (CARC) is a service that provides support for young people, ages 11 through 17 who are arrested. CARC’s goal is to help the juvenile offender avoid further involvement in the juvenile system and to stay out of jail, and to provide the juvenile with the support and guidance needed to make healthy choices.

For juveniles that have been arrested for either a misdemeanor or felony crime, the officer(s) shall notify CARC. The officer then advises the CARC staff of the circumstances of the arrest. The CARC staff will then advise the officer how to proceed with the juvenile (i.e., cite and release, transport to CARC or Youth Guidance Center (YGC) or release to parents.)

Huckleberry Youth Programs run numerous programs dedicated in assisting the youth of San Francisco and their families who may be experiencing short-term crisis. Adolescents may be referred to Huckleberry House through friends, schools, police officers, social workers and other local agencies. Huckleberry House is the starting point for adolescents to gain a continuum of services including: 24-hour Crisis Hotline (415) 621-2929, Short Term Housing, Psych-Social Programs and Health Services. Huckleberry House can also be contacted at: (415) 621-2929.

The San Francisco Police Athletic League provides both athletic programs and a Law Enforcement Cadet Program. Athletic programs for youth between the ages of 4 and 17 years old include; Baseball, Basketball Football, Cheerleading, Soccer and Judo. The Law Enforcement Cadet program is for ages 14–20.

Officers and Investigators are encouraged to participate and assist in specific juvenile based events within the city, such as “Kid Print”, PAL and Huckleberry Youth Services and other surrounding neighborhood sponsored activities.
a. Program contact numbers:

1) San Francisco Police Athletic League (415) 401-4666
2) San Francisco Police School Resource Officer Program (415) 404-4041
3) Huckleberry House (415) 621-2929
4) Huckleberry Youth Multi-Service Center (415) 751-8181
5) Huckleberry’s Lioness Girls Program
6) Community Assessment and Referral Center (CARC) (415) 437-2500

2. All agency employees are responsible for participating in and supporting efforts to reduce the occurrence of juvenile crime and delinquency on campus.

3. The various elements of the juvenile justice system are encouraged to review and provide input and suggestions to the department on its juvenile policies and procedures.

C. Alternatives to Arrest: Officers dealing with juvenile offenders shall use the least coercive among reasonable alternatives.

1. Outright release with no further action

   a. Based on the judgment of the officer in consultation with the Watch Commander, a juvenile may be released in the field without further formal action. The best interests of the minor and the community shall be considered.

   b. Documentation of such release shall be made within a written incident report.

2. Criteria and procedures for issuing written citations or summonses to juvenile offenders to appear in lieu of taking them into custody.

   a. Juveniles arrested for infractions and low-grade misdemeanors should be released in the field unless circumstances indicate that it would be in the best interest of the minor and/or the public for him or her to be detained or if such release would be otherwise unlawful or inappropriate.

   b. If a minor is detained for a non-traffic infraction or low-grade (non-violent) misdemeanor, the arresting officer may, upon approval of a supervisor, release the minor in the field. If the detention is for a 602 W & I offense, either issue a citation for release and complete a crime incident report for the offense committed.

   c. Those juveniles arrested for the following charges shall be detained until a responsible adult can respond to accept custody:

      1) California Vehicle Code (CVC), sections 23152(a), 23152(b), 23153(a), and 23153(b);
      2) Health and Safety Code (H&S), section 11550; and
      3) California Penal Code (PC), section 647(f).

   d. If the detention is for a 601 W & I Status Offense, (i.e., runaway, truancy, and
curfew) and the minor is going to be released in the field to a parent/guardian or responsible party, the officer shall write the appropriate report and document the incident.

e. Citations: All juvenile violators of California Vehicle Code and specified sections, as listed below, should be released with a citation.

2) Officers are encouraged to release, admonish and release, or cite and release whenever possible.

3) Only if minors are escapees, probation violators, a menace to persons (themselves or others) or property, or apt to flee the jurisdiction, may they be detained at the Youth Guidance Center (YGC) or the Community Assessment Referral Center (CARC).

4) Authority for these detentions is 625 W&I. Officers arresting minors under this section shall complete a Crime Report detailing the circumstances of the case.

INSTRUCTIONS

GENERAL INSTRUCTIONS

The Juvenile Justice and Delinquency Prevention Act of 2002 (JJDPA)\(^1\) requires the CSA to monitor facilities that hold minors in detention for compliance with three core requirements:

1. **Deinstitutionalization of Status Offenders** (JJDPA Section 223 (a) [11])
   Minors who are charged with only a status offense (Welfare and Institutions Code [WIC] § 601) or who are nonoffenders (WIC § 300) must not be held in secure detention.

2. **Separation** (JJDPA Section 223 (a) [12])
   Minors held in secure detention must not come into sight or sound contact with adult offenders.

3. **Jail Removal** (JJDPA Section 223 (a) [13])
   Delinquent minors (WIC § 602) must not be held in secure detention for more than six (6) hours pending investigation, processing and release.

In accordance with the JJDPA, the CSA is required to submit the number of minors held in secure detention over six hours annually to the Office of Juvenile Justice and Delinquency Prevention (OJJDP).

Additionally, Welfare and Institutions Code (WIC) Sections 209 and 210.2 mandates the CSA to conduct surveys of law enforcement agencies on the processing of minors to ensure compliance with WIC Section 207.1(d) and applicable Title 15 minimum standards.

Law enforcement facilities that contain a lockup, jail, temporary holding facility, or cuffing fixture and detain minors in their facility will need to complete a Monthly Report on the Detention for Minors– 2007 for each month in the calendar year 2007. This will assist the CSA with data collection and submission requirements.

- Please complete and return this form to the CSA by the 10\(^{th}\) of each month. A form must be completed for each month, even if no minors were detained.
- If no minors were detained during the month, complete only Sections I and II, date and return the form.
- If one or more minors were detained for any length of time during the month, complete all sections, date and return the form.
- In the spaces provided at the bottom of the form (Section V), provide the name, title, telephone number and date for both the reporting person and the department head.
- Forms may be downloaded from our website at: [http://www.cdc.gov/DivisionsBoards/CSA/minors_lockups.htm](http://www.cdc.gov/DivisionsBoards/CSA/minors_lockups.htm)
- Please fax (916) 327-3317 or mail all completed surveys to:

G. Unusual Occurrence: Situations, generally of an emergency nature, that result from natural or man-made disasters, or civil disturbances.

IV. PROCEDURES:

A. Arrest Procedures:

1. The basic concept of the Multiple Simultaneous Arrest/Detention Procedure is
that a specialized group of officers working together during large-scale arrests at major events be primarily responsible for all aspects of the arrest process. This includes from the point of arrest, to release to another detention facility-agency, or via other legal protocol. By doing so, the chain of identification is not broken and officers managing the event will not be taken from their primary assignments, thus weakening the overall deployment.

2. Notification Requirements

   a. If they are not already on scene, the Event Coordinator shall notify the Chief of Police and the on-duty Command Staff and Officers.
   b. The Associate Vice President of University Communications will be notified and media relations will be handled per General Order 1-5

       1) Press releases will be handled by University Communications, with assistance from the Chief of Police or his/her designee.
       2) Media representatives will be provided a gathering point in major incidents.
       3) Copies of all press releases will be included in official department files.

   c. Timely notice shall be given to all involved agencies of impending major public events where the possibility of multiple simultaneous arrests exists.
   d. The Chief of Police or his/her designee shall ensure that such information is provided so the associate agencies can prepare their own resources in support of our anticipated event and activities.
   e. Notifications shall include San Francisco Police Department and the San Francisco County Sheriff’s Department.

3. Arrest Teams shall consists of the following staff (consider no set number):

   f. Two or more receiving officers at the designated booking/detention facility; and
   g. A Videographer

4. Arrest team/squad shall have the following equipment:

   a. Two digital cameras;
   b. One or more transportation vehicles; and
   c. A Field Arrest Packet.

5. Pre-planning Process

   a. When a large scale event dictates consideration of multiple simultaneous arrests, the Incident Commander shall confer with the command staff and Sergeants on site to determine the approximate number of potential arrestees, and assess
an individual and group temperament of those individuals, focusing upon any identified agitators. Upon arriving at that figure, and the key persons, the Incident Commander shall configure his arrest teams of a size that will enable those officers to take custody of the individuals safely.

b. Videotape of the incident areas will provide an opportunity to later identify other suspects.

c. The Incident Commander shall pre-arrange the event deployment to allow for a swift implementation of officers from a variety of locations from within the event, as well as directing available field units supplied by the patrol Watch Commander.

d. If numerous arrests are considered prior to the event, the Incident Commander shall assure that the necessary transportation unit(s) are immediately available to the event facility with drivers.

e. Should the multiple simultaneous arrests exhaust deployed officers on campus, the Incident Commander shall request off-campus mutual aid resources called upon for standby prior to the event. Transportation units also will be equipped with drivers. Mutual aid requests from outside agencies will be handled through notification to San Francisco Sheriff’s Department and San Francisco Police Department.

6. General Arrest Guidelines

a. When possible, all arrests, once ordered by the Incident Commander, or his designee, should be made by an event manager, police sergeant, and arrest team members, so event officers may remain at their assigned posts.

b. When the nature of the offense requires the immediate intervention and arrest by an event officer, an arrest team shall assume custody of that arrestee and these procedures shall be resumed as soon as possible.

c. Arrest teams shall make arrests for specific violations of the law.

1) He/she shall request the assistance of specially equipped officers assigned as arrest teams.

   a) The number to be transported;
   b) The location of arrest and best route of access;
   c) The name of the group (if any) upon which the arrests are to be made; and
   d) The location at which transport vehicles should meet with arrest teams.

   e. He/she shall physically isolate those to be arrested from sympathizers and other demonstrators, using squads of officers and terrain features so that the arrest process can proceed deliberately and without danger to the officers.

   f. If necessary, a perimeter should be made around transportation units until they leave with the prisoners.
g. Photographs of the arrestees shall be completed during the field pre-booking at the field facility.

7. Juvenile Arrests – If a large number of juvenile arrests are expected, the event supervisor will notify Juvenile Intake prior to the event, and provide the available intelligence information necessary to make the assessment of the impending arrests.

8. After the demonstrators have been isolated and contained, the designated arrest sergeant and event management representative will physically arrest individuals and physically control and move them through the isolated area to awaiting transportation unit(s). They will then, after securing a full load of arrestees, deliver them to the field booking facility.

9. The number of officers needed to handle each arrestee shall be determined by the following factors:

   b. Arrest team officers shall deliver arrestee to awaiting transportation officers and unit.
   c. If time constraints exist, transportation officers shall assist arrest team members with the completing of the arrest information and securing of any evidence.
   d. The arrestee shall then be taken to the field arrest facility where he/she will be processed for the most immediately available release with consideration to the severity of the offense, condition of the arrestee and expected conclusion of the event.
   e. A personal property arrest envelope shall be used for holding personal items belonging to the arrestee, such as cash or other valuables.
   f. The arrestee and the arrest team member shall be photographed together, and the photograph shall be attached to the exterior of the arrest envelope. If necessary, transportation officers will provide the arrest team members with a new supply of restraints for future arrests.
   g. The arrest team will have its photograph taken with the arrestee prior to loading the arrestee onto the transportation unit. This photograph will then accompany the arrestee to the field booking facility, and be retained with booking records until the arrest team prepares the report.
   h. Each arrest team squad leader shall assure that each person arrested or detained by a member of his/her squad is photographed along with that member by the Event Photo Officer (Team).
   i. Each arrestee or detainee will be the subject of digital photos.

   1) Officers will hold up a placard stating the serial number of the arrest.
   2) At the field booking facility, the Custody Officer (s) shall maintain the second photograph, until release of the suspect.
j. Arrestees shall be handcuffed either by department field arrest handcuffs or by the use of flex cuffs, behind the back, unless physical abnormalities or other conditions warrant a modified physical restraint of the suspect.

The transportation and field-booking officers at the field booking facility shall perform booking searches and removal of personal belongings and property jointly.

n. Juveniles, who are in the company of adults who are being arrested, shall be transported separately to the Police Department, where they will be supervised and kept separated from adults until a responsible adult family member or other legal guardian arrives and takes custody of the juvenile; unless a responsible adult is available at the scene at the time of arrest.

1) Officers are reminded of the immediacy of exhausting event resources when an adult with exceptionally young children is to be arrested.

2) Such an arrest may be detrimental to event deployment if there is likelihood that other family or adult guardians will not be available to assume custody of the child.

3) In cases such as these, an adult arrestee may be considered for an expedited processing and release either via CPC 849b or on his or her own recognizance.

o. An arrestee can be released via one of the following ways:

1) Notice to Appear (citation).

2) Pursuant to CPC 849 (B) 1 or 2.

3) To the custody of County Jail.

4) To the custody of Juvenile Intake (if a juvenile).

5) To a parent or legal guardian (if a juvenile).

6) To a medical facility, after completion of a citation or CPC 849(b).

p. Prior to release, all persons taken into custody shall be the subjects of a standard department records check to determine if additional wants for the arrestee exists.

B. Confinement and Detention Facilities:

1. At the scene of a multiple simultaneous arrest situation, the Incident Commander or designee shall establish a secure Field Pre-Booking Facility and work with the Sheriff's office to provide transportation via bus.

   c. Citations will be issued according to Department policy, and pursuant to Court stipulations.
   d. Juveniles shall be released via current required formats, which shall include all Juvenile Court mandated forms.

7. Juveniles
   a. If an exceptionally large number of juveniles are considered for arrest, the Incident Commander or designee shall contact the Juvenile Intake and advise of the number of juveniles who will be considered for transportation due to lack of available legal guardians, or the severity of the offense.
   b. Juveniles will be segregated from adults as well as opposite sex arrestees at the field booking facility.
   c. Departmental processing shall be the same as adults.
   d. Once processed, all juveniles who can be released shall be released when their legal guardians arrive. Those juveniles who must be transported shall be released as soon as available personnel are identified and assigned by the Incident Commander or designee.

8. Food, water, sanitation, and medical treatment
   a. Arrestees will be afforded the opportunity to utilize restroom facilities, if needed, and when personnel are available to escort the arrestee.
      1) Use of building facilities near the temporary holding area shall be the first consideration.
      2) Movement or transfer of arrested individuals to a detention center should also be considered.
   b. Because of the short duration of detention, providing for food should not be necessary. Arrestees will be provided water, if requested. In operations lasting
beyond two hours, consideration will be given to providing field water locations utilizing supplies and equipment available for Emergency Management (EOC Storage).

c. Medical treatment:

1) Any person injured or complaining of an injury shall be afforded medical treatment.
2) Depending on type of injury paramedics shall be dispatched at the request of an officer.

I. Inter-agency Agreements:

a. The Critical Response Unit will be utilized first, with additional resources sought from the San Francisco Police Department when necessary.
b. The intent of the actions taken in response to multiple simultaneous arrests,
dependant on time factors, is to be self-supported by using campus resources, then system resources, and regional agencies if needed.

Rather, it is meant to supplement these weapons, which remain the most appropriate weapons in most situations requiring the use of firearms.

Nothing in this order will be construed as a substitute for the utilization of the San Francisco Police Department Specialists or SWAT team.

II. POLICY:

Officers of the San Francisco State University Police Department shall only carry those firearms and types of ammunition authorized by this policy. They shall possess and carry firearms in a safe and professional manner that does not unduly concern the public, and promotes a positive image of the department. 1. An officer with a patrol rifle or shotgun can neutralize suspects with selective rifle fire or delivery of 00 buck/ 1 oz slug rounds during the course of, prior to, or after violent acts being committed that threaten, endanger or will result in the loss of lives. The patrol rifle has the capability to project deadly force far beyond the standard patrol weapons, such as the handgun. Typically, handguns and shotguns have an effective range of 25 yards. The utilization of a patrol rifle will extend the distance between the officer and the suspect and, in situations when the suspect may not be heavily armed, the officer will have the advantage.
2. Other services that an officer with a patrol rifle/ shotgun may provide are:

   a. Protecting movement of evacuation officers,
   b. Cover for officers involved in tactical situations
   c. Cover for officers involved in emergency rescue operations.
   d. Securing the perimeter to apprehend or neutralize any suspect(s) and assisting the entry team in accomplishing its objective.

B. Authorized Support Weapons

2. The only support weapons approved by this department are:

   b. Remington 870 (12 Gauge)

3. It is the individual officer’s responsibility to maintain the assigned rifle in good, clean working order and to ensure that all attached, department approved accessories are fully functional.

4. If the rifle or shotgun becomes unserviceable, the weapon will be taken out of service immediately and the condition reported to their supervisor and a department armorer immediately.

C. Ammunition

1. Only approved department issued ammunition will be carried in any rifle/ shotgun while on duty.

   a. .223 Law Enforcement (LE)
   b. 12 Gauge 00 Buck or 1 oz slug

E. Qualification

1. Only officers who have passed the department’s patrol rifle and shotgun training courses and are authorized to carry the patrol rifle or shotgun. Officers shall also be required to successfully complete annual training with the rifle and shotgun. Officers will not loan their assigned rifle to another officer, except when necessary to resolve
an immediate, life threatening, emergency situation.

F. Vehicle Rifle Storage Procedure

1. An officer carrying a patrol rifle will adhere to the following requirements to ensure the rifle is carried in a safe and secure manner:
   a. Rifle will be removed from the officer’s weapon locker at the beginning of each shift and returned to the locker at the end of the shift. The rifle will be carried with the safety on, the chamber empty, and a loaded magazine locked in place.
   b. Rifle carried in a vehicle will be secured in a locking clamp.

2. After being involved in an incident which requires the officer to chamber a round in the rifle, the officer will unload the chambered round and exchange the chambered round for a fresh round with the watch commander, reload the magazine, lock the magazine back into place, and make sure the safety is on before returning the rifle to the vehicle.

G. Vehicle Shotgun Storage Procedure

1. An officer carrying a patrol shotgun will adhere to the following requirements to ensure the shotgun is carried in a safe and secure manner:
   a. Shotgun will be checked out at the beginning of each shift and turned in at the end of the shift. The exception to this is when the patrol car with shotgun will be used by a relieving officer. Shotgun will be carried with the safety on, the chamber empty, and a loaded magazine tube.
   b. Shotgun carried in a vehicle will be secured in a locking clamp.

2. After being involved in an incident which requires the officer to chamber a round in the shotgun, the officer will unload the chambered round, reload the magazine tube, and make sure the safety is on before returning the shotgun to the vehicle.

H. Program Disqualification

1. An officer who fails to maintain the required training level or fails to achieve a passing score during the annual qualification period will be removed from the support weapon program until they qualify.

The overall goal of this program is traffic enforcement in the areas surrounding San Francisco State University, with the intersection of 19th Avenue and Holloway Avenue being the motor officer’s primary assignment. Motor officers may be assigned to other details at the discretion of the Operations Division Commander.

II. POLICY: It shall be the policy of the San Francisco State University Police Department to provide rigorous enforcement of all vehicular and pedestrian violations on roadways immediately adjacent to the campus, particularly those areas heavily used by members of the University community. The department may utilize police motorcycles as a mode of enforcement in order to accomplish this task.

III. DEFINITIONS:

I. Traffic Patrol: The part of law enforcement traffic supervision that consists of driving or walking within an area or a roadway for the purpose of providing protection, security, and service to the public.

IV. PROCEDURES:

A. Usage Objective: Due to the engineering of the roadways and the volume of traffic during peak hours, motorcycles have proven to be an effective enforcement vehicle due to their maneuverability and size. It is the primary objective of this program to utilize motorcycle officers and take advantage of the motorcycle's maneuverability in enforcing traffic in the surrounding area of San Francisco State University. Motorcycles will be utilized for the primary purpose of traffic enforcement, accident investigation, and to a lesser degree, call response. Police Motorcycles are considered “authorized emergency response vehicles” per California Vehicle Code 165.

B. Motorcycle Operations:

   c. A motor officer involved in a pursuit shall discontinue the pursuit as soon as marked patrol vehicles join the pursuit.
   d. A motor officer should not join in a pursuit if he/she was not the initiating unit.

      1) Crimes in progress that do not pose a life threatening or physically dangerous situation.
      2) Medical assistance that is not of a life threatening nature.
      3) Alarms (if notification is such that the dispatcher has knowledge of a burglary in progress, the response may be changed to a Code 3 response).

b. Officers responding to calls, regardless of the seriousness, must exercise due caution in their response and their actions must meet the test of reasonableness.
c. Officers responding to calls for assistance are expected to arrive promptly and safely.
d. The situation itself may dictate the type of response required based on information provided by the dispatcher, or previous experience with the persons or location involved.
e. Officers should keep in mind the civil liability involved and the public observation and scrutiny of his/her actions.
f. When responding Code 3, the blue and red lights are used and the siren shall be used as reasonably necessary per 21055 C.V.C.
g. The siren should be operated throughout its entire tone scale, fluctuating from a high to low pitch.
h. Where the possibility of traffic conflict is present, the blue and red lights and siren should be actuated sufficiently in advance so that pedestrians and motorists may have adequate warning of the approach of an emergency vehicle.
i. Under the following circumstances an officer may proceed Code 3 without direction from the Shift Supervisor or dispatcher:

1) The immediate pursuit of a suspected or actual violator of the law.
2) As the result of an observation of an “emergency situation.”
3) When the Shift Supervisor is not available and from information received from
the dispatcher, the officer deems a life-threatening situation exists.

j. An officer will immediately notify the dispatcher that he/she is preceding Code 3, and give the circumstances.

k. All employees and occupants of vehicles must wear seatbelts. Exceptions include:

1) When arriving at an emergency call, the operator may move the restraint device just prior to stopping for quick exit and to prevent becoming entangled in the restraint device.
2) Department personnel may remove the safety restraint device just prior to coming to a stop on a vehicle/traffic stop.
3) If a passenger or operator has a physically disabling or medical condition, which prevents appropriate restraint in a safety belt, use of a seatbelt is not required. The condition must be duly certified by a licensed physician, surgeon or chiropractor who state the nature of the condition, as well as the reason the restraint is inappropriate.

l. Child safety restraints shall be used at all times in accordance with California Vehicle Code Section 27360.

2. Dispatcher responsibilities

a. Upon receiving calls for assistance, the dispatcher will obtain sufficient information to:

1) Determine the nature of the call; and
2) Assign the appropriate units.

3. Supervisor responsibilities

a. Shift Supervisors are responsible for monitoring response modes for calls for assistance and have the authority to upgrade or downgrade assigned modes.
b. Shift Supervisors will monitor the response mode of responding officers and ensure that the policies set forth in this directive are adhered to.

D. Use of Emergency Warning Devices:

1. When responding in an emergency response mode, emergency lights and siren may be deactivated at a distance from the scene so as not to alert subjects to law enforcement proximity.
2. When emergency warning devices are deactivated, the operator of the emergency vehicle must comply with posted speed limits, obey all traffic control devices and comply with all laws and rules of the road.
3. Emergency lights/siren may be used to stop a motor vehicle and to provide a safe environment for the vehicle operator, officer and the public.
4. Officers may activate emergency equipment when required to facilitate the safe and
orderly flow of traffic and when assisting motorists.

V. APPENDIX:

A. HR 2003-11 Emergency Police Vehicle Use

VI. ATTACHMENT: None
I. PURPOSE AND SCOPE

A. Purpose and Scope:

Vehicle pursuits expose innocent citizens, law enforcement officers and fleeing violators to the risk of serious injury or death. The primary purpose of this policy is to provide officers with guidance in balancing the safety of the public and themselves against law enforcement's duty to apprehend violators of the law. Another purpose of this policy is to reduce the potential for pursuit-related collisions. Vehicular pursuits require officers to exhibit a high degree of common sense and sound judgment. Officers must not forget that the immediate apprehension of a suspect is generally not more important than the safety of the public and pursuing officers.

Deciding whether to pursue a motor vehicle is a critical decision that must be made quickly and under difficult and unpredictable circumstances. In recognizing the potential risk to public safety created by vehicular pursuits, no officer or supervisor shall be criticized or disciplined for deciding not to engage in a vehicular pursuit because of the risk involved. This includes circumstances where department policy would permit the initiation or continuation of the pursuit. It is recognized that vehicular pursuits are not always predictable and decisions made pursuant to this policy will be evaluated according to the totality of the circumstances reasonably available at the time of the pursuit.

Officers must remember that the most important factors to the successful conclusion of a pursuit are proper self-discipline and sound professional judgment. Officer's conduct during the course of a pursuit must be objectively reasonable; that is, what a reasonable officer would do under the circumstances. An unreasonable individual’s desire to apprehend a fleeing suspect at all costs has no place in professional law enforcement.

B. Vehicle Pursuit Defined:

A vehicle pursuit is an event involving one or more law enforcement officers attempting to
apprehend a suspect, who is attempting to avoid arrest while operating a motor vehicle by using high-speed driving or other evasive tactics, such as driving off a highway, turning suddenly, or driving in a legal manner but willfully failing to yield to an officer’s signal to stop.

II. OFFICER RESPONSIBILITIES

A. Officer Responsibilities

It shall be the policy of this department that a vehicle pursuit shall be conducted only with red light and siren as required by Vehicle Code § 21055 for exemption from compliance with the rules of the road. The following policy is established to provide officers with guidelines for driving with due regard and caution for the safety of all persons using the highway as required by Vehicle Code § 21056.

B. When to Initiate and/or Continue a Pursuit

Officers are authorized to initiate a pursuit when it is reasonable to believe that a suspect is attempting to evade arrest or detention by fleeing in a vehicle.

The following factors individually and collectively shall be considered in deciding whether to initiate and/or continue a pursuit:

1. Seriousness of the known or reasonably suspected crime and its relationship to community safety.
2. The importance of protecting the public and balancing the known or reasonably suspected offense and the apparent need for immediate capture against the risks to officers, innocent motorists and others.
3. Apparent nature of the fleeing suspects (e.g., whether the suspects represent a serious threat to public safety).
4. The identity of the suspects has been verified and there is comparatively minimal risk in allowing the suspects to be apprehended at a later time.
5. Safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic and the speed of the pursuit relative to these factors.
6. Pursuing officer’s familiarity with the area of the pursuit, the quality of radio communications between the pursuing units and the dispatcher/supervisor and the driving capabilities of the pursuing officers under the conditions of the pursuit.
7. Weather, traffic and road conditions that substantially increase the danger of the pursuit beyond the worth of apprehending the suspect.
8. Performance capabilities of the vehicles used in the pursuit in relation to the speeds and other conditions of the pursuit.
10. Other persons in or on the pursued vehicle (e.g., passengers, co-offenders and hostages).
11. Availability of other resources such as helicopter assistance.
12. The police unit is carrying passengers other than police officers. Pursuits should not be undertaken with a prisoner in the police vehicle.
C. When to Terminate a Pursuit:

The factors listed in When to Initiate and/or Continue a Pursuit of this policy are expressly included herein and will apply equally to the decision to discontinue as well as the decision to initiate and/or continue a pursuit. Officers and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists and themselves when electing to continue a pursuit. In the context of this policy, the term “terminate” shall be construed to mean discontinue or to stop chasing the fleeing vehicle.

In addition to the factors listed in When to Initiate and/or Continue a Pursuit of this policy, the following factors should also be considered in deciding whether to terminate a pursuit:

1. Distance between the pursuing officers and the fleeing vehicle is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time and/or distance.
2. Pursued vehicle’s location is no longer definitely known.
3. Officer’s pursuit vehicle sustains any type of damage that renders it unsafe to drive.
4. Extended pursuits of violators for misdemeanors not involving violence or risk of serious harm (independent of the pursuit) are discouraged.
5. There are hazards to uninvolved bystanders or motorists.
6. If the identity of the offender is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit, officers should strongly consider discontinuing the pursuit and apprehending the offender at a later time.
7. Pursuit is terminated by a supervisor.

D. Speed Limits:

The speed of a pursuit is a factor that should be evaluated on a continuing basis by the officer and supervisor. Evaluation of vehicle speeds shall take into consideration public safety, officer safety and the safety of the occupants of the fleeing vehicle.

Should high vehicle speeds be reached during a pursuit, officers and supervisors shall also consider these factors when determining the reasonableness of the speed of the pursuit:

1. Pursuit speeds have become unreasonably unsafe for the surrounding conditions.
2. Pursuit speeds have exceeded the driving ability of the officer.
3. Pursuit speeds are beyond the capabilities of the pursuit vehicle thus making its operation unsafe.

III. PURSUIT UNITS

A. Pursuit Units:

Pursuit units should be limited to three vehicles. However, the number of units involved will vary with the circumstances. An officer or supervisor may request additional units to join a pursuit if,
after assessing the factors outlined above, it appears that the number of officers involved would be insufficient to safely arrest the suspect(s). All other officers should stay out of the pursuit, but should remain alert to its progress and location. Any officer who drops out of a pursuit may then, if necessary, proceed to the termination point at legal speeds, following the appropriate rules of the road.

B. Vehicles without Emergency Equipment

Vehicles not equipped with red light and siren are generally prohibited from initiating or joining in any pursuit and are required to follow the rules of the road. The exemptions provided by Vehicle Code § 21055 do not apply to officers using vehicles without emergency equipment.

C. Primary Unit Responsibilities

The initial pursuing unit will be designated as the primary pursuit unit and will be responsible for the conduct of the pursuit unless it is unable to remain reasonably close enough to the violator’s vehicle. The primary responsibility of the officer initiating the pursuit is the apprehension of the suspects without unreasonable danger to him/herself or other persons.

Notify Communications that a vehicle pursuit has been initiated and as soon as practicable provide information including, but not limited to:

1. Reason for the pursuit.
2. Location and direction of travel.
3. Speed of the fleeing vehicle.
4. Description of the fleeing vehicle and license number, if known.
5. Number of known occupants.
6. The identity or description of the known occupants.
7. Information concerning the use of firearms, threat of force, injuries, hostages or other unusual hazards.

Unless relieved by a supervisor or secondary unit, the officer in the primary unit shall be responsible for the broadcasting of the progress of the pursuit. Unless practical circumstances indicate otherwise, and in order to concentrate on pursuit driving, the primary officer should relinquish the responsibility of broadcasting the progress of the pursuit to a secondary unit or aircraft joining the pursuit.

D. Secondary Units Responsibilities

The second officer in the pursuit is responsible for the following:

1. The officer in the secondary unit should immediately notify the dispatcher of entry into the pursuit.
2. Remain a safe distance behind the primary unit unless directed to assume the role of primary officer, or if the primary unit is unable to continue the pursuit.
3. The secondary officer should be responsible for broadcasting the progress of the
pursuit unless the situation indicates otherwise.

E. Pursuit Driving Tactics:

The decision to use specific driving tactics requires the same assessment of considerations outlined in the factors to be considered concerning pursuit initiation and termination. The following are tactics for units involved in the pursuit:

1. Officers, considering their driving skills and vehicle performance capabilities, will space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle.
2. Because intersections can present increased risks, the following tactics should be considered:
   a. Available units not directly involved in the pursuit may proceed safely, based on conditions and circumstances, to controlled intersections ahead of the pursuit in an effort to warn cross traffic.
   b. Pursuing units should exercise due caution when proceeding through intersections.
3. As a general rule, officers should not pursue a vehicle driving left of center (wrong way) on a freeway. In the event that the pursued vehicle does so, the following tactics should be considered:
   a. Requesting assistance from an air unit.
   b. Maintaining visual contact with the pursued vehicle by paralleling it on the correct side of the roadway.
   c. Requesting other units to observe exits available to the suspects.
4. Notifying the California Highway Patrol (CHP) and/or other jurisdictional agency if it appears that the pursuit may enter their jurisdiction.
5. Officers involved in a pursuit should not attempt to pass other units unless the situation indicates otherwise or they are requested to do so by the primary unit.

F. Tactics/Procedures for Units Not Involved in the Pursuit:

There should be no paralleling of the pursuit route. The term paralleling means the deliberate tactic of a vehicle operator to mirror on adjacent streets the direction and speed of vehicles actively involved in an authorized pursuit. Officers are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public. Officers should remain in their assigned area and should not become involved with the pursuit unless directed otherwise by a supervisor.

Non-pursuing personnel needed at the termination of the pursuit should respond in a nonemergency manner, observing the rules of the road, unless otherwise requested.

The primary and secondary units should be the only units operating under emergency conditions (red light and siren) unless other units are assigned to the pursuit.
G. Pursuit Trailing

In the event the initiating unit from this agency either relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of a supervisor, trail the pursuit to the termination point in order to provide necessary information and assistance for the arrest of the suspects.

The term trail means to follow the path of the pursuit at a safe speed while obeying all traffic laws and without activating emergency equipment. If the pursuit is at a slow rate of speed, the trailing unit will maintain sufficient distance from the pursuit units so as to clearly indicate an absence of participation in the pursuit.

H. Aircraft Assistance

When available, aircraft assistance should be requested. Once the air unit has established visual contact with the pursued vehicle, it should assume control over the pursuit. The primary and secondary ground units should consider the participation of aircraft assistance when determining whether to continue the pursuit.

The air unit should coordinate the activities of resources on the ground, report progress of the pursuit and provide officers and supervisors with details of upcoming traffic congestion, road hazards, or other pertinent information to evaluate whether or not to continue the pursuit. If ground units are not within visual contact and the air unit determines that it is unsafe to continue the pursuit, the air unit has the authority to terminate the pursuit.

IV. SUPERVISORY CONTROL AND RESPONSIBILITY

A. Supervisory Control and Responsibility

It is the policy of this department that available supervisory and management control will be exercised over all vehicle pursuits involving officers from this department.

The Supervisor will be responsible for the following:

1. Upon becoming aware of a pursuit, immediately ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit in order to ensure that the pursuit is conducted within established department guidelines.
2. Engaging in the pursuit, when appropriate, to provide on-scene supervision.
3. Exercising management and control of the pursuit even if not engaged in it.
4. Ensuring that no more than the number of required police units needed are involved in the pursuit under the guidelines set forth in this policy.
5. Directing that the pursuit be terminated if, in his/her judgment, it is unjustified to continue the pursuit under the guidelines of this policy.
6. Ensuring that aircraft are requested if available.
7. Ensuring that the proper radio channel is being used.
8. Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this agency.
9. Control and manage Department units when a pursuit enters another jurisdiction.
10. Preparing post-pursuit critique and analysis of the pursuit for training purposes.

B. Watch Commander Responsibility:

Upon becoming aware that a pursuit has been initiated, the Watch Commander should monitor and continually assess the situation and ensure the pursuit is conducted within the guidelines and requirements of this policy. The Watch Commander has the final responsibility for the coordination, control and termination of a vehicle pursuit and shall be in overall command. The Watch Commander shall review all pertinent reports for content and forward to the Deputy Chief.

V. COMMUNICATIONS

A. Communications:

If the pursuit is confined within radio range, radio communications will be conducted on the primary channel unless instructed otherwise by a supervisor or communications dispatcher. If the pursuit leaves the jurisdiction of this department or such is imminent, involved units should communicate with participating agencies and units per Department radio procedures.

B. Communications Center Responsibilities:

Upon notification that a pursuit has been initiated, Communications will:

1. Coordinate pursuit communications of the involved units and personnel.
2. Notify and coordinate with other involved or affected agencies as practicable.
3. Ensure that a field supervisor is notified of the pursuit.
4. Assign an incident number and log all pursuit activities.
5. Broadcast pursuit updates as well as other pertinent information as necessary.
6. Notify the Watch Commander as soon as practicable.

C. Loss of Pursued Vehicle:

When the pursued vehicle is lost, the primary unit should broadcast pertinent information to assist other units in locating suspects. The primary unit will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

VI. INTER-JURISDICTIONAL CONSIDERATIONS

A. Inter-Jurisdictional Considerations:

When a pursuit enters another agency's jurisdiction, the primary officer or supervisor, taking into consideration distance traveled, unfamiliarity with the area and other pertinent facts, should determine whether to request the other agency to assume the pursuit. Unless entry into another
jurisdiction is expected to be brief, it is generally recommended that the primary officer or supervisor ensure that notification is provided to each outside jurisdiction into which the pursuit is reasonably expected to enter, regardless of whether such jurisdiction is expected to assist.

B. Assumption of Pursuit by Another Agency

Units originally involved will discontinue the pursuit when advised that another agency has assumed the pursuit and assistance of the Department is no longer needed. Upon discontinuing the pursuit, the primary unit may proceed upon request, with or at the direction of a supervisor, to the termination point to assist in the investigation.

The role and responsibilities of officers at the termination of a pursuit initiated by this department shall be coordinated with appropriate consideration of the units from the agency assuming the pursuit.

Notification of a pursuit in progress should not be construed as a request to join the pursuit. Requests to or from another agency to assume a pursuit should be specific. Because of communication limitations between local agencies and CHP units, a request for CHP assistance will mean that they will assume responsibilities for the pursuit. For the same reasons, when a pursuit leaves the freeway and a request for assistance is made to this department, the CHP should relinquish control.

C. Pursuits Extending into This Jurisdiction

The agency that initiates a pursuit shall be responsible for conducting the pursuit. Units from this department should not join a pursuit unless specifically requested to do so by the agency whose officers are in pursuit. The exception to this is when a single unit from the initiating agency is in pursuit. Under this circumstance, a unit from this department may join the pursuit until sufficient units from the initiating agency join the pursuit.

When a request is made for this department to assist or take over a pursuit from another agency that has entered this jurisdiction, the supervisor should consider these additional following factors:

1. Ability to maintain the pursuit
2. Circumstances serious enough to continue the pursuit
3. Adequate staffing to continue the pursuit
4. The public's safety within this jurisdiction
5. Safety of the pursuing officers

As soon as practicable, a supervisor or the Watch Commander should review a request for assistance from another agency. The Watch Commander or supervisor, after consideration of the above factors, may decline to assist in, or assume the other agency’s pursuit.

Assistance to a pursuing allied agency by officers of this department will terminate at the University limits provided that the pursuing officers have sufficient assistance from other sources. Ongoing participation from this department may continue only until sufficient assistance is present.
In the event that a pursuit from another agency terminates within this jurisdiction, officers shall provide appropriate assistance to officers from the allied agency including, but not limited to, scene control, coordination and completion of supplemental reports and any other assistance requested or needed.

VII. PURSUIT INTERVENTION

A. Pursuit Intervention:

Pursuit intervention is an attempt to terminate the ability of a suspect to continue to flee in a motor vehicle through tactical application of technology, road spikes, blocking, boxing, PIT (Pursuit Intervention Technique), ramming or roadblock procedures. In this context, ramming shall be construed to mean maneuvering the police unit into contact with the pursued vehicle to mechanically disable or forcibly position it such that further flight is not possible or practical. The techniques described below may only be used by members of the Department if authorized by the Chief of Police, absent exigent circumstances.

B. Definitions:

*Blocking or vehicle intercept* - A slow-speed coordinated maneuver where two or more patrol vehicles simultaneously intercept and block the movement of a suspect vehicle, the driver of which may be unaware of the impending enforcement stop, with the goal of containment and preventing a pursuit. Blocking is not a moving or stationary road block.

*Boxing-in* - A tactic designed to stop a violator’s vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop.

*Pursuit Intervention Technique (PIT)* - A low-speed maneuver designed to cause the suspect vehicle to spin out and terminate the pursuit.

*Ramming* - The deliberate act of impacting a violator’s vehicle with another vehicle to functionally damage or otherwise force the violator’s vehicle to stop.

*Roadblocks* - A tactic designed to stop a violator’s vehicle by intentionally placing an emergency vehicle or other immovable object in the path of the violator’s vehicle.

*Spikes or tack strips* - A device that extends across the roadway designed to puncture the tires of the pursued vehicle.

C. Use of Firearms:

The use of firearms to disable a pursued vehicle (i.e. shooting out a tire) is not generally an effective tactic and involves all the dangers associated with discharging firearms. Officers should not utilize firearms during an ongoing pursuit unless the conditions and circumstances dictate that such use reasonably appears necessary to protect life. Nothing in this section shall be construed to prohibit any officer from using a firearm to stop a suspect from using a vehicle as a deadly weapon.
D. Intervention Standards:

Any pursuit intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to the officers, the public or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of deadly force and subject to the requirements for such use. Officers shall consider these facts and requirements prior to deciding how, when, where and if an intervention tactic should be employed.

1. Blocking or vehicle intercept should only be considered in cases involving felony suspects or impaired drivers who pose a threat to public safety when officers reasonably believe that attempting a conventional enforcement stop will likely result in the driver attempting to flee in the vehicle. Because of the potential risks involved, this technique should only be employed by officers after giving consideration to the following:
   a. The risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.
   b. Other reasonable intervention techniques have failed or reasonably appear ineffective.
   c. The target vehicle is stopped or traveling at a low speed.

2. Only those officers trained in the use of the Pursuit Intervention Technique (PIT) will be authorized to use this procedure and only then with approval of a supervisor upon consideration of the circumstances and conditions presented at the time, including the potential for risk of injury to officers, the public and occupants of the pursued vehicle.

3. Ramming a fleeing vehicle should be reserved for situations where there does not appear to be another reasonable alternative method. This policy is an administrative guide to direct officers in their decision-making process before ramming another vehicle. When ramming is used as a means to stop a fleeing vehicle, one or more of the following factors should be present:
   a. The suspect is an actual or suspected felon who reasonably appears to represent a serious threat to the public if not apprehended.
   b. The suspect is driving with willful or wanton disregard for the safety of other persons or is driving in a reckless and life-endangering manner.
   c. If there does not reasonably appear to be a present or immediately foreseeable serious threat to the public, the use of ramming is not authorized.

4. Pursuing officers should obtain supervisor approval before attempting to box a suspect vehicle during a pursuit. The use of such a technique must be carefully coordinated with all involved units, taking into consideration the circumstances and conditions presented at the time as well as the potential risk of injury to officers, the public and occupants of the pursued vehicle.

5. The use of spike strips should be approved in advance by a supervisor and deployed only when it is reasonably certain that only the pursued vehicle will be affected by their use. Officers should carefully consider the limitations of such devices as well as the potential risks to officers, the public and occupants of the pursued vehicle. If the pursued vehicle is a motorcycle, a vehicle transporting hazardous materials, or a school bus transporting children, officers and supervisors should weigh the potential
consequences against the need to immediately stop the vehicle.

6. Because roadblocks involve a potential for serious injury or death to occupants of the pursued vehicle if the suspect does not stop, the intentional placement of roadblocks in the direct path of a pursued vehicle is generally discouraged and should not be deployed without prior approval of a supervisor and only then under extraordinary conditions when all other reasonable intervention techniques have failed or reasonably appear ineffective and the need to immediately stop the pursued vehicle substantially outweighs the risks of injury or death to occupants of the pursued vehicle, officers or other members of the public.

E. Capture of Suspects:

Unless relieved by a supervisor, the primary officer should coordinate efforts to apprehend the suspects following the pursuit. Officers should consider safety of the public and the involved officers when formulating plans to contain and capture the suspects.

VIII. REPORTING REQUIREMENTS

A. Reporting Requirements:

The following reports should be completed upon conclusion of all pursuits:

1. The primary officer should complete appropriate crime/arrest reports.
2. The Department shall ensure that an Allied Agency Vehicle Pursuit Report (form CHP 187A) is filed with the CHP not later than 30 days following the pursuit (Vehicle Code § 14602.1). The primary officer should complete as much of the required information on the form as is known and forward the report to his or her supervisor for review and distribution.
3. After first obtaining the available information, a shall promptly complete a memorandum, briefly summarizing the pursuit, shall be completed, as assigned by the Chief of Police or designee, and submit it to him/her. This memorandum should minimally contain the following information:
   a. Date and time of pursuit
   b. Length of pursuit
   c. Involved units and officers
   d. Initial reason for pursuit
   e. Starting and termination points
   f. Disposition (arrest, citation), including arrestee information if applicable
   g. Injuries and/or property damage
   h. Medical treatment
   i. Name of supervisor at scene
   j. A preliminary determination whether the pursuit appears to be in compliance with this policy and whether additional review or follow-up is warranted

B. Regular and Periodic Pursuit Training
In addition to initial and supplementary Police Officer Standard Training (POST) training on pursuits required by Penal Code § 13519.8, all sworn members of this department will participate no less than annually in regular and periodic department training addressing this policy and the importance of vehicle safety and protecting the public at all times, including a recognition of the need to balance the known offense and the need for immediate capture against the risks to officers and others (Vehicle Code § 17004.7(d)).

C. Policy Review:

Each sworn member of this department shall certify in writing that they have received, read and understand this policy initially and upon any amendments. The POST attestation form, or an equivalent form, may be used to document the compliance and should be retained in the member’s training file.

IX. APPLICATION OF VEHICLE PURSUIT POLICY

This policy is expressly written and adopted pursuant to the provisions of Vehicle Code § 17004.7, with additional input from the POST Vehicle Pursuit Guidelines.

1. The San Francisco State University Police Department will actively enforce all alcohol and drug laws and regulations within state university jurisdiction.

2. The decision to arrest is usually determined by the following factors: driving behavior, involvement in an accident, field sobriety test, and other observations of the violator’s condition.

3. An individual will be considered under the influence of intoxicating alcohol and/or drugs if the substance(s) influence the violator’s/suspect’s driving ability to the slightest degree.

4. A driving under the influence contact evolves in separate phases:

   a. Observations of the vehicle in motion or at the scene of a collision;
   b. Personal contact;
   c. Pre-arrest screening; and
   d. Arrest and booking

5. During initial observation of the vehicle in operation, note any indications of a possible Driving Under the Influence (DUI) violation.

   a. The officer must decide whether or not there is sufficient cause to stop the vehicle, whether to conduct further investigation to determine if the suspect may be impaired, or to initiate a stop for another unrelated traffic violation.
   b. The officer is not committed to arresting the suspect for DUI based on his/her initial observation, but should concentrate on gathering all relevant evidence that may suggest impairment.

6. The officer is to approach, observe, and interview the driver while he/she is still in the vehicle to note any direct evidence of impairment. Some known symptoms are:

   a. Odor of alcoholic beverage;
   b. Watery eyes;
   c. Flushed complexion; and
   d. Talkative slurred speech.

If the subject chooses to submit with the PAS device, the officer shall administer a minimum of two tests and document the results of the test in the appropriate form (CHP 202).

10. In some cases, it may be necessary to contact an on duty Drug Recognition Expert (D.R.E.) from an outside agency, should there be a suspicion of illegal drug use as the impairing substance. Communications shall contact the San Francisco Police Department or the California Highway Patrol, and ascertain if there is an available D.R.E. on duty. If available, the D.R.E. will respond to the scene of the traffic stop, or the California State University Police station to conduct an evaluation of the person being detained.

11. The legal authority for arrest and to enforce D.U.I. laws is contained in the California Vehicle Code, Division 11, Chapter 12, Articles 1 and 2, and other specified sections. After the arrest, the suspect will be advised of California Vehicle Code section 13353 (Implied consent advisement) and will be given an opportunity to submit to any of the three specified chemical test. For the chemical test to be admitted into evidence, the following steps must be followed:

   a. The individual must be placed under arrest for any offense; and
   b. The individual must be advised of his/her rights under California Vehicle Code section 13353.

   a. Breath - If the suspect chooses breath, he/she will be transported to the California Highway Patrol (San Francisco station) and trained personnel shall administer a breathalyzer test on the suspect. The investigating officer shall advise the arrested violator, per the Trombetta decision

   a. The officer will admonish the subject of California Vehicle Code section 13353 a second time upon refusal.

   b. If the subject still refuses to comply with the section and submit to a chemical test, the officer will complete and submit an Officer Statement form, CVC 13353 (DMV DS367) and indicate on the reverse side, statements or actions that indicated refusal (officer should refer to the Department’s evidentiary blood draw policy for procedures regarding non-consensual blood draw).

d. The officer will photo copy the completed DMV DS367 (page 1, 2 & 3) and forward the original form (first 2 pages) to the California Department of Motor Vehicles. A copy of the DMV DS367 (page 1, 2, & 3) and the Yellow "Law Enforcement" copy will be attached to the original report. If the violator is 20 years of age or under, officers will use the Under Age 21 form (DMV DS367M).

14. Upon completion of all DUI arrest and appropriate DUI related forms, the officer shall transport the suspect to the San Francisco County Jail for processing. The subject shall be given the Pink “Driver” copy of the completed DMV DS367, which shall serve as the subject’s temporary driver license.

15. Driving Under the Influence Enforcement Countermeasures Program.

a. The arrest of an individual for driving under the influence of alcohol differs significantly from other traffic law violations. Any person who operates a motor vehicle while under the influence of alcohol and/or drugs or any other self-administered intoxicant(s) poses an unpredictable hazard to law abiding motorists; therefore, each officer of this department will make an intensified effort to remove this type of driver from the campus community.

b. The department has established a proactive alcohol education and enforcement program that has as its goal the reduction of accident--and injuries related to those accidents—involving alcohol and drugs.

c. All officers will receive training in the detection and prosecution of DUI cases. This will be accomplished by:

1) Training as provided by an accredited basic academy;
2) Training as part of a concentrated curriculum in the field of DUI investigations;
3) Training provided by the District Attorney;
4) Training provided via California POST video training;
5) Training provided as part of a field-training program for newly hired officers; and
6) Training provided as part of ongoing roll-call briefing.

d. Officers can be assigned on regular patrols to cover the locations where analyses have shown a significant number of violations and/or accidents that have occurred involving impaired drivers.

e. Officers can employ roadside checkpoints, either on-campus as part of an alcohol awareness program, or in cooperation with regional efforts, to deter drinking or driving.

f. The Department will include drinking and driving focus in alcohol awareness programming in new student orientations, new employee orientations, defensive-driving training and special event security demonstrations and programs.

D. Operation of a vehicle after driving privileges have been suspended or revoked.

1. If an officer contacts a traffic violator for driving while his license is suspended or
revoked, the officer may issue a traffic citation pursuant to sections 14601, 14601.1, and 14602.2 of the California Vehicle Code. The officer may add the additional charge of 12951(a), driving without a valid license, on the citation.

2. If a DMV check of traffic violator’s license status reveals a suspended or revoked drivers license, and service is needed, the officer shall take the license into his/her possession.

3. The officer will verbally advise the traffic violator of the suspension or revocation and issue the citation, as well as complete the Verbal Notice form (DMV DL310). This form is written notice to the violator that he/she has had their license status suspended/revoked. The white copy of this form shall be attached to the violator’s driver’s license, and sent to the Department of Motor Vehicles. The pink copy shall be issued to the driver of the vehicle and the canary copy shall be attached to the original report.

4. If a computer check with the Department of Motor Vehicles is not available, and the motorist fails to present the officer with a valid driver license, the officer may issue a citation for violation of California Vehicle Code 12951(a). Additional charges under California Vehicle Code 14601 may be sought if it is later determined that the violator was driving on a suspended or revoked license status.

5. An officer who issues a citation for violation under California Vehicle Code of section 12500(a) (expired driver license over 30 days or unlicensed CA residents) may store a motorist’s vehicle pursuant to section 22651(p) of this code. The vehicle shall not be released to the registered owner or his agent except upon presentation of a valid license to operate the vehicle or court order.

6. When officer determines a motorist is driving with a suspended or revoked driver’s license, or without ever having been issued a driver’s license, the officer may immediately remove and impound the vehicle for a mandatory 30 days, under California Vehicle Code section 14602.6. The vehicle shall not be released to the registered owner or his agent except upon presentation of a valid license to operate the vehicle or court order.

7. Suspended and Unlicensed driver violations generally require that the vehicle is towed. When the driver is cited/arrested for any sections of CVC 14601 or CVC 12500(a) and the vehicle is towed pursuant to 14602.6 or 22651(p) the Administrative Fee of $194.00 will apply, regardless if the vehicle is stored or impounded. Supervisors issuing a vehicle release for stored/impounded shall collect the Administrative Fee in a form of a Cashier’s Check or Money Order. If the Registered Owner wishes to pay the fee by cash they will have to go to the Bursar’s Office to make payment and provide the Department with a receipt.

8. Officers may use their discretion pertaining to the storing or impounding of a vehicle. Officers will complete the Vehicle Report form (CHP180) for stored/impounded vehicles.

9. Whenever a vehicle has been towed, and the unlicensed or suspended registered owner requests we release the vehicle to a licensed driver, the officer releasing the vehicle will ensure that the unlicensed or suspended owner of the vehicle signs a Stipulated Vehicle Release Agreement (DOJ/SVRA 14607.6). Upon proper completion of the form, the original of the form will be attached to the supplemental report documenting the release. The yellow copy will be given to the unlicensed or suspended registered owner of the vehicle. Officers will print neatly at the bottom of

L. Newly enacted laws and/or regulations.

1. When new laws are enacted or new traffic controls are installed, enforcement action may be made by verbal warning or citation.
2. Verbal warnings may be used in lieu of citations during a specified grace period for enforcement of new laws or new traffic controls or devices being used.

M. Violations resulting in traffic collisions.
1. Enforcement action should be taken whenever believed appropriate by the investigating officer, when:

   a. that officer has detected a violation of a traffic or relative law; and
   b. when evidence exists to satisfy all the elements of that particular violation.

2. At the scene of the accident, the officer may take immediate enforcement action and issue a Notice to Appear. 3. If the officer observes the violation, and after responding to the accident, chooses to do so, the officer may issue a Notice to Appear based on his/her observation.

4. If circumstances warrant, an officer may make an arrest for driving under the influence at an accident scene, if evidence is in accordance with CVC Section 40300.5.

5. If the identity of a driver who was involved in an accident but left the scene is determined through an officer’s investigation, they should obtain an arrest warrant.

6. Misdemeanor arrests at accident scenes: If an officer makes an arrest at an accident scene and takes the driver into custody, the officer will complete a Crime/Incident Report in addition to the traffic collision report.

N. Pedestrian and bicycle violations:

1. Pedestrian and bicycle violations are a priority on campus due to the high number of pedestrians walking through campus.

2. Bicyclists will be cited for any Vehicle Code violations observed. This will include stop sign and red light violations.

3. Bicyclists, pedestrians, and operators of mopeds and animals shall comply with the applicable laws. Officers shall employ proper discretion to each of these, with adherence to current directed patrol programming to those violators who are in violation of campus directives in accordance with CVC 21113(a).

4. Pedestrians should be warned when not utilizing marked crossing locations.

5. The enforcement will be commensurate with the pedestrian and bicycle accident experience/history, with specific emphasis being placed on educational and preventive measures.

O. Traffic Enforcement Practices:

1. Visible Traffic Control - Normal traffic enforcement involves visible traffic patrol by officers who observe and handle traffic violations during the performance of their normal duties.

   a. Area patrol involves traffic enforcement within an officer’s assigned area of responsibility.
   b. Line patrol involves traffic enforcement along and concentrating on a particular section of roadway.
   c. Directed patrol specifies enforcement efforts in an area or at a specific location,
depending on the nature of the violation being concentrated on (e.g., failure to yield to pedestrians in a crosswalk).

2. Stationary observation, either covert or overt, may be used as a technique to make observations about the flow of traffic in a particular location.

   a. Officers are encouraged, when completing reports or doing other activities which will keep them out of service for a short while, to park their patrol vehicles in a conspicuous location, where just the presence of the vehicle will serve to remind drivers of the need for compliance with traffic laws.
   b. Enforcement that requires the use of a covert location is less accepted by the motoring public, but may, at times, be the only way to resolve a particular concern.

3. Marked police vehicles will generally be used to effect traffic stops.

   a. Vehicles both marked and unmarked, used to effect traffic must be equipped with emergency lights, siren, and a police radio.
   b. Unmarked vehicles may be used for the enforcement of traffic laws, subject to availability and supervisor approval.
   c. Plain-clothes officers will not normally conduct traffic stops unless a serious violation is observed or circumstances are present which exposed the public to danger.

      1) Plain-clothes officers conducting traffic stops will advise Communications of the stop, location, vehicle license number, and the fact that they are in plain clothes.
      2) Communications will dispatch a uniformed officer to the location to act as the back up officer.
      3) Plain-clothes officers will clearly identify themselves to the violator and handle the enforcement actions.

   a. Vehicle Checkpoints should only be use to:

      1) Perform vehicle equipment checks;
      2) Perform sobriety checks; and
      3) Search for wanted felons or fugitives who have been reported as both possibly within the region of the university and considered armed and dangerous.

   b. Vehicle checkpoints will be authorized by the on duty watch commander, and will be performed via the use of traffic cones, flares and within a clearly established and designated area.
   c. Officers shall wear traffic vests and use traffic flashlights (flashlights required if in hours of darkness).
   d. Safe area routing will be designated so that vehicles can leave the affected area when appropriate.
e. Specific criteria will be developed prior to the function, and that criterion will be consistently applied throughout the checkpoint/roadblock. As an example, two appropriate standards would be:

1) All vehicles will be visually checked; or
2) All vehicles procedurally checked in sequence by number (as in every fifth vehicle)

P. Procedures for stopping and approaching traffic law violators. Upon observing a traffic violation, the officer shall follow the listed procedures.

1. Advise Communications that he/she will be making a traffic stop.
2. When Communications has acknowledged, give the location, license plate number, and the color/make/model of the vehicle.
3. Select the safest possible location for the stop. Be aware of traffic flow, pedestrian traffic, and occupied vehicles in your surrounding area.
4. Use overhead emergency lights and needed (Code 2 or 3) to stop the violator.
5. Position the patrol vehicle eight to ten feet behind the violator’s vehicle; offset approximately two feet to the left of the violator’s vehicle, to create a safety zone.
6. When the violator or patrol vehicle is on any part of the traveled portion of the roadway, activate all necessary emergency equipment to alert on coming vehicles that there is police activity.
7. Approach the violator’s vehicle using extreme caution, illuminating the interior of the vehicle with spotlights and “takedown” lights, when appropriate (i.e. evening, extreme darkness). Officers may choose to approach the vehicle from the passenger side if traffic stop is conducted on a freeway.
8. Request the violator’s license, vehicle registration, proof of insurance, or other appropriate documentation.
9. Inform the violator of the reason for the stop (violation, street, speed, and speed allowed/posted, etc.).
10. Conduct the appropriate records checks (vehicle license plate, driver’s license) and take appropriate enforcement action.
11. Obtain the violator’s signature on the citation, return documents, and give violator the yellow copy of the citation.
12. Allow violator to safely leave the location before leaving the scene.

Q. Procedures for officers to follow during interaction with traffic violators.

1. Officer shall, at all times, project a professional image when dealing with traffic violators.
2. Officer must understand that prior to contact, the driver may have already deemed the encounter a “negative” contact.
3. The seven-step car stop method is suggested:
   a. Greeting (Good Morning, Afternoon, or Evening);
   b. Identify yourself and police department;
   c. Obtain drivers license, registration, and insurance;
d. Advise the reason for the stop;
e. Justification (Was there a reason why you………?);
f. Decision (citation or warning); and
g. Close (Drive Safely/carefully).

4. Officers should attempt to calm violators who display signs of emotional distress as a result of the contact.

5. Officers who issue citations for traffic violations shall be equipped with the necessary forms, references, and equipment while on duty. All forms used by officers shall be properly completed.

R. Procedures for stopping unknown risk or suspected/known high-risk violators. Additional caution shall be employed in vehicle stops involving unknown risk or suspected/known high-risk violators, such as when one or more occupants of a vehicle are suspected to be armed and/or dangerous. The following procedures are to be followed under optimal circumstances; however, officers need to be flexible and adjust in accordance with the conditions at the scene.

1. Immediately notify Communications when a vehicle driven by an unknown risk or suspected high-risk individual is located.
2. When Communications has acknowledged, give current location, direction of travel, and a thorough description of the vehicle and all occupants.
3. Request additional units. If a sufficient number of SFSUPD units are not available, SFPD units may also be requested to assist.
4. If possible, avoid initiating the stop until cover units have arrived and are in position to assist immediately.
5. Select the safest possible location for the stop in order to maximize the officer’s position of advantage and minimize the danger to the public. Be aware of traffic flow, pedestrian traffic, and occupied vehicles in your surrounding area.
6. When additional units are positioned and conditions are favorable, use overhead emergency lights (Code 2 or 3) and siren to stop the violator.
7. Position the patrol vehicle in a safe manner behind the violator vehicle (i.e. to create a safety zone, patrol vehicle can be positioned approximately two to three car lengths behind and offset approximately four to five feet to the left of the violator vehicle.)
8. When appropriate (i.e. evening, extreme darkness), turn on all lighting equipment to illuminate the interior of the violator vehicle and place the occupants of the violator vehicle at a disadvantage. This tactic will also alert on-coming vehicles that there is police activity.
9. Depending upon the environmental conditions at the scene (i.e. road width, traffic conditions), responding units shall place their patrol vehicles to the right, left and/or rear of the primary officer in a safe manner.
10. Only one officer will issue commands to the suspect vehicle at a time.
11. Direct the occupants of the vehicle to keep their hands in sight at all times and to avoid sudden movements.
12. Direct the driver to shut off the ignition, remove the keys from the ignition and place the vehicle keys in a designated location.
13. If additional units have not arrived, the primary officer will maintain a stable situation
14. Additional officers, when available, shall assume handcuffing, searching and arrest responsibilities by stationing themselves at the doors of the lead units.

15. One at a time, direct the vehicle occupants to exit the vehicle in a predetermined order.

16. Direct persons exiting the vehicle to move slowly and keep their hands above their heads. Visually inspect the suspect(s) for weapons as they exit the vehicle.

17. Once the suspect has reached a safe location, order the suspect into a position of disadvantage (i.e. kneeling, prone).

18. Cover officer will handcuff suspect and move him/her to a safe location to conduct a search.

19. Conduct a thorough search of handcuffed suspect.

20. After all known occupants are removed from the vehicle, additional commands will be made to the vehicle on the assumption an additional occupant is concealed in the passenger compartment.

21. After a reasonable number of commands are given with no response, deploy a canine unit, if available, to make the initial search of the vehicle. If no canine unit is available, one or two officers shall approach in a low profile position and search the vehicle to confirm it is now unoccupied, including a trunk search.

22. After all occupants have been secured, search the vehicle’s interior for potential weapons prior to allowing anyone to return to the vehicle.

S. Use of speed measuring devices – LIDAR:

1. Equipment specifications:

   a. The speed measuring device(s) utilized by the department shall be the handheld or vehicle mounted LIDAR.

   b. Handheld LIDAR unit(s) shall be approximately 10 inches in length and 4 inches in width. The weight of the unit shall be light and easily manageable - approximately 3 to 4 pounds with batteries.

   c. Handheld LIDAR units shall either be corded or cordless units.

   d. Handheld LIDAR units shall function in a stationary mode only and are not to be used while the patrol vehicle is moving.

2. Operational Procedures, Proper Care, and Upkeep:

   a. Officers will operate the LIDAR unit primarily on and around the Department’s established jurisdiction.

   b. Violators may only be cited on streets that have been surveyed by a state certified traffic engineer within the last 5 years. Streets or roads not surveyed may be monitored; however Officers shall not issue LIDAR citations on non-surveyed roadways unless they meet the criteria for roadways that are exempt from survey per CVC section 40802.

   c. Officers should concentrate on areas where complaints have been received of vehicles operating at unsafe speeds.

   d. Officers will only operate the unit in/outside the patrol vehicle, in a stationary position.
e. Officers attempting to apprehend violators should exercise good judgment and avoid unsafe maneuvers in attempt to apprehend a violator.

f. As with all enforcement activities, officers are encouraged to utilize discretion when citing speeding violations and should weigh all circumstances involved when determining proper guidelines for the citing of speed violations. The following information is provided as a guideline and is not intended to be an absolute:

1) 0-9 miles above the speed limit – officer should consider warning violator.
2) 10-15 miles above the speed limit – officer discretion.
3) Over 15 miles above the speed limit – officer should issue citation to violator.

g. All speeding violations conducted with the use of the LIDAR unit will be documented on the citation (LIDAR unit’s serial number).

h. LIDAR Operational Check:

1) Officers will conduct a “self-test” on the unit, using the test button located on the face of the unit. The unit’s "self-test" function will ensure that the unit’s internal circuits and display are operating correctly.

2) A secondary check of the unit using predetermined distances of over fifty (50) feet, but not more that sixty (60) feet, and a distance over one hundred (100) feet, but not longer than one hundred ten (110) feet, shall be done with a reading not to exceed +/- 1 foot of the predetermined distance.

3) A third check of the LIDAR unit’s sighting will also be done before the unit is used for enforcement activity. This test is done by pointing the LIDAR at a telephone pole, with no structures behind the target. Point the LIDAR to one side or the other of the pole and pull the trigger. With the trigger depressed, bring the LIDAR sight across the telephone pole. The readout of the distance to the pole should appear only when the sight is on the pole and disappear when the sight moves off of the pole. The test should be repeated with the LIDAR turned ninety degrees (90%) in order to check both the horizontal and vertical sight alignment.

4) If a LIDAR fails any of the tests listed above, it will be taken out of service and not used for enforcement activities until it has been repaired.

5) The LIDAR unit will be secured in the squad room equipment cabinet and available for issue.

6) The LIDAR unit also has two battery chargers, one of which is located in the battery charging area in the squad room. This unit will charge two batteries at a time. The second charger, which also charges two batteries at a time, will stay with the carrying case and may be plugged into the lighter assembly of the patrol unit. Batteries will not be stored in the LIDAR unit when the LIDAR is not in use.

7) Officers should avoid spilling food, beverages or other liquids and substances on the unit.

8) To clean the device, dust it lightly with a soft clean cloth. The cloth should be free from any cleaning solutions.
9) The LIDAR unit shall be stored in its carrying case when not in use.

3. Programmed Maintenance:

   a. Per the California Vehicle Code section 40802(2)(D), the radar unit is to be factory calibrated every three years. The Traffic Unit Supervisor will also arrange to have the units sent out for calibration. The Traffic Supervisor will arrange to have the units sent out for calibration prior to the three year expiration.

4. Maintenance and Calibration Records:

   a. All maintenance and calibration records shall be maintained in the Traffic Unit files.
   b. Original copies of the maintenance and calibration documents shall not be distributed unless required for court proceedings.

5. Operator Training and Certification:

   a. All operators shall be P.O.S.T. Radar Operator certified as well as receive 8 hours of P.O.S.T. RADAR/Laser (LIDAR) Operator training from a P.O.S.T. qualified agency certifying officers in the use of stationary/moving Radar/LIDAR.
   b. The certification training shall include the following:

      1) The history and theory of LIDAR;
      2) Stationary LIDAR operation;
      3) LIDAR phenomenon;
      4) Speed survey information;
      5) California Penal Code as it relates to the use of LIDAR;
      6) Practical application of LIDAR;
      7) Speed estimation certification; and
      8) Courtroom demeanor and legal defenses.
   c. Those officers who complete the LIDAR certification course will be provided with a certificate of completion, from the training agency. A copy of the certificate will be kept in the officer’s training file.

T. Procedures for identification and referral of drivers recommended for reexamination by licensing authority (DMV).

   1. This guideline establishes procedures for requesting the re-examination of drivers, who appear to be physically or mentally incapable of operating a motor vehicle safely.
   2. It is not the intent of the department to call attention or cause a person to lose their driving privileges unnecessarily. However, the department and its members have an obligation to keep the public roadways in and around San Francisco State University safe for it’s visitors, students, and employees.
   3. Officers who have conducted a traffic stop and detained a person who appears to display any of the following that prevents him/her form exercising reasonable and
ordinary care over a motor vehicle, shall complete the appropriate forms and request a re-examination of the driver by the Department of Motor Vehicles:

a. Incompetence;
b. Physically or mentally disabled; or
c. Suffers from a disease or other possible disqualifying condition.

4. Officers shall comply with California Vehicle Code sections, 21061 and 21062, which outlines the Department of Motor Vehicles’ guidelines for the submission or re-examination request.

5. All re-examination notices (DMV DS427) shall be submitted to the DMV per California Vehicle Code section 21062. A copy of the re-examination notice shall be attached to the original citation for filing, or to the original report, if one is generated.

6. The driver shall not receive the pink copy of this form unless the officer feels that immediate re-examination is needed. If the pink copy is issued, the driver will receive priority when scheduling an appointment.

U. Parking Enforcement:

1. Parking Control Officers are the primary issuing authority for parking related violations.
2. Parking is enforced 7 days a week – 24 hours a day, by the Parking and Transportation Department.
3. Parking and Transportation will be contacted anytime there is a noted violation and shall utilize their discretion in the issuing of citations. The Watch Commander may select to issue a citation, if Parking and Transportation declines and cause exists.
4. Parking enforcement will be performed using applicable parking laws, as prescribed within the California Vehicle Code in Section 21113.
5. Parking enforcement will consist of a concerted effort to encourage appropriate use of the parking and access of facilities. The areas that will be patrolled and enforced on an ongoing basis are:

   a. Disabled/Handicapped parking spaces and zones; and
   b. Emergency vehicle spaces and zones.

6. Police officers who observed parking violations will determine if enforcement objectives warrant citations. The department encourages officers to enforce parking violations and when necessary, towing of violators who have left their vehicles in a location which represents a hazard to other traffic.

V. Specialized Traffic Enforcement Program:

1. The ultimate goal of a specialized traffic enforcement program is to encourage safe driving habits and to reduce traffic collisions. This may be achieved through the application of such techniques as geographical/temporal assignments of personnel and equipment and the establishment of preventive patrols to deal with specific categories of unsafe or unlawful driving behaviors. Such techniques will include, but
are not limited to, the following;

a. DUI Checkpoints  
b. DUI Patrol Saturations  
c. Red Light Enforcement Operations  
d. Speed Enforcement Operations  
e. Pedestrian Safety Programs  
f. Suspended/Revoked Drivers License Enforcement Operations  
g. Vehicle Safety Equipment Enforcement Operations  
h. Repeat DUI Offender Warrant Service Operations

2. The objective of a specialized traffic enforcement program is to direct appropriate  
   enforcement efforts toward violations, not only in proportion to the frequency of their  
   occurrence in collision situation, but also in terms of traffic-related needs identified  
   by the agency’s community. Specialized enforcement technique, and the procedures  
   describing the specific operation’s administration, shall be implemented at the  
   discretion of the Operations Division Commander.

W. All vehicles are excluded from campus- including police vehicles except:

1. when responding to emergencies  
2. to allow paramedics/fire access service vehicles and  
3. approved delivery/maintenance may be allowed on designated pathways

I. PURPOSE: The purpose of this directive is to establish guidelines for the investigation of traffic accidents occurring with the jurisdictional boundaries of San Francisco State University.

II. POLICY: Traffic accidents are investigated by officers to determine the cause and to review any violation(s) of the California Vehicle Code and California State University regulations. Accident information is also used to educate the public, allow the police agency to provide a safer environment where vehicles travel, and to protect the rights of the citizens involved.

III. DEFINITIONS:

A. Traffic Accident Investigation: Collection of factual information identifying and describing people, roads, and vehicles involved in an accident; description of the results of the accident in terms of damage to vehicles and roadside objects, injuries to people, marks and residue on the road, and final positions of vehicles and bodies; interpretation of these facts in terms of behavior of road users involved; and, sometimes, an attempt to specify the peculiar combination of factors required to produce that particular accident.

B. Traffic Accident Reporting: Basic data collection to identify and classify a traffic accident and the persons, vehicles, time/location, planned movements involved, and possible contributing factors, such as traffic law violations.

C. Traffic Control Device: All signs, signals, markings, and devices placed on, over, or adjacent to a street or highway by authority of a public body or official having jurisdiction to regulate, warn, or guide traffic.

D. Traffic Engineering Authorities: Persons responsible for traffic engineering in various local, regional, and state agencies.

E. Traffic Law Enforcement: Law enforcement as it applies to statutes, ordinances, and legally authorized regulations relating to the use of streets and highways and ownership/operation of motor vehicles and other road vehicles.

F. Traffic Law Enforcement Action: The part of traffic law enforcement involving arrests, citations, or warning of any person alleged to have violated a law, ordinance, or regulation pertaining
to the use of traffic ways, when the person has knowledge of this action and when it is to (1) prevent such violation from endangering persons or property or inconveniencing other users of the traffic-way, (2) prevent continued violation, or (3) discourage recurrences.

G. Traffic Law Violation: Violation of any statute, ordinance, or legally authorized regulation relating to the use of streets and highways or the operation and ownership of motor vehicles and other road vehicles.

H. Traffic Patrol: The part of law enforcement traffic supervision that consists of driving or walking within an area or a roadway for the purpose of providing protection, security, and service to the public.

I. Traffic Survey: An examination of traffic characteristics, such as volume, speed, delay, accidents, origin, destination, etc.

J. Traffic-way: The entire width between property lines or other boundary lines of every way or place of which any part is open to the public for purposes of vehicular travel as a matter of right or custom.

E. Officer Response:

1. The officer arriving at the scene of a traffic accident will be considered the “primary” officer and will be in charge until directed otherwise by a supervisor.
2. As the “primary” officer he/she should do the following:

Any vehicle that is towed will be inventoried, and particularly valuable items will be removed and kept for safekeeping at the police department until the owner or his/her designee can arrive to claim them.

i. Provide traffic control that includes safe and effective diversion around the accident scene.
j. Request towing services for vehicles with damage to the extent that towing is required, or if a driver request services.

3. When the department receives notification of accidents with injuries, officers will be dispatched to respond if the accident is within the jurisdictional boundaries or around the perimeter of the university.

F. General Accident Response, Reporting and Investigating:

1. Death and injury accidents:
   a. These accidents are the highest priority.
   b. An investigation and written report shall be completed and the accident thoroughly investigated.
   c. Investigation assistance can be provided, with supervisory approval, from the California Highway Patrol Major Accident Investigation Team (MATT), or other resources that are deemed appropriate.

      2) Notification for parties not affiliated with California State University, will be conducted by the investigating agency (California State University Police, California Highway Patrol, or the San Francisco Police Department).

2. Property damage only collisions (PDO accidents):
   a. All property damage accidents should be investigated by the first officer on the scene.
   b. Not all property damage only (PDO) collision require a traffic report. There are times when reporting parties may desire to simply exchange information. However, should a report be required for the collision, a PDO, CHP Form 555-03, will be used.
   c. Should major damage exist, the investigating officer should request assistance in completing the on-scene investigation.
   d. Officers responsibilities at the scene of a property damage only collision include:
      1) Traffic control;
      2) Clear the roadway;
      3) Assist involved parties in the exchange of correct information; and
      4) Advise Communications of parties involved, which will be entered into RIMS.

3. Hit and run accidents:
a. These accidents require a written report regardless of the damage and whenever a victim requests one. Furthermore, an officer shall complete:

1) An INVESTIGATION when there is evidence likely to lead to the identification and prosecution of the responsible party; and
2) A REPORT, even when little or no evidence exists, that will aid in the identification and prosecution of the responsible party.

b. A hit and run suspect vehicle can be impounded as evidence in the following situations:

1) Felony hit and run;
2) Misdemeanor hit and run, when need for evidence processing; and
3) Hit and run when evidence collection at the scene is hampered due to an unruly crowd or other circumstances requiring removal of the vehicle for officer safety.

c. Pursuant to California Vehicle Code Section 22655(a), an officer may remove a vehicle from the highway or from public or private property for the purpose of inspection if the operator has failed to stop and comply with the provisions of California Vehicle Code sections 20002 to 20006.

d. Pursuant to California Vehicle Code section 22655(b), the vehicle shall be released upon the expiration of 48 hours after such removal form the highway or private property, upon the demand of the owner. When determining the 48-hour period, weekends and holidays shall not be included.

4. Driving while under the influence of alcohol and/or drugs.

a. A written accident report shall be completed on any accident in which it is determined that an operator was under the influence of alcohol and/or drugs - no matter to what degree.

b. Accidents reports involving drivers who are impaired due to alcohol, drugs or some form of intoxicant shall include all related information and CHP required forms.

c. It is important to note that this will be applicable to ANY driver suspected of being impaired, and not only those drivers who are considered to be “at fault” for the collision.

d. Refer to General Order 3-17, Section IV-C, Operation of a Vehicle by a Driver Under the Influence of Alcohol/Drugs for further guidelines.

a. Reports will be written on all hazardous materials accidents and the report will include the response, any medical attention required and any clean up that was facilitated.

b. Traffic Accidents involving hazardous materials may require special units or special expertise. The department will respond to assist and advise, if the
Hazardous Materials unit of the San Francisco Fire Department will need to respond.
c. If a hazard does exist, responding officers should approach from an upwind direction, if possible, and will assess the situation and take the following action:

1) Advise Dispatch to contact Environmental Health and Safety Department;
2) Attempt to isolate the hazardous area and evacuate non-essential personnel;
3) Provide first aid assistance if needed;
4) Coordinate traffic control/re-routing and crowd control;
5) Request additional personnel and public services as needed;
6) Isolated as large of an area as possible until the hazard danger is fully known; and
7) The investigating officer should attempt to identify hazardous material by questioning the driver, checking the bill of lading, placard identification on the vehicle, or placard identification on the material. DO NOT ENTER THE EVACUATED AREA TO OBTAIN THIS INFORMATION, wait for properly trained and equipped personnel to respond.

ci. Personnel at the scene will relay all known information to Communications. Communications will disseminate all known information to other responding police units/agencies (San Francisco Fire Department, San Francisco County Health Department, California Highway Patrol and any other designated special services) as needed.

6. Private property accidents

a. As a general rule, the University Police do not take traffic accident reports that occur on private property.
b. Officers will respond when requested to accidents on private property, and investigate those cases if requested by a surrounding jurisdiction, or any other law enforcement agency that would normally have jurisdiction over that private property.
c. In these cases, mutual aid protocol would provide for the response and completion of the requested assistance.

7. Accidents involving disturbances between principals

a. Officers will be dispatched and will respond to the scene of any accident where there is any sort of disturbance or disagreement between parties involved in the accident.
b. When possible two officers will be dispatched to this type of call. The responding officers will separate the involved parties and conduct a preliminary investigation.
c. These incidents will be handled as any other call where individuals are in conflict with each other. A report will be written on these cases if the parties request it, or if any of the other criteria for reporting accidents is met.
G. Traffic direction/control and the handling of major traffic congestion.

1. The investigating officer will determine traffic direction and the diversion of traffic.
2. Uniformed police officers always have the primary responsibility for the direction and control of traffic at motor vehicle accident scenes.
3. Officers should set up perimeter traffic control points to:
   a. Allow for the ingress-egress of police, fire and rescue equipment;
   b. Halt or divert approaching traffic away from or around the accident scene; and
   c. Provide for a system of alternate routes to move traffic around the accident.
4. Officers should notify dispatch of the action being taken so that they may in turn notify other jurisdictions that may be affected.
5. When it becomes necessary to close or restrict the flow of traffic, the following means of control may be used:
   a. Flares may be used only when hazardous materials are not present;
   b. Barricades and portable signs are appropriate when an entire roadway or intersection must be closed; and
   c. Traffic cones are excellent for diverting traffic from one lane to the next and are often more appropriate than flares.
6. Additional personnel will be requested as needed. Parking and Transportation will be notified for additional cones or barricades for accident scene and traffic control, if required.
7. Should traffic control be needed for an extended period of time, the on-duty Watch Commander will arrange for sufficient relief every hour to two hours for officers assigned at a traffic control point. Food and beverages will be provided as needed.
8. In incidents in which traffic control is needed as a result of work being done to a roadway that requires a long period of traffic control, the Watch Commander will determine what is needed and coordinate the incident.

H. Damage to vehicles to the extent towing is required.

1. Tow services should be notified as soon as possible for vehicles with damage to the extent that towing is required, or if a driver request services.
2. Removal of debris from the roadway:
   a. California Vehicle Code Section 27700 requires that any tow service engaged to remove a vehicle from a roadway shall clear the roadway of any debris and glass which is a product of a traffic collision that vehicle is involved in.
   b. When the debris is so substantial that the tow service cannot safely remove it from the roadway, on campus Facilities Department personnel will be contacted and requested to assist.
   c. The fire department will assist in the washing down of combustible materials.

I. Stabilization of the scene - after the accident scene has been stabilized and all urgent
information has been obtained, the officer should:

1. Determine whether there is sufficient proof to recommend prosecution or make an arrest;
2. Supervise clean up of the collision scene; and if a hazard exists, have proper agency notified to remove or repair hazard; and
3. Complete the appropriate collision report forms.

J. Enforcement action at the scene of a traffic accident:

1. Investigations at an accident scene will normally result in detection of evidence necessary to support the arrest, issuance of a citation, or requesting a complaint be issued for violation of law. Upon determination of a violation of traffic law(s) or local ordinance, the officer will take appropriate enforcement action.
2. If the violation is sustained and is an arrestable California Vehicle/Penal Code violation, officers may make a physical arrest of subject to appropriate California Vehicle/Penal Code procedures.
3. If the violation occurs and the officer has completed the training program as outlined in California Vehicle Code section 40600, a citation may be issued at the traffic collision location as outlined in the procedures for issuing of a notice to violation. Procedures for arrest and issuance of citations are all outlined in California Vehicle Code Division 17, Chapter 2.
4. If an officer recommends that a complaint be issued alleging a violation of a vehicle code section, he/she may make a request for further investigation, which will be forwarded to the San Francisco District Attorney’s office for possible action.
5. Juveniles involved in a traffic collision and who have committed a traffic violation, will note that recommendation for issuance of a citation in the recommendation section of the traffic collision form, and with supervisory approval, may issue a citation to the juvenile offender. The citation shall be attached to the collision report form. After review by Investigations, the violator will be notified of his/her court date by mail.
6. If an investigating officer witnesses an accident or violation, the officer may issue a citation at the scene. The violator receives the yellow copy of the citation and the remaining copies are attached to the collision report that is submitted for report processing. The officer will record the issuance of the citation and citation number in the recommendations area on the collision form.

K. Public or mass transportation vehicles:

1. School bus accidents:
   a. The California Highway Patrol handles school bus collisions, only when the bus is transporting school pupils. The includes instances of the pupil leaving or approaching the bus or crossing the road while the bus has it's flashing red lights activated.
   b. Other collisions involving school buses, which occur within the California State University property, where there are no students aboard, and/or the students are beyond the control of the school bus, are handled by the University Police.
L. Accident investigation follow up activities include:

1. Collecting off-scene data such as responding to the hospital to do follow up on any injured parties who were transported.
2. From witnesses if they are unavailable and if the facts of causation are in dispute or unknown.
3. Reconstructing accidents involving serious injury. This would be a requested process in which CHP would be summoned to coordinate such a process.
4. In a serious accident involving severe injuries, fatalities, multiple vehicles, etc., it may be necessary to summon expert or technical assistance from photographers, surveyors, mechanics, physicians, accident crash team specialists or other specialists. Such expert assistance shall be made through the watch commander, and shall be initially requested through the CHP.
5. Preparing accident and offense reports to support criminal prosecution.

LI. Accident Counter Report:

1. Officers shall be permitted to allow parties involved in minor property damage accidents (less than $1,000.00 damage) to file a late report of the accident (after both parties have left the scene) by giving the individual reporting a short accident report form number CHP-555-03, and allowing the individual to complete the accident report himself. The officer will not provide a determination as to the Primary Collision Factor per CVC 20015(a).
2. When doing so, the officer shall ensure that the below procedures are followed:
   
   a. There have been no injuries, however minor;
   b. The accident does not involve a hit and run;
   c. No crime or traffic offenses have been committed;
   d. The accident does not involve nor is it likely to involve any civil liability on the part of the university;
   e. The officer shall enter the words, “Counter Report” in the upper left corner, “Special Conditions” box;
   f. Clearly explain the proper procedure for completing the report, answer questions and assist in any way deemed appropriate;
   g. The officer shall check all boxes on the second half of the first page, filling in the appropriate information as indicated;
   h. The officer shall verify the accuracy and completeness of the information, review the report and sign on the bottom back page.

ATTACHMENT B
I. PURPOSE: To establish procedures for the control, coordination and effective direction of vehicular traffic through the use of temporary traffic control devices by members of the University Police.

II. POLICY: It is the policy of the University Police to perform the functions of traffic control, parking control, emergency assistance, the identifying and reporting hazardous conditions, and to provide information and recommendations for improving traffic safety.

III. DEFINITIONS:

A. Plain View Doctrine: Under this general rule, no “search” has taken place in any constitutional sense if an officer on-views an object and that officer has lawful right to be in the place from which the officer was viewing the object. However, no amount of probable cause can justify a warrantless search or seizure absent consent or exigent circumstances.

B. RIMS: Records Management Systems, a computer aided dispatching and records software used by the University Police.

C. Traffic Control Device: All signs, signals, markings, and devices placed on, over, or adjacent to a street or highway by authority of a public body or official having jurisdiction to regulate, warn, or guide traffic.

D. Traffic Engineering Authorities: Persons responsible for traffic engineering in various local, regional, and state agencies.

IV. PROCEDURES:

A. Traffic Engineering:

1. Handling and referral of complaints or suggestions concerning traffic engineering deficiencies.
   
a. All complaints or suggestions concerning traffic engineering deficiencies will be documented in an information report and entered into RIMS. The completed
report will be forwarded to the Filed Operations Division Commander, via the chain of command, for review and appropriate action.

b. All traffic-engineering issues on campus will be provided to traffic engineer qualified to certify state roadways.

c. Officers will note any traffic engineering deficiencies they observe and report these to the appropriate department.

d. Deficiencies noted on campus will be referred to Parking and Transportation/or Capital Planning.

e. Deficiencies noted off campus will be referred through the proper channels to the City and County of San Francisco.

2. Any hazardous roadway conditions will also be reported. Examples of items to be brought to the attention of the proper agency include:

   a. Defects in the roadway;
   b. Visually obstructed or defective traffic control devices or signs; and
   c. Inadequate or defective roadway lighting.

3. Accident and enforcement data that could assist them with determining corrections that may be needed will be forwarded to:

   b. Local and regional traffic engineers through direct written correspondence from the Chief of Police and will include documentation on incident(s) and supporting statistical data, if any.

4. Accompanying any accident and enforcement data provided local and regional traffic engineers would be recommendations on possible actions and results desired.

B. Traffic Direction and Control:

1. Procedures at the scenes of traffic collisions and critical incidents.

   a. The investigating officer or officer in charge will determine traffic direction and the diversion of traffic.
   b. Uniformed police officers always have the primary responsibility for the direction and control of traffic at the scenes of traffic collisions and critical incidents.
   c. Officers should set up perimeter traffic control points to:

      1) Allow for the ingress-egress of police, fire and rescue equipment;
      2) Halt or divert approaching traffic away from or around the scene of the traffic collision or critical incident; and
      3) Provide for a system of alternate routes to move traffic around the accident scene of the traffic collision or critical accident.

   d. Officers should notify dispatch of the action being taken so that they may in turn
notify other jurisdictions that may be affected.
e. When it becomes necessary to close or restrict the flow of traffic, the following means of control may be used:

1) Flares may be used only when hazardous materials are not present;
2) Barricades and portable signs are appropriate when an entire roadway or intersection must be closed; and
3) Traffic cones are excellent for diverting traffic from one lane to the next and are often more appropriate than flares.

f. Additional personnel will be requested as needed. Parking and Transportation will be notified for additional cones or barricades for traffic control at scenes involving traffic collisions or critical incidents, if required.
g. Should traffic control be needed for an extended period of time, the on-duty Watch Commander will arrange for sufficient relief every hour to two hours for officers assigned at a traffic control point. Food and beverages will be provided as needed.
h. In incidents in which traffic control is needed as a result of work being done to a roadway that requires a long period of traffic control, the Operations Division Commander will determine what is needed and coordinate the incident.
i. If the officer deems appropriate, dispatch can be requested to summon assistance from the Department of Parking and Traffic.

2. Uniform hand signals and gestures for manual traffic direction and control.

a. Officers, when assigned to manual traffic control, will utilize uniform traffic control signal flashlights and gestures. The signals can be hand signals, whistle signals, or combinations of both.
b. When using hand signals eye contact should be made with the drivers who are being signaled.
c. When using hand signals:

1) Stop Signal:
   a) Basic signal to stop is an upraised hand at the end of an extended arm, raised well above shoulder level, with the palm of the hand clearly facing the approaching driver for whom the signal is intended.

2) Starting Signal:
   a) The signal for a stopped to start moving begins at shoulder level, with the officer extending his/her arm toward the stopped vehicle, pointing and waiving the car onward by bending his/her arm at the elbow and drawing his/her hand toward his chest.
   b) Once traffic in one direction starts to move, the officer turns and faces opposing traffic and delivers the same signal.
3) Pull Up Signal:

a) The signal to pull to a position, indicated by the officer directing traffic at an intersection, is usually reserved for turning traffic facing opposing vehicular or pedestrian traffic.

b) It is started by the officer pointing to the position at which the driver should pull his/her stopped or slowly approaching vehicle.

c) It is completed by monitoring the driver forward to the selected position.

d) If possible, keep the pointing hand and arm in position to hold the turning vehicle until conditions are safe for the turning movement.

4) Turning Traffic:

a) Once it is safe for the motorist to complete the turn, the opposing Traffic should be stopped using the standard stop signal, and monitoring the left turning vehicle to complete its turn by making a come-along signal with the other hand.

b) Right turning traffic requires little traffic direction unless the turning movement is crossing a heavily traveled crosswalk or has to merge into heavy vehicular traffic.

c) Natural gaps are best used for turning vehicles, when available.

d. Use of whistle signals

1) Stop - A single, long blast.
2) Start - Two short blasts
3) Emergency Stop - Three or more short blasts

3. Procedures at the scenes of fires.

a. At the scene of a fire, the police shall assist and support the fire-rescue operations.

b. Fire scene responsibilities shall include:

1) Consulting with the Incident Commander/Fire Official in charge of the scene to determine their needs.
2) Providing protection for the fire scene and for fire and rescue equipment.
3) Setting up perimeter traffic control points to allow for the ingress-egress of fire and rescue equipment and authorized personnel to be at the scene.

a) Such personnel shall include all persons who can identify themselves as firemen by badge or possession of standard fire service equipment such as a hat and coat.

b) It shall be the responsibility of supervisory officers of the fire department to correct any problems resulting from the above persons blocking fire lanes or retarding either charged lines or the efficiency of persons at the scene.
4) Controlling key intersections used by ambulances as route to hospitals.
5) Keeping dispatch informed as to the location of control points and the alternate routes that traffic will be utilizing.

4. Procedures during periods of severe road and weather conditions.

   a. The Watch Commander will determine the need for additional personnel to assist with traffic direction and control during adverse weather conditions (heavy rain, flooding, high winds)
   b. Capital Planning will be notified of any downed trees, power or telephone lines, or other hazardous conditions
   c. The fire department will be notified of any roadways that are considered impassable for an extended period of time, as well as any fire hazards.
   d. Any roadways deemed to be hazardous will be closed by use of barricades and/or flares. Officers will be assigned to temporarily divert traffic around hazards.
   e. The Watch Commander will direct dispatch to notify the news media of any adverse road conditions that will affect the motoring public, including incidents that threaten to close the University.

5. Circumstances warranting manual operation of traffic control devices.

   a. The intersection signals that control roadways directly at the entrances to the campus may be set to flash when deemed necessary by the Watch Commander. This should be done only after consultation with the appropriate jurisdiction.
   b. This procedure will only be utilized to facilitate the excessive flow of traffic either on to or off of the campus.
   c. This type of situation will normally only occur as the result of special events on campus, such as commencement, in the event of an emergency where the campus needs to be evacuated quickly, or because of a malfunctioning traffic signal.

6. Use of temporary traffic control devices.

   a. The following temporary traffic control devices are available for use by this department:

      1) A-frames;
      2) Metal barricades;
      3) Temporary signage;
      4) Traffic cones; and
      5) Flares

      a) When using flares, the officer shall replace the striking cap (with the cap cover) on the end of the flare (unlit side) before placing the flare on the roadway.
      b) Flares placed on the roadway without the striking cap and cap cover, can roll and potentially cause injuries, damage property, or
start fires.

b. Temporary traffic control devices may be utilized when traffic signals are inoperable, during special events, to divert traffic around a hazard, or other circumstances as approved by the watch commander.

c. Special signs and other portable signs are available from the Parking and Transportation Department, and may be requested at anytime.

d. When approval is given to remove temporary traffic controls, Communications will notify Parking and Transportation, who will then remove the temporary controls.

7. Reflective clothing

a. Police officers and other personnel with traffic direction responsibilities shall have their traffic safety vest with them while on patrol, and shall wear it at all times when directing traffic.

b. Officers may, during inclement weather, wear department issued rainwear, with reflective tape and writing.

C. Vehicle Escort Services:

1. This department shall provide escorts to vehicles on campus to ensure the safe and efficient movement of traffic and safety to the community as a whole. Examples of this is limited to:

   a. Medical and fire services;
   b. Hazardous cargo;
   c. Oversized loads;
   d. Travel into areas that are primarily pedestrian-exclusive;
   e. Special events;
   f. Dignitaries and government officials; and
   g. Funerals.

2. Officers shall not escort any vehicle or chain of vehicles without prior authorization by a supervisor.

3. Officers are prohibited from providing escorts for privately owned vehicles during medical emergencies. Officers should request dispatch to summon fire/paramedic personnel.

Cl. Roadblocks:

1. The University Police will not participate in the use of roadblocks.

2. Roadblocks are inherently dangerous, carry a tremendous amount of liability, and their use will be avoided.

CII. Ancillary Services:

1. General Assistance
a. Officers will stop and render aid to stranded motorists whenever possible. Should an officer not be able to stop to assist, the officer will notify Communications of the situation.
b. If a motorist needs assistance outside of the campus area, Communications will notify the appropriate agency having jurisdiction.

1) University Police personnel are not required to provide such assistance to vehicles parked off campus.
2) If another law enforcement agency requests that an officer of this department respond to a stranded motorist on a roadway or highway off campus, Communications will inform the Watch Commander of the request. If the request can be satisfied, the watch commander will direct Communications to assign an officer to the motorist to provide assistance.

c. When stalled vehicles are creating a traffic hazard the officer will stop and provide traffic control until the hazard is alleviated or he/she is relieved.
d. Transporting of civilians can only be done with permission of a supervisor. Alternate means of transportation should be obtained, if possible. Officers who must transport shall advise Communications of the starting point and destination, as well as the starting and ending mileage, if the person is the opposite sex from the transporting officer.
e. The University Police shall support Parking and Transportation and its ability to serve motorists to the University. Officers shall respond to calls for service on campus and to University properties in the area. When parking personnel are unavailable, police personnel will provide general assistance to motorists including:

1) Directions for the area; and
2) Transporting the motorist to a safe location to wait for assistance.

f. Officers will remain with all stranded motorists who are in hazardous locations until assistance arrives. If a motorist becomes stranded after hours of darkness, the officer will remain with the motorist or can transport them to the station to await assistance.
g. Should an officer have to leave a stranded motorist after arranging for assistance, the officer will check back after a reasonable time to be certain the requested assistance did arrive.
h. In any case where an officer arrives at any scene and discovers a medical emergency, the officer shall request fire and paramedic personnel, and provide first aid emergency care to the victim(s).

1) When doing so, the officer is to provide the type of distress or injury, location, condition of patient and any other pertinent information.
2) It shall be the responsibility of the officer on the scene to document the incident by making appropriate reports.
3) Identify injured parties:
a) provide extent of injuries to communications (this information is often supplied to responding emergency units);
b) administering emergency medical care (basic life support) until paramedic or other rescue staff(s) arrive;
c) on non-injury accidents, officers will be dispatched to the scene, both on property and on the perimeter, to determine if paramedics will be needed and will advise Communications of the situation;
d) in the event the accident involves injuries, the responding officer will administer first aid or needed medical attention to injured persons until paramedics arrive.

4) Identify any fire hazards and/or hazardous materials.

a) On accidents involving any fire hazard or actual fire, any officer arriving prior to the fire department will be responsible for initial fire suppression efforts.
b) The initial efforts will be limited to that fire suppression equipment that is readily available (i.e. fire extinguisher, blankets, etc).
c) The officer will be responsible for advising Communications that Fire Department services are needed and will direct other responding police units to appropriate locations for evacuation or traffic control.

2. Mechanical Assistance/Towing and Removal of Vehicles from Campus.

a. Police vehicles equipped with push bars may be used to push vehicles from the roadway creating an immediate hazard. Vehicles should not be pushed further than required to alleviate hazard, and the unit shall not be used to push start-stalled vehicles.
b. Officers will not leave the scene of a vehicle that is creating a hazard without taking appropriate steps to protect the vehicle and the public, either by moving it or placing flares, cones, or other traffic safety devices.
c. Towing of vehicles is authorized under the following conditions.

1) When the physical arrest of a driver occurs and:
   a) The arrestee will not authorize the vehicle to be driven from the scene by another party; or
   b) The vehicle is stored/impounded as evidence.

2) Accidents

a) Any vehicle involved in an accident shall be removed from the roadway as soon as possible after necessary accident investigation steps have been completed, and information obtained.
b) Any vehicle that is damaged to the point where it is not operational must be towed at the expense of the owner.
i. The driver may select a tow service of their choice, or utilize the Department’s contracted service.
ii. If a tow service that is contacted is not able to respond in a reasonable time, the Department shall contact another service provider.

c) Vehicles towed from accident scenes for safekeeping, where the driver is transported to the hospital, will be inventoried by an officer on the scene and towed by a Department contacted tow service to their impound lot.

3) Emergency Situations:

a) Any vehicle found illegally parked in the vicinity of a fire or area of an emergency, which creates a traffic hazard or interferes with police, fire or other rescue workers may be ordered towed, at the expense of the owner.
b) Official vehicles and vehicles being used by the press are exempt unless they obstruct police, fire or other rescue operations.

4) Impeding/Danger to Traffic:

a) No vehicle shall be stopped in such a manner as to impede or render dangerous the use of the highway to others.
b) If such disabled vehicle is not promptly removed and creates a traffic hazard, the police officer may order the vehicle towed by a Department contract tow service.

5) Blocking a Parking Area:

a) Any vehicle blocking a driveway or entrance to a parking facility or parking lot without prior permission from the University Police Department may be towed at the owner’s expense.
b) Officers should first attempt to locate the driver of the vehicle.

6) Unattended Traffic Hazard/Violation of the Law:

a) All vehicles found parked in posted tow-away zones can be towed upon approval from the Watch Commander.
b) Officers may tow any vehicle found on the public street unattended by the owner/operator that constitutes a hazard or is parked in violation of the law.
c) Vehicles towed for violation of the law will first be cited for the violation and a copy of the parking ticket will be left with the vehicle.

7) Abandoned Vehicles - Subject to approval by the Watch Commander:

a) Whenever any motor vehicle has been left unattended for more than 72 consecutive hours on campus, it may be towed at the owner’s expense.
California Vehicle Code Section 22651 (k).

b) A vehicle may be presumed abandoned if it does not display valid license plates, and which have been expired for more than 6 months. California Vehicle Code Section 22651 (o).

c) Officers towing abandoned vehicles must notify the registered owner, either in writing or by registered mail, that the vehicle was towed, where it was towed to, and the reason for the tow.

8) Evidence/Involvement in a Crime

a) Vehicles that must be processed for or as evidence, having been involved in the commission of a crime, will normally be impounded by a Department tow service. Including, but not limited to, impound for hit and run investigations, stolen vehicle recoveries, and vehicles driven while the driver’s license was suspended or revoked.

b) When all evidentiary processing has been completed, vehicles may be released to their owners. The owner will be responsible for the charges of the tow, plus storage.

c) Vehicles used by a driver who is arrested for a violation of driving under the influence of alcohol or drugs will be towed by a Department’s contacted tow service.

3. Request for tow service: Officers will obtain a tow for the vehicle’s driver (or person in possession of the vehicle) when such a request is made.

4. Parking Citations: If a vehicle has 5 parking citations outstanding, Parking and Transportation will make the determination whether or not to impound the vehicle in accordance with their policy and procedure.

5. Towing Procedure

a. Responsibilities:

1) Police officers must know under which provision of law the vehicle will be towed.

2) If the vehicle to be towed is larger than normal, or will require a flatbed tow truck, the officer will advise the dispatcher so that the tow service can respond accordingly.

3) Unless directed otherwise by the owner, any towed vehicle will be towed to a Department contacted service tow impound lot.

4) Dispatchers will be notified of all vehicles towed by officers and repossessions. Pertinent information will be noted concerning the vehicle towed on the department tow form, and this same information will be include when entering the vehicle into CLETS and RIMS (as appropriate).

b. Inventory

1) It shall be standing policy that any unlocked vehicle, which is legally stored or impounded in accordance with this or other procedures, shall be inventoried
prior to being removed from the location from which it is contacted. This policy is intended to achieve the following goals:

a) Protection of police officers and the department from claims or disputes concerning allegedly lost or stolen property;

b) Protection and preservation of the property for its owner while that property remains in police custody; and

c) Assures that inventory searches are conducted within the limits imposed by the Supreme Court of the State of California and the United States Supreme Court.

2) Vehicles that are towed at the request of the owner/operator or vehicles that are left legally parked will not be inventoried. Officers should remember, however, that “plain view doctrine” still applies as long as the officer has lawful right to be in the place from which the officer is viewing an object.

3) Inventory Procedures:

a) No inventory, other than listing the contents visible through the window, shall be made of any vehicle impounded to be used or processed for evidence. These circumstances should be treated as a crime scene and the investigator assigned will make inventory.

b) Should a vehicle be locked at the time of impoundment, the officer will inventory and list only those contents visible without making entry into the vehicle. The officer shall indicate that this method of inventory was used in a written report and no further inventory by this agency will be made.

c) The two truck driver who is effecting the towing of the vehicle shall be responsible for unlocking of the subject vehicle to facilitate towing and is also responsible for completing such inventory as may be required by the employer. The officer shall indicate in the report that the wrecker driver unlocked the vehicle.

d) All contents of the vehicle discovered through inventory, including property seized, as contraband or evidence and property removed for safekeeping, shall be listed in the officer’s report. Officers shall notify their supervisors of any unsecured personal property of high value (over $500) or any property the officer feels may be a target of false accusations, which is discovered in the course of the inventory. Supervisors shall exercise their own discretion in electing to remove such articles for safekeeping.

e) Officers shall exercise due care to avoid inflicting damage to the vehicle or its contents during inventory. Upon completion of the inventory, the vehicle and its contents shall be restored to the condition and arrangement existing prior to impoundment, to the extent possible. Based on current case law, contraband or evidence discovered during the inventory of a legally impounded vehicle may be admissible in court. Uniform application of this policy is a must. Any evidence seized pursuant to this policy shall be handled, marked and secured in accordance with established procedures for handling evidence and property.
4) A vehicle inventory will be completed and included in the tow form, CHP 180, when an officer assumes responsibility for towing a vehicle.

5) The following information will be included in the form:

- a) Reason towed;
- b) Case number;
- c) Condition of vehicle;
- d) Location of the tows;
- e) The name and address of the tow service;
- f) Release or hold conditions on the vehicle;
- g) Vehicle make, model and color;
- h) Itemization of the property inside the vehicle and where found; and
- i) Owner’s name and address.

6) Officers will search all closed containers that are not locked or sealed. If the keys are left with the vehicle, all areas accessible by key will be inventoried. This includes, but is not limited to, the glove box and trunk. Any containers found in the vehicle, which are not locked or for which a key is present shall be opened and the contents inventoried.

7) The officer will have the tow truck driver sign the tow form (CHP 180), and deliver a copy of the form to the driver when the vehicle has been “hooked up” to the tow truck.

8) The officer will provide the registered and legal owner of the vehicle with the required “Notice of Stored Vehicle” in person or by mail, pursuant to Section 22852 of the California Vehicle Code, and a “Towed Vehicle Information” sheet.

c. Holds on Vehicles- Officers are authorized to place holds or conditions of release on impounded vehicles when the vehicle is evidence of a crime, is stolen, or where lawful ownership is in doubt. All other holds require the approval of the on-duty supervisor.

d. Nothing included in this policy is intended to hamper or interfere with the scope of a search which may lawfully be conducted by an officer when such search is based upon consent, exigent circumstances, probable cause, or a warrant; or to interfere with the seizure of a motor vehicle which is being or has been used in the commission of a crime; or the recovery of a motor vehicle which has been reported stolen or which the officer has probable cause to believe is stolen.

a. All reports and forms utilized in the towing of vehicles shall be forwarded through the normal report approval process (CHP180 and RIMS requirement).

b. Communications will update and maintain the necessary records for the towing actions.

7. Procedures to Correct Hazardous Highway/Road Conditions.

a. Roadway hazards, defects, debris in roadway, defective signals, defective lighting
equipment, abandoned vehicles, and damaged or missing street signs can all become hazardous conditions which may lead to accidents or vehicle damage.

b. Officers observing any roadway or roadside hazard/defect will:

1) Notify Communications of the incident or situation, noting the location and type of defect; and
2) Should the situation be an immediate hazard, the appropriate university department or public service agency will be contacted to correct the problem immediately and the officer shall, if necessary, provide safety equipment (traffic cones, flares, signage, etc).

c. Communications will notify Capital Planning by phone or radio, if there is a need for immediate University action.

d. Documentation of any hazardous roadway condition shall be made via RIMS entry. A written information report (Hazard Investigation) will be completed if the condition is one that presents an extreme safety hazard that may require extensive repairs or actions (i.e., traffic lights that are inoperative, street lighting that is out in an entire section, etc.).

e. Officers, upon observing any material, which may be hazardous, should protect the scene, notify a supervisor, the San Francisco Fire Department, the Environmental Health and Occupational Safety (EH&S), and Capital Planning of the situation.

a. The Department will obtain and make available to the public traffic safety and educational materials.

b. These materials will focus on areas to help support enforcement efforts and enhance public understanding of traffic safety programs, such as “Wait for The Green” handouts.

c. University Police presentations, including student and employee orientations, will discuss traffic safety program issues.

VI. ATTACHMENT:

A. CHP 180 form
B. Towed Vehicle Information sheet
Towed Vehicle

There are many reasons why vehicles are towed for storage or impoundment. If your vehicle was towed, you may follow the steps listed below in retrieving your vehicle:

- Pick up signed released form from SFSUPD (415-338-7200)
  - To retrieve a vehicle, you must be the registered owner, or an authorized agent of, and with a valid drivers license.
  - Depending on the reason why your vehicle was towed, a $194 agency administrative fee plus a service fee for the towed vehicle may be assessed prior to the vehicle being released. You may pay with a money order or cashier’s check. Do not bring cash.
  - Bring the signed vehicle release form to the tow facility. There are additional towing fees that you will need to pay before a vehicle can be released (towing, storage, etc.).
I. PURPOSE: This policy is intended to provide officers with instructions on when and how to use micro-digital recorders (DAR) so that officers may reliably audio record their contacts with the public in accordance with state law.

II. POLICY: A police officer may surreptitiously record conversations when such use is appropriate to the proper performance of his/her official duties, where the recordings are consistent with this policy, and as long as the person being recorded would have no reasonable expectation of privacy about the conversation. This policy does not govern the use of surreptitious recording devices used in undercover operations.

III. DEFINITIONS:

A. DAR: Digital Audio Recorder

IV. PROCEDURES

A. This department has adopted the use of the DAR to accomplish several objectives. The primary objectives are as follows:

1. Digital audio recordings allow for accurate documentation of statements made during police-public contacts, arrests, and critical incidents. They also serve to enhance the accuracy of officer reports and testimony in court.
2. Voice recordings also enhance this agency’s ability to review probable cause for arrest, officer and suspect interaction, evidence for investigative and prosecutorial purposes, and to provide additional information for officer evaluation and training.
3. The DAR may also be useful in documenting crime and accident scenes or other events to include the confiscation and documentation of evidence or contraband.

B. When and How to Use the DAR:
1. The DAR shall be activated and remain activated in order to ensure the integrity of the recording unless the contact moves into an area restricted by this policy.

2. If an officer fails to record the entire contact or interrupts the recording, the officer shall file a written report explaining why the recording was interrupted or terminated.

C. Activation of a Digital Audio Recorder:

1. Penal Code §632 prohibits any individual from surreptitiously recording any conversation in which any party to the conversation has a reasonable belief that the conversation was private or confidential. However, Penal Code §633 expressly exempts law enforcement from this prohibition during the course of a criminal investigation.

   a. No member of this department may surreptitiously record a conversation of any other member of this department without the expressed knowledge and consent of all parties. (Nothing in this section is intended to interfere with an officer’s right to openly record any interrogation pursuant to Government Code §3303 (g)).

   b. Any member of this department may surreptitiously record any conversation during the course of a criminal investigation in which the officer reasonably believes that such a recording will be beneficial to the investigation.

1) For the purpose of this policy, any officer contacting an individual suspected of violating any law during the course of any official law enforcement related activity shall be presumed to be engaged in a criminal investigation. (This presumption shall not apply to contacts with other employees conducted solely for administrative purposes.)

2) For the purpose of this policy, it shall further be presumed that any individual contacted by a uniformed officer wearing a conspicuously mounted digital audio recorder will have the knowledge that such a conduct is being recorded.

   c. Members of the department are encouraged to activate their recorders at any time that the officer reasonably believes that a recording of an on-duty contact with a member of the public may be of future benefit.

1) At no time should an officer jeopardize his/her safety in order to activate their recorder.

2) Officers are prohibited from utilizing department digital audio recorder for personal use.

D. Restrictions on Using the DAR:

1. DARs shall only be used in conjunction with official duties primarily including but not limited to the investigation of crime or other violations of the law. Officers may not activate the DAR to surreptitiously record:

   a. communications with other police personnel without the permission of the Chief of Police;
b. conversations that concern matters over which the person being recorded would have a reasonable expectation of privacy;
c. conversations conducted under the circumstances that would constitute a “custodial interrogation or;
d. instances in which the case against a suspect has reached the “critical stage,” that is, when formal charges have been filed or when adversarial judicial proceedings have begun.

E. Procedures for DAR Use:

1. DAR equipment is issued primarily to uniform personnel as authorized by this agency. Officers who are assigned DAR equipment must utilize such equipment unless otherwise authorized by supervisory personnel.
2. Police personnel shall use only digital audio recorders issued by this department.
3. DAR equipment is the responsibility of individual officers and will be used with reasonable care to ensure proper functioning. Equipment malfunctions shall be brought to the attention of the officer’s supervisor as soon as possible so that a replacement unit may be procured.
4. Officers shall inspect and test the DAR prior to each shift in order to verify proper functioning and shall notify their supervisor of any problems.
5. Officers are encouraged to inform their supervisor of any audio recordings that may be of value for training purposes.
6. Officers shall note in incident, arrest, and related reports when audio recordings were made during the incident in question.

F. Control and Management:

1. When an officer makes a digital recording that is of evidentiary value, that recording will be downloaded from the recorder onto a computer disc via a department computer.
2. Computer discs containing downloaded digital recordings shall be marked by the officer with his/her name, serial number, and the date or dates of use. The disc shall be placed in a clear protective case, which shall be marked in the same manner.
3. Digital Recordings containing information that may be of value for case prosecution in any criminal or civil adversarial proceeding shall be safeguarded in the same manner as other forms of evidence. Master copies shall not be released without proper authorization. Duplicate copies may be made and released for review by prosecutors and others with a right or authorization to review such information. No copies of digital recordings shall be released without authorization of the Records Manager or Chief of Police.
4. Discs identified for use in criminal or civil cases shall be maintained in accordance with the evidence retention schedule as outlined in General Order 4-4 and in criminal cases until there has been a final disposition or as otherwise directed by court order.

G. Supervisory Responsibilities:

1. Supervisory personnel shall ensure that officers equipped with DAR devices utilize
them in accordance with policy and procedures defined herein.

occur.
4. When a shift is in “briefing status” this shall be considered continuous coverage.

B. Officers assigned to Field Operations will work either a 3/12 or a 4/10 schedule.

C. Minimum staffing depends on staffing levels and availability. Optimum staffing would be as follows:

1. Generally, all patrol personnel assigned to a specific shift will have the same days off to insure continuity of supervision.
2. In the case of a 3/12 patrol personnel will generally be assigned to work either a Sunday through Tuesday schedule or a Wednesday through Friday schedule and will work every other Saturday. O. Shift schedule preference request will be posted one month prior to change of shifts.

P. Vacation sign up will be posted by January of every year and will be an annual schedule. Time blocks available will be noted on the sign up and sworn personnel and dispatchers will sign up in rank and by seniority.

1. Non-sworn administrative employees will submit vacation requests to their supervisors.

Q. Civilian Employees:

1. Positions in the department not requiring sworn status are specified as civilian

R. Frequency and procedures for shift briefing:

1. Each day before beginning Patrol duties, the Watch Commander/Supervisor will brief personnel scheduled to work that shift.

2. When possible, Watch Commander/Supervisor should plan their shift briefing training prior to the start of the shift, which will include the techniques used, and the instructional method for the shift briefing training, such as lecture, demonstration, discussion, or practical exercise. Training should be scheduled as far in advance as practical.

3. Watch Commander/Supervisor will evaluate their shift’s training to ensure that it complies with current department policies, procedures, and case law.

4. Instructional personnel for briefing training will be persons with the special knowledge or skills for the subject matter, and will prepare lesson plans, when required.

5. Local police academy instructors can be utilized to conduct briefing training.

6. All briefings will be conducted in a professional manner and attendance is mandatory.

7. Officers will arrive at the briefings on time, in the uniform of the day, with all equipment in operational order and ready to begin Patrol duties immediately.

8. Shift sergeants will determine the actual time when briefings will be conducted. The time may vary depending on whether the briefing includes inspections or training.

9. Officers attending the briefing are to be ready to respond to calls if assigned during briefing.

10. Briefings will be used to:

   a. A briefing will be conducted at the beginning of each shift.
   b. Inform Officers of any special enforcement activities scheduled for that day and any specific item of interest [i.e. unusual situations, wanted persons, stolen vehicles and investigations];
   c. Provide transfer of responsibility from the previous shift to the new shift, to include all ongoing issues and review shift log from previous shift;
   d. Review administrative business issues, to include changes in schedules, assignments or days off and duty assignments;
   e. Provide officers with any new or revised general orders or special orders and train them on the content of the orders;
   f. Provide other training appropriate to a roll call setting; and
g. Evaluate Officer readiness to assume Patrol duties, including spot inspections.

S. Field Interviews:

1. It shall be the policy of the department to record instances of contacts with individuals when an officer reasonably associates unusual or suspicious activity with the individual.
2. Since the field interview relies on voluntary cooperation, Officers must let a subject walk away if the person refuses to consent to the interview, even if the person is rude or unpleasant. Persons may be detained if either reasonable suspicion or probable cause has been developed.
3. The Field Interview provides the department a source(s) of information to:
   a. Apprehend criminals and to prevent crime with the number and frequency of persons interviewed
   b. Expand an officer’s power of observation to obtain information from persons who work on campus, or, living or working within the area surrounding the campus.
4. Field interviews are used to investigate and document suspicious activities, interview complainants, and conduct fact-finding. The Officers experience, training, knowledge of the area and of criminal activity within it should help determine whether to perform a field interview.
5. Field interviews can be valuable tools in investigations since they can:
   a. Place a person at a particular place at a particular time;
   b. Document subject explanations for actions or for being at a location;
   c. Identify a subject, e.g. name, address, physical description, etc.;
   d. Identify associates;
   e. Gather vehicle information; or
   f. Gather intelligence.
6. Identifying the Suspect
   a. An on-view arrest is not always based upon the immediate recognition of a wanted criminal. Frequently, it is the outgrowth of the action taken by a police officer that stops to question a person who has aroused his/her suspicions.
   b. Information obtained during the field contact may also be used at a later date to identify a criminal. This information can be used by:
      1) Patrol Officers
      2) Investigators
      3) Other law enforcement agencies

T. Crime Suppression and the Field Interview:

1. The assertiveness of the patrol activity may be brought to the attention of the criminal(s) and their associates.
2. The criminal(s) can also observe the activities of the police and conclude that the
possibility of escaping detection, apprehension and prosecution is not favorable.

U. Conducting the Field Interview:

1. Officers must determine when a field interview is warranted. To do so, the officer must understand that:

   a. A fine line exists between a field interview and a lawful detainment.
   b. Detentions, as defined within U.S. Supreme Court case Terry v. Ohio, 392 U.S. 1 (1968), and casual encounters, permit officers to contact individuals absent of making an arrest.
   c. Officers are to understand that in cases of a field interview, this is neither a custody scenario, nor an interrogation.

      1) The individual is free to leave, unless the officer elevates the status of the investigation because of new observations, information, or actions of the individual which indicate criminal activity has or is about to occur.
      2) A Miranda waiver is NOT required, again because there is NO CUSTODY.

   2. Approaching the subject

      a. The purpose of the field interview will determine the method(s) used to contact and converse with the subject.
      b. Whenever possible, officers should select a location for a field interview that is well lighted and away from bystanders.
      c. Officers must at all times protect themselves and others in the area. Officers are to remain cognizant of the rights of the individual who is being contacted.
      d. Officers working in civilian attire have the added responsibility of identifying themselves as police officers before stopping a person for a field interview.

V. Using the Field Interview Card:

1. A field interview card will be completed for each individual whom an officer stops for a field contact.
2. A field interview card may also be used as an observation-recording device.

   a. In these instances, the officer should fill out the card as completely as possible, using prior knowledge of the individual or vehicle and the current observation made.
   b. This will supplement the automated recording of these events into the Department’s RIMS records system.

3. Field interview cards should be used in these instances:

   a. An officer stops an individual for the purpose of conducting an interview, but the individual refuses to give the officer any information and the officer has no reasonable cause to pursue the matter further.
   b. An officer wishes to make note of a subject in a specific place at a certain time,
and the officer has completed a field interview card on the same subject on another occasion.
c. An officer observes a vehicle which arouses his/her suspicions, but the owner/driver of the vehicle cannot be interviewed (e.g., a “strange” vehicle parked in a parking lot or near a campus facility after normal University hours.
d. An officer observes a known criminal in or at a suspicious place or time, but is not able to stop to talk to that individual.

4. When completed, the field interview card(s) shall be placed in the “To Be Processed Box”, where they are entered into RIMS.

II. POLICY: It shall be the policy of this department to handle the mentally ill with as much care and sensitivity as possible under the individualized circumstances of each encounter. It is however, the responsibility of each employee to ensure that mentally ill persons do not harm themselves or others, and therefore, when direct police action is required, that action shall be taken with regard to the mental condition of the party.

III. DEFINITIONS: None

IV. PROCEDURES:

A. Responsibilities for Dealing with Persons Suffering from Mental Illness:

1. Whenever possible, mentally ill persons shall be considered a medical, rather than a police problem. When and where possible, all resources of the University, including the Student Health Services and Counseling and Psychological Services shall be utilized in dealing with the mentally ill individual. Officers shall make themselves familiar with and be able to recognize the following ten warning signs of mental illness:

a. Marked personality change.

b. Inability to cope with problems and daily activities.

c. Strange or grandiose ideas

d. Excessive anxieties

e. Prolonged depression and apathy

f. Marked changes in eating or sleeping patterns

g. Thinking or talking about suicide

h. Extreme highs or lows

i. Abuse of alcohol or drugs
j. Excessive anger, hostility or violent behavior

2. Officers should use the following guidelines for interacting with people with mental illnesses in crisis situations:

a. YOU SHOULD: Remember that a person with mental illness has the same rights to fair treatment as anyone else.

b. YOU SHOULD NOT: Arrest an individual for behavioral manifestation of mental illness that is not criminal in nature.

c. YOU SHOULD: Continually assess the situation for dangerousness.

d. YOU SHOULD NOT: Join into behavior related to the person' mental illness i.e. agreeing/disagreeing with delusions/hallucinations.

j. YOU SHOULD NOT: Touch the subject. Although touching can be helpful to some people with mental illnesses, it may cause more fear and can lead to violence.

k. YOU SHOULD: Give firm, clear directions. The subject is probably already confused and may have trouble making even the simplest decision. If possible, only one person should talk to the subject.

l. YOU SHOULD NOT: Give them multiple choices. This increases the subject’s confusion.

m. YOU SHOULD: Respond to apparent feelings, rather than content. –You look scared.

n. YOU SHOULD NOT: Whisper, joke, or laugh. This increases the subject’s suspiciousness and increases the potential for violence.

o. YOU SHOULD: Respond to delusions and hallucinations by talking about the persons feelings rather than what he or she is saying. –“That sounds frightening. I can see why you are angry.”

p. YOU SHOULD NOT: Deceive the subject. Being dishonest increases fear and suspicion; the subject will likely discover the dishonesty and remember it in any subsequent contacts.

3. Whenever possible, in response to a call of a mentally ill person, the responding Officer or the Department Dispatcher shall attempt to advise Counseling and Psychological Services for assistance.

4. At the direction of the Officers, the dispatcher should notify Counseling and Psychological Services and request a counselor respond to the location of the person with the mental illness. If it is after normal work hours, the Director of Counseling and Psychological Services or on duty counselor will be notified by phone of the incident.

a. Advise Student Health personnel of location and stand-by until final disposition of the matter. If these personnel are unable to respond to the location, but are available at their respective offices, the officer may transport the concerned individual to the Student Health Center.

b. If no on-campus medical assistance is currently available, the responding officer shall:

1) Call S.F. General Hospital Psychiatric Ward via dispatch at 22nd and Potrero to see if they will accept 5150 Detention. If so, transport the subject to their facility.

2) If San Francisco General is not accepting 5150 Detention, call SFPD Communications and they will advise where 5150 Detention are being diverted. Ask for that facility’s telephone number and call for verification prior to transporting the subject to the facility.

   b. If the activity is of a serious and/or violent nature, the criminal booking process shall be completed at San Francisco General Hospital Jail Facility.

   c. If the criminal activity is of a minor or nonviolent nature, the mentally ill individual may be transported and admitted directly into the medical care facility, and if the situation warrants a later filing made on the criminal charges.

   d. If the suspect is in such an obvious mental state that the jail does not accept that person, then the suspect should be lodged at S.F. General Hospital Psychiatric Ward with criminal charges pending.

   e. Reports carried as section 5150 W & I are non-criminal in nature.

3. If it is necessary to take an individual into custody under the provisions of Section 5150 of the Welfare and Institutions code, the following procedures shall apply:

196. Homicide is justifiable when committed by public officers and those acting by their command in their aid and assistance, either--

1. In obedience to any judgment of a competent Court; or,

2. When necessarily committed in overcoming actual resistance to the execution of some legal process, or in the discharge of any other legal duty; or,

D. Specialized Equipment:

1. Equipment to be issued to CRU Members is detailed in the CSU Systemwide C.R.U. Manual.
2. The C.R.U. Commander maintains a complete inventory of the equipment.

V. APPENDIX: None

VI. ATTACHMENT: None
I. PURPOSE: The purpose of this policy is to set forth operational procedures for sworn officers assigned to the use of the Robbery Apprehension Electronic Tracking System commonly referred as “RAT” for SFPD and “ETS” for police agencies in San Mateo County.

II. POLICY: It shall be the policy of the Department to utilize the tracking system to apprehend bank robbery suspects and other felony suspects during undercover sting operations. The Department will work in cooperation with other law enforcement agencies in the successful capture of suspects in these crimes.

III. DEFINITIONS:

A. RAT Unit: A marked or unmarked police vehicle equipped with an Electronic Tracking System and emergency response equipment.

B. RAT Trained: A sworn officer trained to use the Electronic Tracking System including the hand held unit.

IV. PROCEDURES:

A. Statement of Objectives of the RAT/ETS Unit:

1. The Electronic Tracking System uses Radio Frequency (RF) technology to locate a signal emitted from an electronic tag concealed in a stack of currency stolen during a robbery. This is commonly referred as the “Rat Pack”. When the “Rat Pack” is removed from the magnetic drawer it immediately activates and goes “hot”. At this time, the signal is transmitted to the nearest tower and any robbery tracking police vehicle in the area. The tracking device has a meter to attempt to locate the electronic tag and suspect(s).

2. The nearest ETS towers in our area are located at the Stonestown Shopping Center, which will send a signal to Headquarters (SFPD Dispatch) and Seton Medical Center, which will send a signal to San Mateo County Communications and
transmit on their “Green” channel (County Wide Mutual Aid) to all San Mateo County Units and Stations.

3. The tracking system, electronic tags, and beacons may be used in other covert sting operations such as electronic device (laptop computers, iPod) robberies, vehicle theft, etc. at the direction of the appropriate Field Operations Division Captain.

B. Authorization for Use:

1. Only officers trained in the use of the device by the San Francisco Police Department Robbery Apprehension Team shall operate the device for safety reasons.

C. Response and Deployment:

1. When SFPD broadcasts a Signal 200 in our geographical patrol area, officers trained and equipped with the tracking device will check their ETS device for activation and respond as authorized by the patrol supervisor. If an officer receives a signal before the tower goes “hot”, he/she will immediately advise SFPD via A8 (or other SFPD channel depending on his/her location) of his/her location and the number of bars. Any other officers trained and equipped with a tracking unit will assist as necessary. Whenever an officer is actively receiving signals on his/her tracking device, he/she shall revert to the appropriate SFPD channel during the duration of the call.

2. If an officer receives a Signal 200 in his/her vehicle while in Daly City, he/she will immediately revert to SFPD A8 and advise Headquarters so they may coordinate with Daly City PD and the appropriate SFPD RAT Unit can respond. The only exception is if the unit is equipped to communicate directly with Daly City PD on their primary channel (UHF T-Band 488.9375).

3. If Officers need to leave the geographical patrol area while actively tracking a signal, he/she shall notify the on-duty Command Officer for authorization.

4. Officers shall exercise due caution and appropriate crimes in progress response protocols on all calls relating to the tracking unit.

D. Maintenance:

1. The Hand held unit and the magnetic plate to deactivate the tag shall be stored in the vehicle with the tracking device.

2. The maintenance including inspections will be conducted by Electronic Tracking Systems. If an officer needs immediate assistance due to equipment malfunction he/she can contact members of the SFPD Robbery Apprehension Team.

V. APPENDIX: None

VI. ATTACHMENT: None
I. PURPOSE: The purpose of this order is to establish policy and procedures in conducting evidentiary blood draw in arrests involving D.U.I. (Driving Under the Influence Sections 23140, 23152 and 23153 of the California Vehicle Code) and drug violations (Section 11550 of the California Health and Safety Code).

II. POLICY: It shall be the policy of the San Francisco State University Police Department to professionally conduct evidentiary blood draw from suspected DUI drivers or drug offenders according to current law while at the same time treating the subject with respect. The primary objective of this order is to lawfully collect and protect evidence necessary in supporting an arrest without compromising the safety of the subject, officers and other personnel involved.

III. DEFINITIONS:

A. Hemophiliacs: Person(s) with a hereditary blood-coagulation disorders in which the blood fails to clot normally because of a deficiency or abnormality of one of the clotting factors
B. Anticoagulant: A substance that delays or prevents the clotting of blood
C. Phlebotomist: A person who is trained in drawing blood for analysis
D. Nonconsensual Chemical Testing: A lawful process where blood is drawn from a non-consenting or uncooperative subject for DUI related or drug violation cases.
E. Arcadia: Is an on-call privately contracted phlebotomists contracted by local jurisdictions for blood draw evidence gathering for DUI and drug violation cases.

IV. PROCEDURES:

A. The procedures set forth in this order allows this Department to operate within the guidelines necessary for the San Francisco Police Department to abide by their contract with Arcadia and the agreement with the San Francisco Sheriff ‘s Department.

1. Legal Considerations:

   a. Section 23612(a)(1)(A) of the California Vehicle Code states that any person who
drives a motor vehicle is deemed to have given his or her consent to chemical testing of his or her blood or breath, if lawfully arrested for any offense allegedly committed in violation of Sections 23140, 23152 or 23153.

b. If the person is lawfully arrested for driving under the influence, the person has the choice of whether the test shall be of his or her blood or breath and the officer shall advise the person that he or she has that choice (California Vehicle Code Section 2612(a)(2(A)).

c. Officers of this Department should reasonably accommodate an arrestee’s change of mind about which test to take before resorting to forceful means of extraction if it complies with Section 23612 of the California Vehicle Code.

d. Blood samples shall not be taken from persons who are hemophiliacs, or who have a heart condition and are using a prescribed anticoagulant (Section 23612(b) of the California Vehicle Code). A statement by the arrestee should be obtained to qualify the subject for exemption. This determination should be made early in the arrest procedure in order to effectively assess options for chemical tests.

B. The Watch Commander on duty must be notified before blood is drawn. The Watch Commander shall ensure all established policies and procedures are followed.

C. The involuntary drawing of blood should be accomplished in the following manner:

1. A medically qualified person must draw the blood sample in a reasonable and medically approved manner as required by Section 23158 of the California Vehicle Code.
2. The suspect will be asked to submit.
3. The suspect will be advised that restraints will be used if necessary.

D. Blood draw determination: Once an officer makes a determination that blood will be drawn after the subject is arrested for DUI, the officer shall request for dispatch to contact Arcadia. Arcadia can also be contacted via SFPD Operations Center (415-553-1071). An Arcadia phlebotomist will respond within forty-five (45) minutes to the location the arresting officer specified. The phlebotomist will bring a blood sample kit and the “Blood Test Request by Peace Officer” and “Phlebotomist Checklist.”

E. Location: The location where to meet the phlebotomist depends weather the suspect requires medical treatment and/or whether the suspect is cooperative. The following is the criteria to determine which location to meet the Arcadia phlebotomist:

1. Cooperative suspects who do not require medical treatment:
   a. Request for the phlebotomist to respond to CJ #1. The phlebotomist shall enter CJ #1 at 425 7th Street and the Sheriff Department personnel will escort him or her to the sally port area next to CJ #1.
   b. The arresting officer(s) shall meet the phlebotomist in the sally port area with the subject prior to entering CJ #1. Officers shall not enter CJ #1 before the
General Order 3-42 Evidentiary Involuntary Drawing of Blood

Phlebotomist arrives.

C. The draw can be done in the jail medical screening room or another location within the jail.

D. Upon completion of the blood draw, the arresting officer shall book the subject at CJ #1 and book the blood sample according to current Department procedures.

E. If at any time the arrested subject withdraws his or her consent or shows signs of noncompliance, resistance, or combative behavior, the arresting officer(s) shall terminate the blood draw and obtain a search warrant (Missouri vs. McNeely) for the blood draw by contacting the Duty Judge at 866-319-5433. Once the warrant obtained, the officer can continue with the draw at CJ #1, provided the suspect is not combative or confrontational.

F. If the suspect is combative or confrontational, the suspect must be transported to Mission Station (see below).

2. Uncooperative suspects who do not require medical treatment and are combative or confrontational:

A. Request the phlebotomist to respond to Mission Station at 630 Valencia Street.

B. Officers shall arrange for their supervisor to respond. If no supervisor is available, a call out shall be initiated for a sergeant/corporal to oversee the blood draw. Mission Station supervisors will not oversee non-consensual blood draws unless it is a Mission Station arrest.

C. Officers should also advise dispatch to contact Mission Station to advise the Station Keeper that an officer from this Department will be using their restraint chair for evidentiary blood draw.

D. Officers shall enter Mission Station through the door located next to the south parking lot.

E. In compliance with the Board of Corrections Regulations, officers shall not enter through the sally port area into the holding cell of booking counter areas with their DUI custody. The DUI custody shall not be held in the booking area or in a holding cell while waiting for the Arcadia phlebotomist to arrive.

F. Once inside the station, officer(s) shall advise the Station Keeper of their presence and reason for being in the station. Officers shall then accompany the suspect to the assembly room where the blood draw will take place.

G. The restraint chair kept is the assembly room. Officers shall wait for the phlebotomist to arrive before placing the subject in the restraint chair. Officers shall close the assembly room door during the blood draw to ensure the privacy of the suspect being tested. Officers shall remove the subject from the chair immediately after the blood draw is completed.

H. Officers from this Department shall read the instructions and manufacturer’s warning prior to using the restraint chair. Supervisors shall ensure the compliance with this directive.

I. If any level of force is used in order to obtain a blood sample at Mission Station, the supervisor must notify the Platoon Commander at Mission Station immediately.

J. After the blood draw is completed, the subject will be booked at CJ #1. The subject shall not be booked at Mission Station. The Station Keeper and Platoon
3. Cooperative suspects who require medical treatment:
   a. Request the phlebotomist to respond to SFGH.
   b. The arresting officer(s) shall ensure that the blood draw is performed with a minimal amount of disruption to the hospital staff and any medical treatment being provided to the suspect.

4. Uncooperative suspects who require medical treatment:
   a. Request the phlebotomist to respond to SFGH.
   b. Officers shall arrange for their supervisor to respond. If no supervisor is available, a call out shall be initiated for a sergeant/corporal to oversee the blood draw.
   c. If the suspect must be restrained for medical treatment and it does not interfere with the medical treatment, the phlebotomist can draw blood. Medical care always takes priority over evidentiary blood draw.
   d. If the suspect has not been restrained for medical treatment, but restraint is needed in order for the phlebotomist to perform the blood draw, the supervisor shall determine the number of officers needed to restrain the suspect.
   e. The supervisor should request for additional officers from this Department, if available, or SFPD/SFSD, if there are no other officers available from this Department.
   f. The supervisor shall consult with the Charge Nurse to determine whether the suspect has any injuries or medical conditions preventing the suspect from being restrained.
   g. Officers shall hold the suspect down on a gurney so that the phlebotomist can draw blood.
   h. The supervisor shall ensure that blood draws are conducted in a manner that causes minimal disruption to hospital staff.

5. Juveniles:
   a. All juvenile blood draws shall be done by an Arcadia phlebotomist at SFGH.
   b. Except in cases of felonies, persons under 18 years of age will not be subject to non-consensual chemical testing.

F. Use of Force:

1. An arrestee’s refusal and resistance to the drawing of blood does not in and of itself constitute a resisting or delaying offense.
2. Department policy prohibits any unreasonable use of force to extract blood. Examples of unreasonable force include but are not limited to:
   a. Excessive bending, twisting, and hyperextension of arms (i.e. no more physical force may be used than is necessary to accomplish the task)
   b. Use of any weapon
c. Striking blows
d. Neck restraint (e.g. carotid, etc.)
e. The seriousness of the offense is not to be considered in the decision to use force or the degree of force exerted.

3. The force used to obtain the blood sample must be limited to the level of restraint or force necessary to obtain the blood sample.

4. Supervisors shall immediately stop attempts to draw blood if it appears that the degree of restraint necessary could cause injury to the suspect or officers.

5. Any time that force is used to obtain a blood sample, that action shall be documented on the appropriate Department report form. Administrative personnel will review the “Use of Force” policy to insure compliance with established procedures.

G. Forms:

1. The arresting officer shall complete the Blood Test Request by Peace Officer form.
   a. The arresting officer, phlebotomist, and the person being tested shall sign the form.
   b. If the suspect refuses to sign, the arresting officer shall write, “refused” in the space provided for the suspect signature.
   c. The phlebotomist retains the white copy and the arresting officer shall attach the pink copy to the arrest report.

2. The phlebotomist and the arresting officer shall initial the Phlebotomy Checklist in the appropriate spaces and sign the form upon completion of the test.
   a. The phlebotomist retains the white copy and places the pink copy inside the envelope with the blood samples.
   b. The arresting officer retains the yellow copy and attaches it to the arrest report.
   c. The phlebotomist will give the blood samples to the arresting officer and the officer shall book the samples according to current Department procedures.

H. Arcadia will conduct blood draws for cases other than DUI’s, such as felonies. However, this shall be arranged through the Investigations Unit.

Nonconsensual Chemical Test (DUI)- *Missouri v. McNeely (Update)*

In the case of Missouri v. McNeely (April 2013), the United States Supreme Court ruled officers must generally obtain a warrant before conducting a nonconsensual chemical test. Specifically, the court found, “the natural dissipation of alcohol in the blood stream does not constitute an exigency in every case sufficient to justify conducting a chemical test without a warrant.” The court concluded the reasonableness of a warrantless blood test must be determined case by case, based on the totality of the circumstances.

Effective immediately, members shall not obtain a forced blood draw/or nonconsensual chemical test without a search warrant. In all cases, members should document detailed observations of driving/interaction, FST performance, witness statements, and other physical evidence. Members may still book a subject based on probable cause.

**All DUI Cases:**

- A search warrant should be obtained if a subject refuses to submit to a chemical test.
- When an exigent circumstance exists, beyond the mere dissipation of the suspect's blood alcohol content (BAC), the lack of a search warrant shall be approved and articulated in the report.

An exigent circumstance may include the lack of an available judge to review the warrant or other special circumstances. An exigent circumstance that prevents a member from getting a search warrant must be approved by a Commissioned Police Officer.

As of September 20th, SB717 was passed to amend PC 1524(a) to allow a search warrant for misdemeanor DUI cases also; prior to SB 717 a warrant could be obtained for a felony case only.

A NEW DUI SEARCH WARRANT FORM (see sample attachment & procedures) has been approved for use. Follow the steps outlined, obtain a telephonic warrant (similar to an EPO), then arrange for the judge to sign the warrant at a later time. Members can locate the DUI Search Warrant Forms in the SFSU Forms folder, under Search Warrants. For any questions see your supervisor.

TELEPHONIC SEARCH WARRANT PROCEDURES

1. The Law Enforcement Officer (LEO) should fill out the search warrant and make a copy. The copy is known as the duplicate copy to the original search warrant. The Judge’s Signature area on the original search warrant shall be kept blank for the Judge to sign at a later time.

2. Contact the Duty Judge (Phone # 1-866-319-5433) via the answering service. When Prompted by the recording, press #1 for DUI blood draw search warrant. This activates the recording of the conversation. This recording/conversation should be conducted away from the detained subject. You do not need to consult with a District Attorney for this warrant.

3. The Duty Judge administers an oath to the LEO.

4. The LEO then reads the statement of probable cause, the terms of the search warrant and provides any additional information required to the Duty Judge.

5. If the Duty Judge finds probable cause, he/she will authorize the Officer to sign the Judge’s name to the duplicate original search warrant. In paragraph 1 (one) of the duplicate original warrant, you write in the Judge’s name where it says “Printed Name.” Next to it in the Signature line you write, “Officer _____________________ for Judge ________________________” and put your initials next to it. The duplicate copy warrant becomes (at least temporarily) the search warrant.

6. The Officer will also note the date and time the Judge commanded issuance.

7. When the warrant is served, the officer must then note the date and time of service on the duplicate copy of the warrant. Write it on the bottom of the copy of the warrant “Service, date, time.” Give the arrestee a copy (make a copy after service) of the served warrant.

8. Once the warrant is served and blood obtained, the affiant officer shall complete the SF County RETURN TO SEARCH WARRANT form. The form is a one page form which is located in the SFSU Forms folder.

9. The Officer will deliver the duplicate copy of the search warrant obtained telephonically along with the unsigned original warrant and search warrant return for signature to the issuing Duty Judge no later than the next business day. Ideally, the Officer who requested the warrant should deliver these documents, but any police officer can deliver these documents. The Duty Judge will tell you best time/location to have the warrant signed.

10. The Officer will deliver the duplicate search warrant, the “signed search warrant”, and the search warrant return form to the staff at room 101 at the Hall of Justice (Business Hours). Get a copy of the final “search warrant” and book it as evidence. A copy of both the signed and the duplicate search warrant should be attached to the police report.

11. If the original reporting officer is unable to get a signature from the issuing judge during his/her shift, he/she should notify the on-duty Watch Commander. The Watch Commander will confirm the time/location to get the warrant signed and assign it to another officer. If the officer filing the warrant is not the officer who obtained the warrant, a supplemental police report must be generated. The supplemental report should also indicate whether the warrant was booked into evidence.
I. PURPOSE: The purpose of the following guideline is to provide direction to the members of the department in order to prevent and intervene in incidents of domestic elder abuse.

II. POLICY: It is the policy of this department to prevent situations of domestic elder abuse against members of the community, and intervene in those circumstances when applicable.

III. DEFINITIONS: None

IV. PROCEDURES:

A. Introduction:

1. Abuse of older persons by their friends, family members, caregivers or other trusted person is not a new phenomenon. Nor is it a new expectation of the public that police officers will sometimes respond to and handle these complaints. More recently it has been recognized that domestic elder abuse is a very complex problem, requiring multi-disciplinary response tailored to specific circumstances and the individual needs of the elderly victim.

2. The SFSU Police Department recognizes that elder abuse is often the result of problems that officers alone cannot address. In order for law enforcement officers to play an effective part in any comprehensive strategy to prevent, identify, detect and react to instances of elder abuse, they must fully understand their role and be trained to act in concert with other protective, investigative, regulatory, enforcement and social services agencies.

B. Guideline:

1. The SFSU Police Department recognizes its role in assisting, identifying, detecting, reacting to, and when possible, preventing domestic elder abuse. The prevalence of abuse and the effect it has on elderly victims demands that the police establish clear and thorough directives to guide call-takers, dispatchers, officers, supervisors and investigators through the complex tasks for which they are responsible. Police are in
the unique position of being responsible for the criminal investigation of such cases while working jointly with Adult Protective Services (APS) and other social service organizations to ensure the provision of a network of services.

2. 1. Notify a supervisor.
2. Advise the person that his/her claim will be investigated and he/she may be released in accordance with the law upon confirmation of the person’s status.

4. Officers should not hold both a firearm and the CED at the same time.

IV. VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the CED should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to:

1. Provide the individual with a reasonable opportunity to voluntarily comply.
2. Provide other officers and individuals with a warning that the CED may be deployed.

If, after a verbal warning, an individual is unwilling to voluntarily comply with an officer's lawful orders and it appears both reasonable and feasible under the circumstances, the officer may, but is not required to, display the electrical arc, or the laser in a further attempt to gain compliance prior to the application of the CED. The aiming laser should never be intentionally directed into the eyes of another as it may permanently impair his/her vision.

The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the officer deploying the CED in the related report.

V. USE OF THE CED

A. Considerations:

The CED has limitations and restrictions requiring consideration before its use. The CED should only be used when its operator can safely approach the subject within the operational range of the device. Although the CED is generally effective in controlling most individuals, officers should be aware that the device may not achieve the intended results and be prepared with other options.

B. Application of the CED:

The CED may be used in any of the following circumstances, when the circumstances perceived by the officer at the time indicate that such application is reasonably necessary to control a person:

1. The subject is violent or is actively resisting.
2. The subject has demonstrated, by words or action, an intention to be violent or to physically resist, and presents an immediate threat to harm officers, him/herself or others.
Mere flight from a pursuing officer is not good cause for the use of the CED to apprehend an individual without other known circumstances or factors, such as the knowledge or reasonable belief that the person is armed with a weapon.

C. Special Deployment Considerations:

The use of the CED on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the officer, the subject or others, and the officer reasonably believes that the need to control the individual outweighs the risk of using the device. This includes:

1. Individuals who are known to be pregnant.
2. Elderly individuals or obvious juveniles.
3. Individuals with obviously low body mass.
4. Individuals who are handcuffed or otherwise restrained.
5. Individuals who have been recently sprayed with a flammable chemical agent or who are otherwise in close proximity to any known combustible vapor or flammable material, including alcohol-based oleoresin capsicum (OC) spray.
6. Individuals whose position or activity may result in collateral injury (e.g., falls from height, operating vehicles).

Because the application of the CED in the drive-stun mode (i.e., direct contact without probes) relies primarily on pain compliance, the use of the drive-stun mode generally should be limited to supplementing the probe-mode to complete the circuit, or as a distraction technique to gain separation between officers and the subject, thereby giving officers time and distance to consider other force options or actions.

The CED shall not be used to psychologically torment, elicit statements or to punish any individual.

D. Targeting Considerations:

Reasonable efforts should be made to target lower center mass and avoid the head, neck, chest and groin. If the dynamics of a situation or officer safety do not permit the officer to limit the application of the CED probes to a precise target area, officers should monitor the condition of the subject if one or more probes strikes the head, neck, chest or groin until the subject is examined by paramedics or other medical personnel.

E. Multiple Applications of the CED:

Officers should apply the CED for only one standard cycle and then evaluate the situation before applying any subsequent cycles. Multiple applications of the CED against a single individual are generally not recommended and should be avoided unless the officer reasonably believes that the need to control the individual outweighs the potentially increased risk posed by multiple applications.

If the first application of the CED appears to be ineffective in gaining control of an individual, the officer should consider certain factors before additional applications of the CED, including:
1. Whether the probes are making proper contact.
2. Whether the individual has the ability and has been given a reasonable opportunity to comply.
3. Whether verbal commands, other options or tactics may be more effective.

Officers should generally not intentionally apply more than one CED at a time against a single subject.

F. Actions Following the Deployments:

Officers shall notify a supervisor of all CED discharges. Confetti tags should be collected and the expended cartridge, along with both probes and wire, should be submitted into evidence. The cartridge serial number should be noted and documented on the evidence paperwork. The evidence packaging should be marked "Biohazard" if the probes penetrated the subject's skin.

G. Dangerous Animals:

The CED may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

H. Off-Duty Considerations:

Officers are not authorized to carry department CEDs while off-duty.

Officers shall ensure that CEDs are secured while in their homes, vehicles or any other area under their control, in a manner that will keep the device inaccessible to others.

VI. DOCUMENTATION

A. Documentation Required:

Officers shall document all CED discharges in the related arrest/crime report and the CED report form. Notification shall also be made to a supervisor in compliance with the Use of Force Policy. Unintentional discharges which occur during law enforcement action, pointing the device at a person, laser activation and arcing the device will also be documented on the police report and CED report form.

Unintentional discharges which occur during a non-law enforcement action shall be documented in a memo to the employee’s supervisor.

B. CED Form:

Items that shall be included in the CED report form are:

1. The type and brand of CED and cartridge and cartridge serial number.
2. Date, time and location of the incident.
3. Whether any display, laser or arc deterred a subject and gained compliance.
4. The number of CED activations, the duration of each cycle, the duration between activations, and (as best as can be determined) the duration that the subject received applications.
5. The range at which the CED was used.
6. The type of mode used (probe or drive-stun).
7. Location of any probe impact.
8. Location of contact in drive-stun mode.
9. Description of where missed probes went.
10. Whether medical care was provided to the subject.
11. Whether the subject sustained any injuries.
12. Whether any officers sustained any injuries.

The Training Sergeant should periodically analyze the report forms to identify trends, including deterrence and effectiveness. The Training Sergeant should also conduct audits of data downloads and reconcile CED report forms with recorded activations.

C. Reports:

The officer should include the following in the arrest/crime report:

1. Identification of all personnel firing CEDs
2. Identification of all witnesses
3. Medical care provided to the subject
4. Observations of the subject's physical and physiological actions
5. Any known or suspected drug use, intoxication or other medical problems

VII. MEDICAL TREATMENT

Consistent with local medical personnel protocols and absent extenuating circumstances, only appropriate medical personnel should remove CED probes from a person's body. Used CED probes shall be treated as a sharps biohazard, similar to a used hypodermic needle, and handled appropriately. Universal precautions should be taken.

All persons who have been struck by CED probes or who have been subjected to the electric discharge of the device shall be medically assessed prior to booking. Additionally, any such individual who falls under any of the following categories should, as soon as practicable, be examined by qualified medical personnel:

1. The person is suspected of being under the influence of controlled substances and/or alcohol.
2. The person may be pregnant.
3. The person reasonably appears to be in need of medical attention.
4. The CED probes are lodged in a sensitive area (e.g., groin, female breast, head, face, neck).
5. The person requests medical treatment.

Any individual exhibiting signs of distress or who is exposed to multiple or prolonged applications (i.e., more than 15 seconds) shall be transported to a medical facility for examination or medically evaluated prior to booking. If any individual refuses medical attention, such a refusal should be witnessed by
another officer and/or medical personnel and shall be fully documented in related reports. If an audio recording is made of the contact or an interview with the individual, any refusal should be included, if possible.

The transporting officer shall inform any person providing medical care or receiving custody that the individual has been subjected to the application of the CED.

VIII. SUPERVISOR RESPONSIBILITIES

A supervisor should respond to all incidents where the CED was activated.

A supervisor should review each incident where a person has been exposed to an activation of the CED. The device's onboard memory should be downloaded through the data port by authorized personnel and saved with the related arrest/crime report. Photographs of probe sites should be taken and witnesses interviewed.

IX. TRAINING

Personnel who are authorized to carry the CED shall be permitted to do so only after successfully completing the initial department-approved training. Any personnel who have not carried the CED as a part of their assignment for a period of six months or more shall be recertified by a department-approved CED instructor prior to again carrying or using the device.

Proficiency training for personnel who have been issued CEDs should occur every year. A reassessment of Officer's knowledge and/or practical skill may be required at any time if deemed appropriate by the Training Sergeant. All training and proficiency for CEDs will be documented in the officer's training file.

Command staff and part-time officers who do not carry CEDs should receive training that is sufficient to familiarize them with the device and with working with officers who use the device.

The employee responsible for training is responsible for ensuring that all members who carry CEDs have received initial and annual proficiency training.

Application of CEDs during training could result in injury to personnel and should not be mandatory for certification.

The Training Sergeant should ensure that all training includes:

1. A review of this policy.
3. Performing non-gun-side draws to reduce the possibility of accidentally drawing and firing a firearm.
4. Target area considerations, to include techniques or options to reduce the accidental application of probes near the head, neck, chest and groin.
5. Handcuffing a subject during the application of the CED and transitioning to other force options.
7. Restraint techniques that do not impair respiration following the application of the CED.

X. MAINTENANCE AND INVENTORY

The Department shall ensure annual maintenance and inventory of the CED is conducted. Only personnel trained to inspect and maintain the CED shall be designated to do so. At the designated interval, the designee shall complete a memorandum to the Watch Commander in charge of the CED program stating the condition and inventory status of the CED's.

XI. APPENDIX: None

XII. ATTACHMENT: None
I. PURPOSE

A. The purpose of this policy is to establish guidelines for the use of Body Worn Cameras (BWC) by officers working for San Francisco State University Police Departments (UPD) while on-duty and during work-related contacts with the public in accordance with the law.

II. OBJECTIVES

A. UPD has adopted the use of the BWC to accomplish several objectives. The primary objectives are as follows:

1. Collect evidence for use in criminal investigations and prosecutions;
2. Deterring criminal activity and uncooperative behavior during the police-public interaction;
3. Assist officers with completing reports and providing testimony in court;
4. Promote accountability;
5. Assist in resolving complaints against officers including false allegations by members of the public; and
6. Provide additional information for officer evaluations, training, and continuous improvement.

B. BWC recordings provide additional information regarding investigative or enforcement contact with a member of the public. BWC recordings, however, provide a limited perspective of the encounter and must be considered with all other available evidence, such as witness statements, officer interviews, forensic analysis and documentary evidence, when evaluating the appropriateness of the officer’s actions.
III. POLICY

A. Usage of BWC

1. The BWC, is an audio and video capturing system that is attached to the outside, the upper body of an officer’s uniform, facing forward to make video and audio recording. It shall be used to document incidents that occur in official duties of peace officers. The following shall be the policy when using the BWC:

   a. On-duty uniformed officers responding to calls for service or taking enforcement action shall make every effort to activate the BWC to record contact with citizens in the performance of their official duties.
   b. Peace officers shall make every effort to immediately activate their body camera upon being dispatched Code-3 or any call perceived as a critical incident (Part 1 crime). The BWC shall remain activated until the contact, incident or event is completed to ensure the integrity of the recording. Except in situations that meet section III.B.4.
   c. If an officer fails to activate the BWC, fails to record the entire contact, or interrupts the recording, the officer shall document why the recording was not made, was interrupted or was terminated for reasons other than described in section III.B.4, via a memo to the Field Operations Division Commander.
   d. Officers shall document in police reports whether a BWC was utilized. (e.g., “My Dept. issued BWC was activated during the contact, detention, arrest, etc.)
   e. For this policy, it is presumed that any individual contacted by a uniformed officer wearing a conspicuously mounted body camera will have knowledge that such contact is being recorded. A uniformed officer shall give an affirmative answer if asked by a citizen if they are being recorded during official contact.
   f. BWC equipment will be issued to all peace officers at the rank of sergeant and below. Uniformed officers who are assigned BWC equipment must use the equipment unless otherwise authorized by Command Staff. Officers shall use the only BWC issued or approved by their Department.
   g. The BWC equipment and all data, images, video, and metadata captured, recorded, or otherwise produced by the equipment is the sole property of SF State UPD.
   h. Police personnel who are assigned BWC shall complete a training program to ensure proper use and operations of the equipment before deployment in field operations. Future training may be periodically required to ensure the continued effective use and operation of the equipment, proper calibration, performance, and to incorporate changes, updates, or other revisions in policy and equipment.
   i. Before going into service, uniformed officers shall confirm that the BWC is working and recording properly. If the BWC is not working or malfunctions at any time, the officer shall promptly notify their supervisor and obtain a functioning BWC.
   j. On-duty uniformed officers shall not be held financially responsible for damaged, broken or inoperable BWC equipment unless abuse or negligence of the equipment is found to be the cause. Any equipment malfunctions shall be
brought to the attention of the officer’s on-duty supervisor via a memorandum to the Field Operations Division Commander outlining the circumstances that led to the affected BWC so a replacement unit may be procured.

k. Officers shall not edit, alter, erase, duplicate, copy, share or otherwise distribute in any manner BWC recordings without prior written authorization and approval from the Chief of Police or designee.

l. Requests for deletions of recordings or any portion thereof must be submitted in writing and approved by the Chief of Police or designee by CSU record retention policy.

m. The Axon Body 2 Camera System is configured with a 30-second pre-event video buffer recording. When the BWC is activated, the preceding 30 seconds of video (no audio) will be captured and become part of the event recording. The audio recording will begin at the time the BWC is activated.

n. Officers are encouraged to provide an on-going monologue, where appropriate and safe to do so, regarding the incident while recording.

o. It is recommended that officers record for a short period after the event to demonstrate clearly to a subsequent viewer that the incident has concluded.

p. Officers should not rely on the BWC for note taking or formal statements. BWC recordings do not take the place of a formal written statement from a victim or witness. Formal written statements must still be completed.

B. Restricted Uses of Body Worn Cameras:

1. At no time should an officer jeopardize their safety to activate a BWC, recorder or change the recording functions.

2. No member of this Department may surreptitiously record a conversation of any other member of this Department with the BWC or any other recording device when a reasonable expectation of privacy exists and without the expressed written knowledge and consent of all parties. Nothing in this section is intended to interfere with an officer’s right to openly record any interrogation under Government Code 3303 (g).

3. There may be times when the officers should be sensitive to a situation and use discretion in their decision to record contacts while handling certain calls for service. Some examples include but are not limited to: Interviewing of sexual assault victims, recording in Hospitals when other patients not related to a Police incident could be recorded or at the request of Hospital staff members.

4. In certain situations, where police tactics or confidentiality may jeopardize officer safety or case sensitive information, activations of the BWC may not be warranted. These situations include but are not limited to Detective Bureau investigations, Gang Intelligence operations, tactical operations, undercover operations and interviews with criminal/confidential informants. The reason as to why a recording was paused or not made at all is to be documented in the police report.

5. An officer, who is investigating a possible explosive device and is nearby to the device, shall turn off their camera.

6. Officers are prohibited from utilizing department issued BWC and recording media for personal use. Any unauthorized use of the BWC by department personnel may result in disciplinary action.
C. Storage and Review of Media File:

1. All files should be securely downloaded periodically and no later than the end of each patrol shift. If an officer is unable to download at the end of their shift, the officer shall ask their on-duty supervisor if it is acceptable to download the files at the beginning of the officer’s next shift. Each file shall contain information related to the date, BWC identifier, and assigned officer.

2. Files should be securely stored in accordance with CSU Records and Retention Policy. The files should be stored no longer than useful for training or use in an investigation or prosecution. In capital punishment prosecutions, recordings shall be kept until the offender is no longer under control of a criminal justice system.

3. Officers shall have the right to review their recordings and use the recordings as a resource for preparing to write police reports, to participate in an internal affairs interview and to provide a statement regarding a critical incident. This section does not apply to a public safety statement regarding a critical incident. Officers should not use the fact that a recording was made as a reason to write a less detailed report.

4. All images and sounds recorded by the BWC are the exclusive property of the Department. Accessing, copying or releasing files for non-law enforcement purposes is strictly prohibited and may result in disciplinary action.

5. Command staff retains the authority to audit the storage system at random to ensure authorized users are accessing the data for legitimate and authorized purposes.

6. Command staff retains the authority to view officer recordings for validity testing randomly. The Field Operations Division Commander will conduct the random viewing. The method of random selection will be agreed upon by the SUPA Representative and Chief of Police. One recording per officer may be selected each month and reviewed. Any system deficiencies will be documented and remedied. Any performance issue will be discussed with the officer. Violations of policy will be reviewed using the campus’ procedures for conducting Internal Affairs Investigations.

7. Specific and targeted audits for cause are not allowed unless well-founded suspicion has been documented specifically naming an officer or officers who are allegedly violating policy or performance standards. Command Staff shall be notified, and the procedures for conducting Internal Affairs Investigations will guide the review.

8. Video and audio recordings may be played for training with written approval from the Chief of Police or their designee. If an involved officer objects to the playing of an audio/video recording, their objection will be submitted to the Chief of Police or their designee to determine if the training value outweighs the officer’s objection to have others review the audio/video file.

9. In no event shall any recording be used or reviewed for officer ridicule or embarrassing an employee.

10. In compliance with public records act request and approved by the Chief of Police, no outside member of the department may review stored footage without the consent of the Chief of Police and after a reasonable attempt to notify the officer has been made.
11. Upon Command Staff approval, recorded files may be reviewed by any member of the Department who is participating in an official investigation, such as a personnel complaint, administrative investigation or criminal investigation.

12. Under the lawful process, recorded files may be reviewed or provided to court personnel who are authorized to review evidence in a related case.

13. Media personnel with permission of the Chief of Police or the authorized designee and in coordination with SF University Communications may review or be provided recorded files.

14. A member of the Command Staff will review all recordings before public release. Recordings that unreasonably violate a person’s privacy or sense of dignity should not be publicly released unless law or order of the court requires disclosure. Every effort to protect the identities of involved parties in the video will be conducted to the extent allowed by law.

IV. PROCEDURES

A. Issuance and Wearing of BWC:

1. The use of a BWC issued to another officer without prior authorization by the Command Staff is prohibited.

2. The use of non-Department issued BWC while on-duty is prohibited.

3. Uniformed officers issued the BWC shall wear the device mounted on the outside, the upper body of the officer’s uniform, facing forward.

   a. Approved BWC: Axon Body 2
   b. Approved Mount: Axon Rapidlock Mounts

4. A personal mobile device may be used while on duty with AXON View App for the immediate viewing by the pairing of the app and the issued BWC to confirm the proper line of site and positioning of the BWC, before going on shift.

5. If an officer discovers that the officer’s assigned BWC is lost or stolen, the officer shall promptly report the problem to their Shift Supervisor, via memorandum, outlining the circumstances that led to the affected BWC.

   a. All memorandums regarding damaged, malfunctioning, lost or stolen BWC are to be forwarded to the Field Operations Division Commander responsible for the BWC Program.

6. Officers shall not alter or modify their assigned BWC in any way.

7. Off-Duty Considerations

   a. Officers are not authorized to carry department BWC while off duty.
   b. When feasible, officers should dock BWC in the department’s interior armory when off-duty.
   c. Otherwise, officers shall ensure that the BWC is secured while in their home, vehicle or any other area under their control, in a manner that will keep the
device inaccessible to others. This also applies to the officer's locker, desk or office, if secured at the station.

B. Notification and Consent:

1. Officers are not required to obtain consent from members of the public before the recording when the officer is lawfully in the area where the recording takes place.
2. Officers shall not play back a BWC recording to allow members of the public to review the video footage. Citizens requesting to review BWC footage should be referred to the Field Operations Division Commander.

C. Discretionary Use of the BWC:

1. At such locations, at the officer's discretion and based on the circumstances, BWC may be turned off. Officers must state the reason they are turning off the camera before doing so.
2. In the event, officers are within a residence, and a citizen with standing has requested the officer to stop recording, the officer may use discretion to stop recording if the recording is not under an investigation, arrest, lawful search, or the circumstances dictate that continued recording is necessary. As a general rule, if an officer must legally ask permission to enter a premise, the officer should also ask the resident withstanding if they will allow recording.
3. Officers, where appropriate, may also divert the BWC away from any subjects and record only audio, if appropriate.

D. Termination or Interruption of Recordings:

1. When an officer arrives at any detention facility and just before entering the facility, the officer will deactivate the BWC. Officers should not activate their BWC inside any detention facility. If circumstances arise where an officer needs to activate the BWC to record exchange between the officer and the prisoner, the officer will contact the detention facility supervisor who will provide a secure room or location where the officer can activate the BWC. BWC will not be used to record exchanges between detention facility personnel and prisoners.

E. Restricted Uses of BWC:

1. The BWC will not be activated in places where a reasonable expectation of privacy exists, such as locker rooms, dressing rooms or restrooms unless the recording is supported by an exigent circumstance and the location has been cleared of any privacy concerns.
2. Any unauthorized use of the BWC by department personnel may result in disciplinary action.

F. Storage of BWC Recording:
1. All files shall be downloaded periodically and no later than the end of the officer's shift unless instructed to do so sooner by a supervisor.

2. If the officer is (1) the subject of the investigation in an officer-involved shooting or in-custody death, or (2) the subject of a criminal matter, the senior ranking on-scene supervisor shall take immediate physical custody of the camera and take responsibility for downloading the data.

3. When uploading recordings to the computer server, officers shall identify each BWC recording with the incident report number or CAD number and the appropriate incident category title to ensure the recording is accurately retained and to comply with local, state and federal laws.

4. Files should be securely stored in accordance with CSU Records and Retention Policy. The files should be stored no longer than useful for training or use in an investigation and prosecution. In capital punishment prosecutions, recordings shall be kept until the offender is no longer under control of a criminal justice system.

G. Supervisory Duties:

1. Ensure BWC officers utilize the cameras in accordance with this policy.

2. Monitor BWC officers to ensure recordings are being downloaded promptly on a daily basis or obtain approval from the Field Operations Division Commander or On-Duty Commander postponing the downloading until the following shift.

3. If an officer is (1) the subject of the investigation in an officer-involved shooting or in-custody death, or (2) the subject of a criminal matter, the senior ranking on-scene supervisor shall take immediate physical custody of the camera and take responsibility for downloading the data.

4. Damaged or Malfunctioning BWC: Ensure any malfunction or damage to a BWC is documented by the officer via a memorandum and forwarded to the Field Operations Division Commander. The BWC, if non-functional, is to be removed from service and a replacement BWC issued to the officer by the Field Operations Division Commander.

5. Lost or Stolen BWC: Ensure any lost or stolen BWC is documented by the officer via a memorandum and forwarded to the Field Operations Division Commander. A replacement BWC will be issued to the officer by the Field Operations Division Commander.

H. Security of BWC Recordings:

1. The Field Operations Division Commander is responsible for the storage and security of the BWC recording files.

2. Any images, video, and audio generated by any department BWC are the sole property of the SF State UPD. Accessing, copying or releasing files for non-law enforcement purposes is strictly prohibited and may result in disciplinary action.

3. Employees are prohibited from tampering with BWC recordings or accessing BWC recordings for personal use without written approval from the Chief of Police.

4. Employees shall not use, edit, alter, erase, duplicate, copy, share or otherwise distribute in any manner BWC recordings or files without prior written authorization and approval from the Chief of Police.
5. Employees shall not download, copy, or record BWC recordings from Evidence.com onto any computer, device, CD/DVD, or any other format without the express written consent from the Chief of Police or their designee. Only trained UPD personnel shall operate the BWC.

6. Employees shall not remove, dismantle, or tamper with any hardware/software component or part of the BWC. Employees shall not attempt to erase or alter, in any manner, BWC recordings files.

7. Evidence.com shall only be assessed from UPD authorized computers. Access to Evidence.com from a home or personal computer is prohibited. Officers may view their videos via personal mobile devices, while on duty, for law enforcement purposes only, such as investigations or report writing, via the Axon View app. All activity within the files, including viewings, are logged and trackable in the audit files via Evidence.com.

8. Employees shall not publish or display BWC recordings to the internet or social media sites, without prior written authorization from the Chief of Police or their designee.

9. Command staff retains the authority to audit the storage system at random to ensure authorized users are accessing the data for legitimate and authorized purposes.

I. Documentation:

1. Officers submitting an incident report or completing a written statement shall indicate whether the BWC was activated (for example, “My department issued BWC was activated during the contact, detention, arrest, etc.”) and whether it captured footage related to the incident.

2. If an officer deactivates a BWC recording before the conclusion of an event, the officer shall document the reason(s) for terminating the recording in CAD, a police report, or a memorandum.

3. If the higher ranking sworn personnel orders a subordinate officer to deactivate the BWC, the higher ranking officer shall document the reason(s) for the order in CAD, a police report, or a memorandum.

4. If an officer reactivates the BWC after turning the equipment off, the member shall document the reason(s) for restarting the recording in CAD, a police report, or a memorandum.

5. If an officer determines that officer or public safety would be compromised if a BWC were activated during an incident requiring its use, the officer shall document in CAD, a police report, or a memorandum the reason(s) for not using the BWC.

6. If an officer fails to activate the BWC, fails to record the entire contact, or interrupts the recording for reasons other than by this policy, the officer shall document why the recording was not made, was interrupted, or was terminated, via a memorandum to the Field Operations Division Commander.

7. This section shall apply to both ending the recording and muting the recording before the termination of the incident.

J. Viewing of BWC Recordings:
1. Officers may view their BWC recordings on a mobile data terminal in patrol vehicles, or on department computer workstations.

K. Retention/Decision-making Guide:

The UPD adheres to “best practices” and recommended retention guidelines established under California Penal Code Section (PC) 832.18. These guidelines direct that the retention time for BWC recordings be determined by the evidentiary nature of the recordings.

1. Determine the nature of the recording:
   Is the recording evidentiary in nature or non-evidentiary public record?
   a. Penal Code 832.18 defines recordings as evidentiary in nature when they:
      1. refer to data of an incident or encounter, and could prove useful for investigative purposes, including, but not limited to, a crime, an arrest or citation, a search, a use of force incident, or a confrontational encounter with a member of the public.
   b. Penal Code defines “non-evidentiary data” as BWC recordings that do not “…necessarily have value to aid in an investigation or prosecution, such as data of an incident or encounter that does not lead to an arrest or citation, or data of general activities the officer might perform while on duty.”

2. Determine appropriate Retention Period based on the nature of the recording:
   Once the nature of the recording has been established, the Penal Code recommends the following minimum retention periods:
   a. Evidentiary data should be retained for a minimum of “two years” under three circumstances.
      1. Use of Force/Officer Involved Shooting
      2. Incident leading to detention or arrest
      3. Formal or informal complaint against officer
   3. All other evidentiary data should be retained “…for any time…and in the same manner as is required by law for other evidence that may be relevant in a criminal prosecution.”
   4. The retention period for evidentiary data are subject to state evidentiary laws.
   5. Non-evidentiary data (public record) must be retained for a minimum of 60 days or as otherwise specifically mandated.
   6. Current Records Retention Schedules can be found at:
      https://www2.calstate.edu/csu-system/records-retention-disposition
L. Public Records Release Policy:

1. BWC recordings are considered public records, subject to the California Public Records Act and the CSU Records and Retention Policy.
2. The department shall only release BWC recordings in accordance with the California Public Records Act and the CSU Records and Retention Policy. Before release, the recordings will be redacted where appropriate and required by law and policy.
3. In compliance with a Public Records Act request and approved by the Chief of Police, no outside member of the department may review stored footage without the consent of the Chief of Police and after a reasonable attempt to notify the officer has been made.
4. All recordings will be reviewed by the Chief of Police before public release. Recordings that unreasonably violate a person’s privacy or sense of dignity should not be publicly released unless disclosure is required by law or order of the court.
Every effort to protect the identities and privacy of involved parties in the video will be conducted to the extent allowed by law.

5. Media personnel with permission of the Chief of Police and in coordination with SF University Communications may review or be provided recorded files.

6. Per Government Code 6254.4.5:

   a. This chapter does not require disclosure of a video or audio recording that was created during the commission or investigation of the crime of rape, incest, sexual assault, domestic violence, or child abuse that depicts the face, intimate body part, or voice of a victim of the incident depicted in the recording. An agency shall justify withholding such a video or audio recording by demonstrating, pursuant to Section 6255, that on the facts of the particular case, the public interest served in not disclosing the recording clearly outweighs the public interest served by disclosure of the recording.

   b. When balancing the public interests as required by this section, an agency shall consider both of the following:

      (1) The constitutional right to privacy of the person or persons depicted in the recording.

      (2) Whether the potential harm to the victim caused by disclosing the recording may be mitigated by redacting the recording to obscure images showing intimate body parts and personally identifying characteristics of the victim or by distorting portions of the recording containing the victim’s voice, provided that the redaction does not prevent a viewer from being able to fully and accurately perceive the events captured on the recording. The recording shall not otherwise be edited or altered.

   c. b. General procedures/precautions for informant use by Patrol officers and Investigations personnel.

   2) Officers are not precluded from using informants in compliance with this written directive.
   3) If an officer or investigator encounters an individual who they believe will make a potential informant, the officer will discuss the merits and liabilities relevant to that person with their supervisor and commander as soon as practicable.
   4) The officer or investigator will provide background and criminal history on the prospective informant as well as potential information to be provided. This information will then be forwarded to the Prosecuting Attorney by the Investigations supervisor to determine the feasibility of utilizing the informant.
5) An informant (or source of information) shall be advised at the onset that:

- He/she shall not violate criminal law in furtherance of gathering of information or providing services to the police department and that any evidence of such a violation will be reported to the appropriate law enforcement agency.
- He/she has no official status, implied or otherwise, as an agent or employee of the police department.
- The information he/she provides may be used in a criminal proceeding and that although the department will use all lawful means to protect the informant’s confidentiality, this cannot be guaranteed.

6) The case officer must control the direction of the operation and the informant. Informants should not be present at briefings.

7) Officer/informant contacts will be of a strictly professional nature. Extrinsic social or business contacts are expressly prohibited.

8) Contacts with an informant will be such that his knowledge of the department’s facilities, operations, activities, and personnel is kept to the minimum necessary to his successful utilization.

9) At least two officers should be capable of contacting an informant. Whenever practical, two officers will be present at all contacts with the informant.

10) All significant contacts with the informant, and all information obtained at these contacts will be documented in writing.

c. Where an informant is to participate in an undercover purchase in which he may come in contact with official funds, controlled drugs, or anything else of potential evidentiary value, he/she will be thoroughly searched both before and after the undercover encounter, and where possible, kept under continuous observation in between.

d. Informant confidentiality: Case law allows the identity of a confidential informant to remain secret when previous reliability as an informant can be shown. The investigator/officer will safeguard the informant’s identity.

1) The true identity of the informant will be made known only to individuals who have a clear need to know.

2) Absolute and unrealistic promises regarding anonymity will not be made.

3) Investigators/officers will structure investigations as much as possible to prevent the informant from becoming a material witness to a crime and therefore requiring his identity to be disclosed.

4) The investigator/officer will advise the informant that circumstances may require him/her to testify in court.

I. PURPOSE: The purpose of this policy is to establish responsibilities and procedures for the preliminary investigation of cases and any subsequent follow-up investigation activities.

II. POLICY: It shall be the policy of this department to conduct thorough preliminary and follow-up investigations of all offenses reported. Patrol officers, who take preliminary reports and conduct the preliminary investigation, must obtain as much information as possible to aid in the eventual apprehension of any suspects.

III. DEFINITIONS:

A. Crime Scene: The location where the crime occurred or where the indication of the crime exists.

B. Follow-up Investigation: An extension of the preliminary investigation. The purpose is to provide additional investigation in order to close a case, arrest an offender, and/or recover stolen property. The investigation may include the following activities including tasks listed in section 4-2 IV, D, 2, a-p.

C. Habitual Offender: For this policy, a habitual offender is a person who has been arrested three or more times for the same offense, or who has been convicted of three or more felony convictions.

D. Physical Evidence: Any substance or material found or recovered in connection with a criminal investigation.

E. Preliminary Investigation: Generally, the activity that begins when officers arrive at the scene of an incident. The activity should continue until such time as a postponement of the investigation or transfer of responsibility will not jeopardize the successful completion of the investigation. The investigation usually includes tasks listed in section 4-2 IV, A, 1-9.

F. Serious Offender: This is a person who has been identified as a suspect in a crime against a person, where the victim has sustained death, serious physical injury, or extreme physical and/or mental duress.

G. Witness: A person who has information or evidence relevant to the investigation of a specified crime.
IV. PROCEDURES:

A. Patrol officers will be responsible for conducting thorough, accurate and complete preliminary investigations and are encouraged to continue with the investigation and follow-up as needed, in an effort to bring the case to a satisfactory conclusion.

Steps to be followed in conducting preliminary investigations include:

1. Taking steps to ensure the safety of victims, suspects and witnesses. Render aid for injured subjects and request appropriate medical attention, if necessary.
2. Maintain the integrity and security of the crime scene by requesting necessary resources, and arrange for the collection of evidence.
3. Observe and document all conditions, events and remarks.
4. Determine whether an offense has been committed or attempted and the nature of the offense.
5. Locate and obtain complete identities of complainants, witnesses and other involved parties.
6. Identify suspects and affect an arrest, if possible.
7. Relay to other officers all relevant information concerning wanted suspects and/or vehicles, including direction of travel.
8. Interview and obtain statements from witnesses, victims, complainants, and suspects and any other relevant parties. If an investigator is to respond to the scene, the supervisor should coordinate all interviews with the investigator.
9. Reporting the incident fully and accurately. Prepare the preliminary crime/incident report.

B. Investigators who “on-view” a case will prepare the initial crime/incident report and conduct the preliminary investigation on all felony and serious misdemeanor cases that are reported directly to them. Investigations Unit personnel will follow up on all criminal cases of general content generated by Patrol that do not require any specialized training, e.g. Traffic Collisions, Sexual Assaults etc. (see below)

C. Assignment of Follow-up Investigations:

1. The Commanding Officer of Investigations will review all crime reports written by patrol personnel assigned and make a determination if the case requires additional patrol follow-up.
2. If the Commanding Officer of Investigations determines that a follow-up is appropriate, he/she will either assign the case back to patrol or to an investigator via RIMS.
3. The following serious Part I and Part II Offenses will automatically be assigned to Investigations unless the Commanding Officer of Investigations deems otherwise:
   a. All shootings;
   b. Incidents involving serious injuries or death;
   c. Incidents involving extensive evidence or where an immediate follow-up is needed
and the Patrol Officers do not have the resources to conduct the follow-up and the Commanding Officer of Investigation approves;
d. Armed robberies;
e. All abductions;
f. Explosions & explosives;
g. Arson with extensive damage or evidence to be collected;
h. All sexual assaults and child molestation cases;
i. Domestic violence [when additional follow-up is required];
j. Stalking [where a suspect is still outstanding]; and
k. Felony computer crimes.

4. All cases where there are workable leads and/or recovered physical evidence will take priority.
5. Any cases that require the officer to perform follow-up activities off the campus will be assigned to detectives when possible.

D. Follow-up Investigation Procedures

1. Maintaining contact with principals in any investigation is valuable for building public confidence in the department as well as indicating that the investigating officer is genuinely concerned about the welfare of the victim and other citizens associated with the case.

   a. In all cases the individual assigned to the follow-up investigation will recontact the complainant/victim within 5 days of the report of the offense.
   b. In serious offenses, the victim should be recontacted no later than 2 days after the report of the offense.
   c. All cases will be finalized within the year reported.

2. The follow-up investigation will include the following:

   a. Reviewing and analyzing all previous reports prepared in the preliminary phase, departmental records involving similar cases, and results from laboratory examinations, if applicable.
   b. Conducting additional interviews of witnesses, complainants/victims and interrogations of possible suspects.
   c. Seeking additional information from uniformed officers, informants, etc.
   d. Revisiting the crime scene and planning, organizing, and conducting searches, and collecting additional physical evidence. Maintaining chain of custody on evidence and submitting it for laboratory examination.
   e. Attempting to identify and apprehend the suspect, through the use of photo line-ups, etc.
   f. Determining the suspect’s method of operation and attempting to link the suspect to other unsolved crimes.
   g. Checking the suspects’ criminal histories.
   h. Preparing cases for court presentation and/or administrative referral to campus judicial systems.

E. Cases Involving Habitual or Serious Offenders:

1. Specifications of criteria designating certain individuals as habitual/serious offenders.

   a. The arresting officer or Investigator will attempt to determine the criminal history of any subject arrested, and determine whether the offender would be defined as a habitual or serious offender.

   b. A habitual offender for this policy is defined as a person who has been arrested three or more times for the same offense, or who has been convicted of three or more felony convictions.

   c. A serious offender for this policy is defined as a person who has been identified as a suspect in a crime against a person, where the victim has sustained death, serious physical injury, or extreme physical and/or mental duress.

A. All property booked into evidence shall be entered into RIMS and secured into the department’s temporary evidence lockers with minimal delay prior to the end of the officer’s tour of duty. Employees will book only that quantity of evidence necessary for case prosecution.

  1. Large items of evidentiary value/found property shall be secured via lock.

B. All property and evidence shall be placed under the control of the property and evidence system before the officer ends his/her tour of duty. Officers will print a barcode label for each item using the Property Room Software. Refer to RIMS Manual for detailed instructions. The barcode label will be physically attached to any properly packaged evidence in a manner not to ruin the integrity of the item.

C. A written report is required detailing the circumstances by which the property/evidence came into the department’s possession, the status of each item, a brief description of each item, and
the storage location of each item.

D. Employees will inspect all items of evidence and property stored for safekeeping to ensure that it is:

1. Properly Entered into RIMS,
2. Properly packaged and labeled with a barcode,
3. Noted in the report, and
4. Properly secured in the Temporary evidence lockers or sally port for large items.

E. Property may be returned to its owner in instances where the rightful ownership can readily be determined and case prosecution will not be jeopardized. The Evidence Custodian will mail the "Notice to Claim Property" form which states how to obtain his or her property pursuant to Penal Code section 1411. When the property is returned to the rightful owner, the Evidence Custodian will complete the "Property Invoice and Return" form (see attached) provided from Property Room program. A photograph of the item will be taken prior to release and added to RIMS for documentation purposes. The completed, “Property Invoice and Return” form will be attached to the report.

3. Officers transporting evidence will be responsible for safeguarding evidence until the court has formally received it. When the court retains evidence, the transporting officer will notify the Evidence Custodian and complete a supplemental report noting the court name, division, the court clerk’s name, date and time. The Evidence Custodian will update the evidence’s status in RIMS.
4. Evidence not retained by the court must be returned to the Evidence Custodian prior to the end of the Officer’s tour of duty. This will complete the transaction and ensure the chain of custody. Upon the return of evidence, the Evidence Custodian shall be responsible for ensuring all item(s) removed are those being returned.
5. When the court does not retain the item(s) and the Evidence Custodian is not available, the officer will secure the property in a temporary evidence locker. When the Evidence Custodian becomes available, the property in the temporary locker will be checked to ensure that item(s) removed are those being returned and completed the check-in procedures manually or by utilizing the hand wand.
6. Any discrepancy(s) detected during the check-in process and not correctable right away should be documented immediately. A letter of Memorandum should be drafted to the Commanding Officer of Investigations detailing the discrepancy(s).

a. If an officer requests to check-out property during non-business hours, arrangements can be made by contacting the Evidence Custodian

3. The ultimate goal is the appropriate disposition of the property in compliance with court orders, proper disposal guidelines, proper release guidelines, and other California statutes

4. The Evidence Custodian will monitor all evidence storage units each workday, transferring any contained evidence to the respective location in the storage room.

5. The Evidence Custodian will check evidence items to insure that they are properly packaged and tagged correctly. If, and when evidence is not properly packaged or tagged, the Evidence Custodian will return the improperly packaged or tagged property to the officer who booked the item(s).

K. Procedures for Temporary and Final Release of Items:

1. The Evidence Custodian will keep a record via RIMS accounting for all movement of evidence in or out of the evidence storage units.

2. Property released to the crime lab will be properly checked out by the Evidence Custodian and marked check-out to “Crime Lab”. The Officer releasing the evidence to a crime lab technician will complete a supplemental report noting the date, time, location, and the name of the lab technician receiving the evidence.

3. Property released to the court is detailed in Section I of this directive.

4. The Evidence Controller is responsible for insuring that the Evidence Custodian makes appointments for the release of property to owners during non-business hours.

L. Property Disposal:

1. The Evidence Controller will insure that all California Statutes and procedures will be followed regarding the disposal of evidence and property held for safekeeping. Such property can be disposed in four (4) possible ways:

   a. Returned to the owner.

      1) Individuals seeking the return of a firearm(s) that is in the custody or control of a court or law enforcement agency must submit a LEGR Application along with the appropriate fees to the Department of Justice (DOJ). A firearms eligibility check will be conducted to determine if the applicant is lawfully eligible to possess firearms. A notice of the results will be sent to the applicant. The notice must be presented to the court or agency within thirty (30) days of the date of the notice. Failure to do so will result in the need to submit a new application and fees and undergo another firearms eligibility check.

   b. Converted to use of this department or a government entity for official use.

   c. Destroyed by the Evidence Custodian/Controller with a witness, or by certified companies/organizations.
d. Destroyed, pursuant to a court order, either by the Evidence Custodian/Controller with a witness, or by other certified companies/organizations.

2. The Evidence Custodian, along with the Detectives, shall make an absolute effort to identify and notify the owner of items in the department’s custody. The key to reducing the load on the property/evidence system is by returning items no longer having evidentiary value.

M. Documented Inspections, Inventory, and Audits:

1. An inspection to determine adherence to procedures used for the control of property/evidence shall be conducted semi-annually by the Evidence Controller or his/her designee.
2. An inventory of property shall occur whenever the person responsible for the property and evidence control function is assigned to and/or transfers from the position. The inventory shall be conducted jointly by the newly assigned/designated property and Evidence Controller and a designee of the Chief of Police to ensure that records are correct and properly annotated.
3. An annual audit of property and evidence held by the department is conducted by a supervisor not routinely or directly connected with control of property and evidence as assigned by the Chief. The Chief or his/her designee will conduct the audit unless the Chief decides otherwise.
4. Unannounced inspections of property storage areas are conducted as directed by the Chief of Police. These inspections occur once a year by the Chief or his/her designee.
5. The “Property and Evidence Control Inspections” form (see attachment), shall be utilized for all audits.
6. Discrepancies:
   a. All discrepancies should be immediately investigated with the primary goal of locating any missing property or documentation.
   b. With each discrepancy found, the auditor would look for the cause and make recommendations to correct any procedure found to have caused or allowed the error.
   c. Every discrepancy, regardless of whether or not it is resolved, should become part of the final auditor’s report.

N. Key Control:

1. The temporary evidence storage lockers, the bulk evidence storage containers and the evidence storage rooms are restrictive areas, accessed by authorized personnel only. Employees shall not under any circumstances, regardless of rank, enter, or allow others to enter, these restricted areas.
2. It is imperative that the policies concerning the physical security and security awareness are enforced to the extent that they control actual procedures. Failure to preserve and protect property will reflect upon the agency and lead to loss claims,
lawsuits, and the possible dismissal of court cases.

3. No more than two sets of keys to any internal lockable safe, lockers, etc., shall exist.

4. One set of keys (a single key for each evidence locker and one for the sally port locks) should be in the personal custody of the Evidence Controller. This set is secured at the station when the Evidence Controller completes his or her tour of duty and no other personnel shall have access to these keys.

5. The second set (a duplicate key for each evidence locker and sally port locks) shall be issued to the Chief of Police.

6. The Evidence Controller shall maintain the sole “brass key” to the evidence room and the bulk storage container – which are the same key.

7. Card Key access will only be given to the Evidence Controller, the Evidence Custodian or the Detectives.

8. No safe should be left unlocked when not attended by the person responsible for its security.

9. Quarterly alarm testing of room 120 shall be done by the Evidence Controller or his/her designee. The results shall be logged, documented and appropriate action taken in the event that problems are discovered.

1. The Evidence Controller will be responsible for the disposal of all property. The Evidence Controller will set review dates for all property as follows:

   a. Felonies - 1 Year
   b. Misdemeanors - 1 Year
   c. Property for Safekeeping - 3 Months
   d. Found Property – 6 Months

2. The Evidence Controller will be responsible at the review dates to consider determining those items held as evidence for continuous hold.

3. If, and when the purging of items held as evidence is determined, the Evidence Controller will insure that proper disposal procedures are adhered to for all property.

4. Found Property and Property for Safekeeping items have established holding periods, so they need not be reviewed. The Evidence Custodian will generate a computer request for clearance from the Evidence Controller for the expeditious purging of those items.

5. The Evidence Custodian will complete and mail a “Notice to Claim Property” form to the Owner/Finder at the earliest date possible of the location and method by which that Owner/Finder may obtain the property (Section 1411 PC, 1413 PC). A supplemental report should be completed noting the date the form was mailed. A copy of the “Notice to Claim Property” form and a supplemental should be attached to the original case.

6. All property seized pursuant to a search warrant, require a court order for its release or disposal (Section 1536 PC).

7. Final disposition of found, recovered and evidentiary property is accomplished within six months after legal requirements have been satisfied.

      9) Book all evidence.

2. Preliminary Scene Survey:

   a. Once medical aid has been provided to the injured and no suspects remain on scene, Officers/Detectives will conduct a preliminary scene survey to include:
1) Observe crime scene (don’t touch).
2) Determine nature and extent of the crime scene.
3) Determine location of evidence.
4) Determine order of collection.
5) Establish best working route.
6) Note all existing conditions (lights on/off, windows open/closed, etc.).
7) Note items out of place or damaged.
8) Note relationship between items.
9) Create an initial rough sketch.

3. Crime Scene Sketch:
   a. Detailed crime scene sketches are normally prepared only in major crimes.
   b. Sketches should include:
      1) Time and date of preparation.
      2) Location of the crime scene.
      3) Location of evidence.
      4) Location and names of victims, witnesses, and suspects (if applicable)

   c. Use ruler/yard stick to show size or distance of evidence in relation to other items or fixed objects.
   d. Use numbered cards or markers to identify types and locations of evidence.
   e. Use chalk or paint to outline subject matter.
   f. The officer should attempt to include two items of evidence into the field of view, if possible, as well as a common item such as a desk, chair, etc.

device) will be booked into evidence. (Guidelines are to be followed as outlined in section IV, C, 6, b and 7, a-d)

5. Video Taping the Scene

a. Some major crime scenes should also be videotaped (without sound).
b. The videotape should record the condition of the scene, victims, witnesses, and suspects, and collection of the evidence.
c. Note in the narrative section of the report that the crime scene was videotaped including the date, time, and person filming.
d. The videotape will be booked into evidence.

C. Collection of Evidence:

1. Officers will book only that quantity of evidence necessary for case prosecution and it shall be booked into evidence as soon as possible.
2. Officers shall wear disposable gloves when collecting evidence to avoid contamination.
3. Materials and substances shall be collected from known sources, whenever available, for submission to the laboratory for comparison with physical evidence collected [i.e. hairs, fibers, paint, glass, wood, soil, and tool marks].
4. Samples for comparison should be collected from known sources where fractures have occurred [i.e. glass, wood, paint, and metal].
5. Fingerprint Processing:

a. Obtain fingerprints, using a black ink pad, from all relevant persons for purposes of elimination.
b. Decide whether to process latent prints at the scene or to package the item for laboratory processing.
   1) Smooth surfaces are the easiest to process for fingerprints.

c. Choose a fingerprint powder that is a contrasting color to the surface being processed (black, grey, or white). This department primarily utilizes volcanic (oxide) & magnetic powder.
   1) Volcanic (oxide) powder is used on paper products, wood, painted non-metallic and painted metallic surfaces.
   2) Magnetic powder is used on paper, wood, plastic, painted non-metallic, glass, porcelain, and china surfaces

d. Fingerprint powder should be lightly applied utilizing circular motions with the brush to pick up the circular patterns of latent prints.
e. The latent prints should be lifted utilizing transparent tape applied evenly to prevent air bubbles. The transparent tape with the latent print should be carefully removed and placed on a lifter card.
f. The lifter card should be marked with the following information:

1) Location  
2) Sketch of the location where the latent print was lifted.  
3) Case number  
4) Date and time  
4) Officer’s name and star

6. Marking Evidence:

a. Any item of evidence will be marked for later identification with the following exceptions:

1) The item bears a serial or O.A.N. Item(s) shall not be dismantled to locate these numbers.  
2) The item can be easily identified by its original or distinctive markings.  
3) Marking the items would destroy its evidentiary value.

b. Evidence should be marked in the following manner:

1) Make mark(s) as small as practical.  
2) Make the mark distinctive and recognizable to the person making the mark (i.e. initials, badge number).  
3) Spent cartridge cases may be marked on the inside or outside of the case near the opening.  
4) Bullets may be marked on the base.  
5) Documents shall be marked by placing the case number, in ink, on the front upper right hand corner of the document and initial the reverse side of the document.  
6) When marking the item is impractical, it will be packaged, sealed, and labeled.

7. Labeling and Packaging Evidence:

a. All evidence should be appropriately labeled. Multiple items being booked together shall have specific descriptions and quantity. Officers should avoid using general descriptions such as a “bag of miscellaneous jewelry” or a “box of CD’s.”

1) Officers shall individually book items in separate evidence envelopes (i.e. cash, documents, narcotics, latent prints).

b. All items should be entered into RIMS associated with the case number. Refer to the RIMS Report Manual For Patrol for detailed instructions.

c. When selecting a suitable container for a particular piece of evidence, several basic factors should be considered:

1) Officer should use clean containers or packaging materials.
2) Certain types of articles should be maintained in a flat condition. Questionable documents should be left in its original condition (folded or unfolded) unless absolutely essential.

d. Items for comparison should be packaged so not to alter or damage important characteristics or impressions.

e. Large items should have a barcode label that may be attached by string, wire, or peel off method (i.e. bikes, tires, vehicle parts, long gun type weapons).

f. Alcoholic beverage containers shall be photographed at the scene and disposed of in an appropriate manner.

g. Firearms taken into custody will be handled in the following manner:

1) Ammunition will be packaged in soft tissue and placed in an envelope. Ammunition will be packaged separately from firearms.

2) Packages with live ammunition will have the words “LIVE AMMO” written on the outside.

3) Officers will ensure the firearm is unloaded and safe for handling.

4) Officers unfamiliar with the operation of a weapon will seek assistance from another officer more familiar with the weapon's function. Officers will use the load barrel when unloading a weapon located in both locker rooms.

5) Note original condition of weapon in the report, including position of magazine or cylinder, position of the safety, position of the hammer, and the position of live/empty rounds in the weapon.

6) All weapons coming into custody will be checked through AFS – Automated Firearms System, and NCIC – National Crime Information Center, to check for wants and registration information. AFS and NCIC teletype will be attached to the report.

7) Packages with firearms will have the words “Firearm” written on the outside of the package.

8) Only a weapon's empty magazine and holster may be packaged with the firearm. Loaded magazines will not be stored in the weapon and shall be packaged separately from the fire ammunition. Ammunition already in a magazine shall be left in the magazine. As latent prints can be recovered from the ammunition.

9) Long gun type weapons need not be packaged. These weapons should have the action, breech, bolt, or chamber left open when practical.

10) Generally, weapons involved in a homicide or death will be handled by SFPD Investigations Unit. Such weapons shall not be modified from its original condition. Officers will ensure that the weapon is safe and secure until turned over to SFPD.

11) If, for any reason, this department is required to package a loaded firearm, the words “LOADED FIREARM” will be written on the outside. The officer should attempt to place the “loaded” firearm in a “safe” condition to prevent accidental discharge.

12) A firearm, held for latent prints or other scientific examination, should be handled with extreme care to preserve such evidence.
h. Knives and sharp instruments will be packaged in the following Manner:

1) Blades and sharp objects shall be packaged to eliminate hazard to others.
2) Pocket knives will be packaged in the folded position.
3) Fixed blade knives and razor blades will have strips of cardboard taped to either side of the blade.
4) Ice picks will be packaged with a piece of cork, or like material over the point. If cork is not available, cardboard can be folded over the tip and held in place with tape.
5) Syringes or hypodermic needles will be placed in a syringe tube.
6) Officers will print the words “KNIFE”, “RAZOR”, “ICE PICK” or “SYRINGE”, on the outside of the packaging.

i. Blood and urine samples taken for alcohol or drug analysis will be taken in accordance with the procedures outlined on the blood evidence envelopes/urine analysis evidence bottle.

1) Requesting officer will witness the withdrawal of the blood sample.
2) Officers will wear latex gloves when handling blood/urine samples.
3) When the blood/urine sample has been collected, the officer will place the vial/bottle in the evidence envelope and seal it with the seal provided with the evidence kit.
4) Officers, within 6 hours of collection, shall book the evidence at the SFPD Crime Lab.

j. Evidence of sexual assault will be taken in accordance with the procedures outlined on the Sexual Assault Evidence Kit.

1) When Sexual Assault examination has been completed and evidence has been obtained, the sexual assault kit is maintained at San Francisco General Hospital. The SFPD Crime Lab staff will pick up the sexual assault kit.
2) Officer(s) collecting cloth material (clothing, bed sheets, towels, etc.) containing wet blood, semen, or chemical stains, will air dry these articles before placing them into a clean paper bag. Each item will be packaged separately to avoid contamination and properly booked into evidence.

k. Glass fragments will be placed in an envelope and have the word “GLASS” written on the outside.

l. U.S. coins and currency will be placed in a coin evidence envelope and sealed.

1) All money will be counted in the presence of two sworn police officers prior to packaging.
2) The verified total of U.S. coin and currency will be written on the outside of the envelope and initialed by both the collecting officer and witnessing officer.

m. Small valuable items will be packaged in a small envelope separately from other
items.

8. Packing Narcotics:

   a. In all cases where narcotics are taken as evidence, an SFPD case number and lab number will need to be obtained by dispatch. Both case numbers will be noted in the narrative section of the report and in the property sections of RIMS.

   b. All narcotic substances will be weighed in grams or pounds and photographed prior to packaging. Specify if measurement is taken with or without container. The verified total weight will be written on the outside of the envelope and initialed by the collecting officer.

   c. The seizing of large quantities of controlled substances should be carefully evaluated due to the potential hazards (i.e. harmful vapors, explosive chemicals, or flammable/combustible material).

      1) A small sample will be packaged and booked at the SFPD Narcotics/Drug lab while the remainder will be secured in a temporary evidence locker.

      2) The on duty Watch Commander will notify the respective agency and request assistance when a situation exists beyond the resources of this department (Hazardous Chemical Team, San Francisco City Fire Department, SFPD SID, etc.).

   d. Marijuana and/or Hashish, if possible, should be kept in its original container (minus the small sample used for field testing) and shall be placed in an SFPD Narcotics envelope. In the event that the container of the contraband is too large or cumbersome, the substance will be placed in a smaller “paper” envelope. If there are multiple bags of marijuana, hashish, or other drugs the officer will itemized each baggie/container in the appropriate space provided on the front of the envelope. That envelope will then be placed inside an SFPD Narcotics envelope. The bulky container will be placed in the SFSU PD evidence room.

   The officer will need to draw an SFPD case number and lab number. Only one SFPD case and lab number per case is needed for multiple items of Narcotics evidence taken per SFSU PD case. The SFPD Narcotics envelope will be booked at the SFPD Narcotics/Drug lab, located on the basement floor of the Hall of Justice, next to the property room (Rm. G25).

      1) Marijuana in plant form. When Marijuana is located as evidence in its natural growing state, the plant should be photographed where the plant is located prior to taking the item as evidence. The Plant must then be pulled out of the growing container and placed in a “PAPER” bag or breathable paper container that allows the plant to dry out thus preventing decomposition. DO NOT PUT MARIJUANA IN PLANT FORM IN A SEALED PLASTIC BAG.

   e. Toluene or similar substances when not in a sealable container will be packaged in an airtight glass container. The container will then be enclosed in an SFPD
Narcotics/Drug envelope and booked at the SFPD Narcotics/Drug lab.

f. Heroin, cocaine, and other drugs, if possible, should be kept in its original package or container (minus the small sample used for field testing). The package shall be enclosed in a SFPD Narcotics envelope and booked at the SFPD Narcotics/Drug lab, located on the basement floor of the Hall of Justice, next to the property room (Rm. G25). If there are multiple bags/containers of drugs the officer will itemize each bag/container in the appropriate space provided on the front of the envelope. Only one SFPD case number and lab number is needed for multiple items.

g. Phencyclidine (PCP) or its analogs will be handled with extreme caution.

1) Avoid unnecessary contact with the container or with cigarettes dipped in PCP.
2) Handle PCP containers or cigarettes with protective gloves.
3) Place the container of PCP into a plastic evidence bag as soon as practical. Seal the container and contents in at least two (2) sealed plastic evidence bags.
4) Enclose evidence bag containing PCP in an SFPD Narcotics envelope and booked at the SFPD Narcotics/Drug lab (Room G25).
5) Keep PCP containers or cigarettes away from workspaces as much as possible. Keep work areas well ventilated.

h. In the event money is taken as evidence, (i.e. drug sales) officers are to book the money into evidence.

1) The Investigations unit will contact the San Francisco District Attorney’s Office and advise them of the money evidence seized.
2) The Detective will obtain a D.A. tracking number when there is sufficient money for asset forfeiture and note the tracking number in the supplemental report.
3) The Detective shall book the money using the already assigned SFPD case number at the SFPD property room on behalf of the District Attorney’s Office.
4) The Detective shall obtain an SFPD property receipt with the D.A. tracking number on it.

9. Items Requiring Special Handling or Processing:

a. Explosive substances:

1) Employees will not handle confirmed or suspected explosive substances or devices. Calls concerning possible explosive devices will be referred to the SFPD Bomb Squad. The Bomb Squad will assume custody of all evidence, and/or material. This department will secure a copy of any report written by the SFPD specialist involving incidents on this campus.
2) Safe explosive substances, those items determined by the explosive specialist as safe, will be booked in the same manner as other property. Packages containing a “Safe” explosive substance will have the type of material written in
on the outside of the package.

3) The following explosive substances are considered safe to be booked without the inspection of a Bomb Specialist:

   a) Fireworks in small quantities.
   b) Ammunition and blank or saluting cartridges up to but not including .50 caliber.

b. Hazardous Materials:

1) Employees will not handle any chemical or mixture of chemicals, which may be toxic, corrosive, volatile, explosive, or flammable and pose any risk to public health or safety.

2) Environmental Health & Safety shall be notified, as well as the San Francisco Fire Department. A Hazardous Material Team will handle calls involving these materials. HazMat Specialists will assume responsibility for all handling of these materials unless the specialist determines them to be safe.

3) This department will secure a copy of any report written by the SFPD or SFPD HazMat Specialist involving incidents on this campus.

paper bag. Each item will be packaged separately to avoid contamination, entered into RIMS and have a barcode label printed that is affixed to the exterior of the bag.

3) The officer shall book the evidence at the University Police Department in an evidence locker.

c. Storing and Transporting DNA evidence

1) DNA evidence should never be stored or left in patrol vehicles for an extended length of time.
2) All DNA evidence should be transported to the SFPD Crime Lab as soon as possible.
3) A “Laboratory Examination Request” form shall be completed and submitted at the time the DNA evidence is released to the SFPD Crime Lab.

D. Evidence Processing Equipment:

1. Equipment and supplies required for processing scenes, collecting and preserving physical evidence, and investigating accidents are available to all officers and are stocked in the squad room. The Commanding Officer of Investigations is responsible for insuring supplies are replenished and maintained in a state of readiness for all officers.

b. Eye, face and hand protection shall be worn when conducting a NIK test.
c. Once results have been obtained, the NIK test shall be discarded in the Hazardous Waste receptacle labeled “SPENT NIK KITS” (kept in the sally port.) EH&S will check the container once a month to gauge the disposal.
d. Any test that reacts in such a way that is not deemed normal shall immediately be brought to the attention of the on-duty watch commander, who will then notify the Division Commander.
e. Any unplanned or accidental exposure to NIK test chemicals/suspected drug shall immediately be brought to the attention of the on-duty watch commander, who will then notify the Division Commander. The incident shall be documented in a separate report and a case number assigned.

E. Documentation:

1. The reporting officer will note in the narrative who processed the crime scene and what forms of processing occurred.
   a. Note in the narrative if photographs were taken and if a sketch was made.

S.F. STATE UNIVERSITY NIK TEST SAFETY TRAINING

General Testing Procedures

- **Tablets or other hard materials**-
  - Crush a part of the tablet into powder and insert into the test pouch
- **Capsules**-
  - Open the capsule, remove part of the powder and insert into the test pouch
- **Powders**-
  - Insert powder directly into the test pouch (start with a circle about the size of eraser side of a pencil then add more if needed)
- **Plant Material**-
  - Begin testing with Test “E”, use only a few leaf fragments
- **Suspected Black or Brown Tar Heroin**-
  - Begin testing with Test “L”
- **Liquids**-
  - NIK Tests are NOT designed for use with liquid samples.
  - However, liquids may be tested by placing the tip of a NIK substance loading device or a ½” square piece of paper into the liquid. Remove and allow to air dry. Place the dry paper into the test pack and proceed with the test as instructed. (Note: The choice of paper is critical. Unscented, uncolored filter paper is ideal. Never use brown paper, hand towels or newsprint.)

NIK TEST SAFETY PRECAUTIONS

- **Neutralization**:
  - Many of the tests contain strong acid(s) or bases. Always insert a portion of Pack “F” (Acid Neutralizer) into the test pack after testing and before disposal of the used test pack. Once an ampoule has been broken, no attempt should be made to further crush the glass or tablet remnants.
- **Exposure**:
  - In the event that a test pack or chemical is ingested, seek immediate medical attention. If chemicals come into contact with the skin or eyes, wash the skin thoroughly with soap and water. Flush the eyes with water and seek immediate medical attention.
MSDS are available in the UPD Hazard Communication Binder.

- **Storage:**
  - Store NIK Tests in a cool dark area. Heat will speed up the action of the chemicals in each test and extreme cold will slow them down. Appropriate care should be exercised. Do not store in direct sunlight.

- **Disposal:**
  - Disposal of NIK Tests must be done in accordance with all federal and state environmental laws.
  - Place used NIK Tests in designated bucket labeled “Spent NIK Tests” for the EHOS department to properly dispose of.

**FOR YOUR SAFETY**

- **Personal Protective Equipment:**
  - For your safety, please wear protective gloves and eye protection while conducting NIK Tests.

- **Testing Location:**
  - For your safety and the safety of others, SFSU UPD and EHOS has designated a NIK test location outside of the UPD station in the sally port.

- **Breaking the Chemical Ampoules:**
  - Care should be taken when breaking the glass ampoules in each test. Each test includes a plastic “harness” that serves to hold the ampoules in place and protect the user from injury. Press firmly in the center of the harness to break each ampoule. Once the glass has broken, do not continue to crush the glass ampoules as a shard may puncture the pouch and result in injury.
This form is to be utilized by Environmental Health & Occupational Safety to document the Safety training of employees.

A. Department of Justice Criminal Intelligence Systems: A California Perspective

VI. ATTACHMENT: None
I. PURPOSE: This directive establishes guidelines and reporting responsibilities when victims and witnesses of crimes have been affected by a criminal act.

The purpose of this directive is to assist Department personnel when providing services to victim/witnesses of the Campus Community. The program goes beyond the financial aspects of victimization and deals with the emotional side of crime including the feelings of isolation, anger, fear and confusion. Crime victims and witnesses’ needs are not always adequately met. This program provides immediate assistance, day or night, in the form of counseling companionship, transportation, food, shelter, clothing, or other emergency service needs. The program provides follow-up care by identifying and contacting those agencies and resources that are needed. When victims and witnesses of crime have been affected by a criminal act, such as the emotional stress due to the loss of personal affects, injury to family or friends, death, or witnessing a criminal act, they must receive assistance.

II. POLICY: The SFSU Police Department will treat victims and witnesses with fairness, dignity and compassion. To ensure full support for victims, the University Police Department follows the guidelines stated in the Constitution of the State of California, Victims’ Bill of Rights. The victim will be provided with information both verbally and in writing on the bill of rights. Information on bill of rights is also available on the department web-site and the police department lobby.

III. DEFINITIONS:

A. Single Point of Contact: A specific person, position, organizational component, or phone number.

B. Victim: A person who suffers physical, financial, or emotional harm as the direct result of a specified crime committed upon his or her person or property. Any of the following constitute a specified crime: all felonies and all misdemeanor crimes against the person. Also regarded as victims are:

1. a spouse, child, parent, or legal guardian of a minor, and
2. a spouse, child, sibling, parent, or legal guardian of a homicide victim.

The definition excludes any person involved in a crime as a perpetrator or accomplice.

C. Victim Advocate: A person authorized by the department to assist victims in special ways. A person specially trained to assist victims of crimes with support services. Unless otherwise directed by competent authority, the Victim Advocate responsibility will be assigned to the case investigator.

D. Witness: A person who – as determined by the law enforcement agency – has information or evidence relevant to the investigation of a specified crime. All victims are witnesses.

IV. PROCEDURES:

A. The Crime Prevention Coordinator shall conduct a documented annual review of the victim/witness program assistance needs and available services. The Crime Prevention Unit shall review all police reports and crime statistics to chart crime trends and research resources for victims. The review shall include:

1. an inventory of information and service needs of victims and witnesses in general (including homicide or suicide survivors) and special victims, such as those victimized by domestic violence, abuse and neglect (especially children and the elderly), sexual crimes, and drunken drivers,

2. victim assistance and related community services available with the service area, and

3. determination of unfilled needs and appropriate remedies.

4. the Crime Prevention Coordinator shall track services and information, provide victims with forms, information and personal interaction.

B. Implementation and delivery of victim/witness assistance services by agency personnel.

1. The Investigations Unit shall maintain an updated list of social service agencies and shall supervise the implementation of the Victim/Witness Program.

2. The training function for the department will include the coordination of related victim/witness training. Training provided shall include in-service, specialized courses, and the Field Training Officer Program.

3. The Police Department maintains liaison with the District Attorney’s Victim Witness Assistance Office; The City Attorney’s Victims Assistance Program; the California State Attorney General’s Office, and the California Department of Justice on available services provided.

4. The Investigations Unit will serve as the liaison to identify applicable government and community resources for victims needing immediate emergency assistance and resources as a result of domestic violence, workplace harassment, stalking, sex crime, child and elder abuse, or other related crimes. Resources will include referrals for counseling, emergency housing, temporary restraining orders, safety information for victim and co-workers, and contacts with governmental support
programs such as the District Attorney’s Victim Witness Assistance Program, Family Violence Project, the City Attorney’s Victims Assistance Program, and the National Center for Missing and Exploited Children.

5. A contact person, telephone numbers and follow-up will be provided for all victims/witnesses where appropriate or by request of the victim/witness. Attachments A and B will be given to the victims of violent crimes.

6. The assigned Police Officer is responsible for providing the victim/witness with a business card referencing the police case number and, where appropriate, provide assistance such as basic information on victim assistance programs, medical treatment, counseling, victim advocacy, case status, and information regarding the subsequent steps in the processing of the case to include the prosecutorial process.

   a. Police Officers demeanor must reassure and ensure calmness to victims and witnesses of crime in the processing of a case. In accordance with Section 6254 of the Government Code, the victims of all sexually related offenses will be given the option of not having any personal information released. Officers, who complete the initial report regarding all sexual based offenses, will afford the victim the option of having their personal information released to outside sources. The victim must sign the completed form, unless the victim’s medical condition makes it impossible for him/her to sign. The officer, in these rare instances, may sign for the victim. In all cases where victims refuse to sign the form, the Officer will note such refusal within the police report. Once the form is completed, the Officer will affix the form as a cover sheet to the police report. The form will be bright yellow in color, which will immediately alert personnel handling such report that it is a case where the victim does not desire personal information to be released. When victims refuse to sign the form, no form will be attached to the report.

   b. The Police Officer assigned the case will serve as the primary contact for the victim/witness to report additional information regarding their case, unless otherwise assigned by the Watch Commander or, if the case is forwarded to investigations for follow-up.

   c. The communications center is staffed by civilian personnel, police dispatchers, whose primary duties include the following:

      1) As the 24-hour point of contact for the University, dispatchers answer incoming telephone calls, receive and broadcast all radio communications for on duty patrol, parking, and community service officers.

      2) Responding to Victim/Witness calls for information and/or services to include:

         a) The Dispatcher taking the initial call will judge the specific characteristics of each call to determine if an emergency or non-emergency response is required.

         b) The dispatcher based on training, experience and the following considerations shall determine whether an immediate police response is warranted.

            i. Immediate threat present
ii. Demeanor of the victim
iii. Request from the victim for immediate assistance
iv. Previous contact, if any, with the victim
v. Information known by the dispatcher relative to the victim or the offense.

3) If the victim/witness is asking for information only, refer them to the Watch Commander or the appropriate department personnel for assistance.
4) The dispatcher can provide information and referral to other Public Service agencies. A current listing of all available assistance resources in San Francisco County is maintained in dispatch within RIMS and CASSIDIAN.
5) Subsequent requests will be handled by appropriate department personnel as soon as possible.

7. By request, the Investigations Unit will assist with the initial scheduling of appointments with the Victim Witness Assistance Program and/or identification of alternative referral services including basic SFSU sponsored resources such as, Counseling and Psychological Services, Women’s Resource Center, and Student Health Center.
8. The Department’s services and telephone numbers are available from the Communications’ Center to the victim on a 24 hours a day basis.
9. A victim/witness will be provided direction to obtain a copy of the police report, if requested or desired. The Officer will explain the confidentiality policies (841.5 PC) relevant to the criminal act and the Department’s policy on confidentiality, including the confidential victim of sex crimes or violence waiver. The victim/witness will be provided with information on the criminal justice system process (Victims of Domestic Violence Card; Notification of Counseling Center shall be provided to the victims of sexual assault - 264.2 PC).
10. The Department will encompass information on Crime Prevention and victim/witness assistance in the federally mandated Crime Awareness and Campus Security Act Report (Clery Publication), which is available on the department’s website, and also in a hard copy version. Additional information on victim/witness services will be included in presentations and new employee and student orientations, emergency alert bulletins to the media, campus community and public when appropriate.
11. The Investigations Section will maintain liaison with government and community based victim/witness services on a regular basis to gather updated information on scope of services, qualification for assistance, and informational flyers for distribution to victims/witnesses.

C. The Police Department will provide appropriate assistance to any victim/witness who has been threatened or has credible reasons for fearing intimidation or victimization. All services will be coordinated with the reporting jurisdiction/agency.

1. “Appropriate assistance” is determined by the resources available to the Agency and if possible is commensurate with the danger and degree of risk faced by the victim/witness. This may include an escort to their vehicle, home or to a “safe
house,” relocation of work site, security and safety assessment of work site and home, employer notification, or based on risk and endangerment, assistance with enrollment in a Witness Protection Program.

2. 911 on campus provides victims/witnesses with emergency assistance at any time.

D. Preliminary Investigation:

1. The Police Department will provide the following information to victims/witnesses, during the preliminary investigation:

   a. Information pertaining to available University, City, County, State, or community based services for counseling, medical attention, compensation, financial assistance and, victim advocacy;
   b. Instruction to contact the SFSU Police or local jurisdiction (9-1-1) if the suspect or suspect's companions or family threatens or otherwise intimidates him/her;
   c. The incident/case number and subsequent steps in the processing of the case; and
   d. The Police Department’s 24 hours a day telephone number 415-338-7200 to call to report additional information about the case or to receive information about the status of the case.

E. Follow-up Investigation. During the investigation process, the officer assigned to the case or the Investigations Section will maintain contact with the victim/witness. The following assistance will be provided to victim/witnesses during the follow-up investigation.

1. Re-contacting the victim/witness periodically to determine if his/her needs are being met if the crime, or the impact on the victim in the opinion of the Investigations Section, is unusually severe and has triggered additional need for supportive services. Re-contacting will generally occur by use of written correspondence or actual telephonic contact, as deemed appropriate by the Officer or investigative staff. All telephonic re-contacts with the victim will be documented in a supplemental report documenting the re-contact will be completed. Copies of written correspondence to the victim will be placed within the case file.

2. Explaining to the victims/witnesses the procedures involved in prosecution of their case and their role in those procedures, if not an endangerment to the successful prosecution of the case.

3. Scheduling photo line-ups, interviews, and other required appearances at the convenience of victims/witness; and at the discretion of the investigator providing transportation, if necessary.

4. Returning promptly a victim’s property, which was taken as evidence (except for contraband, disputed property, and weapons used in the course of the crime), where permitted by law or rules of evidence, if feasible.

5. Providing a victim advocate through the Victim Witness Assistance Program, via a contact number, if needed.

F. Arrest of Suspects: victim/witness services to be rendered upon arrest and during post-arrest processing of the suspect.
1. Officers who arrest a subject shall work with the Investigations Section to assure victims are notified of the arrest.
2. The victim will be notified of the court dates, time and location.
3. The victim/witness of the arrest will be advised of the arrestee’s charges and custody status.

If the next-of-kin resides outside a reasonable vicinity of the University, notification by a law enforcement agency or a CSU Police Agency where the next-of-kin resides in preferred.

         a) The notification should be done in private, unless the presence of the persons is desirable. Other persons that may be included are another family member, close friend or clergy.

If you or a loved one has suffered physical or emotional injury from a violent crime, the Victims of Crime Program may be able to help.

The Program was created to help victims and their families with the many costs of crime. It is funded entirely with fines and penalties from offenders, not by California’s tax dollars.

The Victims of Crime Program cannot erase the painful memories of a crime, but we hope it can help ease the financial burdens you face.

Please read this brochure to see if the Program can help you or your family.

I. PURPOSE: It is the policy of the University Police to safeguard the rights guaranteed by state law and the U.S. Constitution for all individuals irrespective of their disability, gender, nationality, race or ethnicity, religion, sexual orientation, and/or association with a person or group with one or more of these actual or perceived characteristics. Any acts or threats of violence, property damage, harassment, intimidation, or other crimes motivated by hate or bias should be viewed very seriously and given high priority.

The University Police will employ necessary resources and vigorous law enforcement action to identify and arrest hate crime perpetrators. Also, recognizing the particular fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on the community, this agency shall attend to the security and related concerns of the immediate victims and their families.

II. POLICY:

A. When such rights, as described above, are infringed upon by violence, threats, or other harassment, the Department will use every necessary resource to identify the perpetrators, arrest them, and bring them before the court.

B. All acts of hate-motivated violence or threats will be viewed as serious, and the investigations will be given priority attention. Such acts generate fear and concern among victims and the public, and have the potential for recurring, escalating, and possibly causing counter-violence.

III. DEFINITIONS:

A. Hate Crime: A criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim:

   1. Associate with a person or group with these actual or perceived characteristics:

      a. includes advocacy for, identification with, or being on the ground owned or rented
by, or adjacent to, any of the following: a community center, educational facility, family, individual, office, meeting hall, place of worship, private institution, public agency, library or other entity, group, or person that has, or is identified with people who have, one or more of those characteristics listed in the definition of “hate crime” under paragraphs 1 to 6, inclusive, of PC§422.55 subdivision (a).

2. Disability includes mental disability and physical disability as defined in Government Code (GC) GC§12926.

a. Gender: means a person’s gender identity and gender related appearance and behavior whether or not stereotypically associated with the person’s assigned sex at birth.
b. Nationality: includes citizenship, country of origin, and national origin.
c. Race or Ethnicity: includes ancestry, color, and ethnic background.
d. Religion: includes all aspects of religious belief, observance, and practice and includes agnosticism and atheism.
e. Sexual orientation: means heterosexuality, homosexuality, or bisexuality.
f. Victim: includes, but is not limited to, a community center, educational facility, entity, family, group, individual, office, meeting hall, person, place of worship, private institution, public agency, library, or other victim or intended victim of the offense. Interference with exercise of civil rights because of actual or perceived characteristics of victim, as specified in PC§422.6.

1) No person, whether or not acting under color of law, shall by force or threat of force, willfully injure, intimidate, interfere with, oppress, or threaten any other person in the free exercise or enjoyment of any right or privilege secured to him or her by the Constitution or laws of this state or by the Constitution or laws of the United States in whole or in part because of one or more of the actual or perceived characteristics of the victim listed in PC§422.55 subdivision (a).

2) No person, whether or not acting under color of law, shall knowingly deface, damage, or destroy the real or personal property of any other person for the purpose of intimidating or interfering with the free exercise or enjoyment of any right or privilege secured to the other person by the Constitution or laws of this state or by the Constitution or laws of the United States, in whole or in part because of one or more of the actual or perceived characteristics of the victim listed in PC§422.55 subdivision (a).

Note: In compliance with PC §13519.6, additional legal references to California Criminal Statues involving hate crimes for misdemeanor and felony statutes can be found in the following, but not limited to, PC Sections: §139, §302, §422.7, §422.9, §594.3(a), §11411.

B. Hate Incident: Shall be defined as any non-criminal act, including words, directed against a person(s) actual or perceived race, nationality, religion, sexual orientation, disability or gender.

1. Hate incidents include, but are not limited to epithets, distribution of hate material
that does not result in property damage, and the display of offensive material on one’s own property.
2. Not all incidents of hatred are crimes. Verbal name calling, although offensive, is not a crime. For this to be a crime, it must be accompanied by a viable threat of violence and ability to carry the threat out. In order to categorize this as a hate crime, the crime committed against the victim must be in whole or in part prejudice-based.

a. *In whole or in part, because of means that the bias motivation must be a cause in fact of the offense, whether or not other causes also exist. When multiple concurrent motives exist, the prohibited bias must be a substantial factor in bringing about the particular result. There is no requirement that the bias be a main factor, or that the crime would not have been committed but for the actual or perceived characteristic.

IV. PROCEDURES:

A. Dispatch Center:

1. Upon receiving a report of a possible Hate Motivated Crime/incident, the dispatcher shall:

a. Dispatch a field unit as soon as possible, in accordance with appropriate radio procedure.

8. Ask the victim and other parties present if they are aware of any other incidents in the area.
9. Statements made by suspects; exact wording is critical.

12. Notify a field supervisor and investigative personnel.
13. Complete a thorough written report. Education Code Section 67380 (a)(2) requires a written record of a noncriminal act of hate violence to include a description of the act, victim characteristics, and offender characteristics, if known.
14. Officers shall complete an SFSU Hate Crime/Incident report.

C. Field Supervisor:

1. The supervisor shall confer with the initial responding officer(s) and ensure that necessary preliminary actions have been taken. The supervisor shall request any appropriate personnel necessary to accomplish the following:

1. Contact the victim and personally express concern on behalf of the department and the university as soon as possible.

2. Attempt to elicit additional motive and perpetrator information from the victim. Recap all available information and provide reassurance of police concern and commitment to combating hate crime.

3. Ensure that the crime scene is properly protected, preserved, photographed, processed and that all physical evidence of the incident is removed as soon as possible after the offense is documented. If evidence of an inflammatory nature cannot be physically removed (e.g., painted words or signs on a wall), the property owner should be contacted to ensure that it is removed as soon as possible. The officer should follow up to ensure that this is accomplished in a timely manner.

5. Canvass the area for additional witnesses and to eliminate non-witnesses by recording (video/audio) their statement of what they saw and where they were when the incident took place. Video protects the integrity of the investigation in court, media reporting, internal affairs investigations, and any legal cases where witnesses or non-witnesses may be influenced to dramatically change their original statement.

Foreword

This document has been developed pursuant to Penal Code (PC) §13519.6. All local law enforcement agencies are encouraged to adopt a formal policy on investigation of hate crimes, and all state law enforcement agencies are required to adopt and promulgate such a formal policy.

Hate crimes affect not only individual victims but can negatively impact entire communities. In the transmittal letter of the 2004 California Senate Office of Research report, Protecting Californians from Hate Crimes, it was reported that hate crimes are triply harmful.

- They hurt the immediate victims by inflicting loss and pain, the same as any violent crime.
- They attack the immediate victim’s very identity, often causing more severe and longer-lasting trauma than similar violent crimes committed for other reasons.
- They cause fear in the communities they target.

Crimes motivated by hate are not simply assaults, property damage, or violations of civil rights. They are crimes that specifically target individuals with particular characteristics. As such, they provide fuel to the prejudices and fears that underlie these crimes in the first place, thus continuing the cycle of hatred, prejudice, and bias.

The broad impact of hate crimes makes them a major concern for all law enforcement agencies. It is essential that agencies address hate crimes in a manner that most effectively accomplishes prevention and rapid apprehension of perpetrators.

Guidelines

These seven guidelines are the primary elements that law enforcement executives should incorporate into their hate crimes policy (see Model Policy Framework, page 9) and operational programs. The guidelines are designed for department-wide application and are intended to reflect a values-driven “top-down” process. They are intended to assist with development and delivery of training and ensure accurate and timely reporting of crime.

Guideline 1: Develop the foundation for agency’s hate crimes policy.

The law enforcement executive is responsible for providing the leadership, communicating the values, and delivering the education that establishes the foundation for the agency’s hate crimes policy. Employees will respond appropriately to hate crimes and hate incidents when the executive effectively establishes and communicates the foundational values of the organization (see Foreword, page v).

Guideline 2: Develop a hate crimes policy for the agency.

I. An agency’s hate crimes policy and programs should minimally include the following:

   A. Response,
   B. Reporting,
   C. Training,
   D. Planning, and
   E. Prevention.

   These elements should be community and multi-agency based (see Model Policy Framework, page 9).

II. The law enforcement executive is responsible for the initial development of the policy and should be actively involved in its implementation. See Message from the Agency Chief Executive, page 23.

Guideline 3: Develop expertise to identify and investigate hate crimes.

The law enforcement executive is responsible for ensuring that the agency possesses expertise to identify and investigate hate crimes, as well as ensuring compliance with state and federal reporting and public information requirements.

Hate crimes are a low frequency contact with high-risk consequences for the agency and community and stressful for first responders. A checklist for hate crimes ensures compliance and preparedness in handling investigations in non-combative manner by those first on the scene. Possible examples:

- Describe the victims’ location, emotional state, and physical condition.
- If possible, record the victims’ statements.
- Indicate on body diagrams the location of any injuries for both suspects/victims.
- Influence of drugs or alcohol.

Photograph scene and injuries (not all agencies have Crime Scene Investigations unit).

Ask the victim for the name, address, and phone number of two close friends or relatives who will know of his/her whereabouts 6-12 months from the time the investigation begins.

Continue the checklist with boxes for the suspects, witnesses, evidence, and victim referral information provided to victim.
Develop and implement cooperative hate crimes plans with other local and regional law enforcement agencies.

I. Coordinate cooperative efforts among area law enforcement agencies to share information and training, and to develop strategies to prevent hate crime activity.

II. Develop law enforcement intelligence networks to enhance the agency’s ability to anticipate potential hate crime targets. This interaction should include cooperative investigations, arrests, and prosecutions.

Develop and implement cooperative hate crimes plans with the community, as appropriate.

I. Collaboration with the community provides agencies with the ability to enlist support to help law enforcement obtain witness and victim cooperation, as well as to gain assistance from the community in the prevention, investigation, arrest, and prosecution of hate crimes. Collaborative partnerships with community organizations can assist law enforcement in providing support services to victims.

II. Law enforcement outreach to local schools and colleges can help enhance awareness.

III. Law enforcement should seek educational information from/about specific communities (immigrant, Islamic, Arabic, etc.) to strengthen agency awareness.

IV. Working with stakeholders to develop a network and protocol for response to hate crimes can assist in managing such crimes.

Note: Stakeholders typically include, but are not limited to, human relations/civil rights organizations, advocacy groups, service organizations, neighborhood associations, and religious institutions.

Agencies must use the annually required hate crimes report from the Department of Justice as a source of public information on local hate crime incidents. For publications, see: http://ag.ca.gov/cjsc/pubs.php.

Develop and implement a hate crimes training program for appropriate agency personnel.

I. The training should include the following:

A. Legal definitions of hate crimes, hate incidents, and protected characteristics.

B. Indicators of hate crimes and hate literature.

C. Typologies of perpetrators of hate crimes and incidents.

D. The role of all department personnel as they relate to agency response to hate crimes and incidents.

E. Law enforcement procedures for data collection/documentation/ and mandated reporting requirements.

Note: Although hate incidents are not included under mandated reporting, agencies are strongly encouraged to require
the documentation of hate incidents for the following purposes:

1. Establish history and patterns of bias behavior, which can support motive.
2. Source of intelligence gathering.
3. Incidents can be precursors to crime.
4. Community outcry may require law enforcement response.

E. Interviewing people with disabilities and being aware of and providing appropriate accommodations (such as ADA standards, Braille, visuals, etc).

Note: Research indicates that disability-biased crimes are significantly under reported and require additional effort in the investigation.

F. Informing community organizations in a timely manner when a community group has been the target of a hate crime.

G. Orientation on communities of specific targeted victims such as immigrants, Muslims, and Arabs.

H. How to identify and handle hate crimes that involve gender-bias, disability-bias (including homeless persons with disabilities), or anti-immigrant, anti-Arab, or anti-Islamic bias.

I. Hate groups versus gang- and hate-motivated activities involving gang members.

J. Recognition that some hate crime perpetrators are multi-mission oriented extremists and not only commit violence against protected characteristics but also against women’s health clinic personnel, the homeless, or government.

K. Understanding the California Freedom of Access to Clinic and Church Entrances Act (FACE) and when anti-reproductive rights crimes may be hate crimes.

L. Knowledge of laws dealing with hate crimes and legal rights of hate crime victims.

III. A review and updating of the department's information pamphlet to ensure compliance with PC§422.92.

IV. A review of the Attorney General's latest opinion on hate crime statistics and preparation for planning for future crimes and/or crime waves specifically targeted at Arab/Middle Eastern and Islamic communities.
I. Purpose

Along with POST’s Guidelines for Law Enforcement’s Design of Hate Crime Policy and Training 2000, this model policy framework is designed to assist in identifying and handling crimes motivated by hate and bias toward individuals and groups with legally defined protected characteristics, to define appropriate steps for assisting victims, and to provide a guide to conducting related investigations. It outlines the general policy framework for response, reporting, training, planning, and prevention as related to law enforcement’s role in handling hate crimes. It also serves as a declaration that hate crimes are taken seriously and demonstrates how law enforcement agencies may best use its resources to investigate and solve an offense.

II. Policy

It is the policy of this agency to safeguard the rights of all individuals irrespective of their disability, gender, nationality, race or ethnicity, religion, sexual orientation, and/or association with a person or group with one or more of these actual or perceived characteristics. Any acts or threats of violence, property damage, harassment, intimidation, or other crimes motivated by hate or bias should be viewed very seriously and given high priority.

This agency will employ necessary resources and vigorous law enforcement action to identify and arrest hate crime perpetrators. Also, recognizing the particular fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on the community, this agency shall attend to the security and related concerns of the immediate victims and their families.

III. Definitions and Laws

In accordance with Penal Codes (PC) PC§422.55, §422.56, and §422.6, for purposes of all other state law unless an explicit provision of law or the context clearly requires a different meaning, the following should apply:

**Hate crime** a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim:

- **Association with a person or group with these actual or perceived characteristics**
  - includes advocacy for, identification with, or being on the ground owned or rented by, or adjacent to, any of the following: a community center, educational facility, family, individual, office, meeting hall, place of worship, private institution, public agency, library, or other entity, group, or person that has, or is identified with people who have, one or more of those characteristics listed in the definition of “hate crime” under paragraphs 1 to 6, inclusive, of PC§422.55 subdivision (a).

- **Disability** includes mental disability and physical disability as defined in Government Code (GC) GC§12926.

*In whole or in part, because of* means that the bias motivation must be a cause in fact of the offense, whether or not other causes also exist. When multiple concurrent motives exist, the prohibited bias must be a substantial factor in bringing about the particular result. There is no requirement that the bias be a main factor, or that the crime would not have been committed but for the actual or perceived characteristic.

to increased scrutiny and possible liability. Additionally, establishing methods to handle each investigation in a non-combative manner will assist the investigation.

A. First Response Procedures

First responding officers at the scene of a suspected hate or bias crime or incident should take preliminary actions deemed necessary, to include, but not limited to, the following:

1. Stabilize the victim(s) and request medical attention when necessary.
2. Ensure the safety of victims, witnesses, and perpetrators.
3. Collect and photograph physical evidence or indicators of hate crimes such as:
   a. Hate literature.
   b. Spray paint cans.
   c. Threatening letters.
   d. Symbols used by hate groups (e.g., swastikas, graffiti).
4. Identify criminal evidence on the victim.
5. Request the assistance of translators or interpreters when needed to establish effective communication.
6. Conduct a preliminary investigation; record information on:
   a. Identity of suspected perpetrator(s).
   b. Identity of witnesses, including those no longer at the scene.
   c. Prior occurrences, in this area or with this victim.
   d. Statements made by suspects; exact wording is critical.

B. Supervisory Responsibilities

The supervisor shall confer with the initial responding officer(s), and ensure that necessary preliminary actions have been taken. The supervisor shall request any appropriate personnel necessary to accomplish the following:

1. Provide immediate assistance to the crime victim.
   a. Express the law enforcement agency’s official position on the importance of these cases and the measures that will be taken to apprehend the perpetrators.
   b. Express the department’s interest in protecting victims’ anonymity whenever possible.
   c. Allow the victim a period in which to ventilate his/her immediate concerns and to express his/her feelings.
   d. Identify individuals or agencies that may provide support, assistance and remedy (such as the victim compensation and assistance program available at www.victimcompensation.ca.gov or 800.777.9229). Local victim assistance resources may include family members or close acquaintances, clergy or departmental chaplain, as well as...
1. Notify other appropriate personnel in the chain of command, depending on the nature and seriousness of the offense and its potential inflammatory and related impact on the community.

2. Ensure that all relevant facts are documented on an incident and/or arrest report and make an initial determination as to whether the incident should be classified as a hate crime for federal and state bias crime-reporting purposes.

3. Ensure that hate crime is properly reported, which includes reporting to the Department of Justice, pursuant to PC§13023.

4. In cases of large scale hate crime waves, respond to protect vulnerable sites (such as assigning an officer at specific locations that could become targets).

5. Ensure that hate crime is properly reported, which includes reporting to the Department of Justice, pursuant to PC§13023.

6. Ensure adherence to PC§422.93, which protects hate crime victims and witnesses from being reported to federal immigration authorities if they have not committed any crime under state law.

7. Respond to and investigate any reports of hate crimes committed under the color of authority.

8. Provide assistance, as appropriate, including activating the Department of Justice hate crimes rapid response protocol.

9. Report any suspected multi-mission extremists crimes to the agency terrorism liaison officer (TLO), or assigned designee, and direct the TLO/designee to send the data to the Joint Regional Information Exchange System.

C. Investigative Responsibilities

When conducting a thorough follow-up investigation, investigators should:

1. Ensure that the crime scene is properly protected, preserved, and processed and that all physical evidence of the incident is removed as soon as possible after the offense is documented. If evidence of an inflammatory nature cannot be physically removed (e.g., painted words or signs on a wall), the property owner should be contacted to ensure that it is removed as soon as possible. The officer should follow up to ensure that this is accomplished in a timely manner.

2. Canvass the area for additional witnesses and to eliminate non-witnesses by recording (video/audio) their statement of what they saw and where they were when the incident took place. Video protects the integrity of the investigation in court, media reporting, internal affairs investigations, and any legal cases where witnesses or non-witnesses may be influenced to dramatically change their original statement.

3. Coordinate the investigation with agency, state, and regional intelligence operations. These sources can provide the investigating officer with an analysis...
of any patterns, organized hate groups, and suspects potentially involved in the offense.

4. Coordinate the investigation with the identification unit and other units of the agency and with outside agencies where appropriate.

5. Make a final determination as to whether the incident should be classified as a hate crime.

6. Complete any reports necessary to comply with statistical reporting requirements for hate crimes.

7. Take steps to ensure the appropriate assistance is provided to hate crime victim(s), including the following measures:
   a. Contact the victim periodically to determine whether he/she is receiving adequate and appropriate assistance.
   b. Provide ongoing information to the victim about the status of the criminal investigation.

8. Develop techniques and methods to identify and handle hate crimes or incidents committed that specifically involve categories of:
   a. Gender.
   b. Disability (including homeless persons with disabilities).
   c. Anti-immigrant.
   d. Anti-Arab.
   e. Anti-Islamic.

9. Gain knowledge of multi-mission criminal extremists that specifically involve:
   a. Nexus of certain hate crimes.
   b. Anti-government.
   c. Anti-reproductive rights.
   d. Actual or perceived homelessness.

10. Prepare and respond for possible future crime waves, specifically for:
   a. Anti-Arab/Middle Eastern.
   b. Anti-Islamic.
   c. Attorney General’s determination.

11. Coordinate with supervisor if evidence shows the possibility that the crime victim may be attacked or harassed for reporting the crime. The agency may provide additional protection such as increased neighborhood surveillance.

12. Provide the supervisor, public information officer, or designee with information that can be responsibly reported to the media. When appropriate, the law enforcement media spokesperson should reiterate that the hate crime will not be tolerated, will be taken seriously, and will be prosecuted to the full extent of the law.

13. Coordinate with other law enforcement agencies in the area to assess patterns of hate crimes and determine if organized hate groups are involved.

14. Complete reports required by other agencies.

V. Training Resources

POST offers training and video courses to assist law enforcement. These courses provide officers with information and skills necessary to be effective. Various training programs include the history and definitions of hate crimes, recognition of hate groups, international terrorism, legal considerations, victims' considerations, initial response duties, victim interviewing and care, suspect identification and interrogation, evidence identification, report writing, the role of law enforcement, investigative strategies, intelligence collection, supervisory roles, community relations, media relations and local program training development, and other topics such as proper use of computer systems and methods for reporting.

For more information on POST training opportunities, visit the POST website at: www.post.ca.gov/Publications/Course_Catalog.

In conjunction with POST training opportunities, trainers may utilize other state and federal agencies that offer training courses, such as the U.S. Department of Justice 800 421-6770.

VI. Planning and Prevention

Hate crimes are not only a crime against the targeted victim(s) but also have impacts on the victim's family and community. Working constructively with segments of this larger community after such crimes is essential to help reduce fears, stem possible retaliation, prevent additional hate crimes, and encourage any other previously victimized individuals to step forward and report such crimes. This is particularly important if an upward trend has been identified in these crimes.

Towards this end, this agency's community relations function, or officers so assigned, should perform the following:

A. Meet with residents in target communities to allay fears; emphasize the agency's concern over this and related incidents; reduce the potential for counter-violence, and provide safety, security, and crime prevention information.

B. Provide direct and referral assistance to the victim and his/her family.

C. Conduct public meetings on hate crime threats and violence in general.

D. Establish liaison with formal community-based organizations and leaders.

E. Expand, where appropriate, preventive programs such as hate, bias, and crime reduction seminars for school children.

F. Review the Attorney General's latest opinion on hate crime statistics and targets in order to prepare and plan for future crimes, specifically for Arab/Middle Eastern and Islamic communities.

G. Provide orientation with communities of specific targeted victims such as immigrants, Muslims, and Arabs.

RE: IMPLEMENTATION OF HATE CRIMES POLICY

Hate crimes affect not only individual victims but can negatively impact entire communities. In the transmittal letter of the 2004 California Senate Office of Research report, Protecting Californians from Hate Crimes, it was reported that hate crimes, like any form of criminal behavior, are triply harmful.

• They hurt the immediate victims by inflicting loss and pain, the same as any violent crime.
• They attack the immediate victim’s very identity, often causing more severe and longer-lasting trauma than similar violent crimes committed for other reasons.
• They cause fear in the communities they target.

Crimes motivated by hate are not simply assaults, property damage, or violations of civil rights. They are crimes that specifically target individuals with particular characteristics. As such, they provide fuel to the prejudices and fears that underlie these crimes in the first place, thus continuing the cycle of hatred, prejudice, and bias.

The broad impact of hate crimes makes them a major concern for all law enforcement agencies. It is essential that this agency address hate crimes in a manner that most effectively accomplishes prevention and rapid apprehension of perpetrators.
MEMORANDUM
CM – 18/13

TO: All Personnel

FROM: Assistant Vice President & Chief of Police,
Division Campus Safety

SUBJECT: General Order 4-8: Hates Crimes

Hate crimes affect not only individual victims but can negatively impact entire communities. In the transmittal letter of the 2004 California Senate Office of Research report, *Protecting Californians from Hate Crimes*, it was reported that hate crimes, like any form of criminal behavior, are triply harmful.

- They hurt the immediate victims by inflicting loss and pain, the same as any violent crime.
- They attack the immediate victim’s very identity, often causing more severe and longer-lasting trauma than similar violent crimes committed for other reasons.
- They cause fear in the communities they target.

Crimes motivated by hate are not simply assaults, property damage, or violations of civil rights. They are crimes that specifically target individuals with particular characteristics. As such, they provide fuel to the prejudices and fears that underlie these crimes in the first place, thus continuing the cycle of hatred, prejudice, and bias.

The broad impact of hate crimes makes them a major concern for all law enforcement agencies. It is essential that SF State UPD address hate crimes in a manner that most effectively accomplishes prevention and rapid apprehension of perpetrators.

You are directed to review our updated version of General Order 4-8 which is now in place on the department server.

JW(rp)
I. PURPOSE: To set forth a policy for the initial response to, and investigation of any incident of sexual assault, which is reported to the department.

II. POLICY: It is the policy of the department that all members shall handle any incident of sexual assault in a professional and efficient manner paying particular attention to the dynamics of the offense. Rape is a crime of violence not a sexual act.

   of clothes to the hospital.

The SART will:

• Conduct triage for students who seek support through The SAFE Place (specifically for victims/survivors who do not file formal Title IX complaints); and
• Relay feedback to the Title IX team & President’s Advisory Board on Gender Equity & Title IX around campus themes and systemic issues identified, as well as provide any suggestions and recommendations regarding training needs as they relate to effective response in incidents of sexual violence.

2. The SART meets monthly to review sexual assault cases, discuss trends with cases that involve physical/assaultive behavior, and track trends with substance-abuse among campus community members. Additionally, the SART consults and provides briefs on issues that present a potential risk to the campus community. Each SART member presents a report at the monthly meetings on the issues that they have addressed from referrals through their crisis counseling sessions.

   a. SART is comprised of a staff member from the University Police Department (The Commanding Officer of the Investigations Division or designee), Residence Life, Counseling & Psychological Services Center, the Student Health Center, and the SAFE Place.

   c. SART members shall report all statistical information of sexual violence and harassment, regardless if the complainant does not request such resolution, to the University Office of the Title IX Coordinator. The Title IX Coordinator will promptly and equitable address the complaint. The Commanding Officer of the Investigations Division or designee is the University Police Department Title IX Reporter who will convey reports of sexual harassment brought forward to the UPD to the Office of the Title IX Coordinator.

3. Tell the victim he/she may have a relative, friend, or counselor with him/her throughout the investigative process if he/she wishes or that no one will be notified if he/she prefers confidentiality.

4. Establish the elements of the offense, the location and scope of the crime scene, presence and identify of any witnesses as well as the identity of any suspects, if known.

5. Utilize the victim information checklist form (kept in the squad room file cabinet) to document that the victim has been explained all of his/her options. #2 specifically is to be circled and the form signed if the victim does not wish to press charges.

F. Evidentiary Examination:

1. Transport the victim to the emergency department triage desk at San Francisco General Hospital at 1001 Potrero Avenue (at 23rd Street). S.F.G.H. triage staff will medically assess the victim and will contact San Francisco Rape Treatment Center staff to respond to the emergency department. The victim and the officer(s) will be directed to a separate waiting area inside the emergency department (unless urgent medical treatment is needed).

2. The examination may take up to three hours. It is not mandatory for the transporting officer to wait for the victim, however, if the officer leaves the hospital he/she shall notify emergency room personnel that the officer is temporarily leaving, and how he/she can be reached since the victim is to be transported home (or wherever else he/she wants to go) after the examination.

3. Evidence collection kits will be stored by San Francisco General Hospital for up to, but no more than 72 hours. This information is to be noted in the body of the crime report.

4. Package each item of clothing in separate paper bags. Items with blood or semen stains should be folded carefully to prevent distortion of the stains. The stains should be circled with an ink pen for easy identification. Do not contaminate stains. Keep suspect and victim evidence separate. Do not process suspect and victim evidence in the same area. Evidence is to be secured in an evidence locker with separate lockers for victim and suspect.

Note: Bloodstains are to be air-dried, semen stains are refrigerated. Hospital personnel know the evidence storage procedures and can assist with questions.

If a suspect is in custody and he/she is also being medically examined, another officer shall remain with them and prevent any contact between the suspect and the victim.

G. Notifications/Chain of Command:
1. The Watch Commander shall notify the Duty Official upon confirmation of the crime.
2. The Duty Official shall notify the Chief of Police. All cases such as this will be handled by the Investigations Division after the officer takes the initial report.
3. The Investigations Division, or Duty Official shall initiate call-out procedures for appropriate investigative personnel.
4. The on-duty Watch Commander will supervise all patrol and dispatch functions.
5. Upon the arrival of a detective, they will coordinate all investigative efforts up to and including, interviews and interrogations, evidence collection and preservation, crime scene processing and suspect apprehension.

H. Suspect Processing:

1. If the suspect(s) is arrested at the crime scene, immediately remove them. An officer shall remain with the suspect until relieved by investigative personnel.
2. If there is more than one suspect detained, the suspects shall be kept separated.
3. Record all spontaneous statements, with date and time.
4. Prevent communication between victims, witnesses, and suspects.
5. Investigative personnel will conduct suspect interviews if they are present. If an investigator is not available, ask the suspect if he is willing to talk to you. If he does not want to talk to you, do not admonish him (he may talk to an investigator later). If he wants to talk, admonish him. If you receive a waiver, obtain a complete, tape recorded statement, and summarize it in the body of the crime report.
6. Note suspect's actions, physical condition, characteristics, or peculiarities.
7. Photograph suspect(s). Include evidence of injury or torn/stained clothing which may be of evidentiary value.
8. Preserve and collect evidence found on suspect’s person; e.g., semen/blood stains, stolen property, etc.
9. Transport the suspect(s) to S.F. General Hospital and request that blood and urine samples are obtained for drug and alcohol analysis. Have the medical personnel collect samples of the suspects pubic and head hair.
10. Remove, package, and book the suspect’s clothing as evidence.
11. Record any alibi statements.
12. Provide information to follow-up investigators as soon as possible.
13. Consider withdrawal of consent to remain off campus if warranted.

I. Other:

1. Do an area canvas for possible witnesses.
   a. Interview all witnesses thoroughly, recorded interviews and summarize the interviews in the crime report. If investigators are unavailable, have an officer obtain a written statement from all witnesses.
   b. Advise investigators of all pertinent information.

J. Timely Warning Review:
1. The Watch Commander will conduct a review of all sex offenses (and Clery reportable crimes) to consider if there’s an imminent threat to the safety and welfare of the campus community. If it’s determined that there’s an imminent threat to community safety and welfare, a timely warning notice shall be provided to students and employees. Timely Warning notices shall be provided to students and employees in a manner that is timely and will aid in the prevention of similar occurrences. (Please see General Order 6-9, Statistical Reporting and Clery Compliance for more information Timely Warning procedures)

K. University Sexual Assault Policy:

1. All Sworn and Dispatch staff will receive annual training on the campus and Department sexual assault procedures.

L. Clery Compliance and Collection of Crime Statistics

1. All incidents of sexual violence will be reviewed by the Clery Review Committee to ensure that the incident is catalogued and categorized correctly.

M. SF State Title IX Training:

1. All University employees will receive annual training on the campus Title IX policy and process.

N. Appropriate Documentation:

1. A crime report should always be taken if the victim wishes prosecution.
   a. The victim information sheet should be utilized to exempt the victims' personal information from the report pursuant to 293 P.C.

2. The following are examples of frequently reported sexual assaults and direction as to the type of report to be taken.

   Situation: Resident Assistant, or other Housing & Residential Services employee contacts the police and advises that a resident has been assaulted. The resident student has asked for information on counseling services, but does not want to make a report to the police. The R.A. notifies the police in compliance with University policy. The victim is still adamant she does not want to make a police report; all she wanted was a resource list.
   Action: Confidential student report taken - Non-police report exempt from public disclosure.

   Situation: A roommate of a victim contacts the police and wants to make a report. The victim does not want to make a police report. The suspect is a resident, and may possibly live on the same floor as the victim. The victim is contacted by the police and still does not want a police report, nor does she want the suspect
contacted.
Action: Inter-office memorandum to the Chief of Police is created, exempt from public disclosure pursuant to the California Government Code.

Situation: A victim contacts the police. She wants to know what her rights are. Once she is told what the procedure is for police reports, she decides she does not wish to make a report, however, she does want the suspect contacted and removed from campus.
Action: Non-police report taken for student discipline referral. Confidential student record exempt from public disclosure.

Situation: A victim contacts the police. She wants to make a police report, however, she does not want anything done. She does not want the suspect contacted. She is advised that if she makes a police report, the suspect will be contacted as part of the investigation. The victim only wants the incident documented, but does not want to press charges, and does not want the suspect contacted.
Action: Police report taken - forwarded to District Attorney's Office. Victim must sign form.

Situation: Victim wants police report and prosecution - no elements of rape exist.
Action: Police report taken and forwarded to District Attorney's Office for review.

Situation: Student Health Center physician examines the victim, and sends a report to University Police pursuant to University policy.
Action: Victim contacted by Detective Sergeant to ascertain victim's wishes. If victim wishes no police involvement - no police report taken, and Sexual Assault Victim Checklist is utilized as the report.

Situation: Victim reports sexual assault to a San Francisco State University Counselor during a counseling session. Information is confidential and privileged pursuant to California Evidence Code and cannot be disclosed.
Action: If no "Tarasoff Admonishment" is necessary - no police report is taken. Counselor reports STATISTICS annually and will notify the Chief of Police if there are suspect patterns.

Situation: Victim reports sexual assault to S.A.F.E. Place (Sexual Abuse Free Environment) to receive sexual assault survivor counseling, or to ask advice. Action: Detective Sergeant contacts victim for police report and crime scene processing and medical exam. The SAFE Place Coordinator submits Sexual Assault Incident Form and forwards to Chief of Police.

In all reported situations, all SART members submit a Sexual Assault Incident Form and forward to the Chief of Police. Additionally, officers will transport victims of sexual violence/assault (when requested and permitting adequate staff levels) for incidents that occur in San Francisco County (regardless of whether the victim wishes to file a report or not) to San Francisco General Hospital to receive support services from the SF Rape Treatment Center.

Executive Order: 1097 Revised June 23, 2015
Effective Date: June 23, 2015
Supersedes: Executive Order 1097 Effective June 3, 2014
Title: Systemwide Policy Prohibiting Discrimination, Harassment and Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking against Students and Systemwide Procedure for Addressing Such Complaints by Students

Article I. Policy Statement

The California State University (CSU) is committed to maintaining an inclusive community that values diversity and fosters tolerance and mutual respect. We embrace and encourage our community differences in Age, Disability, Race or Ethnicity, Gender, Gender Identity or Expression, Nationality, Religion, Sexual Orientation, Genetic Information, Veteran or Military Status, and other characteristics that make our community unique.1 All Students have the right to participate fully in CSU programs and activities free from Discrimination, Harassment, and Retaliation. The CSU prohibits Harassment of any kind, including Sexual Harassment, as well as Sexual Misconduct, Dating and Domestic Violence, and Stalking. Such behavior violates University policy and may also violate state or federal law.

All sexual activity between members of the CSU community must be based on Affirmative Consent. Engaging in any sexual activity without first obtaining Affirmative Consent to the specific sexual activity is Sexual Misconduct and constitutes a violation of this policy, whether or not the sexual activity violates any civil or criminal law.

This policy is established in compliance with the California Equity in Higher Education Act, Title IX, VAWA/Campus SaVE Act, Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Age Discrimination Act of 1975, among other applicable state and federal laws.

1 Key capitalized terms are defined at Article VI of this Executive Order. Terms contained within this policy and procedure are intended to be gender neutral.
A. **Prohibited Conduct.** The CSU prohibits:

1. Discrimination, including Harassment, because of any Protected Status: i.e., Age, Disability, Gender, Genetic Information, Gender Identity or Expression, Nationality, Marital Status, Race or Ethnicity, Religion, Sexual Orientation, and Veteran or Military Status;

2. Retaliation for exercising rights under this policy, opposing Discrimination or Harassment because of a Protected Status, or for participating in any manner in any related investigation or proceeding;

3. Dating and Domestic Violence, and Stalking;

4. Sexual Misconduct of any kind, which includes sexual activity engaged in without Affirmative Consent; and,

5. Employees from entering into a consensual relationship with any Student over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. See Article I. F.

The University shall respond promptly and effectively to all complaints of Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking, and shall take appropriate action to prevent, correct, and discipline conduct that violates this policy. This Executive Order is intended to protect the rights and privacy of both the Complainant and the Respondent, as well as other involved individuals.

Employees and Students who are found to have violated this policy shall be subject to discipline commensurate to the violation. If Employee discipline is warranted, it shall be administered in a manner consistent with applicable collective bargaining agreements, CSU policies, and legal requirements. Student discipline shall be administered in accordance with 5 Cal. Code Regs. § 41301 and Executive Order 1098, or any superseding executive order.

B. **Discrimination.** The CSU strives to be free of all forms of Discrimination, including Harassment, because of a Protected Status. It is CSU policy that no Student shall be excluded from participation in, or be denied the benefits of, any CSU program or activity because of any Protected Status.

C. **Retaliation.** Retaliation against a Student for exercising any rights under this policy or for opposing Discrimination or Harassment because of a Protected Status, Sexual Misconduct, Dating and Domestic Violence, and Stalking, or for participating in any manner in any policy-related investigation or proceeding is prohibited.
No victim or witness in related investigations or proceedings will be subject to disciplinary sanctions by the University for related violations of conduct policies occurring at or near the time of the incident unless the University determines the violation was egregious, including but not limited to plagiarism, cheating, academic dishonesty or conduct that places the health and safety of any other person at risk.

D. **Dating and Domestic Violence, and Stalking.** The CSU prohibits Dating and Domestic Violence, and Stalking. Dating and Domestic Violence, and Stalking are often based on Gender. CSU prohibits all such misconduct whether or not it is based on Gender.

E. **Sexual Misconduct.** All sexual activity between members of the CSU community must be based on Affirmative Consent. Engaging in any sexual activity without first obtaining Affirmative Consent to the specific activity constitutes Sexual Misconduct and is a violation of this policy, whether or not the conduct violates any civil or criminal law.

Sexual Misconduct is a form of Sexual Harassment and may create a sexually hostile environment that affects access to or participation in CSU programs and activities. CSU prohibits all such conduct whether or not it also amounts to Sexual Harassment.

Sexual activity includes but is not limited to kissing, touching intimate body parts, fondling, intercourse, penetration of any body part, and oral sex.

Affirmative Consent means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that s/he has the Affirmative Consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean Affirmative Consent, nor does silence mean Affirmative Consent. Affirmative Consent must be voluntary, and given without coercion, force, threats or intimidation.

The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of Affirmative Consent. A request for someone to use a condom or birth control does not, in and of itself, constitute Affirmative Consent.

Affirmative Consent can be withdrawn or revoked. Consent to one form of sexual activity (or one sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion. There must always be mutual and affirmative consent to engage in sexual activity. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after penetration. Once consent is withdrawn or revoked, the sexual activity must stop immediately.

Affirmative Consent cannot be given by a person who is incapacitated. A person is unable to consent when s/he is asleep, unconscious or is incapacitated due to the influence of drugs, alcohol or medication so that s/he could not understand the fact,
nature or extent of the sexual activity. A person is incapacitated if s/he lacks the physical and/or mental ability to make informed, rational decisions.

Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person’s decision-making ability, awareness of consequences, and ability to make informed judgments. A person’s own intoxication or incapacitation from drugs or alcohol does not diminish that person’s responsibility to obtain Affirmative Consent before engaging in sexual activity.

A person with a medical or mental disability may also lack the capacity to give consent.

Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving consent due to age.

It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the Respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:

- The person was asleep or unconscious;
- The person was incapacitated due to the influence of drugs, alcohol or medication, so that the person could not understand the fact, nature or extent of the sexual activity;
- The person was unable to communicate due to a mental or physical condition.

It shall not be a valid excuse that the Respondent believed that the person consented to the sexual activity under either of the following circumstances:

- The Respondent’s belief in Affirmative Consent arose from the intoxication or recklessness of the Respondent;
- The Respondent did not take reasonable steps, in the circumstances known to the Respondent at the time, to ascertain whether the person affirmatively consented.

F. Consensual Relationships. Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the University community may begin as consensual, they may evolve into situations that lead to Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking subject to this policy.
A CSU Employee shall not enter into a consensual relationship with a Student or Employee over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each Campus shall develop a procedure to reassign such authority to avoid violations of this policy.

This prohibition does not limit the right of an Employee to make a recommendation on personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

G. Reasonable Accommodations. The CSU will provide reasonable accommodations to qualified individuals with a Disability. Reasonable accommodations will be determined by the Campus following an interactive process with those involved to identify the nature and extent of the restrictions and the appropriate accommodation.

H. Duty to Report. Except as provided below, any Employee who knows or has reason to know of allegations or acts that violate this policy shall promptly inform the DHR Administrator or Title IX Coordinator. These Employees are required to disclose all information including the names of the Parties, even where the person has requested that his/her name remain confidential. The DHR Administrator or Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident.

Employees Who Do Not Have A Duty to Report:

1. The following Employees are not required to report any information about an incident of Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking to the DHR Administrator or Title IX Coordinator:

   a. Physicians; psychotherapists; professional licensed counselors; licensed clinical social workers, and clergy who work on or off Campus, acting solely in those roles or capacities as part of their employment, in the provision of medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in these centers and offices); and

   b. Sexual assault and domestic violence counselors and advocates who work or volunteer on or off Campus in sexual assault centers, victim advocacy offices, women’s centers, and health centers and who are acting solely in that role (including those who act in that role under their supervision, along with non-professional counselors or advocates who work or volunteer in sexual assault centers, victim advocacy offices, women’s centers, gender equity centers, or health centers) in the provision of counseling or advocacy services.
Executive Order 1097  
Revised June 23, 2015

c. A CSU employee/union representative is not required to report a possible violation of this Executive Order if the information is provided to the union representative, acting in that role, in a confidential setting by a union member seeking advice about a possible violation or representation in a matter within the scope of representation. However, CSU employee/union representatives are strongly encouraged to report the information to the DHR Administrator or Title IX Coordinator.

2. University police are not required to report any personally-identifiable information about a victim of certain sex offenses, if the victim requests confidentiality, but must report all known facts of the incident, including the identity of the perpetrator (if known), to the Title IX Coordinator.

EXCEPTIONS: Under California law, any health practitioner employed in a health facility, clinic, physician’s office, or local or state public health department or clinic is required to make a report to local law enforcement if s/he provides medical services for a physical condition to a patient/victim who s/he knows or reasonably suspects is suffering from: (1) a wound or physical injury inflicted by a firearm; or, (2) any wound or other physical injury inflicted upon a victim where the injury is the result of assaultive or abusive conduct. This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, all physicians, psychotherapists, professional counselors, clergy, and sexual assault and domestic violence counselors and advocates are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to: (1) local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger; or, (2) to the court if compelled by court order or subpoena in a criminal proceeding related to the Sexual Misconduct, Dating or Domestic

I. Grade Appeals. Grade appeals that allege Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking shall proceed concurrently: (i) under Campus procedures per Executive Order 1037 or any superseding executive order; and (ii) under this Executive Order. However, the Campus grade appeal procedure shall be placed in abeyance until such time as the Campus investigation and any appeal process under Article IV of this Executive Order have concluded. The final determination under this Executive Order regarding whether a violation occurred shall be provided to the Campus grade appeal committee. The committee shall be bound by such determination when considering the grade appeal request under Executive Order 1037.

Article II. Policy Implementation and Communication

Each Campus president shall designate a DHR Administrator and Title IX Coordinator who shall be responsible for the implementation of and compliance with this policy. The DHR Administrator is responsible for the implementation of and compliance with this policy with respect to all Discrimination, Harassment and Retaliation matters except those involving Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence, and Stalking. The DHR Administrator is responsible for publicizing this Executive Order, developing Campus training policies consistent with this Executive Order, conducting training, and establishing an administrative structure consistent with this Executive Order that facilitates the prevention and elimination of Discrimination, Harassment, and Retaliation. The Title IX Coordinator is responsible for the implementation of, and compliance with this policy with respect to Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence, and Stalking. The Title IX Coordinator is responsible for publicizing this Executive Order, developing Campus training policies consistent with this Executive Order, conducting training, and establishing an administrative structure consistent with this Executive Order that facilitates the prevention and elimination of Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence, and Stalking. Each Campus shall make the contact information for the DHR Administrator and Title IX Coordinator available to all members of the Campus community as well as Third Parties. The contact information shall be updated as necessary.

The requirements for training to promote awareness of CSU policies against Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence, and Stalking are set forth in Executive Order 1095.

This Executive Order shall be made readily available and distributed on an annual basis to all Students and Employees utilizing multiple media for communication, including email, Student orientations and catalogs, new Employee orientations, Campus websites and publications, and the webpages for the offices of Equity and Diversity, Student Affairs, Student Judicial Affairs, Student Employment, and Public Safety.

Article III. Campus Procedure for Responding to Complaints

This procedure provides Students a process to address alleged violations of this policy by the CSU, a CSU Employee, another Student, or a Third Party. Whenever a Campus determines that the allegation(s) are outside the scope of this policy, the Campus shall promptly notify the Student in writing. All Complaints and related investigations against Respondents who are sworn University public safety officers shall be governed by this policy, the applicable collective bargaining agreement, and by the Public Safety Officers Procedural Bill of Rights Act (POBR). 7 The campus DHR Administrator/Title IX Coordinator shall work with the campus Chief of Police, or designee, to investigate Complaints against sworn public safety officers. Consultation with the Office of General Counsel is recommended.

The University will respond to all Complaints and will take appropriate action to prevent, correct, and discipline conduct that violates this policy. To report alleged violations, a Student may submit a formal written Complaint to the DHR Administrator (Discrimination, Harassment, and Retaliation) or Title IX Coordinator (Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence, and Stalking). The date of receipt shall be deemed to be the Complaint filing date. The DHR Administrator/Title IX Coordinator shall offer reasonable accommodations to Students who are unable to submit a Complaint because of a qualified Disability.

Complaints should be brought forward as soon as possible after the conduct occurs. While there is no stated timeframe for making a Complaint, prompt reporting will better enable the Campus to respond to the Complaint, determine the relevant issues, and provide an appropriate remedy and/or action. All incidents should be reported even if a significant amount of time has passed. However, delaying a report or Complaint may impede the ability to conduct an investigation or take appropriate remedial actions.

The Campus will respond to all reports of alleged violations of this policy, whether or not the report is submitted as a formal written Complaint. However, the response may be limited if information contained in the report is insufficient to verify violation(s) of this Executive Order.

A. Campus Early Resolution Process. Complainants who believe they have experienced Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking under this policy may initiate the Early Resolution process prior to, or instead of, filing a Complaint. The purpose of the Early Resolution process is to explore whether the Complainant’s concern can be resolved by the Campus without an investigation.

---

This Executive Order neither prevents nor requires the use of the Early Resolution process. Under no circumstance shall a Complainant be required to use the Early Resolution process to address prohibited behaviors. It is not appropriate for a Complainant to be required to “work out the problem” directly or mediate with the Respondent. Mediation cannot be used, even on a voluntary basis, to resolve Sexual Misconduct, Dating or Domestic Violence, or Stalking Complaints. In other matters, where voluntary mediation is requested, no meeting between the Complainant and the Respondent should occur without involvement by appropriate Campus administrators, including the DHR Administrator or Title IX Coordinator.

Where the allegations involve Sexual Misconduct, Dating or Domestic Violence, or Stalking, the Complainant shall be advised to immediately file a Complaint under Article III, B.

1. **To initiate the Early Resolution Process.** The Complainant should contact his/her Campus DHR Administrator (Discrimination, Harassment, or Retaliation) or Title IX Coordinator (Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence and Stalking) who shall promptly meet with the Complainant to discuss his or her concern and possible resolutions as appropriate.

   Complainants shall be informed about the range of possible outcomes, including Interim Remedies or disciplinary actions that might be taken against the Respondent, and information about the procedures leading to such outcomes.

2. **Participation in the Early Resolution Process.** Participation is voluntary. It may include an inquiry into the facts, but does not include an investigation. Means for resolution shall be flexible. Resolution options include but are not limited to discussions with the Parties, a resolution facilitated by the DHR Administrator or Title IX Coordinator, separating the Parties, referring one or both of the Parties to counseling programs, an agreement between Campus and the Respondent regarding disciplinary action, conducting targeted preventive educational and training programs or providing Remedies to persons harmed by violations of this policy.

   The Campus shall attempt to resolve the Complainant’s concern(s) quickly and effectively. The DHR Administrator or Title IX Coordinator shall meet with the Complainant, the Respondent, and any other persons or witnesses they may determine to be necessary.

3. **Final Early Resolution.** If resolution is reached, a written record of the resolution shall be documented and maintained in accordance with applicable Campus recordkeeping policies. The matter shall be considered closed.

   Where the Respondent is another Student, the DHR Administrator/Title IX Coordinator shall inform the Student Conduct Administrator of the outcome of the Early Resolution process, including any Interim Remedies afforded to the
Executive Order 1097
Revised June 23, 2015

Complainant. Where the Respondent is an Employee, Human Resources or Academic Affairs shall be informed as appropriate.

If resolution is not reached, the Campus shall promptly notify the Complainant and, where applicable, the Respondent in writing that the Early Resolution process is terminated, and the termination effective date. The Complainant shall be provided written notification of his/her right to file a Complaint pursuant to Article III, B. 1.

4. **Confidentiality.** Other than consulting with their respective Advisors, both the Complainant and the Respondent shall keep the details of the Early Resolution process confidential until the process is concluded. If the matter is not resolved and an investigation is conducted, the Complainant and the Respondent shall maintain confidentiality until the conclusion of the Campus investigation and CO appeal Review process, if any.

5. **Termination of Early Resolution Process.** The Complainant shall be notified that the Complainant or the Campus may at any time elect to terminate the Early Resolution process. In that event, the DHR Administrator/Title IX Coordinator shall promptly notify the Complainant and the Respondent in writing that the Early Resolution process has terminated, the effective date thereof, and inform the Complainant of his/her right to file a Complaint pursuant to Article III, B. 1.

B. **Campus Investigation Process.** Campuses will investigate Complaints of Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking unless an Early Resolution is reached, whether or not a formal written Complaint is submitted. The DHR Administrator/Title IX Coordinator will determine whether to open an investigation after making a preliminary inquiry into the allegations. An investigation may not be warranted where the reported information is insufficient.

In cases where the Complainant does not want to pursue an investigation, the DHR Administrator/Title IX Coordinator should inform the Complainant that the ability to take corrective action may be limited. The Campus may determine that circumstances warrant initiating an investigation even if a Complaint has not been filed and independent of the intent or wishes of the Complainant. In cases involving Sexual Misconduct, Dating or Domestic Violence, or Stalking, when determining whether to go forward with an investigation, the Title IX Coordinator should consider the seriousness of the allegation(s), the age of the Complainant, whether there have been other Complaints against the Respondent, and the risk to the Campus community if the Respondent’s alleged conduct remains unaddressed.

1. **Filing a Complaint.** Any Student may file a Complaint reporting Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking under this policy subject to the following exceptions:
Executive Order 1097  
Revised June 23, 2015

a. Complaints of Student employees that arise out of their employment. Such Complaints shall be governed by Executive Order 1096, or any superseding executive order.

b. Complaints by a Student about his/her academic adjustments and/or accommodations to a Campus’s educational program related to his/her qualified Disability. Such inquiries and Complaints shall be directed to the Campus Director, Disabled Student Services (DSS), and shall be governed by CSU Coded Memorandum AA 2014-08, or any superseding policy.

c. Complaints against a president shall be filed with the Chancellor’s Office (CO). However, Complaints against a president shall be processed by the Campus if the president’s role in the alleged incident was limited to a decision on a recommendation made by another administrator, and the president had no other substantial involvement in the matter.

d. For Complaints against CO employees, the responsibilities identified in this Executive Order as those of the president are the responsibilities of the chancellor. Complaints that involve allegations against the chancellor or a member of the Board of Trustees shall be referred to the chair or vice chair of the Board and the CO Title IX Coordinator for processing and investigation.

2. Complaint Requirements. The Complainant may submit a written Complaint to the DHR Administrator or Title IX Coordinator. The date the Complaint is received in the appropriate office shall be deemed to be the Complaint filing date. The DHR Administrator/Title IX Coordinator shall offer reasonable accommodations to Complainants who are unable to submit a written Complaint because of a qualified Disability.

The Complainant may complete the attached “CSU Student Complaint Form” or, in the alternative, submit a written signed statement containing the following information:

a. The Complainant’s full name, address (including email address) and telephone number(s);

b. The name of the Respondent and job title, position or Student status, if known;

c. The Protected Status that is the basis for any alleged Discrimination, Harassment, or Retaliation, the Respondent’s activity that is the basis for the alleged Retaliation, or whether Dating or Domestic Violence, or Stalking is alleged;
d. A clear, concise statement of the facts that constitute the allegations including pertinent date(s) and sufficient information to identify any individuals who may provide relevant information during the course of any investigation;

e. A statement verifying that the information provided is true and accurate to the best of the Complainant’s knowledge;

f. The term and year of the Complainant’s most recent active academic status or the term and year in which s/he sought admission to the University;

g. The full name, address and telephone number of the Complainant’s Advisor, if any;

h. The specific harm resulting from the allegations;

i. The specific remedy sought;

j. The Complainant’s signature; and,

k. The date on which the Complaint is submitted.

3. Intake interview. The DHR Administrator or Title IX Coordinator shall meet with the Complainant as soon as possible, but no later than 10 Working Days after the Complaint was received. The Complainant shall make him/herself available for this meeting.

a. The meeting shall serve as the initial intake interview with the Complainant and will:

   (i) Explain the investigation procedure and timelines and answer any questions about them;

   (ii) Inform the Complainant of his/her rights, including the right to have an Advisor throughout the process;

   (iii) Provide the opportunity for the Complainant to complete and sign a Complaint form, if not already done; and,

   (iv) Discuss Interim Remedies, as appropriate.

b. In cases alleging Sexual Misconduct, Dating or Domestic Violence, or Stalking, the Title IX Coordinator shall also:

   (i) Inform the Complainant of the right to file a criminal complaint;
(ii) Offer to assist the Complainant with filing a criminal complaint;

(iii) Assure the Complainant that such filing will not significantly delay the Campus investigation;

(iv) Advise the Complainant of available resources such as the Campus police, Campus Sexual Assault Victim’s Advocate, student health service center or psychological counseling center; and

(v) Provide written information, as directed under Executive Order 1095, to any Student who reports to the Campus that s/he has been a victim of Sexual Misconduct, Dating or Domestic Violence, or Stalking.

c. Prior to or during the initial interview with the Respondent, the DHR Administrator or Title IX Coordinator shall:

(i) Explain the investigation procedure and timelines and answer any questions about them;

(ii) Inform the Respondent of his/her rights, including the right to have an Advisor throughout the process;

(iii) Provide the Respondent with a copy of this Executive Order;

(iv) Provide the Respondent with a description of the Complainant’s allegations against the Respondent;

(v) Provide the Respondent a full opportunity to respond to the allegations, including scheduling other meeting(s), accepting documentary evidence, and accepting Respondent’s list of potential witnesses; and,

(vi) Discuss any Interim Remedies, as appropriate.

4. **Advisors.** The Complainant and the Respondent may elect to be accompanied by an Advisor to any meeting or interview regarding the Complaint. (See definition in Article VI.)

5. **Confidentiality.** Information regarding the Complaint may be shared on a “need to know” basis with other Campus Employees, and with law enforcement (with the Complainant’s written consent), except for some limited exceptions. (See Executive Order 1095.) The DHR Administrator and/or Title IX Coordinator shall endeavor to honor any request for confidentiality; however, the DHR Administrator and/or Title IX Coordinator shall also weigh requests for confidentiality against the University’s
duty to provide a safe and nondiscriminatory environment for all members of the Campus community. **Confidentiality, therefore, cannot be ensured.**

The Title IX Coordinator receives all Complainant requests for confidentiality involving cases of Sexual Misconduct, Dating or Domestic Violence, or Stalking, and determines if the request can be honored under the facts and circumstances of the particular case. (See Executive Order 1095.)

### 6. Complaint Accepted for Investigation

The DHR Administrator or Title IX Coordinator will review all written Complaints and the information received during the intake interview. If the DHR Administrator or Title IX Coordinator determines that the Complaint falls within the scope of this Executive Order, s/he will notify the Complainant within **10 Working Days** that the Complaint has been accepted for investigation and the timeline for completion of the investigation.

If the DHR Administrator or Title IX Coordinator determines the Complainant has failed to state a Complaint within the scope of this Executive Order, s/he will provide the Complainant with written notice of this determination within **10 Working Days**. The DHR Administrator or Title IX Coordinator will also inform the Complainant that if additional information is provided, the Complaint will be reviewed again. The DHR Administrator or Title IX Coordinator will maintain a record of the Complaint and the reasons the Complaint was deemed not within the scope of this Executive Order.

The DHR Administrator or Title IX Coordinator shall determine whether the Complaint should be processed through another Campus office or University procedure available to the Complainant. If appropriate, the DHR Administrator or Title IX Coordinator shall direct the Complainant to that procedure as soon as possible.

### 7. Investigation Procedure

The DHR Administrator or Title IX Coordinator shall promptly investigate the Complaint or assign this task to another Investigator on a case-by-case basis. If assigned to another Investigator, the DHR Administrator or Title IX Coordinator shall monitor, supervise, and oversee all such delegated tasks, including reviewing all investigation reports before they are final to ensure that the investigation was sufficient, appropriate, impartial, and in compliance with this Executive Order.

The Complainant and the Respondent shall have equal opportunities to present relevant witnesses and evidence in connection with the investigation. Upon inquiry, the Complainant and Respondent shall be advised of the status of the investigation.

Before reaching a final conclusion or issuing a final investigation report, the Investigator shall have: a) advised the Parties, or have offered to do so, verbally or in writing, of any evidence upon which the findings will be based; and, b) given the
Parties an opportunity to respond to the evidence, including presenting further relevant evidence, information or arguments that could affect the outcome. The Investigator will not reach a final conclusion or issue an investigation report until giving careful consideration to any such relevant evidence, information or arguments provided by the Parties. The Investigator retains discretion and authority to determine relevance.

The investigation shall be completed no later than 60 Working Days after the intake interview, unless the timeline has been extended pursuant to Article V. E. The timeline should not be extended for a period longer than an additional 30 Working Days from the original due date.

On occasion, a criminal investigation may be initiated by a law enforcement agency over the same allegations that are reported in a Complaint filed under this policy. A pending (Campus or local) police investigation is a separate investigation and it does not relieve a Campus of its responsibility to timely investigate Complaints under this policy. Thus, a Campus may not wait until the conclusion of a police investigation to commence its own investigation. Although it may be necessary to temporarily delay the investigation while the police are gathering evidence, once notified that the police have completed the fact gathering portion of their investigation, the Campus must promptly resume and complete its own investigation. In cases involving Sexual Misconduct, Dating or Domestic Violence, or Stalking, see the “Coordination with Criminal Investigations and Proceedings” section of Executive Order 1095.

8. Investigation Report. Within the investigation period stated above, the Investigator shall prepare an investigation report. The report shall include a summary of the allegations, the investigation process, the Preponderance of the Evidence standard, a detailed description of the evidence considered, and appropriate findings. Relevant exhibits and documents, if any, shall be attached to the written report. The report shall be promptly provided to the DHR Administrator or Title IX Coordinator, if applicable. The DHR Administrator or Title IX Coordinator shall review the investigation report to assure compliance with this Executive Order before proceeding further.

9. Notice of Investigation Outcome. Within 10 Working Days of issuance of the final investigation report, the DHR Administrator or Title IX Coordinator shall notify the Complainant and Respondent in writing of the outcome of the investigation. The notice shall include a summary of the allegations, the investigative process, the Preponderance of the Evidence standard, the evidence considered, the findings of fact, a determination as to whether this Executive Order was violated, and if so, any Remedies to be afforded to the Complainant (such as an order that the Accused not contact the Complainant). The notice shall advise the Complainant and Respondent of their right to file an appeal under this Executive order and to request a copy of the final investigation report with exhibits/attachments, if any, redacted as appropriate. The Notice shall be delivered to the Parties in a manner which guarantees delivery.
within **2 Working Days** (email delivery is acceptable). Where a Complaint is made against another Student and this Executive Order is found to have been violated, the DHR Administrator or Title IX Coordinator shall also notify the Campus Student Conduct Administrator of the investigation outcome, and provide a copy of the investigation report. Where the Respondent is an Employee, Human Resources or Academic/Faculty Affairs shall be notified and provided a copy of the investigation report.

**Article IV. Appeal Review - Office of the Chancellor**

A. **Filing an Appeal to the CO.** Any Complainant or Respondent who is not satisfied with a Campus investigation outcome may file an appeal with the CO no later than **10 Working Days** after the date of the Notice of Investigation Outcome.

B. **Written Appeal.** The appeal shall be in writing and shall be based on one or more of the appeal issues listed below:

1. The investigation outcome is unsupported by the evidence, based on the Preponderance of the Evidence standard;

2. Prejudicial procedural errors impacted the investigation outcome to such a degree that the investigation did not comply with this Executive Order; or

3. New evidence not available at the time of the investigation.

C. **Issues and Evidence on Appeal.** The issues and evidence raised on appeal shall be limited to those raised and identified during the investigation, unless new evidence becomes available after the Campus investigation process and is made part of the appeal by the appealing party. The CO may conduct an interview, at the CO’s discretion, with the appealing party to clarify the written appeal. Appeals shall be addressed to:

   Equal Opportunity and Whistleblower Compliance Unit
   Systemwide Human Resources
   Office of the Chancellor
   401 Golden Shore, 4th Floor
   Long Beach, California 90802
   co-wbappeals@calstate.edu

D. **Acknowledgement of Appeal.** The CO shall provide prompt written acknowledgement of the receipt of the appeal to the appealing party, and will provide written notification of the appeal to the other party and the Campus DHR Administrator or Title IX Coordinator.
E. **Reasonable Accommodation.** The CO will provide reasonable accommodation(s) to any party or witness in the appeal process with a qualified Disability upon request by the person needing the accommodation. A reasonable accommodation may include an extension under these procedures. The timeframe for the CO Appeal Response will automatically be adjusted for the time needed, if any, to provide reasonable accommodation(s).

F. **Scope of CO Review.** The CO review will not involve a new investigation by the CO and will not consider evidence that was not introduced during the Campus investigation, unless the new evidence was not available at the time of the Campus investigation process. The CO may make reasonable inquiries to determine if the new evidence could have affected the investigation determination. If the CO review determines the investigation should be reopened to cure any defects in the investigation and/or consider new evidence introduced for the first time on appeal (that could have affected the investigation determination), the investigation will be remanded back to the Campus and the investigation reopened at the Campus level.

G. **Reopening a Campus Investigation.** The CO will return the matter to the Campus and will specify in writing the timeline by which a reopened investigation must be completed. The CO will notify the Parties of the reopening of the investigation and the timeline for completion of the reopened investigation. The Campus will complete the reopened investigation and provide the CO with an amended investigation report. The Campus will also provide the Parties with amended Notices of Investigation Outcome, and such Notices will provide the Parties the opportunity to appeal any new or amended findings, in accordance with this Executive Order. Upon receipt of the amended investigation report, the CO will contact the appealing party to determine whether that party wishes to continue with the appeal.

H. **Timeline.** The CO shall respond to the appealing party no later than **30 Working Days** after receipt of the written appeal unless the timeline has been extended as specified in Article V, E. below.

I. **CO Appeal Response.** The CO Appeal Response shall include a summary of the issues raised on appeal, a summary of the evidence considered, the Preponderance of the Evidence standard, and the determination(s) reached regarding the issue(s) identified within the written appeal. A copy of the final CO Appeal Response shall be forwarded to the Complainant and Respondent, as well as the Campus DHR Administrator or Title IX Coordinator. The CO Appeal Response is final and concludes the Complaint and CO review process under this Executive Order.

---

**Article V. General Provisions for Campus Investigation/CO Appeal Review**

A. **Impartial Investigations.** All investigations and reviews shall be conducted impartially and in good faith.
B. **Cooperation in an Investigation.** Students and Employees are required to cooperate with the investigation and other processes set forth in this Executive Order, including but not limited to, attending meetings, being forthright and honest during the process, and keeping confidential the existence and details of the investigation/review. If a Complainant and/or Respondent refuse to cooperate, the CSU may draw all reasonable inferences and conclusions on the basis of all available evidence and conclude the investigation/review.

C. **False Allegations Prohibited.** A Complainant shall proceed with a Complaint in good faith. A Complainant who knowingly and intentionally files a false Complaint or any individual who is determined to have provided false statements or information during the investigation/appeal review shall be subject to discipline. Such disciplinary action shall not be deemed to be Retaliation.

D. **Input into the Investigation.** Both the Complainant and Respondent shall have the right to identify witnesses and other evidence for consideration; however, the CSU shall decide what evidence is relevant and significant to the issues raised.

E. **Timelines and Extensions.** The timeline for the procedures contained within this Executive Order may be extended for any reason deemed to be legitimate by the Campus Investigator/CO Appeal reviewer or by mutual agreement of the Parties. The timelines stated within this Executive Order will be automatically adjusted for a reasonable time period that should not exceed an additional 30 Working Days for a Campus investigation or an additional 30 Working Days for a reopened Campus investigation under Article IV. The Complainant and Respondent shall receive written notification of any period of extension.

F. **Delivery.** When submitting a Complaint or issuing any notices required by this Executive Order, personal delivery, overnight delivery services, electronic mail, or certified mail may be used. If personal delivery is used, a proof of service shall be prepared attesting to the calendar date of delivery, which will establish the date of filing or response. If certified mail delivery is used, the postmark shall establish the date of filing or response. Electronic communications must be sent to the designated CSU or Campus e-mail address unless the intended recipient has specified a different address. Electronic communications will be deemed received on the date sent.

G. **Investigation Not Warranted.** In the event that a Campus determines an investigation is not warranted, the reasons for that decision shall be reduced to writing and retained by the Campus according to appropriate record retention policies.

H. **Information Requests.** Where it is necessary for the Complainant or Respondent to have access to specific information for the purpose of filing a Complaint or CO Appeal, the Complainant or Respondent shall make a written request for such information to the Campus. The Complainant or Respondent shall have access to information within the
policies, procedures and laws governing confidentiality and privacy that are relevant to any issue raised in the Complaint. This provision does not authorize a Complainant or Respondent access to the personnel files of another without the written consent of that person.

Article VI. Definitions

For purposes of this Executive Order, the following definitions apply:

A. **Adverse Action** means an action that has a substantial and material adverse effect on the Complainant's ability to participate in a University program or activity free from Discrimination, Harassment or Retaliation. Minor or trivial actions or conduct not reasonably likely to do more than anger or upset a Complainant does not constitute an Adverse Action.

B. **Advisor**: The Complainant and the Respondent may each elect to be accompanied by an Advisor to any meeting or interview regarding the allegations. The Advisor may be anyone, including a union representative from the Complainant’s or Respondent’s collective bargaining unit, an attorney, or, in the case of the Complainant, a Sexual Assault Victim’s Advocate, provided the Advisor is not a person with information relevant to the allegations who may be interviewed by the Investigator during the investigation. The Advisor may not answer questions regarding the subject matter of the investigation for the Complainant or the Respondent. However, the Advisor may observe and consult with the Complainant or Respondent and take appropriate action to ensure that the investigation does not violate applicable laws, policies, or collective bargaining agreements.

C. **Affirmative Consent** means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that s/he has the Affirmative Consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean consent nor does silence mean consent.

Affirmative Consent can be withdrawn or revoked. Affirmative Consent cannot be given by a person who is incapacitated.

A person with a medical or mental Disability may also lack the capacity to give consent.

Sexual activity with a minor (under 18 years old) is never consensual because a minor is considered incapable of giving legal consent due to age.

See Article I, E. for more information.
D. **Age** means how old a person is, or the number of years from the date of a person’s birth and is a Protected Status.8

E. **Calendar Days** are defined as Monday through Sunday and include official holidays.

F. **California State University (CSU)** means the 23 Campus system of the California State University, including the CO.

G. **Campus or University** means any of the 23 Campuses of the CSU or the CO.

H. **CO Appeal Response** refers to the decision provided to the Complainant and the Respondent upon completion of the appeal process provided under Article IV.

I. **Complainant** means an individual who is eligible to file a Complaint to report a violation of this policy. See Article III. B. 1 for a description of those eligible to file a Complaint. It also includes any person who is reported to have experienced a violation of this policy in cases where some other person has made a report on that person’s behalf. A Complainant may also be referred to as a party to the Complaint.

J. **Complaint** means a report of a violation of this policy or a written communication that complies with Article III. B. 2 alleging Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking, against the CSU, an Employee, another Student, or a Third Party.

K. **Dating Violence** is abuse committed by a person who is or has been in a social or dating relationship of a romantic or intimate nature with the victim.9 This may include someone the victim just met; i.e., at a party, introduced through a friend, or on a social networking website. For purposes of this definition, “abuse” means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

L. **DHR (Discrimination, Harassment, and Retaliation) Administrator** means the Management Personnel Plan (MPP) Employee at each Campus who is designated to administer this Executive Order and coordinate compliance with the laws prohibiting Discrimination, Harassment and Retaliation. The DHR Administrator may delegate tasks to one or more designees, provided that any designee shall be a MPP Employee or an external consultant. **MPP Employee** means an employee who has been designated as a “management” or “supervisory” employee under the provisions of the Higher Education Employer-Employee Relations Act.10 The Campus president may assign the roles of the DHR Administrator and Title IX Coordinator to the same person. The names of, and

N. **Discipline** means any disciplinary action taken to correct a violation of the prohibitions against Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking set forth in this Executive Order. Discipline for Employees includes but is not limited to suspension, demotion, and termination of employment. Discipline for Students includes but is not limited to probation, suspension, and expulsion. Suspension of one academic year or more, expulsion, withdrawal in lieu of suspension or expulsion, and withdrawal with pending misconduct investigation or disciplinary proceeding shall be entered on the Student's transcript permanently without exception; this requirement cannot be waived in connection with any settlement agreement. See the definition of Remedies below.

O. **Discrimination** means Adverse Action taken against a Student by the CSU, a CSU employee, or another Student because of a Protected Status.

P. **Domestic Violence** is abuse committed against someone who is a current or former spouse; current or former cohabitant; someone with whom the Respondent has a child; someone with whom the Respondent has or had a dating or engagement relationship; or a person similarly situated under California domestic or family violence law. Cohabitant means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to: (1) sexual relations between the Parties while sharing the same living quarters; (2) sharing of income or expenses; (3) joint use or ownership of property; (4) whether the Parties hold themselves out as spouses; (5) the continuity of the relationship; and, (6) the length of the relationship. For purposes of this definition, “abuse” means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Q. **Employee** means a person legally holding a position in the CSU. This term includes full-time, part-time, permanent, tenured, probationary, temporary, intermittent, casual, and per-diem positions. This term does not include auxiliary or foundation Employees or other Third Parties.¹²

S. Genetic Information is a Protected Status and means\textsuperscript{15}:

- The Student’s genetic tests.
- The genetic tests of the Student’s family members.
- The manifestation of a disease or disorder in the Student’s family members.
- Any request for, or receipt of genetic services, or participation in clinical research that includes genetic services, by a Student or any Student’s family member.
- Genetic Information does not include information about any Student’s sex or age.

T. 2. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the University; or

3. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as creating an intimidating, hostile or offensive environment.

Sexual Harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video exploitation or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework.

HH. **Sexual Misconduct**: All sexual activity between members of the CSU community must be based on Affirmative Consent. Engaging in any sexual activity without first obtaining

---

Affirmative Consent to the specific activity is Sexual Misconduct, whether or not the conduct violates any civil or criminal law.

Sexual activity includes, but is not limited to, kissing, touching intimate body parts, fondling, intercourse, penetration of any body part, and oral sex. It also includes any unwelcome physical sexual acts, such as unwelcome sexual touching, Sexual Assault, Sexual Battery, Rape, and Dating Violence. When based on Gender, Domestic Violence or Stalking also constitute Sexual Misconduct. Sexual Misconduct may include using physical force, violence, threat, or intimidation, ignoring the objections of the other person, causing the other person’s intoxication or incapacitation through the use of drugs or alcohol, or taking advantage of the other person’s incapacitation (including voluntary intoxication) to engage in sexual activity. 2. **Sexual Battery** is a form of Sexual Misconduct and is any willful and unlawful use of force or violence upon the person of another because of that person’s Gender or sex as well as touching an intimate part of another person against that person’s will and for the purpose of sexual arousal, gratification, or abuse.22

3. **Rape** is a form of Sexual Misconduct and is non-consensual sexual intercourse that may also involve the use of threat of force, violence, or immediate and unlawful bodily injury or threats of future retaliation and duress. Any sexual penetration, however slight, is sufficient to constitute Rape. Sexual acts including intercourse are considered non-consensual when a person is incapable of giving consent because s/he is incapacitated from alcohol and/or drugs, is under 18 years old, or if a mental disorder or developmental or physical Disability renders a person incapable of giving consent. The Respondent’s relationship to the person (such as family member, spouse, friend, acquaintance or stranger) is irrelevant. (See complete definition of Affirmative Consent above.)23

4. **Acquaintance Rape** is a form of Sexual Misconduct committed by an individual known to the victim. This includes a person the victim may have just met; i.e., at a party, introduced through a friend, or on a social networking website. (See above for definition of Rape.)

---

II. **Sexual Orientation** means one’s preference in sexual partners and includes heterosexuality, homosexuality or bisexuality and is a Protected Status.\(^{24}\)

2. **Reasonable Person** means a reasonable person under similar circumstances and with the same Protected Status(es) as the Complainant;

3. **Substantial Emotional Distress** means significant mental suffering or anguish that may, but does not necessarily require medical or other professional treatment or counseling.

KK. **Student** means an applicant for admission to the CSU, an admitted CSU Student, an enrolled CSU Student, a CSU extended education Student, a CSU Student between academic terms, a CSU graduate awaiting a degree, a CSU student currently serving a suspension or interim suspension, and a CSU Student who withdraws from the University while a disciplinary matter (including investigation) is pending.

LL. **Third Party** means a person other than an Employee or a Student. Examples include employees of auxiliary organizations\(^{26}\), volunteers, independent contractors, vendors, and their employees, and visitors.

MM. **Title IX** means Title IX of the Education Amendments of 1972.

NN. **Title IX Coordinator** means the Campus MPP Employee appointed by the Campus president to coordinate compliance with Title IX; VAWA/Campus SaVE Act; and other related state and federal laws prohibiting Discrimination, Harassment and Retaliation based on Gender or sex, including Sex Discrimination, Sexual Harassment, Sexual Misconduct, Dating and Domestic Violence and Stalking. (See Executive Order 1095.)

OO. **VAWA** means the Violence Against Women Reauthorization Act of 2013 (which amends the Jeanne Clery Disclosure of Campus Crimes Statistics Act, commonly known as the Clery Act) (20 U.S.C. 1092(f)), under its Campus Sexual Violence Elimination Act provision (Campus SaVE Act).

NOTE: Officers are advised that these are merely guidelines to assist in the initial investigation and other available options should be considered and utilized if necessary.

C. Interagency Protocols:

1. Interagency protocols exist among Law Enforcement, Social Services, District Attorney, San Francisco Child Abuse/Sexual Assault Unit 3401 17th St San Francisco, CA 94110, (415) 558-5500, and Victim Services Providers for use in cases involving allegations of child sexual abuse.

2. These protocols clarify the role of each agency and serve to reduce the trauma to the victim by coordinating the activities of each agency, reduce the duplication of effort and provide for the use of a single non-threatening site for all of the activities.

3. Whenever practical, upon an initial disclosure, police and social services will attempt to conduct a joint interview with a view toward keeping the interviews of the child to a minimum.

4. Law Enforcement Role:

a. All suspected child abuse reports made to this Department shall be cross-reported to the Child Abuse Reporting Center (San Francisco Child Abuse Hotline (415) 558-2650) immediately or as soon as practically possible, by telephone. A written report will be sent within 36 hours of receiving the information to social services, the State Department of Justice, and the District Attorney’s offices as required under Section 11166(g) Penal Code.

b. Upon an initial disclosure to this Department before any social services involvement, the police officer will determine whether or not an immediate response by social services is indicated. If indicated, the officer will initiate immediate contact with social services; and whenever practical will wait for the arrival of an emergency response worker before conducting a further interview of
the child.
c. When responding to a call of child sexual abuse with a social worker already involved, the responding officer will attempt to obtain as much information as possible from the social worker to avoid duplicating the interview.
d. The initial joint interview will be conducted by either the police officer or a social services worker taking into consideration the experience and training of the interviewer; the rapport already built with the child, and the information already known.
e. A police officer will be in charge of coordinating his or her criminal investigation with the initial assessment interview by the emergency response worker. The number of interviews of a child victim will be kept to a minimum while affording a full opportunity for a thorough criminal investigation. In addition, the police officer shares with the responding social worker a responsibility for ensuring that the child is protected. In making a decision to take the child into protective custody, a consensus should be reached between the officer and the responding social worker. If the officer has decided to place the child in protective custody, arrangements must be made to transport the child to the Child Protective Facility.
f. If a police officer responds to an initial referral unaccompanied by an emergency response worker and makes a decision not to place the victim in protective custody, he/she will immediately advise the San Francisco Child Abuse Hotline (415) 558-2650 in compliance with departmental procedures and legal requirements.

5. Interview Site

a. An assessment should be made by the police officer concerning the site of the joint interview. Every effort should be made to conduct the interview at a site likely to place the child victim at ease.
b. Depending upon the urgency of the situation and upon the necessity for protection of the child, every effort should be made to utilize the San Francisco County Child Abuse Unit 3401 17th St., San Francisco, CA 94110 for interviews (415) 558-2650.
c. Following the initial contact interview, if the circumstances indicate that an additional detailed interview should be conducted, again, every effort should be made to schedule the interview at the San Francisco County Child Abuse Unit 3401 17th St., San Francisco, CA 94110. The responsible officer will call the facility to establish the date and time.
d. When a criminal investigation is in progress, the police officer will cooperate with the social worker investigating to coordinate the interview of the child victim. This is done to keep the interview of the victim to a minimum. To the extent that it does not obstruct or unfavorably infringe upon the criminal investigation, the police agency will share information obtained from the interviews with the Child Protective Agencies involved.
e. Responding officers are encouraged to utilize the expertise of the social services representative if present as they have greater skill and training in conducting interviews of child victims. The assigned officer will coordinate and participate in the assessment and interview of the victim(s) with the emergency response social
worker.
f. When deemed appropriate the police agency will refer victims of child sexual abuse to the San Francisco County Child Abuse Unit 3401 17th St. San Francisco, CA 94110 for support and victim services available at the Center.
g. The assigned police officer will ensure that a medical examination of the victim is made if appropriate. In a non-emergency case, the examination should be performed by appointment at the San Francisco County Child Abuse Unit 550 San Francisco General Hospital.
h. The police officer will provide the emergency response worker with an event number (crime report or log entry number) to be included on the DOJ Form SS 8583, and comply with the mandatory reporting statute.
i. Upon conclusion of the interview, the assigned law enforcement officer should participate in the multidisciplinary team review of the case if such a meeting is required. Prior to the making of a final decision to file or not to file the case, the assigned law enforcement officer should undertake to set up a multidisciplinary team review meeting for the District Attorney’s representative and other interested and necessary members of San Francisco County Child Abuse Unit.
j. The police officer assigned to the preliminary investigation and the follow-up investigator will ensure that all pertinent evidence, medical reports, and written statements are collected. The case will be referred to the District Attorney’s office representative at the San Francisco County Child Abuse Unit 3401 17th St. San Francisco, CA 94110.
k. Upon conclusion of a sustained/unfounded child abuse investigation, Per Penal Code Section 11169(b), The investigating officer shall complete a “Notice Of Report To The Child Abuse Central Index” form which is to be sent to the known or suspected child abuser, advising him/her that he/she has been reported to the Child Abuse Central Index.

San Francisco, California 94132

Telephone: _______________________

Unfounded is defined in Penal Code Section 11165.12(a) as child abuse report which is determined by an agency investigator to be false, inherently improbable, accidental or not to constitute child abuse or neglect.
I. PURPOSE: To establish specific basic protocol in the receiving and investigation of crimes and incidents involving San Francisco State University, electronic communications mediums, data, files and equipment.

II. POLICY: It shall be the policy of this department to investigate all computer crimes. This department shall develop and maintain a basic computer crimes investigation function, which will provide initial follow-up investigation of reported computer crimes, and coordinate supplemental investigative steps when necessary.

On-campus computer services personnel may be considered for assistance and guidance in additional investigative steps. It is the intention of this department to collaborate efficiently and effectively with the University Computing Services administrators in maintaining the level of information accessibility currently enjoyed and expected for the educational process of the University.

III. DEFINITIONS:

According to the United States Department of Justice, computer crimes are classified into the three following categories:

A. Computer Abuse: “Encompasses a broad range of intentional acts that may or may not be specifically prohibited by criminal statutes. Any intentional act involving knowledge of computer use or technology is computer abuse if one or more of the perpetrators made gain and/or one or more victims suffered or could have suffered loss.”

B. Computer Fraud: “Is any crime in which a person may use the computer either directly or as a vehicle for deliberate misrepresentation or deception, usually to cover up the embezzlement or theft of money, goods, services, or information”

Computer crimes may include:

1. Embezzlement
2. Computer hacking
3. Telecommunications fraud
4. Records tampering
5. Child Pornography
6. Drug crimes
7. Gaming crimes
8. Other organized crimes.

IV. PROCEDURES:

Computer Crimes Investigation – The basic investigation of any reported computer crime should follow these steps whenever possible:

A. Collecting Evidence - There are important factors to consider in reviewing any evidence. First responders should make the following assessments:

1. Determine the skills of the reporting party. Make sure that the victim is capable of illustrating what has occurred with the equipment concerned.
2. Determine if the equipment can be moved without jeopardizing the evidence.
3. Identify the complete number of affected pieces of equipment. If it appears the area involves a great deal of equipment, i.e., an educational department or lab or classroom, it may be necessary to cordon off the area. However, if only one or two terminals are involved, these pieces can be taken as evidence and returned to the police station for further examination and without risk to remaining workstations. Officers are reminded; however, that the most preferable solution is copying suspect files, if at all possible.
4. Whenever copies of suspect files are to be made, i.e., adult material or evidence of hacking, utilize the violated terminal to complete the file copy process.
5. In any case, officers shall make investigative actions only on copies of suspect material so as to avoid the loss of evidence for court proceedings.
6. Securing the Computer as Evidence

   a. If computer is “OFF” - do not turn "ON"
   b. If computer is “ON” – leave computer “ON”

   1) If it is a Stand-alone computer (non-network) and the Commanding Officer of Investigations or department Information/Technology Specialist is not available;
      a) Photograph screen, then disconnect all power sources; unplug from the back of the computer.
      b) Interrupting power from the back of the computer will defeat an uninterruptible power supply. (UPS)
      c) Laptops often have battery power supplies, if the laptop does not shut down when the power cord is removed, locate and remove the battery pack. The battery is commonly placed on the bottom, and there is usually a button or switch that allows for the removal of the battery. Once the battery is removed, do not return it to or store it in the laptop. Removing
d) Place evidence tape over each drive slot.
e) Photograph/diagram and label back of computer components with existing connections.
f) Label all connector/cable ends to allow reassembly as needed.
g) If transporting is required, package components and transport/store components as fragile cargo.
h) Keep away from magnets, radio transmitters and other potentially damaging elements.
i) Collect all peripheral devices, cables, keyboards and monitors.
j) Collect instruction manuals, documentation, and notes.
k) User notes may contain passwords, so look for other evidence.

  c. If an Officer lacks knowledge in this area, do not touch the computer and contact the Watch Supervisor.

7. Network or Business Computers

   a. Consult a computer specialist for further assistance.
   b. Secure the scene and do not let anyone touch except personnel trained to handle network systems.
   c. Pulling the plug could severely damage the system, disrupt legitimate business and create Officer and department liability.

8. Other Electronic Storage Devices

   Electronic devices may contain viable evidence associated with criminal activity. Unless an emergency exists, the device should not be accessed. Should it be necessary to access the device, all actions associated with the manipulation of the device should be noted in order to document the chain of custody and insure its admission in court.

   a. Wireless Telephones

      1) Potential Evidence Contained in Wireless Devices

         a) Numbers called
         b) Numbers stored for speed dial
         c) Caller ID for incoming calls
         d) Other information contained in the memory of wireless telephones

             - Phone/pager numbers
             - Names and addresses
             - PIN numbers
             - Voice mail access number
             - Voice mail password
             - Debit card numbers
-Calling card numbers
-Email/Internet access information
-The on screen image may contain other valuable information

2) On/Off Rule

a) If the device is “ON”, do NOT turn it “OFF”.

- Turning it “OFF” could activate lockout feature.
- Write down all information on display (photograph if possible).
- Power down prior to transport (take any power supply cords present).

b) If the device is “OFF”, leave it “OFF”.

- Turning it on could alter evidence on device (same as computers).
- Upon seizure get it to an expert as soon as possible or contact local service provider.
- If an expert is unavailable, USE A DIFFERENT TELEPHONE and contact 1-800-LAWBUST (a 24/7 service provided by the cellular telephone industry).
- Make every effort to locate any instruction manuals pertaining to the device.

b. Electronic Paging Devices

1) Potential Evidence Contained in Paging Devices

a) Numeric pagers (receives only numeric digits; can be used to communicate numbers and code)
b) Alpha numeric pagers (receives numbers and letters and can carry full text)
c) Voice Pagers (can transmit voice communications (sometimes in addition to alpha numeric)
d) 2-way pagers (containing incoming and outgoing messages)
e) Best Practices

- Once pager is no longer in proximity to suspect - turn it off. Continued access to electron communication over pager without proper authorization can be construed as unlawful interception of electronic communication.

f) Search of stored contents of pager.

- Incident to arrest
- With probable cause + exception
- With consent
c. Facsimile Machines

1) Fax machines can contain:
   a) Speed dial lists
   b) Stored faxes (incoming and outgoing)
   c) Fax transmission logs (incoming and outgoing)
   d) Header line
   e) Clock setting

2) Best practices
   a) If fax machine is found “ON”, powering down may cause loss of last number dialed and/or stored faxes.

3) Other Considerations
   a) Search issues
      -Record telephone line number fax is plugged into
      -Header line should be the same as the phone line; user sets header line.
      -All manuals should be seized with equipment, if possible.

d. Caller ID Devices

1) May contain telephone and subscriber information from incoming telephone calls.
   a) Interruption of the power supply to the device may cause loss of data if not protected by internal battery backup.
      -Document all stored data prior to seizure or loss of data may occur.

e. Smart Cards- A plastic card the size of a standard credit card that holds a microprocessor (chip) which is capable of storing monetary value and other information

1) Awareness
   a) Physical characteristics of the card
   b) Photograph of the smart card
   c) Label and identify characteristics.
   d) Features similar to credit card/driver’s license.
   e) Detect possible alteration or tampering during same examination.

2) Uses of Smart Cards
a) Point of sale transactions
b) Direct exchange of value between cardholders
c) Exchange of value over the Internet
d) ATM capabilities
e) Capable of storing other data and files similar to a computer

3) Circumstances Raising Suspicion Concerning Smart Cards

a) Same as credit cards
b) Numerous cards (different names or same issuing vendor)
c) Signs of tampering (cards can be found in the presence of computer or other electronic devices)

4) Questions to Ask When Encountering Smart Cards

a) Who is card issued to (the valid cardholder)?
b) Who issued the card?
c) What are the uses of the cards?
d) Why does the person have numerous cards?
e) Can this computer or device alter the card?

5) Other Considerations

a) Smart Card technology is used in some cellular phones and may be found in or with cellular devices.

B. Determine approximate Crime - First-responders must make reasonable attempts to identify the possible violation, even if it involves only University policy breaches. By doing so, lesser violations will provide for swift administrative responses, as well as serve as an early warning sign for possible future criminal acts and areas of concern. In attempting to make this assessment, officers need to identify the following:

1. If the case involves theft of files, system sabotage involving any computer contaminant (virus), or hacking any University server for unauthorized information, services or monies or goods;
2. If the case involves any of the criteria in item A the Officer must attempt to list the actions of the virus, files destroyed or hacked, etc. This is important as it will provide a more informed second phase of investigation, and avoid destruction of Police Department equipment and/or files;
3. If possible, officers at the crime scene should attempt to run any installed virus scan programs in an attempt to identify the virus, and to locate hidden viruses. This is especially important in cases in which files have been hacked or when adult material or child pornography has been discovered;
4. Officers are reminded that incident reports can include violations of the University Sexual Harassment, Workplace Violence and electronic communications policies, as well as criminal acts as outlined in the California Penal Code.
C. Preparing the Initial Report - First-responders are reminded to provide the following information when preparing the initial crime or incident report:

1. The computer format (PC or MAC);
2. The dates of occurrence as recorded by the computer;
3. The files affected (if known);
4. The service capabilities or functions of the violated equipment, i.e., educational department Internet, faculty office, records, information server or personnel files, intellectual properties, etc.

D. Notification – First responders need to be aware that administrative historical files of access and logon information are only maintained for only a limited amount of time. An investigator should be notified as soon as possible in any serious cases so that tracing evidence is not lost due to historical logs being purged by the Information Technology System.

E. Training:

1. Whenever possible, Department Personnel will receive training to help increase their understanding and expertise in investigating computer crimes.
2. The training may consist of the following:
   a. A basic computer crimes investigation course, POST approved.
   b. Participation in existing CSU AND DOJ Investigator’s meetings when such cases are reviewed, or when pertinent material is available for distribution.
   c. Regular monitoring of activity and trends on the Internet, as well as technological advances within the World Wide Web, Newsgroups, Internet Relay Chat Lines (IRC) and other mediums;
   d. Regular exploration of equipment advances so as to maintain basic understanding of hardware and software functions and abilities, as well as advances in Operating Systems (OS’s);
   e. Regular conferencing with regional task forces, agencies and corporate law enforcement liaisons to maintain resource networks for investigative support.

V. APPENDIX: None

VI. ATTACHMENT: None
I. PURPOSE: To establish a procedure and provide guidance for the application of, and dissemination of information related to certain registered sex offenders under the California Penal Code Sections 290 et seq, Registration of Sexual Offenders and Megan’s Law.

II. POLICY: The University Police will make great efforts to protect the campus community from registered high-risk and serious sex offenders through adherence to specifications provided in Megan’s Law (CPC 290; 290.4).

III. DEFINITIONS:

A. High-Risk Sex Offenders: The campus police department/local-registering agency with jurisdiction over the campus may notify the campus community about high-risk sex offenders registered on campus. (Penal Code, §§ 290.01, subd. (d)(3); 290.45, subd. (b).) High risk offenders are those who have committed a serious sex offense listed in Penal Code Section 290.4, subdivision (a), and who have also committed other violent offenses, as defined in Penal Code Section 290.45, subdivision (b). Note that notification on all sex offenders by campus police departments (or agencies acting as campus police) is limited to the campus community—so the area of notification is much narrower than if the disclosure on a high risk offender is being made by the agency having jurisdiction over his or her residence.

B. Serious Sex Offenders: The campus police department/local registering agency with jurisdiction over the campus may notify the campus community about a serious sex offender registered on campus if a peace officer reasonably suspects, based on information provided by a peace officer or member of the public, that a child or other person may be at risk from the offender. Serious sex offenders are those whose offenses are listed in Penal Code Section 290.4, subdivision (a). Notification is limited to persons the offender is likely to encounter. For example, the department can post fliers on areas of campus which the offender is likely to frequent, or personally notify teachers or students in the registrant’s classes, or notify agencies and organizations that primarily serve individuals likely to be victimized by the offender (e.g., a campus child care center when the offender is a child molester). The department may also give in-person notice to persons at risk. For example, if a registrant lived in on-campus housing, the department could personally notify persons living or working in that housing. (Pen. Code, § 290.45, subd. (a).) Again, notice is limited to the campus community.
C. Other Sex Offenders: California law authorizes campus police departments, or local agencies acting as a campus police department, to notify the campus community regarding registrants who are not otherwise subject to public notification. These offenders are displayed on the law enforcement side of the Megan’s Law web application and includes any offender who is not classified as high risk or serious in Penal Code Section 290.4, subdivision (a). “Other” sex offenders are required to register pursuant to Penal Code Section 290 but are not displayed on the public side of the Megan’s Law web application. A similar category of offenders will not be displayed on the Internet Web site. The department should document its reasons for notification on a sex offender in this category, and keep the documentation in its files.

D. Campus Police Department: A campus police department is a POST-certified police department, which has primary responsibility for investigating crimes occurring on the campus on which it is located.

E. Campus Community: The campus sex offender registration law defines the “campus community.” (Pen. Code, § 290.01, subd. (d)(5).) A campus police department or agency acting as a campus police department can make notifications under Megan's Law only to the campus community. “Campus community” means those persons present at, and those persons regularly frequenting, any place associated with an institution of higher education, including campuses; administrative and educational offices; laboratories; satellite facilities owned or utilized by the institution for educational instruction, business, or institutional events; and public areas contiguous to any campus or facility that are regularly frequented by students, employees, or volunteers of the campus. This means that if the student newspaper is on the Internet, a press release given to the newspaper would not be authorized because it would go beyond the campus community. It also means that if the main campus has a satellite classroom in another location, persons working or attending school in the satellite location can be notified about a registered sex offender if he is a high-risk offender or an “other” sex offender. They can be notified about a serious offender if he is likely to encounter the people at the satellite location.

F. Institution of Higher Education: Is defined by the Department of Education as being one that:

1. admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;
2. is legally authorized to provide a program of education beyond secondary education;
3. provides an educational program for which the institution awards a bachelor’s degree or provides not less than a 2-year program that is acceptable for full credit toward such a degree;
4. is a public or other nonprofit institution; and
5. is accredited by a nationally recognized accrediting agency or association, or if not so accredited, is an institution that has been granted pre-accreditation status, and the Secretary has determined that there is satisfactory assurance that the institution will meet the accreditation standards. Alternately, the term “institution of higher education” also includes (1) any school that provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and that meets the provision of paragraphs 1, 2, 4 and 5, and is a public or nonprofit private educational institution that, in lieu of the requirement in 1 (requiring a high school diploma or its equivalent), admits as regular students persons who are beyond the age of compulsory school attendance in the state in which the institution
G. Employed or Carries on a Vocation: Includes employment whether or not it is financially compensated, volunteered, or performed for government or educational benefit. The registrant must be employed, or carrying on a vocation, on the campus over 14 days in a calendar year or more than an aggregate of 30 days.

H. Reasonably Suspects: Means that it is objectively reasonable for a peace officer to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his or her training and experience, to suspect that a child or other person is at risk.

I. At Risk: means a person who is or may be exposed to a risk of becoming a victim of a sex offense committed by the offender.

IV. PROCEDURES:

A. REGISTRATION:

Penal Code Section 290.01, governing sex offender registration on campus, was enacted effective October 28, 2002. (Stats. 2001, c. 544 (A.B. 4), § 2.) The federal Jacob Wetterling Act (42 U.S.C. § 14071), as amended by the Campus Sex Crimes Prevention Act (the "CSCPA"), Pub. L. 106-386, div. B, Sec. 1601, 114 Stat. 1464, 1537 (2000), required the states to mandate sex offender registration and notification at institutions of higher learning. In accordance with federal law, California law requires certain sex offenders to register on campuses of universities, colleges, community colleges, or other institutions of higher learning. The following guidelines are intended to assist campus police departments and local law enforcement agencies with jurisdiction over campuses which do not have campus police departments, as defined below. The guidelines address the law governing registering sex offenders on campus, and explains the law regarding notification to the campus community.

1. Persons who Must Register on Campus

   a. Persons who have a duty to register pursuant to Penal Code Section 290 in the jurisdiction where they reside or are transient also have a duty to register with a campus police department under Penal Code Section 290.01 if:

      1) The registrant lives at a residence on campus.
      2) The registrant is enrolled at the campus, either full-time or part-time.
      3) The registrant is employed by the campus, either full-time or part-time (with or without pay).
      4) The registrant is carrying on a vocation on the campus.

   a) "Carrying on a vocation" on the campus, means that the person works on the campus, even though he is not employed by the campus itself. For example, persons who are employed by an independent contractor which runs a printing press or cafeteria/other food services on the campus are persons who are "carrying on a vocation" on the campus. Similarly, persons working on a construction crew on campus, or in a campus
bookstore, are carrying on a vocation on the campus.

5) The registrant is a volunteer on the campus.
6) The registrant is a transient sex offender who is physically present on (living on), enrolled, employed, a volunteer, or carrying on a vocation on the campus. If his enrollment, employment, or vocational status requires it, a transient sex offender must register with the campus police department in addition to the local jurisdiction where he registers every 30 days. If the campus is a place a transient registrant occasionally frequents, but he is not living there and he does not have the status of being enrolled, employed, a volunteer, or carrying on a vocation on campus, the transient need only list the campus as a place he frequents on his registration with the local jurisdiction in which he registers every 30 days. Examples of places a transient may “frequent” on a campus are the track or other physical education facilities, as well as the library or eating establishment.

b. Registration of out-of-state residents attending school in California under Penal Code § 290(a)(1)(G)

1) Registered sex offenders who reside in states other than California, but who come into California to attend an institution of higher learning must register with the local police or sheriff’s department having jurisdiction over the campus. Such students must register whether enrolled full-time or part-time. (Pen. Code, § 290, subd. (a)(1)(G).) The registrant must provide his or her out-of-state residence address on the registration form. Local agencies should send a copy of the registration form to the campus police department as a courtesy.

c. Registration of persons living on campus under Penal Code § 290(a)(1)(A) or § 290(a)(1)(C)

1) If the campus is a place the registrant lives (has a residence address or is physically present as a transient), Penal Code Section 290, subdivision (a)(1)(A) or (C) requires him to register with the campus police department in addition to the jurisdiction where he resides or is physically present as a transient.

d. Duty to register both in local jurisdiction and campus police department

1) Campus registration is intended to ensure that the campus knows about all sex offender registrants connected with the campus. The registrant’s primary registration duty is to register with the police or sheriff’s department of the jurisdiction where he or she resides, or to register as a transient every 30 days. Thus, a registrant who additionally must register on campus has a duty to register in two places: campus and jurisdiction of residence (or where physically present as a transient). A registrant who has a duty to register on campus must register with the campus police department, or with the local jurisdiction (sheriff’s department or police department) having jurisdiction over
the campus if the college or institution of higher learning does not have its own police department, as defined by these guidelines. If a campus police department does not have CLETS update capability, it can mail the registration form (DOJ SS 8102) to DOJ, and DOJ will input the registration into VCIN.

e. Limited registration duties at college police department are based on changes in the registrant's enrollment or employment status.

1) Campus registration is a secondary duty, meaning that the registrant who is required to register on campus need fulfill only limited requirements. A registrant on campus must register with the campus police department within 5 working days of beginning his or her status requiring campus registration (i.e., enrollment, employment), and notify the campus police department within 5 working days when that status no longer exists. The registrant on campus has no duty to do the annual update, transient update, or sexually violent predator update at the campus police department. These should be done at the local police or sheriff’s department having jurisdiction over the offender’s place of residence. The registrant’s primary duty at the campus police department is to notify it when his enrollment or employment, etc., status on campus begins and ends.

f. Change of address, registration updates are done at the primary registering agency.

1) Changes of address and registration updates should be done with the police or sheriff’s department having jurisdiction over the area where the registrant lives or is a transient. Thus, the annual, transient or sexually violent predator updates are done at the primary registering agency, not the campus police department. If a registrant changes his residence address, the registrant must notify the police department or sheriff’s department having jurisdiction over the residence address, and need not notify the campus police department. In other words, the registrant must notify the last registering agency that he is moving, and must register in the new jurisdiction, if any, within 5 working days, but he need not notify the campus police department of the address change. This is true even if the registrant lives or is a transient on the campus. His primary registering agency is the local law enforcement agency having jurisdiction over the area in which the campus is located. Campus police will be able to see the registrant’s address change and updates by checking VCIN, the Megan’s Law Web Application, or in 2005, on the Megan’s Law Internet Web site if the registrant is in the category of offenders who have addresses displayed on the Internet. Additionally, local agencies doing address changes on registrants who are also registered at a campus police department should send a copy of the registration form showing the new address to the campus police department as a courtesy.

g. Enrollment during a regular school year session.
1) A student is “enrolled,” for purposes of the registration law, on the day the first quarter or semester of enrollment begins, and he or she must register within 5 working days of that date. Thereafter, if the student remains enrolled for the next regular semester or quarter, he does not need to notify the campus police department of any status change. The summer session does not count as a regular semester or quarter, and if a registrant is present spring semester/quarter and will return fall semester/quarter, the registrant does not have to come in at the end of the spring term to notify the department he or she is leaving for the summer, nor does the registrant have to re-register with campus police at the beginning of the next regularly-scheduled term. However, if the registrant does not re-enroll for the next regular session during the school year (fall, winter, spring), he/she must notify the campus police department within 5 working days of the last day of the semester/quarter that he/she was enrolled that he will be absent the following semester or quarter.

2) Enrollment during or beginning in summer session:

   a) A student may become enrolled just for a summer session, or may begin enrollment during the summer session. If so, he or she has a duty to register within 5 working days of the beginning of that summer session. If the registrant continues without a break into the next regular session (fall quarter or semester), he or she need not re-register on campus.

3) Breaks in enrollment

   a) When the registrant re-enrolls after a break in attendance (not just a vacation break over a holiday or spring break), he or she must re-register with the campus police department within 5 working days of the first day of that new semester or quarter. 

   b) A student is enrolled at the campus even if he takes a class on-line, and the class meets at a location off the campus. He has a duty to register due to his enrollment status. If a campus offers on-line classes, which never meet in person, the statute still requires students who have enrolled to register as sex offenders with the campus police department.

B. NOTIFICATION TO THE PUBLIC:

1. Megan’s Law/public notification on Campus

   a. Federal law now requires the states to post information about registered sex offenders, as to whom public information is available, on the Internet. (42 U.S.C. § 14071, subd. (e)(2).) The California Department of Justice will maintain an Internet Web site www.meganslaw.ca.gov, which will display the names, addresses and zip codes of specified registered sex offenders. (A.B. 488, enacting Penal Code, § 290.46, effective fall 2004.) Due to limitations in the sex offender registration computer database, Megan’s Law is not able to disclose the fact of campus registration on the Internet Web site, so only law enforcement personnel will know whether a particular registrant has also registered at a
campus, by checking its own registration records. Note that the fact of campus registration must be entered in the comment field on VCIN, and that a subsequent comment replaces the previous comment. Since the fact of campus registration can be overwritten, VCIN does not reliably indicate all the names or numbers of registrants on a particular campus. Thus, if a comment regarding campus registration does not appear on VCIN, the registrant may still be registered on a campus. (See Information Bulletin 03-14-BCIA, See Appendix)

b. If this department determines that a disclosure should be made regarding a sex offender on campus, the statutory provisions for Megan’s Law notifications on campus, as provided in Penal Code Section 290.01 and 290.45 shall be followed.

c. The campus police department and its employees, are immune from civil or criminal liability for good faith conduct in conducting notifications on registered sex offenders on campus. (Penal Code, § 290.01, subd. (d)(2).)

d. The department may not simply hand out a list of all registered sex offenders on campus, even to the administration of the campus. Penal Code Section 290.45 still requires the campus police department to determine whether serious sex offenders are posing a risk, and to notify only those persons or organizations they are likely to encounter. This assessment must still be made before notification to anyone in the campus community, including administrators, can be notified about serious sex offenders on campus.

e. There are no such limitations on disclosure on high-risk offenders under Penal Code Section 290.45, or to other offenders as to whom the campus police may make a disclosure to the campus community under Penal Code Section 290.01 (i.e., no risk determination or restriction of notice to those likely to encounter the offender.)

f. However, Section 290.01 does limit the scope of disclosures about all campus registrants, which are made by the campus police agency, to the campus community.

2. Subject to notification on campus

a. Campus police departments are authorized to notify the campus community about any registered sex offender on campus. They are not required to do so under either state or federal law. The department provides a statement advising the campus community where law enforcement agency information provided by the state concerning registered sex offenders may be obtained in the Annual Clery Security Report and on our website as follows; www.sfsu.edu/~dps.

b. Disclosures are currently governed by Penal Code Section 290.45 (serious and high risk offenders) and Penal Code Section 290.01 (other offenders).

c. Record of Notification:

1) When notification is made to the campus community on a serious or high-risk offender, a record of the dates of dissemination and means must be maintained for a period of five years. The Supervised Release File may be used to maintain this record. Entry may be made via JDIC into the Supervised Release File (SRF). The Dispatcher or Records/Communications Supervisor may enter the data at the direction of the Chief of Police or designee.
a) the record shall include documentation for the reasons for notification as well as the:

i. scope
ii. means
iii. dates of dissemination

b) the documentation is not a public record (so don’t pull a case number) and should be kept in a locked confidential file on the registrant.

3. Information to be disclosed

   a. High risk and serious sex offenders. The following information can be disclosed about high risk and serious sex offenders registered on campus, at the discretion of the disclosing agency: the offender’s full name; known aliases; gender; race; physical description; photograph; date of birth; crimes resulting in registration under Section 290; home address, if verified prior to disclosure; description and license plate number of vehicles the offender is known to drive; type of victim targeted by the offender; relevant parole or probation conditions, such as one prohibiting contact with children; dates of crimes resulting in classification under Section 290; date of release from confinement; and enrollment, employment or vocational status with a college, university, or institution of higher learning. (Penal Code, § 290.45, subd. (a).)

   b. Other sex offenders. The following information can be disclosed about other registered sex offenders on campus, at the discretion of the disclosing agency: the offender’s full name; known aliases; gender; race; physical description; photograph; date of birth; crimes resulting in registration under Section 290; and the date of last registration or re-registration. (Penal Code, 290.01, subd. (d).) Note that under the campus notification law, the department or agency cannot disclose the home address and other information about an “other” sex offender which can legally be disclosed about serious and high risk offenders.

4. Why is notification broader for “Other” registrants on campus than it is for serious registrants.

   a. Federal law required that notification be available on all registered sex offenders on campus. Enacted later than the general Megan’s Law notification statute, the authorization in Penal Code Section 290.01 for notification on “other” sex offenders does not contain the restrictions in Penal Code Section 290.45 that apply to notification about serious sex offenders. However, note that the type of information that can be given to the campus community about other sex offenders is more limited than the information that can be disseminated on high risk and serious offenders pursuant to Penal Code Section 290.45.

C. INQUIRIES:

1. All inquiries of sex offender information by the public are to be directed to the
Commanding Officer of Investigations.

2. Before being provided any information by this department pursuant to Penal Code Section 290.01 (4)(A), a member of the campus community who requests sexual offender information, shall sign a statement, on the San Francisco State University/BCIA 4078 (1/02) Department of Justice form (see attachment) stating that he or she is not a registered sex offender; that he or she understands the purpose of the release of information is to allow members of the campus community to protect themselves and their children from sex offenders; and that he or she understands it is unlawful to use information obtained pursuant to this subdivision to commit a crime against any registrant or to engage in illegal discrimination or harassment of any registrant. The signed statement shall be maintained in a file in the agency’s office for a minimum of five years.

3. The Commanding Officer of Investigations will notify the Chief, Deputy Chief and Director of Public Affairs of the inquiry and decision of the department to release the information.

D. RELEASE ASSESSMENT:

1. It is the policy of this department that an assessment will be made to determine if notification of the offender information is warranted for dissemination to the person or persons, or the University Community when:

   a. If a serious or high risk offender is identified, who is either a serious or high risk sex offender, who either attends, works, resides, has been, or is present in the area of the University, Child Care Center, Child Study Center, or any other area within the boundaries of the University where minors are present, and

   1) Registrants are working with minors on campus

      a) Penal Code Section 290.95 prohibits sex offender registrants whose sex crime was against a victim under age 16 from working with minors as an employee or volunteer, if the registrant will be working with minors directly and in an unaccompanied setting on more than incident or occasional basis or has supervisory or disciplinary power over the child. This pretty much eliminates professors, lecturers, graduate student teaching assistants, coaches, etc., with a conviction involving an under 16 victim, from working or volunteering on campus if there will be any minor in their class, T.A. Section or on a sports team. If the registrant’s crime was not against a victim under age 16, the registrant must notify his employer (e.g., the campus or independent contractor) or the volunteer organization of his status as a registrant.

      b. There is information that has come to the department’s attention that creates a reasonable suspicion that a person or persons are at risk of becoming a victim of the above offender and the offender is likely to encounter the person or persons.

   2. When the above criteria is met, the University Police Watch Commander is to be
notified immediately. The Watch Commander shall:

a. Make administrative notification to the Commanding Officer of Investigations and Chief as soon as possible.
b. Follow-up the administrative notification with a miscellaneous report or crime report, as appropriate, containing the information.
c. The Chief will determine if notification is warranted for dissemination to the appropriate party, parties, or University Community.

3. Exception - In exceptional circumstances where the commission of serious crime/sex offense is imminent, and likely to occur without immediate intervention, and or, disclosure of the information, the Watch Commander is authorized to take immediate action to intervene or disclose the information to prevent the occurrence.

a. When such an action is taken, the Commanding Officer of Investigations and Chief of Police are to be notified as soon as possible.
b. A memorandum detailing the justification for the action is to be submitted to the Commanding Officer of Investigations with a copy to the Chief of Police and Deputy Chief by the end of that Watch Commander’s work shift, with a copy of any and all reports attached.

4. Department Notification:

a. Notification shall be pursuant to Section IV, B of this policy and Penal Code Section 290.01 (d)(1)(A).
b. California Penal Code Section 290.01 was amended to allow campus police to release sexual offender information.

1) The following information regarding a registered sex offender on campus who is not described in paragraph (1) of subdivision (a) of Section 290.4 may be released to members of the campus community by any campus police department pursuant to 1092(f)(1)(I) of Title 20 of the United States Code:

   a) The offender’s full name.
   b) The offender’s known aliases.
   c) The offender’s gender.
   d) The offender’s race.
   e) The offender’s physical description.
   f) The offender’s photograph.
   g) The offender’s date of birth.
   h) Crimes resulting in registration under Section 290.
   i) The date of last registration or reregistration.

2) Nothing in Penal Code Section 290.01 shall be construed to authorize this department to make disclosures about registrants intended to reach persons beyond the campus community.
a) Campus community means those persons present at, and those persons regularly frequenting, any place associated with an institution of higher education, including campuses; administrative and educational offices; laboratories; satellite facilities owned or utilized by the institution for educational instruction, business, or institutional events; and public areas contiguous to any campus or facility that are regularly frequented by students, employees, or volunteers of the campus.

c. Employees shall not give legal advice to the public or the media in reference to sex offenders.
d. Release of information will be coordinated with Public Affairs and approved by the Chief.
e. San Francisco State University form, Megan’s Law Field Disclosure, shall be utilized to document release information (See Attachment).

E. INTERVIEWING CAMPUS REGISTRANTS:

1. Department officers may wish to interview a registrant regarding places he/she frequents on or near the campus. Registrants will often cooperate and respond to questions about their schedules or places they go on or near the campus.
2. If the registrant is a child molester, employer shall warn the registrant to avoid areas where children are present, such as a playground near married student housing or a campus day care center, in order to avoid any misunderstandings. However, the registrant is legally required to give only the information required by the DOJ registration forms, as specified in Penal Code Sections 290 and 290.01, so any additional information cannot be compelled by the campus police department.

a. FERPA may prevent the campus police department from obtaining the registrant’s academic schedule, so if the registrant refuses to provide it voluntarily, the officer may have to find other legal ways to obtain relevant information about where the offender can be found on campus. For example, if the registrant is on probation or parole, the officer can work with the probation or parole officer, who has the right to compel a registrant to disclose his academic schedule.
b. Registrants often have conditions of probation or parole, which are relevant to their campus schedules. For example, if there is a condition that they stay away from minors, it could be a violation of parole or probation to take a class or act in a campus play in which minors are present.

F. DEPARTMENT REGISTRATION PROCESS:

1. The Investigations Unit will be responsible for the registration of all sexual offenders on campus and the files maintained in the Detectives’ Office.

a. The Investigations Division Commander will ensure that the files are kept secure and the proper forms are utilized and forwarded to Dispatch Records for information to be sent to the Department of Justice via CLETS.
2. Registration Information sent to the Department of Justice via CLETS

  a. The on duty dispatcher shall send the registration information via CLETS to the Department of Justice and forwarded to the Investigations Division Commander.
  b. The Investigations Division Commander will telephone the Department of Justice and advise them that a new campus registration form has been mailed to expedite entry into VCIN so we can assist the Department of Justice in tracking offenders on campus until their system is upgraded.
  c. The Investigations Division Commander will keep the original form in the secure files.

G. CLERY REPORT:

  1. The department will include as part of its annual Clery Report, a description of where sex offender information maybe obtained. Public Information regarding sex offenders in California may be obtained through:

      a. San Francisco Police Department at (415) 459-3100, 850 Bryant Street, San Francisco California 94103.

I. PURPOSE: To provide employees with protocols for accepting, recording, and investigating the crime of identity theft.

III. DEFINITIONS:

A. Identity Theft: Identity theft is the wrongful use of another person’s identifying information—such as credit card, social security or driver’s license numbers—to commit financial or other crimes. Identity theft is generally a means for committing other offenses such as fraudulently obtaining financial credit or loans, among other crimes.

IV. PROCEDURES:

A. Legal Prohibitions

1. Identity theft is punishable under federal law “when any person knowingly transfers or uses, without lawful authority, a means of identification of another person with the intent to commit, or to aid or abet, any unlawful activity that constitutes a felony under any applicable state or local law and state law. [18 U.S.C. § 1028(a)(7)]

2. Identity theft is punishable under state law Cal. Penal Code §§ 530.5-530.7 which makes it a crime to obtain personal identifying of another person, and use that information for any unlawful purpose.

B. Taking Crime Reports

1. All sworn police personnel are authorized to take crime reports on identity theft. Recording all relevant information and data in such reports is essential to further
investigation. Therefore, officers and/or supervisors should:

a. Fully record information concerning criminal acts that may have been committed by illegally using another’s personal identity as covered by state and federal law.

b. Classify as identity theft fraudulent acts committed against an individual when there is evidence that the following types of unauthorized activities have taken place in the victim’s name.

1) Credit card charges, debit cards, ATM cards.
2) Credit card checks written against their account.
3) Credit card accounts opened or account addressed changed.
4) Establishment of a line of credit at a store or obtaining a loan at a financial institution.
5) Goods or services purchased in their name.
6) Gaining access to secure areas.
7) Used as computer fraud.

c. Obtain or verify as appropriate identifying information of the victim to include date of birth, social security number, driver’s license number, other photo identification, current and most recent prior addresses, and telephone numbers.

d. Document the nature of the fraud or other crime committed in the victim’s name.

e. Determine what types of personal identifying information may have been used to commit these crimes (i.e., social security number, driver’s license number, birth certificate, credit card numbers and state of issuance, etc.) and whether any of these have been lost, stolen or potentially misappropriated.

f. Document any information concerning where the crime took place, the financial institutions or related companies involved and the residence or whereabouts of the victim at the time of these events.

g. Determine whether the victim authorized anyone to use his or her name or personal information.

h. Determine whether the victim has knowledge or belief that specific person or persons have used his or her identity to commit fraud or other crimes.

i. Determine whether the victim is willing to assist in the prosecution of suspects identified in the crime.

j. Determine if the victim has filed a report of the crime with other law enforcement agencies and whether such agency provided the complainant with a report number.

k. If not otherwise provided, document/describe the crime, the documents or information used, and the manner in which the victim’s identifying information was obtained.

l. Forward the report through the chain of command to appropriate investigative officers and immediately to intelligence agencies and federal agencies, if it appears to have national security implications.

C. Assisting Victims

1. Officers taking reports of identity theft should take those steps reasonably possible to
help victims resolve their problem. This includes providing victims with the following suggestions where appropriate.

a. Contact the Federal Trade Commission (FTC) (1-877-IDTHEFT)—which acts as the nation’s clearinghouse for information related to identity theft crimes—for assistance from trained counselors in resolving credit related problems.
b. Cancel each credit and charge card and request new cards with new account numbers.
c. Contact the fraud departments of the three major credit reporting agencies [Equifax (1-800-525-6285), Experian (1-888-397-3742), TransUnion (1-800-680-7289)], and ask them to put a fraud alert on the account and add a victim's statement requesting creditors to contact the victim before opening new accounts in his or her name. Also request copies of your credit report.
d. If bank accounts are involved, report the loss to each financial institution, cancel existing accounts and open new ones with new account numbers. If deemed necessary, place stop payments on outstanding checks and contact creditors to explain.
e. The Identity Theft form will be given to the victim and will be used to ask the creditors or other businesses for copies of applications and other business records relating to transactions or accounts that resulted from the theft of the victim's identity during the investigation process.
f. If a driver’s license is involved, contact the state motor vehicle department. If the driver’s license uses the social security number, request a new driver’s license number. In such cases, also check with the Social Security Administration to determine the accuracy and integrity of your account.
g. Change the locks on your house and cars if there is any indication that these have been copied or otherwise compromised.

D. Investigations

1. Investigation of identity theft shall include but not be limited to the following actions where appropriate.

a. Review the crime report and conduct any follow-up inquiries of victims or others as appropriate for clarification/expansion of information.
b. Contact the FTC Consumer Sentinel law enforcement network and search the database for investigative leads.
c. Contact other involved or potentially involved law enforcement agencies for collaboration and avoidance of duplication. These agencies include but are not limited to

1) Federal law enforcement agencies such as the U.S. Secret Service, the Federal Bureau of Investigation, and the U.S. Postal Inspection Service as appropriate whether or not the victim has filed a crime report with them.
2) Any state and/or local enforcement agency with which the victim has filed a crime report or where there is an indication that the identity theft took place.
E. Community Awareness and Prevention

1. Where reasonable and appropriate, officers engaged in public education/information forums, community crime prevention and awareness presentations or similar speaking or information dissemination efforts shall provide the public with information on the nature and prevention of identity theft.

(3) “Law enforcement officer” means a peace officer as defined by Section 830.1.

Also refer to California Financial Code sections 4002 and 22470, and California Civil Code section 1748.95.
I. PURPOSE: To provide employees with protocols for conducting cold show identifications, photo line-up identifications and arranging for composite sketches.

II. POLICY: To reduce the risk of wrongful conviction and aid in the detection and apprehension of the guilty, officers should adhere to procedures set forth here in order to maximize the reliability of witness identifications, minimize unjust accusations of innocent persons and to establish evidence that is reliable and conforms to established legal procedure.

III. DEFINITIONS:

A. Cold Show/Show-up: An identification procedure in which an eyewitness is presented with a single suspect within a short time following the commission of a crime for the purpose of determining whether the eyewitness identifies this individual as the perpetrator.

B. Photo Line-up: An identification procedure, in which an array of photographs, including a photograph of the suspect of an offense and additional photographs of other persons not suspected of the offense, is displayed to an eyewitness either in hard copy form or via computer for the purpose of determining whether the eyewitness identifies the suspect as the perpetrator.

C. Filler: Either a person or a photograph of a person who is NOT suspected of an offense and is included in an identification procedure.

D. Facial Composite: A non-photographic pictorial representation such as a free hand sketch, Identi-Kit, or other computer-program generated image.

IV. PROCEDURES:

A. AVOIDING OFFICER AND WITNESS “SUGGESTION”: Officers are to read the cold show admonition (Simmons Admonishment) to the witness and have him/her sign it. Officers must not, by word or gesture, suggest opinions to any witness concerning the guilt or innocence of a suspect in any identification procedure. Witnesses making inquiries about an officer’s opinion shall be informed of this restriction. A witness who has taken part in an identification procedure must not be permitted to state conclusions within earshot of another person who is about to be, or has been, a viewer of the identification procedure.
B. MULTIPLE WITNESSES/SUSPECTS: Each witness is to view any identification procedure separately. Witnesses shall not be permitted to communicate with each other until all identification procedures are completed, and should be instructed not to discuss their identifications with anyone else. When there are multiple suspects, each identification procedure shall include only one suspect.

C. VIDEO AND/OR AUDIO RECORDING & DOCUMENTATION

1. Whenever practical, officers are encouraged to video and/or audio record any witness identification procedure from start to finish. Video and audio recordings may be downloaded into the central computer system or stored on appropriate media based on the size of the video file, and the media used for the original recording.
2. All information regarding any identification procedure shall be documented in the officer’s written report, to include:
   a. All identification and non-identification results.
   b. Confidence or certainty statements made by the witness (these should be quoted).
   c. Names of all persons present.
   d. Date, time, and location.
   e. Names of all persons and/or photos used, and source of the photos.
   f. Any significant remarks made by an officer, lawyer, or suspect.

D. WHEN IDENTIFICATION PROCEDURES MAY BE UNNECESSARY: The use of an identification procedure may be unnecessary under the following conditions:

1. When the witness knows the identity of the suspect before the offense occurred or learned the suspect’s identity without police assistance after the offense. A single photograph of the suspect named by the witness may be shown to the witness for confirmation that the person named is the perpetrator, or a photo line-up can be performed to establish additional probable cause.
2. When the witness would be unable to recognize the suspect of the offense, such as when a suspect’s face is completely covered during the commission of a crime.

F. WHEN COLD SHOWS ARE PERMISSIBLE:

1. An officer may arrange a “cold show” between a witness and a suspect whenever a potential suspect is located and detained within a reasonable length of time, in proximity to the location of the crime, and fits the specific description of the perpetrator given by the witness.
2. If an officer has reasonable suspicion to detain a suspect under the above circumstances, the officer may use such force as is reasonably necessary to stop the suspect from leaving, or to cause the suspect to remain in the officers’ presence. If probable cause to arrest develops during the detention, an arrest should be made.

G. CONDUCTING THE COLD SHOW: A suspect cannot be detained for longer than a reasonable period of time to confirm or refute whether the suspect is the perpetrator. When conducting a
cold show, officers will use the following guidelines:

1. Description: Officers at the scene and in contact with the witness will obtain a
detailed description of the perpetrator before the suspect is shown to the witness.
The witness must advise the officers that they will be able to recognize the person
who committed the crime prior to the cold show.

2. Location: A suspect should not be taken to the police station for a cold show. The
suspect should be detained at the place he/she was located, in the least restrictive
manner possible that will ensure the suspect remains with the officer. The witness
should be transported to the suspect's location for the cold show. Suspects should
not be transported to the witness's location unless exigent circumstances exit.

3. Minimize Suggestiveness: If possible, do not show the suspect handcuffed, or in the
back seat of a patrol car. If the suspect is handcuffed, take measures to conceal
this fact from the witness when possible. Suspects may not be required to put on
clothing worn by the perpetrator. However, they may be asked but not required to
speak words uttered by the perpetrator, or perform other actions of the perpetrator.
Advise the witness that the person detained may or may not be the perpetrator and
the witness should not feel compelled to make an identification. If the witness makes
identification, do not confirm or corroborate the identification.

4. Multiple Witnesses: Cold shows should not be conducted with more than one
witness present at a time. If there is more than one witness, the cold show must
be conducted separately for each witness, and witnesses should not be permitted
to communicate before or after any cold show regarding the identification of the
suspect. The same suspect should not be presented to the same witness more than
once.

5. Witness Confidence: Assess witness confidence immediately following the cold show
identification. Make note of witness confidence remarks for report documentation.

6. Multiple Suspects: If there are multiple suspects, the suspects must be separated
and subjected to separate cold show procedures.

7. Photographing Suspects: Consideration should be given to photographing the
suspect(s) in the field as documentation.

8. Emergency / Exigent Circumstances: In emergency circumstances, such as when a
witness is in danger of imminent death or blindness, or when a suspect is in danger
of imminent death, an immediate cold show may be arranged if medical authorities
permit. In these situations, time and location limitations contained in the preceding
guidelines can be disregarded. If there is any doubt about an emergency cold show,
officers should contact a supervisor and/or the prosecutor immediately for guidance.

9. Cruising Area of Offense: Nothing in these guidelines prohibits the common
procedure of transporting a witness in a patrol car to cruise the general area in which
a crime has occurred in hopes of spotting the perpetrator and arranging a cold show
identification procedure.

10. Right to a Lawyer: No person has a right to have a lawyer present at any cold show
procedure.

11. Release After Show-up: If the detained suspect is not identified by a witness as the
perpetrator, and officers lack any other probable cause for an arrest, the suspect
should be released after obtaining basic information.
H. CREATING AND CONDUCTING PHOTO LINE-UPS

1. SIMULTANEOUS PHOTO LINE-UP: The simultaneous photo line-up consists of showing a group of similar photos to a witness all at the same time. Witnesses should be advised the perpetrator may or may not be present in the photo line-up. Officers must complete the photo line-up form with the witness. A photocopy of the completed photo line-up form and the photo line-up must be attached to the police report and the original documents are to be entered into UPD property as evidence. All simultaneous photo line-ups shall be done using the following guidelines:

   a. A minimum grouping of six (6) photos must be used to create the photo line-up, and must include five (5) filler photos with one (1) suspect.
   b. The photo of the suspect must be contemporary, shall resemble as much as possible their appearance at the time of the offense, and shall reasonably resemble the witness’s description of the perpetrator.
   c. All filler photos should resemble the suspect photo as much as possible, including size, background, race and skin tone, facial features, weight, hair color and length, scars, tattoo, eyeglasses, etc.
   d. If there is more than one suspect, each suspect photo will be placed in the grouping of six separately from any other suspect, and the grouping will be changed so that the suspect’s photos are not always in the same position in the grouping.
   e. If there is more than one witness each witness will be shown the line-up separately, the suspect photo shall be placed in a different position in the grouping for each witness, and witnesses will not be permitted to communicate with each other until after the line-up procedure has been completed.
   f. If the witness has previously viewed a photo line-up in connection with the identification of another person suspected of involvement in the offense, the fillers in the line-up shall be different from the fillers used in any prior line-ups.
   g. If an identification is made, the witness will be told to circle the identified photo, and write their initials and the date next to it.
   h. If an identification is made, the officer shall assess witness confidence immediately following the identification, and clearly document witness confidence by quoting the witnesses remarks in the police report. If no identification is made, this fact must also be clearly documented.
   i. Any and all photo line-ups created, viewed, identified or not identified must be kept, and secured with the officer’s case.
   j. No person has a right to have a lawyer present at any photo line-up whether it takes place before or after an arrest.

2. SEQUENTIAL PHOTO LINE-UP: The sequential photo line-up consists of showing a group of similar photos individually to a witness. Witnesses should be advised the perpetrator may or may not be present in the photo line-up. All sequential photo line-ups shall be done using the following guidelines:

   a. A minimum grouping of six (6) individual photos must be used to create the photo
line-up, and must include five (5) filler photos with one (1) suspect.
b. The photo of the suspect must be contemporary, shall resemble as much as possible their appearance at the time of the offense, and shall reasonably resemble the witness’s description of the perpetrator.
c. All filler photos should resemble the suspect photo as much as possible, including size, background, race and skin tone, facial features, weight, hair color and length, scars, tattoo, eyeglasses, etc.
d. Each photo will be placed in a separate folder, the folders will then be shuffled, and then each folder will be numbered, from one (1) to six (6).
e. If there is more than one suspect, each suspect photo will be placed in the grouping of six folders separately from any other suspect, and the grouping will be changed so that the suspect’s photos are not always in the same numbered folder in the grouping.
f. If there is more than one witness each witness will be shown the line-up separately, the suspect photo shall be placed in a different numbered folder in the grouping for each witness, and witnesses will not be permitted to communicate with each other until after the line-up procedure has been completed.
g. If the witness has previously viewed a photo line-up in connection with the identification of another person suspected of involvement in the offense, the fillers in the line-up shall be different from the fillers used in any prior line-ups.
h. After explaining the procedure to the witness, give the witness one folder at a time, starting with number one, and give the witness sufficient time to look at each photo. When done viewing each folder, it should be handed back to the officer before viewing the next one.
i. If an identification is made, the officer shall assess witness confidence immediately following the identification, and clearly document witness confidence by quoting the witnesses remarks in the police report. If no identification is made, this fact must also be clearly documented.
j. Any and all photo line-ups created, viewed, identified or not identified must be kept, and secured with the officer’s case.
k. No person has a right to have a lawyer present at any photo line-up whether it takes place before or after an arrest.

I. FACIAL COMPOSITES AND SKETCHES

1. COMPOSITE & SKETCH GENERAL CONSIDERATIONS: When there is no suspect, and the use of a photo line-up has been or is likely to be unsuccessful, a non-photographic pictorial representation such as a free hand sketch, Identi-kit composite, or other computer-program generated composite image may be used. Care must be taken not to unintentionally influence the description provided by a witness while developing such a composite image or sketch, and only those officers trained in the use of such techniques shall use them.

APPENDIX A

See Resource Table for The Criminal Intelligence System: A California Perspective by the California Department of Justice
This chapter is intended to provide standardized guidelines for the management of the property and evidence system and the processing of property and evidence. This is a generalized guideline and each CSU Police Chief must establish specific procedures for their departments that are in compliance with these guidelines. These guidelines are based on the California Commission on Peace Officer Standards and Training (POST) 2005 Property and Evidence Management Guide which is available at the POST website (www.post.ca.gov). Section seven of the guide provides references to various California statutes relating to property and evidence. This chapter also provides guidelines for the approval and control of police equipment.

SECTION ONE
PROPERTY AND EVIDENCE CONTROL

I. CLASSIFICATIONS OF PROPERTY

A. Definitions

1. Evidence: Property which may be related to a crime or which may implicate or clear a person of a criminal charge.

2. Found Property: Non-evidentiary property which, after coming into the custody of the department, has been determined to be lost or abandoned and is not known or suspected to be connected with any criminal offense.

3. Property Held for Safekeeping: Non-evidentiary property, which is in the custody of the department for temporary protection on behalf of the owner.

4. Property/Evidence Record Form: A form that must be completed by the individual who takes property into custody that includes a description of the property, and has a section for noting chain of custody to include temporary release and final disposition.

B. Departments with responsibility for University Lost and Found must establish procedures which account for the security, tracking, release and/or disposal of those items brought under their control.
C. Departments may establish separate facilities for housing and securing evidentiary property and found property or these items may be placed in the same facility which has areas defined for the separation of these items.

II. PROPERTY/EVIDENCE ROOM SECURITY

A. All in-custody property and evidence must be stored within designated, secure areas. To insure security, specialized locks, alarms and/or security cameras should control these areas.

B. Separate areas inside the property/evidence room should be established to provide extra security for such items as money, jewelry, firearms and narcotics.

C. Only authorized personnel have access to areas used by the department for storage of in-custody or evidentiary property.

1. Each department must designate an evidence/property controller who will have primary responsibility for insuring compliance with all established procedures. If evidence and found property are maintained in separate secure facilities, different individuals can be assigned responsibility for each area.

2. Each department should designate a secondary evidence/property controller who also has access to the facility for intake and release of property in the absence of the evidence custodian.

D. The primary and secondary evidence controllers will be issued the only sets of keys to the facility and in the event the facility is alarmed, they will be the only individuals with an access code.

SECTION TWO
PROCEDURES FOR HANDLING PROPERTY

I. PROCEDURES FOR DEPOSITING PROPERTY

A. Duties of employees who take property into custody

1. The employee shall, in every instance, place all property obtained in the course of his or her employment in the department's property system prior to going off duty. In no instance shall an employee store property in a personal locker or other unauthorized location.

2. The employee shall prepare a report describing the details of how he/she came into possession of the property as well as a Property/
Evidence Record Form. All items booked into the evidence system will have an appropriate connecting report.

3. Each item will be properly packaged, identified individually, marked and tagged before it is placed in the department's property system.

4. The employee shall make appropriate inquiries to the State Department of Justice computer regarding serialized items of property to determine if the property is reported stolen.

5. In the absence of the property/evidence controller, the employee shall place small property items, together with the Property/Evidence Record Form, in a temporary storage property locker.

6. Items that are too large to be placed in the temporary storage lockers will be placed in an identified secured area. These items will be properly tagged and secured with additional locks when necessary.

B. Items requiring special handling:

1. Firearms
   a. Use extreme caution in unloading any weapon. Firearms should be unloaded and made safe for handling unless the evidentiary value of the weapon could be compromised through excessive handling. Officers unfamiliar with the operation of a weapon will seek assistance from an officer more familiar with the weapon's functioning.
   b. The original condition will be noted in the report, including position of the clip or cylinder, position of the safety, hammer, live and empty rounds in the weapon.
   c. Check and enter firearms in the Automated Firearms System (AFS) prior to submission to the evidence room. Attach the information to the case report.
   d. Package related ammunition separately from firearms.

2. Money
   a. Money must be counted and verified by two officers.
   b. Currency and coin must be packaged in an envelope and sealed. The verified total amount of currency and coin will be written on the outside of the envelope, and initialed by both officers.
3. **Flammables**
   a. The employee shall not bring flammables into the department facility.
   b. The department should outline procedures for the storage of flammables in accordance with local and state fire regulations.

4. **Explosives and Hazardous Materials**
   a. The department should outline procedures for the handling and disposing of suspected explosives.
   b. Employee should not book hazardous materials into the agencies evidence system.
   c. Appropriate authorities should be contacted for advice on the proper handling of these materials.

5. **Perishable Items**
   a. The department should have access to a secure lockable refrigerator for storage of perishable items such as blood or urine specimens or sexual assault evidence. Use of this refrigerator must be restricted to in-custody property and evidence.
   b. HazMat stickers must be placed on all items containing body fluids.
   c. Evidence requiring chemical analysis should be transported as soon as possible to the lab.
   d. The department, in consultation with local prosecuting attorneys, should outline procedures, which would allow for photographing of perishable items such as shoplifted food, in lieu of retaining and refrigerating these items.
   e. The department should develop contingency plans for the handling, storage and disposition of large perishable items and/or large quantities of perishables items.

6. **Narcotics**
   a. Narcotics should be stored in a separate room or vault within the property/storage area, equipped with the proper ventilation as mandated by Section 65261.4(g) of the California Code of Regulations.
   b. Officers will weigh narcotic substances in grams or pounds prior to packaging. The weight will be noted on the package.
7. Knives and Sharp Objects
   a. Knives and sharp objects such as needles must be
      packages so as to prevent the property/evidence controller
      from being injured by the items.
   b. Proper packaging should be provided for this purpose.
   c. Label with a cautionary warning on the outside, i.e. sharps.

C. Duties of the Property/Evidence Controller

1. The property/evidence controller shall ensure that information is
   entered in the appropriate State Department of Justice computer
   file concerning each item of serialized property that is placed in the
   department's property section.

2. The property controller shall notify the Special Services Section of
   the State Department of Justice regarding all non-serialized
   property that has unique characteristics or inscriptions.

3. The property/evidence controller shall note on the
   Property/Evidence Record Form the storage location for each item
   of property placed in the property/evidence section.

4. The property/evidence controller shall maintain a records system
   that reflects the status of all property held by the department.

5. The property/evidence controller shall attempt to locate the owner
   of found property and return it to the owner as soon as possible.

6. In order to maintain a high degree of evidentiary integrity over
   agency controlled property and evidence, the following
   inspections, inventory and audits should be completed:
      a. The property/evidence controller shall conduct a semi-
         annual inspection to determine adherence to procedures
         used for the control of property.
      b. A supervisor not routinely directly connected with control
         of property shall conduct an annual audit of property held
         by the department.
         1) The audit should be a random sampling of property
            held to ensure that policies and procedures are being
            followed.
         2) The audit should be sufficient to insure the integrity
            of the continuity of custody.
c. Unannounced inspections of property storage areas shall be conducted at least once a year as directed by the department’s Chief of Police.

d. A newly designated property controller shall conduct an inventory of property whenever the person responsible for the property and evidence is reassigned or transfers from the position. This inventory should be conducted jointly with the newly designated property controller and a designee of the Chief of Police.

II. WITHDRAWAL/RETURN OF PROPERTY

A. Business hours for the release of property shall be advertised to the public and may be established as by appointment only.

B. Personnel authorized to release property: Only the primary and secondary property/evidence controller may release items from the department’s property facility.

C. Procedures for the temporary withdrawal of property: The following procedures shall be completed in all instances:

1. Items may be temporarily withdrawn from the facility for submission to the lab for analysis, for use in court or for other official investigative use.

2. An authorized employee of the department shall sign his/her name on the Property/Evidence Record form beside each item that is withdrawn.

3. The property/evidence controller shall note in the spaces provided on the form the item number, destination, date and time, and shall sign his/her name beside each item that is withdrawn.

4. If either the lab or the court retains the item, a receipt will be signed by the individual receiving the property/evidence noting the transfer of custody of the item.

D. Property withdrawn from the property storage areas, but not retained at its destination, shall be returned to the property system as follows:

1. When the property/evidence controller is present, the person returning the property shall sign his or her name in the space provided on the back of the Property/Evidence Record form. The property/evidence controller shall countersign for each returned property item.
2. When the property/evidence controller is absent, the person returning the property shall place the returned property, in a temporary storage property locker.

III. DISPOSAL OF PROPERTY, GENERAL PROVISIONS

A. The property/evidence controller shall ensure that the final disposition of all found, recovered, and evidentiary property is accomplished following notification that all legal requirements have been satisfied. Each agency should develop a method to routinely review property/evidence for disposition. Disposition shall be in accordance with applicable state laws.

B. Authorized Methods of Property Disposal

1. Return to owner or finder
2. Sale in accordance with law
3. Use by department or other public use, upon obtaining permission from the court with jurisdiction.
4. Destruction

C. Procedures Applicable To All Methods of Property Disposal:

1. The employee handling the case, upon receipt of the disposition of arrest and court action shall notify the property/evidence controller of the disposition.

2. When there are two or more defendants involved, property shall not be disposed of until there is a final disposition of all defendants’ cases.

3. Property shall not be disposed of until the period for appeals has closed and all appeals have been concluded.

4. The property/evidence controller shall update information in the appropriate State Department of Justice computer file concerning each item of serialized property that is authorized for disposal. The property controller shall notify the Special Services Section of the State Department of Justice regarding all non-serialized property, which has unique characteristics or inscriptions, and that is authorized for disposal.

D. Return of Property to Owner

1. If the owner of recovered or found property can be determined, the owner will be notified to claim the property as soon as it is no longer of evidentiary value.
2. With prior approval from the District Attorney, some recovered evidentiary property may be photographed and released to the lawful owner.

3. The owner must prove ownership and sign for the property upon receipt.

4. Disposal of unclaimed property will be in accordance with Section 2080.9 of the California Civil Code which states in part:
   a. The university shall hold such unclaimed property for a period of at least six months.
   b. Abandoned property shall be sold at auction to the highest bidder or destroyed in the case of items with little or no value.
   c. Notice of the auction must be made in a newspaper with general circulation in the county where the university is located.

5. Property found in the course of employment by an employee of any public agency shall be sold at public auction unless the item of property is illegal to possess, in which case, the property item shall be destroyed.

E. Unclaimed Money: Notwithstanding any order from the court to the contrary, money, which is in the possession of the Property Section, and which cannot be lawfully returned to its owner, after consultation with the CSU attorney, shall be deposited in the CSU's general scholarship fund, pursuant to Title 5, California Code of Regulations, Section 42376.

F. Firearms: A felony or qualifying misdemeanor conviction (pursuant to Penal Code Section 12021 (c) (1)) precludes the return of any firearm. Owners seeking return of a firearm must submit a Law Enforcement Gun Release Application to DOJ (available on their website) and present the DOJ Release Authorization form to the property custodian before a firearm can be released.

IV. DESTRUCTION OF PROPERTY

A. Controlled Substances and Assorted Paraphernalia

1. Destruction Pursuant to a Court Order
   a. The property/evidence controller shall make an application for a court order to destroy all controlled substances and associated paraphernalia.
b. The application shall list descriptions, quantities and weights of all separate items to be destroyed.

c. Upon receipt of the court order the material shall be destroyed (or delivered for destruction to the Department of Justice) as specified by the order.

d. Destruction of the material shall be witnessed by the property/evidence controller and one other employee.

2. Destruction not Pursuant to Court Order

a. In instances when the weight of suspected controlled substance is substantial, and it is not reasonably possible to preserve the material in place or move it to another location, the controlled substance in excess of ten pounds, or hazardous chemical in excess of two ounces and its container, which were used or intended for use in the unlawful manufacture of controlled substances, may be destroyed without a court order when all of the following conditions have been met:

1) At least five random and representative samples of the suspected controlled substance (ten or more pounds) have been taken for evidence; and

2) At least one 2-ounce sample has been taken from each suspected hazardous chemical; and

3) Photographs have been taken which reasonably demonstrate the total amount of the suspected controlled substance or suspected hazardous chemical container; and

4) The gross weight of the suspected controlled substance or suspected hazardous chemical has been determined by either weighing or estimate after dimensional measurement;

5) The Chief of Police has determined that it is not reasonably possible to preserve all of the suspected controlled substance or suspected hazardous chemical in place or to move it to another location.

b. An affidavit stating that the conditions stated above have been met shall be filed in court within thirty calendar days following the destruction of the suspected controlled substance or suspected hazardous chemical.

B. Firearms and Weapons

defined by California Penal Code Section 12029 as nuisances. The application shall list the weapons to be destroyed by make, model, caliber and serial number.

2. California Penal Code Section 12032 requires that when a firearm is in the possession of an officer of the CSU and the firearm is an exhibit in any criminal action or proceeding which is no longer needed or is unclaimed or abandoned property and has been in the possession of the officer for at least 180 days, the firearm shall be destroyed as provided in California Penal Code Section 12028.

3. Weapons defined as destructive devices by the California Penal Code Section 12301, and machine guns described in California Penal Code Section 12251, which were unlawfully possessed, must be surrendered to the Department of Justice unless a certificate, signed by a judge or district attorney stating that the preservation of such destructive devices or machine guns is necessary to serve the ends of justice, is filed with the Department of Justice. (Penal Code Section 12307).

4. Destruction of firearms and weapons shall be accomplished pursuant to California Penal Code Section 12028 in the presence of the property/evidence controller and one other department employee who shall act as a witness.

IV. PROPERTY RETAINED FOR DEPARTMENT OR OTHER PUBLIC USE

California Penal Code Section 12030 provides that certain unclaimed property held in the custody of the department may be retained for department or other public use, rather than being sold or destroyed. The campus attorney should be consulted before any property is retained for department or university use.

A. Requests for acquisition for department or other public use of unclaimed property held by the department shall be made in writing and forwarded to the Chief of Police. All requests shall include complete justification for
acquiring the property and copies of all relevant department documents describing how the requested property came into possession of the department.

B. After a request has been approved by the Chief of Police, additional documents shall be obtained as described below when the property to be acquired is a firearm:

1. A certificate of weapon retention obtained from and signed by a judge or district attorney; and

C. Unclaimed property, which has been acquired by the department, shall be included on the department equipment and supplies inventory. The property controller shall maintain a list of property that has been acquired for department use, and a copy of the list shall be forwarded to the Chief of Police.

D. No property so acquired shall be used for personal purposes.

When the property is returned the employee and supervisor should sign and date the inventory list. The employee inventory list shall be kept current.

Memorandum

Subject: Clarification of Hate Violence Reporting Guidelines

Having reviewed the initial responses to AAES 93-07/BA 93-03, it is obvious that an element of confusion remains regarding the appropriate methodology for classifying occurrences of hate violence. In retrospect, it appears the confusion may be the result of terminology used in the materials provided with the original memorandum. What follows is both a clarification of terms for future use and suggested criteria that should be helpful in classifying and reporting hate type occurrences; the ultimate goal being systemwide consistency of reporting.

To minimize the potential for confusion that results from using multiple terms to characterize hate type occurrences, this office will henceforth utilize only two terms for this purpose, either HATE CRIME or HATE INCIDENT. These terms replace "criminal" and "non criminal" on the system report form (attached). You will note that designations in ARREST in CASE NUMBER which were inadvertently excluded have also been added to the revised form.

For ease in classifying reportable hate occurrences, the following definitions are restated:

**HATE CRIME** -- shall be defined as any act of intimidation, harassment, physical force, or the threat of physical force, directed against any person or family, or their property or advocate, motivated either in whole or in part by hostility to their ethnicity, race, national origin, religion, sex, sexual orientation, physical or mental disability, or political/religious beliefs with the intention of causing fear or intimidation, or to deter the free exercise or enjoyment of any rights or privileges secured by the Constitution or the laws of the United States or the State of California, whether or not performed under color of authority.

**HATE INCIDENT** - shall be defined as any of the types of acts defined above, where one or more of the elements of 422.6 PC may be missing, against any person or family or their property or advocate, motivated either in whole or in part by bias to their ethnicity, race, national origin, religion, sex, sexual orientation, physical or mental disability, or political or religious belief.

Given the two listed definitions, the determination of whether an activity is reportable as a HATE CRIME or HATE INCIDENT can be made by answering the following questions:

1. Was the hate activity directed at a specific target or victim (person, institution, business, etc.); and

2. Does the occurrence contain all necessary elements to constitute a violation of 422.6 PC?

If the answer to each of these questions is YES, then the determination will be that the incident is reportable as a HATE CRIME! If the answer to either of these questions is NO, the determination will be that the incident is reportable as a HATE INCIDENT!

Criminal violations that include elements of hate activity but are not directed at a particular person, institution, or business (do not have a specific target or victim) are only reportable as HATE INCIDENTS. The most common example of such hate incidents involve verbal comments or acts of vandalism (graffiti on walls, sidewalks, etc.) which reflect hate/bias feelings but are only directed generally and not at an identifiable victim. Although such incidents may constitute other criminal violations, for the purpose at hand they are reportable only as HATE INCIDENTS.

The ultimate test remains, did the incident in question include all the necessary elements to constitute a violation of 422.6 PC, in addition to any other criminal violation? If the elements of 422.6 PC have not been met then all such incidents are HATE INCIDENTS.

Hopefully, this added information will be helpful and serve to further simplify the procedure for accurately recording hate activities on CSU campuses. As an added measure, I am requesting that you review the previously submitted hate information and resubmit new reports for calendar year 1992 based on these revised guidelines.

I greatly appreciate your cooperation in clarifying these reporting guidelines. If either you or your staff have additional questions, please feel free to call this office.

Subject: AB 1094 (Polanco): Postsecondary Education: Hate Violence

The subject bill was chaptered in October 1991 (Chapter 585, Statutes of 1991, copy attached as Attachment A) and requires several actions by CSU at the campus and systemwide levels:

1. That “appropriate officials at each campus within their respective jurisdictions . . . compile records of all occurrences reported to police or campus authorities and arrests for crimes involving hate violence, as defined, and all occurrences of noncriminal acts of hate violence.”

2. That such campus officials report all such occurrences and crimes to the “appropriate governing body of the institution of higher education.”

3. That these governing bodies (e.g., the Board of Trustees) report annually to the California Postsecondary Education Commission (CPEC) by January 1 (commencing January 1, 1993) for the previous calendar year. CPEC in turn is to report to the Governor and Legislature by July 1, 1993, and every two years thereafter.

Distribution: Presidents
Directors, Public Safety
Chairs, Campus Senates/Councils
Presidents, Associated Students
Chancellor’s Staff
Legislative Analyst
Reports of non-criminal hate violence may be reported to personnel on campus other than campus public safety officers. To limit confusion, each campus should consider providing all students with an explanation of this alternative reporting option, complete with a list of campus officers to receive such information. This list, along with the referenced reporting procedure, should be included with other safety/crime information contained in already mandated Student Right-to-Know publications.

We urge student affairs, academic affairs, and other campus personnel who may be notified of such occurrences to review the circumstances of the incident with public safety to insure that the appropriate report is completed. For the sake of consistency, we suggest that reports of both criminal and non-criminal occurrences be reviewed, finalized, and reported by the campus department of public safety.

Beginning January 1, 1993, or as soon as possible thereafter, we request that campuses include with their monthly report of crime statistics to the Chancellor’s Office a summary of hate violence statistics occurring during the month just completed. Such statistics should also be included, using the definitions provided, as part of published reports of crime data called for in the state and federal legislation referenced earlier. By February 15, 1993, or as soon as possible thereafter, a report of hate crime statistics on the campus for the previous calendar year should be filed with this office.

The statistical reports should be sent to Mr. Thomas Fitzpatrick, Public Safety Administrator, in the Chancellor’s Office. Questions on the reports or legislation should be directed to Mr. Fitzpatrick at (310) 985-2697, or to Mr. Kenneth Simms, Associate Dean, Academic Affairs, at (310) 985-2949.

LEGISLATIVE COUNSEL'S DIGEST

Existing law requires the governing board of each community college district, the Trustees of the California State University, the Board of Directors of the Hastings College of the Law, and the Regents of the University of California to require the appropriate officials at each campus within their respective jurisdictions to compile records of all occurrences reported to police or campus authorities, and arrests for crimes involving violence, theft or destruction of property, or illegal drugs or alcoholic intoxication that occur on the campus.

This bill would require the governing bodies of these institutions of public higher education to require the appropriate officials at each campus to also compile records containing specified information of all occurrences reported to police or campus authorities and arrests for crimes involving hate violence, as defined, and all occurrences of noncriminal acts of hate violence.

The bill would also require the appropriate officials at each campus to report all occurrences and crimes involving hate violence to the appropriate governing body of the institution of public higher education. The bill would require these governing bodies to transmit a report regarding this compiled information to the California Postsecondary Education Commission no later than January 1 of each year, commencing January 1, 1993, and to submit a report containing specified information to the Legislature and the Governor on July 1, 1993, and every 2 years thereafter.

The people of the State of California do enact as follows:

SECTION 1. Section 67380 of the Education Code is amended to read:

67380. The governing board of each community college district, the Trustees of the California State University, the Board of Directors of the Hastings College of the Law, and the Regents of the University of California shall do all of the following:
(a) Require the appropriate officials at each campus within their respective jurisdictions to compile records of both of the following:
(1) All occurrences reported to campus police or safety
Attachment B

HATE MOTIVATED CRIMES/INCIDENTS
POLICY AND PROCEDURE

I. PURPOSE

A. The campus Department of Public Safety is charged with ensuring that the rights guaranteed by state law and the U.S. Constitution are protected for all people regardless of their ethnicity, race, national origin, religion, sex, sexual orientation, disability, or political/religious beliefs.

II. GENERAL

A. When such rights, as described in I.A. above, are infringed upon by violence, threats, or other harassment, the Department will use every necessary resource to identify the perpetrators, arrest them, and bring them before the court.

B. All acts of hate-motivated violence or threats will be viewed as serious, and the investigations will be given priority attention. Such acts generate fear and concern among victims and the public, and have the potential for recurring, escalating, and possibly causing counter-violence.

III. DEFINITION

A. Hate-Motivated Crime (criminal occurrences of hate violence) shall be defined as any act of intimidation, harassment, physical force, or the threat of physical force directed against any person or family, or their property or advocate, motivated either in whole or in part by hostility to their ethnicity, race, national origin, religion, sex, sexual orientation, physical or mental disability, or political/religious beliefs with the intention of causing fear or intimidation, or to deter the free exercise or enjoyment of any rights or privileges secured by the Constitution or the laws of the United States or the State of California, whether or not performed under color of authority.

B. Hate-Motivated Incident (non-criminal occurrences of hate violence) shall be defined as any of the types of acts defined above,
a. Respond to the scene, interview the patrol officer and confirm whether or not a Hate-Motivated Crime or Incident has occurred.

b. Take whatever steps are necessary to ensure that the situation does not escalate.

c. Assist in stabilizing the victim.

d. Supervise the preliminary investigation.

e. Ensure the patrol officer initiates the police report and reviews the completed report.

2. The field supervisor shall notify the Director of Public Safety of the incident in a timely manner.

3. The field supervisor shall also notify the investigator as appropriate for possible follow-up action.

D. Investigator

1. The investigator shall:

a. Conduct a thorough follow-up investigation consistent with Department policy and procedure, if required.

b. Keep the Patrol Sergeants informed of the progress of the investigation.

c. Prepare the case for prosecution in court or monitor its preparation.

E. Records Division

1. The Records Manager shall:

a. Ensure that all Hate-Motivated Crime or Incident statistics are reported in accordance with State and federal law.

b. Maintain a file and log of all Hate Crimes and Incidents.
RESPONSE TO HATE MOTIVATED CRIMES AND INCIDENTS

I. INTRODUCTION

A. Investigation of hate motivated crimes and incidents is a priority with the Department of Public Safety as outlined in Department policy _____. Such a response is necessary to assure our community that racism and violence will not be tolerated, and that perpetrators of such crimes will be brought to justice.

B. This training bulletin provides:
   1. Guidelines for identifying and investigating reportable crimes and incidents.
   2. The outlines of the criminal and civil statutes involved.
   3. The resources to which victims can be referred for assistance.

II. DEFINITIONS

A. Reportable Hate Motivated Crime: Any criminal act or attempted criminal act intended to cause physical injury, emotional suffering, or property damage which is or appears to be motivated, all or in part, by race, ethnic background, national origin, religious belief, sex, age, disability, sexual orientation, or political affiliation.

B. Reportable Hate Motivated Incident: Any non-criminal act directed at any person or group based upon any of the nine categories listed in II.A. above.

C. Motivation: Incentive, inducement, desire, emotion, or similar impulse resulting in some type of action.

D. Race: Any group or class of individuals with common characteristics distinguished by form of hair, color of skin and eyes, stature, bodily proportions, etc., that are genetically transmitted to classify it as a distinct human type.
7. *Interrupting or disturbing religious, ethnic/cultural, political, or other meetings:* directed at person(s) because of their race, religion, ethnic background, etc.

8. *Possession of a firearm in proximity of public demonstration:* which occurs at a public demonstration for racial religious, ethnic, etc., purposes.

9. *Unlawful use of the telephone:* which is directed at person(s) because of their race, religion, ethnic background, etc.

D. A non-criminal act or incident, while not criminal, is done with the apparent intention to:

1. Harass,
2. Intimidate,
3. Threaten,
4. Retaliate,
5. Create conflict,

because of any person’s race, religion, ethnic background, etc. The key criterion in determining whether or not any crime or incident fits into the definition of bias based upon race, ethnic background, national origin, religion, gender, age, disability, sexual orientation, or political affiliation is the motivation behind the incident. Reports of such incidents are taken because there is a potential for reoccurrence and/or escalation into a criminal act. Have there been any civil rights violations as detailed in the California Civil Code sections 51, 51.5, 51.7, or 52?
Campus Sex Offender Registration Guidelines

Penal Code section 290.01, governing sex offender registration on campus, was enacted effective October 28, 2002. (Stats. 2001, c. 544 (A.B. 4), § 2.) The federal Jacob Wetterling Act (42 U.S.C. § 14071), as amended by the Campus Sex Crimes Prevention Act (the “CSCPA”), Pub. L. 106-386, div. B, Sec. 1601, 114 Stat. 1464, 1537 (2000), required the states to mandate sex offender registration and notification at institutions of higher learning. In accordance with federal law, California law requires certain sex offenders to register on campuses of universities, colleges, community colleges, or other institutions of higher learning. The following guidelines are intended to assist campus police departments and local law enforcement agencies with jurisdiction over campuses which do not have campus police departments, as defined below. The guidelines address the law governing registering sex offenders on campus, and explains the law regarding notification to the campus community.

1. Who Must Register on Campus
   
   A. Penal Code section 290.01 Registration

   Persons who have a duty to register pursuant to Penal Code section 290 in the jurisdiction where they reside or are transient\(^1\) also have a duty to register with a campus police department under Penal Code section 290.01 if:

   1. The registrant lives at a residence on campus.
   2. Theregistrant is enrolled at the campus, either full-time or part-time.
   3. The registrant is employed by the campus, either full-time or part-time (with or without pay).
   4. The registrant is carrying on a vocation on the campus.

   a. “Carrying on a vocation” on the campus means that the person works on the

---

\(^1\)The transient registration law (Pen. Code, § 290, subd. (a)(1)(C)) was amended by A.B. 2527 in 2004, and the new law is effective on January 1, 2005. These Guidelines were written in September 2004, but they refer to the provisions of the new transient registration law.
campus, even though he is not employed by the campus itself. For example, persons who are employed by an independent contractor which runs a printing press or cafeteria/other food services on the campus are persons who are “carrying on a vocation” on the campus. Similarly, persons working on a construction crew on campus, or in a campus bookstore, are carrying on a vocation on the campus.

b. The terms “employed or carries on a vocation” include employment whether or not it is financially compensated, volunteered, or performed for government or educational benefit. The registrant must be employed, or carrying on a vocation, on the campus over 14 days in a calendar year or more than an aggregate of 30 days.

5. The registrant is a volunteer on the campus.

6. The registrant is a transient sex offender who is physically present on (living on), enrolled, employed, a volunteer, or carrying on a vocation on the campus. If his enrollment, employment, or vocational status requires it, a transient sex offender must register with the campus police department in addition to the local jurisdiction where he registers every 30 days. If the campus is a place a transient registrant occasionally frequents, but he is not living there and he does not have the status of being enrolled, employed, a volunteer, or carrying on a vocation on campus, the transient need only list the campus as a place he frequents on his registration with the local jurisdiction in which he registers every 30 days.

Examples of places a transient may “frequent” on a campus are the track or other physical education facilities, as well as the library or cafeteria.

7. The Department of Education defines an institution of higher education as being one that (1) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate; (2) is legally authorized to provide a program of education beyond secondary education; (3) provides an educational program for which the institution awards a bachelor’s degree or provides not less than a 2-year program that is acceptable for full credit toward such a degree; (4) is a public or other nonprofit institution; and (5) is accredited by a nationally recognized accrediting agency or association, or if not so accredited, is an institution that has been granted pre-accreditation status, and the Secretary has determined that there is satisfactory assurance that the institution will meet the accreditation standards. Alternately, the term “institution of higher education” also includes
(1) any school that provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and that meets the provision of paragraphs (1), (2), (4) and (5), and is a public or nonprofit private educational institution that, in lieu of the requirement in (1) (requiring a high school diploma or its equivalent), admits as regular students persons who are beyond the age of compulsory school attendance in the state in which the institution is located.

Registered sex offenders who reside in states other than California, but who come into California to attend an institution of higher learning must register with the local police or sheriff’s department having jurisdiction over the campus. Such students must register whether enrolled full-time or part-time. (Pen. Code, § 290, subd. (a)(1)(G).) The registrant must provide his or her out-of-state residence address on the registration form. Local agencies should send a copy of the registration form to the campus police department as a courtesy.

C. Registration of Persons Living on Campus under Penal Code § 290(a)(1)(A) or § 290(a)(1)(C)

If the campus of the University of California, California State University, or community college is a place the registrant lives (has a residence address or is physically present as a transient), Penal Code section 290, subdivision (a)(1)(A) or (C) requires him to register with the campus police department in addition to the jurisdiction where he resides or is physically present as a transient.

2. Duty to Register Both in Local Jurisdiction and Campus Police Department
Campus registration is intended to ensure that the campus knows about all sex offender registrants connected with the campus. The registrant’s primary registration duty is to register with the police or sheriff’s department of the jurisdiction where he or she resides, or to register as a transient every 30 days. Thus, a registrant who additionally must register on campus has a duty to register in two places: campus and jurisdiction of residence (or where physically present as a transient). A registrant who has a duty to register on campus must register with the campus police department, or with the local jurisdiction (sheriff’s department or police department) having jurisdiction over the campus if the college or institution of higher learning does not have its own police department, as defined by these Guidelines. If a campus police department does not have CLETS update capability, it can mail the registration form (DOJ SS 8102) to DOJ, and DOJ will input the registration into VCIN.

3. Limited Registration Duties at College Police Department Are Based on Changes In the Registrant’s Enrollment or Employment Status

Campus registration is a secondary duty, meaning that the registrant who is required to register on campus need fulfill only limited requirements. A registrant on campus must register with the campus police department within 5 working days of beginning his or her status requiring campus registration (i.e., enrollment, employment), and notify the campus police department within 5 working days when that status no longer exists. The registrant on campus has no duty to do the annual update, transient update, or sexually violent predator update at the campus police department. These should be done at the local police or sheriff’s department having jurisdiction over the offender’s place of residence. The registrant’s primary duty at the campus police department is to notify it when his enrollment or employment, etc., status on campus begins and ends.

4. Change of Address, Registration Updates Are Done at the Primary Registering Agency

Changes of address and registration updates should be done with the police or sheriff’s department having jurisdiction over the area where the registrant lives or is a transient.
Thus, the annual, transient or sexually violent predator updates are done at the primary registering agency, not the campus police department. If a registrant changes his residence address, the registrant must notify the police department or sheriff’s department having jurisdiction over the residence address, and need not notify the campus police department. In other words, the registrant must notify the last registering agency that he is moving, and must register in the new jurisdiction, if any, within 5 working days, but he need not notify the campus police department of the address change. This is true even if the registrant lives or is a transient on the campus. His primary registering agency is the local law enforcement agency having jurisdiction over the area in which the campus is located. Campus police will be able to see the registrant’s address change and updates by checking VCIN, the Megan’s Law Web Application, or in 2005, on the Megan’s Law Internet Web site if the registrant is in the category of offenders who have addresses displayed on the Internet. Additionally, local agencies doing address changes on registrants who are also registered at a campus police department should send a copy of the registration form showing the new address to the campus police department as a courtesy.

5. Campus Police Department Defined

A campus police department is a POST-certified police department, which has primary responsibility for investigating crimes occurring on the campus on which it is located. The University of California, California state universities and community colleges are authorized by statute to maintain campus police departments. (See Educ. Code §§ 72330, 89560, 92600; see also Pen. Code, § 13507.) In contrast, some colleges contract for security services. Security officers cannot conduct sex offender registration; registrants must be sent to the local police or sheriff’s jurisdiction to register. If the campus contracts with a local law enforcement agency, which provides sworn peace officers to the campus, those officers may conduct registration provided there is a campus police department office at which registration can be conducted. If there is no on-campus police department, the registrant will not know he was supposed to go to the contract agency to register, and cannot be required to do so. In the absence of an on-campus
police department staffed by peace officers or deputized or appointed personnel with peace
officer status (Pen. Code, § 830.6), the registrants must register with the local agency having
jurisdiction over the campus. Few campuses at private institutions have police departments
which meet these requirements.

6. Duty to Register On Campus When Enrolled On Campus

a. Enrollment During a Regular School Year Session

A student is “enrolled,” for purposes of the registration law, on the day the first quarter or
semester of enrollment begins, and he or she must register within 5 working days of that date.
Thereafter, if the student remains enrolled for the next regular semester or quarter, he does not
need to notify the campus police department of any status change. The summer session does not
count as a regular semester or quarter, and if a registrant is present spring semester/quarter and
will return fall semester/quarter, the registrant does not have to come in at the end of the spring
term to notify the department he or she is leaving for the summer, nor does the registrant have to
re-register with campus police at the beginning of the next regularly-scheduled term. However,
if the registrant does not re-enroll for the next regular session during the school year (fall, winter,
spring), he must notify the campus police department within 5 working days of the last day of the
semester/quarter that he was enrolled that he will be absent the following semester or quarter.

b. Enrollment During or Beginning in Summer Session

A student may become enrolled just for a summer session, or may begin enrollment
during the summer session. If so, he or she has a duty to register within 5 working days of the
beginning of that summer session. If the registrant continues without a break into the next
regular session (fall quarter or semester), he or she need not re-register on campus.
c. Breaks in Enrollment

When the registrant re-enrolls after a break in attendance (not just a vacation break over a holiday or spring break), he or she must re-register with the campus police department within 5 working days of the first day of that new semester or quarter.

A student is enrolled at the campus even if he takes a class on-line, and the class meets at a location off the campus. He has a duty to register due to his enrollment status. If a campus offers on-line classes which never meet in person, the statute still requires students who have enrolled to register as sex offenders with the campus police department.

7. Interviewing Campus Registrants

A campus police department may wish to interview a registrant regarding places he frequents on or near the campus. Registrants will often cooperate and respond to questions about their schedules or places they go on or near the campus. If the registrant is a child molester, you may want to warn the registrant to avoid areas where children are present, such as a playground near married student housing or a campus day care center, in order to avoid any misunderstandings. However, the registrant is legally required to give only the information required by the DOJ registration forms, as specified in Penal Code sections 290 and 290.01, so any additional information cannot be compelled by the campus police department. Federal law may prevent the campus police department from obtaining the registrant’s academic schedule, so if the registrant refuses to provide it voluntarily, the campus police department may have to find other legal ways to obtain relevant information about where the offender can be found on campus. For example, if the registrant is on probation or parole, the campus police department can work with the probation or parole officer, who have the right to compel a registrant to disclose his academic schedule. Registrants often have conditions of probation or parole which
are relevant to their campus schedules. For example, if there is a condition that they stay away from minors, it could be a violation of parole or probation to take a class or act in a campus play in which minors are present. In one case, a registrant with violent offenses against women was found to be taking a bra-making class, in violation of a parole condition. If the college holds classes on high school campuses, the registrant may also be in violation of a parole or probation condition for attending a class there.

8. Registration Information Sent to DOJ via CLETS

In most cases, the campus police department or local registering agency should send the registration information via a CLETS (California Law Enforcement Telecommunication System) terminal to the Department of Justice. (See above where agency is both primary registering agency and college registering agency for exceptions.) The agency must maintain hard copies of the registration records in a secure, locked file. If the campus police department has no CLETS terminal, it must arrange with another law enforcement agency to send the information on a daily basis via CLETS to DOJ. Alternatively, the campus police department can fax or send the registration form to DOJ if it has no CLETS update capability. Be aware that if the information is sent via another agency’s CLETS terminal, it will bear the ORI (originating agency identifier), which is the number of the transmitting agency, making it more difficult for DOJ to statistically determine the number of registrants at a particular campus. Be aware that mailing a registration form will delay the entry into VCIN. A telephone call to DOJ advising it that the agency has mailed a new campus registration on a registrant may help expedite processing when it arrives.

9. Penalties for Violation of the Campus Sex Offender Registration Law
Violations of the campus sex offender registration law are misdemeanors. The first violation is punishable by a fine not to exceed $1,000. The second violation is punishable by imprisonment in county jail not to exceed six months, or by a fine not to exceed $1,000, or both. Third and subsequent violations are punishable by imprisonment in county jail not to exceed a year, by a fine not to exceed $1,000, or by both. (Pen. Code, § 290.01, subd. (d)(1)(A).)

10. Megan's Law/Public Notification on Campus

Federal law now requires the states to post information about registered sex offenders, as to whom public information is available, on the Internet. (42 U.S.C. § 14071, subd. (e)(2).) Beginning on or before July 1, 2005, the California Department of Justice will maintain an Internet web site which will display the names, addresses and zip codes of specified registered sex offenders. (A.B. 488, enacting Pen. Code, § 290.46, effective fall 2004.) While registering agencies will continue to receive the Megan's Law Intranet web application, it is anticipated that legislation in 2005 may eliminate the public side of the web application, since it is being replaced by the public Internet web site.

Due to limitations in the sex offender registration computer database, Megan's Law is not able to disclose the fact of campus registration on the Internet web site, so only law enforcement personnel will know whether a particular registrant has also registered at a campus, by checking its own registration records. Note that the fact of campus registration must be entered in the comment field on VCIN, and that a subsequent comment replaces the previous comment. Since the fact of campus registration can be overwritten, VCIN does not reliably indicate all the names or numbers of registrants on a particular campus. Thus, if a comment regarding campus registration does not appear on VCIN, the registrant may still be registered on a campus. (See Information Bulletin 03-14-BCIA, available to law enforcement agencies on the California Law
If the campus police department determines that a disclosure should be made regarding a sex offender on campus, the agency must follow the statutory provisions for Megan’s Law notifications on campus, as provided in Penal Code section 290.01 and 290.45. The campus police department or agency acting as such, and its employees, are immune from civil or criminal liability for good faith conduct in conducting notifications on registered sex offenders on campus. (Pen. Code, § 290.01, subd. (d)(2).)

As of fall 2004, campus police may not simply hand out a list of all registered sex offenders on campus, even to the administration of the campus. This is because Penal Code section 290.45 still requires the campus police department to determine whether serious sex offenders are posing a risk, and to notify only those persons or organizations they are likely to encounter. This assessment must still be made before notification to anyone in the campus community, including administrators, can be notified about serious sex offenders on campus.

There are no such limitations on disclosure on high risk offenders under Penal Code section 290.45, or to other offenders as to whom the campus police may make a disclosure to the campus community under Penal Code section 290.01 (i.e., no risk determination or restriction of notice to those likely to encounter the offender.) However, section 290.01 does limit the scope of disclosures about all campus registrants, which are made by the campus police agency, to the campus community.

a. **Who is Subject to Notification on Campus?**

Campus police departments are authorized to notify the campus community about any registered sex offender on campus. They are not required to do so under either state or federal law. However, the college must provide a statement advising the campus community
where law enforcement agency information provided by the state concerning registered sex offenders may be obtained. (Draft, Handbook on Clery Act Compliance, U.S. Department of Education.) Thus, the campus community should be advised of where it can view the Megan’s Law Intranet Web application currently, and when operative, of the address of the DOJ Internet Web site. Disclosures are currently governed by Penal Code section 290.45 (serious and high risk offenders) and Penal Code section 290.01 (other offenders). The department should document its reasons for notification on a registered sex offender, as well as the scope, means and dates of dissemination, and keep the record for a minimum of five years. The documentation is not a public record (so don’t pull a case number) and should be kept in a locked confidential file on the registrant. The law in this area may change in 2005, but at the time of this writing, the following criteria apply:

(1) **High risk sex offenders.** The campus police department/local registering agency with jurisdiction over the campus may notify the campus community about high risk sex offenders registered on campus. (Pen. Code, §§ 290.01, subd. (d)(3); 290.45, subd. (b).) High risk offenders are those who have committed a serious sex offense listed in Penal Code section 290.4, subdivision (a), and who have also committed other violent offenses, as defined in Penal Code section 290.45, subdivision (b). Note that notification on all sex offenders by campus police departments (or agencies acting as campus police) is limited to the campus community--so the area of notification is much narrower than if the disclosure on a high risk offender is being made by the agency having jurisdiction over his or her residence.

(2) **Serious sex offenders.** The campus police department/local registering agency with jurisdiction over the campus may notify the campus community about a serious sex offender registered on campus if a peace officer reasonably suspects, based on information provided by a
peace officer or member of the public, that a child or other person may be at risk from the offender. Serious sex offenders are those whose offenses are listed in Penal Code section 290.4, subdivision (a). Notification is limited to persons the offender is likely to encounter. For example, the department can post fliers on areas of campus which the offender is likely to frequent, or personally notify teachers or students in the registrant’s classes, or notify agencies and organizations that primarily serve individuals likely to be victimized by the offender (e.g., a campus child care center when the offender is a child molester). The department may also give in-person notice to persons at risk. For example, if a registrant lived in on-campus housing, the department could personally notify persons living or working in that housing. (Pen. Code, § 290.45, subd. (a).) Again, notice is limited to the campus community.

(3) Other sex offenders. Effective January 1, 2004, California law authorizes campus police departments, or local agencies acting as a campus police department, to notify the campus community regarding registrants who are not otherwise subject to public notification. These offenders are displayed on the law enforcement side of the Megan’s Law web application and includes any offender who is not classified as high risk or serious in Penal Code section 290.4, subdivision (a). “Other” sex offenders are required to register pursuant to Penal Code section 290 but are not displayed on the public side of the Megan’s Law web application. A similar category of offenders will not be displayed on the Internet Web site. The department should document its reasons for notification on a sex offender in this category, and keep the documentation in its files.

b. What Information Can Be Disclosed?

(1) High risk and serious sex offenders. The following information can be disclosed about high risk and serious sex offenders registered on campus, at the discretion
of the disclosing agency: the offender’s full name; known aliases; gender; race; physical description; photograph; date of birth; crimes resulting in registration under section 290; home address, if verified prior to disclosure; description and license plate number of vehicles the offender is known to drive; type of victim targeted by the offender; relevant parole or probation conditions, such as one prohibiting contact with children; dates of crimes resulting in classification under section 290; date of release from confinement; and enrollment, employment or vocational status with a college, university, or institution of higher learning. (Pen. Code, § 290.45, subd. (a).)

(2) Other sex offenders. The following information can be disclosed about other registered sex offenders on campus, at the discretion of the disclosing agency: the offender’s full name; known aliases; gender; race; physical description; photograph; date of birth; crimes resulting in registration under section 290; and the date of last registration or re-registration. (Pen. Code, 290.01, subd. (d).) Note that under the campus notification law, the department or agency cannot disclose the home address and other information about an “other” sex offender which can legally be disclosed about serious and high risk offenders.

c. What Is the “Campus Community”?

The campus sex offender registration law defines the “campus community.” (Pen. Code, § 290.01, subd. (d)(5).) A campus police department or agency acting as a campus police department can make notifications under Megan’s Law only to the campus community. “Campus community” means those persons present at, and those persons regularly frequenting, any place associated with an institution of higher education, including campuses; administrative and educational offices; laboratories; satellite facilities owned or utilized by the institution for educational instruction, business, or institutional events; and public areas contiguous to any
Federal law required that notification be available on all registered sex offenders on campus. Enacted later than the general Megan’s Law notification statute, the authorization in Penal Code section 290.01 for notification on “other” sex offenders does not contain the restrictions in Penal Code section 290.45 that apply to notification about serious sex offenders. However, note that the type of information that can be given to the campus community about other sex offenders is more limited than the information that can be disseminated on high risk and serious offenders pursuant to Penal Code section 290.45.

11. What About Registrants Working With Minors On Campus?

Penal Code section 290.95 prohibits sex offender registrants whose sex crime was against a victim under age 16 from working with minors as an employee or volunteer, if the registrant will be working with minors directly and in an unaccompanied setting on more than incident or occasional basis or has supervisory or disciplinary power over the child. This pretty much eliminates professors, lecturers, graduate student teaching assistants, coaches, etc., with a conviction involving an under-16 victim, from working or volunteering on campus if there will be any minor in their class, T.A. section or on a sports team. If the registrant’s crime was not against a victim under age 16, the registrant must notify his employer (e.g., the campus or independent contractor) or the volunteer organization of his status as a registrant.

TO: ALL CALIFORNIA LAW ENFORCEMENT AND OTHER CRIMINAL JUSTICE AGENCIES

This is to inform you of changes made to the Violent Crime Information Network (VCIN) by the California Department of Justice (DOJ), which affect the entry, update, and inquiry of sex and arson registration information.

As background, in 1996, the DOJ implemented an interface between the California Law Enforcement Telecommunications System (CLETS) and VCIN to enable agencies to directly enter, update, and inquire on sex/arson registration information. Effective January 1, 1999, Penal Code (PC) section 290(a)(1)(F) required all agencies to enter sex offender registrations, annual updates, and changes of address directly into VCIN via CLETS. As a result of subsequent legislation and revisions to the sex offender registration process, conforming changes have been made which impact the use of the VCIN/CLETS interface for submitting and inquiring on registration information.

“Miscellaneous (MIS)” Data Field Comment

Agencies are required to enter a specific comment into the VCIN/CLETS MIS field under certain conditions. This applies when the entries of either ASC (associate) and BUS (business) are made to the “Type of Address (TAD)” field, and the “Source of Address (SAD)” is REG. This requirement also applies when “290” is entered into the “Offense (OFF)” field. Following are guidelines:

TAD/ASC - This TAD shall be used whenever a sex offender is registering a concurrent address pursuant to section 290(a)(1)(B) PC. Because of the importance of establishing a date connected with this concurrent address, enter the following comment:

MIS/CONCURRENT REGISTRATION DATE IS MM/DD/YYYY

TAD/BUS - This TAD shall be used for either address information for a registrant’s employer or a campus registration address if the registration is pursuant to section 290.01 PC. Because such information is important in monitoring a sex offender’s whereabouts, enter one of the following comments as applicable:

(Employer Address)
MIS/EMPLOYMENT DATE IS MM/DD/YYYY (date of signature on the SS-8102 form)
REGISTRANT EMPLOYED BY (enter name of employer)
Information Bulletin
Violent Crime Information Network (VCIN)-
Entry of Sex/Arson Registration Information

Page 2

(Education registration address/attending - sex registration only)
MIS/CAMPUS REGISTRATION DATE IS MM/DD/YYYY (date of signature on the SS-8102 form) REGISTRANT ATTENDING (name of the educational institution)

(Education registration address/employed on campus - sex registration only)
MIS/CAMPUS REGISTRATION DATE IS MM/DD/YYYY REGISTRANT EMPLOYED BY (name of educational institution)

"290" Offense - A "290" offense should only be entered when a sex offender who is required to register has one of the following: 1) an out-of-state conviction; 2) a court ordered registration for an offense not listed in section 290 PC; or 3) a juvenile court conviction with a CYA commitment. Select the most appropriate comment to enter:

MIS/OUT OF STATE CONVICTION (enter state where conviction occurred and the literal description of the conviction offense)

MIS/COURT ORDERED REGISTRATION PER 290 (a)(2)(E) PC (enter conviction charge and court of conviction)

MIS/JUVENILE COURT CONVICTION CYA COMMITMENT (enter the conviction charge)

Failure to enter a comment in the MIS field in these instances will result in one of the following messages being displayed:

AN ADDRESS WITH TAD OF ASC OR BUS AND SAD OF REG REQUIRES A COMMENT
OFFENSE CODE OF 290 REQUIRES A COMMENT

Fingerprint (FP) Card Notation

A new notation appears at the top of all VCIN inquiry responses indicating whether or not a registration FP card has been received by the DOJ for that sex offender record. This notation serves to inform agencies if they should submit a fingerprint card as part of the registration process. One of the two following messages will be displayed:

DOJ FP CARD REQUIRED

DOJ FP CARD NOT REQUIRED

Note: Only the BCII-5 (Registration Fingerprint Card) is to be used for sex/arson registration.
Termination of Record

In certain cases, a sex offender’s VCIN record may be removed by DOJ based on court documents indicating that the offender is no longer required to register. One of the following VCIN messages will appear when an agency attempts to either: 1) update a removed record, or 2) inquire on a removed record.

UNABLE TO UPDATE RECORD. LATEST REG EVENT IS DEATH/REMOVED
NO HIT - RECORD REMOVED

Registration/Update Dates

Agencies no longer need or are able to simultaneously enter registration and update events with the same date. This has occurred when a sex offender reports both for an annual update and to change his/her address. The agency will need to enter only the new registration address with the “Date of Registration (DOR)” data field as reflected at the bottom of the SS-8102. Supplemental information should not be entered into the “Date of Annual Update (DAU)” in VCIN. The VCIN will recognize the DOR transaction as an update, as well as a change of address.

One of the following VCIN messages will appear when an agency attempts to either: 1) enter the same date into the DAU field that has been entered in the DOR field; or 2) enter the same date into the DOR field that has been entered in the DAU field:

UPDATE HAS SAME EVENT DATE AS REGISTRATION
REGISTRATION HAS SAME EVENT DATE AS UPDATE

Agencies that do not currently have access to CLETS for the purpose of submitting registration information to VCIN should contact DOJ’s Communications Administration Section at (916) 227-3677 or by using e-mail via the California Law Enforcement Web (CLEW) at http://justice.hdedojo.net.state.ca.us/clew. If necessary, agencies may obtain a CLEW user account at this Web site. In addition, CLEW contains copies of registration forms, as well as the VCIN/CLETS User Guide.

If you have any questions regarding this Bulletin, please contact DeeAnn Mendoza, Sex Offender Tracking Program, at (916) 227-5211 or via e-mail at DeeAnn.Mendoza@doj.ca.gov.

Sincerely,

DOUG SMITH, Deputy Director

b. Checking the status of other units.
c. Communicating car to car.
d. Logging out of service for a detail, break, dinner or court appearance.

4. Officers must use the radio to notify the Communications Center of all traffic stops, suspicious circumstances, and other activity they self initiate.

C. Dispatching

1. The Communications Center dispatches priority and non-priority calls to officers via the radio. Once calls are created in RIMS, officers are able to see pending calls and information entered into the CAD. Officers responding to, or clearing from, calls must use the radio to acknowledge their response or change in status.
2. Officers are able to attach themselves to a pending or active call, if not assigned to it, and likewise able to clear themselves via use of the MDT. Officers should still use the radio to advise of their change in status for dispatch and for units in the field not by an MDT.
3. Officers should refrain from routinely making requests to the Communications Center to dispatch them on specific pending calls.

CI. Mobile Data Terminal Security

1. The Information Technology Systems Consultant issues each employee a security password to access the computer system. The computer system will prompt each employee to change his password every sixty (60) days.
2. If an employee feels that someone knows his password, he should change it immediately.
3. Personnel logging onto the computer system, via a Mobile Data Terminal, are responsible for the dissemination of all information that anyone accesses through their MDT and for all information that anyone enters through their MDT.
4. When leaving a vehicle equipped with a Mobile Data Terminal unattended, employees must use the lock function on their MDT.
5. MDT’s should remained physically locked in each patrol car unless the car is going in for maintenance. A key for each MDT is available from the Information Technology Systems Consultant. When an MDT is removed from a vehicle it should be taken to and stored in the Information Technology Systems Consultant’s office.
6. Employees will not have access to install or alter any software on the MDT’s nor will they be able to adjust any system security settings. If an employee wishes for additional software to be installed or a system setting to be changed, it must be approved and installed or adjusted by the Information Technology Systems Consultant. The MDT’s will log any attempt to bypass established security in the system log.

The purpose of this Chapter is to set forth guidelines for access control over automated systems and procedures which allow for the release of state and local summary criminal history information and police reports to authorized agencies and individuals. This chapter consists of four areas dealing with records such as, security, release, creation and retention.

Reference to Authority

The following publications should be obtained and the statutes and regulations implemented on each CSU campus:

California POST Manual-Law Enforcement Records Management

California Criminal Records Security Statutes and Regulations issued by the California Department of Justice, May 1998.

Department of Defense Password Management Guideline

State Administrative Manual Section 4840

Access

Each CSU police department should have a policy in place that lists the authorized users of the California Law Enforcement Telecommunications System and each user should have their own access identification code. The policy should include a mechanism to ensure that all dispatchers, dispatch supervisors and any other employees who access the automated system are familiar with the above publications and regulations.

The Department of Defense Password Management Guide should be consulted regarding the recommended minimum length of password characters, the maintenance of a password history to prevent misuse, and procedures to log off users after a predetermined time.
Chapter 5

State Administrative Manual Section 4840 requires the implementation of a plan to limit access to state agency assets to authorized personnel who require these assets in the performance of their assigned duties.

The following guidelines should assist in developing a campus policy:

**Security and Release of Criminal Offender Record Information**

I. **Purpose**

The purpose of the guideline is to establish departmental policy and procedures pertaining to the retention and dissemination of summary criminal offender record information.

II. **Policy**

A. The CSU police departments will control the release and dissemination of summary criminal history records to prevent the improper use of criminal history information.

B. The Records Manager of each department should be designated as the Criminal Records Security Officer.

III. **Responsibility of Departmental Employees**

Employees of the department who are in possession of criminal history records shall be responsible for the security of those records. Under no circumstances shall an employee disclose the contents of any criminal history record to any person except as provided in this Chapter. (Penal Code Section 11142)

IV. **Dissemination of CORI to Authorized Agencies and Persons**

A. The Records Manager shall maintain a current list of authorized agencies and/or persons who may have access by review or release, to CORI within the parameters of Penal Code Sections 11105 and 13300.

B. Employees of the department may allow review or release of Department of Justice (DOJ), Department of Motor Vehicles (DMV), or local CORI to authorized persons or agencies when the data is required for official purposes.

C. CORI requests for employment, licensing or certification shall be referred to the Department of Justice.
V. Release Procedures

A. All requests for CORI intended for second party releases must be documented on the Criminal History Log.

1. The Records Section will retain all entries and the Criminal History Log for a period of not less than three years.

2. Electronic requests will contain appropriate identification of the requestor and reason for the request. The Department of Justice records the CORI requests and retains the information for not less than three years.

B. Criteria for Release:

1. Right to Know - CORI will be released only to persons or agencies authorized by law to receive the information.

2. Need to Know - CORI release is based on the necessity to obtain criminal offender record information so that official responsibilities may be executed.

3. Summary criminal offender record information of any type may be released or reviewed only when BOTH the right-to-know and the need-to-know have been established and documented.

C. Reproduction of CORI:

1. All copies of CORI produced by the department should be stamped on each page with the appropriate red ink stamp that identifies who received the information.

2. Hard copies of CORI shall not be attached to case records except by agreement with the district attorney or the courts.

VI. Record Keeping and Security of CORI

A. Audit Requirements:

1. A written or electronic record shall be maintained for each request and/or release of summary criminal offender record information. The record shall contain:

   a. of request or dissemination
   b. name of the agency and/or person requesting and/or receiving information
   c. extent (description) of the information provided, and
Chapter 5

d. manner the information was provided or transmitted.

2. The Department of Justice, as agent for the National Crime Information Center (NCIC) will audit the release of CORI information on a regular basis. The Records Manager shall ensure compliance with the requirements of an audit and assist the department in responding to an audit.

B. Security:

1. All criminal offender record information shall be stored in a secure area with access restricted to authorized personnel.

2. All computer terminals that have access to State CORI must be protected from public view or public access in accordance with CLETS policies.

3. All juvenile records should be maintained in files, designated as “Juvenile Records” by year. Fingerprints, photographs, and all related documents pertaining to any case involving juveniles will be maintained in this record file.

C. All employees who have access to CORI shall pass a background check, including fingerprint verification by the Department of Justice.

1. Pursuant to Penal Code Sections 11142 and 13303, any person authorized by law to receive a record or information obtained from a record who knowingly furnishes the record or information to a person who is not authorized by law to receive the record or information is guilty of a misdemeanor.

2. The department will retain a signed Employee Statement form regarding the Use of Criminal Justice Information (Figure 111-6, on page 111-22, in the POST Records Management Guide) for each employee who has access to CORI.

D. Destruction of Criminal Offender Record Information:

1. Every employee of the department is responsible for destroying printed CORI documents to the point that any reconstruction of the record is impossible. Employees shall destroy written court documents when no longer needed as an attachment to a report.

2. Printed CORI shall be returned to the records section for destruction/shredding when no longer needed.
PUBLIC RECORDS RELEASE

I. Purpose

The purpose of this section is to establish guidelines for compliance with the California Public Records Act, the California Penal Code and other applicable laws and court decisions concerning the release of public records information.

II. Policy

A. It is the policy of the CSU police departments to comply with the law regarding disclosure of public records, which may be included in day-to-day service activities and police documents. The law does not require public disclosure of information per se but rather requires disclosure of public records. Further, the law does not require that public records be created in response to a public records request, but rather that public records existing at the time of the request be disclosed to the public. Generally, records created by a public employee in the performance of public duties are public records unless an exception exists for nondisclosure in the Public Records Act (see Government Code Sections 6254 and 6255).

B. In conjunction with the public’s right to know, the department must protect the legal rights of victims, witnesses, accused persons and confidential informants. The department will ensure disclosure of public records is in compliance with law. This may require the redaction of confidential information from a record, which is otherwise a public record.

C. The department will justify withholding any records by demonstrating that the records are exempt under the law (Government Code Section 6254) or that in withholding the records the public interest is served and outweighs the requested disclosure (Government Code Section 6255).

D. Public Inspection Procedure

1. All arrest and crime report records shall be available to the extent allowed by law.

2. Reports shall be reviewed by record personnel prior to public disclosure to ensure names and information entitled to an exemption are deleted or whether reason exists which specifically exempts the report from disclosure.

3. A record shall be maintained with the original report of all such releases of records.
4. A fee shall be charged for release of a record pursuant to campus policy.

III. Public Records to be released

A. Public records that must be released are described in the California Public Records Act (Government Code Sections 6250-6277). The Act also covers exemptions of certain records from public disclosure.

B. Government Code Section 6254(f) defines law enforcement records which are exempt from disclosure and records that must be made public unless release of the information would endanger the safety of a person or the successful completion of an open investigation.

C. Unless the release would endanger the safety of a person or the successful completion of an investigation, the following kinds of information collected in the normal course of business and reduced to a record, must be released on request:

1. Records of Requests for Assistance
   a. Date, time and location of all complaints or requests for assistance and the time and nature of the department’s response. (Government Code Sections 6254 (f) (2))
   b. Date, time of report and factual circumstances surrounding the incident, including general descriptions of injuries, property or weapons involved. (ibid.)
   c. Name and age of victim except victims of specific abuse, sex crimes or violent offenses. (See restrictions in Government Code Section 6254 (f) (2) regarding withholding victims name at victims request and Penal Code Section 841.5 restricting disclosure to arrested persons).

2. Records of Arrests
   a. Except for arrestees who qualify under Penal Code Section 851.6 (detentions that are not arrests), full name, address and occupation, date of birth and physical description. (Government Code Section 6254 (f) (1)).
   b. Date, time, location of the arrest and factual circumstances surrounding the arrest. (ibid.)
   c. Date and time of booking, amount of bail, location where arrestee is held and all charges. (ibid.)
Chapter 5

3. Records of Crime Reports

a. Disclosable crime report information includes: “the names and addresses of persons involved in, or witnesses other than confidential informants to, the incident, the description of any property involved, the date, time and location of the incident, all diagrams, statements of the parties involved in the incident, the statements of all witnesses, other than confidential informants.” (Government Code Section 6254 (f))

b. This information shall be released to the victims or authorized representative and/or an insurance carrier against which a claim has been, or might be, made unless disclosure would endanger the safety of a witness or other person or unless disclosure would compromise successful completion of the investigation or related investigation (ibid.)

c. Victims and minor victim’s parents or guardians may request that the victim’s name be withheld. [Government Code Section 6254 (f) (2)] and victims and witnesses addresses and telephone numbers may not be disclosed to arrested person or to persons who may be a defendant in the criminal action [Penal Code Section 841.5].

IV. Exemptions to the Release of Information

A. To balance the individual’s right to privacy with the public's interest in disclosure, certain information is exempted from release by law. The exemptions listed in this guideline do not purport to cover every situation or subject on which questions may arise.

1. The following records information shall not be released:

   a. Juvenile records (under 18 years of age).

   b. Victims may request confidentiality for crimes defined under Penal Code Sections 220, 261, 261.5, 262, 264, 264.1,
273a, 273d, 273.5, 286, 288, 288a, 289, 293, 422.6, 422.7, 422.75, or 646.9 as outlined in Government Code Section 6254 (f) (2).

c. Identities of confidential informants.

d. Individuals in custody under Welfare and Institutions Code Section 5150 (dangerous or gravely disabled).

e. Victim information to any arrested person or defendant [Penal Code Section 841.5].

f. Criminal offender record information (CORI).

g. Portions of reports that reflect analysis, recommendation or conclusion of the investigating officer. [Government Code Section 6254 (f)].

h. Portions of reports that disclose security procedures. (ibid.)

i. Information that may jeopardize an open investigation, related investigation or law enforcement proceeding. (ibid.)

j. Information that may endanger the safety of any witness or other person involved in the investigation. (ibid.)

k. Preliminary drafts, notes or memoranda, which are not retained in the normal course of business. [Government Code Section 6254 (a)].

l. Records pertaining to pending litigation to which the CSU is a party, until adjudicated. [Government Code Section 6254 (b)].

m. Personnel records, medical or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy. [Government Code Section 6254 (c)].

B. Discretionary Release of Information

1. Exceptions may be made to the exemptions to the release of information when not prohibited by law, on a case-by-case basis. Care must be taken to ensure that a release does not violate the Article 1, Section 1, right of privacy protected by the California Constitution that the release does not jeopardize safety, and that failure to follow the statutory standard would not amount to a
Chapter 5

A negligent act giving rise to civil liability. Questions may be referred to the CSU Office of General Counsel.

a. Discretionary release must be approved by the Records Manager.

b. Discretionary release must be based on:

   (1). Opportunity for the released information to aid in the investigation of a crime.

   (2) Opportunity for the release of information to assist in the arrest of a suspect.

   (3) Necessity to warn the public of danger.

C. Conditional Release of Information

1. Partial restrictions or release of information may be necessary when not prohibited by law, on a case-by-case basis. Conditional release should be approved by the Records Manager.

2. Death Releases - In cases involving death, the victim's name will not be released until the next of kin has been notified and clearance obtained from the Coroner's Office.

3. Injury Releases - In cases involving serious injury, the victim's name will not be released until the next of kin has been notified.

4. Suicide Notes - Contents of suicide notes will not be released, but the existence of a suicidal note may be acknowledged.

5. Multi-jurisdiction Investigations and Assisting Other Agencies – Inquires will be referred to the agency with primary jurisdiction.

D. Information Related to Pending Litigation

1. Reports and information developed after the filing date, pertaining to pending litigation, to which the department or departmental employee is a party shall not be released. To promote confidentiality, the information and reports should be generated under the direction of legal counsel so as to enjoy the attorney-client or work product privilege. This will not protect from disclosure those records created in the normal course of police activity that are made disclosable by law.
2. Reports pertaining to pending litigation to which the department or an employee is a party shall not be released and all inquiries will be referred to legal counsel. These reports, as noted above, should be prepared under the direction of legal counsel.

3. These reports may be released only when the litigation or claims have been finally adjudicated or otherwise settled and legal counsel has approved the release.

E. Personnel Information

1. Personnel, medical or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy, shall not be disclosed. [Government Code Section 6254 (c)].

2. Pitchess Motions for department employee files should be routed to the Chief of Police, or designee, who will coordinate the court appearance with the appropriate legal counsel.

3. Issues and questions pertaining to the personnel policy shall be referred through the appropriate chain of command.

F. Authority for Legal Exceptions/Release

1. Refer to California Criminal Records Security-Statutes and Regulations compilation by the California Department of Justice.

2. Refer to POST Law Enforcement Records Management Guide.

4. Penal Code Sections: 290 et seq. registration of sex offenders; 293 victims of sex offenses, request for nondisclosure; 841.5 victim, witness nondisclosure to arrested person/defendant; 11075-11081 criminal record discrimination; 11108-11108.5 state summary criminal history information; 11120-11126 examination of state summary criminal history information; 11140-11144 unlawful furnishing of state summary criminal history information; 13100-13102 criminal index and identification system and criminal offender record information; 13200-13203 access to criminal offender record information; 13300-13305 local summary criminal history information; 13320-13326 examination of local summary criminal history information.
Record Creation and Retention

A. Field Reporting and Management

1. Upon receiving a call for service, dispatchers must document each call. Each call for service is designated with a specific event number. Officers responding to calls for service will, document in a report, any call for service of a criminal nature, or for informational purposes only. Each report will be given a specific crime report number, unique to that case.

2. Included in the report will be all pertinent information from the reporting party, the victim, the suspect, witnesses, and any other involved person.

3. Upon completion of reports, the report will be submitted to a supervisor for review and processing. Reports should not be uncompleted over the period of an officer’s day off. All reports of any felony, any arrest, or of any serious incident should be completed prior to the officer’s end of shift. Exceptions shall be approved pursuant to campus policy.

4. All persons listed in crime reports should be added to the master name file, which includes the status of the person listed, if he/she was a suspect, witness, victim or other involved party.

5. All calls for service should be recorded in the computer recording system. The systems should track all calls for service by type and location. All stolen, lost, found, and evidentiary property should be included in the computerized records management system. Copies of all reports should be disseminated to appropriate department personnel by the designated staff.

B. Traffic Records:

1. Officers will make a written traffic accident report of any injury related vehicle accident reported on campus and any accidents involving university employees driving state vehicles.

2. Reports will be recorded and stored in the same manner as all other reports.

3. Traffic Reports will be forwarded to the appropriate state agency in a manner prescribed by the Statewide Traffic Enforcement Reporting System (SWTERS) or the Statewide Integrated Traffic Reporting System (SWITRS).
4. All citations issued will be logged in a records management system.

5. Traffic citations should be in a secure location and accessible to authorized department personnel only.

6. Officers issued a citation book will fill out the citation book reporting form located in the front of the citation book. Sequential numbers are located on the citations. All copies of citations issued should be maintained in a secure records file.

C. Statistical Crime Reporting:

All statistical information will be reported on a monthly basis in accordance with the Department of Justice Crime Reporting Requirements. CSU policy requires annual submission of statistics to the Chancellor’s Office.

D. Destruction of Records:

All records pertaining to criminal activity will be kept for a minimum of seven years. All cases should be subject to review after that time. Unsolved felonies may be maintained past the seven-year period until such time as deemed necessary by the Chief of Police. Homicide, kidnapping and fatal traffic accidents should be kept indefinitely.

E. Technology and Software:

All records software should be approved by the Chief of Police. Employees that suspect a virus contained in a disc or any other type of sabotage, should immediately cease use of the computer and report such to the Chief of Police or designee.

F. Warrants

Warrants which are maintained outside the CSU jurisdictions will be verified prior to any arrest being made. CSU departments should create their own system of filing warrants if there is not a central city or county warrants bureau.

G. Central Records Backup Files

1. Each department should establish procedures to backup computer files, according to a regular schedule, that complies with retention laws and regulations.

2. Back-up media, tapes, disks, or drives should be stored off site in a secure facility.
Chapter 5

3. If media is not recycled, methods of destruction should be determined to ensure that data is not retrievable from discarded media.
The purpose of this Chapter is to set forth guidelines for access control over automated systems and procedures which allow for the release of state and local summary criminal history information and police reports to authorized agencies and individuals. This chapter consists of four areas dealing with records such as, security, release, creation and retention.

Reference to Authority

The following publications should be obtained and the statutes and regulations implemented on each CSU campus:

California POST Manual-Law Enforcement Records Management

California Criminal Records Security Statutes and Regulations issued by the California Department of Justice, May 1998.

Department of Defense Password Management Guideline

State Administrative Manual Section 4840

Access

Each CSU police department should have a policy in place that lists the authorized users of the California Law Enforcement Telecommunications System and each user should have their own access identification code. The policy should include a mechanism to ensure that all dispatchers, dispatch supervisors and any other employees who access the automated system are familiar with the above publications and regulations.

The Department of Defense Password Management Guide should be consulted regarding the recommended minimum length of password characters, the maintenance...
Chapter 5

of a password history to prevent misuse, and procedures to log off users after a predetermined time.

State Administrative Manual Section 4840 requires the implementation of a plan to limit access to state agency assets to authorized personnel who require these assets in the performance of their assigned duties.

The following guidelines should assist in developing a campus policy:

Security and Release of Criminal Offender Record Information

I. Purpose

The purpose of the guideline is to establish departmental policy and procedures pertaining to the retention and dissemination of summary criminal offender record information.

II. Policy

A. The CSU police departments will control the release and dissemination of summary criminal history records to prevent the improper use of criminal history information.

B. The Records Manager of each department should be designated as the Criminal Records Security Officer.

III. Responsibility of Departmental Employees

Employees of the department who are in possession of criminal history records shall be responsible for the security of those records. Under no circumstances shall an employee disclose the contents of any criminal history record to any person except as provided in this Chapter. (Penal Code Section 11142)

IV. Dissemination of CORI to Authorized Agencies and Persons

A. The Records Manager shall maintain a current list of authorized agencies and/or persons who may have access by review or release, to CORI within the parameters of Penal Code Sections 11105 and 13300.

B. Employees of the department may allow review or release of Department of Justice (DOJ), Department of Motor Vehicles (DMV), or local CORI to authorized persons or agencies when the data is required for official purposes.

C. CORI requests for employment, licensing or certification shall be referred to the Department of Justice.
V. Release Procedures

A. All requests for CORI intended for second party releases must be documented on the Criminal History Log.

1. The Records Section will retain all entries and the Criminal History Log for a period of not less than three years.

2. Electronic requests will contain appropriate identification of the requestor and reason for the request. The Department of Justice records the CORI requests and retains the information for not less than three years.

B. Criteria for Release

1. Right to Know - CORI will be released only to persons or agencies authorized by law to receive the information.

2. Need to Know - CORI release is based on the necessity to obtain criminal offender record information so that official responsibilities may be executed.

3. Summary criminal offender record information of any type may be released or reviewed only when BOTH the right-to-know and the need-to-know have been established and documented.

C. Reproduction of CORI

1. All copies of CORI produced by the department should be stamped on each page with the appropriate red ink stamp that identifies who received the information.

PUBLIC RECORDS RELEASE

I. Purpose

The purpose of this section is to establish guidelines for compliance with the California Public Records Act, the California Penal Code and other applicable laws and court decisions concerning the release of public records information.

II. Policy

A. It is the policy of the CSU police departments to comply with the law regarding disclosure of public records, which may be included in day-to-day service activities and police documents. The law does not require public disclosure of information per se but rather requires disclosure of public records. Further, the law does not require that public records be created in response to a public records request, but rather that public records existing at the time of the request be disclosed to the public. Generally, records created by a public employee in the performance of public duties are public records unless an exception exists for nondisclosure in the Public Records Act (see Government Code Sections 6254 and 6255).

B. In conjunction with the public's right to know, the department must protect the legal rights of victims, witnesses, accused persons and confidential informants. The department will ensure disclosure of public records is in compliance with law. This may require the redaction of confidential information from a record, which is otherwise a public record.

C. The department will justify withholding any records by demonstrating that the records are exempt under the law (Government Code Section 6254) or that in withholding the records the public interest is served and outweighs the requested disclosure (Government Code Section 6255).

D. Public Inspection Procedure

1. All arrest and crime report records shall be available to the extent allowed by law.

2. Reports shall be reviewed by record personnel prior to public disclosure to ensure names and information entitled to an exemption are deleted or whether reason exists which specifically exempts the report from disclosure.

3. A record shall be maintained with the original report of all such releases of records.
4. A fee shall be charged for release of a record pursuant to campus policy.

III. Public Records to be released

A. Public records that must be released are described in the California Public Records Act (Government Code Sections 6250-6277). The Act also covers exemptions of certain records from public disclosure.

B. Government Code Section 6254(f) defines law enforcement records which are exempt from disclosure and records that must be made public unless release of the information would endanger the safety of a person or the successful completion of an open investigation.

C. Unless the release would endanger the safety of a person or the successful completion of an investigation, the following kinds of information collected in the normal course of business and reduced to a record, must be released on request:

1. Records of Requests for Assistance

   a. Date, time and location of all complaints or requests for assistance and the time and nature of the department's response. (Government Code Sections 6254 (f) (2))

   b. Date, time of report and factual circumstances surrounding the incident, including general descriptions of injuries, property or weapons involved. (ibid.)

   c. Name and age of victim except victims of specific abuse, sex crimes or violent offenses. (See restrictions in Government Code Section 6254 (f) (2) regarding withholding victims name at victims request and Penal Code Section 841.5 restricting disclosure to arrested persons).

2. Records of Arrests

   a. Except for arrestees who qualify under Penal Code Section 851.6 (detentions that are not arrests), full name, address and occupation, date of birth and physical description. (Government Code Section 6254 (f) (1)).

   b. Date, time, location of the arrest and factual circumstances surrounding the arrest. (ibid.)
c. Date and time of booking, amount of bail, location where arrestee is held and all charges. (ibid.)

d. Time and manner of release. (ibid.)

e. All persons arrested and booked will be transported to the appropriate jail. The agency accepting the arrestee for booking will be responsible for the issuance of booking numbers, the taking of fingerprints and photographing inmates and will maintain all subsequent information pertaining to persons arrested and booked.

4. Records of Crime Reports

a. Disclosable crime report information includes: “the names and addresses of persons involved in, or witnesses other than confidential informants to, the incident, the description of any property involved, the date, time and location of the incident, all diagrams, statements of the parties involved in the incident, the statements of all witnesses, other than confidential informants.” (Government Code Section 6254 (f))

b. This information shall be released to the victims or authorized representative and/or an insurance carrier against which a claim has been, or might be, made unless disclosure would endanger the safety of a witness or other person or unless disclosure would compromise successful completion of the investigation or related investigation (ibid.)

c. Victims and minor victim’s parents or guardians may request that the victim’s name be withheld. [Government Code Section 6254 (f) (2)] and victims and witnesses addresses and telephone numbers may not be disclosed to arrested person or to persons who may be a defendant in the criminal action [Penal Code Section 841.5].

IV. Exemptions to the Release of Information

A. To balance the individual’s right to privacy with the public's interest in disclosure, certain information is exempted from release by law. The exemptions listed in this guideline do not purport to cover every situation or subject on which questions may arise.

1. The following records information shall not be released:

   a. Juvenile records (under 18 years of age).
b. Victims may request confidentiality for crimes defined under Penal Code Sections 220, 261, 261.5, 262, 264, 264.1, 273a, 273d, 273.5, 286, 288, 288a, 289, 293, 422.6, 422.7, 422.75, or 646.9 as outlined in Government Code Section 6254 (f) (2).

l. Records pertaining to pending litigation to which the CSU is a party, until adjudicated. [Government Code Section 6254 (b)].

m. Personnel records, medical or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy. [Government Code Section 6254 (c)].

B. Discretionary Release of Information

1. Exceptions may be made to the exemptions to the release of information when not prohibited by law, on a case-by-case basis. Care must be taken to ensure that a release does not violate the Article 1, Section 1, right of privacy protected by the California Constitution that the release does not jeopardize safety, and that
failure to follow the statutory standard would not amount to a
negligent act giving rise to civil liability. Questions may be referred
to the CSU Office of General Counsel.

a. Discretionary release must be approved by the Records
Manager.

b. Discretionary release must be based on:

(1). Opportunity for the released information to aid in the
investigation of a crime.

(2) Opportunity for the release of information to assist in the
arrest of a suspect.

(3) Necessity to warn the public of danger.

C. Conditional Release of Information

1. Partial restrictions or release of information may be necessary
when not prohibited by law, on a case-by-case basis. Conditional
release should be approved by the Records Manager.

2. Death Releases - In cases involving death, the victim's name will
not be released until the next of kin has been notified and clearance
obtained from the Coroner's Office.

Inquires will be referred to the agency with primary jurisdiction.

D. Information Related to Pending Litigation

1. Reports and information developed after the filing date, pertaining
to pending litigation, to which the department or departmental
employee is a party shall not be released. To promote confidentiality, the information and reports should be generated
under the direction of legal counsel so as to enjoy the attorney-
client or work product privilege. This will not protect from disclosure those records created in the normal course of police activity that are made disclosable by law.
2. Reports pertaining to pending litigation to which the department or an employee is a party shall not be released and all inquiries will be referred to legal counsel. These reports, as noted above, should be prepared under the direction of legal counsel.

3. These reports may be released only when the litigation or claims have been finally adjudicated or otherwise settled and legal counsel has approved the release.

E. Personnel Information

1. Personnel, medical or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy, shall not be disclosed. [Government Code Section 6254 (c)].

2. Pitchess Motions for department employee files should be routed to the Chief of Police, or designee, who will coordinate the court appearance with the appropriate legal counsel.

3. Issues and questions pertaining to the personnel policy shall be referred through the appropriate chain of command.

D. 626.6 P.C. Admonishment Card
Date: [Masked], 2015

To: Dr. Luoluo Hong
Vice President for Student Affairs & Enrollment Management

From: Reginald Parson
Interim Chief of Police

Subject: 626.4 P.C. Admonishment of [Masked]

On [Masked], at approximately [Masked] PM, officers were dispatched to Mary Ward Hall, room [Masked], regarding an assault and robbery that just occurred. While enroute, dispatch advised that the Victim (SFSU related) would be waiting in the lobby. When officers arrived, the victim was sitting on a couch. The victim was seated upright, and was shaking and crying. I observed a large red welt (fresh bruise) on the inside of her right forearm.

The victim began to describe being awakened, by [Masked], her ex-boyfriend, entered her room without permission and began shouting and yelling at her while hitting her face and body. The victim was asked if she wanted emergency medical attention. The victim said she wanted medical attention because her nose hurt and felt it may be broken. According to the victim, Romero head butted her, striking her face, during the struggle.

Officers then responded with the victim to her room, Mary Ward Hall, Room [Masked], where they observed bedding and clothing strewn around the room as well as a smashed plastic storage container, which the victim advised was her property and had contained some of the clothing that was now on the floor. The victim said that [Masked] smashed the container and pulled the bedding from her roommate's bed. The victim said that she struggled with him to prevent him from taking her iPad, but he took it forcefully before leaving.

Officers responded to [Masked] residence, Mary Park Hall, Room [Masked] and knocked on the door and announced ourselves but received no answer. The victim advised that [Masked] often visited his friend at his residence at [Masked] Crespi Drive. At approximately [Masked] PM, officers responded to Romero's friend's house at [Masked] Crespi Drive. Officers contacted the resident, who said that [Masked] was there but had left about 10 minutes before. They were unable to say where [Masked] may have gone, but said they would send [Masked] a message to contact UPD immediately. At approximately [Masked] PM, the residents called UPD dispatch and advised that [Masked] was with them, and they would be waiting for the police in front of the residence at [Masked] Crespi Drive. Officers responded and contacted [Masked]

[Masked] said that he was concerned for the victim because she had ingested [Masked] before attending a party they both attended last night. [Masked] said that he and the victim argued at the...
party over the victim’s plan to leave him there and attend another party. [Redacted] said that he last saw the victim today at approximately [Redacted] PM, when he went to her dorm room (Mary Ward Hall, Room [Redacted]) to check on her. [Redacted] said that the victim was "high" from the drugs she had ingested the night before. [Redacted] told me that the victim did not want him to leave, and grabbed him around his neck. [Redacted] told me the victim grabbed at his clothing twice in an attempt to keep [Redacted] from leaving. [Redacted] denied ever hitting or spitting on the victim and said that he only grabbed her wrists to remove her hands from his neck before leaving.

I asked [Redacted] if he had any scratches, marks or injuries from (CV) grabbing at his neck, [Redacted] told me, "No". I inspected Romero's neck but could not locate any scratches or marks. I did notice [Redacted] still had a mark on his nose from a previous altercation he was involved in (see case [Redacted]). I advised [Redacted] he was under arrest for the following charges: [Redacted] and was transported to San Francisco County Jail.

As a result of the investigation, it was determined that [Redacted] poses imminent danger to the campus community and that there is reasonable cause to believe that [Redacted] has willfully disrupted the orderly operation of this campus. As a result, [Redacted] was admonished on [Redacted], at [Redacted] PM hours, that his consent to remain on this campus has been withdrawn for a period of no less than 14 days pursuant to the provisions of Section 626.4 of the Penal Code. Romero was then advised that violation of these orders would result in his immediate arrest.

I hereby confirm / deny the admonishment of Section 626.4 of the California Penal Code withdrawing Kaleio Romero consent to be on San Francisco State University property.

J. Emergency Notification and Information Dissemination

In an emergency, reliable communication is a critical resource. Timely and coordinated responses in an emergency situation, depend on effective communication within the campus community, between field units and the EOC, and when necessary, to and from outside agencies, such as the City of San Francisco EOC, other CSU campuses and the Chancellor’s Office. In the EOC the Planning and Intelligence Section is responsible for analyzing, vetting and disseminating situational intelligence to the emergency response organization. The Logistics Section is where the Public Information Officer (PIO) resides. Their job is to pass on vetted situational information that may be beneficial to the public and the campus community.

1. Emergency Notification System. The SF State Emergency Notification System is the
primary tool used to provide authorized emergency notifications to the entire campus community. This dedicated, fully hosted, web-based system can send messages via email, phone, voicemail, text, and TTY to students, faculty, staff, campus vendors, alumni and other enrolled campus community members. In addition, University Communications dispenses vetted information via social media outlets on Facebook and Twitter, @SFState_News; and on the University homepage, www.sfsu.edu. SF State Emergency Notification Protocols and a description of Emergency communication systems and persons that have access and the authority to activate them is in Annex 2.1.A. See attachment A, “Communications and Notifications Annex 2.1A” of the Emergency Operations Plan.

K. Shuttle Service and Campus Evacuation

1. SF State Shuttle Service:
The Parking and Transportation Department within UPD, operates the SF State Shuttle Service, which primarily provides free rides for the campus community, between the university and the Daly City BART Station, during spring and fall semester, between the hours of 7am and 10pm Monday through Thursday, and 7am to 7pm on Friday and consists of 6 buses. The Parking and Transportation Department within UPD also has 4 shuttles parked in the Corp Yard on reserve.

2. Campus Evacuation:
In the event of an emergency, the Campus Evacuation Plan will go into effect. The contracted vendor will provide drivers for these shuttles and the fleet of 6 buses. The vendor can also provide additional buses/shuttles as needed during emergency response and recovery. Evacuees will be picked up at predesignated pick up points and taken to the Bay Area Rapid Transportation Agency (BART) transit center or a neighboring functional transportation center if the BART is unavailable. See Evacuation Plan, Attachment B.

A. SF State University Evacuation Plan
SF STATE UNIVERSITY EVACUATION PLAN

Level 1/ Level 2 Evacuations
In the event of an Emergency or Natural Disaster SF State University has developed a Two Evacuation system for the University.

The system will consist of Level 1, a Building(s) Evacuation or Level 2, a Total Campus Evacuation. The campus has been divided into 4 quadrants (see attached quadrant maps).

Level 1:
This type of evacuation will consist of an evacuation limited to a specific building or group of buildings affected by the emergency or disaster. Evacuees will proceed to the pre-designated assembly area, (see quadrant map) at the direction of the Building Emergency Response Coordinator (BERC). Once at the assembly area, evacuees will wait for further instruction. The order to evacuate, if evacuation is not activated by audible alarm, will be given by the BERC, Building Manager, Department Dean, or UPD personnel.

1. A building(s) evacuation will occur when a fire alarm sounds, or upon notification by authorized persons listed above.

2. Faculty Staff & Students should be aware of all marked exits from your area and building. Know the routes from your work area. BERCs will assist in directing evacuees to the emergency exit routes for their building.

3. CAUTION: Building fire alarms may stop ringing, if it stops, continue evacuation.

4. DO NOT use elevators unless directed.

5. ASSIST those persons who are disabled in exiting the building! Elevators may be used to evacuate disabled persons ONLY after the elevator has been declared safe. Always evacuate mobility aids (wheelchairs, crutches, etc.) with the person if possible.

6. Once outside, move to a clear area that is at least 500 feet away (if possible and safe to do so) from the affected building. Keep streets and walkways clear for emergency vehicles and personnel (see map for designated assembly area(s).

7. An emergency command post may be set up near the emergency site. Keep clear of the command post unless you have important information to report.

8. DO NOT return to an evacuated building unless directed to do so by police personnel or the Building Emergency Coordinator.

Level 2:
This type of evacuation will consist of a Total Campus Evacuation. This type of evacuation will take place when multiple buildings (all quadrants see attached campus map) have been affected by the emergency or disaster and will involve safely and strategically evacuating the entire campus for safety reasons. The order to evacuate is authorized by the University President or designee, The Chief of Police or designee, The EOC Director or designee.

1. During this type of evacuation, a Level 1 Evacuation may have already taken place. Faculty Staff and Students should be assembled in the pre-designated assembly area.
SF STATE UNIVERSITY EVACUATION PLAN

These areas will be where the SFSU shuttles will pick up campus community members and transport them to transit centers. The shuttles will travel in a Clockwise Direction along 19th Av, to Holloway Av, to Font Bl, to Lake Merced Av, to Winston Dr, and back to 19th Av.

Evacuation of Persons with Disabilities

The following guidelines should be considered when assisting persons with disabilities in either type of evacuation. BERCs and/or volunteers should familiarize themselves with these procedures.

First: Communicate the nature of the emergency
Second: ask the disabled person if they require assistance
Third: Evacuate mobility aids with the person when possible/practical.

Visual Impairments Describe the nature of the emergency and offer to guide him/her to the nearest emergency exit. Have the person take your elbow and escort him/her advising of any obstacles such as stairs, narrow passageways or overhanging objects. When you have reached safety, orient the person to where s/he is and ask if further assistance is needed.

Hearing Impairments Most buildings are not equipped with flashing light alarms, and persons with impaired hearing may not perceive that an emergency exists. Communicate with the person by writing a note or through simple hand gestures.

Persons Using Crutches, Canes, or Walks ask that person what method of assistance s/he prefers. Check for the availability of an evacuation chair and always evacuate mobility aids with the person if possible.

Persons Using Wheelchairs Ask the person what method of assistance s/he prefers. Some people have minimal ability to move and lifting them may be dangerous to his/her well-being. Some persons using wheelchairs have respiratory complications; remove him/her from smoke or fumes immediately. If the person wants to be moved in his/her wheelchair, keep the following considerations in mind:

- Always consider an “Evacuation Chair” if one is available.
- Ask if they want to move forward or backward down stairs.
- Wheelchairs have many movable or weak parts.
- Some persons have no upper trunk or neck strength.
- Power wheelchairs are heavy; an evacuation chair may need to be used. The chair can be retrieved later.
- If a seatbelt is available, use it!

If the person prefers to be removed from his/her wheelchair for evacuation, ask his/her preference on the following:

- Ways of being removed from the wheelchair
- Whether to move extremities or not
- Being moved forward or backward down stairs

   2. If an employee has a reasonable belief that discipline or other adverse consequences may result from what he or she says, the employee has the right to request union representation.
   3. Management is not required to inform the employee of his/her Weingarten Rights; it is the employees responsibility to know and request such.

C. When the employee makes the request for a union representative to be present, management has three options:
1. You can stop questioning until the representative arrives.
2. You can call off the interview or;
3. You can tell the employee that the interview will be ended unless the employee voluntarily gives up his/her rights to a union representative.

NOTE: The Supreme Court clearly acknowledges a representative’s right to assist and counsel workers during the interview. The Supreme Court has also ruled that during an investigatory interview, management must inform the union representative of the subject of the interrogation. The representative must also be allowed to speak privately with the employee before the interview. During the questioning, the representative can interrupt to clarify a question or to object to confusing or intimidating tactics. While the interview is in progress the representative can not tell the employee what to say but he/she may advise them on how to answer a question. At the end of the interview, the union representative can add information to support the employee’s case.

D. If one or more of the rights are established as stated in section B, the employee shall be advised of such and afforded access to representation of their choice.

E. If the investigation is a criminal investigation, the officers shall advise the employee of their rights per Miranda as appropriate pursuant to the law and Weingarten Rights do not apply.

F. Supervisors Responsibility:

1. In situations where the employee faces an investigatory interview, the supervisor must inform the employee of the nature of any charge of impropriety before the meeting.
2. Allow the employee to meaningfully exercise the right to representation.
3. When the interview is not investigatory and will not lead to discipline, reassure the employee of that fact before you begin.

G. CSUEU Collective Bargaining Agreement, Article 12.1:

1. “Upon his/her request, an employee may be represented at an investigatory interview if he/she reasonably believes that disciplinary action may result. Prior to the interview, the employee is entitled to be informed of the general nature of the matter being investigated and to consult with his/her representative, if any.

The right to representation does not apply to meetings held exclusively to inform an employee of a previously made disciplinary decision.

If the representative an employee requests is unavailable, the employee may request alternate representation.

The Employer is not obliged to postpone the interview, nor to suggest or secure the alternate representation; however, the employee shall not be required to answer any
questions without a representative present, unless he/she voluntarily chooses to do so.

At its discretion, the Employer may decline to hold any interview if the employee requests representation.”

I. PURPOSE: To establish a policy to comply with State and Federal Statutes and the California Compassionate Use Act.

II. POLICY: It shall be the policy of the University Police to comply with State and Federal Statutes regulating medical marijuana usage and the Drug Free Workplace Act.

III. DEFINITIONS:

A. Medical Marijuana Law: In 1996, California voters passed the Compassionate Use Act, which the Legislature amended in 2003. The Act protects from criminal prosecution individuals who use, possess or cultivate marijuana for medical purposes.

The purpose of the law was to ensure that patients and their primary caregivers who obtain and use marijuana for medical purposes upon the recommendation of a physician are not subject to criminal prosecution. California Health & Safety Code Section 11362.5(B)(6)(1).

IV. PROCEDURES:

A. Enforcement:

1. Officers shall enforce all federal and state laws regardless of the “California Compassionate Use Act.”

2. When a violation is detected, note specific location of offense, related campus activity and applicable law/regulation (e.g., bus/vehicle, employee at workplace, children present/children’s activity, smoking/non-smoking areas, etc). Note whether marijuana was being sold/given away, smoked, eaten, inhaled by vapor, etc. These technicalities affect charging and prosecution.

3. Investigating officer has no duty to proactively ask/inquire of it’s “medicinal"
marijuana.
4. Officers should note any volunteered claims/evidence presented of “medical recommendation” for the marijuana/cannabis. Officers must accept marijuana ID cards from the California Department of Health Services per H&S 11362.78.
5. Officer is not expected to carry out field investigation of “medical recommendation” truthfulness due to impractical length of detention, privacy problems posed by HIPAA, risk of fictitious/fraudulent paperwork, and non-standardized proofs of recommendation from around the State (consistent with California Highway Patrol instructions per their General Counsel).
6. If suspect claims “medical recommendation” for the marijuana, ask for the California State Medical Marijuana ID card. All marijuana, concentrated cannabis, and related evidence including evidence of sales (consistent w/California Highway Patrol procedures) shall be seized. Issue citation and release in most cases. Seek to avoid physical arrest and incarceration whenever possible.
7. County ordinances cannot authorize of “medical marijuana” to be allowed on CSU campus properties.
8. Officers shall seek criminal charges through the District Attorney’s Office, submitting report with incriminating and exculpatory evidence.
9. Evidence shall be booked with SFPD consistent with our evidence procedures.
10. Court order signed by a judge will be required to release any seized evidence, including marijuana and/or cannabis. Obtain a copy of original order and confirm its authenticity.
11. In the event, marijuana is ordered by a Magistrate to be released, it shall not be released on campus; our legal counsel will be consulted.

B. Individuals Protected by the Act:

1. Patients or their primary caregiver who possess or cultivate marijuana for personal medical purposes upon the written or oral recommendation or approval of a physician, or who possess a validly issued identification card issued by the State Department of Health Services which authorizes the individual or their designated primary caregiver to engage in the medical use of marijuana. Sections 11362.5(d) and 11362.7(g). Also, no physician shall be punished or denied any right or privilege for having recommended marijuana to a patient for medical purposes. Section 11362.5(c)

C. Individuals Not Protected by the Act:

1. Persons who cultivate or possess marijuana for any purpose other than medical. People v. Jones (App.3 Dist. 2003) 4 Cal.Rptr.3d 916,112 Cal.App.4th 341. Also, persons who possess more than eight ounces of dried marijuana or maintain more than six mature or twelve immature plants per qualified patient unless the individual has a doctor’s recommendation that this quantity is not sufficient to meet medical needs. Section 11362.77 (a) and (b).

D. Medical Conditions Covered by the Act:
1. AIDS
2. Anorexia
3. Arthritis
4. Cachexia
5. Cancer
6. Chronic Pain
7. Glaucoma
8. Migraine
9. Persistent Muscle Spasms, including spasms associated with multiple sclerosis
10. Seizures, including seizures associated with epilepsy
11. Severe nausea
12. Any other chronic or persistent medical symptom that either:

   a. Substantially limits the ability of the person to conduct one or more major life activities as defined in the Americans with Disabilities Act;
   b. If not alleviated, may cause harm to the patient’s safety, or physical or mental health. Section 11362.7(h).

E. Processing Criminal Cases Involving Individuals Who Claim They Are Cultivating Marijuana for Medical Purposes:

1. No person or designated primary caregiver in possession of a valid State Department of Health Services identification card is subject to arrest for possession, transportation, delivery or cultivation of medical marijuana in the amounts permitted by the Act unless there is reasonable cause to believe that the information contained in the card is false or falsified. Section 11362.71(e). The Act does not address how to handle situations where an individual claims that s/he possesses marijuana for medical purposes but does not have a medical identification card. Case law holds that individuals arrested or cited for possession may argue as a defense in court that they used marijuana with a doctor’s approval. People v. Fisher (App.3 Dist. 2002) 117 Cal.Rptr.2d 838, 96 Cal.App.4th 1147, review denied. This ruling suggests that an individual with marijuana maybe arrested or cited, and the marijuana confiscated, notwithstanding the assertion of a medical defense. After the matter is turned over to the local District Attorney for further processing, the existence or validity of a medical use would be determined.

F. Circumstances in which use of marijuana for medical purposes under the act need not be accommodated:

1. At the property or premises of any place of employment or during hours of employment. Section. 11362.785(a).
   a. Consistent with this exception, the Federal Drug-Free Workplace Act requires universities to maintain drug free work locations.

2. In any places where smoking is prohibited Section. 11362.79(a).
3. In or within 1000 feet of the grounds of a school, recreation center, or youth center, unless the medical use occurs within a residence. Section 11362.79(b).
4. On a school bus. Section 11362.79(c).
5. While in a motor vehicle that is being operated. Section 11362.79(d).
6. While operating a boat. Section 11362.79(e).

G. Officers shall consult with the Commanding Officer of Investigations Division on Medical Marijuana cases, as we will comply with the Federal Drug Free Workplace Act and the State Statutes.

San Francisco State University
University Executive Directive #89-13:
Time, Place, and Manner: Use of Buildings and Grounds

I. PREAMBLE
Universities are venues for creative and thoughtful discourse where differing perspectives
are debated and thoroughly discussed. San Francisco State University (SF State) is
committed to the principles of equity and social justice. The University actively
promotes free expression and the exchange of ideas, perspectives and viewpoints. Within
the context of this policy, free speech activity includes, but is not limited to the
following: pure or symbolic speech, assembly, meeting, demonstrations or rallies,
picketing, petitioning, mime and theater, music and singing, and religious or political
expression.

II. POLICY STATEMENT
While the primary use of the buildings and grounds at San Francisco State University is
to provide a high quality academic experience, these campus resources are also available
for certain non-academic programming. This policy establishes the priorities for such use,
legal requirements as needed and other matters relating to the scheduling and use of SF
State facilities. The use of University facilities must always be in accord with the
applicable provisions of law and University policies. Among these provisions are the
California Education Code and the administrative regulations of the California State
University (CSU) Board of Trustees (Title V of the California Code of Regulations),
which regulate soliciting, selling, exposing for sale or offering for sale of goods, articles,
wares, or merchandise on campus; and the holding of public meetings, performances,
rallies and similar events on campus. Where applicable, University contracts, leases and
operating agreements made with University Auxiliary Organizations for the specific use
of campus property or facilities are in effect and augment the provisions of this policy.
III. AUTHORITY

This policy is promulgated under the authority of Title V, California Code of Regulations, and subsequent directives, resolutions, standing orders, and Executive Orders of the CSU Board of Trustees and Chancellor, and the President of SF State. All applicable state and federal statutes and laws apply.

California Education Code Sec. 89031 states that, “The trustees may establish rules and regulations for the government and maintenance of the buildings and grounds of the California State University. Every person who violates or attempts to violate the rules and regulations is guilty of a misdemeanor.”

IV. CAMPUS ACTIVITIES

Activities on the SF State campuses are permitted during the University’s standard operation hours and may not interfere with or disrupt University business. Activities that are not permitted include, but are not limited to, the following examples:

A. Interference with classes in session or other scheduled academic, educational, cultural/arts programs or with use of the library;
B. Obstruction to the free flow of pedestrian or vehicular traffic;
C. Employing unauthorized sound amplification;
D. Violating any federal, state, or local safety code, including regulations set by the State Fire Marshal;
E. The visual blockage or the physical displacement of performers/programs that have reserved a venue;
F. Activities that damage facilities or interfere with necessary facilities maintenance and repair activities or the function of campus utilities (sewer, water, power, etc.);
G. Activities that create substantial unreimbursed cleanup costs;
H. Outdoor Lodging/Camping on the campus, at any time, day or night; and
I. The erection of any structure(s) on campus without University approval.

There shall be no restrictions on legally-protected free speech activity based on the content of such speech or expression or on the political, religious, or other affiliations of speakers. Speech activity not protected by the U.S. Constitution or by this policy includes defamation, obscenity, terrorist threats, false advertising, and the promotion of actual or imminent violence or harm.

V. LABOR ACTION

Among the guarantees of the U.S. Constitution is the right of citizens to inform others of their opinion by peaceful picketing. In California, the State Constitution also guarantees this right. Additionally, Code of Civil Procedure, Section 527.3 protects the right of
individuals to communicate information, including information involving a labor dispute, on public streets or any other place where persons may lawfully assemble.

The right to picket does not include the right to break the law by:

A. Blocking entrances, exits or sidewalks;
B. Using physical force on individuals;
C. Disturbing the peace;
D. Using language likely to promote violence;
E. Creating excessive noise by use of any device; and or
F. Committing any other criminal acts.

The University Police Department (UPD) has an obligation to protect the rights of free speech, assembly and petition as well as to protect the safety of the campus community at all times.

To insure that the orderly and peaceful flow of campus business and activities will not be disrupted, all labor organizations wishing to picket or to hold a demonstration on campus should schedule the location of such an event in advance by complying with the following procedures:

A. The representatives of all labor organizations, other than Unit 3, should contact the Associate Vice President of Human Resources, Safety and Risk Management, who in conjunction with the University Police Chief and the Director of LEAD (Leadership, Engagement, Action, Development), will advise such representatives of any conflict with a special campus or student event(s) scheduled to take place at the same location.

B. The representative(s) of Unit 3 should contact the Dean of Faculty Affairs and Professional Development, who in conjunction with the University Police Chief and the Director of LEAD, will advise such representatives of any conflict with a special campus or student event(s) scheduled to take place at the same location.

In compliance with these procedures, labor organizations will avoid scheduling conflicts that could lead to potential disruptions of previously scheduled campus activities as well as potential disruptions of the orderly conduct of campus business.

VI. AMPLIFICATION

Amplified events are routinely scheduled through LEAD to take place in the Malcolm X Plaza Monday through Friday from 12 p.m. – 2 p.m. during the academic year, with the exception of the last week of classes and finals week for each semester. Amplification for any other location and/or time requires special permission through LEAD. Waivers must
be requested in writing at least five (5) business days prior to the event unless necessitated by extraordinary circumstances.

At outdoor events on campus, the amount of amplification is controlled through the use of a sound meter to ensure that sound does not exceed 75 decibels 25 feet from the amplified sound source. All amplified sound events on Malcolm X Plaza must use the Cesar Chavez Student Center (CCSC) sound system and coordinate with the Center's sound technicians. It is the responsibility of the sponsoring student organization/department and its performers in collaboration with LEAD staff and CCSC technicians not to exceed the 75-decibel level.

Recognizing the importance of instructional activities, sound complaints concerning outdoor events should be directed to LEAD, which is charged with administering complaint procedures. LEAD shall keep records of all written and verbal amplified sound complaints, providing the Associate Vice President for Student Affairs with reports annually. Decibel level is subject to administrative review.

(ii) If new information about an entry into a log becomes available to a police or security department, then the new information shall be recorded in the log not later than two business days after the information becomes available to the police or security department.

(iii) If there is clear and convincing evidence that the release of such information would jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence, such information may be withheld until that damage is no longer likely to occur from the release of such information.

(5) On an annual basis, each institution participating in any program under this subchapter and part C of subchapter I of chapter 34 of Title 42 [42 U.S.C.A. § 2751 et seq.] shall submit to the Secretary a copy of the statistics required to be made available under paragraph (1)(F). (iii) The term "public property" means all public property that is within the same reasonably contiguous geographic area of the institution, such as a sidewalk, street, other thoroughfare, or parking facility, and is adjacent to a facility owned or controlled by the institution if the facility is used by the institution in direct support of, or in a manner related to the institution's educational purposes.

(8) In cases where branch campuses of an institution of higher education, schools within an institution of higher education, or administrative divisions within an institution are not within a reasonably contiguous geographic area, such entities shall be considered separate campuses for purposes of the reporting requirements of this section.

(7) The statistics described in paragraph (1)(F) shall be compiled in accordance with the definitions used in the uniform crime reporting system of the Department of Justice, Federal Bureau of Investigation, and the modifications in such definitions as implemented pursuant to the Hate Crime Statistics Act. Such statistics shall not identify victims of crimes or persons accused of crimes.

(8) (A) Each institution of higher education participating in any program under this subchapter and part C of subchapter I of chapter 34 of Title 42 shall develop and distribute as part of the report described in paragraph (1) a statement of policy regarding--

(i) such institution's campus sexual assault programs, which shall be aimed at prevention of sex offenses; and

(ii) the procedures followed once a sex offense has occurred.

(B) The policy described in subparagraph (A) shall address the following areas:

(i) Education programs to promote the awareness of rape, acquaintance rape, and other sex offenses.

(ii) Possible sanctions to be imposed following the final determination of an on-campus disciplinary procedure regarding rape, acquaintance rape, or other sex offenses, forcible or nonforcible.

(iii) Procedures students should follow if a sex offense occurs, including who should be contacted, the importance of preserving evidence as may be necessary to the proof of criminal sexual assault, and to whom the alleged offense should be reported.

(iv) Procedures for on-campus disciplinary action in cases of alleged sexual assault, which shall include a clear statement that--

(I) the accuser and the accused are entitled to the same opportunities to have others present during a campus disciplinary proceeding; and

(II) both the accuser and the accused shall be informed of the outcome of any campus disciplinary proceeding brought alleging a sexual assault.

(v) Informing students of their options to notify proper law enforcement authorities, including on-campus and local police, and the option to be assisted by campus authorities in notifying such authorities, if the student so chooses.

(vi) Notification of students of existing counseling, mental health or student services for victims of sexual
Chapter 6

assault, both on campus and in the community.

(vii) Notification of students of options for, and available assistance in, changing academic and living situations after an alleged sexual assault incident, if so requested by the victim and if such changes are reasonably available.

(C) Nothing in this paragraph shall be construed to confer a private right of action upon any person to enforce the provisions of this paragraph.

(9) The Secretary shall provide technical assistance in complying with the provisions of this section to an institution of higher education who requests such assistance.

(10) Nothing in this section shall be construed to require the reporting or disclosure of privileged information.

(11) The Secretary shall report to the appropriate committees of Congress each institution of higher education that the Secretary determines is not in compliance with the reporting requirements of this subsection.

(12) For purposes of reporting the statistics with respect to crimes described in paragraph (1)(F), an institution of higher education shall distinguish, by means of separate categories, any criminal offenses that occur—

(A) on campus;

(B) in or on a noncampus building or property;

(C) on public property; and

(D) in dormitories or other residential facilities for students on campus.

(13) Upon a determination pursuant to section 1094(c)(3)(B) of this title that an institution of higher education has substantially misrepresented the number, location, or nature of the crimes required to be reported under this subsection, the Secretary shall impose a civil penalty upon the institution in the same amount and pursuant to the same procedures as a civil penalty is imposed under section 1094(c)(3)(B) of this title.

(14)(A) Nothing in this subsection may be construed to—

(i) create a cause of action against any institution of higher education or any employee of such an institution for any civil liability; or

(ii) establish any standard of care.

(B) Notwithstanding any other provision of law, evidence regarding compliance or noncompliance with this subsection shall not be admissible as evidence in any proceeding of any court, agency, board, or other entity, except with respect to an action to enforce this subsection.

SUBJECT: The Jeanne Clery Disclosure of Campus Security Policy and Campus  
Crime Statistics Act

According to federal law, specifically The Student Right-to-Know and Campus Security Act of 1990  
(renamed the Clery Act- and most recently amended in 2013); the University Police Department is  
required to report “statistics concerning the occurrence of certain criminal offenses reported to the local  
police agency or any official of the institution who is defined as a "Campus Security Authority."

The definition of "Campus Security Authority," according to federal law, is as follows: “An official of an  
institution who has significant responsibility for student and campus activities, including, but not limited to,  
student housing, student discipline, and campus judicial proceedings.” For example, a dean of students  
who oversees student housing, a student center, or student extra-curricular activities, has significant  
responsibility for student and campus activities. Similarly, a director of athletics, team coach, and  
faculty/staff advisor to a student group also has significant responsibility for student and campus  
activities. A single teaching faculty member is unlikely to have significant responsibility for student and  
campus activities, except when serving as an advisor to a student group. A physician in a campus health  
center or a counselor in a counseling center whose only responsibility is to provide care to students are  
unlikely to have significant responsibility for student and campus activities. Also, clerical staff is unlikely  
to have significant responsibility for student and campus activities.

The 2013 annual report must include crime statistics including any hate crimes which occurred on  
campus, in the residence facilities, in any off-campus buildings or property owned or controlled by SFSU  
and on public property within or immediately adjacent to and accessible from the campus. The following  
is a list of crimes to be listed in the annual report.

- Murder  
- Non Negligent Manslaughter  
- Negligent Manslaughter  
- Sexual Offenses (forcible and non-forcible)  
- Domestic Violence  
- Dating Violence  
- Stalking  
- Robbery  
- Aggravated Assault  
- Burglary (Forcible entry, Unlawful entry- no force)  
- Motor Vehicle Theft  
- Arson  
- Liquor Law Violations  
- Drug Violations  
- Illegal Weapons Offenses
We are also required to report statistics for hate (bias) related crimes for the above listed crimes by:

- Anti-Sexual Orientation
- Gender
- Gender Identity
- Religion
- Race
- Disability
- Anti-Ethnicity
- National Origin

It should be noted that the list reflects newly added crime and bias categories mandated by the Violence Against Women Act/Campus SaVE Act reauthorized in March 2013.

The annual report is published every October and the law requires this notification. If you have knowledge of any crimes that have not already been reported to the University Police Department for the year 2013, please submit the information to me by Wednesday, October 1, 2014.

In addition, if a serious crime that may cause an ongoing threat to the SFSU campus community is reported to anyone who is defined as a Campus Security Authority, that individual should not wait until the end of the year to report that incident to the University Police Department. The University has a responsibility to notify the campus community about any crimes which pose an ongoing threat to the community, and as such, Campus Security Authorities are obligated by law to report crimes immediately to the University Police Department. If there is any question about whether an ongoing threat exists, immediately contact me or the Deputy Chief in my absence to discuss the matter further.

Thank you for your assistance in complying with federal law. If you have any questions, please do not hesitate to call.

Subject: Required Notice of Institutional and Financial Assistance Information

As a condition of your campus participation in federal Title IV student financial aid programs, each of you has executed a Program Participation Agreement (PPA) that obligates your campus to provide certain institutional and financial assistance information to current and prospective students and to current and prospective employees.

The systemwide report (Audit Report Number 02-22) by the California State University Office of the University Auditor included a recommendation that “the chancellor’s office define, document, and transmit to campuses responsibilities for the disclosure of consumer information by direct individual notice.” [emphasis added] The definition of notice, as defined in the Code of Federal Regulations (C.F.R.), is critical to campus compliance. Your attention is called to 34 C.F.R. 668.41 providing that:

Notice means a notification of the availability of information an institution is required by this subpart to disclose, provided to an individual on a one-to-one basis through an appropriate mailing or publication, including direct mailing through the U.S. Postal Service, campus mail, or electronic mail. Posting on an Internet website or an Intranet website does not constitute a notice.

A review of current federal statutes and regulations indicates that campuses must provide the following, by direct individual notice, to the indicated constituencies:

Notice of availability of:

- Information on financial assistance available to students enrolled in the institution pursuant to 34 C.F.R. 668.42
- Information about the institution pursuant to 34 C.F.R. 668.43
- Completion or graduation rates pursuant to 34 C.F.R. 668.45
- Student rights under the Family Education Rights and Privacy Act (FERPA) and pursuant to 34 C.F.R. 99.7

- Athletic program participation rates and financial support governed by the Equity in Athletics Disclosure Act (EADA) and pursuant to 34 C.F.R. 668.47

- Annual campus security report (Clery Act) pursuant to 34 C.F.R. 668.46

For currently enrolled students, this notice must be provided annually through U.S. mail, campus mail, or to the student’s e-mail address. The notice must describe the information that is available, provide the exact electronic address if the information is available on an Internet or Intranet site, indicate that the student is entitled to a paper copy upon request, and inform the student how to request a paper copy. The annual campus security report, or notice of its availability, must be distributed by October 1 each year.

For potential students, defined as anyone who has contacted the campus requesting information concerning admission to the campus, information on the completion or graduation rates must be available prior to the student’s enrolling or entering into any financial obligation with the campus.

Report on completion and graduation rates of student athletes

- This report must be completed by July 1 each year in accordance with 34 C.F.R. 668.48 by any campus attended by students receiving athletically-related student aid

The report must be provided at the time athletically-related aid is offered to a prospective student athlete. The report must be provided to the prospective student athlete, his or her parents, high school coaches, and guidance counselors.

Notice of availability of annual campus security report

All current employees must receive direct individual notice of availability of the annual report by October 1 if the report itself is not distributed to each employee. If the report is made available on an Internet or Intranet site, the notice must describe the information that is available, provide the exact electronic address, indicate that the employee is entitled to a paper copy upon request, and inform the employee how to request a paper copy.

All prospective employees, defined as anyone contacting the campus for purpose of requesting information concerning employment with the campus, must be
provided with either the report or a notice of its availability. If the report is made available on an Internet site, the notice must describe the information that is available, provide the exact electronic address, indicate that the individual is entitled to a paper copy upon request, and inform the individual how to request a paper copy.

Attachment A includes additional information, references, and other resources regarding the above requirements as well as other disclosure and reporting requirements that do not require direct individual notice. Because of the broad range of information dissemination requirements addressed in this memorandum and the attachment you are encouraged to share this memorandum with other appropriate campus officials or offices not included on the distribution list.

Failure to comply with statutory or regulatory requirements governing federal Title IV student financial aid programs can subject the campus to a fine of $27,500 per violation and may also result in limitation, suspension, or termination of eligibility to participate in the programs.

Questions about this memorandum and recommendations for modifications or additions to the attachment may be directed to Ms. Mary L. Robinson, Associate Director for Student Financial Aid, Academic Affairs, Student Academic Support, at (562) 951-4737 or mlrobinson@calstate.edu.

Drug and Alcohol Abuse Prevention

Institutions that participate in federal campus-based student aid programs are required, under the Drug-Free Workplace Act of 1988, to certify annually that they provide a drug-free workplace. Steps that must be taken for the school to certify that it provides a drug-free workplace include:

- establishing a drug-free awareness program to provide information to employees;
- distributing a notice to its employees of prohibited unlawful activities and the school’s planned actions against an employee who violates these prohibitions; and
- notifying the Department and taking appropriate action when it learns of an employee’s conviction under any criminal drug statute.

Under the Drug-Free Schools and Communities Act, institutions that participate in any federal Title IV program are required to adopt and implement a program to prevent drug and alcohol abuse by students and to annually distribute to all students, faculty, and employees information concerning drug and alcohol abuse and the institution’s prevention program.

Family Educational Rights and Privacy Act (FERPA)

Among the FERPA requirements is the obligation of the institution to advise each student annually of his or her rights, under 34 C.F.R. 99.7, to:

- Inspect and review his or her education records;
- Seek amendment of the education records that the student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights;
- Consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the statute and 34 C.F.R. 99.31 authorize disclosure without consent; and
- File with the Department of Education a complaint under 34 C.F.R. 99.63 and 99.64 concerning alleged failures by the educational agency or institution to comply with the requirements of the statute and regulations.

The institution’s notice must include procedures for exercising the right to inspect and review education records, the procedure for requesting amendment of records under 34 C.F.R. 99.20, and, if the institution has a policy of disclosing education records under 34 C.F.R. 99.31(a)(1), a specification of criteria for determining who constitutes a school official and what constitutes a legitimate educational interest.

This annual notice to students presupposes that institutions are making known to students basic information regarding FERPA and the institutional policies and practices with respect to directory information.

Identity Theft

Institutions participating in federal student aid programs are responsible for developing and applying adequate systems to identify and resolve discrepancies in information received from different sources with respect to a student’s application for financial aid. Institutions are also responsible for referring to the Office of Inspector General (OIG) of the Department of Education for investigation of any credible information indicating that an applicant for Title IV financial aid may have engaged in fraud or other criminal misconduct in connection with the application for aid including the use of false identities. [34 C.F.R. 668.16(f)-(g)]

The OIG has recently established a Web site at www.ed.gov/misused that provides information to alert students about identity theft and the need to protect their Social Security Numbers and other personal information. The site includes a one-page informational handout that institutions are encouraged to download and make available to students.

Immigration Requirements for Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act (PRAWORA) of 1996 (P.L. 104-193) included provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants, as well as benefits for all illegal immigrants. Governor Pete Wilson issued Executive Order W-135-96 on August 27, 1996, requesting that the CSU and other state agencies implement "as expeditiously as reasonably practicable" the provisions of PRAWORA.

CSU campuses have been advised to disclose to prospective students that if they will be required to have a professional or commercial license from a local, state or federal government agency in order engage in an occupation for which the CSU may be training them, they must meet the immigration requirements of PRAWORA to achieve licensure.

The Equity in Athletics Disclosure Act (EADA) requires that any coeducational institution of higher education that has an intercollegiate athletic program and participates in federal student aid programs prepare an annual report on participation rates, financial support, and other information on men’s and women’s intercollegiate athletic programs.

Campuses must provide an annual notice to all current students and a notice to prospective students that summarizes the report and provides information on how and where students can view or obtain a copy.

Report on Completion or Graduation Rates for Student-Athletes

This report for student athletes corresponds to the broader Student Right-to-Know (SRK) report for cohorts of first-time students but includes only students receiving athletically related student aid. The report must be completed by all institutions that offer athletic aid.

Campuses must make this report available by July 1 of each year and must provide a copy at the time athletically-related aid is offered to a prospective student athlete. The report must also be provided to the prospective student athlete’s parents, high school coaches, and guidance counselors. Schools may receive a waiver of the requirement to distribute the report to coaches and counselors if the school is a member of an athletic association or conference that distributes graduation rate information to all secondary schools.

Teacher Preparation Programs – Annual State and Institutional Report Cards

The Higher Education Amendments of 1998 (P.L. 105-244) mandated in Title II that all states receiving funds under that chapter annually prepare and submit to the Secretary of Education a state report card on the quality of teacher preparation in the state. This comprehensive report includes data on all teacher preparation programs in the state. The California Commission on Teacher Credentialing (CCTC) compiles the report for California, and the annual reports, including program information by institution, are available at http://www.ctc.ca.gov/reports_on_line.html. Institutions must provide their annual reports to CCTC in April and the state must provide its annual report to the Secretary in October.

The reports must contain information on the pass rate on teacher certification exams of students in each program and how that pass rate compares with the average pass rate for programs in the state; the number of students in the program, the average number of hours of supervised practice teaching, and the faculty-student ratio in supervised practice teaching; a statement of whether the program is approved by the state, if the state has such a program; and a statement of whether the program has been designated as low performing by the state.

DRAFT - March 2, 2004
This reference document is still in the developmental stages. Suggested corrections, additions, and deletions along with comments should be directed to mlrobinson@calstate.edu
The statute also requires that institutions with a teacher preparation program that enrolls students receiving federal assistance report to the general public information that corresponds with the report required of the state. The information must be reported “through publications such as school catalogs and promotional materials sent to potential applicants, secondary school guidance counselors, and prospective employers of the institution's program graduates.”

Use of Social Security Number

Section 7 of the federal Privacy Act of 1974 provides that social security numbers may not be required unless pursuant to a state or federal law existing prior to January 1, 1975. The Act further provides that at the time a social security number is requested, the governmental agency must disclose to the applicant whether disclosure of the number is mandatory or voluntary, by what statutory or other authority the number is solicited, and what uses will be made of it.

Title 5, California Code of Regulations Section 41201 (effective January, 1971) authorizes CSU campuses to require an applicant for admission to "furnish the campus with his or her social security number." The CSU discloses the use of the social security number with statements in Mandatory Catalog Copy and the Application for Admission, both paper and electronic versions.

Voter Registration

The Higher Education Amendments of 1998, P.L. 105-244, added a provision to the Higher Education Act (HEA) requiring that institutions of higher education participating in federal Title IV financial aid programs make a good faith effort to distribute mail voter registration forms to each student enrolled in a degree or certificate program and to make such forms widely available to students at the institution. Reference to this provision was added to the Program Participation Agreement (PPA) that institutions execute with the Department of Education. (Note: The statute specifically prohibits any officer of the executive branch from instructing an institution in the manner in which this provision is carried out, therefore no regulations governing this provision have been issued.)

DRAFT - March 2, 2004
This reference document is still in the developmental stages. Suggested corrections, additions, and deletions along with comments should be directed to mlrobinson@calstate.edu
The statute requires institutions to request mail voter registration forms from the state 120 days prior to the
deadline for registering to vote within the state. If the campus does not receive a sufficient quantity of forms
from the state within 60 days prior to the deadline for registering to vote, the campus will not be held liable
for failing to meet the requirements during that election year.

The Office of the Secretary of State (see website information below) makes voter registration forms available
electronically and facilitates on-line registration. The Federal Election Commission makes available a
National Mail Voter Registration Form that can be used for many states.

I. Purpose

The purpose of the executive order is to maintain an emergency management program on each campus that will be activated when a hazardous condition, natural or man-made disaster reaches or has the potential for reaching proportions beyond the capacity of routine operations. This executive order supersedes and modifies Executive Order No. 1013 to further define the responsibilities and needs of an effective campus emergency management program.

II. Definitions

- **Campus Multi-Hazard/Preparedness Plan (Plan)** - A document that establishes and outlines the campus’ planned response to an emergency. Each campus plan must be compliant with both the California State Emergency Management System (SEMS) as developed by the State Office of Emergency Services (OES), the National Incident Management System (NIMS) as developed by the Department of Homeland Security, and the Incident Command System (ICS).

- **Emergency Coordinator** and **Emergency Manager** – Are used interchangeably and both mean the designated person with responsibility for campus-wide emergency management activities.
• **Emergency Executive** – The designated campus executive, such as the Vice President of Business and Administration or other commensurate management position, with overall responsibility for campus-wide emergency management planning and execution of the campus plan.

• **Emergency Management Program** – A management framework for responding to and recovering from emergencies that may threaten the health and safety of the campus community or disrupt its programs and operations.

• **Emergency Operations Center (EOC)** – A physical location at which the emergency management team convenes to establish and execute response strategies and tactics, deploy resources, implement mitigation measures and initiate the recovery process.

• **Emergency Operations Center Director** – Overall direction and operation of the EOC assigned to coordinate campus-wide incidents or events involving the campus. Responsibilities include ensuring conflict resolution, providing guidance, ensuring that compatible objectives are established and strategies are selected for the delivery/coordination of critical resources in support of campus emergency operations.

• **Incident Command System (ICS)** – The nationally used standardized on-scene emergency management concept specifically designed to allow user(s) to adopt an integrated organizational structure equal to the complexity and demands of single or multiple incidents without being hindered by jurisdictional boundaries. ICS is a combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure, with responsibility for the management of resources to effectively accomplish stated objectives pertinent to an incident.

• **National Incident Management System (NIMS)** – A system mandated by the Homeland Security Presidential Directive/HSPD - 5 that provides a consistent nation-wide approach to enable all government, private-sector, and non-governmental organizations to work together during domestic incidents. The intent of NIMS is to be applicable across a full spectrum of potential incidents and hazard scenarios, regardless of size or complexity, and to improve coordination and cooperation between public and private entities in a variety of domestic incident management activities.

• **Standardized Emergency Management System (SEMS)** – A system created by California Government Code Section 8607 that is designed to ensure that all public agencies have a common system to utilize in responding to emergencies. The California Office of Emergency Services administers SEMS.

• **Training Record** – Documentation of training for employees, including employee name or other identifier, training dates, type(s) of training, training providers, and attendee sign-in sheets.
III. Responsibility

The Assistant Vice Chancellor for Risk Management and Public Safety is delegated systemwide administrative oversight and programmatic responsibility for systemwide emergency management.

The president of each campus is delegated the responsibility for the implementation and maintenance of an emergency management program on campus and for ensuring the following management activities are accomplished in support of the campus emergency management program:

1. Designate a primary, secondary and tertiary person with responsibility for campus-wide emergency management. Such persons shall be referred to as the campus Emergency Coordinator or Emergency Manager.

2. Establish and equip a functional campus EOC consistent with SEMS, NIMS, and ICS guidelines.

3. Develop a campus plan. On an annual basis or more frequently as needed, the plan should be reviewed, updated, and distributed to the emergency management team members and others as identified by the campus. Documentation of review, update and distribution must be in the form of a signed and dated written acknowledgement that is attached to the master campus emergency plan.

4. Train campus community on the SEMS and NIMS compliant campus Plan to include, at a minimum;
   
   A. Overview training of every employee within one year of employment.
   
   B. Specialized training annually for employees designated either as building coordinator or building floor marshal, EOC team member, or member of the campus emergency management team. Specialized training includes, but is not limited to, SEMS, NIMS and crisis response.
   
   C. Training records for all campus training shall be kept consistent with guidelines found in EO 1031.

5. Conduct administrative review of the campus multi-hazard/preparedness plan annually or more frequently as needed. Testing of simulated emergency incidents and emergency communications, including the periodic testing of mutual aid and assistance agreements, shall be conducted utilizing one of the following formats and varying the type of event:

   - **Tabletop** – Informal discussion of simulated emergency, no time pressures, low stress, useful for evaluating plans and procedures and resolving questions of coordination and responsibility. Testing of at least one hazard event should be done once a year.
Executive Order 1056

- **Drill** – Single emergency response function, single agency involvement, often a field component. Testing should be done at least once a year.

- **Functional Exercise** – Policy and coordination personnel practice emergency response, stressful, realistic simulations, takes place in real time, emphasize emergency functions, EOC is activated. Testing should be done every other year.

- **Full scale Exercise** - Takes place in real time, employees treat real people and use emergency equipment in the field, coordinates many agencies, including testing of mutual aid and assistance agreements, tests several emergency functions, EOC is activated, and produces a high stress environment. Testing should be done every five years, however activation of the EOC in response to an actual emergency or disaster will meet this testing requirement.

- **Campus building evacuation drills** – Conducted at least annually or more frequently as needed.

At the completion of each exercise or simulated emergency incident, full documentation of test results and lessons learned shall be documented in the form of a Corrective Action Plan or After Action Report, reviewed with the campus emergency management team, and maintained by the emergency manager or emergency coordinator consistent with guidelines found in EO 1031. Such reports will be made available to the Systemwide Office of Risk Management upon request. Activation of the EOC in response to an actual emergency or disaster will count as training in meeting the requirements of this section provided such emergency is well documented and discussed with the campus emergency management team.

6. Develop a roster of campus resources and contracts for materials and services that may be needed in an emergency situation including equipment, emergency power, communications, food and water, satellite and other mobile phone numbers, and update at least annually or as needed. The “updated as of date” should appear on each roster. Campus resources should be typed in accordance with NIMS guidelines to ensure compatibility of resources with other agencies. Resource typing includes its category, kind, and type.

7. Continually communicate the Plan to the campus community in a variety of methods through public education (e.g., web-posting of the Plan, except for active-shooter/terrorist responses plans) or other mechanisms for dissemination of hazard planning materials.

8. Once a year by December 1 or more frequently as needed, provide the Systemwide Office of Risk Management at the Chancellor's Office a roster of emergency management team personnel as well as their designated back-up personnel.
Executive Order 1056

essential to the operation of the campus emergency management programs such as:

- President
- Emergency Executive
- EOC Director
- Emergency Manager/Emergency Coordinator
- Public Information Officer

The roster shall include name, office and emergency telephone numbers, including satellite phone numbers. These lists will be kept confidential and used only in emergency situations.

9. Support the Emergency Coordinators working group, which is an advisory body for CSU systemwide emergency management. The working group is part of the CSU WERCS (Workers Compensation, Emergency Management, Risk Management, Campus Safety/Loss Control) affinity group which is a multi-discipline committee comprised of Emergency Coordinators, Risk Managers, Environmental Health & Occupational Safety Directors and Workers’ Compensation Coordinators and charged, in part, with studying and proposing solutions to systemwide issues such as emergency communications, mutual assistance protocols, and training.

10. On an annual basis or more frequently as needed, interact and coordinate comprehensive emergency management activities with appropriate city, county, operational area, state, federal government and private agencies to increase the readiness of the university. Attendance can be verified by meeting minutes, which should be kept for a minimum of two years.

11. Campus emergency operation policies and procedures must be compliant with related provisions of the Higher Education Opportunity Act (HEOA).

I. PREAMBLE

Universities are venues for creative and thoughtful discourse where differing perspectives are debated and thoroughly discussed. San Francisco State University (SF State) is committed to the principles of equity and social justice. The University actively promotes free expression and the exchange of ideas, perspectives and viewpoints. Within the context of this policy, free speech activity includes, but is not limited to the following: pure or symbolic speech, assembly, meeting, demonstrations or rallies, picketing, petitioning, mime and theater, music and singing, and religious or political expression.

II. POLICY STATEMENT

While the primary use of the buildings and grounds at San Francisco State University is to provide a high quality academic experience, these campus resources are also available for certain non-academic programming. This policy establishes the priorities for such use, legal requirements as needed and other matters relating to the scheduling and use of SF State facilities. The use of University facilities must always be in accord with the applicable provisions of law and University policies. Among these provisions are the California Education Code and the administrative regulations of the California State University (CSU) Board of Trustees (Title V of the California Code of Regulations), which regulate soliciting, selling, exposing for sale or offering for sale of goods, articles, wares, or merchandise on campus; and the holding of public meetings, performances, rallies and similar events on campus. Where applicable, University contracts, leases and operating agreements made with University Auxiliary Organizations for the specific use of campus property or facilities are in effect and augment the provisions of this policy.
III. AUTHORITY

This policy is promulgated under the authority of Title V, California Code of Regulations, and subsequent directives, resolutions, standing orders, and Executive Orders of the CSU Board of Trustees and Chancellor, and the President of SF State. All applicable state and federal statutes and laws apply.

California Education Code Sec. 89031 states that, “The trustees may establish rules and regulations for the government and maintenance of the buildings and grounds of the California State University. Every person who violates or attempts to violate the rules and regulations is guilty of a misdemeanor.”

IV. CAMPUS ACTIVITIES

Activities on the SF State campuses are permitted during the University’s standard operation hours and may not interfere with or disrupt University business. Activities that are not permitted include, but are not limited to, the following examples:

A. Interference with classes in session or other scheduled academic, educational, cultural/arts programs or with use of the library;
B. Obstruction to the free flow of pedestrian or vehicular traffic;
C. Employing unauthorized sound amplification;
D. Violating any federal, state, or local safety code, including regulations set by the State Fire Marshal;
E. The visual blockage or the physical displacement of performers/programs that have reserved a venue;
F. Activities that damage facilities or interfere with necessary facilities maintenance and repair activities or the function of campus utilities (sewer, water, power, etc.);
G. Activities that create substantial unreimbursed cleanup costs;
H. Outdoor Lodging/Camping on the campus, at any time, day or night; and
I. The erection of any structure(s) on campus without University approval.

There shall be no restrictions on legally-protected free speech activity based on the content of such speech or expression or on the political, religious, or other affiliations of speakers. Speech activity not protected by the U.S. Constitution or by this policy includes defamation, obscenity, terrorist threats, false advertising, and the promotion of actual or imminent violence or harm.

V. LABOR ACTION

Among the guarantees of the U.S. Constitution is the right of citizens to inform others of their opinion by peaceful picketing. In California, the State Constitution also guarantees this right. Additionally, Code of Civil Procedure, Section 527.3 protects the right of
individuals to communicate information, including information involving a labor dispute, on public streets or any other place where persons may lawfully assemble.

The right to picket does not include the right to break the law by:

A. Blocking entrances, exits or sidewalks;
B. Using physical force on individuals;
C. Disturbing the peace;
D. Using language likely to promote violence;
E. Creating excessive noise by use of any device; and or
F. Committing any other criminal acts.

The University Police Department (UPD) has an obligation to protect the rights of free speech, assembly and petition as well as to protect the safety of the campus community at all times.

To insure that the orderly and peaceful flow of campus business and activities will not be disrupted, all labor organizations wishing to picket or to hold a demonstration on campus should schedule the location of such an event in advance by complying with the following procedures:

A. The representatives of all labor organizations, other than Unit 3, should contact the Associate Vice President of Human Resources, Safety and Risk Management, who in conjunction with the University Police Chief and the Director of LEAD (Leadership, Engagement, Action, Development), will advise such representatives of any conflict with a special campus or student event(s) scheduled to take place at the same location.

B. The representative(s) of Unit 3 should contact the Dean of Faculty Affairs and Professional Development, who in conjunction with the University Police Chief and the Director of LEAD, will advise such representatives of any conflict with a special campus or student event(s) scheduled to take place at the same location.

In compliance with these procedures, labor organizations will avoid scheduling conflicts that could lead to potential disruptions of previously scheduled campus activities as well as potential disruptions of the orderly conduct of campus business.

VI. AMPLIFICATION

Amplified events are routinely scheduled through LEAD to take place in the Malcolm X Plaza Monday through Friday from 12 p.m. – 2 p.m. during the academic year, with the exception of the last week of classes and finals week for each semester. Amplification for any other location and/or time requires special permission through LEAD. Waivers must
be requested in writing at least five (5) business days prior to the event unless necessitated by extraordinary circumstances.

At outdoor events on campus, the amount of amplification is controlled through the use of a sound meter to ensure that sound does not exceed 75 decibels 25 feet from the amplified sound source. All amplified sound events on Malcolm X Plaza must use the Cesar Chavez Student Center (CCSC) sound system and coordinate with the Center’s sound technicians. It is the responsibility of the sponsoring student organization/department and its performers in collaboration with LEAD staff and CCSC technicians not to exceed the 75-decibel level.

Recognizing the importance of instructional activities, sound complaints concerning outdoor events should be directed to LEAD, which is charged with administering complaint procedures. LEAD shall keep records of all written and verbal amplified sound complaints, providing the Associate Vice President for Student Affairs with reports annually. Decibel level is subject to administrative review.

VII. COMMERCIAL TRANSACTIONS (42350.1 - TITLE V)

Commercial transactions and the display of property or services for sale on campus is prohibited except with written permission by the campus President. Such permission shall be granted if:

A. The proposed activity aids achievement of the educational objectives of the campus, does not unreasonably interfere with the operation of the campus and is not prohibited by law, or

B. The prospective buyer has agreed in writing in advance to an appointment, and prospective seller makes no more than one appointment for any day, and such the appointment does not interfere with the operation of the campus.

C. This section shall not apply to private sales.

Transactions which aid in the achievement of educational objectives of the campus, do not unreasonably interfere with the operation of the campus, and are not prohibited by law may be conducted on campus contingent upon appropriate authorization. Such transactions shall be conducted in the University designated area(s). At no time shall commercial transactions be carried out in the residence halls, or in any academic building. Commercial transactions may occur only in reserved venues where a particular event takes place and event organizers have received prior approval.

Commercial Vendors

Commercial vendors are permitted on campus through the LEAD Vendor Program and with sponsorship by a University recognized student organization. Craft vendors are also
allowed to sell their crafts at the bi-annual Associated Students Inc. sponsored Crafts Fair. All student organization-sponsored vending activities must obtain permits from LEAD. Executive Order: 1102
Effective Date: July 22, 2015
Supersedes: Executive Order 1054
Title: California State University Student Fee Policy

This executive order is issued pursuant to Education Code Sections 89035, 66028, 89711, 89712 and Board of Trustees Standing Orders, Chapter II, subsection i.

Changes to California State University Fee Policy

This executive order updates the California State University Board of Trustees policies that comprise the CSU Student Fee Policy, incorporates a new voluntary Student Involvement and Representation Fee, provides clarification and new requirements for student success fees, incorporates the statutory requirements of the Working Families Student Fee Transparency and Accountability Act, addresses reallocation of future Campus Mandatory Fees, and identifies Cal State Online as subject to fee policy.

Student Involvement and Representation Fee (SIRF)
At the January 2015 Board of Trustees meeting, the Trustees voted to establish a new voluntary systemwide fee, the Student Involvement and Representation Fee, in an effort to expand opportunities for student involvement and representation on issues of importance. As the first voluntary systemwide fee, a new Category VI was created. Fee assessment commences in the fall of 2015. This fee will be managed by the California State Student Association.

Student Success Fees
At the January 2015 Board of Trustees meeting, the Trustees voted to make specific amendments to fee policy to incorporate clarification and new requirements for student success fees (Category II). These changes followed the formation of a working group to study the role, process, and enactment of category II campus-based mandatory student success fees, including their notification, accountability, and outcome reporting processes. The working group and subsequent fee policy changes were incorporated in response to Senate Bill 860, Education Code Section 89712, which required the chancellor to conduct a review of student success fees during fiscal year 2014-2015 and make recommendations to the trustees on changes to the fee policy.
Working Families Student Fee Transparency and Accountability Act
In September 2012, the governor signed into law the “Working Families Student Fee Transparency and Accountability Act,” Education Code Section 66028, which enacts specific requirements for increasing or establishing new mandatory systemwide fees (Category I). In March 2013, the Board adopted a list of factors for consideration when reviewing fee increases, which also have been included in the update.

Reallocation of Specified Future Campus Mandatory Fees
In September 2012 the governor also signed into law provisions for reallocation of campus mandatory fees (Category II). Education Code Section 89711 requires that any fee established by a majority vote of the student body after the effective date of this legislation must be brought back before the student body before it can be reallocated, unless the vote that established the fee authorized an alternative or automatic reallocation mechanism. Category II fees that do not fall under the purview of this law are exempt.

Cal State Online
At the January 2013 Board of Trustees meeting, the Trustees voted to make specific amendments to fee policy to incorporate Cal State Online into the nomenclature of Category V Fees, which are fines, fees and deposits paid to self-support programs.

Bureau of State Audit Report on California State University’s Extended Education
To effectively monitor and ensure that the campuses set self-support fees in accordance with state law and fee policy, responsibilities for the campus chief financial officer and president regarding development and consideration of revenue and expenditure statements before making a determination on self-support extended education program fees were added. These requirements previously applied only to Category II and III fees, but have been expanded to Category V extended education fees. Consultation requirements between the president and extended education dean also were included. Additionally, annual reporting on Category V extended education fees was clarified.

Reference documents supplemental to this update of CSU Student Fee Policy, including an index of fees, historical documents, and State Education Code information are available at: calstate.edu/budget/student-fees/fee-policy.

THE CALIFORNIA STATE UNIVERSITY STUDENT FEE POLICY
(Fee Administration)

I. Fee Policy Statement

The CSU makes every effort to keep student costs to a minimum. Fees listed in published
schedules or student accounts may need to be increased when public funding is inadequate.
Therefore, CSU must reserve the right, even after fees are initially charged or initial fee
payments are made, to increase or modify any listed fees. All listed fees, other than
mandatory systemwide fees, are subject to change without notice, until the date when
instruction for a particular semester or quarter has begun. All CSU listed fees should be
regarded as estimates that are subject to change upon approval by the Board of Trustees, the
Chancellor, or the Presidents, as appropriate. Changes in mandatory systemwide fees will be
made in accordance with the requirements of the Working Families Student Fee
Transparency and Accountability Act (Sections 66028 - 66028.6 of the Education Code).

II. Fee Category Definitions

A. Category I – Systemwide mandatory tuition and other fees that must be paid to apply to,
enroll in, or attend the university, or to pay the full cost of instruction required of some
students by statute.

B. Category II – Campus mandatory fees that must be paid to enroll in or attend the
university.

C. Category III – Fees associated with state-supported courses. Specifically for materials
and services used in concert with the basic foundation of an academic course offering.

D. Category IV – Fees, other than Category II or III fees, paid to receive materials, services,
or for the use of facilities provided by the university; and fees or deposits to reimburse
the university for additional costs resulting from dishonored payments, late submissions,
or misuse of property or as a security or guaranty.

E. Category V – Fees paid to self-support programs such as extended education, Cal State
Online extended education offerings, parking and housing including materials and
services fees, user fees, fines, and deposits. Self-support programs are defined as those
not receiving state general fund appropriations; instead, fees are collected to pay the full
cost of a program. Costs of self-support instructional programs include support and
development of the academic quality of the university.

F. Category VI – Systemwide voluntary fees.
III. Authority

A. The Board of Trustees provides policy guidance for all matters pertaining to student fees and has authority for the establishment of Category I and VI fees, and oversight and adjustment of Category I fees, pursuant to the Working Families Student Fee Transparency and Accountability Act (commencing with Section 66028 of the Education Code).

B. The chancellor is delegated authority for the establishment, oversight and adjustment of Category II, Category III, and Category V Cal State Online fees extended education offerings. The chancellor also is delegated authority for the oversight and inflationary adjustment of the Category VI Student Involvement and Representation Fee. The allowance for inflationary adjustments shall not be considered automatic on an annual basis, but rather allowable should the chancellor deem it necessary following consultation with the California State Student Association (CSSA). The chancellor is not delegated authority for Category I fees, although the chancellor may approve individual campus tuition fee rates that do not exceed the maximum fee rates established by the Board of Trustees.

C. The president is delegated authority for the establishment, oversight and adjustment of Category IV and Category V fees (with the exception of Cal State Online fees extended education offerings), and for the oversight and adjustment of Category II and III fees. The president is not delegated authority to establish Category I, or Category II fees, or to adjust Category I fees. The president does have limited authority to establish or adjust Category III fees only within a range established by the chancellor as shown below in Section VI.C.6 of this fee policy.

IV. Responsibility

A. The president is responsible for assuring that appropriate and meaningful consultation occurs prior to adjusting any campus-based fee and before requesting that the chancellor establish a new Category II or Category III fee.

1. The president shall establish a Campus Fee Advisory Committee comprised of student, faculty, staff, and administrative representatives to provide advice to the president. Membership of the Campus Fee Advisory Committee shall be established in consultation with the campus student body association and the campus faculty senate and shall include the president of the campus student body association and the chair of the campus faculty senate or their designees. The president shall appoint the chair of the Campus Fee Advisory Committee.

2. The president shall appoint members to the Campus Fee Advisory Committee, excluding the student representatives who shall be appointed by the campus student body association. Faculty members shall be appointed consistent with normal campus
processes for selecting faculty members to serve on similar committees.

3. Students appointed by the campus student body association shall constitute a majority of the voting members of the Campus Fee Advisory Committee.

4. A statement of revenues and expenditures including a minimum of two years of projected revenue and expenditures and one year of actual costs for the fee revenue supported activity shall be developed by the campus chief financial officer and considered by the president prior to establishing or adjusting any Category II or III fee.

5. The president shall consult with the Campus Fee Advisory Committee before adjusting or requesting that the chancellor establish any Category II or III fees (subject to his/her approval in writing).

6. The Campus Fee Advisory Committee shall consider proposals for the establishment and adjustment of Category II or III fees, and shall then make a recommendation to the president.

B. Appropriate and meaningful consultation with campus constituencies regarding Category II fees and the use of fee revenue is critical to assure that the delegated authority is exercised in a manner that is consistent with policies adopted by the board.

1. Appropriate and meaningful consultation includes consultation with bodies such as the campus faculty senate, the campus student body association and other constituencies affected by any proposed increase in an existing fee or establishment of a new fee.

2. The policy presumes that a student fee referendum will be conducted before adjusting or establishing Category II fees. The president may waive the referendum requirement (unless it is required by education code or Student Success Fee policy Section VI.B) if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation.

3. If a referendum is not conducted prior to adjusting Category II fees or requesting the chancellor to establish a new Category II fee, the president must demonstrate to the fee advisory committee the reasons why the alternative consultation methods selected will be more effective in complying with this policy.

C. An advisory student referendum is expected in order to measure student support prior to adjusting a Category II fee or requesting the chancellor to establish a new Category II fee but is subject to the exception described in Section IV.B.2. The referendum may be conducted by the campus or the student body association. For referenda conducted by the campus, the following shall apply:

1. The president in consultation with the student body association and the faculty senate shall develop guidelines applicable to the student fee referendum process designed to
The California State University Student Fee Policy
Executive Order 1102
July 22, 2015

assure that the referendum is open, fair, and objective.

2. The campus shall fund costs associated with the referendum.

3. The fee advisory committee shall issue a voter pamphlet providing objective analysis of the proposed fee action and statements solicited by the committee for and against the proposed fee action.

4. The fee advisory committee shall determine the specific statements that shall be included in the pamphlet.

5. Copies of the voter pamphlet and ballot and information regarding the dates, times, and polling locations shall be available to students and published in the campus newspaper and in other public locations around campus at least thirty days prior to the referendum.

6. The results of a referendum shall be considered favorable when a majority of students voting approve the fee action.

7. The results of the referendum shall be advisory to the fee advisory committee and the president, unless the Education Code or Student Success Fee policy (Section VI.B) requires that the referendum pass.

D. If it is determined that a referendum is not the best mechanism for appropriate and meaningful consultation, and is not required by the Education Code or Student Success Fee policy (Section VI.B), an alternative consultation process may be utilized. The following shall apply:

1. The president, upon deciding that a referendum will not allow for the best measure of student opinion, shall inform the fee advisory committee of his/her intent to begin alternative consultation.

2. Alternative consultation strategies shall be developed with input from the student body association and the fee advisory committee to ensure that the process is transparent and meaningful, and shall solicit the input of a representative sample of the student body.

3. A representative sample should include students in leadership positions as well as students who are not involved in campus leadership. Efforts should be made to include students from many aspects of campus life regardless of the type of fee.

4. Any written material regarding the new fee, or fee increase should follow the same guidelines as the referendum voter pamphlet (Section IV.C above) to provide objective analysis of the fee or fee increase.

5. Results of the alternative consultation process should be summarized and put in writing and used as additional advisory material to be taken into consideration by the fee advisory committee and the president.
6. If a Category II fee for a capital project (e.g., university union building or health services building) must be raised to meet minimum debt service revenue bond requirements that were not required when the fee was established, the president can make that adjustment without a full alternative consultation process, but must present the debt service requirements and revenue projections to the fee advisory committee prior to making the adjustment.

E. Unless established prior to January 1, 2013, Category II fees established through an affirmative vote of the majority of the student body voting on the fee, but not specifically authorized by statute, shall not be reallocated to alternative purpose(s) without an affirmative vote of a majority of the members of either the student body or Campus Fee Advisory Committee voting on the reallocation. Category II fees established on or after January 1, 2013 through an affirmative vote of the majority of the student body voting on the fee, but not specifically authorized by statute, may be reallocated without an affirmative vote of a majority of the members of either the student body or Campus Fee Advisory Committee voting on the fee if the vote that established the fee authorized an alternative or automatic reallocation mechanism for that fee.

F. The president shall consider revenue and expenditure statements reviewed and approved by the campus chief financial officer prior to making determinations on Category V extended education fees.

1. Prior to making a determination on Category V extended education fees, the president shall consult with the dean of extended education, including consideration of revenue and expenditure plans developed by the dean or designee and in consultation with the campus chief financial officer.

2. The president shall notify the Campus Fee Advisory Committee of his or her decision.

G. The chancellor shall consult with the CSSA prior to any Category VI Student Involvement and Representation Fee adjustments. Any decision to adjust the fee shall be reported to the Board of Trustees prior to its scheduled adjustment.

V. Accountability

A. The campus president shall provide to the fee advisory committee a report of all fees in Categories II, III, IV and V. New fees, fee increases, total revenue and unexpended balances should be included.

B. Each campus shall report annually to the chancellor, for the most recently completed fiscal year, a complete inventory of all fees in categories II, III, IV and V, including current year fee rates, the total revenue collected in the past year for each fee, and the remaining balance for each fee. This reporting requirement includes a separate detailed

Executive Order 1102

report on Category V extended education fees. The Category II fee report shall be presented to the board by the chancellor to allow the board to consider the level and range of campus mandatory fees charged to students.

C. The CSSA shall prepare an annual report for the chancellor that includes information on how revenue from the Category VI Student Involvement and Representation Fee has been used to provide additional funding support for the development of student policy recommendations; participation in system, state, and national governance; involvement in leadership development activities; and, program support through student and professional staff administration. The annual report shall be provided by October 1.

7. Modification of Existing Fees

For each adjustment made by trustee action to the tuition fee for graduate students, an equal adjustment will be made to the Graduate Business Professional Fee.

B. Student Success Fees (Category II)

1. A binding student vote shall be taken on implementation of any proposed new student success fee. All students who are eligible to vote in student government elections shall be eligible to vote on such student success fee proposals. A rigorous consultation process shall be undertaken to inform and educate students on the uses, impact and cost of any proposed student success fee prior to the binding student vote.

2. In the process of establishing new student success fees, and before the student vote occurs, it must be made clear to the students that if a portion of that fee is intended to support ongoing and/or long-term obligations, that portion of the fee will remain in place until the obligations are satisfied regardless of any subsequent vote to rescind the fee.

3. All student success fees enacted prior to January 28, 2015 shall remain unchanged, including any previously established increments. However, a campus that considers a net new addition to an existing student success fee shall proceed as described in paragraphs VI.B 1 and 2 above.
4. Any campus proposing a new student success fee or an increase not already scheduled to an existing student success fee will consult with the chancellor and must receive approval on the process that will be followed to obtain approval for the fee before proceeding.

5. Student success fee proposals may not be brought before the student body more frequently than once per academic year.

6. If the proposed student success fee is accepted by a simple majority of the students voting, imposition of the fee shall still be contingent on approval by the campus president and chancellor. If the proposed student success fee is for direct instructional purposes that historically were covered by tuition and state funding, then the chancellor shall consult with the chair of the Board of Trustees before final approval is granted.

7. Student success fees enacted after January 28, 2015 shall be in force for at least six years. Student success fees may be rescinded at any time after six years with another binding student vote wherein a simple majority of those students voting vote to rescind the fee. The campus decision to have a vote shall be made by the recognized student government. Rescission vote proposals may not be brought before the student body more frequently than once per academic year.

8. If a vote to rescind passes, the chancellor, in consultation with the chair of the Board of Trustees and the president, shall ensure that no ongoing contractual or other obligation/liability exists which will remain unsatisfied if the student success fee is rescinded. If any such obligations exist, that portion of the student success fee funding the obligations shall remain in effect and the obligations shall continue to be funded by the student success fee until the obligations are satisfied. No new contractual or other obligation which would be supported by the rescinded student success fee may be entered into following a vote to rescind the fee. In the process of reconsidering a student success fee, and before the student vote occurs, it must be made clear to the students that if a portion of that fee is intended to support ongoing obligations, that portion of the fee will remain in place until such time as the obligations are satisfied.

9. Student success fees enacted prior to January 28, 2015 may also be rescinded by a binding student vote under the same procedures described above for rescinding a fee, but no such student vote may be held until after January 1, 2021. If a vote to rescind passes, the chancellor, in consultation with the chair of the Board of Trustees and the president, shall ensure there are no ongoing, contractual or other obligations which will remain unsatisfied if the student success fee is rescinded. If any such obligations exist, that portion of the student success fee funding the obligations shall remain in effect and the obligations shall continue to be funded by the student success fee until the obligations are satisfied. No new contractual or other obligations which would be
supported by the rescinded student success fee may be entered into following a vote to rescind the fee.

10. Each campus shall be required to have a transparent, online accountability protocol that clarifies the decision process and allocation of student success fees, with annual reporting to the chancellor and public by October 15 each year. All campuses shall be held to this standard for any existing and new student success fees imposed in the future.

C. Miscellaneous Course Fees (Category III)

1. Miscellaneous course fees are defined as fees collected for materials, services or use of facilities used in concert with the basic complement of supplies needed for state-supported instruction. Miscellaneous course fees can only be charged for the actual cost of providing exceptional instructional materials, services or use of an off-campus facility. Students must have the option of attaining the materials or services required through alternative means; however, in cases where such alternative means are unavailable, students cannot opt out of utilizing the required material or service and must pay the miscellaneous course fee.

2. The following rules apply when determining if miscellaneous course fees can be charged for exceptional materials or services in the classroom:

a. Miscellaneous course fees can only be charged for the actual cost of the material, service or use of facility being provided.

b. A miscellaneous course fee cannot be charged for the basic complement of classroom supplies and materials required for instruction. These include but are not limited to: chalk, erasers, paper clips, pointers, classroom instructional equipment such as projectors (slide, overhead, computer, etc.) and associated supplies (bulbs, transparencies, software, etc.), or any other supplies deemed necessary to equip the instructional space for courses.

c. A miscellaneous course fee cannot be charged for the basic complement of laboratory supplies and instructional equipment necessary for classroom lab requirements identified in the course description. These include but are not limited to equipment, test tubes, work stations, computers or any supplies necessary to equip laboratory space to complement classroom course instruction.

d. Administrative charges and inflationary factors cannot be added to miscellaneous course fees. Only the actual cost of the material, service or use of a facility can be charged.

e. A miscellaneous course fee cannot be charged to fund the basic cost of instruction. Instructional costs are funded through marginal cost dollars, tuition fee revenue, and permanent base budget allocations.
The California State University Student Fee Policy
Executive Order 1102
July 22, 2015

3. Requests to establish fees above the approved ranges and requests to increase existing fees to an amount above the approved ranges must be forwarded to the chancellor’s office for approval. If the requested fee or fee adjustment meets the policy guidelines, a coded memorandum shall be issued to authorize the campus to charge the fee.

4. Campuses must review all current miscellaneous course fees to ensure each one meets the requirements of the above described rules. If existing course fees exceed the approved ranges, campuses should review recent revenue and expenditure plans for that fee to ensure that the fee level is appropriate and make adjustments as necessary. All fees, including those that surpass the approved ranges that were previously approved by executive order prior to issuance of Executive Order 1034 in 2008 are grandfathered into this policy as long as they meet the policy guidelines above. Fees that do not meet the guidelines must be revised or eliminated.

5. CSU student fees are authorized, deposited, and refunded in accordance with applicable CSU policy, provisions of the law, and revenue bond indentures which may be outstanding.

I. PURPOSE: To provide procedures for the processing and reviewing of parking citations issued by Parking Control Officers and University Police Officers under VC 40202.

II. POLICY: Once the citation is issued (placed on shield), under VC 40215, it cannot be withdrawn without going through a review process. The review process’s sole purpose is to determine whether the citation issued was a valid citation.

III. DEFINITIONS:

A. Immediate Review – The process of dismissing and voiding parking citation based on cancellation criteria.

B. Citation Cancellation Review – A three level review process to determine the validity of the parking citation.

IV. PROCEDURES:

A. Immediate Review and Dismissal of Citation:

   1. If an error or omission is realized, after issuing a citation, the issuing officer must submit a copy of the citation to the Citation Process Coordinator for review and dismissal or voiding. If the Citation Processor’s decision of dismissal or voiding is warranted, based on the criteria listed below, the Citation Processing Department completes the Immediate Review/Dismissal form.

      a. A significant error or omission on the part of the campus official, parking signage, or the officer writing the citation.
      b. The citation was for “No Valid Permit” and a member of the parking staff verified the permit.
      c. A valid SFSU and/or standard permit was issued to the person for the area and time on the citation, e.g. loading permit, temporary permit, DMV handicapped placard, etc.
      d. The vehicle was cited as a result of being disabled, Parking Administration and/or
The University Police were notified, and there is an entry in the University Police log covering the date and time on the citation.

e. If the Owner/Driver provides the following criteria an “Immediate Review/Dismissal Form will be completed:

1) Valid daily permit
2) Permit was upside down
3) Permit was not displayed
4) Valid Handicapped Placard
5) Valid Temporary Permit
6) Valid Semester Permit

B. Citation Cancellation Review Process is conducted on three levels:

1. Level One (Citation Cancellation Form):

a. The person may request an initial review of the citation by completing a Citation Cancellation Request form (Attachment C) making a written statement of the circumstances, which indicate that the citation should be canceled. The form is available through the Parking and Transportation Office and the Parking and Transportation web site: http://www.sfsu.edu/~parking/. This step is required within 21-calendar days form the issuance of the citation date or 14 calendar days from the mailing of a notice of delinquent parking violation.

b. The Parking Control Officer that issued the citation will comment on the reason the citation was issued. The Parking and Transportation Manager is the administrative reviewer who makes the determination to dismiss or uphold the validity of the citation. Administrative reviews for the following types of citations will routinely result in a valid citation decision:

1) Standard California Vehicle Code violation, e.g., RED CURB, FIRE LANE, WHITE CURB, DISABLED/HANDICAPPED parking space, etc.
2) “No valid campus permit displayed” when the driver did not pay the appropriate parking fees required by the Trustees of the California State University.
3) No valid campus permit for designated parking such as DISABLED/HANDICAPPED, LOADING AREAS, STATE VEHICLE SPACE, staff/faculty lots and designated authorized vehicles.
4) A temporary campus permit has been altered, e.g., date, time, signature, location, etc., were changed from what was issued by Parking Administration.
5) The posted time limit was exceeded, e.g., green curb, 20-minute spaces, etc.
6) Parked in HATCHMARKS, UNMARKED SPACE, UNPAVED AREAS, GRASS, etc.
7) Repeat offenders for the same violation during any one academic period.
8) No timely response. Administrative Reviews should be filed within 21 calendar days from the issuance of the citation date.

2. Level Two (Administrative Review)
a. If the person is dissatisfied with the results of level one review, the person must complete a Request for Administrative Review form (Attachment E) within 21 calendar days of the mailing of the level one decision. The person requesting an Administrative Review must deposit the bail amount of the citation. Level two appeals are done in writing only.

b. The level two Administrative Review is conducted by the hearing examiner, who is appointed by the Chief of Police in accordance with VC40215 (C). The hearing shall provide an independent, objective, fair, and impartial review of contested parking violations. If the Administrative Review’s decision is found not liable, the deposited bail amount will be returned in full with the written decision. If the decision is found liable, the deposit will be retained as payment of the citation.

3. Level Three (San Francisco Superior Court)

a. If the person disagrees with the level two Administrative Review’s decision, they may request a civil review with the San Francisco Superior Court in person within 30 calendar days of the mailing of the hearing examiner’s decision. A $25.00 filing fee is required by the Superior Court.

b. A judge of the San Francisco Superior Court conducts the civil review. If the citation is found not liable, the filing fee and the citation fee will be refunded in full by the Citation Processing Department. If the citation is found liable, the person forfeit all penalties and fees on deposit and the civil judgment rendered is final.

C. In accordance with the Trustee Auditor’s review of citation tracking, all citations assigned to this agency must be accounted for. Therefore, any citation submitted to be voided, including those not placed on a vehicle, must be accompanied by an appropriate form.

given the option to start a payment plan with a $25 fee to be paid with the first
installment.
b. Requests are evaluated by the Citation Process Coordinator. Once approved the
system calculates the monthly payments per ICSUAM 4071.00, which varies depending on the amount of the citation with a maximum of nine months and a minimum monthly payment of $25.

c. If a person is delinquent with a payment the system cancels the payment plan and all late fees are added and the collection procedures will begin.

I. PURPOSE: To establish the policies and procedures under which mechanical boots will be utilized to immobilize vehicles within the jurisdiction of the University Police.

II. POLICY: Under California Vehicle Code 22651.7, the primary purpose of the booting device is to immobilize vehicles that have incurred five (5) or more outstanding parking citations and have failed to respond to outstanding fines within the prescribed time periods as defined by CVC 40215. Vehicles that have been immobilized will not be released until all delinquent parking fines have been paid in full, or an approved payment plan has been established with the Citation Processing Department.

A secondary purpose, under CVC 22655.5, is the immobilization of vehicles that have been positively identified as being involved in criminal activity, e.g. stolen vehicle or license plate(s), counterfeit and/or altered parking permits, etc., and the immobilization of the vehicle will assist in the investigation of the criminal act.

Pursuant to San Francisco State University Executive Order 2010-1, University Police and Parking Control Officers are authorized to impound non-motorized vehicles, which are tethered to handrails and handicapped ramps on University property. Impounded vehicles will not be released until the user of the vehicle has been issued a citation.

Impounded non-motorized vehicles that have not been claimed within seventy-two (72) hours shall be considered abandoned and may be confiscated. Confiscated vehicles will be held by the Police Department pursuant to the Department’s policy regarding lost and found items. Confiscated vehicles will not be released until the user of the vehicle has been issued a citation.

III. DEFINITIONS:

A. Boot: Mechanical device used to immobilize a vehicle.

IV. PROCEDURES:
A. Vehicle Immobilization During Business Hours (8:00 am to 4:00 pm):

1. The Citation Process Coordinator will provide the Parking Control Officers a quarterly boot list of vehicles that have five (5) or more outstanding parking citations that have become delinquent.

   a. An outstanding parking citation becomes delinquent after 31 days and late notices have been sent out.

2. When a Parking Control Officer encounters a license plate that is on the boot list, the PCO will contact Parking and Transportation requesting verification that the vehicle is listed in the boot list. If the Parking Control Officer is a student employee they will request that a full time Parking Control Officer to come to that location. The full time Parking Control Officer will assume responsibilities for the remaining actions.

3. Parking and Transportation, during normal business hours will verify that the vehicle in question is, in fact, delinquent on the payment of outstanding parking citations. Parking and Transportation will notify the Parking Control Officer that the vehicle is subject to booting. Parking and Transportation will provide basic information (make, model and color of vehicle, number of outstanding citations and total amount owed) on an Immobilization Notice and Immobilization Report, which will be retrieved by the Parking Officer.

4. The Parking Control Officer will issue a citation for any applicable violations that are occurring at that specific point. In the remarks section they will indicate that the vehicle is booted. Any fines attributable to this citation may not be used in determining the amount of payment due to obtain the release of the vehicle.

5. The Parking Control Officer will boot the vehicle and leave an Immobilization Notices on both the windshield and the driver-side window of the booted vehicle and complete an Immobilization Report. The vehicle boot will be placed either on the front driver side wheel, or if that is not possible in another conspicuous location that is easily visible by the owner of the vehicle.

6. The Parking Control Officer will return the completed Immobilization Report Form to Parking and Transportation. The Citation Processing Department will complete an Impounding Vehicles/Outstanding Parking Citations Advisory Notice. If the registered owner fails to retrieve their vehicle by the end of the business day, the booting paperwork will be given to the on-duty Dispatcher and the Watch Commander.

   a. The booting paperwork shall consist of:

      1) The Immobilization Report
      2) The Impounding Vehicles/Outstanding Parking Citations Advisory Notice
      3) A memo stating the vehicle’s license plate, the date and time it was booted, the number of outstanding citations and the total amount owed in order to have the vehicle released.

B. Vehicle Immobilization After Regular Business Hours (After 4:00 pm):

1. The Citation Process Coordinator will provide the Parking Control Officers a list of
vehicles that are primarily cited after 4:00 pm and have five (5) or more outstanding parking citations that have become delinquent. The Citation Process Coordinator will fill out the Immobilization Notice, Impounding Vehicles/Outstanding Parking Citations Advisory Notice and Citation Inquiry Sheet for these vehicles and provide them to the PCO’s.

a. The Citation Process Coordinator shall fill out the Immobilization Notice and Impounding Vehicles/Outstanding Parking Citations Advisory Notice stating how many outstanding citations the vehicle has and the amount owed in order for the vehicle to be released.

2. When a PCO encounters a vehicle, for which the Immobilization Notice and Impounding Vehicles/Outstanding Parking Citations Advisory Notice have already been received, the PCO shall complete the forms by filling in the location of the vehicle, and the time and date that the vehicle was located. The PCO will turn copies of the notices in to the on-duty Dispatcher.

a. If the owner of the vehicle does not contact the University Police Department by 10:00 pm, the on-duty Dispatcher will place the paperwork bundle in Parking and Transportation’s inbox.

3. The Parking Control Officer will issue a citation for any applicable violations that are occurring at that specific point. In the remarks section they will indicate that the vehicle is booted. Any fines attributable to this citation may not be used in determining the amount of payment due to obtain the release of the vehicle.

4. The Parking Control Officer will boot the vehicle and leave a copy of the Immobilization Notice on the windshield of the booted vehicle and complete an Immobilization Report. The vehicle boot will be placed either on the front driver side wheel, or if that is not possible in another conspicuous location that is easily visible by the owner of the vehicle.

5. The Citation Process Coordinator will update the paperwork as needed, removing any vehicles that have paid the outstanding fees prior to the PCO encountering the vehicle.

C. Vehicle Release During Regular Business Hours (8:00 am to 4:00 pm):

1. The Citation Processing Department will prepare an Impounding Vehicles/Outstanding Parking Citations Advisory Notice that will indicate the amount due in order to release the vehicle.

2. The registered owner/driver is required to pay the total amount due and a $205.00 boot removal fee. If the vehicle is not claimed on the initial day that it is booted, there will be a boot storage fee of $25.00 per day added to the total amount due. The Citation Processing Department only accepts money orders and cashier’s checks. Payment with cash can be made at the Cashier’s Office in the Administration Building or the Student Services Building during business hours. The registered owner/driver would take the Impounding Vehicles/Outstanding Parking Citation Advisory Notice to the Cashier’s Officer in order to pay the outstanding balance.
The Cashier's Office has been informed of the proper depositing procedure. The Cashier's Office will issue the driver a receipt, which will be brought back to the Parking and Transportation Office as proof of payment.

3. If the registered owner/driver is unable to pay the total amount due, they may request to pay their outstanding citation fees on a payment plan. They may request a payment plan through the Citation Processing Department during regular business hours. The registered owner/driver must pay the $205.00 boot removal fee, any daily boot storage fees, and 25% of the total outstanding citation fee. The Immobilization Notice, Impounding Vehicles/Outstanding Parking Citations Advisory Notice and payment or receipt of payment should be stapled together and placed in the parking box for further action.

   a. The Citation Process Coordinator shall determine if the registered owner/driver is eligible for a payment plan. Individuals currently affiliated with San Francisco State University (faculty, staff, students, etc.) shall be eligible for payment plans.

   b. If the registered owner/driver is not eligible for a payment plan, the full amount owed must be paid before the vehicle will be released.

4. After the registered owner/driver shows proof of payment, a Parking Control Officer is called to release the boot between 7:00 am and 10:00 pm.

5. If the vehicle is not claimed within 72 hours, it will be towed. The registered owner must pay the $205.00 boot removal fee, daily boot storage fee, and outstanding balance for all citations or 25% of the citations balance to start a payment plan to have the vehicle released. Towing and storage fees are not included in these fees and are the responsibility of the registered owner/driver.

If the registered owner/driver fails to retrieve their vehicle before the end of the business day, the appropriate forms and information will be conveyed to the Watch Supervisor and the on-duty Dispatcher, cashier's checks and money orders will be accepted. I. Impounding Non-Motorized Vehicles Tethered to Handrails:

1. Pursuant to San Francisco State University Executive Order 2010-1, Parking Control Officers and University Police Officers are authorized to enforce regulations contained in the Rehabilitation Act of 1973 and Americans with Disabilities Act (ADA) by impounding vehicles that are tethered to handrails.

2. When an Officer witnesses a vehicle tethered to a handrail, the Officer shall use a department kryptonite lock to secure the vehicle to the handrail. The kryptonite lock shall contain directions for the owner of the vehicle to contact the University Police Department to obtain release of the vehicle.

   a. When securing the vehicle, the Officer shall try to ensure that the placement of the additional lock does not increase the impediment to the circulation path.
   b. If possible, the Officer shall loop the department kryptonite lock through the front tire, the frame and handrail when securing the vehicle.

3. Once the owner of the vehicle contacts the University Police Department, an Officer shall be dispatched to the location of the vehicle. Once the owner has been cited pursuant to General Order 7-6, the Officer will remove the department kryptonite lock from the vehicle.

J. Confiscating Impounded Non-Motorized Vehicles:

1. If the owner does not claim the impounded vehicle within twenty-four (24) hours, an Officer will place a 72 Hour Notice of Confiscation on the vehicle (Attachment C).

   a. The Officer will give a copy of the 72 Hour Notice of Confiscation to Parking and Transportation and another copy to Lost and Found Clerk.

2. If the owner does not claim the impounded vehicle within the seventy-two (72) hour time frame contained within the Notice of Confiscation, the Officer shall confiscate the vehicle.

3. Before the Officer removes the department kryptonite lock and cuts any personal lock, the PCO shall request that a Police Officer respond to the location.

   a. The Police Officer shall witness that the vehicle is tethered to a handrail, or otherwise in violation of the ADA. The Police Officer shall request an incident number be generated for the report.
   b. The PCO shall remove the department kryptonite lock and cut any personal lock. The PCO will remove the vehicle from the handrail and transport it back to the
Sally Port behind the Police Department. The vehicle shall be logged in, by the Police Officer, according to the procedures for receiving property.

c. If the PCO is unable to cut the personal lock, the PCO will request that Work Control be contacted for an expedited response to the location. Any fees charged to the University Police Department by the Work Control for the cutting of locks will be passed on to the owner of the vehicle.

4. If the owner of the vehicle comes to the Police Department to claim a confiscated vehicle, the owner will be cited in accordance with General Order 7-6 and charged any other applicable fees. Once the owner has been cited, the vehicle may be released to the owner.

5. If no one claims the vehicle, it will be destroyed in accordance with the Department’s procedures for destroying property.

K. Responsibilities:

1. Parking Control Officers

   a. Will patrol the building entrances and handrails on the University grounds and actively pursue outstanding violators through planned and scheduled enforcement periods.

L. Immediate Confiscation of Non-Motorized Vehicles:

1. If an Officer witnesses a vehicle in violation of the ADA, which in the opinion of the Officer presents a clear and present danger to pedestrians, the Officer shall request that a Sergeant respond to the location for an appraisal of the situation.

2. If the Sergeant agrees that the vehicle presents a danger to others, the Sergeant may authorize that the vehicle be confiscated immediately without notice.

3. The vehicle shall be confiscated in accordance with the procedures above.

M. Fees:

1. There shall be no additional fees charged to the owner of an impounded vehicle above the citation fee.

2. The owner of a confiscated vehicle shall be responsible for any fees charged to the University Police Department related to removal of a personal lock.

3. The owner of a confiscated vehicle may also be responsible for additional fees as established by the President.

I. PURPOSE: To establish the policies and procedures for enforcement of the misuse of disabled placards and expired disabled placards within the jurisdiction of the University Police.

II. POLICY: It is the policy of the University Police to strongly enforce violations of disabled placards to ensure that valid placard holders will have adequate parking spaces available.

Under VC 22511.56 any person using a placard shall, upon request of any peace officer or person authorized to enforce parking laws, ordinances, or regulations, present identification and evidence of the issuance of that placard to that person. Failure to present the requested identification and evidence of the issuance of that placard shall be a rebuttable presumption that the placard is being misused and that the associated vehicle is illegally parked. In addition to an issuance of a citation for no valid disabled placard, the officer or parking enforcement person may confiscate a placard being used for parking purposes that benefit any person other than the person to whom the placard was issued by the Department of Motor Vehicles.

III. DEFINITIONS: NONE

IV. PROCEDURES:

A. Misuse of disabled placards:

1. All Officers will patrol SFSU-related parking areas that have designated disabled parking spaces and actively pursue potential misuse of disabled placards.
2. When it is suspected that the driver of the vehicle is not the valid user of the disabled placard, an Officer may approach them and ask to see their driver's license and DMV-issued paperwork for the placard.
3. The Officer will verify that the driver's ID matches the paperwork.

a. If it is discovered that the disabled placard is being misused, the Officer will then confiscate the disabled placard and give the driver a Misuse of Disabled Placard Form.
1.) The Officer will turn the disabled placard to the Parking and Transportation Office.

2.) The Parking and Transportation will forward the placard and a copy of the Misuse of Disabled Placard Form to the Department of Motor Vehicles. A copy of the placard and the Misuse of Disabled Placard Form will be forwarded to the Operations Division Commander, and the original will be maintained in the Parking and Transportation records.

b. The Officer will also issue a citation to the vehicle. The violation code will be VC22511.56 with the bail amount of $500.00.

B. Expired disabled placards (temporary or permanent):

1. When an expired disabled placard is displayed an Officer may issue a citation for no valid disabled placard with the violation code VC22507.8 (a) with a bail amount of $275.00.

2. Once the Officer issues the citation, a photo of the expired temporary placard will be taken. The photo will be kept at the Parking and Transportation Office.

3. Parking and Transportation Office will send a memo to the Department of Motor Vehicles reporting the expired temporary placard with vehicle license number and placard ID number information. Memos will be maintained in the Parking and Transportation Department’s Office records.

I. PURPOSE: To establish the policies and procedures under which U-Locks will be utilized to immobilize bicycles within the jurisdiction of the University Police Department.

II. POLICY: The primary purpose of the U-Lock device is to immobilize a bicycle that has violated SF State Ordinance Section 2010-1 or if the bicycle has been immobile (abandoned) for more than 3 months. Bicycles that have been immobilized for violations will not be released until the owner has been issued a citation. Owners of an abandoned bicycle can pick up the bicycle if it’s within the 6 month storage period.

III. DEFINITIONS:

A. U-Lock – Lock used to secure bicycles from being removed.

IV. PROCEDURES:

A. Bicycle Immobilization for bicycles in violation of laws or Campus Ordinances

1. When a Parking Control Officer finds a bicycle in violation they will contact Dispatch and/or the Citation Process Coordinator to request an Impound form be completed. If the parking control officer is a student employee they will request that a full time parking control officer meet with them. The full time parking control officer will assume the responsibilities for enforcement.

2. The Parking Control Officer will go to the Parking Department for the 72 Hour Notice of Impound No Bicycle Parking Form and pick up a U-Lock. They will then place the notice on the bicycle and secure it with the U-Lock. A copy of the form will be left with the Parking Department.

3. Once the owner calls Dispatch for assistance, a Parking Control Officer will issue a citation for the violation of SF State Ord. 2010-1. Once the citation is handed to the owner the U-Lock will be taken off and the bicycle released.

4. If during the course of a business day the owner fails to retrieve their bicycle, the Parking Control Officer will inform the Watch Commander and Dispatcher where the
bicycle is located. If an owner comes in during this time, it will be determined by
the Watch Commander if the bicycle will be released that night or if the owner has
to come back during regular business hours. If an Officer handles the release; a
citation is issued and the copy will be placed in the Parking and Transportation inbox
for processing.

B. Bicycle Immobilization for Abandoned Bicycles

1. If a Bicycle has been in a location for over 9 months the Department may assume
   that it is an Abandoned Bicycle.
2. A Parking Control Officer will place a “Warning 72 Hour Notice of Impound/
   Abandoned Bicycle Form” on the bicycle.
3. If not claimed after 72 hours a Parking Control Officer shall impound the bicycle and
   place it in Lot 20 storage. Paperwork is then given to the Transportation Coordinator
   and information is kept in a database and bicycle information is put into RIMS.
4. If the owner does not claim the bicycle after 6 months the bicycle is then destroyed.
   Refer to General Order 4-13.

C. Failure to appear to release bicycle that is impounded for violation

1. If the owner does not retrieve their bicycle within 72 hours, it will be impounded
   and stored for 6 months. The bicycle will only be released upon furnishing the
   department evidence of his or her identity, an address and proof of ownership.
2. A citation will be issued before the bicycle is released back to the owner if it was
   impounded for violating Ord. Sec. 2010-1.

D. Responsibilities

1. Parking Control Officers.
   a. Will patrol University grounds and actively pursue violators through planned and
      scheduled enforcement periods.

1992 SUMMARY DIGEST

enacted last.

(50) This bill would amend Section 40604 of the Vehicle Code, relating to notice to appear, by incorporating certain changes made by SB 602 and making additional changes, to be operative only if SB 602 is also enacted.

(51) This bill would incorporate additional changes in Section 42001.5 of the Vehicle Code, proposed by AB 2299, to be operative only if AB 2299 and this bill are both enacted and become effective on or before January 1, 1995, and this bill is enacted last.

(52) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates which do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that for certain costs no reimbursement is required by this act for a specified reason.

However, the bill would provide that, if the Commission on State Mandates determines that this bill contains other costs mandated by the state, reimbursement for those costs shall be made pursuant to those statutory procedures and, if the statewide cost does not exceed $1,000,000, shall be payable from the State Mandates Claims Fund.

(53) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1244 (AB 409) Epple. Vehicles: traffic violations.

(1) Existing law contains procedures governing the procedure for the enforcement and criminal prosecution of any violation of a standing or parking offense. Those provisions provide, among other things, for an issuing agency to post notice of a parking violation, serve or mail a notice of delinquent parking violation, set, collect, and dispose of parking penalties and administrative fees, file notices of parking violations with the Department of Motor Vehicles for collection, and file complaints in court for criminal prosecution of the unlawful standing or parking offense. Existing law also authorizes agreements for the courts, other issuing agencies, or private vendors to process administrative parking penalties for issuing agencies.

This bill would revise and recast those procedures by generally providing that any violation of an unlawful standing or parking provision of law shall be subject to a civil penalty schedule established by the governing body of the jurisdiction in which the notice of parking violation is issued, and that the enforcement of those penalties shall be governed by a revised civil procedure, including an administrative investigation and review procedure and an administrative and judicial appeal process.

The bill would specifically require each court that has been processing notices of parking violations and notices of delinquent parking violations to provide in an agreement for the orderly transfer of the processing activity as soon as possible but not later than January 1, 1994, with a limited exception for Contra Costa County and San Mateo County. The bill would delete the authority for an issuing agency to contract with a municipal or justice court for purposes of processing parking violations.

The bill would make conforming changes.

The bill sets forth certain legislative findings and declarations.

The bill would impose a state-mandated local program by reallocating duties and responsibilities for enforcement and processing of standing and parking violations.

The bill would become operative on July 1, 1993, with the provisions concerning the establishment of an administrative review procedure to be phased in, and fully implemented by, January 1, 1994.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

LEGISLATIVE COUNSEL’S DIGEST

AB 408, Epplle. Vehicles: traffic violations.

(1) Existing law contains procedures governing the procedure for the enforcement and criminal prosecution of any violation of a standing or parking offense. Those provisions provide, among other things, for an issuing agency to post notice of a parking violation, serve or mail a notice of delinquent parking violation, set, collect, and dispose of parking penalties and administrative fees, file notices of parking violations with the Department of Motor Vehicles for collection, and file complaints in court for criminal prosecution of the unlawful standing or parking offense. The bill would make conforming changes.

The bill sets forth certain legislative findings and declarations.

The bill would impose a state-mandated local program by reallocating duties and responsibilities for enforcement and
processing of standing and parking violations.

The bill would become operative on July 1, 1993, with the provisions concerning the establishment of an administrative review procedure to be phased in, and fully implemented by, January 1, 1994.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) Existing statutory requirements for enforcing and contesting unlawful standing and parking violations in the courts impose an unnecessary burden on the motorists and the public.

(b) Criminal penalties are not appropriate sanctions for standing and parking violations; and criminal procedures are not necessary for the fair enforcement of those violations.

(c) With the enactment of appropriate fiscal and procedural safeguards, cities, counties, districts, public colleges and universities, and other public entities can collect most standing and parking penalties, and fairly resolve most contested parking violations without court involvement.

SEC. 2. Section 1462.3 of the Penal Code is repealed.

SEC. 3. Section 1463.009 of the Penal Code is repealed.

SEC. 4. Section 1463.28 of the Penal Code is amended to read:

1463.28. (a) Notwithstanding any other provision of law, for each option county, as defined by Section 77004 of the Government Code, which has adopted the resolution specified in subdivision (b), that portion of fines and forfeitures, whether collected by the courts or by other processing agencies, which are attributable to an increase in the bail amounts adopted subsequent to the resolution pursuant to subdivision (c) or (d) of Section 1269b which would otherwise be divided between the county and cities within the county shall be deposited into the county general fund up to the annual limit listed in subdivision (b) for that county. Fine and forfeiture increments which exceed the specified annual limit shall be divided between the county and the cities within the county as otherwise provided by law. The scheduled bail amounts in such a county may exceed any limit established pursuant to subdivision (d) of Section 1269b.

(b) The counties which may adopt a resolution directing that future increments in fines and forfeitures as specified in subdivision (a) be deposited in the county general fund and the annual limit applicable to those counties is as follows:

(c) Except as provided in Sections 40200.3 and 40200.4 of the Vehicle Code, this section does not apply to the collection of parking penalties.

SEC. 5. Section 22651 of the Vehicle Code is amended to read:

22651. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code; or any regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city or a county in which a vehicle is located, may remove a vehicle located within the territorial limits in which the officer or employee may act, under any of the following circumstances:

(a) When any vehicle is left unattended upon any bridge, viaduct, or causeway or in any tube or tunnel where the vehicle constitutes an obstruction to traffic.
(b) When any vehicle is parked or left standing upon a highway in a position so as to obstruct the normal movement of traffic or in a condition so as to create a hazard to other traffic upon the highway.

c) When any vehicle is found upon a highway or any public lands and a report has previously been made that the vehicle has been stolen or a complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

d) When any vehicle is illegally parked so as to block the entrance to a private driveway and it is impractical to move the vehicle from in front of the driveway to another point on the highway.

e) When any vehicle is illegally parked so as to prevent access by firefighting equipment to a fire hydrant and it is impracticable to move the vehicle from in front of the fire hydrant to another point on the highway.

(f) When any vehicle, except any highway maintenance or construction equipment, is stopped, parked, or left standing for more than four hours upon the right-of-way of any freeway which has full control of access and no crossings at grade and the driver, if present, cannot move the vehicle under its own power.

g) When the person or persons in charge of a vehicle upon a highway or any public lands are, by reason of physical injuries or illness, incapacitated to an extent so as to be unable to provide for its custody or removal.

(h) When an officer arrests any person driving or in control of a vehicle for an alleged offense and the officer is, by this code or other law, required or permitted to take, and does take, the person into custody.

(i) (1) When any vehicle, other than a rented vehicle, is found upon a highway or any public lands, or is removed pursuant to any subdivision of this section, and it is known to have been issued five or more notices of parking violation over a period of five or more days, to which the owner or person in control of the vehicle has not responded to the agency responsible for processing notices of parking violation or the registered owner of the vehicle is known to have been issued five or more notices for failure to pay or failure to appear in court for traffic violations for which no certificate has been issued by the magistrate or clerk of the court hearing the case showing that the case has been adjudicated or concerning which the registered owner's record has not been cleared pursuant to Chapter 6 (commencing with Section 41500) of Division 17, the vehicle may be impounded until that person furnishes to the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located and satisfactory evidence that all parking penalties due for the vehicle and all traffic violations of the registered owner have been cleared, or both. A notice of parking violation issued for an unlawfully parked vehicle shall be accompanied by a warning that repeated violations may
result in the impounding of the vehicle. In lieu of requiring satisfactory evidence that the parking penalties and failures to appear have been satisfied, the impounding law enforcement agency may, in its discretion, issue a notice to appear for the offenses charged, as provided in Article 2 (commencing with Section 40500) of Chapter 2 of Division 17. In lieu of either furnishing satisfactory evidence that the bail has been deposited or accepting the notice to appear, that person may demand to be taken without unnecessary delay before a magistrate within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is impounded. Evidence of current registration shall be produced after a vehicle has been impounded or a notice to appear for violation of subdivision (a) of Section 4000 shall be issued to that person.

(2) A vehicle shall be released to the legal owner, as defined in Section 370, if the legal owner does all of the following:

(A) Pays the cost of towing and storing the vehicle.

(B) Submits evidence of payment of fees as provided in Section 9561.

(C) Completes an affidavit in a form acceptable to the impounding law enforcement agency stating that the vehicle was not in possession of the legal owner at the time of occurrence of the offenses relating to standing or parking. A vehicle released to a legal owner under this subdivision is a repossessed vehicle for purposes of disposition or sale. The impounding agency shall have a lien on any surplus that remains upon sale of the vehicle to which the registered owner is or may be entitled, as security for the full amount of the parking penalties for all notices of parking violations issued for the vehicle. The legal owner shall promptly remit to, and deposit with, the agency responsible for processing notices of parking violations from that surplus, on receipt thereof, full amount of the parking penalties for all notices of parking violations issued for the vehicle.

(j) When any vehicle is found illegally parked and there are no license plates or other evidence of registration displayed, the vehicle may be impounded until the owner or person in control of the vehicle furnishes the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located.

(k) When any vehicle is parked or left standing upon a highway for 72 or more consecutive hours in violation of a local ordinance authorizing removal.

(l) When any vehicle is illegally parked on a highway in violation of any local ordinance forbidding standing or parking and the use of a highway, or a portion thereof, is necessary for the cleaning, repair, or construction of the highway, or for the installation of underground utilities, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local
authorities pursuant to the ordinance.

(m) Wherever the use of the highway, or any portion thereof, is authorized by local authorities for a purpose other than the normal flow of traffic or for the movement of equipment, articles, or structures of unusual size, and the parking of any vehicle would prohibit or interfere with that use or movement, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(n) Whenever any vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. No vehicle may be removed unless signs are posted giving notice of the removal.

(o) (1) When any vehicle is found upon a highway, any public lands, or an offstreet parking facility with a registration expiration date in excess of one year before the date it is found on the highway, public lands, or the offstreet parking facility. However, if the vehicle is occupied, only a peace officer, as defined in Chapter 4.5 (commencing with Section 880) of Title 3 of Part 2 of the Penal Code, may remove the vehicle. For purposes of this subdivision, the vehicle shall be released to the owner or person in control of the vehicle only after the owner or person furnishes the storing law enforcement agency with proof of current registration and a currently valid driver’s license to operate the vehicle.

(2) As used in this subdivision, “offstreet parking facility” means any offstreet facility held open for use by the public for parking vehicles and includes any publicly owned facilities for offstreet parking, and privately owned facilities for offstreet parking where no fee is charged for the privilege to park and which are held open for the common public use of retail customers.

(p) When the peace officer issues the driver of a vehicle a notice to appear for a violation of Section 12500, 14601, 14601.1, or 14601.2 and there is no passenger in the vehicle who has a valid driver’s license and authorization to operate the vehicle. Any vehicle so removed from the highway or any public lands shall not be released to the registered owner or his or her agent, except upon presentation of the registered owner’s or his or her agent’s currently valid driver’s license to operate the vehicle and proof of current vehicle registration, or upon order of a court.

(q) Whenever any vehicle is parked for more than 24 hours on a portion of highway which is located within the boundaries of a common interest development, as defined in subdivision (c) of Section 1381 of the Civil Code, and signs, as required by Section 22658.2, have been posted on that portion of highway providing notice to drivers that vehicles parked thereon for more than 24 hours will be removed at the owner’s expense, pursuant to a resolution or ordinance adopted by the local authority.

(r) When any vehicle is illegally parked and blocks the movement
of a legally parked vehicle.

SEC. 6. Section 22651.7 of the Vehicle Code is amended to read:

22651.7. In addition to, or as an alternative to, removal, any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any regularly employed and salaried employee who is engaged in directing traffic or enforcing parking laws and regulations, of a city or county in which a vehicle is located may immobilize the vehicle with a device designed and manufactured for the immobilization of vehicles, on a highway located within the territorial limits in which the officer or employee may act if the vehicle is found upon the highway and is known to have been issued five or more notices of parking violation over a period of five or more days to which the owner or person in control of the vehicle has not responded or the registered owner of the vehicle is known to have been issued five or more notices for failure to pay or failure to appear in court for traffic violations for which no certificate has been issued by the magistrate or clerk of the court hearing the case showing that the case has been adjudicated or concerning which the registered owner’s record has not been cleared pursuant to Chapter 6 (commencing with Section 41500) of Division 17. The vehicle may be immobilized until that person furnishes to the immobilizing law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located and satisfactory evidence that full amount of parking penalties has been deposited for all notices of parking violation issued for the vehicle or that bail has been deposited for all traffic violations of the registered owner have been cleared, or both. A notice of parking violation issued to the vehicle shall be accompanied by a warning that repeated violations may result in the impounding or immobilizing of the vehicle. In lieu of requiring satisfactory evidence that the full amount of parking penalties or bail, or both, has been deposited, the immobilizing law enforcement agency may, in its discretion, issue a notice to appear for the offenses charged, as provided in Article 2 (commencing with Section 40500) of Chapter 2 of Division 17. In lieu of either furnishing satisfactory evidence that the full amount of parking penalties or bail, or both, have been deposited or accepting the notice to appear, that person may demand to be taken without unnecessary delay before a magistrate or an examiner within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is immobilized. Evidence of current registration shall be produced after a vehicle has been immobilized or a notice to appear for violation of subdivision (a) of Section 4000 shall be issued to that person.

SEC. 7. Section 40200 of the Vehicle Code is amended to read:

40200. (a) Any violation of any regulation governing the standing or parking of a vehicle under this code, under any federal
statute or regulation, or under any ordinance enacted by local authorities is subject to a civil penalty. The enforcement of those civil penalties shall be governed by the civil administrative procedures set forth in this article.

(b) Except as provided in Section 40209, the registered owner and driver, rentee, or lessee of a vehicle cited for any violation of any regulation governing the parking of a vehicle under this code, under any federal statute or regulation, or under any ordinance enacted by a local authority shall be jointly liable for parking penalties imposed under this article, unless the owner can show that the vehicle was used without consent of that person, express or implied. An owner who pays any parking penalty, civil judgment, costs, or administrative fees pursuant to this article shall have the right to recover the same from the driver, rentee, or lessee.

(c) The driver of a vehicle who is not the owner thereof but who uses or operates the vehicle with the express or implied permission of the owner shall be considered the agent of the owner to receive notices of parking violations served in accordance with this article and may contest the notice of violation.

SEC. 8. Section 40200.1 of the Vehicle Code is repealed.
SEC. 9. Section 40200.2 of the Vehicle Code is repealed.
SEC. 10. Section 40200.3 of the Vehicle Code is repealed.
SEC. 10.2. Section 40200.3 is added to the Vehicle Code, to read:
40200.3. (a) All parking penalties collected by the processing agency, including all administrative fees, process service fees, and fees and collection costs related to civil debt collection, shall be deposited to the account of the issuing agency, except those sums attributable to the issuance of a parking violation by a member of the California Highway Patrol shall be deposited in the account of the issuing agency in the city or county where the violation occurred, and except those sums payable to a county pursuant to Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code and that portion of any parking penalty which is attributable to an increase in the parking bail amount effective between September 16, 1988, to July 1, 1992, inclusive, pursuant to Section 1463.28 of the Penal Code. Those funds attributable to this increase in bail shall be transferred to the county treasurer and deposited in the general fund. Any increase in parking penalties effective after July 1, 1992, shall accrue to the benefit of the issuing agency.

(b) The processing agency shall prepare an audited report at the end of each fiscal year setting forth the number of cases processed, and all sums received and distributed, together with any other information that may be specified by the issuing agency or the Controller. This report is a public record and shall be delivered to each issuing agency. Copies shall be made available, upon request, to the county auditor, the Controller, and the grand jury.

SEC. 11. Section 40200.4 of the Vehicle Code is amended to read:
40200.4. (a) The processing agency shall deposit with the county
treasurer all sums due the county as the result of processing a parking violation not later than 45 days after the last day of the month in which the parking penalty was received.

(b) Except as provided in subdivisions (c) and (d), if a court within a county has been processing notices of parking violations and notices of delinquent parking violations for a city, a district, or any other issuing agency, the issuing agency and the county shall provide in an agreement for the orderly transfer of the processing activity as soon as possible but not later than January 1, 1994. The agreement shall permit the court to phase out, and the issuing agency to phase in, or transfer, personnel, equipment, and facilities that may have been acquired or need to be acquired in contemplation of a long-term commitment to processing of notices of parking violations and notices of delinquent parking violations for the issuing agency under this article. The court shall transfer the processing function of the Department of the California Highway Patrol to the issuing agency in the city or county where the violation occurred.

(c) If Contra Costa County or San Mateo County, or a court in either county, had a contract in effect on January 1, 1992, to process notices of parking violations and notices of delinquent parking violations for a city, district, or other issuing agency within the particular county or counties, the county may continue to provide those services to the issuing agencies pursuant to the terms of the contract and any amendments thereto, to and including June 30, 1996, after which Section 40200.5 shall govern any contracts entered into for these services.

(d) San Francisco Municipal Court employees engaged in processing notices of parking violations and notices of delinquent parking violations and the positions of those employees shall be transferred to equivalent civil service positions in the City and County of San Francisco.

(e) No court employee shall be terminated or otherwise released from employment as a result of the transfer of processing notices of parking violations and notices of delinquent parking violations from the courts to the issuing agencies.

(f) As used in this article, “parking penalty” includes, but is not limited to, any late payment penalty, administrative fee, assessment, and costs of collection as provided by law.

SEC. 12. Section 40200.5 of the Vehicle Code is amended to read:

40200.5. (a) Except as provided in subdivision (c) of Section 40200.4, an issuing agency may elect to contract with the county, with a private vendor, or with any other city or county issuing agency, other than the Department of the California Highway Patrol, within the county, with the consent of that other entity, for the processing of notices of parking violations and notices of delinquent parking violations, prior to filing with the court pursuant to Section 40230.

If an issuing agency contracts with a private vendor for processing services, it shall give special consideration to minority business
enterprise participation in providing those services. For purposes of
this subdivision, "special consideration" has the same meaning as
specified in subdivision (c) of Section 14838 of the Government
Code, as it relates to small business preference.
(b) Any contract entered pursuant to subdivision (a) shall
provide for monthly distribution of amounts collected between the
parties, except those amounts payable to a county pursuant to
Chapter 12 (commencing with Section 76000) of Title 8 of the
Government Code and amounts payable to the Department of
Motor Vehicles pursuant to Section 4763 of this code.
SEC. 13. Section 40200.7 of the Vehicle Code is repealed.
SEC. 14. Section 40200.7 is added to the Vehicle Code, to read:
40200.7. For a period of 21 days from the issuance of the notice
of parking violation or 10 days from the mailing of the notice of
delinquent parking violation, a person may request review by the
processing agency, or at the discretion of the processing agency, by
the issuing agency, of the issuance of a notice of parking violation or
a notice of delinquent parking violation by written request,
telephone, or in person. If the person is dissatisfied with the results
of the initial review, the person may contest through an
administrative review process the notice of parking violation or
notice of delinquent parking violation, by depositing with the
processing agency by the 10th day following the mailing to that
person of the results of the processing agency's administrative
investigation, the full amount of the parking penalty and a written
explanation of the reason for contesting the parking violation. The
processing agency shall provide, through administrative policy, a
procedure for contesting notices of parking violations and notices of
delinquent parking violations for persons who can provide verifiable
and substantial proof of their inability to deposit the full amount of
the parking penalty. If a vehicle has been immobilized or impounded
for unpaid parking violations, the processing agency shall, provided
that the vehicle remains under the control of the immobilizing or
impounding agency, permit the registered owner of the vehicle to
contest the parking violations related to the seizure of that vehicle
without requiring the deposit of the parking penalties.
SEC. 15. Section 40202 of the Vehicle Code is amended to read:
40202. (a) If a vehicle is unattended during the time of the
violation, the peace officer or person authorized to enforce parking
laws and regulations shall securely attach to the vehicle a notice of
parking violation setting forth the violation, including reference to
the section of this code or of the local ordinance or federal statute or
regulation so violated, the approximate time thereof, and the
location where the violation occurred and fixing a time and
procedure for the registered owner or the lessee or rentee to deposit
the parking penalty or, pursuant to Section 40215, contest the
citation. The notice of parking violation shall also set forth the vehicle
license number and registration expiration date if they are visible,
the last four digits of the vehicle identification number, if that number is visible through the windshield, the color of the vehicle, and, if possible, the make of the vehicle. The notice of parking violation, or copy thereof, shall be considered a record kept in the ordinary course of business of the issuing agency and the processing agency and shall be prima facie evidence of the facts contained therein.

(b) The notice of parking violation shall be served by attaching it to the vehicle either under the windshield wiper or in another conspicuous place upon the vehicle so as to be easily observed by the person in charge of the vehicle upon the return of that person.

(c) Once the issuing officer has prepared the notice of parking violation and has attached it to the vehicle as provided in subdivisions (a) and (b), the officer shall file the notice with the processing agency. Any person, including the issuing officer and any member of the officer’s department or agency, or any peace officer who alters, conceals, modifies, nullifies, or destroys, or causes to be altered, concealed, modified, nullified, or destroyed the face of the remaining original or any copy of a citation that was retained by the officer, for any reason, before it is filed with the processing agency or with a person authorized to receive the deposit of the parking penalty, is guilty of a misdemeanor.

(d) If, during the issuance of a notice of parking violation, without regard to whether the vehicle was initially attended or unattended, the vehicle is driven away prior to attaching the notice to the vehicle, the issuing officer shall file the notice with the processing agency. The processing agency shall mail, within 15 days of issuance of the notice of parking violation, a copy of the notice of parking violation to the registered owner.

(e) If, after a copy of the notice of parking violation is attached to the vehicle, the issuing officer determines that, in the interest of justice, the notice of parking violation should be canceled, the issuing agency may recommend, in writing, that the charges be canceled. The recommendation shall cite the reasons for the recommendation and shall be filed with the processing agency.

(f) If the processing agency makes a finding that there are grounds for cancellation, the finding shall be entered on the record and the notice of parking violation shall be canceled pursuant to paragraph (1) of subdivision (a) of Section 42215.

(g) Under no circumstances shall a personal relationship with any officer, public official, or law enforcement agency be grounds for cancellation.

SEC. 16. Section 40203.5 of the Vehicle Code is amended to read:
40203.5. (a) The schedule of parking penalties for parking violations, late payment penalties, administrative fees, and other related charges for parking violations shall be established by the governing body of the jurisdiction where the notice of violation is issued. To the extent possible, issuing agencies within the same
county shall standardize parking penalties.
(b) Parking penalties under this article shall be collected as civil penalties.

SEC. 17. Section 40204 of the Vehicle Code is amended to read: 40204. If the parking penalty is received by the person authorized to receive the deposit of the parking penalty and there is no contest as to that parking violation, the proceedings under this article shall terminate.

SEC. 18. Section 40205 of the Vehicle Code is amended to read: 40205. If a person contests the parking violation, the processing agency shall proceed in accordance with Section 40215.

SEC. 19. Section 40206 of the Vehicle Code is amended to read: 40206. (a) If the payment of the parking penalty is not received by the person authorized to receive a deposit of the parking penalty by the date fixed on the notice of parking violation under Section 40202, the processing agency shall deliver to the registered owner a notice of delinquent parking violation.
(b) Delivery of a notice of delinquent parking violation under this section may be made by personal service or by first-class mail addressed to the registered owner, as shown on records of the Department of Motor Vehicles.

SEC. 20. Section 40206.5 of the Vehicle Code is amended to read: 40206.5. (a) Within 15 days of a request, by mail or in person, the processing agency shall mail or otherwise provide to any person who has received a notice of delinquent parking violation, or his or her agent, a photostatic copy of the original notice of parking violation or an electronically produced facsimile of the original notice of parking violation. The issuing agency may charge a fee sufficient to recover the actual cost of providing the copy, not to exceed two dollars ($2). Until the issuing agency complies with a request for a copy of the original notice of parking violation, the processing agency may not proceed pursuant to subdivision (i) of Section 22651, Section 22651.7, or Section 40220.
(b) If the description of the vehicle on the notice of parking violation does not substantially match the corresponding information on the registration card for that vehicle, the processing agency shall, on written request of the person cancel the notice of parking violation without the necessity of an appearance by that person.
(c) For purposes of this section, a copy of the notice of parking violation may be a photostatic copy or an electronically produced facsimile.

SEC. 21. Section 40207 of the Vehicle Code is amended to read: 40207. The notice of delinquent parking violation shall contain the information specified in Section 40202 and subdivision (a) of Section 40203, and, additionally shall contain a notice to the registered owner that, unless the registered owner pays the parking penalty or contests the citation within 10 days after mailing of the notice of delinquent parking violation or completes and files an
affidavit of nonliability which complies with Section 40208 or 40209, the renewal of the vehicle registration shall be contingent upon compliance with the notice of delinquent parking violation. If the registered owner, by appearance or by mail, makes payment to the processing agency within 10 days of the mailing of the notice of delinquent parking violation, the parking penalty shall consist of the amount of the original penalty without any additional administrative fees or charges.

SEC. 22. Section 40209 of the Vehicle Code is amended to read:

40209. If the affidavit of nonliability is returned to the processing agency within 30 days of the mailing of the notice of delinquent parking violation together with the proof of a written lease or rental agreement between a bona fide rental or leasing company, and its customer which identifies the rentee or lessee and provides the driver's license number, name, and address of the rentee or lessee, the processing agency shall serve or mail to the rentee or lessee identified in the affidavit of nonliability a notice of delinquent parking violation. If payment is not received within 15 days of the mailing of the notice of delinquent parking violation, the processing agency may proceed against the rentee or lessee pursuant to Section 40220.

SEC. 23. Section 40210 of the Vehicle Code is amended to read:

40210. (a) If the affidavit of nonliability is returned with evidence that the registered owner served has made a bona fide sale or transfer of the vehicle and has delivered possession thereof to the purchaser prior to the date of the alleged violation, the processing agency shall obtain verification from the department that the registered owner has complied with Section 5602.

(b) If the registered owner has complied with Section 5602, the processing agency shall cancel the notice of delinquent parking violation with respect to the registered owner.

(c) If the registered owner has not complied with Section 5602, the processing agency shall inform the registered owner that the citation shall be paid in full or contested pursuant to Section 40200.7. If the registered owner does not comply, the processing agency shall proceed pursuant to Section 40220.

SEC. 24. Section 40211 of the Vehicle Code is amended to read:

40211. (a) If the registered owner, or an agent of the registered owner, or a rentee or lessee who was served with the notice of delinquent parking violation pursuant to Section 40206 or subdivision (b) of Section 40209, or any other person who presents the notice of parking violation or notice of delinquent parking violation after the notice of delinquent parking violation has been issued for delivery under Section 40206, deposits the parking penalty with a person authorized to receive it, the processing agency shall do both of the following:

(1) Deliver a copy of the notice of delinquent parking violation issued under Section 40206 or an electronically reproduced listing of
the citation information presented in a notice of delinquent parking violation to the person and record the name, address, and driver’s license number of the person actually given the copy in the records of the issuing agency.

For the purposes of this paragraph, a copy of the notice of delinquent parking violation may be a photostatic copy.

(2) Determine whether the notice of delinquent parking violation has been filed with the department pursuant to subdivision (b) of Section 40220 or a civil judgment has been entered pursuant to Section 40220.

(b) If the notice of delinquent parking violation has not been filed with the department or judgment entered and payment of the parking penalty and any applicable assessments is received, the proceedings under this article shall terminate.

(c) If the notice of delinquent parking violation has been filed with the department, has been returned under subdivision (b) or (c) of Section 4760 or Section 4764, and payment of the parking penalty together with the administrative service fee of the processing agency for costs of service and any applicable assessments is received, the proceedings under this article shall terminate.

2. Immediately transmit the payment information to the department in the manner prescribed by the department.
3. Terminate proceedings on the notice of delinquent parking violation.
4. Transmit for deposit all parking penalties and assessments in accordance with law.

SEC. 25. Section 40215 of the Vehicle Code is repealed.

SEC. 26. Section 40215 is added to the Vehicle Code, to read:

40215. (a) If a person contests a notice of parking violation or a notice of delinquent parking violation, the processing agency shall do the following:

1. The processing agency shall either investigate with its own records and staff or request that the issuing agency investigate the circumstances of the citation with respect to the contestant’s written explanation of reasons for contesting the parking violation. If, based upon the results of that investigation, the processing agency is satisfied that the violation did not occur or that the registered owner was not responsible for the violation, the processing agency shall cancel the notice of parking violation and make an adequate record
of the reasons for canceling the notice. The processing agency shall mail the results of the investigation to the person who contested the notice of parking violation or the notice of delinquent parking violation.

(2) If the person contesting a notice of parking violation or notice of delinquent parking violation is not satisfied with the results of the investigation provided for in paragraph (1), the person may, within 15 days of the mailing of the results of the investigation, deposit the amount of the parking penalty and request an administrative review.

(b) Administrative review procedure described in paragraph (2) of subdivision (a) shall consist of the following:

(1) The person requesting an administrative review shall indicate to the processing agency his or her election for a review by mail or personal conference.

(2) If the person requesting a hearing is a minor, that person shall be permitted to appear at a hearing or admit responsibility for a parking violation without the necessity of the appointment of a guardian. The processing agency may proceed against that person in the same manner as if that person were an adult.

(3) The administrative review shall be conducted before an examiner designated to conduct the review by the issuing agency’s governing body or chief executive officer.

In addition to any other requirements of employment, an examiner shall demonstrate those qualifications, training, and objectivity prescribed by the issuing agency’s governing body or chief executive as are necessary and which are consistent with the duties and responsibilities set forth in this article. The examiner’s continued employment, performance evaluation, compensation, and benefits shall not be directly or indirectly linked to the amount of fines collected by the examiner.

(4) The officer or person authorized to issue a notice of parking violation shall not be required to participate in an administrative review. The issuing agency shall not be required to produce any evidence other than the notice of parking violation or copy thereof, and information received from the Department of Motor Vehicles identifying the registered owner of the vehicle. The documentation in proper form shall be considered prima facie evidence of the violation.

(5) The review shall be conducted in accordance with the written procedure established by the posing or processing agency which shall ensure fair and impartial review of contested parking violations. The agency’s final decision may be delivered personally to the person by the examiner or to the person by first-class mail.

SEC. 27. Section 40220 of the Vehicle Code is amended to read:

40220. Except as otherwise provided in Sections 40221 and 40222, the processing agency shall proceed under only one of the following options in order to collect an unpaid parking penalty:

(a) File an itemization of unpaid parking penalties and
administrative and service fees with the department for collection with the registration of the vehicle pursuant to Section 4760. (b) If more than four hundred dollars ($400) in unpaid penalties and fees have been accrued by any person or registered owner, proof thereof may be filed with the court with the same effect as a civil judgment. Execution may be levied and other measures may be taken for the collection of the judgment as are authorized for the collection of an unpaid civil judgment entered against a defendant in an action on a debtor. The court may assess costs against a judgment debtor to be paid upon satisfaction of the judgment. The processing agency shall send a notice by first-class mail to the person or registered owner indicating that a judgment shall be entered for the unpaid penalties, fees, and costs and that, after 30 days from the date of the mailing of the notice, the judgment shall have the same effect as an entry of judgment against a judgment debtor. The person or registered owner shall also be notified at that time that execution may be levied against his or her assets, liens may be placed against his or her property, his or her wages may be garnisheed, and other steps may be taken to satisfy the judgment. If a judgment is rendered for the processing agency, that agency may contract with a collection agency licensed pursuant to Chapter 8 (commencing with Section 6850) of Division 3 of the Business and Professions Code to collect the amount of that judgment.

Notwithstanding any other provision of law, the processing agency shall pay the established first paper civil filing fee at the time an entry of civil judgment is requested.

(c) If the registration of the vehicle has not been renewed for 60 days beyond the renewal date, and the citation has not been collected by the department pursuant to Section 4760, file proof of unpaid penalties and fees with the court with the same effect as a civil judgment as provided in subdivision (b).

SEC. 28. Section 40221 of the Vehicle Code is amended to read:

40221. The processing agency shall not file a civil judgment with the court relating to a parking violation which has been filed with the department unless the processing agency has determined that the registration of the vehicle has not been renewed for 60 days beyond the renewal date and the citation has not been collected by the department pursuant to Section 4760.

SEC. 29. Section 40224 of the Vehicle Code is amended to read:

40224. The time limitation provided by law for commencement of a civil action for a violation specified in Section 40200 shall be tolled from and after the date a notice of delinquent parking violation is filed with the department pursuant to subdivision (b) of Section 40220 until the notice is returned to the processing agency under subdivision (b) of Section 4760 or Section 4762 or 4764 or is recalled by the processing agency pursuant to subdivision (d) of Section 40215.

SEC. 30. Section 40225 of the Vehicle Code is amended to read:
40225. (a) An equipment violation entered on the notice of parking violation attached to the vehicle under Section 40203 shall be processed in accordance with this article. All of the violations entered on the notice of parking violation shall be noticed in the notice of delinquent parking violation delivered pursuant to Section 4020 "together with the amount of civil penalty."

(b) Whether or not a vehicle is in violation of any regulation governing the standing or parking of a vehicle but is in violation of subdivision (a) of Section 5204, a person authorized to enforce parking laws and regulations shall issue a written notice of violation, setting forth the alleged violation. The violation shall be processed pursuant to this section.

(c) The civil penalty for an equipment violation is thirty dollars ($30), except that upon proof of the correction to the processing agency, the penalty shall be reduced to ten dollars ($10). The civil penalty for a violation of Section 5204 is sixty dollars ($60).

(d) Fifty percent of any penalty collected pursuant to this section for registration or equipment violations by a processing agency shall be paid to the state and the remaining 50 percent shall be retained by the issuing agency and processing agency subject to the terms of the contract described in Section 40200.5.

SEC. 31. Section 40226 of the Vehicle Code is repealed.

SEC. 32. Section 40230 of the Vehicle Code is repealed.

SEC. 33. Section 40230 is added to the Vehicle Code, to read:

40230. (a) Within 20 days after the mailing of the final decision described in subdivision (b) of Section 40215, the contestant may seek review by filing an appeal to the justice or municipal court, where the same shall be heard de novo, except that the contents of the processing agency’s file in the case shall be received in evidence. A copy of the notice of parking violation shall be admitted into evidence as prima facie evidence of the facts stated therein. A copy of the notice of appeal shall be served in person or by first-class mail upon the processing agency by the contestant. For purposes of computing the 20-day period, Section 1013 of the Code of Civil Procedure shall be applicable.

(b) The fee for filing the notice of appeal shall be twenty-five dollars ($25). If the appellant prevails, this fee, together with any deposit of parking penalty, shall be promptly refunded by the processing agency in accordance with the judgment of the court.

(c) The conduct of the hearing or appeal under this section are subordinate judicial duties which may be performed by traffic trial commissioners and other subordinate judicial officials at the direction of the presiding judge of the court.

(d) If no notice of appeal of the processing agency’s decision is filed within the period set forth in subdivision (a), the decision shall be deemed final.

(e) If the parking penalty has not been deposited and the decision is adverse to the contestant, the processing agency may, promptly
after the decision becomes final, proceed to collect the penalty under Section 40220.

SEC. 34. Section 40510 of the Vehicle Code is amended to read:

40510. (a) Prior to the date upon which a defendant promised to appear, or prior to the expiration of any lawful continuance of that date, or upon receipt of information that an action has been filed and prior to the scheduled court date, the defendant may deposit bail with the magistrate or the person authorized to receive a deposit of bail.

(b) For any offense which is not declared to be a felony, a deposit of bail or a penalty may be by a personal check meeting the criteria established in accordance with subdivision (c).

(c) Each court, sheriff, or other agency which regularly accepts deposits of bail or penalties, shall adopt a written policy governing the acceptance of personal checks in payment of bail or penalty deposits. The policy shall permit clerks and other appropriate officers to accept personal checks under conditions which tend to assure the validity of the checks.

(d) The written policy governing the acceptance of personal checks adopted pursuant to subdivision (c) shall provide that the payee of the deposit made by personal check shall be the agency accepting the deposit.

SEC. 35. Section 40519 of the Vehicle Code is amended to read:

40519. (a) Any person who has received a written notice to appear for an infraction may, prior to the time at which the person is required to appear, make a deposit and declare the intention to plead not guilty to the clerk of the court named in the notice to appear. The deposit shall be in the amount of bail established pursuant to Section 1269 of the Penal Code, together with any assessment required by Section 42006 of this code or Section 1464 of the Penal Code, for the offense charged, and shall be used for the purpose of guaranteeing the appearance of the defendant at the time and place scheduled by the clerk for arraignment and for trial, and to apply toward the payment of any fine or assessment prescribed by the court in the event of conviction. The case shall thereupon be set for arraignment and trial on the same date, unless the defendant requests separate arraignment.

(b) Any person who has received a written notice to appear may, prior to the time at which the person is required to appear, plead not guilty in writing in lieu of appearing in person. The written plea shall be directed to the court named in the notice to appear and, if mailed, shall be sent by certified or registered mail postmarked not later than five days prior to the day upon which appearance is required. The written plea and request to the court or city agency shall be accompanied by a deposit consisting of the amount of bail established pursuant to Section 1269 of the Penal Code, together with any assessment required by Section 42006 of this code or Section 1464 of the Penal Code, for that offense, which amount shall be used for the
purpose of guaranteeing the appearance of the defendant at the time and place set by the court for trial and to apply toward the payment of any fine or assessment prescribed by the court in the event of conviction. Upon receipt of the plea and deposit, the case shall be set for arraignment and trial on the same date, unless the defendant requests separate arraignment. Thereafter, the case shall be conducted in the same manner as if the defendant had appeared in person, had made his or her plea in open court, and had deposited that sum as bail. The court or the clerk of the court shall notify the accused of the time and place of trial by first-class mail postmarked at least 10 days prior to the time set for the trial. Any person using this procedure shall be deemed to have waived the right to be tried within the statutory period.

(c) Any person using the procedure set forth in subdivision (a) or (b) shall be deemed to have given a written promise to appear at the time designated by the court for trial, and failure to appear at the trial shall constitute a misdemeanor.

SEC. 36. Section 40521 of the Vehicle Code is amended to read:

40521. (a) Except when personal appearance is required by the bail schedule established under Section 1269b of the Penal Code, a person to whom a notice to appear has been issued under Section 40500, who intends to forfeit bail and to pay any assessment may forward by United States mail the amount fixed as bail, together with the appropriate amount of any assessment, to the person authorized to receive a deposit of bail. The amounts may be paid in the form of a personal check which meets the criteria established pursuant to subdivision (c) of Section 40510, or a bank cashier’s check or a money order. Bail and any assessment shall be paid not later than the day of appearance set forth in the notice to appear or prior to the expiration of any lawful continuance of that date.

(b) Bail forwarded by mail is effective only when the funds are actually received.

(c) Section 40512 is applicable to bail paid pursuant to this section. Upon the making of the order pursuant to Section 40512 that no further proceedings be had, the amount paid as bail shall be paid into the city or county treasury, as the case may be, and the assessment shall be transmitted to the State Treasurer in the manner provided in Section 1464 of the Penal Code.

SEC. 37. Section 41102 of the Vehicle Code is repealed.

SEC. 38. Section 26 of this act shall be fully implemented by January 1, 1994. During the period from July 1, 1993, to December 31, 1993, inclusive, a person who is not entitled to contest a notice of parking violation or notice of delinquent parking violation in a court or in an administrative review described in Section 40215 of the Vehicle Code, may contest the notice in a court proceeding utilizing the administrative review procedure described in Section 40215 of the Vehicle Code.

SEC. 39. This act shall become operative on July 1, 1993.
SEC. 40. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.
